The Master of Arts in English Language Learning (PreK-12) is a competency-based degree program that prepares already licensed teachers both to be licensed to teach in English Language Learning (ELL) settings and to develop significant skills in ELL curriculum development, design, and evaluation. All work in this degree program is online and includes ELL Content and Methodology, Research Fundamentals, and Instructional Design. All students complete a capstone project.
Understanding the Competency-Based Approach

Practically speaking, what does it mean when we say that WGU’s programs are competency-based? Unlike traditional universities, WGU does not award degrees based on credit hours or on a certain set of required courses. Instead, you will earn your degree by demonstrating your skills, knowledge, and understanding of important concepts through a series of carefully designed courses.

Progress through your degree program is governed not by classes but by satisfactory completion of the required courses that demonstrate your mastery of the competencies. Of course, you will need to engage in learning experiences as you brush up on competencies or develop knowledge and skills in areas in which you may be weak. For this learning and development, WGU has a rich array of learning resources in which you may engage under the direction of your student mentor. You will work closely with your mentor to schedule your program for completing the courses. You will also work closely with additional faculty members as you proceed through courses of study that are designed to lead you through the content you must master in order to pass the assessment(s) for each course.

The benefit of this competency-based system is that it makes it possible for people who are knowledgeable about a particular subject to make accelerated progress toward completing a WGU degree, even if they lack college experience. You may have gained skills and knowledge of a subject while on the job, accumulated wisdom through years of life experience, or, indeed, taken a course on a particular subject. WGU will award your degree based on the skills and knowledge that you possess and can demonstrate—not the number of credits hours on your transcript.

Accreditation

Western Governors University is the only university in the history of American higher education to have earned accreditation from four regional accrediting commissions. WGU’s accreditation was awarded by (1) the Northwest Commission on Colleges and Universities, (2) the Higher Learning Commission of the North Central Association of Colleges and Schools, (3) the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges, and (4) the Accrediting Commission for Senior Colleges and Universities of the Western Association of Schools and Colleges. The university’s accreditation status is now managed by the Northwest Commission on Colleges and Universities (NWCCU). The WGU Teachers College is accredited by the National Council for Accreditation of Teacher Education (NCATE). The nursing programs are accredited by the Commission on Collegiate Nursing Education (CCNE). The Health Informatics program is accredited by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM).

The Degree Plan

The focus of your program is your personalized Degree Plan. The Degree Plan is a detailed blueprint of the courses you will need to complete in order to earn your degree. The Degree Plan also lays out the accompanying learning resources and assessments that compose your program. The list of courses in the Degree Plan is often referred to as the standard path. The amount of time it takes to complete your program depends on both the amount of new information you need to learn and the amount of time you plan to devote each week to study.
Students will vary widely in the specific skills and information they need to learn. For example, some students may be highly knowledgeable in a particular subject matter and would not need to engage in new learning opportunities. Other students may find that portions of the program require them to learn new information and that they may need to take an online class or participate in a study module to acquire the knowledge and skills needed to pass the program competencies in that area. Some individuals may be able to devote as little as 15–20 hours per week to the program, while others may need to devote more time. For this reason, you will complete preassessments to help your mentor form a profile of your prior knowledge and experience for use in creating your personalized Degree Plan.

**WGU’s Mentoring Approach**

The mentoring approach is a powerful component of the WGU educational experience. When you enroll at WGU, you will begin interacting with your student mentor, course mentors, and other support staff. Your student mentor will meet with you on a regular basis and take an active role and a personal interest in your success. Your student mentor will be your point of contact throughout your program and will be available to communicate with you via e-mail or phone. Your mentor will help you set weekly study goals, guide you to learning materials, help you understand what to expect in courses, and motivate you to work hard to complete your program. When you have questions or concerns, your mentor will help you resolve them.

As you work on each course, you will also be assigned course mentors. These course mentors are content experts who can discuss your learning for the course, help you find answers to content questions, and help you navigate the course successfully. Your course mentors are available to meet with you individually to provide personal support. You can also communicate with them by posting in the online learning community and participating in live discussion sessions such as webinars and cohorts.

Working closely with your own personal mentoring team will help you engage in the learning process and be a successful student while at WGU.

**Connecting with Other Mentors and Fellow Students**

As you proceed through your Degree Plan, you will have direct contact with multiple faculty members. These communications can take a variety of forms, including participation in one-on-one discussions, chats in the learning communities, and live cohort and webinar opportunities. As a WGU student, you will have access to your own personal myWGU Student Portal, which will provide a gateway to your courses of study, learning resources, and learning communities where you will have interactions with faculty and other students.

The resources in each course are specifically designed to support you as you develop competencies in preparation for your assessments through the utilization of reading materials, videos, tutorials, cohort opportunities, community discussions, and live discussions that are guided by content experts. You will access your program community during your orientation course to network with peers who are enrolled in your program and to receive continued support through professional enrichment and program-specific chats, blogs, and discussions. WGU also provides Student Services Associates to help you and your mentor solve any special problems that may arise.
Orientation

The WGU orientation course focuses on acquainting you with WGU’s competency-based model, distance education, technology, and other resources and tools available for students. You will also utilize WGU program and course communities, participate in activities, and get to know other students at WGU. The orientation course must be completed before you can start your first term at WGU.

Transferability of Prior College Coursework

Because WGU is a competency-based institution, it does not award degrees based on credits but rather on demonstration of competency. However, if you have completed college coursework at another accredited institution, or if you have completed industry certifications, you may have your transcripts and certifications evaluated to determine if you are eligible to receive some transfer credit. The guidelines for determining what credits will be granted varies based on the degree program. Students entering graduate programs must have their undergraduate degree verified before being admitted to WGU. To review more information in regards to transfer guidelines based on the different degree programs, you may visit the Student Handbook found at the link below and search for “Transfer Credit Evaluation.” Within the Teachers College, there may be additional courses to meet state requirements.

Click here for the Student Handbook

WGU does not waive any requirements based on a student’s professional experience and does not perform a “résumé review” or “portfolio review” that will automatically waive any degree requirements. Degree requirements and transferability rules are subject to change in order to keep the degree content relevant and current.

Remember, WGU’s competency-based approach lets you take advantage of your knowledge and skills, regardless of how you obtained them. Even when you do not directly receive credit, the knowledge you possess may help you accelerate the time it takes to complete your degree program.

Continuous Enrollment, On Time Progress, and Satisfactory Academic Progress

WGU is a “continuous enrollment” institution, which means you will be automatically enrolled in each of your new terms while you are at WGU. Each term is six months long. Longer terms and continuous enrollment allow you to focus on your studies without the hassle of unnatural breaks between terms that you would experience at a more traditional university. At the end of every six-month term, you and your student mentor will review the progress you have made and revise your Degree Plan for your next six-month term.

WGU requires that students make measurable progress toward the completion of their degree programs every term. We call this “On-Time Progress,” denoting that you are on track and making progress toward on-time graduation. As full-time students, graduate students must enroll in at least eight (8) competency units each term, and undergraduate students must enroll in at least twelve (12) competency units each term. Completing at least these minimum enrollments is essential to On-Time Progress and serves as a baseline from which you may accelerate your program. We measure your progress based on the courses you are able to pass, not on your accumulation of credit hours or course grades. Every time you pass a course you are demonstrating that you have mastered skills and knowledge in your degree program. For comparison to traditional grading systems, passing a course means you have
demonstrated competency equivalent to a “B” grade or better.

WGU assigns competency units to each course in order to track your progress through the program. A competency unit is equivalent to one semester credit of learning. Some courses may be assigned 3 competency units while others may be as large as 12 competency units.

Satisfactory Academic Progress (SAP) is particularly important to students on financial aid because you must achieve SAP in order to maintain eligibility for financial aid. We will measure your SAP quantitatively by reviewing the number of competency units you have completed each term. In order to remain in good academic standing, you must complete at least 66.67% of the units you attempt over the length of your program—including any courses you add to your term to accelerate your progress. Additionally, during your first term at WGU you must pass at least 3 competency units in order to remain eligible for financial aid. We know that SAP is complex, so please contact a financial aid counselor should you have additional questions. *Please note: The Endorsement Preparation Program in Educational Leadership is not eligible for federal financial aid.

Courses

Your Degree Plan includes courses needed to complete your program. To obtain your degree, you will be required to demonstrate your skills and knowledge by completing the assessment(s) for each course. In general there are two types of assessments: performance assessments and objective assessments. Performance assessments contain, in most cases, multiple scored tasks such as projects, essays, and research papers. Objective assessments include multiple-choice items, multiple-selection items, matching, short answer, drag-and-drop, and point-and-click item types, as well as case study and video-based items. Certifications verified through third parties may also be included in your program. More detailed information about each assessment is provided in each course of study.

External Content & Basic Skills Exams

Western Governors University requires that candidates pass the state-mandated content exam that aligns with their WGU program in addition to a basic skills exam (initial licensure programs only). Specific information regarding required content and basic skills exams required for each program and state can be found in the WGU Student Handbook. In many cases, it is the candidates’ responsibility to register and pay for the required exams and submit their official passing score reports to WGU.

State Licensure Requirements

Many states have specific licensure requirements that are not part of WGU programs that you will have to fulfill in addition to the degree requirements of your program. These state licensure requirements might include, but are not limited to: subject-specific licensure exams, state-specific teacher performance assessments, course work related to state history, basic skills exams, and background clearances. The WGU Student Handbook outlines the credentialing requirements of each state. Teacher candidates should consult the applicable section to become familiar with their state’s expectations regarding licensure.
Learning Resources

You will work with your mentor to select the various learning resources needed to prepare for the assessments in each course. In most cases, the learning materials you will use are independent learning resources such as textbooks, e-learning modules, study guides, simulations, virtual labs, and tutorials. WGU works with dozens of educational providers, including enterprises, publishers, training companies, and higher educational institutions to give you high-quality and effective instruction that matches the competencies that you are developing. The cost of most learning resources is included in your tuition, and you can enroll directly in those through your Degree Plan as your mentor has scheduled them. Some resources are not covered by your tuition, and you will need to cover those costs separately. WGU has excellent bookstore and library arrangements to help you obtain the needed learning resources.

Standard Path

As previously mentioned, competency units (CUs) have been assigned to each course in order to measure your academic progress. If you are an undergraduate student, you will be expected to enroll in a minimum of 12 competency units each term. Graduate students are expected to enroll in a minimum of 8 competency units each term. A standard plan for a student for this program who entered WGU without any transfer units would look similar to the one on the following page. Your personal progress can be faster, but your pace will be determined by the extent of your transfer units, your time commitment, and your determination to proceed at a faster rate.

Changes to Curriculum

WGU publishes an Institutional Catalog, which describes the academic requirements of each degree program. Although students are required to complete the program version current at the time of their enrollment, WGU may modify requirements and course offerings within that version of the program to maintain the currency and relevance of WGU’s competencies and programs. As these changes are implemented, WGU will ensure that the length of the student’s degree program (i.e., total competency unit requirements) will not increase and that competency units already earned will be applied to the updated program version. When program requirements are updated, students returning from term break or returning after withdrawal from the university will be expected to re-enter the updated version of the program.
Areas of Study for Master of Arts, English Language Learning (PreK-12)

The following section includes the areas of study in the program, with their associated courses. Your specific learning resources and level of instructional support will vary based on the individual competencies you bring to the program and your confidence in developing the knowledge, skills, and abilities required in each area of the degree. The Degree Plan and learning resources are dynamic, so you need to review your Degree Plan and seek the advice of your mentor regarding the resources before you purchase them.

English Language Learning

Culture
Focuses on the nature and role of culture and the importance of cultural groups and cultural identity.

This course covers the following competencies:

- The graduate knows, understands, and uses knowledge of how cultural groups and students' cultural identities affect language learning and school achievement.

Language Production, Theory and Acquisition
Language Production, Theory and Acquisition focuses on describing and understanding language and the development of language. It includes the study of acquisition theory, grammar, and applied phonetics.

This course covers the following competencies:

- The graduate understands and applies concepts, linguistic theories, research, knowledge of the structure of English, and sociolinguistics to facilitate the acquisition of new language in and out of classroom settings.
- The graduate understands language as a system and applies this understanding to help English Language Learning (ELL) students acquire and use English in listening, speaking, reading, and writing for social and academic purposes.

Theories of Second Language Acquisition and Grammar
Theories of Second Language Learning Acquisition and Grammar covers content material in applied linguistics, including morphology, syntax, semantics, and grammar. Students will explore the role of dialect in the classroom, the connections between language and culture, and the theories of first and second language acquisition.

This course covers the following competencies:

- The graduate knows, understands, and uses the major concepts, principles, theories, and research related to the nature and role of culture in language development and academic achievement.
- The graduate understands and applies concepts, linguistic theories, research, knowledge of the structure of English, and sociolinguistics to facilitate the acquisition of new language in and out of classroom settings.
- The graduate understands language as a system and applies this understanding to help English Language Learning (ELL) students acquire and use English in listening, speaking, reading, and writing for social and academic purposes.
- The graduate knows, understands, and uses knowledge of how cultural groups and students' cultural identities affect language learning and school achievement.

Planning, Implementing, Managing Instruction
Planning, Implementing, Managing Instruction focuses on a variety of philosophies and grade levels of English Language Learner (ELL) instruction. It includes the study of ELL listening and speaking, ELL reading and writing, specially designed academic instruction in English (SDAIE), and specific issues for various grade level instruction.
This course covers the following competencies:

- The graduate is familiar with a wide range of standards-based materials, resources, and technologies, and chooses, adapts, and can use them in effective ELL and content teaching.
- The graduate knows, understands, and applies concepts, research, and best practices to plan classroom instruction in a supportive learning environment for ELL students.
- The graduate knows, develops, manages, and implements a variety of standards-based teaching strategies and techniques for developing and integrating English listening, speaking, reading, and writing, and for accessing the core curriculum.

Assessment Theory and Practice
Assessment Theory and Practice focuses on issues central to assessment in the ELL environment, including high-stakes testing, standardized tests, placement and exit assessment, formative and summative assessments, and making adaptations in assessments to meet the needs of ELL students.

This course covers the following competencies:

- The graduate knows and uses a variety of performance-based assessment tools and techniques to inform instruction of ELL students.
- The graduate understands various issues of IQ assessment (e.g., cultural and linguistic bias; political, social, and psychological factors) and special education testing (including gifted and talented); the importance of standards; and the difference between language proficiency and other types of assessment (e.g., standardized achievement tests of overall mastery) as they affect ELL student learning.
- The graduate knows and uses a variety of standards-based language proficiency instruments to inform instruction and understands the use of these instruments for identification, placement, and demonstration of language growth of ELL students.

Professional Role of the ELL Teacher
The Professional Role of the ELL Teacher focuses on issues of professionalism for the English Language Learning teacher and leader. This includes program development, ethics, engagement in professional organizations, serving as a resource, and ELL advocacy.

This course covers the following competencies:

- The graduate demonstrates knowledge of design and implementation of ELL programs and models as well as the regulations affecting them.
- The graduate collaborates with and is prepared to serve as a resource to all staff, including paraprofessionals, to improve learning for all ELL students.
- The graduate demonstrates knowledge of history, legal decisions, research, and current practice in the field of ELL teaching and applies this knowledge to improve teaching and learning.

Subject Specific Pedagogy: ELL
Subject Specific Pedagogy: ELL integrates aspects of pedagogy, assessment, and professionalism in English Language Learning (ELL). A student develops and assesses aspects of language curriculum development including second language instruction, methods of second language assessment, and legal policy issues.

This course covers the following competencies:

- The graduate knows and uses a variety of performance-based assessment tools and techniques to inform instruction of ELL students.
- The graduate knows, understands, and applies concepts, research, and best practices to plan classroom instruction in a supportive learning environment for ELL students.
● The graduate demonstrates knowledge of history, legal decisions, research, and current practice in the field of ELL teaching and applies this knowledge to improve teaching and learning.

● The graduate understands the importance of acting as a professional resource, advocating for ELL students, and building partnerships with students’ families.

● The graduate knows, develops, manages, and implements a variety of standards-based teaching strategies and techniques for developing and integrating English listening, speaking, reading, and writing, and for accessing the core curriculum.

● The graduate understands various issues of IQ assessment (e.g., cultural and linguistic bias; political, social, and psychological factors) and special education testing (including gifted and talented); the importance of standards; and the difference between language proficiency and other types of assessment (e.g., standardized achievement tests of overall mastery) as they affect ELL student learning.

● The graduate knows and uses a variety of standards-based language proficiency instruments to inform instruction and understands the use of these instruments for identification, placement, and demonstration of language growth of ELL students.

Field Experience for ELL
Field Experience for ELL is the field experience component of the English Language Learning program. In this experience, students are required to complete a minimum of 15 hours of observations at both elementary and secondary levels. Additionally, a supervised teaching experience that is face-to-face with English language learners according to the minimum time requirements of your state is required. The purpose of this course is to assess the ability of the student including their engagement in field experience activities, ability to reflect on and then plan standards-based instruction in ELL, and their ability to locate and effectively use resources for teaching ELL to meet the needs of their individual students.

This course covers the following competencies:

● The graduate knows, understands, and applies concepts, research, and best practices to plan classroom instruction in a supportive learning environment for ELL students.

● The graduate understands the importance of acting as a professional resource, advocating for ELL students, and building partnerships with students’ families.

● The graduate understands and applies concepts, linguistic theories, research, knowledge of the structure of English, and sociolinguistics to facilitate the acquisition of new language in and out of classroom settings.

● The graduate understands language as a system and applies this understanding to help English Language Learning (ELL) students acquire and use English in listening, speaking, reading, and writing for social and academic purposes.

● The graduate knows, develops, manages, and implements a variety of standards-based teaching strategies and techniques for developing and integrating English listening, speaking, reading, and writing, and for accessing the core curriculum.

● The graduate knows, understands, and uses knowledge of how cultural groups and students’ cultural identities affect language learning and school achievement.

Research Fundamentals

Research Foundations
The Research Foundations course focuses on the essential concepts in educational research, including quantitative, qualitative, mixed, and action research; measurement and assessment; and strategies for obtaining warranted research results.

This course covers the following competencies:

● The graduate develops clear research questions that can be investigated and hypotheses that can be tested with empirical data.
● The graduate completes a research proposal.
● The graduate analyzes the key aspects of action research and characterizes the major approaches to action research.
● The graduate analyzes the key aspects of mixed methods research and characterizes the major approaches to mixed methods research.
● The graduate analyzes the key aspects of quantitative research and characterizes the major approaches to quantitative research.
● The graduate analyzes ethical issues and identifies appropriate procedures for educational research.
● The graduate analyzes the key aspects of qualitative research and characterizes the major approaches to qualitative research.
● The graduate analyzes different measurement scales and differentiates between reliability and validity, and their subtypes, as they relate to assessments.
● The graduate differentiates among the major methods of data collection, including their strengths and limitations in the selection of an appropriate method of data collection.
● The graduate applies and justifies appropriate research methods and design in quantitative, qualitative, mixed methods, and action research scenarios to address the research question(s).
● The graduate evaluates the purpose, process, and practice of the generation and justification of knowledge in educational research.
● The graduate evaluates and selects appropriate basic data analysis techniques for quantitative, qualitative, mixed methods, and action research scenarios.
● The graduate describes the purpose for a literature review and develops an organized literature review relevant to educational research topics, problems, and questions.
● The graduate analyzes the characteristics of research quality and the potential threats to the quality of results in qualitative, quantitative, mixed methods, and action research studies.

Research Questions and Literature Review
The Research Questions and Literature Reviews course focuses on how to conduct a thorough literature review that addresses and identifies important educational research topics, problems, and questions, and helps determine the appropriate kind of research and data needed to answer one’s research questions and hypotheses.

This course covers the following competencies:
● The graduate develops clear research questions that can be investigated and hypotheses that can be tested with empirical data.
● The graduate differentiates among the major methods of data collection, including their strengths and limitations in the selection of an appropriate method of data collection.
● The graduate describes the purpose for a literature review and develops an organized literature review relevant to educational research topics, problems, and questions.

Teacher Work Sample

Teacher Work Sample in English Language Learning
The Teacher Work Sample is a culmination of the wide variety of skills learned during your time in the Teachers College at WGU. In order to be a competent and independent classroom teacher, you will showcase a collection of your content, planning, instructional, and reflective skills in this professional assessment.

This course covers the following competencies:
• The graduate applies instructional strategies that promote learning, engage students, and provide differentiated instruction.

• The graduate evaluates the teaching context to accommodate student differences to plan for instruction and assessment.

• The graduate plans comprehensive learning segments of instruction and assessment that align with standards and the needs of students.

• The graduate integrates strategies to develop academic language that facilitates effective student participation and engagement in learning.

• The graduate evaluates teaching experiences including the planning and implementing of curriculum and instruction through ongoing reflection.

• The graduate utilizes assessment data to profile student learning, communicate information about student progress and achievement, and guide and modify instruction.

• The graduate plans learning environments that support individual learning, collaboration, and positive social interaction.
Need More Information? WGU Student Services

WGU’s Student Services team is dedicated exclusively to helping you achieve your academic goals. The Student Services office is available during extended hours to assist with general questions and administrative or accessibility issues. The Student Services team members help you resolve issues, listen to student issues and concerns, and make recommendations for improving policy and practice based on student feedback. The Student Services team provides a formal means by which you can express your views, which in turn will inform the decisions we make.

Student Services team members also assist with unresolved concerns to find equitable resolutions. To contact the Student Services team, please feel free to call 877-435-7948 or e-mail studentservices@wgu.edu. We are available Monday through Friday from 6:00 a.m. to 10:00 p.m., Saturday from 7:00 a.m. to 7:00 p.m., and Sunday from 10:00 a.m. to 7:00 p.m., mountain standard time.

If you have inquiries or concerns that require technical support, please contact the WGU IT Service Desk. The IT Service Desk is available Monday through Friday, 6:00 a.m. to 10:00 p.m. and Saturday and Sunday, 10:00 a.m. to 7:00 p.m., mountain standard time. To contact the IT Service Desk, please call 1-877-HELP-WGU (877-435-7948) or e-mail servicedesk@wgu.edu.

For the most current information regarding WGU support services, please visit “Student Support” on the Student Portal at http://my.wgu.edu.
