Welcome...

Welcome to the 2013 Criminology catalogue. In the following pages you will find details of SAGE’s exciting new publications as well as our classic and bestselling titles.

We are delighted to be able to present a fantastic range of texts to support students at every stage of their degree, from introductory textbooks such as Richard Jones’ new *An Introduction to Theoretical Criminology* right through to higher-level titles including a new edition of Cavadino, Dignan and Mair’s *The Penal System Fifth Edition*, and books that students can use throughout their entire degree and beyond such as McLaughlin & Muncie’s *Criminological Perspectives Third Edition*.

You will also find details of our new reference works and information on our field-leading journals, as well as our most up-to-date collection of research methods and study skills texts.

SAGE is internationally renowned for our carefully-curated, high-quality, award-winning reference programme and we are proud to present the following new major reference works: David Wall’s *Cybercrime* and Katja Franko Aas’ *Globalization & Crime*.

We hope you enjoy the range of books within and would love to receive your feedback – contact details can be found on the page opposite. If you would like to discuss writing a book for SAGE please contact our Editor, Natalie Aguilera.

This catalogue includes only our most recent and popular titles so if you can’t find what you’re looking for, or if you are interested in learning more about forthcoming titles, please visit our website at www.sagepub.co.uk where you can find full details of all of our books, journals and electronic products. You can sign-up for new product alerts to keep you up-to-date with our latest books, and table of contents alerts so you are informed of new journal issues as soon as they publish. We hope you will enjoy reading our books and journals throughout 2013 and beyond.

The SAGE Dictionary of Criminology

Third Edition

Edited by Eugene McLaughlin University of Southampton and John Muncie The Open University

With the publication of the third edition of this work Eugene McLaughlin and John Muncie have consolidated their position as criminology’s lexicographers. This thoughtful compilation will allow students to enhance their appreciation of the discipline’s boundaries while at the same time sharpening their critical faculties so that they can redraw them.

— Ian O’Donnell, Professor of Criminology, University College Dublin

Now in its Third Edition, this bestselling reference text has established itself as the authoritative source covering the key concepts, theories, and methods in criminology and criminal justice. Edited by two of the leading figures in the field, the book is:

- comprehensive: with now over 300 entries, the third edition has been updated to include new entries and an expanded editorial introduction
- definitive: concepts are precisely defined so students have a clear understanding of the history and development of each topic and debate
- student-focused: each entry maps connections across various fields and issues and includes further reading to extend students’ knowledge throughout their studies
- international: contributions from internationally renowned academics and practitioners ensure that this book is global and comparative throughout.

This wide-ranging reference and research tool will be an essential companion for students and academics within criminology, criminal justice and legal studies and related fields including sociology, social policy, psychology and cultural studies.

CRIMINOLOGICAL PERSPECTIVES

Essential Readings
Third Edition
Edited by Eugene McLaughlin University of Southampton and John Muncie The Open University

This revised and expanded Third Edition of the internationally acclaimed Criminological Perspectives is the most comprehensive reader available in the field. In addition to including essays which have had a seminal influence on the development of criminology, the book reflects on the range of criminological thinking in the twenty-first century. Wide-ranging and global in scope and coverage, this text will enable students to engage with the key concepts, theoretical debates and empirical issues that they’ll encounter throughout their studies.

New articles have been included to cover topics of contemporary criminological significance, including:

- surveillance
- digitized crime
- terrorism and political violence
- environmental crime

The 56 articles are organised thematically, complete with introductions that place them in context and to illustrate the approaches taken by different schools of criminological thought.

INTRODUCTION TO CRIMINOLOGY

Theories, Methods, and Criminal Behavior
Eighth Edition
Frank E Hagan Mercyhurst College

This comprehensive introduction to the study of criminology focuses on the vital core of criminological theory - method, and criminal behaviour. Frank E Hagan investigates all forms of criminal activity, such as organized crime, white-collar crime, political crime and environmental crime. He explains the methods of operation, the effects on society and how various theories account for criminal behaviour.

Key features of the Eighth Edition include:

- crime files feature boxes
- end-of-chapter ‘theory and crime’ and ‘the theory-policy connection’ sections
- a standalone chapter on cybercrime
- updated examples and additional examples throughout

- available as an innovative interactive eBook
- an expansive Companion Website, which includes an electronic test bank, podcasts and video guest essays that bring criminology research and theories to life.

Criminology recruits undergraduate students from all sorts of backgrounds. As they enter their first year they confront a dauntingly complex and diverse discipline. Therefore, a no-nonsense basic primer is an essential survival tool. For me, Treadwell’s book, which covers everything from underlying philosophical principles to exam tips, is the most comprehensive and accessible basic primer on the market.

– Steve Hall, Professor of Criminology, Teesside University

This is an essential introduction to undergraduate studies in criminology. Short, clear and concise, it provides a comprehensive overview of the key themes covered on a criminology course. The Second Edition provides:

- Summaries of key course content, including new sections on race and ethnicity, cybercrime, ordinary crime, state crime, global and comparative criminology, green criminology and zemiology.
- A helpful study skills section with extensive advice on how to write essays and pass exams, including new sections on how to avoid plagiarism and how to find, read and use journal articles.
- Recent international case studies drawn from the United Kingdom, Australia, Africa and The United States.
- An all new companion website providing guides to further reading and links to relevant blogs, journal articles and useful websites.

Criminology: The Essentials is an indispensable learning tool. As well as mapping out course content in a coherent and engaging way, it offers undergraduate students helpful hints and tips for getting the most out of their studies.

INTRODUCTION TO CRIMINOLOGY

Pamela Schram and Stephen G Tibbetts both at California State University, San Bernardino, USA

Discussing all the major topics, this book focuses on theories that have been validated by current research. To enhance that perspective in the book, examples of street crime are integrated into the theory chapters. In addition, the text provides more detail on contemporary, mainstream ideas that are becoming more prevalent in modern criminology literature, such as developmental/life-course theories and biosocial perspectives.

THE IMPACT OF THE SOCIAL SCIENCES

How Academics and their Research Make a Difference

Patrick Dunleavy, Simon Bastow and Jane Tinkler all at The London School of Economics and Political Science

The impact agenda is set to shape the way in which social scientists prioritise the work they choose to pursue, the research methods they use and how they publish their findings over the coming decade, but how much is currently known about how social science research has made a mark on society?

Based on a three year research project studying the impact of 360 UK-based academics on business, government and civil society sectors, this groundbreaking new book undertakes the most thorough analysis yet of how academic research in the social sciences achieves public policy impacts, contributes to economic prosperity, and informs public understanding of policy issues as well as economic and social changes. The Impact of the Social Sciences addresses and engages with key issues, including:

- Identifying ways to conceptualise and model impact in the social sciences
- Developing more sophisticated ways to measure academic and external impacts of social science research
- Explaining how impacts from individual academics, research units and universities can be improved.

Essential reading for researchers, academics and anyone involved in discussions about how to improve the value and impact of funded research.

An engaging introduction to the study of basic statistics for students pursuing careers as practitioners or researchers, this student-friendly text shows how to calculate a variety of descriptive and inferential statistics, recognize which statistics are appropriate for particular data analysis situations, and perform hypothesis tests using inferential statistics.

Much more than a 'cook book', it encourages readers to think critically about the strengths and limitations of the statistics they are calculating, as well as how they may be misapplied and misleading. Examples of statistics and statistical analyses are drawn from the worlds of the practitioner as well as the policymaker and researcher. Students will also gain a clear understanding of major ethical issues in conducting statistical analyses and reporting results, as well as insight into the realities of the life of researchers and practitioners as they use statistics and statistical analyses in their day-to-day activities.

CONTENENTS

A History of Modern Criminal Justice / Criminological Theory

Joseph F Spillane University of Florida, USA and David B Wolcott

A History of Modern Criminal Justice focuses on the modern aspects of the subject, from 1900 to the present. The book takes a unique thematic rather than a chronological approach, with chapters organized around themes such as policing, courts, due process, and prison and punishment. Making connections between history and contemporary criminal justice systems, structures and processes, A History of Modern Criminal Justice offers students the latest in historical scholarship, made relevant to their needs as future practitioners in the field.

ORGANIZATION AND MANAGEMENT IN THE CRIMINAL JUSTICE SYSTEM

A Text/Reader

Matthew J Giblin

This text offers students a theoretically-framed, empirically-supported work merging the benefits of primary source material with the coverage and support offered by secondary source material. Key Features:

• from organizational theory to managing and criminal justice organization, this book takes a unique approach in its presentation by combining an authored presentation of concepts and a review of the literature on each of the issues facing managers in the criminal justice system, followed by some of the key research studies that have been published in academic journals

• photos, charts and graphs enhance the authored Section introductions and provide visual elements to make the book more accessible for students

• authored introductions to the articles and discussion questions that follow make the research articles more accessible and useful for students

• ancillaries for the book include instructor and student resource sites. The materials include test questions, PowerPoint slides, chapter quizzes, and e-flashcards.

THE SAGE HANDBOOK OF CRIMINOLOGICAL THEORY

Edited by Eugene McLaughlin University of Southampton and Tim Newburn London School of Economics

This Handbook re-centres theory in the boldest, most thought-provoking form possible within the criminological enterprise. Written by a team of internationally respected specialists, it provides readers with a clear overview of criminological theory, enabling them to reflect critically upon the variety of theoretical positions - traditional, emergent and desirable - that are constitutive of the discipline at the beginning of the 21st century. Each chapter has been specially commissioned to include the following:

• a brief historical overview of the theoretical perspective

• core ideas and key associated concepts

• a critical review of the contemporary status of the perspective

A HISTORY OF MODERN AMERICAN CRIMINAL JUSTICE

Joseph F Spillane University of Florida, USA and David B Wolcott

A History of Modern Criminal Justice focuses on the modern aspects of the subject, from 1900 to the present. The book takes a unique thematic rather than a chronological approach, with chapters organized around themes such as policing, courts, due process, and prison and punishment. Making connections between history and contemporary criminal justice systems, structures and processes, A History of Modern Criminal Justice offers students the latest in historical scholarship, made relevant to their needs as future practitioners in the field.

THE SAGE HANDBOOK OF CRIMINOLOGICAL THEORY

Edited by Eugene McLaughlin University of Southampton and Tim Newburn London School of Economics

This Handbook re-centres theory in the boldest, most thought-provoking form possible within the criminological enterprise. Written by a team of internationally respected specialists, it provides readers with a clear overview of criminological theory, enabling them to reflect critically upon the variety of theoretical positions - traditional, emergent and desirable - that are constitutive of the discipline at the beginning of the 21st century. Each chapter has been specially commissioned to include the following:

• a brief historical overview of the theoretical perspective

• core ideas and key associated concepts

• a critical review of the contemporary status of the perspective

• reflections on future developments.

THEORIZING CRIME AND DEVIANCE
A New Perspective
Steve Hall Social Futures
Institute, Teesside University

A remarkable intellectual achievement, bringing to bear a grasp of contemporary social theory that is superbly sophisticated and up-to-date

– Robert Reiner, Professor of Criminology, London School of Economics and Political Science

Steve Hall uses cutting-edge philosophy and social theory to analyze empirical work on patterns of crime and illuminate contemporary criminological issues. He provides a fresh, relevant critique of the philosophical and political underpinnings of criminological theory and the theoretical canon’s development during the 20th century.

The book evocatively explores the changing patterns of harm, the adoption and abandonment of specific social theories within criminology and the application of new continental philosophy to the criminological problem.

GLOBAL POLICING
Ben Bowling  King’s College London and James Sheptycki York University, Toronto, Canada

Global Policing shows how security threats have been constructed by powerful actors to justify the creation of a new global policing architecture and how the subculture of policing shapes the world system. Demonstrating how a theory of global policing is central to understanding global governance, the text explores:

• the ‘new security agenda’ focused on serious organised crime and terrorism and how this is transforming policing
• the creation of global organisations such as Interpol, regional entities such as Europol and national policing agencies with a transnational reach
• the subculture of the ‘global cops’, blurring boundaries between police, private security, military and secret intelligence agencies
• the reality of transnational policing on the ground, its effectiveness, legitimacy, accountability and future development.

What is youth? How do we understand youth in its social and cultural context? In this timely and sought-after title, the authors provide a concise and readily accessible introduction to the interdisciplinary field of youth studies. Drawing upon the latest research and developments in the field, as well as discussing the fundamental ideas underlying the disciplines as a whole, they offer a comprehensive yet unpacked understanding of youth as a social phenomenon. Illuminating the many abstract and contested concepts within youth studies, the book offers explanations to questions such as:
• how might we define youth?
• how can we understand young people in relation to their social identities and practices?
• what is the relationship between youth and social class?
• how do youth cultures develop?
• how can we understand youth in a globalized perspective?

AN INTRODUCTION TO SOCIAL POLICY
Edited by Peter Dwyer and Sandra Shaw both at Salford University
Exploring the essential topics, themes and issues that students study:
• part one examines the key concepts which make up the foundation of social policy, looking at welfare, social justice and diversity
• part two explores the impact of policy at all different stages throughout the life course
• part three takes a comparative perspective, discussing the international issues and supranational bodies that impact on British and European social policy today.

The concise chapters define the key terms and outline the key debates, giving students a fundamental foundation for their degree. Chapter overviews and summaries guide readers through the book, and questions for reflection conclude each chapter to test readers’ knowledge.

CRIME AND THE ECONOMY
Richard Rosenfeld University of Missouri, St Louis, USA, and Steven F Messner State University of New York at Albany, USA
In this unique and timely book, two of the world’s leading criminologists explore the connections between crime and economic conditions. The authors skilfully draw on influential criminological theories to formulate an original ‘institutional’ perspective. This perspective sheds light on the complex ways in which levels and forms of crime reflect the structure and functioning of the economy in advanced capitalist societies.

The book offers a readable, interesting and accessible analysis, addressing an array of different criminal activities, including:
• violent crime
• burglary
• drug crime
• white-collar crime
• organized crime
• fraud
• corporate crime.

TERRORISM AND COMMUNICATION
A Critical Introduction
Jonathan Matusitz University of Central Florida, USA

Based on the premise that terrorism is essentially a message, Terrorism and Communication examines terrorism from a communication perspective, making it the first text to offer a complete picture of the role of communication in terrorist activity.

Through the extensive examination of state-of-the-art research on terrorism as well as recent case studies and speech excerpts, communication and terrorism scholar Jonathan Matusitz explores the ways that terrorists communicate messages through actions and discourse. Using a multifaceted approach, he draws valuable insights from relevant disciplines, including mass communication, political communication and visual communication, as he illustrates the key role that media outlets play in communicating terrorists’ objectives and examines the role of global communication channels in both spreading and combating terrorism. This is an essential introduction to understanding what terrorism is, how it functions primarily through communication, how we talk about it, and how we prevent it.

CONTENTS
What Is Terrorism? / Terrorism as a Communication Process: Tactics / Terrorism as a Communication Process: The Media / Terrorism as a Communication Process: The Audience / Framing Terrorism / Terrorism as Social Construction of Reality / Stereotyping Terrorists / Interpreting Terrorism through Rhetoric / Euphemisms for Terrorism / Terrorism and Group Dynamics / Organizational Structure and Leadership in Terrorism / Diffusion of Innovations (DoI) and Terrorism / The Globalization of Terrorism / One-on-One with the Terrorist: Interpersonal Perspectives / One-on-One with the Terrorist: International Perspectives / Crisis Communication and Intelligence

ENCYCLOPEDIA OF DRUG POLICY
Edited by Mark A R Kleiman University of California, Los Angeles, USA, and James E Hawdon Virginia Polytechnic Institute and State University, USA
In 1971, President Richard M Nixon declared drugs 'public enemy number one' and waged the 'war on drugs' after tests on returning Vietnam War veterans revealed alarming levels of heroin use. Spanning two volumes of approximately 450 articles in an A-to-Z format, the Encyclopedia explores this controversial 'war' through the lens of varied disciplines and a full spectrum of articles and explains topics: from Colombian cartels and Mexican kingpins to television reportage; from 'just say no' advertising to heroin production; from narco-terrorism to over $500 billion in United States government expenditure. These articles, along with a range of pedagogical elements and availability in both print and electronic formats, combine to comprise an outstanding reference source.

DOING QUALITATIVE RESEARCH DIFFERENTLY
A Psychosocial Approach
Second Edition
Wendy Hollway Open University and Tony Jefferson John Jay College of Criminal Justice, USA
Wendy Hollway and Tony Jefferson have updated their groundbreaking book for students and researchers looking to do qualitative research differently. The new edition critically reviews many of the assumptions, claims and methods of qualitative research and also acts as a 'how-to' guide to the method the authors call the 'free association narrative interview'.

THE SAGE HANDBOOK OF PUNISHMENT AND SOCIETY
Edited by Jonathan Simon University of California, Berkeley, USA, and Richard Sparks Edinburgh University
Two of the leading scholars in the field, Jonathan Simon and Richard Sparks have crafted a comprehensive and definitive resource that illuminates some of the key themes in this complex area - from historical and prospective issues to penal trends and related contributions through theory, literature and philosophy. Incorporating a stellar and international line-up of contributors, the book addresses issues such as: capital punishment; the civilising process; gender; diversity; inequality; poverty; human rights; and neoliberalism.

GLOBALIZATION AND CRIME

Three-Volume Set

Edited by Katja Franko Aas University of Oslo, Norway

This new major work shines a spotlight on key criminological themes in the study of transnationalism and globalization, and, through a selection of the established literature on the subject along with more contemporary writing, explores how globalization is defined, researched and debated within criminology. In order to do this, the set is broken down into three volumes:

Volume One: Concept and Its History
Volume Two: Transnational Crime and Crime Policy
Volume Three: Methodologies and New Directions

The three-volume structure enables comprehensive coverage of the historic development of the concept, its key definitional and methodological issues, ample case studies as well as theoretical and normative academic debates. Each volume is framed by its own newly written introduction which places the selection of articles in context, making this set a truly valuable resource for scholars in the field.

ENCYCLOPEDIA OF STREET CRIME IN AMERICA
Edited by Jeffrey Ian Ross
University of Baltimore, USA

Anyone living or working in a city has feared or experienced street crime at one time or another, whether it be a mugging, purse snatching or a more violent crime. In the United States, street crime has recently hovered near historic lows; hence, the declaration of certain analysts that street life in America has never been safer. But is it really? Street crime has changed over past decades, especially with the advent of surveillance cameras in public places - the territory of the street criminal - but at the same time, criminals have found ways to adapt. This encyclopedic reference focuses primarily on urban lifestyle and its associated crimes, ranging from burglary to drug peddling to murder to new, more sophisticated forms of street crime and scams. This traditional A-to-Z reference has significant coverage of police and courts and other criminal justice subdisciplines while also featuring thematic articles on the sociology of street crime.

THE SOCIAL HISTORY OF CRIME AND PUNISHMENT IN AMERICA
An Encyclopedia
Edited by Wilbur R Miller
State University of New York at Stony Brook, USA

Several encyclopedias overview the contemporary system of criminal justice in America, but full understanding of current social problems and contemporary strategies to deal with them can come only with clear appreciation of the historical underpinnings of those problems. This four-volume work surveys the history and philosophy of crime, punishment and criminal justice institutions in America from colonial times to the present. It covers the whole of the criminal justice system, from crimes, law enforcement and policing, to courts, corrections and human services. Among other things, the Encyclopedia will: explicate philosophical foundations underpinning the U.S. system of justice; chart changing patterns in criminal activity and subsequent effects on legal responses; identify major periods in the development of the U.S. system of criminal justice; and explore evolving debates and conflicts on how best to address issues of crime and punishment. Its signed entries provide the historical context for students to better understand contemporary criminological debates and the contemporary shape of the U.S. system of law and justice.

Key themes include:
- evolving constructions of criminality
- changing patterns of crime and criminal activity
- police training and the professionalization of law enforcement courts
- changing conceptions of prisons and corrections (punishment versus rehabilitation) and the evolution of penitentiaries
- major legislation and court cases
- biographies
- crime statistics across time
- organized crime in different time periods
- major periods in the development of the American system of criminal justice.

THE SAGE ENCYCLOPEDIA OF TERRORISM
Second Edition
Edited by Gus Martin
California State University, Dominguez Hills, USA

The SAGE Encyclopedia of Terrorism, Second Edition is a thoroughly updated, and expanded edition of the original, highly regarded reference work. Nearly 100,000 words of new material has been added, along with fully updated original entries, expanded coverage and multimedia elements (audio and video clips, links to primary documents and more) accompanying the electronic version.

New entries explore the impact of terrorism on economics, public health, religion and even pop culture. Ethical issues such as the role of torture in interrogations, competing notions of security versus liberty and the debates over the Foreign Intelligence Surveillance Act legislation and Guantanamo Bay are also covered. Two dozen entries on significant recent events - such as the London bombings, Chechen attacks on Russian interests and the rescue of Ingrid Betancourt - and some 60 additional new entries will restore the work as an up-to-the-minute, natural first-stop for researchers.

ENCYCLOPEDIA OF COMMUNITY CORRECTIONS
Edited by Shannon M Barton-Bellessa
Indiana State University, USA

Community corrections has evolved in the last 40 years to become a substantial part of the criminal justice and correctional system, spurred in recent years not so much by a progressive, humane philosophy as by dramatically increasing prison populations, court orders to ‘fix’ over-extended prison settings and an economic search for cost savings. To date, no comprehensive reference resource has tackled this topic. The one-volume Encyclopedia of Community Corrections explores all aspects of community corrections, from its philosophical foundations to its current inception.

ENCYCLOPEDIA OF VICTIMOLOGY AND CRIME PREVENTION
Edited by Bonnie S Fisher University of Cincinnati, USA, and Steven P Lab Bowling Green State University, USA

The fields of victimology and crime prevention have developed along parallel yet separate paths, and the literature on both has been scattered across disciplines as varied as sociology, law and criminology, public health and medicine, political science and public policy, economics, psychology social work and more.

The Encyclopedia of Victimology and Crime Prevention brings together such diverse knowledge as it outlines and discusses the status of victims within the criminal justice system and topics of deterring and preventing victimization in the first place and responding to victims’ needs.

In addition to standard entries, leading scholars in the field have contributed anchor essays that provide starting points for investigating the more salient victimology and crime prevention topics.

General topic areas covered include: interpersonal and domestic violence; child maltreatment and elder abuse; street violence; hate crimes and terrorism; treatment of victims by the media, courts, police and politicians; community response to crime victims; physical design for crime prevention; victims of non-violent crimes; deterrence and prevention; helping and counselling crime victims; and international and comparative perspectives.

ENCYCLOPEDIA OF WHITE-COLLAR AND CORPORATE CRIME
Second Edition
Edited by Lawrence M Salinger Arkansas State University, USA

Since the first edition of the Encyclopedia of White Collar and Corporate Crime was produced in 2004, the number and severity of these crimes have risen to the level of calamity, so much so that many experts attribute the near-Depression of 2008 to white-collar malfeasance, namely crimes of greed and excess by bankers and financial institutions. Whether the perpetrators were prosecuted or not, white-collar and corporate crime came near to collapsing the U.S. economy. In the 7 years since the first edition was produced we have also seen the largest Ponzi scheme in history (Maddoff), an ecological disaster caused by British Petroleum and its subcontractors (Gulf Oil Spill), and U.S. Defense Department contractors operating like vigilantes in Iraq (Blackwater).

White-collar criminals have been busy, and the Second Edition of this Encyclopedia captures what has been going on in the news and behind the scenes with new articles and updates to past articles.

ENCYCLOPEDIA OF TRAUMA
An Interdisciplinary Guide
Edited by Charles R Figley Traumatology Institute, Toronto, Ontario, Canada, and Tulane University

Trauma is defined as a sudden, potentially deadly experience, often leaving lasting, troubling memories. Traumatology (the study of trauma, its effects and methods to modify effects) is exploding in terms of published works and expanding in terms of scope. Originally a narrow specialty within emergency medicine, the field now extends to trauma psychology, military psychiatry and behavioural health, post-traumatic stress and stress disorders, trauma social work, disaster mental health, and, most recently, the subfield of history and trauma, with sociohistorical examination of long-term effects and meanings of major traumas experienced by whole communities and nations, both natural (Pompeii, Hurricane Katrina) and man-made (the Holocaust, 9/11). One reason for this expansion involves important scientific breakthroughs in detecting the neurobiology of trauma that is connecting biology with human behaviour, which, in turn, is applicable to all fields involving human thought and response, including but not limited to psychiatry, medicine and the health sciences, the social and behavioural sciences, the humanities and law.

Researchers within these fields can contribute to a universal understanding of immediate and long-term consequences - both good and bad - of trauma, both for individuals and for broader communities and institutions. Trauma encyclopedias published to date all centre around psychological trauma and its emotional effects on the individual as a disabling or mental disorder requiring mental health services. This element is vital and has benefited from scientific and professional breakthroughs in theory, research and applications. This Encyclopedia covers this central element, but the expanded conceptualization includes the other disciplines and moves beyond the individual.

CYBERCRIME
Four-Volume Set
Edited by David Wall

Much has been written on the subject of cybercrime over the past two decades. This new major work brings together a selection of articles that cover the history, context and future of cybercrime, examining the relevant criminal behaviour, law and policing attached to its many forms. The set is divided into four volumes, ensuring a comprehensive spread of topics:

Volume One: History and Context; cybercriminals, victims, offenders and their motivations, law and policing, and cyber-security
Volume Two: Cybercrime against the machine; hacking, DDOS attacks and malicious software
Volume Three: Cybercrime using the machine; economic and deceptive crime such as fraud
Volume Four: Cybercrime in the machine; pornography, political hate speech and moral hate crime

Each volume opens with newly-written introductions that contextualize the articles and make clear the structure and rationale of the set. The result is a thorough and insightful collection of the key literature on cybercrime, making this a perennially valuable resource for scholars in the field.

SAGE expands into digital archives with the acquisition of Adam Matthew!

We are delighted to announce that Adam Matthew is now a SAGE company.

Adam Matthew is an award-winning publisher of online primary source collections for the humanities and social sciences. Sourced from leading libraries and archives around the world, their truly unique research and teaching collections cover a wide range of subject areas from medieval family life to 20th century history, literature and culture.

With a growing portfolio that currently includes more than 52 interdisciplinary collections, Adam Matthew offers creative online resources for undergraduate and postgraduate students, researchers and academics.

Bringing to SAGE the knowledge and expertise of an acclaimed digital archive publisher, Adam Matthew has a strongly established reputation with the library community and a portfolio of high quality products that complements SAGE’s offering.

Some of their best-selling titles include Empire Online; Mass Observation Online, and Foreign Office Files for China, 1949-1980.

What academics say about Adam Matthew collections:

Empire Online: “Empire Online has become an indispensable tool of research and teaching. It contains one of the most comprehensive collections of materials on the imperial experience available to us electronically” - Professor Simon Gikandi, Princeton University

Mass Observation: “A truly remarkable archive: the most intense and long-term attempt to chart mass/popular opinion in any country that I know of” - Professor James Epstein, Vanderbilt University

Foreign Office Files for China: “This is an immensely powerful resource for our understanding of the early Cold War era in China” - Professor Rana Mitter, University of Oxford
