International GAAP® Disclosure Checklist

Based on International Financial Reporting Standards in issue at 28 February 2013

Effective for entities with a year-end of
30 June 2013 or thereafter
International GAAP® Disclosure Checklist

Updated: February 2013
For the period ended 30 June 2013

Entity: _______________________________
Financial statement date: _______________________________
Prepared by: _______________________________
Reviewed by: _______________________________
Instructions

This checklist is designed to assist you in the preparation of financial statements in accordance with International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB), in compliance with the disclosure requirements of IFRS. It does not address the appropriateness or clarity of the disclosures, which are matters of judgement based on the individual facts and circumstances of the entity. This checklist does not explain other accounting requirements, nor does it reflect the requirements of IFRS for Small and Medium-Sized Entities (SMEs) or the IFRS Practice Statement for Management Commentary. In some instances, to simplify the use of the checklist, disclosure requirements have been paraphrased, so you may need to refer to the standards for full details.

In addition to the mandatory disclosure requirements, this checklist includes (in italics) the IASB's recommended disclosures. Comment boxes that summarise and/or refer to relevant IFRS guidance regarding the scope and interpretation of certain disclosure requirements are also included. Comparative amounts in the financial statement disclosures are always required, unless explicitly exempted by the applicable IFRS.

The checklist is prepared specifically for entities with periods ending on 30 June 2013. Thus, for later year-ends, it may not be applicable, depending on the relevant year-end and whether standards and amendments that were not effective for 30 June 2013 year-end have become effective for the later year-end.

The checklist is updated semi-annually, reflecting IFRS issued by the IASB since the previous version. Prior to completing this checklist, refer to the IASB's website to ensure no other IFRS have been issued between the cut-off date of this checklist (28 February 2013) and the date when the financial statements are authorised for issue.

The checklist is also available in an interactive online version. You can access Ernst & Young's online version of the checklist, free of charge, by registering on www.ey.com/checklist. The online version offers you to identify the questions that relate to your company's needs. You can also share this version with your Ernst & Young audit team. An enhanced online version, available by subscription, contains additional features including links to the applicable standards.

New Requirements

To assist users of the checklist in identifying disclosure requirements that are new in the reporting period ended 30 June 2013, such requirements are marked 'NEW'. NEW requirements include requirements that are mandatory for the first time in the current reporting period, and those with a later effective date, but which may be early adopted. For instance, for the reporting period 1 July 2012 – 30 June 2013, Amendments to IAS 12 - Deferred Tax: Recovery of Underlying Assets are mandatory for the first time, and the disclosure requirements herein are marked NEW. IFRS 12 Disclosures of Interests in Other Entities is also marked NEW, even though it is not mandatory in the current period. The NEW-marking refers to any disclosure requirement that is potentially new to an entity in the current period. To identify which disclosure requirements (among those marked NEW) that are new to a particular entity, the user of the checklist must also consider whether mandatory and voluntary new requirements have been early-adopted in previous periods.

The new requirements result from new standards or interpretations as included in the 'New pronouncements' section, and also from amendments of existing standards and interpretations, including consequential amendments of New pronouncements. Amendments and consequential amendments are included in the relevant sections, rather than the New pronouncements section. For instance, the consequential amendments to IAS 36 Impairment of Assets made in IFRS 13 Fair Value Measurement are included in the 'Impairment of assets' section of the checklist.

A list of new pronouncements that may introduce new requirements for an entity with 30 June 2013 year-end reporting is provided below.

Effective for annual periods (and interim periods therein) ending 30 June 2014 or thereafter

| Amendment to IAS 32 - Offsetting Financial Assets and Financial Liabilities | May early adopt | December 2011 | 1 January 2014 |
| IFRS 9 – Financial Instruments (issued in 2009) | May early adopt | November 2009 | 1 January 2015 |
| IFRS 9 – Financial Instruments (issued in 2010) | May early adopt | October 2010 | 1 January 2015 |
| Amendments to IFRS 7 and IFRS 9 – Mandatory Effective Date and Transition Disclosures | May early adopt | December 2011 | 1 January 2015 |
| Amendments to IFRS 10, IFRS12 and IAS 27 – Investment Entities | May early adopt | October 2012 | 1 January 2014 |

(1) The amendments to the IFRS 7 Disclosures-Offsetting Financial Assets and Financial Liabilities do not refer to early application. Nevertheless, the IAS 32 Amendment, Offsetting Financial Assets and Financial Liabilities, although mandatory for annual periods beginning on or after 1 January 2014, does permit its early application with but requires the inclusion of the disclosures in the amendments to IFRS 7.

(2) Early adoption is permitted, disclosing that fact and applying IFRS 10, IFRS 11, IFRS 12, IAS 27 (Revised 2011) and IAS 28 (Revised 2011) at the same time.

(3) An entity is encouraged to early adopt this standard. Providing some of the disclosures required by this standard does not compel the entity to comply with all the requirements of this IFRS or to apply IFRS 10, IFRS 11, IFRS 12, IAS 27 (Revised 2011) and IAS 28 (Revised 2011) early.

(4) IFRS 9 Financial Instruments, as issued in November 2009, only addresses financial assets. The new disclosure requirements are reflected on pages 81. They reflect the implications for (a) first-time adopters; and (b) IFRS 7 disclosures of all other entities. However, other consequential amendments (IFRS 3, IFRS 4, IAS 1, IAS 2, IAS 8, IAS 12, IAS 18, IAS 21, IAS 27, IAS 28, IAS 31, IAS 32, IAS 36, IAS 39, IFRIC 10 and IFRIC 12) have not been reflected, because these amendments only changed the terminology and classification and measurement requirements, and not the disclosure requirements.

(5) IFRS 9 Financial Instruments, as issued in October 2010, addresses financial assets and financial liabilities. The amended disclosure requirements are reflected on page 97. They reflect the implications for (a) first-time adopters and (b) the IFRS 7 disclosures of all other entities. However, other consequential amendments (IFRS 3, IFRS 4, IFRS 5, IAS 1, IAS 2, IAS 8, IAS 12, IAS 18, IAS 20, IAS 21, IAS 27, IAS 28, IAS 31, IAS 32, IAS 36, IAS 37, IAS 39, IFRIC 2, IFRIC 5, IFRIC 10, IFRIC 12, IFRIC 19, IFRIC 19 and SIC 27) and the withdrawal of IFRIC 19 have not been reflected, because these amendments only changed the terminology and classification and measurement requirements, and not the disclosure requirements.
Each item should be answered with a tick in the appropriate column:

**Yes** = Disclosure has been made. Reference should be made to the relevant note in which the requirement has been met.

**No** = Disclosure has not been made. Any item marked 'No' should be explained (for example, amount deemed immaterial) on the checklist or on a separate working paper, including the amounts or percentage involved, to help make an assessment of compliance with IFRS.

**N/A** = The question is not applicable to the entity.
### General

**Identification and components of financial statements**

1. **New**
   - **IAS 1.49**
     - Are the financial statements identified clearly (using an unambiguous title) and distinguished from other information in the same document.
   - **IAS 1.10**
     - Do the financial statements identify clearly and include all of the following:
       - A statement of financial position as at the end of the reporting period
       - A statement of comprehensive income for the reporting period showing the components of profit or loss as either
         - Part of a single statement of comprehensive income
         - A separate income statement
   - **IAS 1.10A**
     - An entity may present a single statement of profit or loss and other comprehensive income, with profit or loss and other comprehensive income presented in two sections. The sections shall be presented together, with the profit or loss section presented first followed directly by the other comprehensive income section. An entity may present the profit or loss section in a separate statement of profit or loss. If so, the separate statement of profit or loss shall immediately precede the statement presenting comprehensive income, which shall begin with profit or loss.
   - **IAS 1.12**
     - If an entity presents a separate income statement, it is part of a complete set of financial statements immediately before the statement of comprehensive income.
   - **IAS 1.139L**
     - If an entity early adopts the amendments in the Annual Improvements to IFRSs 2009 - 2011 Cycle relating to the clarification of the requirements for comparative information, does it disclose that fact.

2. **IAS 1.10(f)**
   - Do the financial statements include a statement of financial position as at the beginning of the earliest comparative period, if the entity either:
     - Applies an accounting policy retrospectively
     - Makes a retrospective restatement of items in its financial statements
     - Reclassifies items in its financial statements

3. **IAS 1.51**
   - Does the entity prominently display the following at least once in the financial statements:
     - The name of the reporting entity or other means of identification, and any change in that information from the end of the preceding reporting period
     - Whether the financial statements cover the individual entity or a group of entities
     - The end of the reporting period or the period covered by the financial statements or notes
     - The presentation currency, as defined in IAS 21.8
     - The level of rounding used in the presentation of amounts in the financial statements.
Corporate information

If not disclosed elsewhere in information published with the financial statements, does the entity disclose the following:

a. The domicile of the entity
b. The legal form of the entity
c. The entity’s country of incorporation
d. The address of the registered office (or principal place of business, if different from the registered office)
e. The nature of the entity’s operations and its principal activities
f. The name of the parent
g. The name of the ultimate parent of the group

Disclosure made

Yes No N/A

Corporate information

Yes No N/A

Compliance with International Financial Reporting Standards

Does the entity provide additional disclosures if the requirements in IFRS are insufficient to enable users to understand the impact of particular transactions, other events, and conditions on the entity’s financial position and financial performance?

For instance, additional disclosures about non-current assets (or disposal groups) classified as held for sale or discontinued operations (beyond those required specifically by IFRS 5 or other IFRS) may be necessary to comply with this requirement.

The entity does not describe financial statements as complying with IFRS unless they comply with all the requirements of IFRS. In some jurisdictions, additional disclosure requirements may be applicable even if the requirements are otherwise all met. Similarly, in certain jurisdictions, the applicable standards may be the same as under IFRS, but may be the subject of a regulatory approval or endorsement mechanism before they become effective. Entities in these jurisdictions may only refer to compliance with IFRS as issued by the IASB if the applicable version of IFRS endorsed and complied with is consistent with IFRS. This is for instance the case in the EU, where entities comply with “IFRS as endorsed by the EU” and not “IFRS (as issued by the IASB)”.

In the extremely rare circumstances in which management concludes that compliance with a requirement in IFRS would be so misleading that it would conflict with the objective of financial statements set out in the Framework, and departs from that requirement (if the relevant regulatory framework requires or otherwise does not prohibit such a departure), does the entity disclose:

a. That management concluded that the financial statements present fairly the entity’s financial position, financial performance and cash flows
b. That it complies with applicable IFRS, except that it departs from a requirement of IFRS to achieve a fair presentation
c. The title of the IFRS from which the entity departs
d. The nature of the departure
e. The treatment that the IFRS would require
f. The reason why that treatment would be so misleading in the circumstances that it would conflict with the objective of financial statements set out in the Framework
g. The treatment adopted
h. For each period presented, the financial impact of the departure on each item in the financial statements that would have been reported in complying with the requirement

If the entity departed from a requirement of IFRS in a prior period, and the departure affects the amounts recognised in the financial statements for the current reporting period, does the entity disclose:

a. The title of the IFRS from which the entity has departed
b. The nature of the departure
c. The treatment that the IFRS would require
d. The reason why that treatment would be so misleading in the circumstances that it would conflict with the objective of financial statements set out in the Framework
e. The treatment adopted
f. For each period presented, the financial impact of the departure on each item in the financial statements that would have been reported in complying with the requirement

In the extremely rare circumstances in which management concludes that compliance with a requirement in IFRS would be so misleading that it would conflict with the objective of financial statements set out in the Framework, but the relevant regulatory framework prohibits departure from the requirement, does the entity, to the maximum extent possible, reduce the perceived misleading aspects of compliance by disclosing all of the following:

a. The title of the IFRS in question
b. The nature of the requirement
c. The reason why management concluded that complying with that requirement is so misleading in the circumstances that it conflicts with the objective of financial statements set out in the Framework.

d. For each period presented, the adjustments to each item in the financial statements that management concluded would be necessary to achieve a fair presentation.

**Going concern**

<table>
<thead>
<tr>
<th>IAS 1.25</th>
<th>IAS 10.14</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

The entity does not prepare its financial statements on a going concern basis if management determines before or after the reporting period either that it intends to liquidate the entity or to cease trading, or that it has no realistic alternative but to do so.

11. **IAS 1.25**

Does the entity disclose material uncertainties related to events or conditions that may cast significant doubt upon the entity’s ability to continue as a going concern?

12. **IAS 1.25**

If the financial statements are not prepared on a going concern basis, does the entity disclose:

a. The fact that the financial statements are not prepared on a going concern basis.

b. The basis on which the financial statements are prepared.

c. The reason why the entity is not regarded as a going concern.

**Frequency of reporting**

<table>
<thead>
<tr>
<th>IAS 1.36</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
</tr>
</tbody>
</table>

If the entity’s reporting period changes and the annual financial statements are presented for a period longer or shorter than one year, does the entity disclose:

a. The reporting period covered by the financial statements.

b. The reason for using longer or shorter periods.

c. The fact that amounts presented in the financial statements are not entirely comparable.

**Comparative information**

<table>
<thead>
<tr>
<th>IAS 1.38</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
</tr>
</tbody>
</table>

Does the entity disclose comparative information for the previous period for all amounts reported in the financial statements, unless an IFRS permits or requires otherwise?

<table>
<thead>
<tr>
<th>IAS 1.38</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
</tr>
</tbody>
</table>

Does the entity include comparative information for narrative and descriptive information, if it is relevant to an understanding of the current reporting period’s financial statements?

<table>
<thead>
<tr>
<th>IAS 1.39</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
</tr>
</tbody>
</table>

If the presentation or classification of items in the financial statements is amended and comparative amounts are reclassified (unless the reclassification cannot be applied after making every reasonable effort to do so), does the entity disclose:

a. The nature of the reclassification.

b. The amount of each item or class of items that is reclassified.

c. The reason for the reclassification.

<table>
<thead>
<tr>
<th>IAS 1.39</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
</tr>
</tbody>
</table>

When an entity applies an accounting policy retrospectively or makes a retrospective restatement of items in its financial statements, or when it reclassifies items in its financial statements, does it present, as a minimum, three statements of financial position, two of each of the other statements, and related notes?

<table>
<thead>
<tr>
<th>IAS 1.42</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
</tr>
</tbody>
</table>

If this retrospective restatement has a material effect on the information in the statement of financial position at the beginning of the preceding period, a third statement of financial position as at the beginning of the preceding period should be disclosed. Refer to IAS 1.39 (IAS 1.38C as amended by the Annual Improvements to IFRSs 2009 – 2011 Cycle).

<table>
<thead>
<tr>
<th>IAS 1.38A-38D</th>
<th>IAS 1.40A-40D</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

If the entity cannot reclassify comparative amounts after making every reasonable effort to do so, does the entity disclose:

a. The reason for not reclassifying the amounts.

b. The nature of the adjustments that would have been made if the amounts were reclassified.

In May 2012 by Annual Improvements to IFRSs 2009-2011 Cycle, IAS 1.38A-38D and IAS 1.40A-40D were added as below and IAS 1.39 deleted. Entities shall apply these amendments for annual periods beginning on or after 1 January 2013. Earlier application is permitted.

<table>
<thead>
<tr>
<th>IAS 1.38A</th>
<th>IAS 1.38B</th>
<th>IAS 1.38C</th>

<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

If an entity early adopts the Annual Improvements to IFRSs 2009-2011 Cycle, does the entity present, as a minimum, two statements of financial position, two statements of profit or loss and other comprehensive income, two separate statements of profit or loss (if presented), two statements of cash flows and two statements of changes in equity, and related notes?

In some cases, narrative information provided in the financial statements for the preceding period(s) continues to be relevant in the current period. An entity may present comparative information in addition to the minimum comparative financial statements required by IFRS, as long as that information is prepared in accordance with IFRS. This comparative information may consist of one or more statements referred to in IAS 1.10, but need not comprise a complete set of financial statements. When this is the case, does the entity present related note information for those additional statements?
Disclosure made
Yes No N/A

An entity may present a third statement of profit or loss and other comprehensive income. However, the entity is not required to present a third statement of financial position, a third statement of cash flows or a third statement of changes in equity. The entity is required to present, in the notes to the financial statements, the comparative information related to that additional statement of profit or loss and other comprehensive income.

An entity must present a third statement of financial position as at the beginning of the preceding period in addition to the minimum comparative financial statements required in IAS 1.38A if:
(a) It applies an accounting policy retrospectively, makes a retrospective restatement of items in its financial statements or reclassifies items in its financial statements
(b) The retrospective application, retrospective restatement or the reclassification has a material effect on the information in the statement of financial position at the beginning of the preceding period

In the circumstances described in IAS 1.40A, does an entity present three statements of financial position as at:
(a) the end of the current period
(b) the end of the preceding period
(c) the beginning of the preceding period

When an entity is required to present an additional statement of financial position in accordance with IAS 1.40A, the entity discloses the information required by IAS 1.41–44 and IAS 8. However, it need not present the related notes to the opening statement of financial position as at the beginning of the preceding period.

In the circumstances described in IAS 1.40A, does an entity present three statements of financial position as at:
(a) the end of the current period
(b) the end of the preceding period
(c) the beginning of the preceding period

Consistency of presentation

Does the entity retain in the financial statements from one period to the next:

a. The presentation of items
b. The classification of items

The entity presents and classifies items on the same basis in the financial statements from one reporting period to the next unless it is apparent, following a significant change in the nature of the entity’s operations or a review of its financial statement demonstrates, that another presentation or classification is more appropriate, or unless a change in presentation is required by IFRS.

Date of authorisation

Does the entity disclose:

a. The date when the financial statements were authorised for issue
b. Who authorised the financial statements
c. The fact that the entity’s owners or others have the power to amend the financial statements after issue, if applicable

First-time adoption

Some of the terms defined by IFRS1 include:

- 'Date of transition to IFRS' – The beginning of the earliest period for which an entity presents full comparative information under IFRS in its first IFRS financial statements
- 'Opening IFRS statement of financial position' – An entity’s statement of financial position at the date of transition to IFRS
- 'First IFRS financial statements' – The first annual financial statements in which an entity adopts IFRS, by an explicit and unreserved statement of compliance with IFRS
- 'Previous GAAP' – The basis of accounting that a first-time adopter used immediately before adopting IFRS
IAS 8 does not deal with changes in accounting policies that occur when an entity first adopts IFRS. Therefore, the requirements for changes in accounting policies do not apply in the entity's first IFRS financial statements.

The requirements for entities that present interim financial reports under IAS 34 for part of the period covered by its first IFRS financial statements are included in the section on Interim Reporting, which contains all disclosure requirements related to interim reporting. That section does not need to be completed for annual financial statements.

If during the period covered by its first IFRS financial statements, an entity changes its accounting policies or its use of the exemptions contained in this IFRS, it shall explain the changes between its first IFRS interim financial report and its first IFRS financial statements, in accordance with IFRS 1.23, and it shall update the reconciliations required by paragraph 24(a) and (b).

Does the entity explain how the transition from previous GAAP to IFRS affected its financial position, financial performance and cash flows?

20

IFRS 1.23A

IFRS1.23A-23B were added in May 2012 in the Annual Improvements to IFRSs 2009-2011 Cycle. Entities shall apply these amendments for annual periods beginning on or after 1 January 2013. Earlier application is permitted.

Notwithstanding the requirements in paragraphs 2 and 3, an entity that has applied IFRS in a previous reporting period, but whose most recent previous annual financial statements did not contain an explicit and unreserved statement of compliance with IFRS, must either apply this IFRS or else apply IFRSs retrospectively in accordance with IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors as if the entity had never stopped applying IFRSs.

When an entity does not elect to apply this IFRS in accordance with paragraph 4A, the entity shall nevertheless apply the disclosure requirements in paragraphs 23A-23B of IFRS 1, in addition to the disclosure requirements in IAS 8.

Does the entity that has applied IFRSs in a previous period, as described in IFRS 1.4A, disclose:

(a) The reason it stopped applying IFRSs

(b) The reason it is resuming the application of IFRS

hen an entity, in accordance with IFRS 1.4A, does not elect to apply IFRSs, does the entity explain the reasons for electing to apply IFRSs as if it had never stopped applying IFRSs.

If an entity early adopts the amendments in the Annual Improvements to IFRSs 2009-2011 Cycle relating to the repeated application of IFRS 1, does it disclose that fact?

IFRS 1.IG63 provides an example of the level of detail required in the reconciliations from previous GAAP to IFRS.

Do the entity's first IFRS financial statements include:

a. Reconciliations of its equity reported under previous GAAP to its equity under IFRS (in sufficient detail to enable users to understand the material adjustments to the statement of financial position) for:

- The date of transition to IFRS
- The end of the latest period presented in the entity's most recent annual financial statements under previous GAAP

b. A reconciliation of the total comprehensive income or profit or loss reported under previous GAAP for the latest period in the entity's most recent annual financial statements to its total comprehensive income under IFRS for the same period (in sufficient detail to enable users to understand the material adjustments to the statement of comprehensive income)

If the entity recognised or reversed any impairment losses for the first time in preparing its opening IFRS statement of financial position, do the financial statements include the disclosures that IAS 36 Impairment of Assets would have required if the entity had recognised those impairment losses or reversals in the period beginning with the date of transition to IFRS?

If the entity is aware of errors under previous GAAP, do the reconciliations required by paragraph 24(a) and (b) of IFRS 1 distinguish between the corrections of errors and changes in accounting policies?

If the entity presented a statement of cash flows under its previous GAAP, does it explain the material adjustments to the statement of cash flows?

If the entity does not present financial statements for previous periods, does it disclose that fact?
Designation of financial assets or financial liabilities

If the entity adopted IFRS 9 Financial Instruments (issued in 2009) or IFRS 9 Financial Instruments (issued in 2010), refer to items set out in the ‘New pronouncements’ section.

28 IFRS 1.29
If the entity designates a previously recognised financial asset or financial liability as a financial asset or financial liability at fair value through profit or loss or as available-for-sale under IFRS 1.D19, does the entity disclose:

a. The fair value of any financial assets or financial liabilities designated into each category

b. The classification and carrying amount in the previous financial statements

Use of fair value as deemed cost

29 IFRS 1.30
If the entity uses fair value in its opening IFRS statement of financial position as deemed cost for an item of property, plant and equipment, an investment property or an intangible asset, does it disclose for each line item in the opening IFRS statement of financial position:

a. The aggregate of those fair values

b. The aggregate adjustment to the carrying amounts reported under previous GAAP

30 IFRS 1.31
If the entity uses deemed cost in its opening IFRS statement of financial position for an investment in a subsidiary, jointly controlled entity, or associate in its separate financial statements, does the entity disclose in its first IFRS separate financial statements:

a. The aggregate deemed cost of those investments for which deemed cost is their previous GAAP amounts

b. The aggregate deemed cost of those investments for which deemed cost is fair value

c. The aggregate adjustment to the carrying amounts reported under the previous GAAP

Employee benefits

31 IFRS 1.D11
For each defined benefit plan, does the entity disclose the following amounts for each reporting period from the date of transition to IFRS:

a. The present value of the defined obligation, the fair value of the plan assets and the surplus or deficit in the plan

b. The experience adjustments arising on:

  ▶ The plan liabilities expressed either as an amount or as a percentage of the plan liabilities at the end of the reporting period
  ▶ The plan assets expressed either as an amount or as a percentage of the plan assets at the end of the reporting period

IFRS 1.D11
If the entity is a first-time adopter, it may disclose the amounts required by item IAS 19.120A, as the amounts are determined for each reporting period prospectively from the transition date.

If an entity early adopts IAS 19 (Revised), IFRS1.D11 is not required

Comparatives

32 IFRS 1.6
In its first IFRS financial statements, does the entity present at least the following in accordance with IFRS, and in comparative format:

- Three statements of financial position (including opening IFRS statements of financial position at the date of transition to IFRS)
- Two statements of comprehensive income, either in a single statement of comprehensive income, or in two separate statements showing components of profit or loss and other comprehensive income
- Two statements of cash flows
- Two statements of changes in equity
- Related notes

f. For any information (historical summaries or comparative information) under previous GAAP that does not qualify with the recognition and measurement provisions with IFRS, does the entity:

  ▶ Label the information prominently as not being prepared under IFRS
  ▶ Disclose the nature of the main adjustments that would make it comply with IFRS, which need not be quantified
## Additional exemptions

### If an entity uses the exemption in IFRS 1.08A(b) for oil and gas assets, does it disclose that fact

- **IFRS 1.08A(b)**
- **IFRS 1.08A(b)**

This exemption is applicable for entities that accounted for exploration and development costs of oil and gas properties in the development and production phase under previous GAAP using cost centres that included a large geographical area (referred to as full cost accounting).

### If the entity (a) holds items of property, plant and equipment or intangible assets that are, or were previously, used in operations subject to rate regulations and (b) uses the previous GAAP carrying amount of such an item at the date of transition to IFRS as deemed cost, does the entity disclose:

- **a. That fact**
- **b. The basis on which carrying amounts were determined under previous GAAP**

**IFRS 1.31C** sets out the disclosure requirements if the entity adopts the Amendment to IFRS 1 - Severe Hyperinflation and Removal of Fixed Dates for First-time Adopters with respect to the use of deemed cost after severe hyperinflation.

### The currency of a hyperinflationary economy is subject to severe hyperinflation if it has both of the following characteristics:

- **a. A reliable general price index is not available to all entities with transactions and balances in the currency**
- **b. Exchangeability between the currency and a relatively stable foreign currency does not exist**

**IFRS 1.023**

In May 2012, the IASB made amendments to IFRS 1 as part of the Annual Improvements to IFRSs 2009 - 2011 Cycle relating to borrowing costs. Entities shall apply these amendments for annual periods beginning on or after 1 January 2013. Earlier application is permitted.

A first-time adopter can elect to apply the requirements of IAS 23 from the date of transition or from an earlier date as permitted by paragraph 28 of IAS 23. From the date on which an entity applies this exemption begins to apply IAS 23, the entity:

- **(a) shall not restate the borrowing cost component that was capitalised under previous GAAP and that was included in the carrying amount of assets at that date**
- **(b) shall account for borrowing costs incurred on or after that date in accordance with IAS 23, including those borrowing costs incurred on or after that date on qualifying assets already under construction**

**IFRS 1.39**

If an entity early adopts the amendments in the Annual Improvements to IFRSs 2009 - 2011 Cycle relating to borrowing costs, does it disclose that fact?

**IFRS 1.810-12**

In March 2012, the IASB made amendments to IFRS 1 by adding another exception to retrospective application – specifically relating to government grants. Entities shall apply these amendments for annual periods beginning on or after 1 January 2013. Earlier application is permitted.

A first-time adopter shall classify all government loans received as a financial liability or an equity instrument in accordance with IAS 32 Financial Instruments: Presentation. Except as permitted by paragraph B11, a first-time adopter shall apply the requirements in IFRS 9 Financial Instruments and IAS 20 Accounting for Government Grants and Disclosure of Government Assistance prospectively to government loans existing at the date of transition to IFRSs and shall not recognise the corresponding benefit of the government loan at a below-market rate of interest as a government grant. Consequently, if a first-time adopter did not, under its previous GAAP, recognise and measure a government loan at a below-market rate of interest on a basis consistent with IFRS, it shall use its previous GAAP carrying amount of the loan at the date of transition to IFRSs as the carrying amount of the loan in the opening IFRS statement of financial position. An entity shall apply IFRS 9 to the measurement of such loans after the date of transition to IFRSs.

Despite paragraph B10, an entity may apply the requirements in IFRS 9 and IAS 20 retrospectively to any government loan originated before the date of transition to IFRSs, provided that the information needed to do so had been obtained at the time of initially accounting for that loan.

The requirements and guidance in paragraphs B10 and B11 do not preclude an entity from being able to use the exemptions described paragraphs D19-D19D relating to the designation of previously recognised financial instruments at fair value through profit or loss.

**IFRS 1.39N**

If an entity early adopts the amendments relating to first-time adoption and the impact on government grants, does it disclose that fact?
Early adoption of new standards and amendments

Earlier application is permitted to the new standards and amendments below. If the first time adopter applies that amendment for an earlier period it shall disclose that fact.

In October 2012, the IASB issued Investment Entities (Amendments to IFRS 10, IFRS 12 and IAS 27), which amended IFRS 1. Entities shall apply these amendments for annual periods beginning on or after 1 January 2014.

In June 2012, the IASB issued Consolidated Financial Statements, Joint Arrangements and Disclosure of Interests in Other entities: Transition Guidance (Amendments to IFRS 10, IFRS 11 and IFRS 12), which amended IFRS 11. Entities shall apply these amendments for annual periods beginning on or after 1 January 2013.

In May 2012, the IASB issued Annual Improvements to IFRSs 2009-2011 Cycle, which amended IFRS 1. An entity shall apply that amendment retrospectively in accordance with IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors for annual periods beginning on or after 1 January 2013.

In March 2012, the IASB issued Government Loans (Amendments to IFRS 1), which amended IFRS 1. Entities shall apply these amendments for annual periods beginning on or after 1 January 2013.

Financial review by management

Reports and statements presented outside financial statements are outside the scope of IFRS. The IASB issued the IFRS Practice Statement Management Commentary in December 2010. The practice statement provides guidance only and is not required to be used in the preparation of IFRS financial statements.

36 IAS 1.13 Does the entity present, outside the financial statements, a financial review by management that describes and explains the main features of its financial performance and financial position and the principal uncertainties it faces, including:

a. The main factors and influences determining performance, including:
   ▶ Changes in the environment in which the entity operates
   ▶ The entity’s response to those changes and their effect
   ▶ The entity’s policy for investment to maintain and enhance financial performance, including its dividend policy

b. The entity’s sources of funding and its targeted ratio of liability to equity

c. The entity’s resources not recognised in the statement of financial position in accordance with IFRS

37 IAS 1.13

Statement of financial position

38 IAS 1.14 Does the entity present reports and statements, outside the financial statements, such as environmental reports and value-added statements, particularly in industries in which environmental factors are significant and if employees are an important user group

39 IAS 1.29

40 IAS 1.32 Unless required or permitted by another IFRS, does the entity present separately, and not offset, assets and liabilities

Current/non-current distinction

41 IAS 1.60 If the entity does not present separately current and non-current assets in its statement of financial position, does it present all assets in order of liquidity

42 IAS 1.60 The entity shall present current and non-current assets separately in its statement of financial position, except when a liquidity presentation is more reliable and more relevant.

43 IAS 1.60 If the entity does not present separately current and non-current liabilities in its statement of financial position, does it present all liabilities in order of liquidity

44 IAS 1.60 The entity shall present current and non-current liabilities separately in its statement of financial position, except when a liquidity presentation is more reliable and more relevant.

45 IAS 1.60 If the entity separately presents current and non-current assets, and current and non-current liabilities in its statement of financial position, does the entity:

a. Classify an asset as current when it:
   ▶ Is expected to be realised in, or is intended for sale or consumption in, the entity’s normal operating cycle
   ▶ Is held primarily for trading

Yes No N/A
n. Deferred tax liabilities and deferred tax assets
o. Non-controlling interest, presented within equity
p. Issued capital and reserves attributable to owners of the parent

An entity may amend the descriptions and ordering of items or aggregation of similar items according to the nature of the entity and its transactions, to provide information that is relevant to an understanding of the entity’s financial position.

Does the entity include the following line items in the statement of financial position:

a. Total assets classified as held for sale and assets included in disposal groups classified as held for sale in accordance with IFRS 5
b. Liabilities included in disposal groups classified as held for sale in accordance with IFRS 5

Does the entity present additional line items, headings and subtotals in the statement of financial position if such presentation is relevant to an understanding of the entity’s financial position

For example:
(a) line items are included when the size, nature or function of an item or aggregation of similar items is such that separate presentation is relevant to an understanding of the entity's financial position; and
(b) the descriptions used and the ordering of items or aggregation of similar items may be amended according to the nature of the entity and its transactions, to provide information that is relevant to an understanding of the entity's financial position. For example, a financial institution may amend the above descriptions to provide information that is relevant to the operations of a financial institution.

Information presented either in the statement of financial position or in the notes

Does the entity disclose further sub-classifications of the line items presented, classified in a manner appropriate to the entity's operations

Does the entity disclose separately the major classes of assets and liabilities classified as held for sale, except if the disposal group is a newly acquired subsidiary that meets the criteria to be classified as held for sale at acquisition

Statement of comprehensive income

In accordance with IAS 19 (Revised in 2011), IAS 1.7 below was amended to ‘remeasurements of defined benefit plans’. Entities shall apply these amendments for annual periods beginning on or after 1 January 2013. Earlier application is permitted.

The components of other comprehensive income include:

a. Changes in revaluation surplus (see IAS 16 and IAS 38)
b. Actuarial gains and losses on defined benefit plans (see IAS 19)
c. Gains and losses arising from translating the financial statements of a foreign operation (see IAS 21)
d. Gains and losses from investments in equity instruments measured at fair value through other comprehensive income in accordance with paragraph 5.7.5 of IFRS 9 if the entity early adopts IFRS 9

e. The effective portion of gains and losses on the hedging instrument in a cash flow hedge (see IAS 39)
f. For particular liabilities designated as at fair value through profit or loss, the amount of the change in fair value that is attributable to changes in the liability's credit risk (see IFRS 9 if the entity early adopts IFRS 9)

Does the entity present in the statement of profit or loss and other comprehensive income (statement of comprehensive income), in addition to the profit or loss and other comprehensive income sections:

a. Profit or loss
b. Total other comprehensive income
c. Comprehensive income for the period, being the total of profit or loss and other comprehensive income

If an entity presents a separate statement of profit or loss, does the statement of comprehensive income not include the profit or loss section.

Does the entity present the following items, in addition to the profit or loss and other comprehensive income sections, as allocation of profit or loss and other comprehensive income for the period:

</tr>
</tbody>
</table>
Examples of reclassification adjustments include:

a. Disposal of a foreign operation (see IAS 21)
b. Derecognition of available-for-sale financial assets (see IAS 39)
c. When a hedged forecast cash flow affects profit or loss (see IAS 39)

Reclassification adjustments do not arise on changes in revaluation surplus recognised under IAS 16 or IAS 38, or on actuarial gains and losses on defined benefit plans recognised under IAS 19.93A. These are not reclassified to profit or loss.

Changes in revaluation surplus may be transferred to retained earnings in subsequent periods as the asset is used or when it is recognised (see IAS 16 and IAS 38).

If an entity early adopts the 2011 Amendments to IAS 19 and the subsequent amendment to IAS 1, the same applies, except ‘actuarial gains and losses on defined benefit plans recognised under IAS 19.93A’ would be replaced to ‘remeasurements of defined benefit plans recognised in accordance with IAS 19’.  

Does the entity disclose an analysis of the amount totalling the post-tax profit or loss of discontinued operations and the post-tax gain or loss recognised on the measurement to fair value less costs to sell or on the disposal of assets or disposal group(s) constituting the discontinued operation, by identifying:

a. The revenue, expenses and pre-tax profit or loss of discontinued operations
b. The related income tax expense
c. The gain or loss recognised on the measurement to fair value less costs to sell or on the disposal of the assets or disposal group(s) constituting the discontinued operation
d. The related income tax expense

**Distributions of non-cash assets to owners (IFRIC 17)**

If the entity settles a dividend payable by distributing non-cash assets, does the entity present any difference between the carrying amount of the assets distributed and the carrying amount of the dividend payable as a separate line item in profit or loss

**Earnings per share**

The entity applies IAS 33 if:

a. The ordinary shares or potential ordinary shares of the entity are traded in a public market (a domestic or foreign stock exchange or an over-the-counter market, including local and regional markets)

Or

b. The entity files, or is in the process of filing, its financial statements with a securities commission or other regulatory organisation for issuing ordinary shares in a public market

If the entity discloses (voluntarily) earnings per share, the earnings per share disclosures must be in accordance with IAS 33

If the entity presents both consolidated financial statements and separate financial statements prepared under IAS 27, does it present the disclosures required by IAS 33 only on the basis of the consolidated information?

If the entity chooses to disclose earnings per share based on its separate financial statements, does it present such earnings per share only in the separate statement of comprehensive income and not in the consolidated financial statements?

If the entity presents a separate statement of profit or loss does it disclose earnings per share only in that separate statement?

If the ordinary or potential ordinary shares outstanding increase as a result of a capitalisation, bonus issue or share split, or decrease as a result of a reverse share split (even if these changes occur after the reporting period, but before the financial statements are authorised for issue), and therefore the calculation of basic and diluted earnings per share for all periods presented has been adjusted retrospectively, does the entity disclose the fact that per share calculations reflect such changes in the number of shares?

Does the entity present, in the statement of comprehensive income for each class of ordinary shares that has a different right to share in profit for the period, basic and diluted earnings per share for:

a. Profit or loss from continuing operations
b. Profit or loss for the period

If basic and diluted earnings per share are equal, dual presentation can be accomplished in one line on the statement of comprehensive income.

If the entity presents a separate statement of profit or loss does it disclose basic and diluted earnings per share in that separate statement?
83  IAS 33.66 Does the entity present basic and diluted earnings per share, with equal prominence for all periods presented
Disclosure made Yes No N/A
84  IAS 33.68 If the entity reports a discontinued operation, does it disclose basic and diluted earnings per share for the discontinued operation either in the statement of comprehensive income or in the notes
IA 33.68A If the entity presents a separate statement of profit or loss does it present basic and diluted earnings per share for the discontinued operation, as required in IAS 33.68, in that separate statement or in the notes
85  IAS 33.69 Does the entity present basic and diluted earnings per share, even if the amounts are negative (that is, a loss per share)
86  IAS 33.70 Does the entity disclose:
a. The numerators in calculating basic and diluted earnings per share and reconcile those amounts to profit or loss for the period (which includes the individual effect of each class of instruments that affects earnings per share)
b. The weighted average of ordinary shares used as the denominator in calculating basic and diluted earnings per share, and reconcile these denominators to each other (which includes the individual effect of each class of instruments that affects earnings per share)
c. Instruments (including contingently issuable shares) that could potentially dilute basic earnings per share in the future, but were not included in the calculation of diluted earnings per share because they are anti-dilutive for the period(s) presented
d. The ordinary share transactions or potential ordinary share transactions, other than increases as a result of a capitalisation, bonus issues or share splits or decreases as a result of a reverse share splits, that occur after the reporting period, but before the financial statements are authorised for issue, that would have changed significantly the ordinary shares or potentially ordinary shares outstanding at the end of the period if those transactions had occurred before the end of the reporting period
IAS 33.71 Examples of transactions referred to in IAS 33.70(d) include:
a. An issue of shares for cash
d. The conversion or exercise of potential ordinary shares outstanding at the end of the reporting period into ordinary shares
e. An issue of options, warrants or convertible instruments
f. The achievement of conditions that would result in the issue of contingently issuable shares
87  IAS 33.72 Does the entity disclose the terms and conditions of financial instruments and other contracts generating potential ordinary shares that affect the measurement of basic and diluted earnings per share, if this disclosure is not already otherwise required (for example, by IFRS 7)
88  IAS 33.73 If the entity discloses, in addition to basic and diluted earnings per share, amounts per share using a reported component of the statement of comprehensive income other than one required by IAS 33, does the entity disclose:
a. Basic and diluted amounts per share relating to such a component with equal prominence in the notes to the financial statements
b. The basis on which the numerator(s) is(are) determined, including whether amounts per share are before tax or after tax
89  IAS 33.73 If the entity discloses, in addition to basic and diluted earnings per share, amounts per share using a component that is not reported as a line item in the statement of comprehensive income, does the entity reconcile between the component used and a line item that is reported in the statement of comprehensive income
IAS 33.73A If the entity discloses, in addition to basic and diluted earnings per share, amounts per share using a reported item of profit or loss, other than one required by IAS 33, does the entity provide the disclosures in IAS 33.73 for that additional amounts per share
Statement of cash flows
90  IAS 1.29 Does the entity present each material class of similar items separately in the statement of cash flows
Presentation
91  IAS 7.10 Are the cash flows during the period classified by operating, investing and financing activities
IAS 7.14-17 Definitions of different categories of cash flows are presented in IAS 7.6 and examples are presented in IAS 7.14-17.
92  IAS 7.18 Does the entity report cash flows from operating activities using either:
a. The direct method, disclosing major classes of gross cash receipts and gross cash payments (this method is encouraged)
b. The indirect method, in which the entity adjusts profit or loss for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expense associated with investing or financing cash flows.

The starting point for the reconciliation of cash flows from operating activities in the statement of cash flows, prepared using the indirect method, is profit or loss, either before or after tax.

93 IAS 7.21
Does the entity report major classes of gross receipts and gross cash payments arising from investing and financing activities separately, except as described in item 93.

94 IAS 7.22
Are cash flows arising from the following operating, investing or financing activities reported on a net basis:

a. Cash receipts and payments on behalf of customers, if the cash flows reflect the activities of the customer rather than those of the entity

b. Cash receipts and payments for items in which the turnover is quick, the amounts are large and the maturities are short

95 IAS 7.45
Does the entity disclose the components of cash and cash equivalents

96 IAS 7.46
Does the entity disclose the policy for determining the composition of cash and cash equivalents

97 IAS 7.45
Does the entity reconcile the amounts of cash and cash equivalents in the statement of cash flows with the equivalent items in the statement of financial position

Acquisitions of subsidiaries and business units

98 IAS 7.39
Have the aggregate cash flows arising from obtaining control of subsidiaries or other businesses been presented separately and classified as investing activities in the statement of cash flows

99 IAS 7.40
Does the entity disclose the following, in aggregate, from obtaining control of subsidiaries or other businesses during the reporting period:

a. The total consideration paid or received

b. The portion of the consideration consisting of cash and cash equivalents

c. The amount of cash and cash equivalents in the subsidiaries or other businesses over which control is obtained

d. The amount of the assets and liabilities other than cash or cash equivalents in the subsidiaries or businesses over which control is obtained, summarised by each major category

Disposals of subsidiaries and business units

100 IAS 7.39
Have the aggregate cash flows arising from losing control of subsidiaries or other businesses been presented separately and classified as investing activities in the statement of cash flows

101 IAS 7.40
Does the entity disclose the following, in aggregate, for losing control of subsidiaries or other businesses during the reporting period:

a. The total consideration paid or received

b. The portion of the consideration consisting of cash and cash equivalents

c. The amount of cash and cash equivalents in the subsidiaries or other businesses over which control is lost

d. The amount of the assets and liabilities other than cash or cash equivalents in the subsidiaries or businesses over which control is lost, summarised by each major category
Other cash flow information

102 IAS 7.31 Does the entity separately disclose the following:
   a. Cash inflow from interest
   b. Cash outflow from interest
   c. Cash inflow from dividends
   d. Cash outflow from dividends

103 IAS 7.35 IAS 7.36 Cash flows arising from taxes on income must be separately disclosed and must be classified as cash flows from operating activities unless they can be specifically identified with financing and investing activities. If the entity allocates tax cash flows to more than one class of activity, or all to operating activities, does the entity disclose the total amount of taxes paid?
   a. Excluded from the statement of cash flows
   b. Disclosed elsewhere in the financial statements in a way that provides all the relevant information about these investing and financing activities

104 IAS 7.43 Are investing and financing transactions that do not require the use of cash or cash equivalents:
   a. Excluded from the statement of cash flows
   b. Disclosed elsewhere in the financial statements in a way that provides all the relevant information about these investing and financing activities

105 IAS 7.48 Does the entity disclose the following regarding significant cash and cash equivalent balances held, that are not available for use by the group:
   a. The amount
   b. A commentary by management

New 106 IAS 7.50 Does the entity disclose:
   a. The amount of undrawn borrowing facilities that may be available in the future for the operating activities and settling capital commitments, and indicate any restrictions on the use of these facilities
   If an entity early adopts IFRS 11, IAS 7.50 b below is not required.
   b. The aggregate amounts of the cash flows from each of operating, investing and financing activities related to interests in joint ventures reported using proportionate consolidation
   c. The aggregate amount of cash flows that represent increases in operating capacity separately from those cash flows that are required to maintain operating capacity
   d. Cash flows of each reportable segment arising from:
      ▶ Operating activities
      ▶ Investing activities
      ▶ Financing activities

Statement of changes in equity

107 IAS 1.29 Does the entity present each material class of similar items separately in the statement of changes in equity.

108 IAS 1.106 Does the statement of changes in equity include the following:
   a. Total comprehensive income for the period, showing separately the total amounts attributable to owners of the parent and to non-controlling interests
   IAS 8.22
   b. For each component of equity, the effects of retrospective application or retrospective restatement recognised in accordance with IAS B
   c. For each component of equity, a reconciliation between the carrying amount at the beginning and the end of the period, separately disclosing changes resulting from:
      ▶ Profit or loss
      ▶ Other comprehensive income
      ▶ Transactions with owners in their capacity as owners, showing separately contributions by and distributions to owners and changes in ownership interests in subsidiaries that do not result in a loss of control
   IAS 1.108 For example, components of equity include each class of contributed equity, the accumulated balance of each class of other comprehensive income and retained earnings.

109 IAS 1.106A Does the entity disclose for each component of equity, either in the statement of changes in equity or in the notes, an analysis of other comprehensive income by item

New 110 IAS 1.107 Does the entity disclose, either in the statement of changes in equity, or in the notes:
   a. The amount of dividends recognised as distributions to owners during the period
   b. The related amount of dividends per share

### Notes to the financial statements

Notes are normally presented in the following order, which assists users in understanding the financial statements and comparing them with financial statements of other entities:

a. A statement of compliance with IFRS
b. A summary of significant accounting policies applied
c. Supporting information for items presented in each financial statement in the order in which each statement and each line item is presented
d. Other disclosures, including:
   - Contingent liabilities and unrecognised contractual commitments
   - Non-financial disclosures, such as the entity’s financial risk management objectives and policies

The entity does not present any items of income or expense as extraordinary items in the notes.

### Accounting policies, key measurement assumptions and capital

#### Summary of significant accounting policies

Does the entity disclose in the summary of significant accounting policies:

a. The measurement basis or bases (for example, historical cost, current cost, net realisable value, fair value or recoverable amount) used in preparing the financial statements
b. The other accounting policies used that are relevant to an understanding of the financial statements

If an entity uses more than one measurement basis in the financial statements, it is sufficient to indicate the measurement basis for categories of assets and liabilities (for example, when particular classes of assets are revalued).

Disclosure made
Yes No N/A

118 IAS 1.122 Does the entity disclose the judgements (apart from those involving estimations) by management that have the most significant effect on the amounts recognised in the financial statements

119 IAS 1.124 Some of the disclosures required by IAS 1.122 are required by other IFRS. For example, IAS 27 requires the entity to disclose the reasons why the entity’s ownership interest does not constitute control for an investee that is not a subsidiary although more than half of its voting or potential voting power is owned directly or indirectly through subsidiaries.

Disclosure requirements relating to specific accounting policies are included in the subsequent sections of this checklist.

Changes in accounting policies

120 IAS 8.14 The entity changes an accounting policy if the change:
- Is required by IFRS
- Or
- Results in the financial statements providing reliable and more relevant information about the effects of transactions, other events or conditions on the entity’s financial position, financial performance or cash flows

Applying a requirement is impracticable if the entity cannot apply it after making every reasonable effort to do so. It can apply in the following circumstances:

a. If the entity cannot determine the effects of retrospective application or retrospective restatement
b. If determining the effect of (a) requires assumptions about what management’s intent would have been in that period

Or
c. If determining the effect of (a) requires significant estimates of amounts and it is impossible to distinguish objectively information about those estimates that provides evidence of circumstances that existed on the dates as to which those amounts are to be recognised, measured or disclosed and would have been available when the previous financial statements were authorised for issue

121 IAS 8.22 If retrospective application is required, does the entity disclose the adjustment to the opening balance of each affected component of equity for the earliest prior period presented and the other comparative amounts for each prior period presented as if the entity had always applied the new accounting policy

122 IAS 8.28 If the initial application of an IFRS has an effect on the current period or any prior period presented or might have an effect on future periods, unless it is impracticable to determine the amount of the adjustment, does the entity disclose:

a. The title of the IFRS
b. That the change in accounting policy is in accordance with its transitional provisions, if applicable
c. The nature of the change in accounting policy
d. The transitional provisions, if applicable
e. The transitional provisions that might have an effect on future periods, if applicable
f. The adjustment for each financial statement line item affected and the basic and diluted earnings per share for the current period and each prior period presented, to the extent practicable (if IAS 33 applies to the entity)
g. The amount of the adjustment relating to periods before those presented, to the extent practicable

h. If retrospective application is impracticable for a particular prior period, or for periods before those presented, the circumstances that led to the existence of that condition and a description of how and from when the change in accounting policy has been applied

Financial statements of subsequent periods need not repeat these disclosures.

124 IAS 8.29 If a voluntary change in accounting policy has an effect on the current period or any prior period, and would have an effect on that period except that it is impracticable to determine the amount of the adjustment, or might have an effect on future periods, does the entity disclose:

a. The nature of the change in accounting policy
b. The reasons why applying the new accounting policy provides reliable and more relevant information
c. The adjustment for each financial statement line item affected for the current reporting period and each prior reporting period presented, to the extent practicable
d. The basic and diluted earnings per share for the current reporting period and each prior reporting period presented (if IAS 33 applies to the entity and to the extent practicable)
e. The adjustment relating to periods before those presented, to the extent practicable
f. If retrospective application is impracticable for a particular prior period, or for periods before those presented, the circumstances that led to the existence of that condition and a description of how and from when the change in accounting policy has been applied

IAS 8.30
IAS 8.31

Financial statements of subsequent periods need not repeat these disclosures.

If the entity did not apply a new IFRS that has been issued but is not yet effective, does the entity disclose:

a. The title of the new IFRS
b. The nature of the impending change or changes in accounting policy
c. The date by which application of the IFRS is required
d. The date at which it plans to adopt the IFRS
e. Either:
   - A discussion of the impact of the effect of the change(s) on its financial statements
   - If such an impact is not known or reasonably estimable, a statement to that effect

<table>
<thead>
<tr>
<th>IAS 1.125</th>

Key estimation assumptions

Does the entity disclose key assumptions about the future, and other sources of key estimation uncertainty, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year?

If the entity did not apply a new IFRS that has been issued but is not yet effective, does the entity disclose:

a. The title of the new IFRS
b. The nature of the impending change or changes in accounting policy
c. The date by which application of the IFRS is required
d. The date at which it plans to adopt the IFRS
e. Either:
   - A discussion of the impact of the effect of the change(s) on its financial statements
   - If such an impact is not known or reasonably estimable, a statement to that effect

<table>
<thead>
<tr>
<th>IFRS 5.5B</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
<tr>
<td>Yes</td>
</tr>
</tbody>
</table>

Additional disclosures beyond what is required by other standards may be necessary to comply with this requirement. For instance, additional disclosures about non-current assets (or disposal groups) classified as held for sale or discontinued operations (beyond those required specifically by IFRS 5 or other IFRS) may be necessary to comply with this requirement.

<table>
<thead>
<tr>
<th>IAS 1.125</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
</tbody>
</table>

For the assets and liabilities in IAS 1.125 above, does the entity disclose:

a. Their nature
b. Their carrying amount as at the end of the reporting period

e. Either:
   - A discussion of the impact of the effect of the change(s) on its financial statements
   - If such an impact is not known or reasonably estimable, a statement to that effect

<table>
<thead>
<tr>
<th>IAS 1.129</th>
</tr>
</thead>
<tbody>
<tr>
<td>Disclosure made</td>
</tr>
<tr>
<td>Yes</td>
</tr>
</tbody>
</table>

An entity presents the disclosures under IAS 1.125 in a manner that helps users of financial statements to understand management’s judgements about the future. The nature and extent of the disclosure varies according to the nature of the assumption and other circumstances.

Examples of the types of disclosures made are:

a. The nature of the assumption or other estimation uncertainty
b. The sensitivity of carrying amounts to the methods, assumptions and estimates underlying their calculation, including the reasons for the sensitivity
c. The expected resolution of an uncertainty and the range of reasonably possible outcomes within the next financial year for the carrying amounts of the assets and liabilities affected
d. The changes made to past assumptions concerning those assets and liabilities, if the uncertainty remains unresolved

Examples of key assumptions are:

a. Future changes in salaries
b. Future changes in prices affecting other costs
c. Risk adjustments to cash flows
d. Risk adjustments to discount rates

e. Either:
   - A discussion of the impact of the effect of the change(s) on its financial statements
   - If such an impact is not known or reasonably estimable, a statement to that effect

<table>
<thead>
<tr>
<th>IAS 1.133</th>
</tr>
</thead>
<tbody>
<tr>
<td>Disclosure made</td>
</tr>
<tr>
<td>Yes</td>
</tr>
</tbody>
</table>

Some key assumptions referred to in IAS 1.125 also require disclosures under other IFRS. For example, IAS 37 requires disclosure, in certain circumstances, of major assumptions concerning future events affecting classes of provisions. IAS 16 requires disclosure of significant assumptions in estimating fair values of revalued items of property, plant and equipment. IFRS 7 requires disclosure of significant assumptions applied in estimating fair values of financial assets and financial liabilities that are carried at fair value. Other standards, as for instance, IFRS 2, IAS 19, IAS 36 and IAS 41 also requires specific disclosures about significant assumptions. It is not necessary to repeat these disclosures, even though they are repeated in this checklist.
b. Summary quantitative data about what it manages as capital.

<table>
<thead>
<tr>
<th>Disclosure made</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes</td>
</tr>
<tr>
<td>☐</td>
</tr>
</tbody>
</table>

Some entities regard some financial liabilities (for example, some forms of subordinated debt) as part of capital. Other entities regard capital as excluding some components of equity (for example, components arising from cash flow hedges).

<table>
<thead>
<tr>
<th>Disclosure made</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes</td>
</tr>
<tr>
<td>☐</td>
</tr>
</tbody>
</table>

c. Any changes in (a) and (b) from the previous period

d. Whether during the period it complied with any externally imposed capital requirements to which it is subject

e. If the entity did not comply with the externally imposed capital requirements to which it is subject, the consequences of such non-compliance

IAS 1.136

The entity may manage capital in many ways and be subject to many different capital requirements. For example, a conglomerate may include entities that undertake insurance activities and banking activities, and those entities may operate in several jurisdictions. If an aggregate disclosure of capital requirements and how the entity manages capital does not provide useful information or distorts a financial statement user’s understanding of an entity’s capital resources, the entity discloses separate information for each capital requirement to which the entity is subject.

Externally imposed capital requirements referred to in IAS 1.135(a)(ii) only reflect capital requirements imposed by a regulator or a prudential supervisor. Capital requirements, as imposed by a bank or creditor are considered a contractual obligation and are therefore not in the scope of IAS 1.135(a)(ii).

IAS 1.135 (a)(ii)

Business combinations

Acquisitions

<table>
<thead>
<tr>
<th>Disclosure made</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes</td>
</tr>
<tr>
<td>☐</td>
</tr>
</tbody>
</table>

The acquirer discloses information that enables the users of its financial statements to evaluate the nature and financial effect of a business combination.

For individually immaterial business combinations occurring during the reporting period that are material collectively, the acquirer discloses the information in IFRS 3.B64(e)-(q) (items 127(e)-140) in aggregate.

127

For each business combination during the period (or after the reporting period, but before the financial statements are authorised for issue), does the entity disclose:

- a. The name and a description of the acquiree
- b. The acquisition date
- c. The percentage of voting equity interests acquired
- d. The primary reasons for the business combination and how the acquirer obtained control of the acquiree
- e. A qualitative description of the factors that make up the goodwill recognised, such as expected synergies from combining operating of the acquiree and the acquirer, intangible assets that do not qualify for separate recognition or other factors

128

For each business combination during the period (or after the reporting period, but before the financial statements are authorised for issue), does the entity disclose the acquisition-date fair value of the total consideration transferred and the acquisition-date fair value of each major class of consideration, such as:

- a. Cash
- b. Other tangible or intangible assets, including a business or subsidiary of the acquirer
- c. Liabilities incurred, for example, a liability for contingent consideration
- d. Equity interests of the acquiree, including the number of instruments or interests issued or issuable and the method of measuring the fair value of those instruments or interests

Contingent consideration is either:

- a. An obligation of the acquirer to transfer additional assets or equity interests to the former owners of an acquiree as part of the exchange transaction, if specified future events occur or conditions are met
- b. A right of the acquirer to receive previously transferred consideration, if specified future events occur or conditions are met.

129

For each business combination during the period (or after the reporting period but before the financial statements are authorised for issue), for contingent consideration arrangements and indemnification assets, does the entity disclose:

- a. The amount recognised as of the acquisition date
- b. A description of the arrangement and the basis for determining the payment
- c. An estimate of the range of outcomes (undiscounted) or, if a range cannot be estimated, that fact and the reasons why a range cannot be estimated. If the maximum amount of the payment is unlimited, the acquirer discloses that fact

130

For each business combination during the period (or after the reporting period, but before the financial statements are authorised for issue), for acquired receivables, does the entity disclose:
Disclosure made
Yes No N/A
a. The fair value of the receivables  □  □  □
b. The gross contractual amounts receivable  □  □  □
c. The best estimate at the acquisition date of the contractual cash flows not expected to be collected  □  □  □

IFRS 3.B64(h)
The entity provides disclosures by major class of receivable, such as loans, direct finance leases and any other class of receivables.

131 For each business combination during the reporting period (or after the reporting period, but before the financial statements are authorised for issue) does the entity disclose the amounts recognised as of the acquisition date for each major class of assets acquired and liabilities assumed  □  □  □

132 For each business combination during the reporting period (or after the reporting period, but before the financial statements are authorised for issue), for each contingent liability recognised under IFRS 3.23, does the entity make the disclosures in item 329.  □  □  □

133 For each business combination during the period (or after the reporting period, but before the financial statements are authorised for issue), does the entity disclose the goodwill that is expected to be deductible for tax purposes  □  □  □

134 For each business combination during the reporting period (or after the reporting period, but before the financial statements are authorised for issue), for transactions that the entity recognises separately from the acquisition of assets and assumption of liabilities in the business combination in accordance with IFRS 3.51, does the entity disclose:
   a. A description of each transaction  □  □  □
   b. How the acquirer accounted for each transaction  □  □  □
   c. The amounts recognised for each transaction and the line item in the financial statements in which each amount is recognised  □  □  □
   d. If the transaction is the effective settlement of a pre-existing relationship, the method used to determine the settlement amount  □  □  □

IFRS 3.51
The acquirer and the acquiree may have a pre-existing relationship or other arrangement before negotiations for the business combination began, or they may enter into an arrangement during the negotiations that is separate from the business combination. In either situation, the acquirer identifies any amounts that are not part of what the acquirer and the acquiree (or its former owners) exchanged in the business combination, that is, amounts that are not part of the exchange for the acquiree. The acquirer recognises only the consideration transferred for the acquiree, the assets acquired and liabilities assumed in the exchange for the acquiree. Separate transactions are accounted for in accordance with the relevant IFRS.

135 The disclosure of separately recognised transactions required by IFRS 3. B64(i) must include
   a. The total amount of acquisition related costs  □  □  □
   b. The amount of acquisition related costs recognised as expense  □  □  □
   c. The line item or items in the statement of comprehensive income in which the expense is recognised  □  □  □
   d. The issue costs not recognised as an expense  □  □  □
   e. The treatment of the issue costs not recognised as an expense  □  □  □

136 For each business combination during the period (or after the reporting period, but before the financial statements are authorised for issue) in a bargain purchase, does the entity disclose:
   a. The amount of the gain recognised as a bargain purchase  □  □  □
   b. The line item in the statement of comprehensive income in which the entity recognised the gain  □  □  □
   c. The reasons why the transaction resulted in a gain  □  □  □

137 For each business combination during the period (or after the reporting period, but before the financial statements are authorised for issue), in which the acquirer holds less than 100% of the equity interests in the acquiree at the acquisition date, does the entity disclose:
   a. The amount of the non-controlling interest in the acquiree recognised at the acquisition date and the measurement basis for that amount  □  □  □
   b. For each non-controlling interest in an acquiree measured at fair value, the valuation techniques and significant inputs used to measure that value  □  □  □

Non-controlling interest is defined as the equity in a subsidiary not attributable, directly or indirectly to a parent.

138 For each business combination during the period (or after the reporting period, but before the financial statements are authorised for issue), in a business combination achieved in stages, does the entity disclose:
   a. The acquisition-date fair value of the equity interest in the acquiree held by the acquirer immediately before the acquisition date  □  □  □
<table>
<thead>

</tbody>
</table>
f. Net exchange rate differences arising during the reporting period in accordance with IAS 21

g. Any other changes in the carrying amount during the reporting period

h. The gross amount and accumulated impairment losses at the end of the reporting period

146 IFRS 3.867

Does the entity disclose the amount and explain any gain or loss recognised in the current reporting period that both:

a. Relates to the identifiable assets acquired or liabilities assumed in a business combination that was effected in the current or previous reporting period

b. Is of such a size, nature of incidence that disclosure is relevant to understanding the combined entity’s financial statements

**Borrowing costs**

147 IAS 1.117

Does the entity disclose the accounting policy for the recognition of borrowing costs

148 IAS 23.26

If the entity capitalised borrowing costs during the reporting period, does it disclose:

a. The amount of borrowing costs capitalised during the period

b. The capitalisation rate used to determine the amount of borrowing costs eligible for capitalisation

**Changes in accounting estimates**

149 IAS 8.39

Does the entity disclose the following information for a change in accounting estimates that has an effect in the current period or is expected to have an effect in future periods:

a. The nature of the change

And

b. The amount of the change

Or

c. If applicable, the fact that the amount of the effect in future periods is not disclosed because estimating it is impracticable

In accordance with IAS 8, the entity discloses the nature and effect of a change in an accounting estimate that has an effect in the current period or is expected to have an effect in subsequent periods. Such disclosure may arise from changes in estimates in:

a. Residual values

b. The estimated costs of dismantling, removing or restoring items of property, plant and equipment

c. Useful lives

d. Depreciation/amortisation methods

**Consolidated financial statements**

Disclosures in the section below, are related to subsidiaries under IAS 27. If an entity has early adopted IFRS 10 and, consequently, IFRS 11, IFRS 12, and IAS 27 and IAS 28 (modified in 2011), disclosure requirements are included in the ‘New pronouncements’ section, below.

A parent need not present consolidated financial statements to comply with IFRS only if:

a. It is a wholly-owned subsidiary or the owners of the non-controlling interests, including those not otherwise entitled to vote, do not object to the parent not presenting consolidated financial statements

b. Its securities are not publicly traded

c. It is not in the process of issuing securities in public securities markets

d. The immediate or ultimate parent publishes consolidated financial statements that comply with IFRS

150 IAS 27.27

Does the entity present any non-controlling interest in the net assets of consolidated subsidiaries separately from the equity of the owners of the parent in its consolidated statement of financial position within equity

151 IAS 1.83(a)

Does the entity present any non-controlling interest in the profit or loss of the group separately in its consolidated statement of comprehensive income

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

152 IAS 27.41

Does the entity disclose:

a. The nature of the relationship between the parent and a subsidiary, if the parent does not own, directly or indirectly through subsidiaries, more than half of the voting power

b. For an investee, of which more than half of the voting or potential voting power is owned, directly or indirectly through subsidiaries, but which, because of the absence of control, is not a subsidiary, the reasons why the ownership does not constitute control
c. The end of the reporting period of the financial statements of a subsidiary, if such financial statements are used to prepare consolidated financial statements and are as of a date or for a period that is different from that of the parent and the reason for using a different reporting date or different period

d. The nature and extent of any significant restrictions on the ability of subsidiaries to transfer funds to the parent in the form of cash dividends, repayment of loans or advances (that is, borrowing arrangements or regulatory requirements)

153 IAS 27.41

Does the entity disclose:

a. A schedule that shows the effects of any changes in a parent’s ownership interest in a subsidiary that do not result in a loss of control on the equity attributable to owners of the parent

b. That the exemption from consolidation has been used

c. A list of significant investments in subsidiaries, joint ventures or associates, including the name, principal place of business (and country of incorporation, if different), proportion of ownership interest and, if different, proportion of voting power held

d. A list of significant investments in subsidiaries, jointly controlled entities and associates, including the name, country of incorporation or residence, proportion of ownership interest and, if different, proportion of voting power held

e. The method used to account for investments in subsidiaries, associates and jointly controlled entities

154 IAS 27.10

In the parent’s separate financial statements (where consolidated financial statements are not presented in accordance with IAS 27.10), does the entity disclose:

a. That the financial statements are separate financial statements

b. That the exemption from consolidation has been used

c. The name, country of incorporation or residence of the entity whose consolidated financial statements comply with IFRS have been produced for public use (and the address where these are obtainable)

d. A list of significant investments in subsidiaries, jointly controlled entities or associates, including the name, country of incorporation or residence, proportion of ownership interest and, if different, proportion of voting power held

e. The method used to account for investments in subsidiaries, associates and jointly controlled entities

In May 2011 the IASB issued a revised IAS 27 with a modified title – IAS 27 Separate Financial Statements. IFRS 10 Consolidated Financial Statements addresses the principle of control and the requirements relating to the preparation of consolidated financial statements.

An entity shall apply this standard for annual periods beginning on or after 1 January 2013. Earlier application is permitted. If an entity applies this standard earlier, it shall disclose that fact and apply IFRS 10, IFRS 11, IFRS 12 Disclosure of Interests in Other Entities and IAS 28 (as amended in 2011) at the same time.
d. The method used to account for investments in subsidiaries, associates and joint ventures

**Please note that when an entity prepares separate financial statements, it shall account for investments in subsidiaries, joint ventures and associates either at cost or in accordance with IAS 39 / IFRS 9**

**If the entity has early applied IAS 27 (amended 2011) and consequently IFRS 10, IFRS 11, IFRS 12 and IAS 28 (amended 2011), does the entity disclose that fact.**

In the parent’s (other than a parent covered by IAS 27.42) or venturer’s/investor’s separate financial statements, does the entity disclose:

a. That the financial statements are separate financial statements

b. The reasons why those separate financial statements are prepared if not required by law

c. A list of significant investments in subsidiaries, jointly controlled entities or associates, including the name, country of incorporation or residence, proportion of ownership interest and, if different, proportion of voting power held

d. The method used to account for investments in subsidiaries, associates and jointly controlled entities

**Please note that when an entity prepares separate financial statements, it shall account for investments in subsidiaries, jointly controlled entities and associates either at cost or in accordance with IAS 39 / IFRS 9**

**e. Information to identify the consolidated financial statements of the parent**

**Correction of errors**

**Does the entity report the amount of the correction of an error (unless this would be impracticable) either:**

a. By restating the comparative amounts for the prior period(s) in which the error occurred

Or

b. If the error occurred before the earliest prior period presented, by restating the opening balances of assets, liabilities and retained equity for that period

If it is impracticable to determine the period-specific effects of an error on comparative information, does the entity restate the opening balance of assets, liabilities and equity for the earliest period for which retrospective restatement is practicable

If it is impracticable to determine the cumulative effect at the beginning of the current reporting period of an error on all prior reporting periods, the entity restates the comparative information to correct the error prospectively from the earliest date practicable

The entity excludes the correction of a prior period error from profit or loss for the period in which it discovers the error. The entity restates any information presented about prior periods, including any historical summaries of financial data, as far back as practicable.

Does the entity disclose:

a. The nature of the error

b. The amount of the correction for each prior period presented (to the extent practicable) for each financial statement line item affected

c. The amount of the correction for each prior period presented (to the extent practicable) for basic and diluted earnings per share (if IAS 33 applies to the entity)

d. The amount of the correction at the beginning of the earliest period presented

e. If retrospective restatement is impracticable, the circumstances that led to the existence of that condition and a description of how and from when the entity corrected the error

Financial statements of subsequent periods need not repeat the disclosures required by IAS 8.49.

**Dividends**

**Does the entity disclose:**

a. The amount of dividends proposed or declared before the financial statements were authorised for issue, but not recognised as a distribution to owners during the period

b. The related amount per share

c. The amount of any cumulative preference dividends not recognised

**Distributions of non-cash assets to owners (IFRIC 17)**

In a distribution of non-cash assets to owners, does the entity disclose:

a. The carrying amount of the dividend payable at the beginning and end of the reporting period

b. The increase or decrease in the carrying amount of the dividend payable recognised in the reporting period, because of a change in the fair value of the assets to be distributed

If the entity declares a dividend to distribute a non-cash asset after the end of a reporting period, but before the financial statements are authorised for issue, does the entity disclose:
### Employee benefits

In June 2011, the IASB revised IAS 19. The IAS 19 (Revised 2011) disclosure requirements are included at the end of this checklist in the 'New pronouncements' section. If an entity early applies IAS 19 (Revised 2011), it should make those disclosures and not the ones included below.

#### Short-term employee benefits

Although IAS 19 does not require specific disclosures about short-term employee benefits, other IFRS may require disclosures. For example, IAS 1 requires that the entity disclose employee benefits expense.

#### Other long-term employee benefits

Although IAS 19 does not require specific disclosures about other long-term employee benefits, other IFRS may require disclosures. For example, IAS 1 requires that the entity disclose employee benefits expense.

#### Multi-employer plans

If a multi-employer plan is a defined benefit plan and the entity accounts for the plan as a defined benefit plan, does the entity make the disclosures in 'Defined benefit plans' section below.

If sufficient information is not available to use defined benefit accounting for a multi-employer plan that is a defined benefit plan, does the entity disclose:

<table>
<thead>
<tr>
<th>disclosure</th>
<th>yes</th>
<th>no</th>
<th>n/a</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. The fact that the plan is a defined benefit plan</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>b. The reason why sufficient information is not available to enable the entity to account for the plan as a defined benefit plan</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>c. To the extent that a surplus or deficit in the plan may affect the amount of future contributions:</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>‣ Any available information about that surplus or deficit</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>‣ The basis used to determine that surplus or deficit</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>‣ The implications, if any, for the entity</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

#### Defined benefit plans that share risks between various entities under common control

A defined benefit plan that shares risks between various entities under common control (for example, a parent and its subsidiaries) is not a multi-employer plan. Participation in such a plan is a related party transaction for each entity. The disclosure requirements in IAS 19.34B below only relate to the entity’s separate financial statements.

If the entity participates in a defined benefit plan that shares risks between various entities under common control, does the entity disclose the following:

<table>
<thead>
<tr>
<th>disclosure</th>
<th>yes</th>
<th>no</th>
<th>n/a</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. The contractual agreement or stated policy for charging the net defined benefit cost or the fact that there is no such policy</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>b. The policy for determining the contribution to be paid by the entity</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>c. If the entity accounts for an allocation of the net defined benefit cost under IAS 19.34A (that is, if the entity shares the risk from the defined benefit plan among entities under common control, measures the plan as a whole, but recognises the net defined benefit cost that relates to the reporting entity only), all the information about the plan as a whole under item in the 'Defined benefit plans' section below.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>d. If the entity accounts for the contribution payable for the reporting period under IAS 19.34A (that is, if the entity shares the risk from the defined benefit plan among entities under common control, and measures the plan as a whole, but recognises the net defined benefit cost that relates to the reporting entity only), the information about the plan as a whole required under item 169(b)(e), (j), (n), (o), (q).</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Disclosure made</td>
<td>Yes</td>
<td>No</td>
<td>N/A</td>
</tr>
<tr>
<td>----------------</td>
<td>-----</td>
<td>----</td>
<td>-----</td>
</tr>
<tr>
<td>Participation by a parent or subsidiary in a defined benefit plan that shares risks between group entities is a transaction between related parties.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>The other disclosures required by IAS 19.120A do not apply to defined benefit plans that share risks between various entities under common control (see item in the 'Defined benefit plans' section below).</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Defined contribution plans</strong></td>

</tbody>
</table>
Disclosure made
Yes No N/A

IAS 19.104A
- Expected return on any reimbursement right recognised as an asset in accordance with IAS 19.104A
- Actuarial gains and losses
- Past service cost
- The effect of any curtailment or settlement
- The effect of the limit in IAS 19.58(b)

h. The total amount recognised in the statement of comprehensive income for each of the following:
- Actuarial gains and losses
- The effect of the limit in IAS 19.58(b)

IAS 19.58(b)
i. The effect of the limit in IAS 19.58(b)

IAS 19.93A

i. For entities that recognise actuarial gains and losses in the income statement or statement of comprehensive income, as applicable, in accordance with IAS 19.93A, the cumulative amount of actuarial gains and losses recognised

j. For each major category of plan assets (which includes, but is not limited to, equity instruments, debt instruments, property and all other assets) the percentage or amount of the fair value of the total plan assets

k. The amounts included in the fair value of plan assets for:
- Each category of the entity’s own financial instruments
- Any property occupied by, or other assets used by, the entity

l. The basis used to determine the overall expected rate of return on assets, including the effect of the major categories of plan assets

m. The actual return on plan assets, as well as the actual return on any reimbursement right recognised as an asset in accordance with IAS 19.104A

n. The principal actuarial assumptions used (in absolute terms and not just as a margin between different percentages or other variables) as at the end of the reporting period, including, if applicable:
- The discount rates
- The expected rates of return on any plan assets for the periods presented in the financial statements

n. The effect of the limit in IAS 19.58(b)

IAS 19.104A

m. The actual return on plan assets, as well as the actual return on any reimbursement right recognised as an asset in accordance with IAS 19.104A

n. The principal actuarial assumptions used (in absolute terms and not just as a margin between different percentages or other variables) as at the end of the reporting period, including, if applicable:
- The discount rates
- The expected rates of return on any plan assets for the periods presented in the financial statements

IAS 19.104A

- The expected rates of return for the periods presented in the financial statements
- On any reimbursement right recognised as an asset in accordance with IAS 19.104A

The expected rates of salary increases (and of changes in an index or other variable specified in the formal or constructive terms of a plan as the basis for future benefit increases)

- Medical cost trend rates
- Any other material actuarial assumptions used

o. The effect of a one percent increase and one percent decrease in the assumed medical cost trend rates on:
- The aggregate of the current service cost and interest cost components of net periodic post-employment medical costs
- The accumulated post-employment benefit obligation for medical costs

For the disclosure, all other assumptions are held constant. For plans operating in a high inflation environment, the disclosure is the effect of a percentage increase or decrease in the assumed medical cost trend rate that is similar to one percent in a low inflation environment.

p. The amounts for the current annual period and previous four annual periods of:
- The present value of the defined benefit obligation, the fair value of the plan assets and the surplus or deficit in the plan
- The experience adjustments arising on:
  A. The plan liabilities expressed as either an amount or a percentage of the plan liabilities at the end of the reporting period
  B. The plan assets expressed as either an amount or a percentage of the plan assets at the end of the reporting period

q. If the entity is a first-time adopter, the entity may disclose the amounts required by item 169(p) prospectively from the transition date (see the section on ‘First-time adoption’).

IFRS 7.B1 - B3

IFRS 7.6 requires the entity to group financial instruments into classes that are appropriate to the nature of the information disclosed and that take into account the characteristics of those financial instruments. These classes are determined by the entity and as such, are distinct from the categories of financial instruments specified in IAS 39.

In determining classes of financial instruments, an entity:

a. Distinguishes between instruments measured at amortised cost from those measured at fair value
b. Treats those financial instruments as a separate class or classes outside the scope of this IFRS

The entity decides how much detail it provides to satisfy the requirements of IFRS 7, how much emphasis it places on different aspects of the requirements and how it aggregates information to display the overall picture without combining information with different characteristics, in the light of its circumstances. It is necessary to strike a balance between overburdening financial statements with excessive detail that may not assist users of financial statements and obscuring important information as a result of too much aggregation. For example, an entity must not obscure important information by including it among a large amount of insignificant detail. Similarly, an entity must not aggregate information so that it obscures important differences between individual transactions or associated risks.

**Significance of financial instruments for financial position and performance**

Does the entity disclose information that enables users of its financial statements to evaluate the significance of financial instruments to its financial position and performance.

**Statement of financial position - categories of financial assets and financial liabilities**

Does the entity disclose the carrying amounts of each of the following categories, as defined in IAS 39.9:

a. Financial assets at fair value through profit or loss, showing separately:
   - Those designated as such upon initial recognition
   - Those classified as held for trading
b. Held-to-maturity investments
c. Loans and receivables
d. Available-for-sale financial assets
e. Financial liabilities at fair value through profit or loss, showing separately:
   - Those designated as such upon initial recognition
   - Those classified as held for trading
f. Financial liabilities measured at amortised cost
Financial assets or financial liabilities at fair value through profit or loss

If the entity designated a loan or receivable (or a group of loans or receivables) at fair value through profit or loss, does it disclose:

a. The maximum exposure to credit risk of the loan or receivable (or group of loans or receivables) at the end of the reporting period (refer to item 224)

b. The amount by which any related credit derivatives or similar instruments mitigate that maximum exposure to credit risk

c. The change, during the period and cumulatively, in the fair value of the loan or receivable (or group of loans or receivables) that is attributable to changes in the credit risk of the financial asset determined either:
   ▶ As the change in its fair value that is not attributable to changes in market conditions that give rise to market risk
   Or
   ▶ Using an alternative method that the entity believes more faithfully represents the change in its fair value that is attributable to changes in credit risk of the asset

Changes in market conditions that give rise to market risk include changes in an observed (benchmark) interest rate, commodity price, foreign exchange rate or index of prices or rates.

d. The amount of the change in the fair value of any related credit derivatives or similar instruments that has occurred during the period and cumulatively since the loan or receivable was designated

If the entity has designated a financial liability as at fair value through profit or loss in accordance with IAS 39.9, does it disclose:

a. The change, during the reporting period and cumulatively, in the fair value of the financial liability that is attributable to changes in the credit risk of that liability determined either:
   ▶ As the change in its fair value that is not attributable to changes in market conditions that give rise to market risk
   Or
   ▶ Using an alternative method that the entity believes more faithfully represents the change in its fair value that is attributable to changes in the credit risk of the liability

Changes in market conditions that give rise to market risk include changes in a benchmark interest rate, price of another entity’s financial instrument, commodity price, foreign exchange rate or an index of prices or rates. For contracts that include a unit-linking feature, changes in market conditions include changes in the performance of the related internal or external investment fund.

b. The difference between the financial liability’s carrying amount and the amount the entity would be contractually required to pay at maturity to the holder of the obligation

Does the entity disclose:

a. The methods used to comply with the requirements in IFRS 7.9(c) and IFRS 7.10(a) above.

b. If the entity believes that the disclosure it has given to comply with the requirements in IFRS 7.9(c). and 1 IFRS 7.10(a) above. does not faithfully represent the change in the fair value of the financial asset or financial liability attributable to changes in the credit risk:
   ▶ The reasons for reaching this conclusion
   And
   ▶ The factors the entity believes are relevant

Reclassification

If the entity has reclassified a financial asset as one measured:

a. At cost or amortised cost, rather than at fair value
   Or

b. At fair value, rather than at cost or amortised cost

Does it disclose the amount reclassified into and out of each category and the reason for that reclassification

If the entity reclassifies a financial asset out of the fair value through profit or loss category or out of the available-for-sale category, does it disclose:

a. The amount reclassified into and out of each category

b. For each reporting period until derecognition, the carrying amounts and fair values of all financial assets that the entity reclassified in the current and previous reporting periods

c. If a financial asset is reclassified out of fair value through profit or loss due to rare circumstances, the rare situation and the facts and circumstances indicating that the situation was rare

d. For the reporting period when the financial asset was reclassified, the fair value gain or loss on the financial asset recognised in profit or loss or other comprehensive income in that reporting period and in the previous reporting period
e. For each reporting period following the reclassification (including the reporting period in which the financial asset was reclassified) until derecognition of the financial asset, the fair value gain or loss that the entity would have recognised in profit or loss or other comprehensive income if the financial asset had not been reclassified, and the gain, loss, income and expense recognised in profit or loss

f. The effective interest rate and estimated amounts of cash flows the entity expects to recover, as at the date of reclassification of the financial asset

IAS 39.50B

The entity may reclassify a financial asset to which IAS 39.50(c) applies (except a financial asset as described in IAS 39.50D) out of the fair value through profit or loss category only in rare circumstances.

IAS 39.50D

The entity may reclassify a financial asset to which IAS 39.50(c) applies that would have met the definition of loans and receivables (if the financial asset had not been required to be classified as held for trading at initial recognition) out of the fair value through profit or loss category if the entity has the intention and ability to hold the financial asset for the foreseeable future or until maturity.

IAS 39.50E

The entity may reclassify a financial asset classified as available-for-sale that would have met the definition of loans and receivables (if it had not been designated as available-for-sale) out of the available-for-sale category to the loans and receivables category if the entity has the intention and ability to hold the financial asset for the foreseeable future or until maturity.

Transfers of financial assets

In the first year of application of the Amendments to IFRS 7 Disclosures - Transfers of Financial Assets, an entity need not provide comparative disclosures required by the amendments for any period presented that begins before 1 July 2011.

Although comparative disclosures are not required, IFRS 7 requires transfer of financial assets disclosures to be provided for all transferred financial assets that are not derecognised and for any continuing involvement in a transferred asset, existing at the reporting date, irrespective of when the related transfer transaction occurred.

193 IFRS 7.42A

Does the entity present the disclosures required in Items 194-198 in a single note in its financial statements

194 IFRS 7.42B

Does the entity disclose information that enables users of its financial statements to:

a. Understand the relationship between transferred financial assets that are not derecognised in their entirety and the associated liabilities

b. Evaluate the nature of, and risks associated with, the entity’s continuing involvement in derecognised financial assets

Items 194 – 198 supplement the other disclosure requirements of IFRS 7. The entity provides these disclosures for all transferred financial assets that are not derecognised and for any continuing involvement in a transferred asset, existing at the reporting date, irrespective of when the related transfer transaction occurred.

For these disclosure requirements, an entity transfers all or part of a financial asset (the transferred financial asset), only if it either:

a. Transfers the contractual rights to receive the cash flows of that financial asset

Or

b. Retains the contractual rights to receive the cash flows of that financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients in an arrangement (commonly referred to as a ‘pass-through arrangement’)

Note: the meaning of ‘transfer’ in IFRS 7 differs from that in IAS 39 (IFRS 9) with respect to ‘pass-through arrangements’. In particular, for pass-through arrangements to qualify as transfers under IAS 39 (IFRS 9), all three conditions in IAS 39.19 (IFRS 9.3.2.5) (commonly referred to as the ‘pass through conditions’) need to be met. In contrast, pass-through conditions need not be met for pass-through arrangements to be within the scope of IFRS 7. Accordingly, an arrangement whereby a reporting entity (including any consolidated special purpose entity) issues notes payable to investors that are contractually referenced to specified assets, and are non-recourse to the group, falls within the scope of these disclosure requirements, irrespective of whether such an arrangement meets all the IAS 39 (IFRS9) ‘pass-through’ conditions.
### Transferred financial assets that are not derecognised in their entirety

To meet the objectives in IFRS 7.42B(a) above, does the entity disclose for each class of transferred financial assets that are not derecognised in their entirety (i.e., transfers that result in partial or no derecognition):

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. The nature of the transferred assets</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>b. The nature of the risks and rewards of ownership to which the entity remains exposed</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>c. A description of the nature of the relationship between the transferred assets and the associated liabilities, including any restrictions arising from the transfer on the entity’s use of the transferred assets</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>d. When the counterparty (counterparties) to the associated liabilities has (have) recourse only to the transferred assets, a schedule that sets out</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>- The fair value of the transferred assets</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>- The fair value of the associated liabilities</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>- The net position</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>e. When the entity continues to recognise all of the transferred assets, the carrying amounts of the transferred assets and the associated liabilities</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>- The total carrying amount of the original assets before the transfer</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>- The carrying amount of the assets that the entity continues to recognise</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>- The carrying amount of the associated liabilities</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### Transferred financial assets that are derecognised in their entirety

To meet the objectives in IFRS 7.42B(b) above, when the entity derecognises financial assets in their entirety, but has continuing involvement in them, does the entity disclose, as a minimum, for each type of continuing involvement at the reporting date:

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. The carrying amount of the assets and liabilities that are recognised in the entity’s statement of financial position and represent the entity’s continuing involvement in the derecognised financial assets, and the line items in which those assets and liabilities are recognised</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>b. The fair value of the assets and liabilities that represent the entity’s continuing involvement in the derecognised financial assets</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>c. The amount that best represents the entity’s maximum exposure to loss from its continuing involvement in the derecognised financial assets, and how the maximum exposure to loss is determined</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>d. The undiscounted cash outflows that would or may be required to repurchase the derecognised financial assets or other amounts payable to the transferee for the transferred assets</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Examples of cash outflows to repurchase the derecognised financial assets include, the strike price in an option agreement or the repurchase price in a repurchase agreement. If the cash outflow is variable, then the amount disclosed is based on the conditions that exist at each reporting date.

Examples of time bands:
- The maturity analysis should distinguish cash flows that are required to be paid (e.g., forward contracts), cash flows that the entity may be required to pay (e.g., written put options) and cash flows that the entity might choose to pay (e.g., purchased call options).
- An entity uses its judgement to determine an appropriate number of time bands in preparing the maturity analysis. If there is a range of possible maturities, the cash flows are included on the basis of the earliest date on which the entity can be required or is permitted to pay.

f. Qualitative information that explains and supports the quantitative disclosures in (a)–(e), that includes a description of:

- The derecognised financial assets and the nature and purpose of the continuing involvement retained after transferring those assets
- The risks to which an entity is exposed, including:
  - A description of how the entity manages the risk inherent in its continuing involvement in the derecognised financial assets
  - B. Whether the entity is required to bear losses before other parties, and the ranking and amounts of losses borne by parties whose interests rank lower than the entity’s interest in the asset (i.e., its continuing involvement in the asset)
  - C. A description of any triggers associated with obligations to provide financial support or to repurchase a transferred financial asset
### IFRS 7.42F
An entity may aggregate the information required by IFRS 7.42E above for a particular asset if the entity has more than one type of continuing involvement in that derecognised financial asset, and report it under one type of continuing involvement.

### IFRS 7.42G
Does the entity disclose, for each reporting period for which a statement of comprehensive income is presented, for each type of continuing involvement:

<table>
<thead>
<tr>
<th>a.</th>
<th>The gain or loss recognised at the date of transfer of the assets, including:</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Whether that gain or loss on derecognition arose because the fair values of the components of the previously recognised asset (i.e., the interest in the asset derecognised and the interest retained by the entity) were different from the fair value of the previously recognised asset as a whole</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>If that gain or loss on derecognition arose because the fair values of the components of the previously recognised asset were different from the fair value of the transferred financial asset</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

| b. | Income and expenses recognised, both in the reporting period and cumulatively, from the entity’s continuing involvement (for example, fair value changes in derivative instruments) | Yes | No | N/A |
| c. | If the total amount of proceeds from transfer activity (that qualifies for derecognition) in a reporting period is not evenly distributed throughout the reporting period (for example, if a substantial proportion of the total amount of transfer activity takes place in the closing days of a reporting period): | Yes | No | N/A |
| | When the greatest transfer activity took place within that reporting period (for example, the last five days before the end of the reporting period) | | | |
| | The amount recognised (for example, related gains or losses) from transfer activity in that part of the reporting period | | | |
| | The total amount of proceeds from transfer activity in that part of the reporting period. | | | |

### Supplementary Information

Does the entity disclose any additional information necessary to meet the disclosure objectives in item 194.

<table>
<thead>
<tr>
<th></th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
</table>

For items 196-198, an entity has continuing involvement in a transferred financial asset if, as part of the transfer, the entity retains any of the contractual rights or obligations inherent in the transferred financial asset or obtains any new contractual rights or obligations relating to the transferred financial asset. Continuing involvement in a transferred financial asset may result from contractual provisions in the transfer agreement or in a separate agreement with the transferee or a third party entered into in connection with the transfer. However, the following do not constitute continuing involvement:

- Normal representations and warranties relating to fraudulent transfer and concepts of reasonableness, good faith and fair dealings that could invalidate a transfer as a result of legal action
- Forward, option and other contracts to reacquire the transferred financial asset for which the contract price (or exercise price) is the fair value of the transferred financial asset
- An arrangement whereby an entity retains the contractual rights to receive the cash flows of a financial asset, but assumes a contractual obligation to pay the cash flows to one or more entities and the conditions in IAS 39.19(a)-(c) are met

Items 196-198 require qualitative and quantitative disclosures for each type of continuing involvement in derecognised financial assets.

An entity aggregates its continuing involvement into categories that are representative of the entity's exposure to risks. For example, by type of financial instrument (for example, guarantees or call options) or by type of transfer (for example, factoring of receivables, securitisations and secured lending).

### 198. IFRS 7.42H

For items 196-198, an entity has continuing involvement in a transferred financial asset if, as part of the transfer, the entity retains any of the contractual rights or obligations inherent in the transferred financial asset or obtains any new contractual rights or obligations relating to the transferred financial asset. Continuing involvement in a transferred financial asset may result from contractual provisions in the transfer agreement or in a separate agreement with the transferee or a third party entered into in connection with the transfer. However, the following do not constitute continuing involvement:

- Normal representations and warranties relating to fraudulent transfer and concepts of reasonableness, good faith and fair dealings that could invalidate a transfer as a result of legal action
- Forward, option and other contracts to reacquire the transferred financial asset for which the contract price (or exercise price) is the fair value of the transferred financial asset
- An arrangement whereby an entity retains the contractual rights to receive the cash flows of a financial asset, but assumes a contractual obligation to pay the cash flows to one or more entities and the conditions in IAS 39.19(a)-(c) are met

Items 196-198 require qualitative and quantitative disclosures for each type of continuing involvement in derecognised financial assets.

An entity aggregates its continuing involvement into categories that are representative of the entity's exposure to risks. For example, by type of financial instrument (for example, guarantees or call options) or by type of transfer (for example, factoring of receivables, securitisations and secured lending).

### Collateral

Does the entity disclose:

- The carrying amount of financial assets pledged as collateral for liabilities or contingent liabilities, including amounts reclassified in accordance with IAS 39.37
- The terms and conditions relating to the pledge

If a transferor provides non-cash collateral (such as debt or equity instruments) to the transferee, the accounting for the collateral by the transferor and the transferee depends on whether the transferee has the right to sell or repledge the collateral and whether the transferor has defaulted. If the transferee has the right by contract or custom to sell or repledge the collateral, then the transferor reclassifies that asset in its statement of financial position (for example, as a loaned asset, pledged equity instruments or repurchase receivable) separately from other assets.

Some transactions involving the provision of non-cash financial collateral may be considered transfers that fall within the scope of IFRS 7.42D (e.g., non cash collateral transferred in a repo). This would normally be the case when (a) the transferee's rights to control the asset are not conditional on the transferor's default. This is often evidenced by the transfer of legal ownership and/or the transferee's ability to re-sell or re-pledge the financial asset; or (b) when the arrangement is considered a 'pass-through'.
Disclosure made

Yes No N/A

through arrangement (see item 192 above). Collateral pledged or received subject to a netting arrangement would also fall within the scope of the offsetting disclosures irrespective of whether or not the collateral met the offsetting criteria (see items 233-236 below).

200 IFRS 7.15
If the entity holds collateral (of financial or non-financial assets) and may sell or repledge the collateral in the absence of default by the owner of the collateral, does the entity disclose:
   a. The fair value of the collateral held
   b. The fair value of any such collateral sold or repledged, and whether the entity has an obligation to return it
   c. The terms and conditions associated with its use of this collateral

201 IFRS 7.16
If financial assets are impaired by credit losses and the entity records the impairment in a separate account (for example, an allowance account or similar account used to record a collective impairment of assets) rather than directly reducing the carrying amount of the asset, does the entity disclose a reconciliation of changes in that account during the period for each class of financial assets

202 IFRS 7.17, IAS 32.28
Compound financial instruments with multiple embedded derivatives
If the entity issued an instrument that contains both a liability and an equity component and the instrument has multiple embedded derivatives whose values are interdependent (such as a callable convertible debt instrument), does the entity disclose the existence of those features

203 IFRS 7.18
For loans payable recognised at the end of the reporting period, does the entity disclose:
   a. Details of any defaults during the period of principal, interest, sinking fund, or redemption terms of those loans payable
   b. The carrying amount of the loans payable in default at the end of the reporting period
   c. Whether the default was remedied, or the terms of the loans payable were renegotiated, before the financial statements were authorised for issue

204 IFRS 7.19
If, during the reporting period, there are breaches of loan agreement terms other than those described in IFRS 7.18 above, does the entity disclose the same information as required by IFRS 7.18 if those breaches permit the lender to demand accelerated repayment (unless the breaches were remedied, or the terms of the loan were renegotiated on or before the end of the reporting period)

205 IFRS 7.20
Statement of comprehensive income and equity
Items of income, expense, gains and losses
Does the entity disclose the following items of income, expense, gains or losses:
   a. Net gains or net losses on:
      ▶ Financial assets or financial liabilities at fair value through profit or loss, showing separately:
         A. Those on financial assets or financial liabilities designated as such upon initial recognition
         B. Those on financial assets or financial liabilities that are classified as held for trading in accordance with IAS 39
      ▶ Available-for-sale financial assets, showing separately:
         A. The gain or loss recognised in other comprehensive income during the reporting period
         B. The amount reclassified from equity to profit or loss as a reclassification adjustment for the reporting period
      ▶ Held-to-maturity investments
      ▶ Loans and receivables
      ▶ Financial liabilities measured at amortised cost
   b. Total interest income and total interest expense (calculated using the effective interest method) for financial assets or financial liabilities that are not at fair value through profit or loss
   c. Fee income and expense (other than amounts included in determining the effective interest rate) arising from:
      ▶ Financial assets or financial liabilities that are not at fair value through profit or loss
      ▶ Trust and other fiduciary activities that result in the holding or investing of assets on behalf of individuals, trusts, retirement benefit plans and other institutions
d. Interest income on impaired financial assets accrued in accordance with IAS 39. AG93

e. Any impairment loss for each class of financial asset

**Other disclosures**

**Accounting policies**

206. **IFRS 7.21**

Does the entity disclose, in the summary of significant accounting policies, the measurement basis (or bases) used in preparing the financial statements and the other accounting policies that are relevant to an understanding of the financial statements in relation to financial instruments

207. **IFRS 7.85**

Does the entity disclose for financial assets or financial liabilities designated as at fair value through profit or loss:

a. The nature of the financial assets or financial liabilities the entity designated as at fair value through profit or loss

b. The criteria for so designating such financial assets or financial liabilities on initial recognition

c. How the entity satisfied the conditions in IAS 39.9, IAS 39.11A or IAS 39.12 for such designation:

   - For instruments designated in accordance with the definition of a financial asset or financial liability at fair value through profit or loss in IAS 39.9(b)(i), that disclosure includes the circumstances underlying the measurement or recognition inconsistency that would otherwise arise.

   - For instruments designated in accordance with the definition of a financial asset or financial liability at fair value through profit or loss in IAS 39.9(b)(ii), that disclosure includes how designation at fair value through profit or loss is consistent with the entity’s documented risk management or investment strategy

208. **IFRS 7.85**

Does the entity disclose:

a. The criteria for designating financial assets as available-for-sale

b. Whether regular way purchases and sales of financial assets are accounted for at trade date or at settlement date

c. If the entity uses an allowance to reduce the carrying amount of financial assets impaired by credit losses:

   - The criteria for determining when the carrying amount of impaired financial assets is reduced directly (or, in a reversal of a write-down, increased directly) and when the allowance account is used

209. **IFRS 7.85**

Does the entity disclose management’s judgements for financial instruments that have the most significant effect on the financial statements

**Hedge accounting**

210. **IFRS 7.22**

Does the entity disclose the following separately for each type of hedge in IAS 39 (that is, fair value hedges, cash flow hedges and hedges of a net investment in a foreign operation):

a. A description of each type of hedge

b. A description of the financial instruments designated as hedging instruments

c. Their fair values at the end of the reporting period

d. The nature of the risks being hedged

211. **IFRS 7.23**

For cash flow hedges, does the entity disclose:

a. The periods when the cash flows are expected to occur and when they are expected to affect profit or loss

b. Any forecast transaction for which hedge accounting had previously been used but which is no longer expected to occur

c. The amount recognised in other comprehensive income during the reporting period

d. The amount that was reclassified from equity to profit or loss as a reclassification adjustment for the reporting period, showing the amount included in each line item in the statement of comprehensive income

e. The amount that was removed from equity during the reporting period and included in the initial cost or other carrying amount of a non-financial asset or non-financial liability whose acquisition or incurrence was a hedged highly probable forecast transaction
### IFRS 7.24
Does the entity disclose separately:

- a. In fair value hedges, gains or losses:
  - On the hedging instrument
  - On the hedged item attributable to the hedged risk

- b. The ineffectiveness recognised in profit or loss that arises from cash flow hedges

- c. The ineffectiveness recognised in profit or loss that arises from hedges of net investment in foreign operations

### IFRS 7.29
The entity is not required to disclose fair value:

- a. If the carrying amount is a reasonable approximation of fair value, for example, for financial instruments such as short-term trade receivables and payables

- b. For an investment in equity instruments that do not have a quoted price in an active market for an identical instrument (i.e. a Level 1 input), or derivatives linked to such equity instruments, that is measured at cost in accordance with IAS 39 because its fair value cannot be measured reliably

- c. For a contract containing a discretionary participation feature, if the fair values of that feature cannot be measured reliably.

### IFRS 7.25
Does the entity disclose for each class of financial assets and financial liabilities the fair value of that class of assets and liabilities in a way that permits it to be compared with its carrying amount (except for those noted in IFRS 7.29).

### IFRS 7.26
In disclosing fair values, does the entity group financial assets and financial liabilities into classes, but offset them only to the extent that their carrying amounts are offset in the statement of financial position.

### IFRS 7.27
For each class of financial instrument, does the entity disclose:

- a. The methods used in determining fair value

- b. If a valuation technique is used to determine fair value, the assumptions applied in determining fair values of each class of financial assets or financial liabilities

- c. Any change in the valuation technique

- d. The reasons for that change

An entity, for example, discloses the assumptions for prepayment rates, rates of estimated credit losses, interest rates and discount rates.

### IFRS 7.27A
The entity determines the level in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement in its entirety. The entity assesses the significance of an input against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

### IFRS 7.27B
For fair value measurements recognised in the statement of financial position, does the entity disclose for each class of financial instruments in a tabular format unless another format is more appropriate:

- a. The level in the fair value hierarchy into which the fair value measurements are categorised in their entirety, segregating fair value measurements based on the levels defined in IFRS 7.27A above.

- b. Any significant transfers between (into and out of) Level 1 and Level 2 of the fair value hierarchy and the reasons for those transfers, presented separately

Significance is judged with respect to profit or loss, and total assets or total liabilities.
c. For fair value measurements in Level 3 of the fair value hierarchy, a reconciliation from the beginning balances to the ending balances, disclosing separately changes during the reporting period attributable to the following:

- Total gains or losses for the reporting period recognised in profit or loss and a description of where they are presented in the statement of profit or loss and other comprehensive income for the period
- Total gains or losses recognised in other comprehensive income
- Purchases, sales, issues and settlements (separately for each type of movement)
- Transfers into or out of Level 3 (for example, transfers attributable to changes in observable market data) and the reasons for those transfers, presented separately

d. The amount of total gains or losses for the reporting period in (c.) included in profit or loss that are attributable to gains or losses relating to those assets and liabilities held at the end of the reporting period and a description of where those gains or losses are presented in the statement of comprehensive income or the separate income statement (if presented)

e. For fair value measurements in Level 3, if changing one or more of the inputs to reasonably possible alternative assumptions changes fair value significantly, disclose:

- That fact
- The effect of those changes
- How the effect of a change to a reasonably possible alternative assumption was calculated

Significance is judged with respect to profit or loss, and total assets or total liabilities, or, when changes in fair value are recognised in other comprehensive income, total equity.

If, at initial recognition, there is a difference between the transaction price and the single fair value amount at that date determined using a valuation technique that does not use data from observable markets, does the entity disclose (by class of financial instrument):

a. Its accounting policy for recognising that difference in profit or loss to reflect a change in factors (including time) that market participants would take into account when pricing the asset or liability

An entity subsequently measures a financial asset or financial liability and the subsequent recognition of gains and losses consistently with the requirements of IAS 39. The application of IAS 39.AG76 may result in no gain or loss being recognised on the initial recognition of a financial asset or financial liability. In such a case, IAS 39 requires that a gain or loss is recognised after initial recognition only to the extent that it arises from a change in a factor (including time) that market participants would take into account when pricing the asset or liability.

b. The aggregate difference yet to be recognised in profit or loss at the beginning and end of the reporting period and reconciliation of changes in the balance of this difference

c. If an entity early adopts IFRS 13, why the entity has concluded that the transaction price was not the best evidence of fair value, including a description of the evidence that supports the fair value

In the cases described in IFRS 7.29(b) and (c), does the entity disclose information to help users of the financial statements make their own judgements about the extent of possible differences between the carrying amount of those financial assets or financial liabilities and their fair value, including:

a. The fact that the entity does not disclose fair value for these instruments because their fair value cannot be measured reliably
b. A description of the financial instruments, their carrying amount and an explanation of why fair value cannot be measured reliably
c. The market for the instruments
d. Whether and how the entity intends to dispose of the financial instruments
e. If financial instruments whose fair value previously could not be reliably measured are derecognised:

- That fact
- Their carrying amount at the time of derecognition
- The amount of gain or loss recognised
## Nature and extent of risk arising from financial instruments

The disclosures required by items 221-232 focus on the risks that arise from financial instruments and how they have been managed. These risks typically include, but are not limited to, credit risk, liquidity risk and market risk. The disclosures are either given in the financial statements or incorporated by cross-reference in the financial statements to some other statement, such as a management commentary or risk report, that is available to users of the financial statements on the same terms as the financial statements and at the same time. Without the information incorporated by cross-reference, the financial statements are incomplete.

### Qualitative disclosures

For each type of risk arising from financial instruments, does the entity disclose:

- a. The exposures to risk and how they arise
- b. Its objectives, policies and processes for managing the risk and the methods used to measure the risk
- c. Any changes in (a) or (b) from the previous period

### Quantitative disclosures

For each type of risk arising from financial instruments, does the entity disclose:

- a. Summary quantitative data about its exposure to that risk at the end of the reporting period based on the information provided internally to key management personnel of the entity (as defined in IAS 24), for example, the entity’s board of directors and chief executive officer
- b. The disclosures required by items 226-232 to the extent not provided in accordance with (a)
- c. Concentrations of risk if not apparent from the disclosures made in accordance with (a) and (b)

Concentrations of risk arise from financial instruments that have similar characteristics and are affected similarly by changes in economic or other conditions. The identification of concentrations of risk requires judgement taking into account the circumstances of the entity (see IFRS 7.IG18).

For concentrations of risk, does the entity disclose:

- a. How management determines concentrations
- b. The shared characteristic that identifies each concentration (for example, counterparty, geographical area, currency and/or market)
- c. The amount of the risk exposure associated with all financial instruments sharing that characteristic

In accordance with IFRS 7.BB, disclosures of concentrations of risk includes the shared characteristic that identifies each concentration. For example, the shared characteristic may refer to geographical distribution of counterparties by groups of countries, individual countries or regions within countries.

If the quantitative data disclosed as at the end of the reporting period are unrepresentative of the entity’s exposure to risk during the period, does the entity provide further information that is representative.

To meet this requirement, the entity might disclose the highest, lowest and average amount of risk to which it was exposed during the reporting period. For example, if an entity typically has a large exposure to a particular currency, but at the end of the reporting period unwinds the position, the entity might disclose a graph that shows the exposure at various times during the reporting period, or disclose the highest, lowest and average exposures.

### Credit risk

IFRS 7.36(a) requires disclosure of the amount that best represents the entity’s maximum exposure to credit risk. For a financial asset, this is typically the gross carrying amount, net of:

- a. Any amounts offset in accordance with IAS 32
- b. Any impairment losses recognised in accordance with IAS 39

Activities that give rise to credit risk and the associated maximum exposure to credit risk include, but are not limited to:
a. Granting loans and receivables to customers and placing deposits with other entities. In these cases, the maximum exposure to credit risk is the carrying amount of the related financial assets.

b. Entering into derivative contracts such as foreign exchange contracts, interest rate swaps and credit derivatives. If the entity measures the resulting asset at fair value, the maximum exposure to credit risk at the end of the reporting period will equal the carrying amount.

c. Granting financial guarantees. In this case, the maximum exposure to credit risk is the maximum amount the entity could have to pay if the guarantee is called on, which may be significantly greater than the amount recognised as a liability.

d. Making a loan commitment that is irrevocable over the life of the facility or is revocable only in response to a material adverse change. If the issuer cannot settle the loan commitment net in cash or another financial instrument, the maximum credit exposure is the full amount of the commitment. This is because it is uncertain whether the amount of any undrawn portion may be drawn upon in the future. This may be significantly greater than the amount recognised as a liability.

226  IFRS 7.36  Does the entity disclose by class of financial instrument:

- a. The amount that best represents its maximum exposure to credit risk at the end of the reporting period without taking account of any collateral held or other credit enhancements (for example, netting agreements that do not qualify for offset in accordance with IAS 32.42), if the carrying amount does not represent the maximum exposure to credit risk

- b. A description of collateral held as security and of other credit enhancements, and their financial effect (for example, a quantification of the extent to which collateral and other credit enhancements mitigate credit risk) for the amount that best represents the maximum exposure to credit risk (whether disclosed in accordance with (a) or represented by the carrying amount of a financial instrument)

- c. The credit quality of financial assets that are neither past due nor impaired

227  IFRS 7.37  Does the entity disclose by class of financial asset:

- a. An analysis of the age of financial assets that are past due as at the end of the reporting period but not impaired

- b. An analysis of financial assets that are individually determined to be impaired as at the end of the reporting period, including the factors the entity considered in determining that they are impaired

228  IFRS 7.38  If the entity obtains financial or non-financial assets during the period by taking possession of collateral it holds as security or calling on other credit enhancements (for example, guarantees), and such assets meet the recognition criteria in other IFRS, does the entity disclose for such assets held at the reporting date:

- a. The nature and carrying amount of the assets obtained

- b. If the assets are not readily convertible into cash, its policies for disposing of such assets or for using them in its operations

229  IFRS 7.39  Does the entity disclose:

- a. A maturity analysis for non-derivative financial liabilities (including issued financial guarantee contracts) that shows the remaining contractual maturities

An entity discloses summary quantitative data about its exposure to liquidity risk on the basis of information provided internally to key management personnel. An entity explains how those data are determined.

In preparing the maturity analyses, the entity uses its judgement to determine appropriate time bands, which are consistent with how the entity manages risk.

In preparing the maturity analyses, the entity does not separate an embedded derivative from a hybrid (combined) financial instrument.

If the counterparty has a choice of when an amount is paid, the liability is included on the earliest date on which the entity can be required to pay. For example, financial liabilities that an entity must repay on demand (such as demand deposits) are included in the earliest time band.

If the entity is committed to make amounts available in instalments, each instalment is allocated to the earliest period in which the entity can be required to pay. For example, an undrawn loan commitment is included in the time band containing the earliest date it can be drawn down.

For issued guarantee contracts, the maximum amount of the guarantee is allocated to the earliest period in which the guarantee could be called.

The amounts in the maturity analysis are the contractual undiscounted cash flows, for example: gross finance lease obligations (before deducting finance charges),
prices specified in forward agreements to purchase financial assets for cash, net amounts for pay-floating/receive-fixed interest rate swaps for which net cash flows are exchanged, contractual amounts to be exchanged in a derivative financial instrument (e.g. a currency swap) for which gross cash flows are exchanged and gross loan commitments.

Such undiscounted cash flows differ from the amount included in the statement of financial position because the statement of financial position amount is based on discounted cash flows. If the amount payable is not fixed, the entity discloses the amount based on the conditions existing at the end of the reporting period. For example, if the amount payable varies with changes in an index, the amount disclosed may be based on the level of the index at the end of the reporting period.

b. A maturity analysis for derivative financial liabilities, which includes the remaining contractual maturities for those derivative financial liabilities for which contractual maturities are essential for an understanding of the timing of the cash flows

The entity discloses a maturity analysis of financial assets it holds for managing liquidity risk (for example, financial assets that are readily saleable or expected to generate cash inflows to meet cash outflows on financial liabilities), if that information is necessary to enable users of its financial statements to evaluate the nature and extent of liquidity risk.

Other factors that the entity considers in IFRS 7.39 (c) above include, but are not limited to, whether the entity has the following:

a. Committed borrowing facilities (for example, commercial paper facilities) or other lines of credit (for example, stand-by credit facilities) that it can access to meet liquidity needs
b. Deposits at central banks to meet liquidity needs
c. Very diverse funding sources
d. Significant concentrations of liquidity risk in either its assets or its funding sources
e. Internal control processes and contingency plans for managing liquidity risk
f. Instruments that include accelerated repayment terms (for example, upon the downgrade of the entity’s credit rating)
g. Instruments that could require the posting of collateral (for example, margin calls for derivatives)
h. Instruments that allow the entity to choose whether it settles its financial liabilities by delivering cash (or another financial asset) or by delivering its own shares
Or
i. Instruments that are subject to master netting agreements.

d. Unless the information is included in the contractual maturity analysis required by IFRS 7.39 (a) or IFRS 7.39 (b) above, does the entity state that fact and provide quantitative information that enables users of its financial statements to evaluate the extent of this risk if the outflow of cash (or another financial asset) could either:
  ▶ Occur significantly earlier than indicated in the data
  Or
  ▶ Be for significantly different amounts from those indicated in the data (for example, for a derivative that is included in the data on a net settlement basis, but for which, the counterparty has the option to require gross settlement)

Market risk

Sensitivity analysis

Unless the entity complies with IFRS 7.41 below, does the entity disclose:

a. A sensitivity analysis for each type of market risk to which the entity is exposed at the end of the reporting period, showing how profit or loss and equity would have been affected by changes in the relevant risk variable that were reasonably possible at the end of the reporting period
b. The methods and assumptions used in preparing the sensitivity analysis
c. Changes from the previous period in the methods and assumptions used and reasons for such changes

In accordance with IFRS 7.B3, the entity decides how it aggregates information to display the overall picture without combining information with the different characteristics about exposures to risks from significantly different economic environments.

If the entity is exposed to only one type of market risk in only one economic environment, it does not show disaggregated information. For this purpose:
a. Entities disclose the effect on profit or loss and equity at the end of the reporting period, assuming that a reasonably possible change in the relevant risk variable had occurred at the end of the reporting period and had been applied to the risk exposures in existence at that date. For example, if an entity has a floating rate liability at the end of the year, the entity would disclose the effect on profit or loss (that is, interest expense) for the current year if interest rates had varied by reasonably possible amounts.

b. Entities are not required to disclose the effect on profit or loss and equity for each change within a range of reasonably possible changes of the relevant risk variable. Disclosure of the effects of the changes at the limits of the reasonably possible range are sufficient.

In determining what a reasonably possible change in the relevant risk variable is, the entity considers the following:

a. The economic environments in which it operates. A reasonably possible change does not include remote or ‘worst case’ scenarios or ‘stress tests’. Moreover, if the rate of change in the underlying risk variable is stable, the entity need not alter the chosen reasonably possible change in the risk variable. The entity discloses the effect on profit or loss and equity if interest rates were to change to 5% or 6%. The entity is not required to revise its assessment that interest rates might reasonably fluctuate, unless there is evidence that interest rates have become significantly more volatile.

b. The time frame over which it is making the assessment. The sensitivity analysis shows the effects of changes that are considered reasonably possible over the period until the entity will next present these disclosures, which is usually its next annual reporting period.

If the entity prepares a sensitivity analysis, such as a value-at-risk, that reflects interdependencies between risk variables (for example, interest rates and exchange rates) and uses it to manage financial risks, it may use that sensitivity analysis in place of the analysis in IFRS 7.40 above. If the entity uses such a sensitivity analysis does the entity also explain:

a. The method used in preparing such a sensitivity analysis, and the main parameters and assumptions underlying the data

b. The objective of the method used and limitations that may result in the information not fully reflecting the fair value of the assets and liabilities involved

The entity discloses additional information if the sensitivity analysis is unrepresentative of a risk inherent in a financial instrument. For example, this can occur if:

a. A financial instrument contains terms and conditions whose effects are not apparent from the sensitivity analysis. For example, options that remain out of (or in) the money for the chosen change in the risk variable.

b. Financial assets are illiquid. For example, if there is a low volume of transactions in similar assets and the entity finds it difficult to find a counterparty.

The entity discloses currency risk and other price risk.

**Currency risk**

Currency risk does not arise from financial instruments that are non-monetary items or from financial instruments denominated in the functional currency.

An entity discloses a sensitivity analysis for each currency to which it has significant exposure.

**Other price risk**

Other price risk arises on financial instruments because of changes in, for example, commodity prices or equity prices. To comply with IFRS 7.40, the entity might disclose the effect of a decrease in a specified stock market index, commodity price, or other risk variable. For example, if an entity gives residual value guarantees that are financial instruments, the entity discloses an increase or decrease in the value of the assets to which the guarantee applies.

Two examples of financial instruments that give rise to equity price risk are a holding of equities in another entity and an investment in a trust, which in turn, holds investments in equity instruments. The fair values of such financial instruments are affected by changes in the market price of the underlying equity instruments.

Under IFRS 7.40(a), an entity discloses the sensitivity of profit or loss separately from the sensitivity of equity. For example, the sensitivity from instruments classified as at fair value through profit or loss and impairments of available-for-sale financial assets are disclosed separately from the sensitivity of instruments classified as available-for-sale or investments in equity instruments whose changes in fair value are presented in other comprehensive income.

Financial instruments that the entity classifies as equity instruments are not remeasured. Neither profit or loss or equity will be affected by the equity price risk of those instruments. Accordingly, no sensitivity analysis is required.

**Other market risk disclosures**

If the sensitivity analyses in IFRS 7.40 and IFRS 7.41 above are unrepresentative of a risk inherent in a financial instrument (for example, because the exposure at the end of the reporting period does not reflect the exposure during the reporting period), does the entity disclose that fact and the reason it believes the sensitivity analyses are unrepresentative.
Puttable instruments and other similar instruments classified as equity

If the entity reclassifies:

- A puttable financial instrument classified as an equity instrument
  - Or
  - An instrument that imposes on the entity an obligation to deliver to another party a pro rata share of the net assets of the entity only on liquidation, and is classified as an equity instrument between financial liabilities and equity, does it disclose:
    - a. The amount reclassified into and out of each category (financial liabilities or equity)
    - b. The timing of the reclassification
    - c. The reason for the reclassification

For puttable financial instruments classified as equity instruments, does the entity disclose:

- a. Summary quantitative data about the amount classified as equity
- b. Its objectives, policies and processes for managing its obligation to repurchase or redeem the instruments if required to do so by the instrument holders, including any changes from the previous period
- c. The expected cash outflow on redemption or repurchase of that class of financial instruments
- d. Information about how the expected cash outflow on redemption or repurchase was determined

If the entity is a limited life entity, does it disclose the length of its life

Offsetting Financial Assets and Financial Liabilities

When an entity has the right to receive or pay a single net amount and intends to do so, it has, in effect, only a single financial asset or financial liability. In other circumstances, financial assets and financial liabilities are presented separately from each other consistently with their characteristics as resources or obligations of the entity.

The amendments to the IFRS 7 Disclosures-Offsetting Financial Assets and Financial Liabilities include the disclosures below and are applicable for annual periods beginning on or after 1 January 2013 and interim periods within those annual periods.

The disclosure requirements for offsetting financial assets and financial liabilities apply not only to all recognised financial instruments that are set off in accordance with IAS 32.42, but also to all recognised financial instruments that are subject to an enforceable master netting arrangement or similar agreement, irrespective of whether they are set off in accordance with IAS 32.42. Entities have to carefully analyse whether they have master netting arrangements or similar agreements in place. In particular, trade receivables and payables subject to some form of a netting arrangement (normally where an entity’s customer is also a supplier, and vice versa) could fall within the scope of these disclosure requirements.

These IFRS 7 amendments do not include any mention of early adoption permission. Nevertheless, IAS 32 Amendment, Offsetting Financial Assets and Financial Liabilities, although mandatory for annual periods beginning on or after 1 January 2014, permits its early application with the requirement of including the disclosures included in the amendments to IFRS 7.

If an entity adopts the amendments to the IFRS 7 Disclosures-Offsetting Financial Assets and Financial Liabilities, items 236 - 238 must be disclosed.

Does the entity disclose, in a tabular format (unless another format is more appropriate), separately for recognised financial assets and recognised financial liabilities that have been set-off in accordance with IAS 32.42 or that are subject to an enforceable master netting arrangement or similar agreement, the following quantitative information:

- a. The gross amounts of those recognised financial assets and recognised financial liabilities
- b. The amounts that are set off in accordance with the criteria in paragraph 42 of IAS 32 when determining the net amounts presented in the statement of financial position
- c. The net amounts presented in the statement of financial position
- d. The amounts subject to an enforceable master netting arrangement or similar agreement that are not otherwise included in b. above (for each instrument limited to the amount included in c. above), including:
  - Amounts related to recognised financial instruments that do not meet some or all of the offsetting criteria in paragraph 42 of IAS 32 and
  - Amounts related to financial collateral (including cash collateral)
- e. The net amount after deducting the amounts in (d) from the amounts in c. above

Does the entity disclose a description of the rights of set-off associated with the entity’s recognised financial assets and recognised financial liabilities subject to enforceable master netting arrangements and similar agreements that are disclosed in accordance with item 234(d). above, including the nature of those rights

Does the entity cross-reference the information of items 234. and 235. if it is disclosed in more than one note to the financial statements

Does the entity disclose the following for each cash-generating unit (group of units) for which the carrying amount of goodwill or intangible assets with indefinite useful lives allocated to that unit (group of units) is significant in comparison with the entity’s total carrying amount of goodwill or intangible assets with indefinite useful lives:

- The carrying amount of goodwill allocated to the unit (group of units) (Yes No N/A)
- The carrying amount of intangible assets with indefinite useful lives allocated to the unit (group of units) (Yes No N/A)
- The basis on which the unit’s (group of units’) recoverable amount has been determined (that is, value in use or fair value less costs of disposal) (Yes No N/A)
- If the unit’s (group of units’) recoverable amount is based on fair value less costs to sell, the basis used to determine fair value less costs to sell (such as whether fair value was determined by reference to an active market) (Yes No N/A)
- If recoverable amount is value in use, the discount rate(s) used in the current estimate and previous estimate of value in use (Yes No N/A)
- Does the entity disclose the following for the aggregate impairment losses and the aggregate reversals of impairment losses recognised for which no information is disclosed under IAS 36.130 above:
  - a. The main classes of assets affected by impairment losses and the main classes of assets affected by reversals of impairment losses (Yes No N/A)
  - b. The main events and circumstances that led to the recognition of these impairment losses and reversals of impairment losses (Yes No N/A)
  - c. The basis on which the unit’s (group of units’) recoverable amount has been determined (that is, value in use or fair value less costs of disposal) (Yes No N/A)
- If recoverable amount is based on value in use (that is, value in use or fair value less costs of disposal)
  - d. If the unit’s (group of units’) recoverable amount is significant in comparison with the entity’s total carrying amount of goodwill or intangible assets with indefinite useful lives:
    - a. The carrying amount of goodwill allocated to the unit (group of units) (Yes No N/A)
    - b. The carrying amount of intangible assets with indefinite useful lives allocated to the unit (group of units) (Yes No N/A)
  - e. If the unit’s (group of units’) recoverable amount is based on fair value less costs to sell, the basis used to determine fair value less costs to sell (such as whether fair value was determined by reference to an active market) (Yes No N/A)
    - f. If recoverable amount is fair value less costs to sell, the basis used to determine fair value less costs to sell (such as whether fair value was determined by reference to an active market) (Yes No N/A)
- The entity disclose the following information:
  - a. Description of each key assumption on which management has based its cash flow projections for the period covered by the most recent budgets/forecasts (Yes No N/A)
  - b. Description of management’s approach to determining the value(s) assigned to each key assumption, whether those value(s) reflect past experience or, if appropriate, are consistent with external sources of information, and, if not, how and why they differ from past experience or external sources of information (Yes No N/A)
  - c. The period over which management has projected cash flows based on financial budgets/forecasts approved by management and, if a period greater than five years is used for a cash-generating unit (group of units), an explanation of why that longer period is justified (Yes No N/A)
  - d. The growth rate used to extrapolate cash flow projections beyond the period covered by the most recent budgets/forecasts (Yes No N/A)
  - e. The justification for using any growth rate that exceeds the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market to which the unit (group of units) is dedicated (Yes No N/A)
  - f. The discount rate(s) applied to the cash flow projections (Yes No N/A)
  - g. If recoverable amount is value in use, the discount rate(s) used in the current estimate and previous estimate of value in use (Yes No N/A)
    - h. The amount by which the value assigned to the key assumption must change, after incorporating any consequential effects of that change on the other variables used to measure recoverable amount, in order for the unit’s (group of units’) recoverable amount to be equal to its carrying amount (Yes No N/A)
    - i. The amount by which the unit’s (group of units’) recoverable amount exceeds its carrying amount (Yes No N/A)
  - j. Each key assumption on which management based its determination of fair value less costs of disposal (Yes No N/A)
  - k. Management’s approach to determining the value(s) assigned to each key assumption, whether those value(s) reflect past experience or, if appropriate, are consistent with external sources of information, and, if not, how and why they differ from past experience or external sources of information (Yes No N/A)

New 258 IAS 36.134

If the entity has early adopted IFRS 13, instead of item 257, the entity must disclose the following, instead of item 257:

Does the entity disclose the following for each cash-generating unit (group of units) for which the carrying amount of goodwill or intangible assets with indefinite useful lives allocated to that unit (group of units) is significant in comparison with the entity’s total carrying amount of goodwill or intangible assets with indefinite useful lives?
### Disclosure made

<table>
<thead>
<tr>
<th>a. The carrying amount of goodwill allocated to the unit (group of units)</th>
</tr>
</thead>
<tbody>
<tr>
<td>b. The carrying amount of intangible assets with indefinite useful lives allocated to the unit (group of units)</td>
</tr>
<tr>
<td>c. The recoverable amount of the unit (or group of units) and the basis on which the unit's (group of units') recoverable amount has been determined (i.e., value in use or fair value less costs of disposal),</td>
</tr>
<tr>
<td>d. If the unit's (group of units') recoverable amount is based on value in use:</td>
</tr>
<tr>
<td>» Each key assumption on which management has based its cash flow projections for the period covered by the most recent budgets/forecasts</td>
</tr>
<tr>
<td>» Management's approach to determining the value(s) assigned to each key assumption, whether those value(s) reflect past experience or, if appropriate, are consistent with external sources of information, and, if not, how and why they differ from past experience or external sources of information</td>
</tr>
<tr>
<td>» The period over which management has projected cash flows based on financial budgets/forecasts approved by management and, if a period greater than five years is used for a cash-generating unit (group of units), an explanation of why that longer period is justified</td>
</tr>
<tr>
<td>» The growth rate used to extrapolate cash flow projections beyond the period covered by the most recent budgets/forecasts</td>
</tr>
<tr>
<td>» The justification for using any growth rate that exceeds the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market to which the unit (group of units) is dedicated</td>
</tr>
<tr>
<td>e. If the unit's (group of units') recoverable amount is based on fair value less costs of disposal, disclose the valuation technique(s) used to measure fair value less costs of disposal. If fair value less costs of disposal is not measured using a quoted price for an identical unit (group of units), an entity shall disclose the following information:</td>
</tr>
<tr>
<td>» Each key assumption on which management based its determination of fair value less costs of disposal</td>
</tr>
<tr>
<td>» Management's approach to determining the value(s) assigned to each key assumption, whether those value(s) reflect past experience or, if appropriate, are consistent with external sources of information, and, if not, how and why they differ from past experience or external sources of information</td>
</tr>
<tr>
<td>» The level of the fair value hierarchy (see IFRS 13) within which the fair value measurement is categorised in its entirety (without giving regard to the observability of 'costs of disposal')</td>
</tr>
<tr>
<td>» If there has been a change in valuation technique, the change and the reason(s) for making it</td>
</tr>
<tr>
<td>f. If a reasonably possible change in a key assumption on which management has based its determination of the unit's (group of units') recoverable amount would cause the unit's (group of units') carrying amount to exceed its recoverable amount:</td>
</tr>
<tr>
<td>» The amount by which the unit's (group of units') recoverable amount exceeds its carrying amount</td>
</tr>
<tr>
<td>» The value assigned to the key assumption</td>
</tr>
<tr>
<td>» The amount by which the value assigned to the key assumption must change, after incorporating any consequential effects of that change on the other variables used to measure recoverable amount, in order for the unit's (group of units') recoverable amount to be equal to its carrying amount</td>
</tr>
</tbody>

<td>If the recoverable amounts of any of those units (groups of units) are based on the same key assumption(s) and the aggregate carrying amount of goodwill or intangible assets with indefinite useful lives allocated to them is significant in comparison with the entity's total carrying amount of goodwill or intangible assets with indefinite useful lives, does the entity disclose:</td>
<td></td>
</tr>
</tbody>
</table>
Disclosure made  Yes  No  N/A
a. That fact
b. The aggregate carrying amount of goodwill allocated to those units (groups of units)
c. The aggregate carrying amount of intangible assets with indefinite useful lives allocated to those units (groups of units)
d. The key assumption(s)
e. Management’s approach to determining the value(s) assigned to the key assumption(s), whether those value(s) reflect past experience or, if appropriate, are consistent with external sources of information, and, if not, how and why they differ from past experience or external sources of information
f. If a reasonably possible change in the key assumption(s) would cause the aggregate of the units’ (groups of units’) carrying amounts to exceed the aggregate of their recoverable amounts:

- The amount by which the aggregate of the units’ (groups of units’) recoverable amounts exceeds the aggregate of their carrying amounts
- The value(s) assigned to the key assumption(s)
- The amount by which the value(s) assigned to the key assumption(s) must change, after incorporating any consequential effects of the change on the other variables used to measure recoverable amount, in order for the aggregate of the units’ (groups of units’) recoverable amounts to be equal to the aggregate of their carrying amounts

Income taxes

- IAS 12.78
  If the entity recognises exchange differences on deferred foreign tax liabilities or assets in the statement of comprehensive income, it may classify such differences as deferred tax expense (income), if that presentation is most useful to financial statement users.

- IAS 12.79
- IAS 12.80

Does the entity disclose:

a. The current tax expense (income)
b. Any adjustments recognised in the period for current tax of prior periods
c. The deferred tax expense (income) relating to the origination and reversal of temporary differences
d. The deferred tax expense (income) relating to changes in tax rates or the imposition of new taxes
e. The benefit arising from a previously unrecognised tax loss, tax credit or temporary difference of a prior period that is used to reduce current tax expense
f. The benefit from a previously unrecognised tax loss, tax credit or temporary difference of a prior period that is used to reduce deferred tax expense
g. Deferred tax expense arising from the write-down, or reversal of a previous write-down, of a deferred tax asset
h. The tax expense (income) relating to those changes in accounting policies and errors that are included in profit or loss in accordance with IAS 8 because they cannot be accounted for retrospectively

Does the entity separately disclose the following information:

a. The aggregate current and deferred tax relating to items recognised outside of profit or loss (i.e., directly in equity or for each item of other comprehensive income)
b. The relationship between tax expense (income) and accounting profit or loss in either or both of the following forms:

- A numerical reconciliation between tax expense (income) and the product of accounting profit multiplied by the applicable tax rate(s), disclosing also the basis on which the applicable tax rate(s) is (are) computed
  Or
- A numerical reconciliation between the average effective tax rate and the applicable tax rate, disclosing also the basis on which the applicable tax rate is computed
c. The changes in the applicable tax rate(s) compared to the previous accounting period
d. For deductible temporary differences, unused tax losses and unused tax credits for which no deferred tax asset is recognised in the statement of financial position:
  - The amount
  - Expiry date, if any
e. The aggregate amount of temporary differences associated with investments in subsidiaries, branches and associates and interests in joint ventures, for which deferred tax liabilities have not been recognised
f. For each type of temporary difference and for each type of unused tax losses and unused tax credits:

- The amount of the deferred tax assets and liabilities recognised in the statement of financial position for each period presented
- The amount of the deferred tax income or expense recognised in profit and loss if this is not apparent from the changes in the amounts recognised in the statement of financial position

g. For discontinued operations, the tax expense relating to:

- The gain or loss on discontinuance
- The profit or loss from the discontinuing operation for the period, together with the corresponding amounts for each prior period presented

h. The amount of income tax consequences of dividends to shareholders of the entity that were proposed or declared before the financial statements were authorised for issue, but are not recognised as a liability in the financial statements

264 IAS 12.81
IAS 12.67
IAS 12.68

Does the entity disclose:

a. If a business combination in which the entity is the acquirer causes a change in the amount recognised for its pre-acquisition deferred tax asset, the amount of that change
b. If the deferred tax benefits acquired in a business combination are not recognised at the acquisition date, but are recognised after the acquisition date, the event or change in circumstances that caused the deferred tax benefits to be recognised

If the entity recognises acquired deferred tax benefits in the measurement period based on new information about facts and circumstances that existed at the acquisition date, it recognises the adjustment as a reduction in goodwill related to that acquisition. If the carrying amount of goodwill is zero, it recognises all other acquired deferred tax benefits in profit or loss. All other acquired deferred tax benefits realised are recognised in profit or loss.

If a deferred tax asset arises on a business combination from the initial recognition of goodwill (if the carrying amount of the goodwill is less than the tax base), it is only recognised as part of the accounting for a business combination to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised.

265 IAS 12.87

Does the entity disclose the unrecognised deferred tax liabilities associated with investments in subsidiaries, branches and associates and interests in joint ventures, for which it has not recognised deferred tax liabilities, if this disclosure is practicable

266 IAS 12.82

If (1) the utilisation of the deferred tax asset is dependent on future taxable profits in excess of the profits arising from the reversal of existing taxable temporary differences, and (2) the entity has suffered a loss in either the current or preceding period in the tax jurisdiction to which the deferred tax asset relates, does the entity disclose the following:

a. The amount of a deferred tax asset
b. The nature of the evidence supporting its recognition

c. Do the parent’s separate financial statements, if any, disclose the potential income tax consequences that are not practicably determinable

In some jurisdictions, income taxes are payable at a higher or lower rate if part or all of the net profit or retained earnings is paid out as a dividend to shareholders of the entity. In some other jurisdictions, income taxes may be refundable or payable if part or all of the net profit or retained earnings is paid out as a dividend to shareholders of the entity. In these circumstances, does the entity disclose:

- The nature of the potential income tax consequences that would result from the payment of dividends to its shareholders, including the important features of the income tax systems and the facts that will affect the amount of the potential income tax consequences of dividends
- The amounts of the potential income tax consequences practicably determinable

267 IAS 12.82A
IAS 12.52A
IAS 12.87A

Whether there are any potential income tax consequences not practicably determinable.

268 IAS 12.87B

It may sometimes not be practicable to compute the total amount of the potential income tax consequences that would result from the payment of dividends to shareholders. However, in such circumstances, it may be possible to compute some portions of the total, for example:

a. If in a consolidated group, a parent and some of its subsidiaries (1) have paid income taxes at a higher rate on undistributed profits, and (2) are aware of the amount that would be refunded on the payment of future dividends to shareholders from consolidated retained earnings, does the entity disclose the refundable amount
b. If applicable, does the entity disclose that there are additional potential income tax consequences that are not practicably determinable
c. Do the parent’s separate financial statements, if any, disclose the potential income tax consequences relating to the parent’s retained earnings

d. For each type of temporary difference and for each type of unused tax losses and unused tax credits:

- The amount of the deferred tax assets and liabilities recognised in the statement of financial position for each period presented
- The amount of the deferred tax income or expense recognised in profit and loss if this is not apparent from the changes in the amounts recognised in the statement of financial position

e. For discontinued operations, the tax expense relating to:

- The gain or loss on discontinuance
- The profit or loss from the discontinuing operation for the period, together with the corresponding amounts for each prior period presented

f. The amount of income tax consequences of dividends to shareholders of the entity that were proposed or declared before the financial statements were authorised for issue, but are not recognised as a liability in the financial statements

269 IAS 12.88
IAS 37.86
IAS 12.88

Does the entity disclose any tax-related contingent liabilities and contingent assets in accordance with IAS 37

Contingent liabilities and contingent assets may arise, for example, from unresolved disputes with the taxation authorities.
### Intangible assets

Does the entity disclose the following for each class of intangible assets, distinguishing between internally generated intangible assets and other intangible assets:

a. Whether the useful lives are indefinite or finite and, if finite, the useful lives or the amortisation rates used

b. The amortisation methods used for intangible assets with finite useful lives

c. The gross carrying amount and the accumulated amortisation (aggregated with accumulated impairment losses):
   - At the beginning of the reporting period
   - At the end of the reporting period

d. The line item(s) of the statement of comprehensive income in which any amortisation of intangible assets is included

e. A reconciliation of the carrying amount at the beginning and end of the reporting period, showing:
   - Additions during the period, indicating separately those from internal development, those acquired separately, and those acquired through business combinations
   - Impairment losses recognised in profit or loss during the reporting period under IAS 36, if any
   - Net exchange differences arising on the translation of the financial statements into the presentation currency, and on the translation of a foreign operation into the presentation currency of the reporting entity
   - Other changes in the carrying amount during the reporting period

f. The fair value initially recognised for these assets

- The carrying amount
- Whether they are measured after recognition under the cost model or the revaluation model

- The existence and carrying amounts of intangible assets whose title is restricted and the carrying amounts of intangible assets pledged as security for liabilities

- The amount of contractual commitments for the acquisition of intangible assets

### Revalued intangible assets

If the entity accounts for intangible assets at revalued amounts, does the entity disclose:

a. By class of intangible assets:
   - The effective date of the revaluation
   - The carrying amount of revalued intangible assets

b. The amount of the revaluation surplus that relates to intangible assets at the beginning and end of the reporting period, indicating the changes during the reporting period and any restrictions on the distribution of the balance to shareholders

c. The method and significant assumptions applied in estimating the assets’ fair values

In case of early adoption of IFRS 13 this disclosure should be replaced by the disclosure requirements in IFRS 13, which are included in the ‘New pronouncements’ section in this checklist.
Research and development

Does the entity disclose the aggregate amount of research and development expenditure recognised as an expense during the reporting period

Yes  
No  
N/A

Other information

Does the entity disclose :

a. Any fully amortised intangible asset that is still in use

b. Significant intangible assets controlled by the entity but not recognised as assets because they do not meet the recognition criteria of IAS 38 or because they were acquired or generated before the version of IAS 38 issued in 1998 was effective

Interests in joint ventures

Disclosures in this section are related to joint ventures under IAS 31. If an entity has early adopted IFRS 11 and, consequently, IFRS 10, IFRS 12 and IAS 27 and IAS 28 modified in 2011, disclosure requirements are included in the 'New pronouncements' section in this checklist.

Investments in joint ventures that are held by venture capital organisations, mutual funds, unit trusts, and similar entities including investment-linked insurance funds that, upon initial recognition, are designated as at fair value through profit or loss or are classified as held for trading are not within the scope of IAS 31, but accounted for under IAS 39 or IFRS 9, as appropriate. However, the entity holding such investment discloses the information required by IAS 31.55 and IAS 31.56 below.

Does the entity classify its interests in jointly controlled entities as 'held for sale' and account for it in accordance with IFRS 5 if:

a. Its carrying amount will be recovered principally through a sale transaction rather than through continuing use

And

b. It is available for immediate sale in its present condition and its sale is 'highly probable'

Does the entity (venturer) disclose the aggregate amount of the following contingent liabilities, unless the probability of loss is remote, separately from the amount of other contingent liabilities:

a. Any contingent liabilities that the venturer has incurred in relation to its interests in joint ventures and its share in each of the contingent liabilities that have been incurred jointly with other venturers

b. Its share of the contingent liabilities of the joint ventures themselves for which it is contingently liable

c. Those contingent liabilities that arise because the venturer is contingently liable for the liabilities of the other venturers of a joint venture

Does the entity (venturer) disclose the aggregate amount of the following commitments for its interests in joint ventures separately from other commitments:

a. Any capital commitments of the venturer in relation to its interests in joint ventures and its share in the capital commitments that have been incurred jointly with other venturers

b. Its share of the capital commitments of the joint ventures themselves

Does the entity (venturer) disclose:

a. A listing of interests in significant joint ventures

b. The interests in significant joint ventures

c. The proportion of ownership interest held in jointly controlled entities

If the entity (venturer) recognises its interests in jointly controlled entities using the line-by-line reporting format for proportionate consolidation or the equity method, does it disclose the aggregate amounts related to its interests in joint ventures of each of:

a. Current assets

b. Long-term assets

c. Current liabilities

d. Long-term liabilities

e. Income

f. Expenses

Does the entity (venturer) disclose the method it uses to recognise its interests in jointly controlled entities

Inventories

Does the entity disclose:

a. The accounting policies for measuring inventories, including the cost formula used

b. The total carrying amount of inventories and the carrying amount in classifications appropriate to the entity
Common classifications of inventories are merchandise, production supplies, materials, work in progress and finished goods. A service provider may describe inventories as work in progress.

c. The carrying amount of inventories carried at fair value less costs to sell

d. The amount of inventories recognised as an expense during the period

e. The amount of any write-down of inventories recognised as an expense in the period

f. The amount of any reversal of any write-down that is recognised as a reduction in the amount of inventories recognised as expense in the period

g. The circumstances or events that led to the reversal of a write-down of inventories

h. The carrying amount of inventories pledged as security for liabilities

**Investment property**

The disclosures set out in this section apply in addition to those in IAS 17. Under IAS 17, an owner of an investment property provides lessor's disclosures about leases into which it has entered. Under IAS 17, an entity that holds an investment property under a finance or an operating lease provides lessee's disclosures for finance leases and lessor's disclosures for any operating leases into which it has entered.

**Fair value model and cost model**

Does the entity disclose:

a. Whether it applies the fair value model or the cost model

b. If it applies the fair value model, whether, and in what circumstances, property interests held under operating leases are classified and accounted for as investment property

c. If classification is difficult, the criteria the entity uses to distinguish investment property from owner-occupied property and from property held for sale in the ordinary course of business

d. The methods and significant assumptions applied in determining the fair value of investment property

In case of early adoption of IFRS 13 this disclosure should be replaced by the disclosure requirements in IFRS 13, which are included in the 'New pronouncements' section in this checklist

e. A statement of whether fair value is supported by market evidence or is more heavily based on other factors (which the entity discloses) because of the nature of the property and lack of comparable market data

f. The extent to which the fair value of investment property (as measured or disclosed in the financial statements) is based on a valuation by an independent valuer who holds a recognised and relevant professional qualification and who has recent experience in the location and category of the investment property being valued

g. If there is no valuation by an independent valuer as described in (f), that fact

h. The amounts included in the profit or loss for:

   ▶ Rental income from investment property

   ▶ Direct operating expenses (including repairs and maintenance) arising from investment property that generated rental income during the period

   ▶ Direct operating expenses (including repairs and maintenance) arising from investment property that do not generate rental income during the period

   ▶ The cumulative change in fair value recognised in profit or loss on a sale of investment property from a pool of assets in which the cost model is used into a pool in which the fair value model is used

   i. The existence and amounts of restrictions on the realisability of investment property or the remittance of income and proceeds of disposal

   j. The contractual obligations to purchase, construct or develop investment property or for repairs, maintenance or enhancements

**Fair value model**

If the entity applies the fair value model, does it also reconcile the carrying amount of investment property at the beginning and end of the reporting period showing the following:

a. Additions, disclosing separately those additions resulting from acquisitions and those resulting from subsequent expenditure recognised in the carrying amount of an asset

b. Additions resulting from acquisitions through business combinations

c. Assets classified as held for sale or included in a disposal group classified as held for sale in accordance with IFRS 5 and other disposals

d. Net gains or losses from fair value adjustments

e. The net exchange differences arising on the translation of the financial statements into a different presentation currency and on the translation of a foreign operation into the presentation currency of the reporting entity

f. Transfers to and from inventories and owner-occupied property

g. Other changes
| IAS 40.77 | If the entity adjusts a valuation obtained for an investment property significantly for the financial statements, does the entity reconcile between the valuation obtained and the adjusted valuation included in the financial statements, showing separately:  
|          | a. The aggregate amount of any unrecognised lease obligations that have been added back  
|          | b. Any other significant adjustments  
| Disclosure made | Yes | No | N/A  
| IAS 40.78 | In the exceptional cases in which the entity’s policy is to account for investment properties at fair value but because of the lack of a reliable fair value it measures investment property at cost less any accumulated depreciation and any accumulated impairment losses, does the entity disclose:  
|          | a. A reconciliation - relating to that investment property separately - of the carrying amount at the beginning and end of the period  
|          | b. A description of the investment property  
|          | c. An explanation of why fair value cannot be measured reliably  
|          | d. If possible, the range of estimates within which fair value is highly likely to lie  
|          | e. On disposal of investment property not carried at fair value:  
|          | ▶ The fact that the entity has disposed of investment property not carried at fair value  
|          | ▶ The carrying amount of that investment property at the time of sale  
|          | ▶ The amount of gain or loss recognised  
| Disclosure made | Yes | No | N/A  
| IAS 40.79 | If the entity applies the cost model, does it disclose:  
|          | a. The depreciation methods used  
|          | b. The useful lives or the depreciation rates used  
|          | c. The gross carrying amount and the accumulated depreciation (aggregated with accumulated impairment losses) at the beginning and end of the period  
|          | d. A reconciliation of the carrying amount of investment property at the beginning and end of the period, showing the following:  
|          | ▶ Additions, disclosing separately those additions resulting from acquisitions and those resulting from subsequent expenditure recognised as an asset  
|          | ▶ Additions resulting from acquisitions through business combinations  
|          | ▶ Depreciation  
|          | ▶ The amount of impairment losses recognised, and the amount of impairment losses reversed, during the period in accordance with IAS 36  
|          | ▶ The net exchange differences arising on the translation of the financial statements into a different presentation currency, and on translation of a foreign operation into the presentation currency of the reporting entity  
|          | ▶ Transfers to and from inventories and owner-occupied property  
|          | ▶ Other changes  
|          | e. The fair value of investment property  
| disclosure made | Yes | No | N/A  
| IAS 40.53 | f. In the exceptional cases in which the entity cannot measure the fair value of the investment property reliably, does the entity disclose:  
|          | ▶ A description of the investment property  
|          | ▶ An explanation of why fair value cannot be measured reliably  
|          | ▶ If possible, the range of estimates within which fair value is highly likely to lie  
| disclosure made | Yes | No | N/A  

**Cost model**

**IAS 40.83** IAS 8 applies to any change in accounting policies when the entity first applies IAS 40 and chooses to use the cost model. The effect of the change in accounting policies includes the reclassification of any amount held in revaluation surplus for investment property.
### Investments in associates

**IFRS 12.C2**

Disclosures in this section are related to associates under IAS 28. If an entity has early adopted IFRS 12 and, consequently, IFRS 10, IFRS 11 and IAS 27 and IAS 28 modified in 2011, disclosure requirements are included in the ‘New pronouncements’ section in this checklist, below. However, note that IFRS 12 can be early applied on a stand-alone basis without triggering the adoption of any other standard.

Investments held in associates that are held by (a) venture capital organisations; or (b) mutual funds, unit trusts and similar entities including investment-linked insurance funds are not within the scope of IAS 28, but rather are accounted for under IAS 39 or IFRS 9 (issued in 2009) or IFRS 9 (issued in 2010), as appropriate. However, the entity holding such investment must disclose the information required by IAS 28.37(f) below.

**IAS 28.1**

Investments held in associates that are held by (a) venture capital organisations; or (b) mutual funds, unit trusts and similar entities including investment-linked insurance funds are not within the scope of IAS 28, but rather are accounted for under IAS 39 or IFRS 9 (issued in 2009) or IFRS 9 (issued in 2010), as appropriate. However, the entity holding such investment must disclose the information required by IAS 28.37(f) below.

**IAS 28.14**

Does the entity classify the investment in associate as 'held for sale' and account for it in accordance with IFRS 5 if:

a. Its carrying amount will be recovered principally through a sale transaction rather than through continuing use

And

b. It is available for immediate sale in its present condition and its sale is 'highly probable'

**IAS 28.37**

Does the entity disclose the following:

a. The fair value of investments in associates for which there are published price quotations

b. Summarised financial information of associates, including the aggregated amounts of assets, liabilities, revenues and profit or loss

c. The reasons why the investor has significant influence if it holds directly, or indirectly through subsidiaries less than 20% of the voting or potential voting power of the investee

d. The reasons why the investor does not have significant influence if it holds directly, or indirectly through subsidiaries, 20% or more of the voting or potential voting power of the investee

e. The end of the reporting period of the financial statements of an associate, if such financial statements are used in applying the equity method and are as of a date or for a period that is different from that of the investor, and the reason for using a different reporting date or different period

f. The nature and extent of any significant restrictions (for example, items resulting from borrowing arrangements or regulatory requirements) on the ability of associates to transfer funds to the investor in the form of cash dividends, repayment of loans or advances

g. The unrecognised share of losses of an associate, both for the period and cumulatively, if an investor has discontinued recognition of its share of losses of an associate

h. The fact that an associate is not accounted for using the equity method in accordance with IAS 28.13

i. Summarised financial information of associates, either individually or in groups, which are not accounted for using the equity method, including the amounts of total assets, total liabilities, revenues and profit or loss

**IAS 28.38**

Are investments in associates accounted for using the equity method:

a. Classified as non-current assets

b. Disclosed as a separate item in the statement of financial position

c. Disclosed as a separate item in the statement of comprehensive income

**IAS 37.86**

Does the entity, in accordance with IAS 37, disclose:

a. Its share of the contingent liabilities of an associate incurred jointly with other investors

b. Those contingent liabilities that arise because the investor is severally liable for all or part of the liabilities of the associate

**IAS 28.1**

Investments in associates that are held by (a) venture capital organisations; or (b) mutual funds, unit trusts, and similar entities including investment-linked insurance funds that are accounted for in accordance with IAS 39, does the entity holding such investments disclose the information required by IAS 28.37(f) above.
Lease disclosures by lessees

Finance leases

The requirements on disclosure under the following IFRS also apply to assets acquired under finance leases:

a. IAS 16 - Property, Plant and Equipment
b. IAS 36 - Impairment of Assets
c. IAS 38 - Intangible Assets
d. IAS 40 - Investment Property
e. IAS 41 - Agriculture

Does the entity disclose the following information for finance leases (in which it is the lessee), in addition to meeting the requirements of IFRS 7:

- For each class of asset, the net carrying amount at the end of the reporting period: Yes ☑ No ☐ N/A ☐
- A reconciliation between total future minimum lease payments at the end of the reporting period and their present value: Yes ☑ No ☐ N/A ☐
- The future minimum lease payments at the end of the reporting period and their present value for each of the following periods:
  - Not later than one year: Yes ☑ No ☐ N/A ☐
  - Later than one year and not later than five years: Yes ☑ No ☐ N/A ☐
  - Later than five years: Yes ☑ No ☐ N/A ☐
- The contingent rents recognised as an expense in the period: Yes ☑ No ☐ N/A ☐
- The future minimum sublease payments expected to be received under non-cancellable subleases at the end of the reporting period: Yes ☑ No ☐ N/A ☐
- The lessee’s material leasing arrangements including, but not limited to, the following:
  - The basis on which contingent rent payable is determined: Yes ☑ No ☐ N/A ☐
  - The existence and terms of renewal or purchase options and escalation clauses: Yes ☑ No ☐ N/A ☐
  - Restrictions imposed by lease arrangements, such as those concerning dividends, additional debt and further leasing: Yes ☑ No ☐ N/A ☐

Operating leases

The presentation requirements under IAS 32 and disclosure requirements of IFRS 7 also apply to operating leases.

Does the entity disclose the following information for operating leases (in which it is the lessee):

- The future minimum lease payments under non-cancellable operating leases for each of the following periods:
  - Not later than one year: Yes ☑ No ☐ N/A ☐
  - Later than one year and not later than five years: Yes ☑ No ☐ N/A ☐
  - Later than five years: Yes ☑ No ☐ N/A ☐
- The future minimum sublease payments expected to be received under non-cancellable subleases at the end of the reporting period: Yes ☑ No ☐ N/A ☐
- The lease and sublease payments recognised as an expense in the period, with separate amounts for:
  - Minimum lease payments: Yes ☑ No ☐ N/A ☐
  - Contingent rents: Yes ☑ No ☐ N/A ☐
  - Sublease payments: Yes ☑ No ☐ N/A ☐
- The lessee’s material leasing arrangements including, but not limited to, the following:
  - The basis on which contingent rent payable is determined: Yes ☑ No ☐ N/A ☐
  - The existence and terms of renewal or purchase options and escalation clauses: Yes ☑ No ☐ N/A ☐
  - Restrictions imposed by lease arrangements, such as those concerning dividends, additional debt and further leasing: Yes ☑ No ☐ N/A ☐

Sale and leaseback transactions

Does the disclosure of material leasing arrangements include the unique or unusual provisions of the agreement or terms of the sale and leaseback transactions?

Disclosure requirements for lessors and lessors apply equally to sale and leaseback transactions. Sale and leaseback transactions may also trigger the separate disclosure criteria in IAS 1, which require that an entity does not offset income and expense, unless required or permitted by an IFRS, and that the entity disclose material items of income or expense.
### Evaluating the substance of transactions involving the legal form of a lease

If the entity has arrangements that are leases in form but not in substance, does the entity disclose, separately for each arrangement or each class of arrangements, the following information:

<table>
<thead>
<tr>
<th>a.</th>
<th>A description of the arrangement including:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>▶ The underlying asset and any restrictions on its use</td>
</tr>
<tr>
<td></td>
<td>▶ The life and other significant terms of the arrangement</td>
</tr>
<tr>
<td></td>
<td>▶ The transactions that are linked together, including any options</td>
</tr>
<tr>
<td>b.</td>
<td>The accounting treatment applied to any fee received</td>
</tr>
<tr>
<td>c.</td>
<td>The amount of fees recognised as income in the period</td>
</tr>
<tr>
<td>d.</td>
<td>The line item of the statement of comprehensive income in which the fee income is included</td>
</tr>
</tbody>
</table>

### Determining whether an arrangement contains a lease

Does the entity disclose its accounting policy for determining whether an arrangement contains a lease?

- [ ] Yes
- [ ] No
- [ ] N/A

IFRIC 4 provides guidance for determining whether an arrangement that does not take the legal form of a lease but conveys a right to use an asset is, or contains, a lease that is accounted for under IAS 17. Under IAS 17, the entity separates lease payments from other consideration required by the arrangement. In some cases, it is impracticable to separate the payments for the lease from payments for other elements in the arrangement reliably.

#### Non-current assets held for sale and discontinued operations

A `component` of an entity comprises operations and cash flows that can be clearly distinguished, operationally and for financial reporting, from the rest of the entity. In other words, a component of an entity was a cash-generating unit or a group of cash-generating units while being held for use.

A discontinued operation is a component of an entity that either has been disposed of, or is classified as held for sale

And

a. Represents a separate major line of business or geographical area of operations

b. Is part of a single coordinated plan to dispose of a separate major line of business or geographical area of operations

Or

c. Is a subsidiary acquired exclusively with a view to resale

If an entity commits to a sale plan involving a loss of control of a subsidiary and the subsidiary is a disposal group that meets the definition of discontinued operation under IFRS 5.32, it discloses items 301-303 for this subsidiary.

Does the entity present information that enables users of the financial statements to evaluate the financial effects of discontinued operations and disposals of non-current assets (or disposal groups) by disclosing:

<table>
<thead>
<tr>
<th>a.</th>
<th>A single amount in the statement of comprehensive income comprising the total of:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>▶ The post-tax profit or loss of discontinued operations</td>
</tr>
<tr>
<td></td>
<td>▶ The post-tax gain or loss recognised on the measurement to fair value less costs to sell or on the disposal of the assets or disposal group(s) constituting the discontinued operation</td>
</tr>
</tbody>
</table>

If the entity presents the items of profit or loss in a separate statement as described in IAS 1.10A, does it present a section identified as relating to discontinued operations in that statement?

<table>
<thead>
<tr>
<th>b.</th>
<th>An analysis of the single amount in (a) into the following:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>▶ The revenue, expenses and pre-tax profit or loss of discontinued operations</td>
</tr>
<tr>
<td></td>
<td>▶ The related income tax expense</td>
</tr>
<tr>
<td></td>
<td>▶ The gain or loss recognised on the measurement to fair value less costs to sell or on the disposal of the assets or disposal group(s) constituting the discontinued operation</td>
</tr>
</tbody>
</table>
Disclosure made

Yes  No  N/A

IFRS 5.33
The entity may present the analysis in (b) in the notes or in the statement of comprehensive income (or income statement). If it is presented in the statement of comprehensive income, it is presented in a section relating to discontinued operations, separately from continuing operations. The analysis is not required for disposal groups that are newly acquired subsidiaries that meet the criteria to be classified as held for sale on acquisition.

<table>
<thead>
<tr>
<th>Disclosure made</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes  No  N/A</td>
</tr>
</tbody>
</table>

IFRS 5.33
The analysis in (c) may be presented either in the notes or in the financial statements. These disclosures are not required for disposal groups that are newly acquired subsidiaries that meet the criteria to be classified as held for sale on acquisition (see IFRS 5.11).

<table>
<thead>
<tr>
<th>Disclosure made</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes  No  N/A</td>
</tr>
</tbody>
</table>

IFRS 5.34
Does the entity re-present the disclosures in IFRS 5.33 above for prior periods presented in the financial statements so that the disclosures relate to all operations that are discontinued by the end of the current reporting period?

<table>
<thead>
<tr>
<th>Disclosure made</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes  No  N/A</td>
</tr>
</tbody>
</table>

IFRS 5.35
Does the entity classify separately in discontinued operations and disclose the nature of amount of adjustments that are made in the current period to amounts previously presented in discontinued operations that are directly related to the disposal of a discontinued operation in a prior period?

<table>
<thead>
<tr>
<th>Disclosure made</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes  No  N/A</td>
</tr>
</tbody>
</table>

Examples of circumstances in which these adjustments may arise include:

a. The resolution of uncertainties that arise from the terms of the disposal transaction, such as the resolution of purchase price adjustments and indemnification issues with the purchaser

b. The resolution of uncertainties that arise from and are directly related to the operations of the component before its disposal, such as environmental and product warranty obligations retained by the seller

c. The settlement of employee benefit plan obligations, if the settlement is directly related to the disposal transaction

<table>
<thead>
<tr>
<th>Disclosure made</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes  No  N/A</td>
</tr>
</tbody>
</table>

IFRS 5.41
In the period in which a non-current asset (or disposal group) is either classified as held for sale or sold, does the entity disclose:

a. A description of the non-current asset (or disposal group)

b. The facts and circumstances of the sale, or leading to the expected manner and timing of that disposal

c. The gain or loss recognised in accordance with IFRS 5.20-22 and, if not separately presented in the statement of comprehensive income, the caption in the statement of comprehensive income that includes that gain or loss

d. The reportable segment in which the non-current asset (or disposal group) is presented under IFRS 8, if applicable

<table>
<thead>
<tr>
<th>Disclosure made</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes  No  N/A</td>
</tr>
</tbody>
</table>

IFRS 5.26
If the entity ceases to classify the asset (or disposal group) as held for sale, does the entity disclose the following information in the reporting period of the decision to change the plan to sell the non-current asset (or disposal group):

a. The facts and circumstances leading to the decision

b. The effect of the decision on the results of operations for the period and any prior periods presented

<table>
<thead>
<tr>
<th>Disclosure made</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes  No  N/A</td>
</tr>
</tbody>
</table>

Operating segments

Does the entity disclose the following for each period for which a statement of comprehensive income is presented, to enable users of its financial statements to evaluate the nature and financial effects of the business activities in which it engages and the economic environment in which it operates:

a. General information as described in IFRS 8.22 below

b. Information about reported segment profit or loss, including specified revenues and expenses included in reported segment profit or loss, segment assets, segment liabilities and the basis of measurement, as described in IFRS 8.23 - IFRS 8.27

c. Reconciliations of the totals of segment revenues, reported segment profit or loss, segment assets, segment liabilities and other material segment items to corresponding entity amounts as described in IFRS 8.28

<table>
<thead>
<tr>
<th>Disclosure made</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes  No  N/A</td>
</tr>
</tbody>
</table>

For each date that a statement of financial position is presented, does the entity reconcile the amounts in the statement of financial position to the amounts for reportable segments (information for prior periods is restated as described in IFRS 8.29 and IFRS 8.30)

<table>
<thead>
<tr>
<th>Disclosure made</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes  No  N/A</td>
</tr>
</tbody>
</table>
### 308  **IFRS 8.22**  
Does the entity disclose:

a. Factors used to identify the entity's reportable segments, including the basis of organisation (for example, whether management has chosen to organise the entity around differences in products and services, geographical areas, regulatory environments, or a combination of factors and whether operating segments have been aggregated)

b. Types of products and services from which each reportable segment derives its revenues

#### Information about profit or loss, assets and liabilities

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>309  <strong>IFRS 8.23</strong></th>
<th>Does the entity disclose a measure of profit or loss for each reportable segment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Disclosure made</td>
<td>Yes</td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>310  <strong>IFRS 8.23</strong></th>
<th>Does the entity disclose a measure of total assets and liabilities for each reportable segment if such amounts are regularly provided to the chief operating decision maker</th>
</tr>
</thead>
<tbody>
<tr>
<td>Disclosure made</td>
<td>Yes</td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

| 311  **IFRS 8.24**  | Does the entity disclose the following about each reportable segment if the specified amounts are included in the measure of segment assets reviewed by the chief operating decision maker or are otherwise regularly provided to the chief operating decision maker, even if not included in the measure of segment assets:
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Disclosure made</td>
<td>Yes</td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

#### Measurement

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>312  <strong>IFRS 8.25</strong></th>
<th>The entity includes adjustments and eliminations in preparing an entity's financial statements and allocations of revenues, expenses and gains or losses in determining reported segment profit or loss only if they are included in the measure of the segment's profit or loss that is used by the chief operating decision maker. Similarly, only those assets and liabilities that are included in the measures of the segment's assets and segment's liabilities that are used by the chief operating decision maker are reported for that segment. If amounts are allocated to reported segment profit or loss, assets or liabilities, those amounts are allocated on a reasonable basis.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Disclosure made</td>
<td>Yes</td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>313  <strong>IFRS 8.26</strong></th>
<th>If the chief operating decision maker uses only one measure of an operating segment's profit or loss, its assets or its liabilities, is the segment information reported on those measures.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Disclosure made</td>
<td>Yes</td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>314  <strong>IFRS 8.26</strong></th>
<th>If the chief operating decision maker uses more than one measure of an operating segment's profit or loss, its assets or its liabilities, the segment information reported shall be based on the measurement principles most consistent with those used in measuring the corresponding amounts in the entity's financial statements.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Disclosure made</td>
<td>Yes</td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

| 315  **IFRS 8.27**  | Does the entity explain the measurements of segment profit or loss, segment assets and segment liabilities for each reportable segment, by disclosing:
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Disclosure made</td>
<td>Yes</td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

#### Reconciliations

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

| 316  **IFRS 8.28**  | Does the entity reconcile:
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Disclosure made</td>
<td>Yes</td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

International GAAP® Disclosure Checklist
However, if the entity allocates to reportable segments items such as tax expense (tax income), the entity may reconcile the total of the segments’ measures of profit or loss to the entity’s profit or loss after those items

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td>c. Total reportable segments’ assets to the entity’s assets</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
<tr>
<td>d. Total reportable segments’ liabilities to the entity’s liabilities if segment liabilities are reported under IFRS 8.23 above</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
<tr>
<td>e. Total reportable segments’ amounts for every other material item of information disclosed to the corresponding amount for the entity</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
</tbody>
</table>

316  

Does the entity separately identify and disclose all material reconciling items

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
</tbody>
</table>

For example, the entity separately identifies and discloses the amount of each material adjustment needed to reconcile reportable segment profit or loss to the entity’s profit or loss arising from different accounting policies.

317  

Restatement of previously reported information

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
</tbody>
</table>

If the entity changed the structure of its internal organisation in a manner that causes the composition of its reportable segments to change, has the comparative information for earlier periods, including interim periods, been restated if it is available and the cost to develop it is not excessive?

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
</tbody>
</table>

The determination of whether the information is not available and the cost to develop it is excessive is made for each individual item of disclosure. Following a change in the composition of its reportable segments, the entity discloses whether it restated the corresponding items of segment information for earlier periods.

318  

If the entity changes the structure of its internal organisation in a manner that causes the composition of its reportable segments to change and does not restate segment information for prior periods, including interim periods, for the change, does the entity disclose, in the reporting period in which the change occurs, segment information for the current period on both the old basis and the new basis of segmentation, unless the necessary information is not available and the cost to develop it would be excessive?

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
</tbody>
</table>

Entity-wide disclosures

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
</tbody>
</table>

The entity-wide disclosures set out in IFRS 8.32 - IFRS 8.34 apply to all entities subject to IFRS 8, including those with a single reportable segment. The entity provides this information only to the extent that it is not already provided as part of the reportable operating segment information in items 306-319.

319  

Information about products and services

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
</tbody>
</table>

Information about geographical areas

<table>
<thead>

<td>☐</td>
</tr>
</tbody>
</table>
Property, plant and equipment

322 IAS 16.42
Does the entity disclose the effects of taxes on income, if any, resulting from the revaluation of property, plant and equipment in accordance with IAS 12.

323 IAS 16.73
For each class of property, plant and equipment, does the entity disclose:

a. The measurement bases used for determining the gross carrying amount
b. The depreciation methods used
c. The useful lives or the depreciation rates used
d. The gross carrying amount and the accumulated depreciation (aggregated with accumulated impairment losses) at the beginning and end of the period
e. A reconciliation of the carrying amount at the beginning and end of the period showing:
   ▶ Additions
   ▶ Assets classified as held for sale or included in a disposal group classified as ‘held for sale’ in accordance with IFRS 5 and other disposals
   ▶ Acquisitions through business combinations
   ▶ Increases or decreases during the reporting period resulting from revaluations
   ▶ Impairment losses recognised or reversed in other comprehensive income under IAS 36
   ▶ Impairment losses recognised in profit or loss during the period under IAS 36
   ▶ Impairment losses reversed in profit or loss during the period under IAS 36
   ▶ Depreciation (whether recognised in profit or loss or as a part of the cost of other assets)
   ▶ The net exchange differences arising on the translation of the financial statements from the functional currency into a different presentation currency, including the translation of a foreign operation into the presentation currency of the reporting entity
   ▶ Other changes

324 IAS 16.74
Does the entity disclose the following information:

a. The existence and amounts of restrictions on title, and property, plant and equipment pledged as security for liabilities
b. The amount of expenditures recognised in the carrying amount of an item of property, plant and equipment during its construction
c. The amount of contractual commitments for the acquisition of property, plant and equipment
d. If it is not disclosed separately in the statement of comprehensive income, the amount of compensation from third parties for items of property, plant and equipment that were impaired, lost or given up that is included in profit or loss

325 IAS 16.77
If items of property, plant and equipment are stated at revalued amounts under the revaluation model, does the entity disclose the following information:

a. The effective date of the revaluation
b. Whether an independent valuer was involved
c. The methods and significant assumptions applied in estimating the items’ fair values
d. The extent to which the items’ fair values were determined directly by reference to observable prices in an active market or recent market transactions on arm’s length terms or were estimated using other valuation techniques

e. For each revalued class of property, plant and equipment, the carrying amount that would have been recognised had the assets been carried under the cost model
f. The revaluation surplus, indicating the change for the period and any restrictions on the distribution of the balance to shareholders

326 IAS 16.79
Does the entity disclose:

a. The carrying amount of temporarily idle property, plant and equipment
b. The gross carrying amount of any fully depreciated property, plant and equipment that is still in use
c. The carrying amount of property, plant and equipment retired from active use and held for disposal

d. When the cost model is used, the fair value of property, plant and equipment, if this is materially different from the carrying amount

IAS 16.8 was amended in May 2012 in the Annual Improvements to IFRSs 2009-2011 Cycle. The amendment clarifies that spare parts and stand-by equipment that meet the definition of property, plant and equipment are treated accordingly and not as inventory. Entities must apply these amendments for annual periods beginning on or after 1 January 2013. Early application is permitted.

If an entity early adopts the amendments in the Annual Improvements to IFRSs 2009-2011 Cycle relating to the clarification of servicing equipment, does it disclose that fact?

Provisions, contingent liabilities and contingent assets

For each class of provision (comparative information is not required), does the entity disclose:

a. The carrying amount at the beginning and end of the reporting period

b. Additional provisions made in the reporting period, including increases to existing provisions

c. Amounts used (that is, incurred and charged against the provision) during the reporting period

d. Unused amounts reversed during the reporting period

e. The increase during the reporting period in the discounted amount arising from the passage of time and the effect of any change in the discount rate

For each class of provision, does the entity disclose:

a. The nature of the obligation and the expected timing of any resulting outflows of economic benefits

b. The uncertainties about the amount or timing of those outflows. If necessary to provide adequate information, the entity discloses the major assumptions concerning future events

c. The amount of any expected reimbursement, stating the amount of any asset that has been recognised for that expected reimbursement

Unless the possibility of any outflow in settlement is remote, does the entity disclose for each class of contingent liability at the end of the reporting period:

a. The nature of the contingent liability

b. An estimate of its financial effect, measured in accordance with the requirements for measuring provisions (under IAS 37.36-52)

c. The uncertainties relating to the amount or timing of any outflow

d. The possibility of any reimbursement

e. If the entity does not disclose any of the information in (a)-(d), the fact that it is not practicable to do so

If a provision and a contingent liability arise from the same set of circumstances, does the entity disclose items in IAS 37.84-86 above in a way that shows the link between the provision and the contingent liability?

If an inflow of economic benefits is probable, does the entity disclose:

a. The nature of the contingent assets at the end of the reporting period

b. An estimate of their financial effect, measured in accordance with the requirements for measuring provisions (under IAS 37.36-52)

c. If the entity does not disclose information in (a) and (b), the fact that it is not practicable to do so

In extremely rare cases, some or all of the disclosures regarding provisions, contingent liabilities or contingent assets can prejudice seriously the position of the entity in a dispute with other parties. In such cases, does the entity disclose:

a. The general nature of the dispute

b. The fact, and the reason why, the information is not disclosed

Rights to interests arising from decommissioning, restoration and environmental rehabilitation funds (IFRIC 5)

Does the entity disclose its accounting policy for decommission, restoration and environmental rehabilitation funds

IFRIC 5 applies to accounting in the financial statements of a contributor for interests arising from decommissioning funds that have both of the following features:

a. The assets are administered separately (either by being held in a separate legal entity or as segregated assets within another entity)

b. A contributor’s right to access the assets is restricted
Disclosure made

334 **IFRIC 5.11**
Does the entity (as a contributor) disclose the nature of its interest in a fund and any restrictions on access to the assets in the fund?

- Yes
- No
- N/A

335 **IFRIC 5.12**
If the entity (as a contributor) has an obligation to make potential contributions that it does not recognise as a liability, does the entity make the disclosures required by IAS 37.86 above?

- Yes
- No
- N/A

336 **IFRIC 5.9, IFRIC 5.13**
If an entity (as a contributor) accounts for its interest in the fund under IFRIC 5.9, does the entity make the disclosures required by IAS 37.85(c) above?

- Yes
- No
- N/A

### Liabilities arising from participating in a specific market-waste electrical and electronic equipment (IFRIC 6)

337 **IAS 1.117**
Does the entity disclose its accounting policy for liabilities arising from participating in specific market-waste electrical and electronic equipment?

- Yes
- No
- N/A

### Related parties

338 **IAS 24.12**
The disclosure requirements of IAS 24 for related party transactions and outstanding balances, including commitments, apply for consolidated and separate financial statements of a parent, venturer or investor presented under IAS 27 (or IFRS 10, if applied early). The standard also applies to individual financial statements.

An entity discloses related party transactions and outstanding balances with other entities in a group in the entity’s separate financial statements. Intra-group related party transactions and outstanding balances are eliminated in the preparation of consolidated financial statements of the group.

An entity may disclose items of a similar nature in aggregate except when separate disclosure is necessary for an understanding of the effects of related party transactions on the financial statements of the entity.

- Yes
- No
- N/A

339 **IAS 24.13**
Does the entity disclose relationships between parents and subsidiaries, irrespective of whether there are transactions between them?

- Yes
- No
- N/A

340 **IAS 24.17**
Does the entity disclose key management personnel compensation in total and for each of the following categories:

- a. Short-term employee benefits
- b. Post-employment benefits
- c. Other long-term benefits
- d. Termination benefits
- e. Share-based payments

- Yes
- No
- N/A

341 **IAS 24.18**
If there are related party transactions during the reporting period with related parties, does the entity disclose the following information:

- a. The nature of the related party relationship
- b. Information about the transactions and outstanding balances including commitments necessary for an understanding of the potential effect of the relationship on the financial statements, including the following disclosures:
  - The amount of the transactions
  - The amount of outstanding balances, including commitments
  - A. Their terms and conditions, including whether they are secured and the nature of the consideration to be provided in settlement
  - B. Details of any guarantees given or received
  - Provisions for doubtful debts related to the amount of outstanding balances
  - The expense recognised during the reporting period for bad or doubtful debts due from related parties

- Yes
- No
- N/A

342 **IAS 24.19**
Does the entity disclose the information required by IAS 24.18 above separately for each of the following categories:

- a. The parent
- b. Entities with joint control or significant influence over the entity
- c. Subsidiaries
- d. Associates
- e. Joint ventures in which the entity is a venturer

- Yes
- No
- N/A
f. Key management personnel of the entity or its parent

g. Other related parties

343 IAS 24.21 Does the entity disclose, for example, the following transactions if they are with a related party:

a. Purchases or sales of goods (finished or unfinished)

b. Purchases or sales of property and other assets

c. Rendering or receiving of services

d. Leases

e. Transfer of research and development

f. Transfer under licence agreements

g. Transfers under finance arrangements (including loans and equity contributions in cash or in kind)

h. Provision of guarantees or collateral

i. Commitments to do something if a particular event occurs or does not occur in the future, including executory contracts (recognised and unrecognised)

j. Settlement of liabilities on behalf of the entity or by the entity on behalf of that related party

344 IAS 24.23 If the entity discloses that related party transactions are on terms equivalent to arm's length transactions, are such terms substantiated?

345 IAS 24.26 Does the entity disclose the following about transactions and outstanding balances, including commitments:

a. The name of the government and the nature of its relationship with the reporting entity (i.e., control, joint control or significant influence)

b. The following information in sufficient detail to enable users of the entity's financial statements to understand the effect of related party transactions on its financial statements:

- The nature and amount of each individually significant transaction
- For other transactions, which are collectively, but not individually significant, a qualitative or quantitative indication of their extent

In using its judgement to determine the level of detail to be disclosed in accordance with the requirements in IAS 24.26(b) above, the reporting entity considers the closeness of the related party relationship and other factors relevant in establishing the level of significance of the transaction such as whether it is:

- Significant in terms of size
- Carried out on non-market terms
- Outside normal day-to-day business operations, such as the purchase and sale of businesses
- Disclosed to regulatory or supervisory authorities
- Reported to senior management
- Subject to shareholder approval

Revenue

346 IAS 18.35 Does the entity disclose:

a. The accounting policies for recognising revenue

b. The methods used to determine the stage of completion of transactions involving the rendering of services

c. The amount of each significant category of revenue recognised during the period including revenue arising from:

- The sale of goods
- The rendering of services
- Interest
- Royalties
- Dividends

d. The amount of revenue arising from exchanges of goods or services included in each significant category of revenue

347 IAS 18.36 Does the entity disclose any contingent liabilities and contingent assets that may arise from items such as warranty costs, claims, penalties or possible losses in accordance with IAS 37
**Service concession arrangements (IFRIC 12)**

The entity (as an Operator) may enter into an arrangement with another entity (the Grantor) to provide services that give the public access to major economic and social facilities. The entity considers all aspects of a service concession arrangement in determining the appropriate disclosures. If the entity is an Operator or a Provider, does the entity disclose the following for each service concession arrangement or each class of service concession arrangements:

a. A description of the arrangement
b. Significant terms of the arrangement that may affect the amount, timing and certainty of future cash flows such as the period of the concession, re-pricing dates and the basis upon which re-pricing or re-negotiation is determined
c. The nature and extent (for example, quantity, period, or amount) of the following:
   - Rights to use specified assets
   - Obligations to provide or rights to expect provision of services
   - Obligations to acquire or build items of property, plant and equipment
   - Obligations to deliver or rights to receive specified assets at the end of the concession period
   - Renewal and termination options
   - Other rights and obligations
d. Changes in the arrangement occurring during the reporting period
e. How the service arrangement is classified
f. The revenue and profits or losses recognised in the reporting period on exchanging construction services for a financial asset or an intangible asset

**Share-based payments**

Does the entity disclose its accounting policy for transactions in which some or all of the goods or services received as consideration for equity instruments of the entity cannot be specifically identified

Does the entity disclose information that enables users of the financial statements to understand the nature and extent of share-based payment arrangement in existence during the period by disclosing:

a. Each type of share-based payment arrangement including the general terms and conditions of each arrangement such as:
   - The vesting requirements
   - The maximum term of options granted
   - The method of settlement (for example, whether in cash or equity)

b. The number and weighted average exercise prices of share options for each of the following groups of options:
   - Outstanding at the beginning of the period
   - Granted during the period
   - Forfeited during the period
   - Exercised during the period
   - Expired during the period
   - Outstanding at the end of the period
   - Exercisable at the end of the period

c. For share options exercised during the reporting period, the weighted average share price, or if options were exercised on a regular basis throughout the reporting period, the entity may instead disclose the weighted average share price during the reporting period

d. For share options outstanding at the end of the reporting period, the entity discloses the following information in total and where the range of exercise prices is wide, the outstanding options is divided into ranges that are meaningful for assessing the number and timing of additional shares that may be issued and the cash that may be received upon exercise of those options:
   - The range of exercise prices
   - The weighted average remaining contractual life

An entity with substantially similar types of share-based payment arrangements may aggregate the information in IFRS 2.44 above, unless separate disclosure of each arrangement is necessary to enable users of the financial statements to understand the nature and extent of share-based payment arrangements that existed during the reporting period.

If the entity measured the fair value of goods or services received as consideration for equity instruments of the entity indirectly, by reference to the fair value of the equity instruments granted, does the entity disclose information that enables users of the financial statements to understand how the fair value of the equity instruments granted during the period was determined by disclosing at least the following items:
a. For share options granted during the period, the weighted average fair value of those options at the measurement date and information on how that fair value was measured, including:
   ▶ The option pricing model used
   ▶ The inputs to that model, including the weighted average share price, exercise price, expected volatility, option life, expected dividends, the risk free interest rate and any other inputs to the model, including the method used and assumptions made to incorporate the effects of expected early exercise
   ▶ How expected volatility was determined, including the extent to which expected volatility was based on historical volatility
   ▶ Whether and how any other features of the option grant were incorporated into the measurement of fair value, such as market condition

b. For other equity instruments granted during the period (that is, other than share options):
   ▶ The number of those equity instruments at the measurement date
   ▶ The weighted average fair value of those equity instruments at the measurement date
   ▶ Information on how the fair value was measured, including how the fair value was determined if it was not measured on the basis of an observable market price, whether and how expected dividends were incorporated and whether and how any other features of the equity instruments granted were incorporated

c. For share-based payment arrangements that were modified during the period:
   ▶ An explanation of those modifications
   ▶ The incremental fair value granted (as a result of those modifications)
   ▶ Information on how the incremental fair value granted was measured, consistently with the requirements set out in (a) and (b), if applicable

352 IFRS 2.46  IFRS 2.48
   If the entity measured directly the fair value of goods or services received during the period, does the entity disclose information that enables users of the financial statements to understand how the fair value of the goods and services received during the period was determined (for example, whether fair value was measured at a market price for those goods or services)

353 IFRS 2.49
   If the equity-settled share-based payment transactions involve parties other than employees, and the entity determines that it cannot estimate the fair value of the goods and services received reliably, does the entity disclose:
   a. That fact
   b. Why the entity rebutted the presumption

354 IFRS 2.50
   Does the entity disclose information that enables users of the financial statements to understand the effect of share-based payment transactions on the entity’s profit or loss for the period and on its financial position, by disclosing:
   a. The total expense recognised for the period (relating to share-based payment transactions in which the goods or services received do not qualify for recognition as assets and hence are recognised immediately as an expense), including separate disclosure of that portion of the total expense that arises from transactions accounted for as equity-settled share-based payment transactions
   b. For liabilities arising from share-based payment transactions:
      ▶ The total carrying amount at the end of the period
      ▶ The total intrinsic value at the end of the period of liabilities for which the counterparty’s right to cash or other assets had vested by the end of the period (for example, vested share appreciation rights)

355 IFRS 2.52
   Does the entity disclose additional information necessary to satisfy the principles in IFRS 2.44, IFRS 2.46, and IFRS 2.50, set forth in items 339-343.

Agriculture

356 IAS 41.40
   Does the entity disclose the aggregate gain or loss arising during the current period on initial recognition of biological assets and agricultural produce and from the change in fair value less costs to sell of biological assets

357 IAS 41.41
   Does the entity disclose a description of each group of biological assets, either in the form of a narrative or a quantified description

358 IAS 41.43
   Does the entity provide a quantified description of each group of biological assets, distinguishing between consumable and bearer biological assets or between mature and immature biological assets, and disclose the basis for making any such distinction
### Consumable biological assets

Consumable biological assets are those that are to be harvested as agricultural produce or sold as biological assets. Bearer biological assets are those other than consumable biological assets.

### Biological assets

Biological assets may be classified either as mature biological assets or immature biological assets. Mature biological assets are those that have attained harvestable specifications (for consumable biological assets) or are able to sustain regular harvests (for bearer biological assets).

If not disclosed elsewhere in information published with the financial statements, does the entity describe:

- The nature of its activities involving each group of biological assets
- Non-financial measures or estimates of the physical quantities of:
  - Each group of the entity’s biological assets at the end of the period
  - Output of agricultural produce during the period

If an entity early adopts IFRS 13, information required by IAS 41.47-48 (items 360-361 below) will be replaced by disclosures required by IFRS 13, which are included in the ‘New pronouncements’ section in this checklist.

### Do the entity disclose the methods and significant assumptions applied in determining the fair value of each group of agricultural produce at the point of harvest and each group of biological assets?

- The existence and carrying amounts of biological assets whose title is restricted
- The carrying amounts of biological assets pledged as security for liabilities
- The amount of commitments for the development or acquisition of biological assets
- The financial risk management strategies related to agricultural activity

Does the entity provide a reconciliation of changes in the carrying amount of biological assets between the beginning and the end of the current period that includes at least:

- The gain or loss arising from changes in fair value less costs to sell
- Increases due to purchases
- Decreases due to sales and biological assets classified as held for sale (or included in a disposal group that is classified as held for sale) in accordance with IFRS 5
- Decreases due to harvest
- Increases resulting from business combinations
- Net exchange differences arising on the translation of financial statements into a different presentation currency and on translation of a foreign entity into the presentation currency of the reporting entity
- Other changes

### Does the entity disclose material items of income or expense that result from climatic, disease, or other natural events and the nature of such item?

Examples of such an event include an outbreak of a virulent disease, a flood, a severe drought or frost, and a plague of insects.

### Does the entity disclose the following information for agricultural activity and government grants:

- The nature and extent of government grants recognised in the financial statements
- Any unfulfilled conditions and other contingencies attaching to government grants
- Significant decreases expected in the level of government grants

Does the entity disclose, by group or otherwise, the amount of change in fair value less costs to sell included in net profit or loss due to physical change and due to price change?

Biological transformation results in a number of types of physical change—growth, degeneration, production, and procreation, each of which is observable and measurable. Each of those physical changes has a direct relationship to future economic benefits. A change in fair value of a biological asset due to harvesting is also a physical change.

### Disclosure when fair value cannot be measured reliably

If the entity measures biological assets at their cost less any accumulated depreciation and any accumulated impairment losses at the end of the period (because fair value cannot be measured reliably), does the entity disclose the following information for such biological assets:

- A description of the biological assets
- An explanation of why fair value cannot be measured reliably
- The range of estimates within which fair value is highly likely to lie, if possible
- The depreciation method used
- The useful lives or the depreciation rates used
- The gross carrying amount and the accumulated depreciation (aggregated with accumulated impairment losses) at the beginning and end of the period
If the entity measures biological assets at their cost less any accumulated depreciation and any accumulated impairment losses during the current period, does the entity disclose:

- Any gain or loss recognised on disposal of such biological assets
- A reconciliation of changes in the carrying amount of such biological assets between the beginning and the end of the current period that includes at least (comparative information is not required):
  - Increases due to purchases
  - Decreases due to sales and biological assets classified as held for sale (or included in a disposal group that is classified as held for sale) in accordance with IFRS 5
  - Decreases due to harvest
  - Increases resulting from business combinations
  - Net exchange differences arising on the translation of financial statements into a different presentation currency, and on translation of a foreign entity into the presentation currency of the reporting entity
  - Impairment losses included in net profit or loss
  - Reversals of impairment losses included in net profit or loss
  - Depreciation included in net profit or loss
  - Other changes

If the fair value of biological assets previously measured at their cost less any accumulated depreciation and any accumulated impairment losses becomes reliably measurable during the current period, does the entity disclose:

- A description of the biological assets
- An explanation of why fair value has become reliably measurable
- The effect of the change

Does the entity disclose the following information related to agricultural activity covered by IAS 41:

- The nature and extent of government grants recognised in the financial statements
- Any unfulfilled conditions and other contingencies attaching to government grants
- Significant decreases expected in the level of government grants

### Construction contracts

Does the entity present the following amounts for construction contracts separately in the statement of financial position:

- The gross amount due from customers for contract work as an asset
- The gross amount due to customers for contract work as a liability

Does the entity disclose:

- The amount of contract revenue recognised as revenue in the period
- The methods used to determine the contract revenue recognised in the period
- The methods used to determine the stage of completion of contracts in progress

Does the entity disclose the following for contracts in progress at the end of the reporting period:

- The aggregate amount of costs incurred and recognised profits (less recognised losses) to date
- The amount of advances received
- The amount of retentions

Does the entity disclose any contingent assets and contingent liabilities in connection with construction contracts under items 327-332.

If the entity recognises revenue using the percentage of completion method for agreements that meet all the criteria in IAS 18.14 as construction progresses, does the entity disclose:

- How it determines which agreements meet all the criteria in IAS 18.14 continuously as construction progresses
- The amount of revenue arising from such agreements in the period
- The methods used to determine the stage of completion of agreements in progress

For the agreements described in IFRIC 15.20 above that are in progress at the end of the reporting period, does the entity disclose:

- The aggregate amount of costs incurred and recognised profits (less recognised losses) to date
- The amount of advances received
Extractive industries

Exploration and Evaluation expenditure

The objective of IFRS 6 Exploration for and Evaluation of Mineral Resources is to specify the financial reporting for the exploration for and evaluation of mineral resources. IFRS 6 contains the following definitions:

a. Exploration and evaluation assets – exploration and evaluation expenditures recognised as assets in accordance with the entity’s accounting policy.

b. Exploration and evaluation expenditures – expenditures incurred by an entity in connection with the exploration for and evaluation of mineral resources before the technical feasibility and commercial viability of extracting a mineral resource are demonstrable.

c. Exploration for and evaluation of mineral resources – the search for mineral resources, including minerals, oil, natural gas and similar non-regenerative resources after the entity has obtained legal rights to explore in a specific area, as well as the determination of the technical feasibility and commercial viability of extracting the mineral resource.

IFRS 6.15
Does the entity classify exploration and evaluation assets as tangible or intangible according to the nature of the assets acquired consistently

IFRS 6.17
Does the entity stop classifying exploration and evaluation assets as such when the technical feasibility and commercial viability of extracting a mineral resource are demonstrable

IFRS 6.18
IASC 36.126
Does the entity present and disclose any impairment loss relating to exploration and evaluation assets in accordance with IAS 36

IFRS 6.23
IASC 6.24
Does the entity disclose the following information that identifies and explains the amounts recognised in its financial statements arising from the exploration for and evaluation of mineral resources:

a. Its accounting policies for exploration and evaluation expenditures including the recognition of exploration and evaluation assets

b. The following amounts arising from the exploration for and evaluation of mineral resources:

- Assets
- Liabilities
- Income
- Expense
- Operating cash flows
- Investing cash flows

IFRS 6.25
Does the entity treat exploration and evaluation assets as a separate class of assets and make the disclosures required by either IAS 16 (see items 322-326) or IAS 38 (see items 270-274) consistent with how the assets are classified

Accounting for production phase stripping costs for a surface mine

In October 2011, IFRIC 20 Stripping Cost in the Production Phase of a Surface Mine was issued. This interpretation does not require any specific disclosures, but clarifies the accounting treatment for stripping costs incurred during the production phase of a surface mine (that is, after the development phase). It allows for the capitalisation of stripping costs under certain specific conditions. This interpretation is applicable for annual periods beginning on or after 1 January 2013.

If an entity applies IFRIC 20 for an earlier period, does the entity disclose that fact?

Insurance contracts

Does the insurer identify and explain the amounts in its financial statements arising from insurance contracts, by disclosing:

a. Its accounting policies for insurance contracts and related assets, liabilities, income and expense

b. The recognised assets, liabilities, income and expense (and, if it presents its statement using the direct method, cash flows) arising from insurance contracts

c. If the insurer is a cedant:

- Gains and losses recognised in profit or loss on buying reinsurance
- If the cedant defers and amortises gains and losses arising on buying reinsurance, the amortisation for the period and the amounts remaining unamortised at the beginning and end of the period

d. The process used to determine the assumptions that have the greatest effect on the measurement of the recognised amounts described in (b) and (c), including quantifying those assumptions, if practicable

e. The effect of changes in assumptions used to measure insurance assets and insurance liabilities, showing separately the effect of each change that has a material effect on the financial statements
f. Reconciliations of changes in insurance liabilities, reinsurance assets and, if any, related deferred acquisition costs

Discretionary participation features

383 IFRS 4.35

If the entity issues a financial instrument containing a discretionary participation feature, does it disclose the total interest expense recognised in profit or loss?

Disclosure made
Yes No N/A

The interest does not need to be calculated using the effective interest method.

Nature and extent of risk arising from insurance contracts

384 IFRS 4.38

Does the insurer enable users of its financial statements to evaluate the nature and extent of risks arising from insurance contracts by disclosing:

a. Its objectives, policies and processes for managing risks arising from insurance contracts and the methods used to manage those risks

b. Information about insurance risk (both before and after risk mitigation by reinsurance), including information about:
   - The sensitivity to insurance risk (see IFRS 4.39A below)
   - Concentrations of insurance risk, including how management determines concentrations and a description of the shared characteristic that identifies each concentration (for example, the type of insured event, geographical area, or currency)
   - Actual claims compared with previous estimates (i.e., claims development)

384 IFRS 4.39

The disclosure about claims development goes back to the period when the earliest material claim arose for which there is still uncertainty about the amount and timing of the claims payments, but need not go back more than 10 years. An insurer need not disclose this information for claims for which uncertainty about the amount and timing of claims payments is typically resolved within one year.

An insurer need not disclose the maturity analysis required by item 219. If it discloses the estimated timing of the net cash outflows resulting from recognised insurance liabilities instead. This may be an analysis of the amounts, by estimated timing, recognised in the statement of financial position.

If an insurer uses an alternative method to manage sensitivity to market conditions, such as an embedded value analysis, it may use that sensitivity analysis to meet the requirement in item 226(a). Such an insurer also provides the disclosures required by item 231.

c. Information about credit risk, liquidity risk, and market risk that items 221-232. would require if the insurance contracts were within the scope of IFRS 7

d. Information about exposures to market risk arising from embedded derivatives contained in a host insurance contract if the insurer is not required to, and does not, measure the embedded derivatives at fair value

385 IFRS 4.39A

To comply with the requirements to disclose information about the sensitivity to insurance risk (see item 381) does the entity disclose either:

a. Quantitative information about sensitivity, which comprises:
   - A sensitivity analysis that shows how profit or loss and equity would have been affected had changes in the relevant risk variable that were reasonably possible at the end of the reporting period occurred
   - The methods and assumptions used in preparing the sensitivity analysis
   - Any changes from the previous period in the methods and assumptions used

385 IFRS 4.39A

If an insurer uses an alternative method to manage sensitivity to market conditions, such as an embedded value analysis, it may meet this requirement by disclosing that alternative sensitivity analysis and the disclosures required by item 230.

b. Qualitative information about sensitivity, and information about those terms and conditions of insurance contracts that have a material effect on the amount, timing and uncertainty of the insurer’s future cash flows

Lease disclosures by lessees

Finance leases

386 IAS 17.47

The presentation requirements of IAS 32 and disclosure requirements of IFRS 7 also apply to finance leases.

386 IAS 17.36

Does the entity present assets held under a finance lease in the statement of financial position as a receivable at an amount equal to the net investment in the lease?

387 IAS 17.47

For finance leases, does the entity disclose:
a. A reconciliation between the gross investment in the lease at the end of the reporting period, and the present value of minimum lease payments receivable at the end of the reporting period

b. The gross investment in the lease and the present value of minimum lease payments receivable at the end of the reporting period, for each of the following periods:
   - Not later than one year
   - Later than one year and not later than five years
   - Later than five years

c. The unearned finance income

d. The unguaranteed residual values accruing to the benefit of the lessor

e. The accumulated allowance for uncollectible minimum lease payments receivable

f. The contingent rents recognised as income in the period

g. A general description of the lessor’s material leasing arrangements

---

388  IAS 17.48

Does the entity disclose the gross investment less unearned income in new business added during the period, after deducting the relevant amounts for cancelled leases

---

389  IAS 17.49

Does the entity present assets subject to operating leases in the statement of financial position according to the nature of the asset.

---

390  IAS 17.56

Does the entity disclose the following information for operating leases:
   a. The future minimum lease payments under non-cancellable operating leases in the aggregate and for each of the following periods:
      - Not later than one year
      - Later than one year and not later than five years
      - Later than five years
   b. Total contingent rents recognised as income in the period
   c. A general description of the lessor’s leasing arrangements

---

391  IAS 17.65

Does the disclosure of material leasing arrangements include the unique or unusual provisions of the agreement or terms of the sale and leaseback transactions

---

392  IAS 17.66

The disclosure requirements for lessees and lessors apply equally to sale and leaseback transactions. Sale and leaseback transactions may trigger the separate disclosure criteria in IAS 1, which requires that the entity does not offset income and expense, unless required or permitted by an IFRS, and that the entity disclose material items of income or expense.

---

393  IAS 1.117

Does the entity disclose its accounting policy for determining whether an arrangement contains a lease

---

International GAAP® Disclosure Checklist
IFRIC 4 provides guidance for determining whether an arrangement that does not take the legal form of a lease, but conveys a right to use an asset is, or contains, a lease that is accounted for in accordance with IAS 17. In applying IAS 17, the entity separates payments from other consideration required by the arrangement. In some cases, it will be impracticable to separate the payments for the lease from payments for other elements in the arrangement reliably.

Financial statements of retirement benefit plans

The disclosures in this section only apply to the financial statements of retirement benefit plans and reports containing such financial statements. The term 'report' refers to published information that may include the financial statements of the retirement benefit plan.

Defined contribution plans

Do the financial statements of the retirement benefit plan contain the following information:

a. A statement of net assets available for benefits disclosing:
   - Assets at the end of the period suitably classified
   - The basis of valuation of assets
   - Details of any single investment exceeding either 5% of the net assets available for benefits or 5% of any class or type of security
   - Details of any investment in the employer
   - Liabilities other than the actuarial present value of promised retirement benefits
b. A statement of changes in net assets available for benefits showing the following:
   - Employer contributions
   - Employee contributions
   - Investment income such as interest and dividends
   - Other income
   - Benefits paid or payable (analysed, for example, as retirement, death and disability benefits and lump sum payments)
   - Administrative expenses
   - Other expenses
   - Taxes on income
   - Profits and losses on disposal of investments and changes in value of investments
   - Transfers from and to other plans
c. The funding policy
d. A summary of significant accounting policies
e. The plan and the effect of any changes in the plan during the period

Does the entity disclose in the report of a retirement benefit plan either as part of the financial statements or in a separate report, a description of the plan, which may contain the following:

a. The names of the employers and the employee groups covered
b. The number of participants receiving benefits
c. The number of other participants
d. The type of plan – defined contribution
e. A note as to whether participants contribute to the plan
f. The retirement benefits promised to participants
g. Any plan termination terms
h. Changes in items (a)-(g) during the period covered by the report

If plan investments are held for which an estimate of fair value is not possible, does the entity disclose the reason it does not use fair value?

Do the financial statements of a defined contribution plan contain:

a. The significant activities for the period and the effect of any changes relating to the plan, and its membership and terms and conditions
b. Statements reporting on the transactions and investment performance for the period and the financial position of the plan at the end of the period
c. A summary of the investment policies
### Defined benefit plans

For defined benefit plans, information is presented in one of the following formats, which reflect different practices in the disclosure and presentation of actuarial information:

| a. | A statement is included in the financial statements of the plan that shows the net assets available for benefits, the actuarial present value of promised retirement benefits, and the resulting excess or deficit. The financial statements of the plan also contain statements of changes in net assets available for benefits and changes in the actuarial present value of promised retirement benefits. The financial statements of the plan may include a separate actuary's report supporting the actuarial present value of promised retirement benefits. |
| b. | Financial statements of the plan include a statement of net assets available for benefits and a statement of changes in net assets available for benefits. An entity discloses the actuarial present value of promised retirement benefits. The financial statements of the plan may include a report from an actuary supporting the actuarial present value of promised retirement benefits. |
| c. | Financial statements of the plan include a statement of net assets available for benefits and a statement of changes in net assets available for benefits with the actuarial present value of promised retirement benefits contained in a separate actuarial report. |

#### Disclosures Required

**Do the financial statements of the retirement benefit plan contain:**

<table>
<thead>
<tr>
<th>a.</th>
<th>A statement of net assets available for benefits disclosing:</th>
</tr>
</thead>
<tbody>
<tr>
<td>☑</td>
<td>The assets at the end of the period suitably classified</td>
</tr>
<tr>
<td>☑</td>
<td>The basis of valuation of assets</td>
</tr>
<tr>
<td>☑</td>

<td>The actuarial present value of promised retirement benefits (which may distinguish between vested benefits and non-vested benefits) based on the benefits promised under the terms of the plan, on service rendered to date, and which uses either current salary levels or projected salary levels</td>
</tr>
<tr>
<td>h.</td>
<td>A description of the plan and the effect of any changes in the plan during the period</td>
</tr>
</tbody>
</table>

**Does the entity disclose in the report of a retirement benefit plan either as part of the financial statements or in a separate report, a description of the plan, which may contain:**

| a. | The names of the employers and the employee groups covered |
| b. | The number of participants receiving benefits |
| c. | The number of other participants |
| d. | The type of plan – defined benefit |
| e. | Whether participants contribute to the plan |
| f. | The retirement benefits promised to participants |
| g. | Any plan termination terms |
| h. | Changes in items (a) – (g) during the period covered by the report |

**If an actuarial valuation is not prepared at the date of the financial statements of the plan, does the entity disclose the date of the valuation?**

**Does the entity disclose the effects of any change in actuarial assumptions that had a significant effect on the actuarial present value of promised retirement benefits?**
<table>

### Interim reporting

**IAS 34.1**  IAS 34 does not mandate whether, how frequently, or how soon after the end of an interim period, an entity publishes interim financial reports. However, IAS 34 applies if the entity publishes an interim financial report in accordance with IFRS.

**IAS 34.9**  If the entity publishes a complete set of financial statements in its interim financial report, the form and content of those statements conform to the requirements of IAS 1 for a complete set of financial statements.

**IAS 34.18**  Other IFRS specify required disclosures in financial statements. In that context, “financial statements” means complete sets of financial statements of the type normally included in an annual financial report and sometimes included in other reports. The disclosures required by those other IFRS are not required if the entity's interim financial report includes only condensed financial statements and selected explanatory notes rather than a complete set of financial statements.

Therefore, this section of the checklist contains only those interim disclosures that are specifically required by IFRS for condensed financial statements. Consistent with IAS 34.6, any disclosures that would duplicate the disclosure contained in the most recent annual financial statements, such as details of accounts that have not changed significantly in amount since the end of the most recently completed fiscal year, may be omitted. However, consistent with the principles of the Framework and IAS 34.16, disclosure must be provided for events subsequent to the end of the most recent annual reporting period that have a material effect on the interim financial statements. For example, disclosures must address significant changes in accounting policies and methods, estimates used in the preparation of financial statements, status of long-term contracts, capitalisation (including significant new borrowings or modification of existing financing arrangements) and the reporting entity resulting from business combinations or dispositions.

**IAS 34.19**  The entity does not describe an interim financial report as complying with IFRS unless it complies with all of the requirements of each IFRS.

**IAS 34.43**  IAS 34.43 and IAS 34.44 provide guidance for reporting a change in accounting policy in interim financial reports.

### Components of condensed interim financial statements

**407 IAS 34.19**  If the entity's interim financial report complies with IAS 34, does the entity disclose that fact | Yes | No | N/A |

**408 IAS 34.8**  Do the interim financial statements include at least the following components: |   |   |   |
<p>| a. A condensed statement of financial position | Yes | No | N/A |
| b. A condensed statement of comprehensive income as either: | Yes | No | N/A |
| ▶ A condensed single statement | Yes | No | N/A |</p>

d. Acquisitions and disposals of items of property, plant, and equipment
e. Commitments for the purchase of property, plant, and equipment
f. Litigation settlements
g. Corrections of prior period errors
h. Changes in the business or economic circumstances that affect the fair value of the entity's financial assets and financial liabilities, whether those assets or liabilities are recognised at fair value or amortised cost
i. Any loan default or breach of a loan agreement that has not been remedied on or before the end of the reporting period
j. Related party transactions
k. Transfers between levels of the fair value hierarchy used in measuring the fair value of financial instruments
l. Changes in the classification of financial assets as a result of a change in the purpose or use of those assets
m. Changes in contingent liabilities or contingent assets

Explanatory notes
Does the entity disclose the following information in the notes to its interim financial statements, if it is not disclosed elsewhere in the interim financial report (the information is normally reported on a financial year-to-date basis):

a. The same accounting policies and methods of computation as were followed in the most recent annual financial statements or, if those policies or methods have been changed, the nature and effect of the change
b. The seasonality or cyclicality of interim operations
c. The nature and amount of items affecting assets, liabilities, equity, net income, or cash flows that are unusual because of their nature, size, or incidence
d. The nature and amount of changes in estimates of amounts reported in prior interim periods of the current financial year, or changes in estimates of amounts reported in prior financial years
e. The issues, repurchases, and repayments of debt and equity securities
f. The dividends paid (aggregate or per share) separately for ordinary shares and other shares
g. The following segment information:
   - Revenues from external customers, if included in the measure of segment profit or loss reviewed by the chief operating decision maker or otherwise regularly provided to the chief operating decision maker
   - Intersegment revenues, if included in the measure of segment profit or loss reviewed by the chief operating decision maker or otherwise regularly provided to the chief operating decision maker
   - A measure of segment profit or loss.
   - Total assets for which there has been a material change from the amount disclosed in the last annual financial statements
   - A description of differences from the last annual financial statements in the basis of segmentation or in the basis of measurement of segment profit or loss
   - A reconciliation of the total of the reportable segments' measures of profit or loss to the entity's profit or loss before tax expense (tax income) and discontinued operations. However, if an entity allocates to reportable segments items such as tax expense (tax income), the entity may reconcile the total of the segments' measures of profit or loss to profit or loss after those items. Material reconciling items shall be separately identified and described in that reconciliation.
   - Events after the interim period that are not reflected in the financial statements for the interim period
   - The effect of changes in the composition of the entity during the interim period, including business combinations, obtaining or losing control of subsidiaries and long-term investments, restructurings, and discontinued operations. In the case of business combinations, the entity discloses the information required by IFRS 3 Business Combinations
### IAS 34.16A

IAS 34.16A was amended in May 2012 in the Annual Improvements to IFRSs 2009-2011 Cycle. The amendment stipulates that total assets and liabilities need to be disclosed only when the amounts are regularly provided to the chief operating decision maker and there has been a material change in the total amount disclosed in the entity’s previous annual financial statements for that reportable segment. Entities must apply these amendments for annual periods beginning on or after 1 January 2013. Earlier application is permitted.

**Disclosure made**

- Yes
- No
- N/A

### IAS 34.53

If an entity early adopts the amendments in the Annual Improvements to IFRSs 2009-2011 Cycle relating to the interim report disclosure of segment assets and liabilities, does it disclose that fact?

**Disclosure made**

- Yes
- No
- N/A

### New 416 IAS 34.16A(j)

If the entity has early adopted IFRS 13, does it disclose for financial instruments, the disclosures about fair value required by paragraphs 91-93(h), 94-96, 98 and 99 of IFRS 13 Fair Value Measurement (see the New Pronouncements section in this checklist) and paragraphs 25, 26 and 28-30 of IFRS 7 Financial Instruments: Disclosures

**Disclosure made**

- Yes
- No
- N/A

### Interim financial reporting and impairment (IFRIC 10)

**Disclosure made**

- Yes
- No
- N/A

### First-time adoption requirements

**Disclosure made**

- Yes
- No
- N/A

### IFRS 1.1G63

IFRS 1.1G63 provides an example of the level of detail required in the reconciliations from previous GAAP to IFRS.

**Disclosure made**

- Yes
- No
- N/A

### IFRS 1.32

If the entity presents an interim financial report for part of the period covered by its first IFRS financial statements, does the entity:

a. Reconcile:
   - Its equity under previous GAAP at the end of that comparable interim period to its equity under IFRS at that date
   - Its current total comprehensive income (or, if an entity did not report such a total, profit or loss) under previous GAAP for that comparable interim period to its total comprehensive income under IFRS for that period
   - Its year-to-date total comprehensive income (or, if an entity did not report such a total, profit or loss) under previous GAAP for that comparable interim period to its total comprehensive income under IFRS for that period

b. Disclose the following information or cross-reference to another published document that contains this information:
   - Reconciliations of its equity reported under previous GAAP to its equity under IFRS for:
     A. The date of transition to IFRS
     B. The end of the latest period presented in the entity’s most recent annual financial statements under previous GAAP
   - A reconciliation of the profit or loss reported under previous GAAP for the latest period in the entity’s most recent annual financial statements to its profit or loss under IFRS for the same period
   - If the entity presented a statement of cash flows under its previous GAAP, explanation of the material adjustments to the statement of cash flows
   - In the reconciliations of equity, any errors made under previous GAAP and any changes in accounting policies
   - In the reconciliation of profit or loss, any errors made under previous GAAP and any changes in accounting policies

**Disclosure made**

- Yes
- No
- N/A

### IFRS 1.33

If the entity does not, in its most recent annual financial statements under previous GAAP, disclose information material to an understanding of the current interim period, does it disclose in its interim financial report that information or include a cross-reference to another published document that includes it?

**Disclosure made**

- Yes
- No
- N/A

### New 420 IAS 8.30

Does the entity disclose items required by recent accounting pronouncements issued subsequent to the date of this checklist (see items 118-123 for changes in policy or standards issued but not yet effective)?

**Disclosure made**

- Yes
- No
- N/A

### Adoption of IFRS 9 Financial Instruments (issued in 2009), disclosures for financial instruments (IFRS 9 (2009), IAS 39 (financial liabilities) and IAS 32)

**Disclosure made**

- Yes
- No
- N/A

Items required by IFRS 9.8.1.1 and IFRS 9.8.2.3 below set out the disclosure requirements if an entity adopts IFRS 9 Financial Instruments (issued in 2009), i.e., for financial assets only. If an entity adopts IFRS 9 (issued in 2010), i.e., for financial assets and financial liabilities, refer to items 499-496.
New 421 IFRS 9.8.1.1

In December 2011, the Board issued an amendment to IFRS 9 (issued in 2009) modifying the implementation date from periods beginning on or after 1 January 2013 to periods beginning on or after 1 January 2015. If the entity adopts IFRS 9 (issued in 2009) for annual periods beginning before 1 January 2015, does the entity disclose that fact?

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

New 422 IFRS 9.8.2.3

In November 2009, the IASB issued IFRS 9 Financial Instruments. The transition requirements depend on the adoption date. Entities are required to apply IFRS 9 (issued in 2009) for reporting periods beginning on or after 1 January 2015 with early application permitted.

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

First-time application of IFRS 9 (issued in 2009)

If the entity adopts IFRS 9 (issued in 2009) for annual periods beginning before 1 January 2015, does the entity disclose this fact and the reasons for using that date of initial application?

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Designation of financial assets or financial liabilities

If the entity designates previously recognised financial assets as financial assets at fair value through profit or loss under IFRS 1.D19A, does the entity disclose for financial assets:

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. The fair value at the date of designation</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>b. Classification in the previous financial statements</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>c. Carrying amount in the previous financial statements</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

If the entity designates previously recognised financial liabilities as financial liabilities at fair value through profit or loss under IFRS 1.D19, does the entity disclose for financial liabilities:

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. The fair value at the date of designation</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>b. Classification in the previous financial statements</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>c. Carrying amount in the previous financial statements</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Exemption from the requirement to restate comparative information for IFRS 9 (issued in 2009)

If an entity chooses to present comparative information that does not comply with IFRS 9 (issued in 2009) and IFRS 7 in its first year of transition, does the entity disclose:

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. This fact</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>b. The basis used to prepare this information</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>c. The information required by IAS 8.28(a)-(e) and (f)(i) (see item 121(a)-121(f)) for any adjustment between the statement of financial position at the comparative period's reporting date and the statement of financial position at the start of the first IFRS reporting period</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>d. Additional information in accordance with IAS 1.17(c) when compliance with the specific requirements in IFRSs is insufficient to enable users to understand the impact of particular transactions, other events and conditions on the entity's financial position and financial performance</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Financial instruments

Items in this section set out the disclosure requirements for all financial instruments if the entity adopts IFRS 9 Financial Instruments (issued in 2009), i.e., for financial assets only. If the entity adopts IFRS 9 Financial Instruments (issued in 2010), i.e., for financial assets and financial liabilities, refer to items 500-570. If the entity does not adopt IFRS 9 Financial Instruments, but rather continues to apply IAS 39 Financial Instruments: Recognition and Measurement, refer to items 185-239.

If disclosures are required by class of financial instrument, does the entity:

a. Group financial instruments into classes that are appropriate to the nature of the information disclosed and that take into account the characteristics of those financial instruments
b. Provide sufficient information to permit reconciliation to the relevant items in the statement of financial position

IFRS 7.6 requires the entity to group financial instruments into classes that are appropriate to the nature of the information disclosed and that take into account the characteristics of those financial instruments. These classes are determined by the entity and as such, are distinct from the categories of financial instruments specified in IAS 39 or IFRS 9 (issued in 2009).

In determining classes of financial instruments, an entity, at minimum:

a. Distinguishes between instruments measured at amortised cost from those measured at fair value
b. Treats those financial instruments as a separate class or classes outside the scope of this IFRS

The entity decides how much detail it provides to satisfy the requirements, how much emphasis it places on different aspects of the requirements, and how it aggregates information to display the overall picture without combining information with different characteristics. It is necessary to balance between excessive detail and obscuring important information as a result of too much aggregation. For example, an entity must not obscure important information by including it among a large amount of insignificant detail. Similarly, an entity must not aggregate information so that it obscures important differences between individual transactions or associated risks.

IFRS 7.7 Does the entity disclose information that enables users of its financial statements to evaluate the significance of financial instruments to its financial position and performance

Does the entity disclose, either in the statement of financial position or in the notes, the carrying amounts of each of the following:

a. Financial assets measured at fair value through profit or loss, showing separately:
   ▶ Those designated as such upon initial recognition
   ▶ Those mandatorily measured at fair value
b. Financial liabilities at fair value through profit or loss, showing separately:
   ▶ Those designated as such upon initial recognition
   ▶ Those that meet the definition of held for trading in IAS 39
c. Financial assets measured at amortised cost
d. Financial liabilities measured at amortised cost
e. Financial assets measured at fair value through other comprehensive income

If the entity designated a financial asset (or group of financial assets) as measured at fair value that would otherwise be measured at amortised cost, does it disclose:

a. The maximum exposure to credit risk of the financial asset (or group of financial assets) at the end of the reporting period
b. The amount by which any related credit derivatives or similar instruments mitigate that maximum exposure to credit risk
c. The change, during the period and cumulatively, in the fair value of the financial asset (or group of financial assets) that is attributable to changes in the credit risk of the financial asset determined either:
   ▶ As the change in its fair value that is not attributable to changes in market conditions that give rise to market risk
   Or
   ▶ Using an alternative method that the entity believes more faithfully represents the change in its fair value that is attributable to changes in credit risk of the asset

Changes in market conditions that give rise to market risk include changes in an interest rate, commodity price, foreign exchange rate or index of prices or rates.

d. The change in the fair value of any related credit derivatives or similar instruments that occurred during the reporting period and cumulatively since the financial asset was designated

If the entity designated a financial liability as at fair value through profit or loss in accordance with IAS 39.9, does it disclose:
a. The change, during the period and cumulatively, in the fair value of the financial liability that is attributable to changes in the credit risk of that liability determined either:

**IFRS 7.84**
- As the change in its fair value that is not attributable to changes in market conditions that give rise to market risk
- Or
- Using an alternate method that the entity believes more faithfully represents the change in its fair value that is attributable to changes in the credit risk of the liability

**IFRS 7.10**
Changes in market conditions that give rise to market risk include changes in a benchmark interest rate, price of another entity’s financial instrument, commodity price, foreign exchange rate or an index of prices or rates. For contracts that include a unit-linking feature, changes in market conditions include changes in the performance of the related internal or external investment fund.

b. The difference between the financial liability’s carrying amount and the amount the entity would be contractually required to pay at maturity to the holder of the obligation

New 431  **IFRS 7.11**
Does the entity disclose:

a. The methods used to comply with the requirements in IFRS 7.9(c) and IFRS 7.10(a)

b. If the entity believes that the disclosure it has given to comply with the requirements in IFRS 7.9(c) and IFRS 7.10(a) does not faithfully represent the change in the fair value of the financial asset or financial liability attributable to changes in the credit risk:

- The reasons for reaching this conclusion
- The factors the entity believes are relevant

**Investments at fair value through other comprehensive income**

New 432  **IFRS 7.11A**
If an entity designated investments in equity instruments to be measured at fair value through other comprehensive income, does it disclose:

a. Which investments in equity instruments are designated to be measured at fair value through other comprehensive income

b. The reasons for using this presentation alternative

c. The fair value of each such investment at the end of the reporting period

d. Dividends recognised during the period, showing separately:

- Those related to investments derecognised during the reporting period
- Those related to investments held at the end of the reporting period

e. Any transfers of the cumulative gain or loss within equity during the reporting period and the reason for such transfers

New 433  **IFRS 7.11B**
If an entity derecognises investments in equity instruments measured at fair value through other comprehensive income during the reporting period, does it disclose:

a. The reasons for disposing of the investments

b. The fair value of the investments at the date of derecognition

c. The cumulative gain or loss on disposal

**Reclassification**

New 434  **IFRS 7.12B**
If the entity, in the current or in previous reporting periods, reclassified any financial assets in accordance with paragraph 4.9 of IFRS 9 (issued in 2009), does the entity disclose:

a. The date of reclassification

b. A detailed explanation of the change in business model and a qualitative description of its effect on the entity’s financial statements

c. The amount reclassified into and out of each category

d. For any financial assets reclassified so they are measured at fair value, any gain or loss arising from a difference between the previous carrying amount and its fair value at the reclassification date

New 435  **IFRS 7.12C**
For each reporting period following reclassification until derecognition for assets reclassified to be measured at amortised cost, does the entity disclose:

a. The effective interest rate determined on the date of reclassification

b. The interest income or expense recognised

New 436  **IFRS 7.12D**
If the entity reclassified financial assets so that they are measured at amortised cost since its last annual reporting date, does it disclose:

a. The fair value of the financial assets at the end of the reporting period

b. The fair value gain or loss that would have been recognised in profit or loss during the reporting period if the financial assets had not been reclassified
**Transfers of financial assets**

In the first year of application of IFRS 7 Disclosures – Transfers of Financial Assets, an entity need not provide comparative disclosures required by the amendments for any period presented that begins before 1 July 2011.

Although comparative disclosures are not required, IFRS 7 requires transfer of financial assets disclosures to be provided for all transferred financial assets that are not derecognised and for any continuing involvement in a transferred asset, existing at the reporting date, irrespective of when the related transfer transaction occurred.

*New 437 IFRS 7.42A*

Does the entity present the disclosures required in items 438-442 in a single note in its financial statements?

*New 438 IFRS 7.42B*

Does the entity disclose information that enables users of its financial statements:

a. To understand the relationship between transferred financial assets that are not derecognised in their entirety and the associated liabilities

b. To evaluate the nature of, and risks associated with, the entity’s continuing involvement in derecognised financial assets

The disclosures required in items 438-442 relating to transferred financial assets supplement the other disclosure requirements of IFRS 7. The entity provides these disclosures for all transferred financial assets that are not derecognised and for any continuing involvement in a transferred asset, existing at the reporting date, irrespective of when the related transfer transaction occurred.

For these disclosure requirements, an entity transfers all or part of a financial asset (the transferred financial asset), if it either:

a. Transfers the contractual rights to receive the cash flows of that financial asset

b. Retains the contractual rights to receive the cash flows of that financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients in an arrangement (commonly referred to as a ‘pass-through arrangement’)

The meaning of ‘transfer’ in IFRS 7 differs from that in IAS 39 (IFRS 9) with respect to ‘pass-through arrangements’. In particular, for pass-through arrangements to qualify as transfers under IAS 39 (IFRS 9), all three conditions in IAS 39.19 (IFRS 9.3.2.5) (commonly referred to as the ‘pass through conditions’) need to be met. In contrast, pass-through conditions need not be met for pass-through arrangements to be within the scope of IFRS 7. Accordingly, an arrangement whereby a reporting entity (including any consolidated special purpose entity) issues notes payable to investors that are contractually referenced to specified assets, and are non-recourse to the group, falls within the scope of these disclosure requirements, irrespective of whether such an arrangement meets all the IAS 39 (IFRS 9) ‘pass-through’ conditions.

**Transferred financial assets that are not derecognised in their entirety**

To meet the objectives in IFRS 7.42B(a) above, does the entity disclose for each class of transferred financial assets that are not derecognised in their entirety:

a. The nature of the transferred assets

b. The nature of the risks and rewards of ownership to which the entity remains exposed

c. A description of the nature of the relationship between the transferred assets and the associated liabilities, including any restrictions arising from the transfer on the entity’s use of the transferred assets

d. When the counterparty (counterparties) to the associated liabilities has (have) recourse only to the transferred assets, a schedule that sets out

   ▶ The fair value of the transferred assets
   ▶ The fair value of the associated liabilities
   ▶ The net position

e. When the entity continues to recognise all of the transferred assets, the carrying amounts of the transferred assets and the associated liabilities

f. When the entity continues to recognise the assets to the extent of its continuing involvement:

   ▶ The total carrying amount of the original assets before the transfer
   ▶ The carrying amount of the assets that the entity continues to recognise
   ▶ The carrying amount of the associated liabilities

**Transferred financial assets that are derecognised in their entirety**

To meet the objectives in IFRS 7.42B(b), when the entity derecognises financial assets, but has continuing involvement in them, does the entity disclose for each type of continuing involvement at the reporting date:

a. The carrying amount of the assets and liabilities that are recognised in the entity’s statement of financial position and represent the entity’s continuing involvement in the derecognised financial assets, and the line items in which those assets and liabilities are recognised

b. The fair value of the assets and liabilities that represent the entity’s continuing involvement in the derecognised financial assets
c. The amount that best represents the entity’s maximum exposure to loss from its continuing involvement in the derecognised financial assets, and how the maximum exposure to loss is determined

d. The undiscounted cash outflows that would or may be required to repurchase the derecognised financial assets or other amounts payable to the transferee for the transferred assets.

Examples of cash outflows to repurchase the derecognised financial assets include, the strike price in an option agreement or the repurchase price in a repurchase agreement. If the cash outflow is variable, then the amounts disclosed are based on the conditions that exist at each reporting date.

e. A maturity analysis of the undiscounted cash outflows that would or may be required to repurchase the derecognised financial assets or other amounts payable to the transferee in respect of the transferred assets, showing the remaining contractual maturities of the entity’s continuing involvement

The maturity analysis should distinguish cash flows that are required to be paid (e.g., forward contracts), cash flows that the entity may be required to pay (e.g., written put options) and cash flows that the entity might choose to pay (e.g., purchased call options).

An entity uses its judgement to determine an appropriate number of time bands in preparing the maturity analysis. If there is a range of possible maturities, the cash flows are included on the basis of the earliest date on which the entity can be required or is permitted to pay.

f. Qualitative information that explains and supports the quantitative disclosures in (a)–(e), that includes a description of:

- The derecognised financial assets and the nature and purpose of the continuing involvement retained after transferring those assets
- The risks to which an entity is exposed, including:
  - A. A description of how the entity manages the risk inherent in its continuing involvement in the derecognised financial assets
  - B. Whether the entity is required to bear losses before other parties, and the ranking and amounts of losses borne by parties whose interests rank lower than the entity’s interest in the asset (i.e., its continuing involvement in the asset)
  - C. A description of any triggers associated with obligations to provide financial support or to repurchase a transferred financial asset

An entity may aggregate the information required by IFRS 7.42E above for a particular asset if the entity has more than one type of continuing involvement in that derecognised financial asset, and report it under one type of continuing involvement.

Does the entity disclose, for each reporting period for which a statement of comprehensive income is presented, for each type of continuing involvement:

a. The gain or loss recognised at the date of transfer of the assets, including:

- Whether that gain or loss on derecognition arose because the fair values of the components of the previously recognised asset (i.e., the interest in the asset derecognised and the interest retained by the entity) were different from the fair value of the previously recognised asset as a whole
- If that gain or loss on derecognition arose because the fair values of the components of the previously recognised asset were different from the fair value of the previously recognised asset as a whole, whether the fair value measurements included significant inputs that were not based on observable market data

b. Income and expenses recognised, both in the reporting period and cumulatively, from the entity’s continuing involvement (for example, fair value changes in derivative instruments)

c. If the total amount of proceeds from transfer activity (that qualifies for derecognition) in a reporting period is not evenly distributed throughout the reporting period (for example, if a substantial proportion of the total amount of transfer activity takes place in the closing days of a reporting period):

- When the greatest transfer activity took place within that reporting period (for example, the last five days before the end of the reporting period)
- The amount recognised (for example, related gains or losses) from transfer activity in that part of the reporting period
- The total amount of proceeds from transfer activity in that part of the reporting period

Supplementary information

Does the entity disclose any additional information that it considers necessary to meet the disclosure objectives in IFRS 7.42B above.
For the disclosure requirements in items 440-442 an entity has continuing involvement in a transferred financial asset if, as part of the transfer, the entity retains any of the contractual rights or obligations inherent in the transferred financial asset or obtains any new contractual rights or obligations relating to the transferred financial asset. Continuing involvement in a transferred financial asset may result from contractual provisions in the transfer agreement or in a separate agreement with the transferee or a third party entered into in connection with the transfer. However, the following do not constitute continuing involvement:

a. Normal representations and warranties relating to fraudulent transfer and concepts of reasonableness, good faith and fair dealings that could invalidate a transfer as a result of legal action

b. Forward, option and other contracts to reacquire the transferred financial asset for which the contract price (or exercise price) is the fair value of the transferred financial asset

c. An arrangement whereby an entity retains the contractual rights to receive the cash flows of a financial asset, but assumes a contractual obligation to pay the cash flows to one or more entities and the conditions in IFRS 9.3.2.5(a)–(c) are met

Items 439-441 require qualitative and quantitative disclosures for each type of continuing involvement in derecognised financial assets. An entity aggregates its continuing involvement into types that are representative of the entity’s exposure to risks. For example, by type of financial instrument (e.g., guarantees or call options) or by type of transfer (e.g., factoring of receivables, securitisations and secured lending).

Collateral

Does the entity disclose:

- The carrying amount of financial assets pledged as collateral for liabilities or contingent liabilities, including amounts reclassified in accordance with IAS 39.37
- The terms and conditions relating to the pledge

If a transferor provides non-cash collateral (such as debt or equity instruments) to the transferee, the accounting for the collateral by the transferor and the transferee depends on whether the transferee has the right to sell or repledge the collateral and on whether the transferor has defaulted. If the transferee has the right by contract or custom to sell or repledge the collateral, then the transferor reclassifies that asset in its statement of financial position (for example, as a loaned asset, pledged equity instruments or repurchase receivable) separately from other assets.

Some transactions involving the provision of non-cash financial collateral may be considered transfers that fall within the scope of IFRS 7.42D (e.g., non cash collateral transferred in a repo). This would normally be the case when (a) the transferee’s rights to control the asset are not conditional on the transferor’s default. This is often evidenced by the transfer of legal ownership and/or the transferee’s ability to re-sell or re-pledge the financial asset; or (b) when the arrangement is considered a ‘pass-through’ arrangement (see item 439 above).

Collateral pledged or received subject to a netting arrangement would also fall within the scope of the offsetting disclosures irrespective of whether or not the collateral met the offsetting criteria (see items 484-486 below).

If the entity holds collateral (of financial or non-financial assets) and may sell or repledge the collateral in the absence of default by the owner of the collateral, does the entity disclose:

- The fair value of the collateral held
- The fair value of any such collateral sold or repledged, and whether the entity has an obligation to return it
- The terms and conditions associated with its use of this collateral

Allowance account for credit losses

If financial assets are impaired by credit losses and the entity records the impairment in a separate account (for example, an allowance account or similar account used to record a collective impairment of assets) rather than directly reducing the carrying amount of the asset, does the entity reconcile changes in that account during the period for each class of financial assets

Compound financial instruments with multiple embedded derivatives

If the entity issued an instrument that contains both a liability and an equity component and the instrument has multiple embedded derivatives whose values are interdependent (such as a callable convertible debt instrument), does the entity disclose the existence of those features

Defaults and breaches

For loans payable recognised at the end of the reporting period, does the entity disclose:

- Details of any defaults during the period of principal, interest, sinking fund, or redemption terms of those loans payable
b. The carrying amount of the loans payable in default at the end of the reporting period

c. Whether the default was remedied, or the terms of the loans payable were renegotiated, before the financial statements were authorised for issue

If, during the reporting period, there are breaches of loan agreement terms other than those described in IFRS 7.18 above, does the entity disclose the same information as required by IFRS 7.18 if those breaches permit the lender to demand accelerated repayment (unless the breaches were remedied, or the terms of the loan were renegotiated, on or before the end of the reporting period)

**Statement of comprehensive income and equity**

**Items of income, expense, gains and losses**

Does the entity disclose the following items of income, expense, gains or losses, either in the statement of comprehensive income or in the notes:

a. Net gains or net losses on:
   - Financial assets measured at fair value through profit or loss, showing separately:
     a. Those financial assets designated as such upon initial recognition
     b. Those that are mandatorily measured at fair value in accordance with IFRS 9 (issued in 2009)
   - Financial liabilities at fair value through profit or loss, showing separately:
     a. Those financial liabilities designated as such upon initial recognition
     b. Those that meet the definition of held for trading in IAS 39
   - Financial assets measured at amortised cost
   - Financial liabilities measured at amortised cost
   - Financial assets measured at fair value through other comprehensive income

Does the entity disclose either in the statement of comprehensive income or in the notes (calculated using the effective interest method) for financial assets that are measured at amortised cost or financial liabilities not at fair value through profit or loss:

a. Total interest income
b. Total interest expense

The entity discloses the total interest expense recognised in profit or loss, but does not need to calculate such interest expense using the effective interest method as required under IFRS 7.20(b) for financial instruments that contain a discretionary participation feature.

Does the entity disclose either in the statement of comprehensive income or in the notes, the fee income and expense (other than amounts included in determining the effective interest rate) arising from:

a. Financial assets measured at amortised cost or financial liabilities that are not at fair value through profit or loss
b. Trust and other fiduciary activities that result in the holding or investing of assets on behalf of individuals, trusts, retirement benefit plans and other institutions

Does the entity disclose either in the statement of comprehensive income or in the notes, the interest income on impaired financial assets accrued in accordance with IAS 39.A93

If the entity derecognised a financial asset measured at amortised cost, does the entity disclose:

a. An analysis of the gain or loss recognised in the statement of comprehensive income arising from the derecognition of those financial assets, showing separately gains and losses arising from derecognition
b. The reasons for derecognising those financial assets

**Other disclosures**

**Accounting policies**

Does the entity disclose, in the summary of significant accounting policies, the measurement basis (or bases) used in preparing the financial statements and the other accounting policies that are relevant to an understanding of the financial statements in relation to financial instruments

Does the entity disclose, for financial liabilities designated as at fair value through profit or loss:

a. The nature of the financial liabilities the entity has designated as at fair value through profit or loss
b. The criteria for so designating such financial liabilities on initial recognition
c. How the entity satisfied the conditions in IAS 39.9, IAS 39.11A or IAS 39.12 for such designation:

Disclosure made  | Yes | No | N/A
---|---|---|---
If an Entity adopts IFRS 13, items 461-463 are not applicable and the requirements of items set out in ‘Adoption of IFRS 13 Fair Value Measurement’ section should be applied

**New 464**

**FRS 7.27**

For each class of financial instrument, does the entity disclose:

a. The methods used in determining fair value
b. If a valuation technique is used to determine fair value, the assumptions applied in determining fair values of each class of financial assets or financial liabilities

For example, the entity discloses the assumptions for prepayment rates, rates of estimated credit losses, interest rates and discount rates.

c. Any change in the valuation technique
d. The reasons for that change

**New 465**

**IFRS 1.3**

First-time adopters are exempt from disclosing comparative information in IFRS 7.27 A-B below

For the disclosures required by IFRS 7.27B below, does the entity classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in the measurements, according to the following levels:

a. Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1)

b. Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2)

c. Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3)

**New 466**

**IFRS 7.27A**

The entity determines the level in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement in its entirety. The entity assesses the significance of an input against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

**New 467**

**IFRS 7.27B**

For fair value measurements recognised in the statement of financial position, does the entity disclose for each class of financial instruments in a tabular format unless another format is more appropriate:

a. The level in the fair value hierarchy into which the fair value measurements are categorised in their entirety, segregating fair value measurements based on the levels defined in IFRS 7.27A above

b. Any significant transfers between (into and out of) Level 1 and Level 2 of the fair value hierarchy and the reasons for those transfers, presented separately

c. For fair value measurements in Level 3 of the fair value hierarchy, a reconciliation from the beginning balances to the ending balances, disclosing separately changes during the reporting period attributable to the following:
   - Total gains or losses for the reporting period recognised in profit or loss, and a description of where they are presented in the statement of comprehensive income or the separate income statement (if presented)
   - Total gains or losses recognised in other comprehensive income
   - Purchases, sales, issues and settlements (separately for each type of movement)
   - Transfers into or out of Level 3 (for example, transfers attributable to changes in observable market data) and the reasons for those transfers, presented separately

d. The amount of total gains or losses for the reporting period in (c) included in profit or loss that are attributable to gains or losses relating to those assets and liabilities held at the end of the reporting period and a description of where those gains or losses are presented in the statement of comprehensive income or the separate income statement (if presented)

e. For fair value measurements in Level 3, if changing one or more of the inputs to reasonably possible alternative assumptions changes fair value significantly, disclose:
   - That fact
   - The effect of those changes
   - How the effect of a change to a reasonably possible alternative assumption was calculated

**New 468**

**IFRS 7.27B(e)**

Significance is judged with respect to profit or loss, and total assets or total liabilities.

If there is a difference between the fair value (transaction price) at initial recognition and the amount that is determined at that date using a valuation technique, does the entity disclose, by class of financial instrument:

a. Its accounting policy for recognising that difference in profit or loss for changes in factors (including time) that market participants would consider in setting a price
An entity subsequently measures a financial asset or financial liability and recognises gains and losses consistently with the requirements of IAS 39 or IFRS 9 (issued in 2009), as appropriate. The application of IAS 39.AG76 may result in no gain or loss being recognised on the initial recognition of a financial asset or financial liability. In such a case, IAS 39 requires that a gain or loss is recognised after initial recognition only to the extent that it arises from a change in a factor (including time) that market participants would consider in setting a price.

b. The aggregate difference yet to be recognised in profit or loss at the beginning and end of the reporting period and reconciliation of changes in the balance of this difference

In the cases described in IFRS 7.29(b) and (c), does the entity disclose information to help users of the financial statements make their own judgements about the extent of possible differences between the carrying amount of those contracts and their fair value, including:

a. The fact that the entity does not disclose fair value information for these instruments because their fair value cannot be measured reliably

b. A description of the financial instruments, their carrying amount and an explanation of why fair value cannot be measured reliably

c. Information about the market for the instruments

d. Information about whether and how the entity intends to dispose of the financial instruments

e. If financial instruments whose fair value previously could not be reliably measured are derecognised:
   ▶ That fact
   ▶ Their carrying amount at the time of derecognition
   ▶ The amount of gain or loss recognised

### Nature and extent of risk arising from financial instruments

The disclosures required by items 469-487 focus on the risks that arise from financial instruments and how they have been managed. These risks typically include, but are not limited to, credit risk, liquidity risk and market risk. The disclosures are either given in the financial statements or incorporated by cross-reference from the financial statements to some other statement, such as a management commentary or risk report, that is available to users of the financial statements on the same terms as the financial statements and at the same time. Without the information incorporated by cross-reference, the financial statements are incomplete.

Does the entity disclose information that enables users of its financial statements to evaluate the nature and extent of risks arising from financial instruments to which the entity is exposed at the end of the reporting period

Qualitative disclosures in combination with quantitative disclosures enable users to gain an understanding of the nature and extent of risks arising from financial instruments and evaluate the entity’s exposure to risk.

#### Qualitative disclosures

For each type of risk arising from financial instruments, does the entity disclose:

a. The exposures to risk and how they arise

b. Its objectives, policies and processes for managing the risk and the methods used to measure the risk

c. Any changes in (a) or (b) from the previous period

#### Quantitative disclosures

For each type of risk arising from financial instruments, does the entity disclose:

a. Summary quantitative data about its exposure to that risk at the end of the reporting period based on the information provided internally to key management personnel of the entity (as defined in IAS 24), for example, the entity’s board of directors and chief executive officer

If the entity uses several methods to manage a risk or an exposure, the entity discloses information using the method or methods that are most relevant and reliable. IAS 8.10 also discusses relevance and reliability.

b. The disclosures required by IFRS 7.36-42 below to the extent not provided in accordance with (a)

c. Concentrations of risk if not apparent from the disclosures made in accordance with (a) and (b)

Concentrations of risk arise from financial instruments that have similar characteristics and are affected similarly by changes in economic or other conditions. The identification of concentrations of risk requires judgement taking into account the circumstances of the entity (see IFRS 7.IG18).

For concentrations of risk, does the entity disclose:

a. How management determines concentrations
b. The shared characteristic that identifies each concentration (for example, counterparty, geographical area, currency and/or market)
c. The amount of the risk exposure associated with all financial instruments sharing that characteristic

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td>IFRS 7.IG19</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
</tbody>
</table>

In accordance with IFRS 7.88, disclosures of concentrations of risk includes the shared characteristic that identifies each concentration. For example, the shared characteristic may refer to geographical distribution of counterparties by groups of countries, individual countries or regions within countries.

New 473 IFRS 7.35

If the quantitative data disclosed as at the end of the reporting period are unrepresentative of the entity’s exposure to risk during the period, does the entity provide further information that is representative.

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td>IFRS 7.IG20</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
</tr>
</tbody>
</table>

To meet this requirement, the entity might disclose the highest, lowest and average amount of risk to which it was exposed during the reporting period. For example, if an entity typically has a large exposure to a particular currency, but at the end of the reporting period unwinds the position, the entity might disclose a graph that shows the exposure at various times during the reporting period, or disclose the highest, lowest and average exposures.

Credit risk

IFRS 7.36(a) requires disclosure of the amount that best represents the entity’s maximum exposure to credit risk. For a financial asset, this is typically the gross carrying amount, net of:

a. Any amounts offset in accordance with IAS 32
b. Any impairment losses recognised in accordance with IAS 39

Activities that give rise to credit risk and the associated maximum exposure to credit risk include, but are not limited to:

a. Granting loans and receivables to customers and placing deposits with other entities. In these cases, the maximum exposure to credit risk is the carrying amount of the related financial assets.
b. Entering into derivative contracts such as foreign exchange contracts, interest rate swaps and credit derivatives. If the entity measures the resulting asset at fair value, the maximum exposure to credit risk at the end of the reporting period will equal the carrying amount.
c. Granting financial guarantees. In this case, the maximum exposure to credit risk is the maximum amount the entity could have to pay if the guarantee is called on, which may be significantly greater than the amount recognised as a liability.
d. Making a loan commitment that is irrevocable over the life of the facility or is revocable only in response to a material adverse change. If the issuer cannot settle the loan commitment net in cash or another financial instrument, the maximum credit exposure is the full amount of the commitment. This is because it is uncertain whether the amount of any undrawn portion may be drawn upon in the future. This may be significantly greater than the amount recognised as a liability.

c. The credit quality of financial assets that are neither past due nor impaired

New 474 IFRS 7.36 IAS 32.42

Does the entity disclose by class of financial instrument:

a. The amount that best represents its maximum exposure to credit risk at the end of the reporting period without taking account of any collateral held or other credit enhancements (for example, netting agreements that do not qualify for offset in accordance with IAS 32.42), if the carrying amount does not represent the maximum exposure to credit risk
b. A description of collateral held as security and of other credit enhancements, and their financial effect (for example, a quantification of the extent to which collateral and other credit enhancements mitigate credit risk) for the amount that best represents the maximum exposure to credit risk (whether disclosed in accordance with (a) or represented by the carrying amount of a financial instrument)

c. The credit quality of financial assets that are neither past due nor impaired

New 475 IFRS 7.37 IFRS 7.IG22

Does the entity disclose by class of financial asset:

a. An analysis of the age of financial assets that are past due as at the end of the reporting period but not impaired
b. An analysis of financial assets that are individually determined to be impaired as at the end of the reporting period, including the factors the entity considered in determining that they are impaired

Collateral and other credit enhancements obtained

New 476 IFRS 7.38

If the entity obtains financial or non-financial assets during the period by taking possession of collateral it holds as security or calling on other credit enhancements (for example, guarantees), and such assets meet the recognition criteria in other IFRS, does the entity disclose for such assets held at the reporting date:

a. The nature and carrying amount of the assets obtained
b. If the assets are not readily convertible into cash, its policies for disposing of such assets or for using them in its operations
**Liquidity risk**

Does the entity disclose:

a. A maturity analysis for non-derivative financial liabilities (including issued financial guarantee contracts) that shows the remaining contractual maturities

<table>

b. A maturity analysis for derivative financial liabilities, which includes the remaining contractual maturities for those derivative financial liabilities for which contractual maturities are essential for an understanding of the timing of the cash flows

<table>
<thead>
<tr>
<th>Disclosure made</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes</td>
</tr>
<tr>
<td>☐</td>
</tr>
</tbody>
</table>

---

The amounts in the maturity analysis are the contractual undiscounted cash flows.

Some relevant examples may be gross finance lease obligations (before deducting finance charges), prices specified in forward agreements to purchase financial assets for cash, net amounts for pay-floating/receive-fixed interest rate swaps for which net cash flows are exchanged, and contractual amounts to be exchanged in a derivative financial instrument (e.g. a currency swap) for which gross cash flows are exchanged and gross loan commitments.

Such undiscounted cash flows differ from the amount included in the statement of financial position because the statement of financial position amount is based on discounted cash flows. If the amount payable is not fixed, the entity discloses the amount based on the conditions existing at the end of the reporting period. For example, if the amount payable varies with changes in an index, the amount disclosed may be based on the level of the index at the end of the reporting period.

---

The entity discloses a maturity analysis of financial assets it holds for managing liquidity risk (for example, financial assets that are readily saleable or expected to generate cash inflows to meet cash outflows on financial liabilities), if that information is necessary to enable users of its financial statements to evaluate the nature and extent of liquidity risk.

Other factors that the entity considers in IFRS 7.39(c) above include, but are not limited to, whether the entity has the following:

a. Committed borrowing facilities (for example, commercial paper facilities) or other lines of credit (for example, stand-by credit facilities) that it can access to meet liquidity needs

b. Deposits at central banks to meet liquidity needs

c. Very diverse funding sources

d. Significant concentrations of liquidity risk in either its assets or its funding sources

e. Internal control processes and contingency plans for managing liquidity risk

f. Instruments that include accelerated repayment terms (for example, upon the downgrade of the entity’s credit rating)

g. Instruments that could require the posting of collateral (for example, margin calls for derivatives)

h. Instruments that allow the entity to choose whether it settles its financial liabilities by delivering cash (or another financial asset) or by delivering its own shares

Or

i. Instruments that are subject to master netting agreements.

---

d. Unless the information is included in the contractual maturity analysis required by IFRS 7.39(a) or (b), does the entity state that fact and provide quantitative information that enables users of its financial statements to evaluate the extent of this risk if the outflow of cash (or another financial asset) could either:

- Occur significantly earlier than indicated in the data

<table>

Market risk

Sensitivity analysis

Unless the entity complies with IFRS 7.41 below, does the entity disclose:

a. A sensitivity analysis for each type of market risk to which the entity is exposed at the end of the reporting period, showing how profit or loss and equity would have been affected by changes in the relevant risk variable that were reasonably possible at the end of the reporting period

b. The methods and assumptions used in preparing the sensitivity analysis
c. Changes from the previous period in the methods and assumptions used and reasons for such changes

In accordance with IFRS 7.B3, the entity decides how it aggregates information to display the overall picture without combining information with the different characteristics about exposures to risks from significantly different economic environments.

If the entity is exposed to only one type of market risk in only one economic environment, it does not show disaggregated information. For this purpose:

a. Entities disclose the effect on profit or loss and equity at the end of the reporting period, assuming that a reasonably possible change in the relevant risk variable had occurred at the end of the reporting period and had been applied to the risk exposures in existence at that date. For example, if an entity has a floating rate liability at the end of the year, the entity would disclose the effect on profit or loss (that is, interest expense) for the current year if interest rates had varied by reasonably possible amounts.
b. Entities are not required to disclose the effect on profit or loss and equity for each change within a range of reasonably possible changes of the relevant risk variable. Disclosure of the effects of the changes at the limits of the reasonably possible range are sufficient.

In determining what a reasonably possible change in the relevant risk variable is, the entity considers the following:

a. The economic environments in which it operates. A reasonably possible change does not include remote or ‘worst case’ scenarios or ‘stress tests’. Moreover, if the rate of change in the underlying risk variable is stable, the entity need not alter the chosen reasonably possible change in the risk variable. The entity discloses the effect on profit or loss and equity if interest rates were to change to 5% or 6%. The entity is not required to revise its assessment that interest rates might reasonably fluctuate, unless there is evidence that interest rates have become significantly more volatile.
b. The time frame over which it is making the assessment. The sensitivity analysis shows the effects of changes that are considered reasonably possible over the period until the entity will next present these disclosures, which is usually its next annual reporting period.

If the entity prepares a sensitivity analysis, such as a value-at-risk, that reflects interdependencies between risk variables (for example, interest rates and exchange rates) and uses it to manage financial risks, it may use that sensitivity analysis in place of the analysis in IFRS 7.40 above. If the entity uses such a sensitivity analysis does the entity also explain:

a. The method used in preparing such a sensitivity analysis, and the main parameters and assumptions underlying the data
b. The objective of the method used and limitations that may result in the information not fully reflecting the fair value of the assets and liabilities involved

Currency risk

Currency risk does not arise from financial instruments that are non-monetary items or from financial instruments denominated in the functional currency.

An entity discloses a sensitivity analysis for each currency to which it has significant exposure.

Other price risk

Other price risk arises on financial instruments because of changes in, for example, commodity prices or equity prices. To comply with IFRS 7.40, the entity might disclose the effect of a decrease in a specified stock market index, commodity price, or other risk variable. For example, if an entity gives residual value guarantees that are financial instruments, the entity discloses an increase or decrease in the value of the assets to which the guarantee applies.

Two examples of financial instruments that give rise to equity price risk are a holding of equities in another entity and an investment in a trust, which in turn, holds investments in equity instruments. The fair values of such financial instruments are affected by changes in the market price of the underlying equity instruments.

Under IFRS 7.40(a), an entity discloses the sensitivity of profit or loss separately from the sensitivity of equity. For example, the sensitivity from instruments classified as at fair value through profit or loss is disclosed separately from the sensitivity of...
Disclosure made

Yes | No | N/A
--- | --- | ---

**Other market risk disclosures**

If the sensitivity analyses in IFRS 7.40 or 41 above are unrepresentative of a risk inherent in a financial instrument (for example, because the exposure at the end of the reporting period does not reflect the exposure during the reporting period), does the entity disclose that fact and the reason it believes the sensitivity analyses are unrepresentative.

The entity discloses additional information if the sensitivity analysis is unrepresentative of a risk inherent in a financial instrument. For example, this can occur if:

a. A financial instrument contains terms and conditions whose effects are not apparent from the sensitivity analysis. For example, options that remain out of (or in) the money for the chosen change in the risk variable.

b. Financial assets are illiquid. For example, if there is a low volume of transactions in similar assets and the entity finds it difficult to find a counterparty.

Or
c. The entity has a large holding of a financial asset that, if sold in its entirety, would be sold at a discount or premium to the quoted market price for a smaller holding.

**Puttable instruments and other similar instruments classified as equity**

If the entity reclassifies:

» A puttable financial instrument classified as an equity instrument

Or

» An instrument that imposes on the entity an obligation to deliver to another party a pro rata share of the net assets of the entity only on liquidation, and is classified as an equity instrument between financial liabilities and equity, does it disclose:

 a. The amount reclassified into and out of each category (financial liabilities or equity)  
 b. The timing of the reclassification  
 c. The reason for the reclassification

For puttable financial instruments classified as equity instruments, does the entity disclose:

 a. Summary quantitative data about the amount classified as equity  
 b. Its objectives, policies and processes for managing its obligation to repurchase or redeem the instruments if required to do so by the instrument holders, including any changes from the previous period  
 c. The expected cash outflow on redemption or repurchase of that class of financial instruments  
 d. Information about how the expected cash outflow on redemption or repurchase was determined

If the entity is a limited life entity, does it disclose the length of its life

**Offset Financial Assets and Financial Liabilities**

When an entity has the right to receive or pay a single net amount and intends to do so, it has, in effect, only a single financial asset or financial liability. In other circumstances, financial assets and financial liabilities are presented separately from each other consistently with their characteristics as resources or obligations of the entity.

Disclosures below also apply to recognised financial instruments that are subject to an enforceable master netting arrangement or similar agreement, irrespective of whether they are set off in accordance with paragraph 42 of IAS 32.

The amendments to the IFRS 7 Disclosures-Offsetting Financial Assets and Financial Liabilities include the below disclosures and is applicable for annual periods beginning on or after 1 January 2013 and interim periods within those annual periods. These IFRS 7 amendments do not include any mention to early application permission. Nevertheless IAS 32 Amendment, Offsetting Financial Assets and Financial Liabilities, although mandatory for annual periods beginning on or after 1 January 2014, permits its early application with the requirement of including the disclosures included in the amendments to IFRS 7.

If an entity adopt the amendments to the IFRS 7 Disclosures-Offsetting Financial Assets and Financial Liabilities, items in this section must be disclosed.

Does the entity disclose, in a tabular format (unless another format is more appropriate), separately for recognised financial assets and recognised financial liabilities that have been set-off in accordance with IAS 32.42 or that are subject to an enforceable master netting arrangement or similar agreement, the following quantitative information:

 a. The gross amounts of those recognised financial assets and recognised financial liabilities  
 b. The amounts that are set off in accordance with the criteria in paragraph 42 of IAS 32 when determining the net amounts presented in the statement of financial position  
 c. The net amounts presented in the statement of financial position
Disclosure made
Yes No N/A

d. The amounts subject to an enforceable master netting arrangement or similar agreement that are not otherwise included in b. above (for each instrument limited to the amount included in c. above), including:
   - Amounts related to recognised financial instruments that do not meet some or all of the offsetting criteria in paragraph 42 of IAS 32
   - Amounts related to financial collateral (including cash collateral)

And

e. The net amount after deducting the amounts in (d) from the amounts in (c). above

Does the entity disclose a description of the rights of set-off associated with the entity’s recognised financial assets and recognised financial liabilities subject to enforceable master netting arrangements and similar agreements that are disclosed in accordance with item 481d above, including the nature of those rights

New 485 IFRS 7.13E

Does the entity disclose in more than one note to the financial statements

Extinguishing financial liabilities with equity instruments (IFRIC 19)

New 486 IFRS 7.13F

Transition requirements

Transition requirements for adoption of IFRS 9 (issued in 2009) depend on the date of initial application:

a. If the first application is made in a reporting period beginning on or after 1 January 2012 and before 1 January 2013, did the entity elect either to provide the disclosures set out in this section below or to restate prior periods

b. If the first application is made in a reporting period beginning on or after 1 January 2013, does the entity provide the disclosures set out in this section below and not restate prior periods

New 487 IFRIC 19.11

IFRIC 19 provides guidance for the accounting when an entity renegotiates terms of a liability, with the result that a debtor extinguishes a financial liability fully or partially by issuing equity instruments to the creditor.

New 488 IFRS 9.8.2.12

When an entity first applies IFRS 9 (issued in 2009), for each class of financial assets at the date of initial application, does the entity disclose in tabular format (unless another format is more appropriate):

a. The original measurement category and carrying amount determined in accordance with IAS 39

b. The new measurement category and carrying amount determined in accordance with IFRS 9 (issued in 2009)

c. The amount of any financial assets in the statement of financial position that were previously designated as measured at fair value through profit or loss, but are no longer so designated, distinguishing between (a) those that IFRS 9 requires an entity to reclassify and (b) those that an entity elects to reclassify

New 489 IFRS 7.44J

When an entity first applies IFRS 9 (issued in 2009), does the entity disclose qualitative information to enable users to understand:

a. How it applied the classification requirements in IFRS 9 (issued in 2009) to those financial assets whose classification changed as a result of applying IFRS 9 (issued in 2009)

b. The reasons for any designation or de-designation of financial assets or financial liabilities as measured at fair value through profit or loss

Disclosures required in this section below are just required (IFRS 9.8.2.12 – see item 472, above) in the annual period in which IFRS 9 (issued in 2009) is initially applied and are not required after that annual period.

New 490 IFRS 7.44T

At the date of initial application of IFRS 9 (issued in 2009) (if required by IFRS 9 (issued in 2009) 8.2.12, see item 488 above) does the entity disclose the changes in the classifications of financial assets and financial liabilities, showing separately:

a. The changes in the carrying amounts on the basis of their measurement categories in accordance with IAS 39 (i.e., not resulting from a change in measurement attribute on transition to IFRS 9 (issued in 2009))

b. The changes in the carrying amounts arising from a change in measurement attribute on transition to IFRS 9 (issued in 2009)
Disclosures required IFRS 7.44U below are just required in the reporting period of the initial application of IFRS 9 (issued in 2009). However, if an entity treats the fair value of a financial asset or financial liability as its amortised cost at the date of initial application, the disclosures required by IFRS 7.44U(c) and (d) shall be made for each reporting period following reclassification until derecognition.

In the reporting period in which IFRS 9 (issued in 2009) is initially applied, does the entity disclose the following information for financial assets and financial liabilities that have been reclassified so that they are measured at amortised cost as a result of the transition:

a. The fair value of the financial assets and financial liabilities at the end of the reporting period
b. The fair value gain or loss that would have been recognised in profit or loss or other comprehensive income during the reporting period if the financial assets and financial liabilities had not been reclassified
c. The effective interest rate determined on the date of reclassification
d. The interest income or expense recognised

If an entity presents the disclosures set out in IFRS 7.44U above at the date of initial application of IFRS 9 (issued in 2009), do those disclosures, and the disclosures in item 121 during the reporting period containing the date of initial application, permit reconciliation between:

a. The measurement categories in accordance with IAS 39 and IFRS 9 (issued in 2009)
b. The line items presented in the statements of financial position

If an entity presents the disclosures set out in IFRS 7.44U above at the date of initial application of IFRS 9 (issued in 2009), do those disclosures, and the disclosures in items 462 and 213 during the reporting period containing the date of initial application, permit reconciliation between:

a. Of the measurement categories presented in accordance with IAS 39 and IFRS 9 (issued in 2009)
b. The class of financial instrument at the date of initial application

Adoption of IFRS 9 Financial Instruments (issued in 2010), disclosures for financial instruments, (IFRS 9 (2010) and IAS 32)

Items required by IFRS 9.7.1.1, 7.2.3 and 7.3.2 below set out the disclosure requirements if an entity adopts IFRS 9 (issued in 2010), i.e., for financial assets and financial liabilities. If an entity adopts IFRS 9 Financial Instruments (issued in 2009), i.e., for financial assets only, refer to items 421-422.

In December 2011 the Board issued an amendment to IFRS 9 modifying the implementation date from periods beginning on or after 1 January 2013 to periods beginning on or after 1 January 2015.

If the entity adopts IFRS 9 (issued in 2010) for annual periods beginning before 1 January 2015, does the entity disclose that fact

If the entity does not adopt IFRS 9 (issued in 2010) from the beginning of a reporting period, does the entity disclose this fact and the reasons for using that date of initial application.

An entity applies IFRS 9 (issued in 2010) for annual periods beginning on or after 1 January 2015. Early application is permitted. However, if an entity applies IFRS 9 (issued in 2010) early and has not already applied IFRS 9 (issued in 2009), it must apply all of the requirements in IFRS 9 (issued in 2010) at the same time.

However, for annual periods beginning before 1 January 2015, an entity may apply IFRS 9 (issued in 2009) instead of applying IFRS 9 (issued in 2010).

First-time adoption of IFRS 9 (issued in 2010)

Items in this section set out the disclosure requirements if the entity adopts IFRS 9 Financial Instruments (issued in 2010), i.e., for financial assets and financial liabilities.

If the entity adopts IFRS 9 Financial Instruments (issued in 2009), i.e., for financial assets only, refer to items 423-425. If the entity does not adopt IFRS 9 Financial Instruments, but continues to apply IAS 39 Financial Instruments: Recognition and Measurement, refer to item 28.

Designation of financial assets or financial liabilities

If the entity designates previously recognised financial assets as financial assets at fair value through profit or loss under IFRS 1.19A, does the entity disclose for financial assets:

a. The fair value at the date of designation
b. Classification in the previous financial statements
c. Carrying amount in the previous financial statements

If the entity designates previously recognised financial liabilities as financial liabilities at fair value through profit or loss under IFRS 1.19A, does the entity disclose for financial liabilities:
a. The fair value at the date of designation
b. Classification in the previous financial statements
c. Carrying amount in the previous financial statements

Exemption from the requirement to restate comparative information for IFRS 9 (issued in 2010)

If an entity chooses to present comparative information that does not comply with IFRS 9 (issued in 2010) and IFRS 7 in its first year of transition, does the entity disclose:

- If this fact
- The basis used to prepare this information
- The information required by IAS 8.28(a)-(e) and (f)(i) (see items 121(a)-121(f) for the individual requirements) for any adjustment between the statement of financial position at the comparative period’s reporting date and the statement of financial position at the start of the first IFRS reporting period
- Additional information in accordance with IAS 1.17(c) when compliance with the specific requirements in IFRSs is insufficient to enable users to understand the impact of particular transactions, other events and conditions on the entity’s financial position and financial performance

Financial instruments

Items in this section set out the disclosure requirements for all financial instruments if the entity adopts IFRS 9 (issued in 2010), i.e., for financial assets and financial liabilities. If the entity adopts IFRS 9 Financial Instruments (issued in 2009), i.e., for financial assets only, refer to items 426-494. If the entity does not adopt IFRS 9 Financial Instruments, but rather applies IAS 39 Financial Instruments: Recognition and Measurement, refer to items 185-239.

IFRS 7.6 requires the entity to group financial instruments into classes that are appropriate to the nature of the information disclosed and that take into account the characteristics of those financial instruments. These classes are determined by the entity and as such, are distinct from the categories of financial instruments specified in IFRS 9 (issued in 2010).

In determining classes of financial instruments, an entity, at minimum:

- Distinguishes between instruments measured at amortised cost from those measured at fair value
- Treats those financial instruments as a separate class or classes outside the scope of this IFRS

The entity decides how much detail it provides to satisfy the requirements, how much emphasis it places on different aspects of the requirements and how it aggregates information to display the overall picture without combining information with different characteristics, in the light of its circumstances. It is necessary to find a balance between excessive detail that may not assist users of financial statements and obscuring important information as a result of too much aggregation. For example, an entity must not obscure important information by including it among a large amount of insignificant detail. Similarly, an entity must not aggregate information so that it obscures important differences between individual transactions or associated risks.

Financial assets or financial liabilities at fair value through profit or loss

If the entity designated a financial asset (or group of financial assets) as measured at fair value that would otherwise be measured at amortised cost, does it disclose:
Disclosure made
Yes  No  N/A

a. The maximum exposure to credit risk of the financial asset (or group of financial assets) at the end of the reporting period

b. The amount by which any related credit derivatives or similar instruments mitigate that maximum exposure to credit risk

c. The change, during the reporting period and cumulatively, in the fair value of the financial asset (or group of financial assets) that is attributable to changes in the credit risk of the financial asset determined either:
   ▶ As the change in its fair value that is not attributable to changes in market conditions that give rise to market risk
   Or
   ▶ Using an alternative method that the entity believes more faithfully represents the change in its fair value that is attributable to changes in credit risk of the asset

IfRS 7.9

Changes in market conditions that give rise to market risk include changes in an interest rate, commodity price, foreign exchange rate or index of prices or rates.

d. The change in the fair value of any related credit derivatives or similar instruments that occurred during the reporting period and cumulatively since the financial asset was designated

IfRS 9.5.7.7

An entity presents a gain or loss on a financial liability designated at fair value through profit or loss, as follows:

a. The change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is presented in other comprehensive income

b. The remaining amount of change in the fair value of the liability is presented in profit or loss unless the treatment of the effects of changes in the liability's credit risk described in (a) would create or enlarge an accounting mismatch in profit or loss.

If these requirements would create or enlarge an accounting mismatch in profit or loss, an entity presents all gains and losses on that liability (including the effects of changes in the credit risk of that liability) in profit or loss.

New 504

If the entity (a) designated a financial liability as at fair value through profit or loss in accordance with IfRS 9.4.2.2 and (b) is required to present the effects of changes in that liability's credit risk in other comprehensive income (see IfRS 9.5.7.7) does it disclose:

a. The change, cumulatively, in the fair value of the financial liability that is attributable to changes in credit risk of that liability

b. The difference between the financial liability's carrying amount and the amount the entity would be contractually required to pay at maturity to the holder of the obligation

c. Any transfers of the cumulative gain or loss within equity during the reporting period including the reason for such transfers

d. If a liability is derecognised during the reporting period, the amount (if any) presented in other comprehensive income that was realised at derecognition

New 505

If the entity (a) designated a financial liability as at fair value through profit or loss in accordance with IfRS 9.4.2.2 and (b) is required to present all changes in the fair value of that liability (including the effects of changes in the credit risk of the liability) in profit or loss (see IfRS 9.5.7.7-8) does it disclose:

a. The change, during the reporting period and cumulatively, in the fair value of the financial liability that is attributable to changes in the credit risk of that liability

b. The difference between the financial liability's carrying amount and the amount the entity would be contractually required to pay at maturity to the holder of the obligation

New 506

Does the entity disclose:

a. A detailed description of the methods used to comply with the requirements in items 503(c), 504(a) and 505(a).

b. If the entity believes that the disclosure it has given, either in the statement of financial position or in the notes, to comply with the requirements in items 503(c), 504(a) or 505(a) or IfRS 9.5.7.7(a) does not faithfully represent the change in the fair value of the financial asset or financial liability attributable to changes in the credit risk:
   ▶ The reasons for reaching this conclusion
   ▶ The factors the entity believes are relevant

c. A detailed description of the methodology or methodologies used to determine whether presenting the effects of changes in a liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss

d. If the entity is required to present the effects of changes in a liability's credit risk in profit or loss, a detailed description of the economic relationship described in IfRS 9.5.7.6 (to comply with (c) above)
When an entity designates a financial liability as at fair value through profit or loss, it must determine whether presenting in other comprehensive income the effects of changes in the liability’s credit risk would create or enlarge an accounting mismatch in profit or loss. An accounting mismatch would be created or enlarged if presenting the effects of changes in the liability’s credit risk in other comprehensive income would result in a greater mismatch in profit or loss than if those amounts were presented in profit or loss. To make that determination, an entity must assess whether it expects that the effects of changes in the liability’s credit risk will be offset in profit or loss by a change in the fair value of another financial instrument measured at fair value through profit or loss. Such an expectation must be based on an economic relationship between the characteristics of the liability and the characteristics of the other financial instrument.

Financial assets measured at fair value through other comprehensive income

If an entity designated investments in equity instruments to be measured at fair value through other comprehensive income, does it disclose:

|   | a. Which investments in equity instruments are designated to be measured at fair value through other comprehensive income | □ | □ | □ |
|   | b. The reasons for using this presentation alternative | □ | □ | □ |
|   | c. The fair value of each such investment at the end of the reporting period | □ | □ | □ |
|   | d. Dividends recognised during the reporting period, showing separately: | □ | □ | □ |
|   | ▶ Those related to investments derecognised during the reporting period | □ | □ | □ |
|   | ▶ Those related to investments held at the end of the reporting period | □ | □ | □ |
|   | e. Any transfers of the cumulative gain or loss within equity during the reporting period and the reason for such transfers | □ | □ | □ |

Reclassification

If the entity, in the current or previous reporting periods, reclassified any financial assets in accordance with paragraph 4.4.1 of IFRS 9 (issued in 2010), does the entity disclose:

|   | a. The date of reclassification | □ | □ | □ |
|   | b. A detailed explanation of the change in business model and a qualitative description of its effect on the entity's financial statements | □ | □ | □ |
|   | c. The amount reclassified into and out of each category | □ | □ | □ |
|   | d. For any financial assets reclassified so they are measured at fair value, any gain or loss arising from a difference between the previous carrying amount and its fair value at the reclassification date | □ | □ | □ |

Transfers of financial assets

In the first year of application of IFRS 7 Disclosures – Transfers of Financial Assets, although comparative disclosures are not required, IFRS 7 requires transfer of financial assets disclosures to be provided for all transferred financial assets that are not derecognised and for any continuing involvement in a transferred asset, existing at the reporting date, irrespective of when the related transfer transaction occurred.

Does the entity present the disclosures required in items 513-517 in a single note in its financial statements?

|   | □ | □ | □ |

Does the entity disclose information that enables users of its financial statements:

|   | a. To understand the relationship between transferred financial assets that are not derecognised in their entirety and the associated liabilities | □ | □ | □ |
|   | b. To evaluate the nature of, and risks associated with, the entity’s continuing involvement in derecognised financial assets | □ | □ | □ |
supplement the other disclosure requirements of IFRS 7. The entity provides these disclosures for all transferred financial assets that are not derecognised and for any continuing involvement in a transferred asset, existing at the reporting date, irrespective of when the related transfer transaction occurred.

For these disclosures, an entity transfers all or part of a financial asset (the transferred financial asset), if it either:

a. Transfers the contractual rights to receive the cash flows of that financial asset
Or
b. Retains the contractual rights to receive the cash flows of that financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients in an arrangement (commonly referred to as a ‘pass-through arrangement’)

The meaning of ‘transfer’ in IFRS 7 differs from that in IAS 39 (IFRS 9) with respect to ‘pass-through arrangements’. In particular, for pass-through arrangements to qualify as transfers under IAS 39 (IFRS 9), all three conditions in IAS 39.19 (IFRS 9.3.2.5) (commonly referred to as the ‘pass through conditions’) need to be met. In contrast, pass-through conditions need not be met for pass-through arrangements to be within the scope of IFRS 7. Accordingly, an arrangement whereby a reporting entity (including any consolidated special purpose entity) issues notes payable to investors that are contractually referenced to specified assets, and are non-recourse to the group, falls within the scope of these disclosure requirements, irrespective of whether such an arrangement meets all the IAS 39 (IFRS9) ‘pass-through’ conditions.

### Transferred financial assets that are not derecognised in their entirety

To meet the objectives in IFRS 7.42B(a) above, does the entity disclose for each class of transferred financial assets that are not derecognised in their entirety:

- a. The nature of the transferred assets
- b. The nature of the risks and rewards of ownership to which the entity remains exposed
- c. The nature of the relationship between the transferred assets and the associated liabilities, including any restrictions arising from the transfer on the entity’s use of the transferred assets
- d. When the counterparty (counterparties) to the associated liabilities has (have) recourse only to the transferred assets, a schedule that sets out:
  - The fair value of the transferred assets
  - The fair value of the associated liabilities
  - The net position
- e. When the entity continues to recognise all of the transferred assets, the carrying amounts of the transferred assets and the associated liabilities
- f. When the entity continues to recognise the assets to the extent of its continuing involvement:
  - The total carrying amount of the original assets before the transfer
  - The carrying amount of the assets that the entity continues to recognise
  - The carrying amount of the associated liabilities

### Transferred financial assets that are derecognised in their entirety

To meet the objectives in IFRS 7.42B(b) above, when the entity derecognises financial assets, but has continuing involvement in them, does the entity disclose for each type of continuing involvement at the reporting date:

- a. The carrying amount of the assets and liabilities that are recognised in the entity’s statement of financial position and represent the entity’s continuing involvement in the derecognised financial assets, and the line items in which those assets and liabilities are recognised
- b. The fair value of the assets and liabilities that represent the entity’s continuing involvement in the derecognised financial assets
- c. The amount that best represents the entity’s maximum exposure to loss from its continuing involvement in the derecognised financial assets, and how the maximum exposure to loss is determined
- d. The undiscounted cash outflows that would or may be required to repurchase the derecognised financial assets or other amounts payable to the transferee for the transferred assets
- e. A maturity analysis of the undiscounted cash outflows that would or may be required to repurchase the derecognised financial assets or other amounts payable to the transferee in respect of the transferred assets, showing the remaining contractual maturities of the entity’s continuing involvement

Examples of cash outflows to repurchase the derecognised financial assets include the strike price in an option agreement or the repurchase price in a repurchase agreement. If the cash outflow is variable, then the amount disclosed are based on the conditions that exist at each reporting date.

Examples of cash outflows to repurchase the derecognised financial assets include the strike price in an option agreement or the repurchase price in a repurchase agreement. If the cash outflow is variable, then the amount disclosed are based on the conditions that exist at each reporting date.

Examples of cash outflows to repurchase the derecognised financial assets include the strike price in an option agreement or the repurchase price in a repurchase agreement. If the cash outflow is variable, then the amount disclosed are based on the conditions that exist at each reporting date.

Examples of cash outflows to repurchase the derecognised financial assets include the strike price in an option agreement or the repurchase price in a repurchase agreement. If the cash outflow is variable, then the amount disclosed are based on the conditions that exist at each reporting date.

Examples of cash outflows to repurchase the derecognised financial assets include the strike price in an option agreement or the repurchase price in a repurchase agreement. If the cash outflow is variable, then the amount disclosed are based on the conditions that exist at each reporting date.
The maturity analysis should distinguish cash flows that are required to be paid (e.g., forward contracts), cash flows that the entity may be required to pay (e.g., written put options) and cash flows that the entity might choose to pay (e.g., purchased call options). An entity uses its judgement to determine an appropriate number of time bands in preparing the maturity analysis. If there is a range of possible maturities, the cash flows are included on the basis of the earliest date on which the entity can be required or is permitted to pay.

**Disclosure made**

**Disclosure required:**

- The maturity analysis should distinguish cash flows that are required to be paid (e.g., forward contracts), cash flows that the entity may be required to pay (e.g., written put options) and cash flows that the entity might choose to pay (e.g., purchased call options). An entity uses its judgement to determine an appropriate number of time bands in preparing the maturity analysis. If there is a range of possible maturities, the cash flows are included on the basis of the earliest date on which the entity can be required or is permitted to pay.

**Qualitative information that explains and supports the quantitative disclosures in (a)-(e), that includes a description of:**

- The derecognised financial assets and the nature and purpose of the continuing involvement retained after transferring those assets
- The risks to which an entity is exposed, including:
  - A description of how the entity manages the risk inherent in its continuing involvement in the derecognised financial assets
  - Whether the entity is required to bear losses before other parties, and the ranking and amounts of losses borne by parties whose interests rank lower than the entity’s interest in the asset (i.e., its continuing involvement in the asset)
  - A description of any triggers associated with obligations to provide financial support or to repurchase a transferred financial asset

**An entity may aggregate the information required by IFRS 7.42E above for a particular asset if the entity has more than one type of continuing involvement in that derecognised financial asset, and report it under one type of continuing involvement.**

**Does the entity disclose, for each reporting period for which a statement of comprehensive income is presented, for each type of continuing involvement:**

- The gain or loss recognised at the date of transfer of the assets, including:
  - Whether that gain or loss on derecognition arose because the fair values of the components of the previously recognised asset (i.e., the interest in the asset derecognised and the interest retained by the entity) were different from the fair value of the previously recognised asset as a whole
  - If that gain or loss on derecognition arose because the fair values of the components of the previously recognised asset were different from the fair value of the previously recognised asset as a whole, whether the fair value measurements included significant inputs that were not based on observable market data
- Income and expenses recognised, both in the reporting period and cumulatively, from the entity’s continuing involvement (for example, fair value changes in derivative instruments)
- If the total proceeds from transfer activity (that qualifies for derecognition) in a reporting period are not evenly distributed throughout the reporting period (for example, if a substantial proportion of the total amount of transfer activity takes place in the closing days of a reporting period):
  - When the greatest transfer activity took place within that reporting period (for example, the last five days before the end of the reporting period)
  - The amount recognised (for example, related gains or losses) from transfer activity in that part of the reporting period
  - The total amount of proceeds from transfer activity in that part of the reporting period

**Supplementary information**

**Does the entity disclose any additional information that it considers necessary to meet the disclosure objectives in IFRS 7.42B above**

**For items 515-517 an entity has continuing involvement in a transferred financial asset if, as part of the transfer, the entity retains any of the contractual rights or obligations inherent in the transferred financial asset or obtains any new contractual rights or obligations relating to the transferred financial asset. Continuing involvement in a transferred financial asset may result from contractual provisions in the transfer agreement or in a separate agreement with the transferee or a third party entered into in connection with the transfer. However, the following do not constitute continuing involvement:**

- Normal representations and warranties relating to fraudulent transfer and concepts of reasonableness, good faith and fair dealings that could invalidate a transfer as a result of legal action
- Forward, option and other contracts to reacquire the transferred financial asset for which the contract price (or exercise price) is the fair value of the transferred financial asset
- An arrangement whereby an entity retains the contractual rights to receive the cash flows of a financial asset, but assumes a contractual obligation to pay the cash flows to one or more entities and the conditions in IFRS 9.3.2.5(a)-(c) are met

Items 515-517 require qualitative and quantitative disclosures for each type of continuing involvement in derecognised financial assets.
An entity aggregates its continuing involvement into types that are representative of the entity's exposure to risks. For example, by type of financial instrument (e.g., guarantees or call options) or by type of transfer (for example, factoring of receivables, securitisations and secured lending).

**Collateral**

Does the entity disclose:

- The carrying amount of financial assets pledged as collateral for liabilities or contingent liabilities, including amounts reclassified in accordance with IFRS 9.3.2.23(a)
- The terms and conditions relating to the pledge

Collateral pledged or received subject to a netting arrangement would also fall within the scope of the offsetting disclosures irrespective of whether or not the collateral met the offsetting criteria (see items 233-236 below).

**Allowance account for credit losses**

If financial assets are impaired by credit losses and the entity records the impairment in a separate account (for example, an allowance account or similar account used to record a collective impairment of assets) rather than directly reducing the carrying amount of the asset, does the entity reconcile changes in that account during the reporting period for each class of financial assets?

**Compound financial instruments with multiple embedded derivatives**

If the entity issued an instrument that contains both a liability and an equity component and the instrument has multiple embedded derivatives whose values are interdependent (such as a callable convertible debt instrument), does the entity disclose the existence of those features?

**Defaults and breaches**

For loans payable recognised at the end of the reporting period, does the entity disclose:

- Details of any defaults of principal, interest, sinking fund, or redemption terms of those loans payable during the reporting period
- The carrying amount of the loans payable in default at the end of the reporting period
- Whether the default was remedied, or the terms of the loans payable were renegotiated, before the financial statements were authorised for issue

**Statement of comprehensive income and equity**

**Items of income, expense, gains and losses**

Does the entity disclose the following items of income, expense, gains or losses, either in the statement of comprehensive income or in the notes:

- Net gains or net losses on:
  - Financial assets measured at fair value through profit or loss, showing separately:
    - Those financial assets designated as such upon initial recognition
    - Those that are mandatorily measured at fair value in accordance with IFRS 9 (issued in 2010).
Financial liabilities at fair value through profit or loss, showing separately:

A. Those financial liabilities designated as such upon initial recognition, showing separately the gain or loss recognised in other comprehensive income and the amount recognised in profit or loss

B. Those that are mandatorily measured at fair value in accordance with IFRS 9 (issued in 2010) (for example, financial liabilities that meet the definition of held for trading in IFRS 9 (issued in 2010))

Financial assets measured at amortised cost

Financial liabilities measured at amortised cost

Financial assets measured at fair value through other comprehensive income

New 525  IFRS 7.20(b)

Does the entity disclose either in the statement of comprehensive income or in the notes (calculated using the effective interest method) for financial assets that are measured at amortised cost or financial liabilities not at fair value through profit or loss:

a. Total interest income

b. Total interest expense

New 526  IFRS 7.20(c)

The entity discloses the total interest expense recognised in profit or loss, but does not need to calculate such interest expense using the effective interest method as required under IFRS 7.20(b) for financial instruments that contain a discretionary participation feature.

New 527  IFRS 7.20(d)  IAS 39.AG93

Does the entity disclose either in the statement of comprehensive income or in the notes, the fee income and expense (other than amounts included in determining the effective interest rate) arising from:

a. Financial assets measured at amortised cost or financial liabilities that are not at fair value through profit or loss

b. Trust and other fiduciary activities that result in the holding or investing of assets on behalf of individuals, trusts, retirement benefit plans and other institutions

New 528  IFRS 7.20(e)

Does the entity disclose either in the statement of comprehensive income or in the notes, the impairment loss for each class of financial asset

New 529  IFRS 7.20A

If the entity derecognised a financial asset measured at amortised cost, does the entity disclose:

a. An analysis of the gain or loss recognised in the statement of comprehensive income arising from the derecognition of those financial assets, showing separately gains and losses arising from derecognition

b. The reasons for derecognising those financial assets

Other disclosures

Accounting policies

New 530  IFRS 7.21  IAS 1.117

Does the entity disclose, in the summary of significant accounting policies, the measurement basis (or bases) used in preparing the financial statements and the other accounting policies that are relevant to an understanding of the financial statements in relation to financial instruments

New 531  IFRS 7.85(a)

Does the entity disclose, for financial liabilities designated as at fair value through profit or loss:

a. The nature of the financial liabilities the entity has designated as at fair value through profit or loss

b. The criteria for so designating such financial liabilities on initial recognition

c. How the entity satisfied the conditions in IFRS 9.4.2.2 for such designation

New 532  IFRS 7.85(ae)

For financial assets designated at fair value through profit or loss, does the entity disclose:

a. The nature of the financial assets the entity has designated as at fair value through profit or loss

b. How the entity has satisfied the criteria in paragraph 4.1.5 of IFRS 9 (issued in 2010) for such designation

c. How net gains or net losses on each category of financial instrument are determined, for example, whether the net gains or net losses on items at fair value through profit or loss include interest or dividend income

d. The criteria the entity uses to determine that there is objective evidence that an impairment loss has occurred

e. If the terms of financial assets that would otherwise be past due or impaired have been renegotiated, the accounting policy for financial assets that are the subject of renegotiated terms

New 533  IFRS 7.85  IAS 1.122

Does the entity disclose management's judgements for financial instruments that have the most significant affect the financial statements

Hedge accounting
New 534 IFRS 7.22 IAS 39.86
Does the entity disclose the following separately for each type of hedge in IAS 39 (that is, fair value hedges, cash flow hedges and hedges of a net investment in a foreign operation):

- A description of each type of hedge
- A description of the financial instruments designated as hedging instruments
- Their fair values at the end of the reporting period
- The nature of the risks being hedged

New 535 IFRS 7.23
For cash flow hedges, does the entity disclose:

- The reporting periods when the cash flows are expected to occur, and when they are expected to affect profit or loss
- A description of any forecast transaction for which hedge accounting was previously used, but which is no longer expected to occur
- The amount recognised in other comprehensive income during the reporting period
- The amount reclassified from equity to profit or loss as a reclassification adjustment for the reporting period, showing the amount included in each line item in the statement of comprehensive income
- The amount removed from equity during the reporting period and included in the initial cost or other carrying amount of a non-financial asset or non-financial liability whose acquisition or incurrence was a hedged highly probable forecast transaction

New 536 IFRS 7.24
Does the entity separately disclose:

- In fair value hedges, gains or losses:
  - On the hedging instrument
  - On the hedged item attributable to the hedged risk
- The ineffectiveness recognised in profit or loss that arises from cash flow hedges
- The ineffectiveness recognised in profit or loss that arises from hedges of net investment in foreign operations

**Fair value**

In limited circumstances, some investments in equity instruments may be measured at cost if there is insufficient recent information available to determine fair value. No fair value disclosures are required for these investments unless indicators included in IFRS 9 B5.4.15 indicate that cost might not be representative of fair value.

The entity is not required to disclose fair value:

- If the carrying amount is a reasonable approximation of fair value, for example, for financial instruments such as short-term trade receivables and payables
- Or
- For a contract containing a discretionary participation feature, if the fair values of that feature cannot be measured reliably

New 537 IFRS 7.25 IFRS 7.29
Does the entity disclose for each class of financial assets and financial liabilities, the fair value of that class of assets and liabilities in a way that permits it to be compared with its carrying amount (except for those noted in IFRS 7.29)

New 538 IFRS 7.26
In disclosing fair values, does the entity group financial assets and financial liabilities into classes, but offset them only to the extent that their carrying amounts are offset in the statement of financial position

New 539 IFRS 7.27
For each class of financial instrument, does the entity disclose:

- The methods used in determining fair value
- If a valuation technique is used to determine fair value, the assumptions applied in determining fair values of each class of financial assets or financial liabilities

For example, the entity discloses the assumptions for prepayment rates, rates of estimated credit losses, interest rates and discount rates.

- Any change in the valuation technique
- The reasons for that change

New 540 IFRS 1.E.1 IFRS 7.44G
First-time adopters are exempt from disclosing comparative information in IFRS 7.27A-27B below.

If an Entity adopts IFRS 13, items 537-538 are not applicable and the requirements of items set out in ‘Adoption of IFRS 13 Fair Value Measurement’ section should be applied

For the disclosures required by IFRS 7.27B below, does the entity classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in the measurements, according to the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2)
c. Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3)

The entity determines the level in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement in its entirety. The entity assesses the significance of an input against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

New 541 IFRS 7.28

For fair value measurements recognised in the statement of financial position, does the entity disclose for each class of financial instruments in a tabular format unless another format is more appropriate:

a. The level in the fair value hierarchy into which the fair value measurements are categorised in their entirety, segregating fair value measurements based on the levels defined in IFRS 7.28A above

b. Any significant transfers between (into and out of) Level 1 and Level 2 of the fair value hierarchy and the reasons for those transfers, presented separately

c. For fair value measurements in Level 3 of the fair value hierarchy, a reconciliation from the beginning balances to the ending balances, disclosing separately changes during the reporting period attributable to the following:

- Total gains or losses for the reporting period recognised in profit or loss, and a description of where they are presented in the statement of comprehensive income or the separate income statement (if presented)
- Total gains or losses recognised in other comprehensive income
- Purchases, sales, issues and settlements (separately for each type of movement)
- Transfers into or out of Level 3 (for example, transfers attributable to changes in observable market data) and the reasons for those transfers, presented separately

d. The total gains or losses for the reporting period in (c) included in profit or loss that are attributable to gains or losses relating to those assets and liabilities held at the end of the reporting period and a description of where those gains or losses are presented in the statement of comprehensive income or the separate income statement (if presented)

e. For fair value measurements in Level 3, if changing one or more of the inputs to reasonably possible alternative assumptions changes fair value significantly, disclose:

- That fact
- The effect of those changes
- How the effect of a change to a reasonably possible alternative assumption was calculated

Significance is judged with respect to profit or loss, and total assets or total liabilities.

New 542 IFRS 7.28

If there is a difference between the transaction price at initial recognition and the single fair value amount at that date determined using a valuation technique that does not use data from observable markets, does the entity disclose, by class of financial instrument:

a. Its accounting policy for recognising that difference in profit or loss to reflect a change in factors (including time) that market participants would take into account when pricing the asset or liability

An entity subsequently measures a financial asset or financial liability and recognises gains and losses consistently with the requirements of IFRS 9 (issued in 2010). The application of IFRS 9.85.4.8 may result in no gain or loss being recognised on the initial recognition of a financial asset or financial liability. In such a case, IFRS 9 (issued in 2010) requires that a gain or loss is recognised after initial recognition only to the extent that it arises from a change in a factor (including time) that market participants would take into account when pricing the asset or liability.

b. The aggregate difference yet to be recognised in profit or loss at the beginning and end of the reporting period and a reconciliation of changes in the balance of this difference

c. If an entity early adopts IFRS 13, it should also disclose why it has concluded that the transaction price was not the best evidence of fair value, including a description of the evidence that supports the fair value

In the cases described in IFRS 7.29(c), does the entity disclose information to help users of the financial statements make their own judgements about the extent of possible differences between the carrying amount of those contracts and their fair value, including:

a. The fact that the entity does not disclose fair value information for these instruments because their fair value cannot be measured reliably

b. A description of the financial instruments, their carrying amount and an explanation of why fair value cannot be measured reliably

New 544

If an entity early adopts IFRS 13, has the entity applied the requirements in the New pronouncements section of this checklist instead of 536-538.

**Nature and extent of risk arising from financial instruments**

<table>
<thead>
<tr>
<th></th>
<th>IFRS 7.B6</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>IFRS 7.32</td>
</tr>
</tbody>
</table>

The disclosures required by items 545-556 focus on the risks that arise from financial instruments and how they have been managed. These risks typically include, but are not limited to, credit risk, liquidity risk and market risk. The disclosures are either given in the financial statements or incorporated by cross-reference from the financial statements to some other statement, such as a management commentary or risk report, that is available to users of the financial statements on the same terms as the financial statements and at the same time. Without the information incorporated by cross-reference, the financial statements are incomplete.

New 545

**New 546**

IFRS 7.31

Does the entity disclose information that enables users of its financial statements to evaluate the nature and extent of risks arising from financial instruments to which the entity is exposed at the end of the reporting period.

**New 546**

**Qualitative disclosures**

For each type of risk arising from financial instruments, does the entity disclose:

a. The exposures to risk and how they arise

b. Its objectives, policies and processes for managing the risk and the methods used to measure the risk

c. Any changes in (a) or (b) from the previous period

**Quantitative disclosures**

For each type of risk arising from financial instruments, does the entity disclose:

a. Summary quantitative data about its exposure to that risk at the end of the reporting period based on the information provided internally to key management personnel of the entity (as defined in IAS 24), for example, the entity’s board of directors and chief executive officer

b. The disclosures required by IFRS 7.36-42 below to the extent not provided in accordance with (a)

c. Concentrations of risk if not apparent from the disclosures made in accordance with (a) and (b)

**New 547**

**IFRS 7.B8**

Concentrations of risk arise from financial instruments that have similar characteristics and are affected similarly by changes in economic or other conditions. The identification of concentrations of risk requires judgement taking into account the circumstances of the entity (see IFRS 7.JG18).

New 548

**IFRS 7.BB**

For concentrations of risk, does the entity disclose:

a. How management determines concentrations

b. The shared characteristic that identifies each concentration (for example, counterparty, geographical area, currency and/or market)

c. The amount of the risk exposure associated with all financial instruments sharing that characteristic

In accordance with IFRS 7.BB, disclosures of concentrations of risk includes the shared characteristic that identifies each concentration. For example, the shared characteristic may refer to geographical distribution of counterparties by groups of countries, individual countries or regions within countries.
Disclosure made
Yes No N/A

New 549  
If the quantitative data disclosed as at the end of the reporting period are unrepresentative of the entity’s exposure to risk during the period, does the entity provide further information that is representative.

New 550  
IFRS 7.35

To meet this requirement, the entity might disclose the highest, lowest and average amount of risk to which it was exposed during the reporting period. For example, if an entity typically has a large exposure to a particular currency, but at the end of the reporting period unwinds the position, the entity might disclose a graph that shows the exposure at various times during the reporting period, or disclose the highest, lowest and average exposures.

New 551  
IFRS 7.36

Does the entity disclose by class of financial instrument:

a. The amount that best represents its maximum exposure to credit risk at the end of the reporting period without taking account of any collateral held or other credit enhancements (for example, netting agreements that do not qualify for offset in accordance with IAS 32.42), if the carrying amount does not represent the maximum exposure to credit risk.

b. A description of collateral held as security and of other credit enhancements, and their financial effect (for example, a quantification of the extent to which collateral and other credit enhancements mitigate credit risk) for the amount that best represents the maximum exposure to credit risk (whether disclosed in accordance with (a) or represented by the carrying amount of a financial instrument).

c. The credit quality of financial assets that are neither past due nor impaired.

d. An analysis of financial assets that are individually determined to be impaired as at the end of the reporting period, including the factors the entity considered in determining that they are impaired.

New 552  
IFRS 7.37

Does the entity disclose by class of financial asset:

a. An analysis of the age of financial assets that are past due as at the end of the reporting period but not impaired.

b. An analysis of financial assets that are individually determined to be impaired as at the end of the reporting period, including the factors the entity considered in determining that they are impaired.

New 553  
IFRS 7.38

If the entity obtains financial or non-financial assets during the period by taking possession of collateral it holds as security or calling on other credit enhancements (for example, guarantees), and such assets meet the recognition criteria in other IFRS, does the entity disclose for such assets held at the reporting date:

a. The nature and carrying amount of the assets obtained.

b. If the assets are not readily convertible into cash, its policies for disposing of such assets or for using them in its operations.

New 554  
IFRS 7.39

Does the entity disclose:

a. A maturity analysis for non-derivative financial liabilities (including issued financial guarantee contracts) that shows the remaining contractual maturities.

b. An entity discloses summary quantitative data about its exposure to liquidity risk on the basis of information provided internally to key management personnel. An entity explains how those data are determined.

In preparing the maturity analyses, the entity uses its judgement to determine appropriate time bands, which are consistent with how the entity manages risk.
In preparing the maturity analyses, the entity does not separate an embedded derivative from a hybrid (combined) financial instrument.

If the counterparty has a choice of when an amount is paid, the liability is included on the earliest date on which the entity can be required to pay. For example, financial liabilities that an entity must repay on demand (such as demand deposits) are included in the earliest time band.

If the entity is committed to make amounts available in instalments, each instalment is allocated to the earliest period in which the entity can be required to pay. For example, an undrawn loan commitment is included in the time band containing the earliest date it can be drawn down.

For issued guarantee contracts, the maximum amount of the guarantee is allocated to the earliest period in which the guarantee could be called.

The amounts in the maturity analysis are the contractual undiscounted cash flows. Some examples may be gross finance lease obligations (before deducting finance charges); prices specified in forward agreements to purchase financial assets for cash; net amounts for pay-floating/receive-fixed interest rate swaps for which net cash flows are exchanged; and contractual amounts to be exchanged in a derivative financial instrument (e.g., a currency swap) for which gross cash flows are exchanged; and gross loan commitments.

Such undiscounted cash flows differ from the amount included in the statement of financial position because the statement of financial position amount is based on discounted cash flows. If the amount payable is not fixed, the entity discloses the amount based on the conditions existing at the end of the reporting period. For example, if the amount payable varies with changes in an index, the amount disclosed may be based on the level of the index at the end of the reporting period.

b. A maturity analysis for derivative financial liabilities, which includes the remaining contractual maturities for those derivative financial liabilities for which contractual maturities are essential for an understanding of the timing of the cash flows

For example:

a. An interest rate swap with a remaining maturity of five years in a cash flow hedge of a variable rate financial asset or liability

b. All loan commitments.

c. How it manages the liquidity risk inherent in (a) and (b)

The entity discloses a maturity analysis of financial assets it holds for managing liquidity risk (for example, financial assets that are readily saleable or expected to generate cash inflows to meet cash outflows on financial liabilities), if that information is necessary to enable users of its financial statements to evaluate the nature and extent of liquidity risk.

Other factors that the entity considers in IFRS 7.39(c) include, but are not limited to, whether the entity has the following:

a. Committed borrowing facilities (for example, commercial paper facilities) or other lines of credit (for example, stand-by credit facilities) that it can access to meet liquidity needs

b. Deposits at central banks to meet liquidity needs

c. Very diverse funding sources

d. Significant concentrations of liquidity risk in either its assets or its funding sources

e. Internal control processes and contingency plans for managing liquidity risk

f. Instruments that include accelerated repayment terms (for example, upon the downgrade of the entity’s credit rating)

g. Instruments that could require the posting of collateral (for example, margin calls for derivatives)

h. Instruments that allow the entity to choose whether it settles its financial liabilities by delivering cash (or another financial asset) or by delivering its own shares

Or

i. Instruments that are subject to master netting agreements.

d. Unless the information is included in the contractual maturity analysis required by IFRS 7.39(a) or 39(b) above, does the entity state that fact and provide quantitative information that enables users of its financial statements to evaluate the extent of this risk if the outflow of cash (or another financial asset) could either:

» Occur significantly earlier than indicated in the data

Or

» Be for significantly different amounts from those indicated in the data (for example, for a derivative that is included in the data on a net settlement basis, but for which, the counterparty has the option to require gross settlement)

Market risk

Sensitivity analysis

Unless the entity complies with IFRS 7.41, below does the entity disclose:

a. A sensitivity analysis for each type of market risk to which the entity is exposed at the end of the reporting period, showing how profit or loss and equity would have been affected by changes in the relevant risk variable that were reasonably possible at the
end of the reporting period

b. The methods and assumptions used in preparing the sensitivity analysis

c. Changes from the previous period in the methods and assumptions used and reasons for such changes

In accordance with IFRS 7.B3, the entity decides how it aggregates information to display the overall picture without combining information with the different characteristics about exposures to risks from significantly different economic environments.

If the entity is exposed to only one type of market risk in only one economic environment, it does not show disaggregated information. For this purpose:

a. Entities disclose the effect on profit or loss and equity at the end of the reporting period, assuming that a reasonably possible change in the relevant risk variable had occurred at the end of the reporting period and had been applied to the risk exposures in existence at that date. For example, if an entity has a floating rate liability at the end of the year, the entity would disclose the effect on profit or loss (that is, interest expense) for the current year if interest rates had varied by reasonably possible amounts.

b. Entities are not required to disclose the effect on profit or loss and equity for each change within a range of reasonably possible changes of the relevant risk variable. Disclosure of the effects of the changes at the limits of the reasonably possible range are sufficient.

In determining what a reasonably possible change in the relevant risk variable is, the entity considers the following:

a. The economic environments in which it operates. A reasonably possible change does not include remote or ‘worst case’ scenarios or ‘stress tests’. Moreover, if the rate of change in the underlying risk variable is stable, the entity need not alter the chosen reasonably possible change in the risk variable. The entity discloses the effect on profit or loss and equity if interest rates were to change to 5% or 6%. The entity is not required to revise its assessment that interest rates might reasonably fluctuate, unless there is evidence that interest rates have become significantly more volatile.

b. The time frame over which it is making the assessment. The sensitivity analysis shows the effects of changes that are considered reasonably possible over the period until the entity will next present these disclosures, which is usually its next annual reporting period.

If the entity prepares a sensitivity analysis, such as a value-at-risk, that reflects interdependencies between risk variables (for example, interest rates and exchange rates) and uses it to manage financial risks, it may use that sensitivity analysis in place of the analysis in IFRS 7.40 above. If the entity uses such a sensitivity analysis does the entity also explain:

a. The method used in preparing such a sensitivity analysis, and the main parameters and assumptions underlying the data

b. The objective of the method used and limitations that may result in the information not fully reflecting the fair value of the assets and liabilities involved

Currency risk

Currency risk does not arise from financial instruments that are non-monetary items or from financial instruments denominated in the functional currency. An entity discloses a sensitivity analysis for each currency to which it has significant exposure.

Other price risk

Other price risk arises on financial instruments because of changes in, for example, commodity prices or equity prices. To comply with IFRS 7.40, the entity might disclose the effect of a decrease in a specified stock market index, commodity price, or other risk variable. For example, if an entity gives residual value guarantees that are financial instruments, the entity discloses an increase or decrease in the value of the assets to which the guarantee applies.

Two examples of financial instruments that give rise to equity price risk are a holding of equities in another entity and an investment in a trust, which in turn, holds investments in equity instruments. The fair values of such financial instruments are affected by changes in the market price of the underlying equity instruments.

Under IFRS 7.40(a), the sensitivity of profit or loss (that arises, for example, from investments measured at fair value through profit or loss) is disclosed separately from the sensitivity of other comprehensive income (that arises, for example, from investments in equity instruments whose changes in fair value are presented in other comprehensive income).

Financial instruments that the entity classifies as equity instruments are not remeasured. Neither profit or loss or equity will be affected by the equity price risk of those instruments. Accordingly, no sensitivity analysis is required.

Other market risk disclosures

If the sensitivity analyses in IFRS 7.40 or 41 above are unrepresentative of a risk inherent in a financial instrument (for example, because the exposure at the end of the reporting period does not reflect the exposure during the reporting period), does the entity disclose that fact and the reason it believes the sensitivity analyses are
The entity discloses additional information if the sensitivity analysis is unrepresentative of a risk inherent in a financial instrument. For example, this can occur if:

a. A financial instrument contains terms and conditions whose effects are not apparent from the sensitivity analysis. For example, options that remain out of (or in) the money for the chosen change in the risk variable.

b. Financial assets are illiquid. For example, if there is a low volume of transactions in similar assets and the entity finds it difficult to find a counterparty.

Or

c. The entity has a large holding of a financial asset that, if sold in its entirety, would be sold at a discount or premium to the quoted market price for a smaller holding.

Puttable instruments and other similar instruments classified as equity

If the entity reclassifies:

➢ A puttable financial instrument classified as an equity instrument

Or

➢ An instrument that imposes on the entity an obligation to deliver to another party a pro rata share of the net assets of the entity only on liquidation, and is classified as an equity instrument between financial liabilities and equity, does it disclose:

a. The amount reclassified into and out of each category (financial liabilities or equity)

b. The timing of the reclassification

c. The reason for the reclassification

For puttable financial instruments classified as equity instruments, does the entity disclose:

a. Summary quantitative data about the amount classified as equity

b. Its objectives, policies and processes for managing its obligation to repurchase or redeem the instruments if required to do so by the instrument holders, including any changes from the previous period

c. The expected cash outflow on redemption or repurchase of that class of financial instruments

d. Information about how the expected cash outflow on redemption or repurchase was determined

If the entity is a limited life entity, does it disclose the length of its life

Offset Financial Assets and Financial Liabilities

When an entity has the right to receive or pay a single net amount and intends to do so, it has, in effect, only a single financial asset or financial liability. In other circumstances, financial assets and financial liabilities are presented separately from each other consistently with their characteristics as resources or obligations of the entity.

Disclosures below also apply to recognised financial instruments that are subject to an enforceable master netting arrangement or similar agreement, irrespective of whether they are set off in accordance with paragraph 42 of IAS 32.

The amendments to the IFRS 7 Disclosures-Offsetting Financial Assets and Financial Liabilities include the below disclosures and is applicable for annual periods beginning on or after 1 January 2013 and interim periods within those annual periods. These IFRS 7 amendments do not include any mention to early application permission.

Nevertheless IAS 32 Amendment, Offsetting Financial Assets and Financial Liabilities, although mandatory for annual periods beginning on or after 1 January 2014, permits its early application with the requirement of including the disclosures included in the amendments to IFRS 7.

If an entity adopt the amendments to the IFRS 7 Disclosures-Offsetting Financial Assets and Financial Liabilities, items in this section must be disclosed.
And

- Amounts related to financial collateral (including cash collateral)
- The net amount after deducting the amounts in (d) from the amounts in c. above

Does the entity disclose a description of the rights of set-off associated with the entity’s recognised financial assets and recognised financial liabilities subject to enforceable master netting arrangements and similar agreements that are disclosed in accordance with IFRS 7.13C(d) above, including the nature of those rights?

New 562 IFRS 7.13F

Does the entity cross-reference the information of IFRS 7.13B-13E above if it is disclosed in more than one note to the financial statements?

New 563 IFRIC 19.11

Does the entity disclose a gain or loss recognised in accordance with paragraphs 9 and 10 of IFRIC 19 as a separate line item in profit or loss or in the notes?

IFRIC 19 provides guidance for the accounting when an entity renegotiates terms of a liability, with the result that a debtor extinguishes a financial liability fully or partially by issuing equity instruments to the creditor.

New 564 IFRS 9.7.2.14

Transition requirements for adoption of IFRS 9 (issued in 2010) depend on the date of initial application:

a. If the first application is made in a reporting period beginning on or after 1 January 2012 and before 1 January 2013 does the entity either provide the disclosures set out in IFRS 7.44T-44U below or restate prior periods
b. If the first application is made in a reporting period beginning on or after 1 January 2013 does the entity provide the disclosures set out in IFRS 7.44T-44U below and not restate prior periods

New 565 IFRS 7.44I

When an entity first applies IFRS 9 (issued in 2010) for each class of financial assets and financial liabilities at the date of initial application, does the entity disclose in tabular format unless another format is more appropriate:

a. The original measurement category and carrying amount determined in accordance with IAS 39
b. The new measurement category and carrying amount determined in accordance with IFRS 9 (issued in 2010)
c. The amount of any financial assets and financial liabilities in the statement of financial position that were previously designated as measured at fair value through profit or loss, but are no longer so designated, distinguishing between those that IFRS 9 (issued in 2010) requires an entity to reclassify and those that an entity reclassifies

New 566 IFRS 7.44J

When an entity first applies IFRS 9 (issued in 2010), does the entity disclose qualitative information to enable users to understand:

a. How it applied the classification requirements in IFRS 9 (issued in 2010) to those financial assets whose classification changed as a result of applying IFRS 9 (issued in 2010)
b. The reasons for any designation or de-designation of financial assets or financial liabilities as measured at fair value through profit or loss

Disclosures required in this section below are just required (IFRS 9.7.2.14 – see item 564, above) in the annual period in which IFRS 9 (issued in 2010) is initially applied and are not required after that annual period.

New 567 IFRS 7.44T

At the date of initial application of IFRS 9 (issued in 2010) (if required by IFRS 9 7.2.14, see IFRS 9.7.2.14 above) does the entity disclose the changes in the classifications of financial assets and financial liabilities, showing separately:

a. The changes in the carrying amounts on the basis of their measurement categories in accordance with IAS 39 (ie not resulting from a change in measurement attribute on transition to IFRS 9 (issued in 2010))
b. The changes in the carrying amounts arising from a change in measurement attribute on transition to IFRS 9 (issued in 2010)

Disclosures required in IFRS 7.44U below are just required in the reporting period of the initial application of IFRS 9 (issued in 2010). However if an entity treats the fair value of a financial asset or financial liability as its amortised cost at the date of initial application, the disclosures in IFRS 7.44U(c) and 44U(d) shall be made for each reporting period following reclassification until derecognition.

New 568 IFRS 7.44U

In the reporting period in which IFRS 9 (issued in 2010) is initially applied, does the entity disclose the following information for financial assets and financial liabilities that have been reclassified so that they are measured at amortised cost as a result of the transition:

a. The fair value of the financial assets and financial liabilities at the end of the reporting period
b. The fair value gain or loss that would have been recognised in profit or loss or other comprehensive income during the reporting period if the financial assets and financial liabilities had not been reclassified

c. The effective interest rate determined on the date of reclassification

d. The interest income or expense recognised

If an entity presents the disclosures set out in IFRS 7.44T-44U above at the date of initial application of IFRS 9 (issued in 2010), do those disclosures, and the disclosures in Item 12.1 during the reporting period containing the date of initial application, permit reconciliation between:

a. The measurement categories in accordance with IAS 39 and IFRS 9 (issued in 2010)

Yes No N/A

If an entity presents the disclosures set out in IFRS 7.44T-44U above at the date of initial application of IFRS 9, do those disclosures, and the disclosures in Items 462 and 213 during the reporting period containing the date of initial application, permit reconciliation of:

a. The measurement categories presented in accordance with IAS 39 and IFRS 9 (issued in 2010)

Yes No N/A

b. The class of financial instrument at the date of initial application

Yes No N/A

Adoption of IFRS 10 Consolidated Financial Statements

An entity must apply this IFRS for annual periods beginning on or after 1 January 2013. Earlier application is permitted. If an entity applies this IFRS earlier, it must disclose that fact and apply IFRS 11, IFRS 12, IAS 27 Separate Financial Statements and IAS 28 (as amended in 2011) at the same time.

IFRS 10 C2 - C5A below were added in June 2012 by Consolidated Financial Statements, Joint Arrangements and Disclosure of Interests in Other Entities: Transition Guidance (Amendments to IFRS 10, IFRS 11 and IFRS 12). Entities must apply these amendments for annual periods beginning on or after 1 January 2013.

An entity must apply this IFRS for an earlier period, it must apply those amendments for that earlier period.

Notwithstanding the requirements of paragraph 28 of IAS 8, when this IFRS is first applied, an entity need only present the quantitative information required by paragraph 28(d) of IAS 8 for the annual period immediately preceding the date of initial application of this IFRS (the 'immediately preceding period'). An entity may also present this information for the current period or for earlier comparative periods, but is not required to do so.

For the purposes of this IFRS, the date of initial application is the beginning of the annual reporting period for which this IFRS is applied for the first time.

At the date of initial application, an entity is not required to make adjustments to the previous accounting for its involvement with either:

(a) Entities that would be consolidated at that date in accordance with IAS 27 Consolidated and Separate Financial Statements and SIC-12 Consolidation—Special Purpose Entities and, are still consolidated in accordance with this IFRS or

(b) Entities that would not be consolidated at that date in accordance with IAS 27 and SIC-12 and, are not consolidated in accordance with this IFRS

If, at the date of initial application, an investor concludes that it must consolidate an investee that was not consolidated in accordance with IAS 27 and SIC-12, the investor must:

(a) if the investee is a business (as defined in IFRS 3 Business Combinations), measure the assets, liabilities and non-controlling interests in that previously unconsolidated investee as if that investee had been consolidated (and thus had applied acquisition accounting in accordance with IFRS 3) from the date when the investor obtained control of that investee on the basis of the requirements of this IFRS. The investor must adjust retrospectively the annual period immediately preceding the date of initial application. When the date that control was obtained is earlier than the beginning of the immediately preceding period, the investor must recognise, as an adjustment to equity at the beginning of the immediately preceding period.

(b) if the investee is not a business (as defined in IFRS 3), measure the assets, liabilities and non-controlling interests in that previously unconsolidated investee as if that investee had been consolidated (applying the acquisition method as described in IFRS 3 but without recognising any goodwill for the investee) from the date when the investor obtained control of that investee on the basis of the requirements of this IFRS. The investor must adjust retrospectively the annual period immediately preceding the date of initial application. When the date that control was obtained is earlier than the beginning of the immediately preceding period, the investor must recognise, as an adjustment to equity at the beginning of the immediately preceding period.
Any difference between:
(i) the amount of assets, liabilities and non-controlling interests recognised; and
(ii) the previous carrying amount of the investor's involvement with the investee.

When an investor applies paragraphs C4-C4A and the date that control was obtained in accordance with this IFRS is later than the effective date of IFRS 3 as revised in 2008 (IFRS 3 (2008)), the reference to IFRS 3 in paragraphs C4 and C4A must be to IFRS 3 (2008). If control was obtained before the effective date of IFRS 3 (2008), an investor must apply either IFRS 3 (2008) or IFRS 3 (issued in 2004).

When an investor applies paragraphs C4-C4A and the date that control was obtained in accordance with this IFRS is later than the effective date of IAS 27 as revised in 2008 (IAS 27 (2008)), an investor must apply the requirements of this IFRS for all periods that the investee is retrospectively consolidated in accordance with paragraphs C4-C4A. If control was obtained before the effective date of IAS 27 (2008), an investor must apply either:
(a) The requirements of this IFRS for all periods that the investee is retrospectively consolidated in accordance with paragraphs C4-C4A
Or
(b) The requirements of the version of IAS 27 issued in 2003 (IAS 27 (2003)) for those periods prior to the effective date of IAS 27 (2008) and thereafter the requirements of this IFRS for subsequent periods.

If, at the date of initial application, an investor concludes that it will no longer consolidate an investee that was consolidated in accordance with IAS 27 and SIC-12, the investor must measure its interest in the investee at the amount at which it would have been measured if the requirements of this IFRS had been effective when the investor became involved with (but did not obtain control in accordance with this IFRS), or lost control of, the investee. The investor must adjust retrospectively the annual period immediately preceding the date of initial application. When the date that the investor became involved with (but did not obtain control in accordance with this IFRS), or lost control of, the investee is earlier than the beginning of the immediately preceding period, the investor must recognise, as an adjustment to equity at the beginning of the immediately preceding period, any difference between:
(a) The previous carrying amount of the assets, liabilities and non-controlling interests
And
(b) The recognised amount of the investor's interest in the investee

If measuring the interest in the investee in accordance with paragraph C5 is impracticable (as defined in IAS 8), an investor must apply the requirements of this IFRS for accounting for a loss of control at the beginning of the earliest period for which application of this IFRS paragraph C5 is practicable, which may be the current period. The investor must adjust retrospectively the annual period immediately preceding the date of initial application, unless the beginning of the earliest period for which application of this paragraph is practicable is the current period. When the date that the investor became involved with (but did not obtain control in accordance with this IFRS), or lost control of, the investee is earlier than the beginning of the immediately preceding period, the investor must recognise, as an adjustment to equity at the beginning of the immediately preceding period, any difference between:
(a) The previous carrying amount of the assets, liabilities and non-controlling interests
And
(b) The recognised amount of the investor's interest in the investee

If the earliest period for which application of this paragraph is practicable is the current period, the adjustment to equity must be recognised at the beginning of the current period.
Adoption of IFRS 11 Joint Arrangements

**IFRS 11 C1**

An entity must apply IFRS 11 for annual periods beginning on or after 1 January 2013. Earlier application is permitted. If an entity applies IFRS 11 earlier, it must apply IFRS 10, IFRS 12, IAS 27 (as amended in 2011) and IAS 28 (as amended in 2011) at the same time.

IFRS 11 C1B, C7 and C9 below were added in June 2012 by Consolidated Financial Statements, Joint Arrangements and Disclosure of Interests in Other Entities: Transition Guidance (Amendments to IFRS 10, IFRS 11 and IFRS 12). Entities must apply these amendments for annual periods beginning on or after 1 January 2013. Earlier application is permitted. If an entity applies IFRS 11 for an earlier period, it must apply those amendments for that earlier period.

Notwithstanding the requirements of paragraph 28 of IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors, when this IFRS is first applied, an entity need only present the quantitative information required by paragraph 28(f) of IAS 8 for the annual period immediately preceding the first annual period for which IFRS 11 is applied (the 'immediately preceding period'). An entity may also present this information for the current period or for earlier comparative periods, but is not required to do so.

**IFRS 11 C2**

When changing from proportionate consolidation to the equity method, an entity must recognise its investment in the joint venture as at the beginning of the immediately preceding period. That initial investment must be measured as the aggregate of the carrying amounts of the assets and liabilities that the entity had previously proportionately consolidated, including any goodwill arising from acquisition. If the goodwill previously belonged to a larger cash-generating unit, or to a group of cash-generating units, the entity must allocate goodwill to the joint venture on the basis of the relative carrying amounts of the joint venture and the cash-generating unit or group of cash-generating units to which it belonged.

The opening balance of the investment determined in accordance with paragraph C2 is regarded as the deemed cost of the investment at initial recognition. An entity shall apply IAS 28.40-43 (as amended in 2011) to the opening balance of the investment to assess whether the investment is impaired and shall recognise any impairment loss as an adjustment to retained earnings at the beginning of the earliest immediately preceding period presented. The initial recognition exception in IFRS 12.15 and 24 does not apply when the entity recognises an investment in a joint venture resulting from applying the transition requirements for joint ventures that had previously been proportionately consolidated.

**IFRS 11 C4**

Does the entity disclose, when changing from proportionate consolidation to equity method and all previously proportionately consolidated assets and liabilities results in negative net assets, but the entity does not have legal or constructive obligations in relation to these negative net assets:

- a. This fact and the adjustment made to retained earnings at the beginning of the immediately preceding period
- b. Its cumulative unrecognised share of losses of its joint ventures as at the beginning of the immediately preceding period and at the date at which IFRS 11 is first applied
- c. Does the entity disclose a breakdown of the assets and liabilities that have been aggregated into the single line investment balance as at the beginning of the earliest period presented. That disclosure shall be prepared in an aggregated manner for all joint ventures for which an entity applies the transition requirements referred to in IFRS 11.C2–C6

**IFRS 11 C7**

When changing from the equity method to accounting for assets and liabilities in respect of its interest in a joint operation, an entity must, at the beginning of the earliest immediately preceding period presented, derecognise the investment that was previously accounted for using the equity method and any other items that formed part of the entity’s net investment in the arrangement in accordance with paragraph 38 of IAS 28 (as amended in 2011) and recognise its share of each of the assets and the liabilities in respect of its interest in the joint operation, including any goodwill that might have formed part of the carrying amount of the investment.

An entity shall determine its interest in the assets and liabilities relating to the joint operation on the basis of its rights and obligations in a specified proportion in accordance with the contractual arrangement. An entity measures the initial carrying amounts of the assets and liabilities by disaggregating them from the carrying amount of the investment at the beginning of the earliest immediately preceding period presented on the basis of the information used by the entity in applying the equity method.

**Adoption of IFRS 12 Disclosure of Interests in Other Entities**

IFRS 12 provides guidance for disclosures for the interests of an entity in subsidiaries, joint arrangements (joint ventures or joint operations), associates and unconsolidated structured entities (former special purpose entities). The application date for IFRS 12 is for annual periods beginning on or after 1 January 2013, but early application is permitted. IFRS 12 encourages entities to provide the information required by the standard before the mandatory application date. If an entity early applies any of the disclosures in IFRS 12, it does not require the entity to comply with the entire standard.

IFRS 12 C2A and C2B below were added in June 2012 by Consolidated Financial Statements, Joint Arrangements and Disclosure of Interests in Other Entities: Transition Guidance (Amendments to IFRS 10, IFRS 11 and IFRS 12). Entities must apply these amendments for annual periods beginning on or after 1 January 2013. Earlier application is permitted. If an entity applies IFRS 11 for an earlier period, it must apply those amendments for that earlier period.

Disclosure requirements included in IFRS 12 replace those included in IAS 27, IAS 28, IAS 31, SIC 12 and SIC 13. Disclosures detailed below could also be included under the captions "Consolidated financial statements", "Investments in Associates" and "Interests in Joint Ventures" of this checklist. Below are presented all IFRS 12 disclosures, even if they are also included in those captions. This is to assist an entity that early adopts IFRS 10 and, consequently, IFRS 11, IAS 27 (amended in 2011), IAS 28 (amended in 2011) and IFRS 12.

Disclosure made

| New 579 | IFRS 12.9 | Does the entity disclose significant judgements and assumptions made in determining that:
| a. It does not control another entity even though it holds more than half of the voting rights of the other entity
| b. It controls another entity even though it holds less than half of the voting rights of the other entity
| c. It is an agent or a principal |
| □ | □ | □ |

An agent is a party primarily engaged to act on behalf and for the benefit of another party or parties (the principal(s)). Therefore it does not control the investee when it exercises its decision-making authority. Thus, sometimes a principal’s power may be held and exercisable by an agent, but on behalf of the principal. A decision maker is not an agent simply because other parties can benefit from the decisions that it makes.

| New 580 | IFRS 12.10 | Does the entity disclose enough information for a user of financial statements to understand the composition of the group |
| □ | □ | □ |

| New 581 | IFRS 12.11 | When the financial statements of a subsidiary used in the preparation of consolidated financial statements are as of a date or for a period that is different from that of the consolidated financial statements, does it provide the following information:
| a. The date of the end of the reporting period of the financial statements of that subsidiary
| And
| b. The reason for using a different date or period. |
| □ | □ | □ |

**Non-controlling Interests**

| New 582 | IFRS 12.12 | Does the entity disclose for each of its subsidiaries that have non-controlling interests that are material to the reporting entity:
| a. The name of the subsidiary
| b. The principal place of business (and country of incorporation if different from the principal place of business) of the subsidiary
| c. The proportion of ownership interests held by non-controlling interests
| d. The proportion of voting rights held by non-controlling interests, if different from the proportion of ownership interests held
| e. The profit or loss allocated to non-controlling interests of the subsidiary during the reporting period
| f. Accumulated non-controlling interests of the subsidiary at the end of the reporting period
| g. Summarised financial information about the subsidiary that enables users to understand the interest that non-controlling interests have in the group’s activities and cash flows. This information (before intercompany eliminations) shall include:
| i Dividends paid to non-controlling interests
| ii Summarised financial information that might include but is not limited to:
| ▶ Current assets
| ▶ Non-current assets
| ▶ Current liabilities
| ▶ Non-current liabilities
| ▶ Revenue
| ▶ Profit or loss
| ▶ Total comprehensive income |
| □ | □ | □ |

When an entity’s interest in a subsidiary is classified as held for sale in accordance with IFRS 5 Non-current Assets Held for Sale and Discontinued Operations, the entity is not required to disclose summarised financial information for the subsidiary.

**Restrictions**

| New 583 | IFRS 12.13 a) | Does the entity disclose those circumstances that restrict the ability of a parent or its subsidiaries to transfer cash or other assets to (or from) other entities within the group |
| □ | □ | □ |

| New 584 | IFRS 12.13 a) | Does the entity disclose guarantees or other requirements that may restrict dividends and other capital distributions being paid, or loans and advances being made or repaid, to (or from) other entities within the group |
| □ | □ | □ |

| New 585 | IFRS 12.13 b) | Does the entity disclose the nature and extent to which protective rights of non-controlling interests can significantly restrict the entity’s ability to access or use the assets and settle the liabilities of the group |
| □ | □ | □ |

| New 586 | IFRS 12.13 c) | Does the entity disclose the carrying amounts in the consolidated financial statements of the assets and liabilities to which the above mentioned restrictions apply |
| □ | □ | □ |

**Other disclosures for subsidiaries**

| New 587 | IFRS 12.18 | Does the entity present a schedule that shows the effects on the equity attributable to owners of the parent of any changes in its ownership interest in a subsidiary that do not result in a loss of control |
| □ | □ | □ |
When an entity loses control of a subsidiary, does the entity disclose

a. The gain or loss (calculated in accordance with IFRS 10.25)

b. The portion of that gain or loss attributable to measuring any investment retained in the former subsidiary at its fair value at the date when control is lost

And

c. The line item(s) in profit or loss in which the gain or loss is recognised (if not presented separately)

If a parent loses control of a subsidiary, the parent:

(a) Derecognises the assets and liabilities of the former subsidiary from the consolidated statement of financial position.

(b) Recognises any investment retained in the former subsidiary at its fair value when control is lost and subsequently accounts for it and for any amounts owed by or to the former subsidiary in accordance with relevant IFRS. That fair value shall be regarded as the fair value on initial recognition of a financial asset in accordance with IFRS 9 or, when appropriate, the cost on initial recognition of an investment in an associate or joint venture.

(c) Recognises the gain or loss associated with the loss of control attributable to the former controlling interest.

Joint Arrangements

Does the entity disclose information about significant judgements and assumptions it has made (and changes to those judgements and assumptions) in determining:

a. That it has joint control of an arrangement

And

b. The type of joint arrangement (i.e. joint operation or joint venture) when the arrangement has been structured through a separate vehicle

When an entity has rights to the assets, and obligations for the liabilities, relating to the arrangement, the arrangement is a joint operation. When an entity has rights to the net assets of the arrangement, the arrangement is a joint venture. A joint arrangement that is not structured through a separate vehicle is a joint operation.

A separate vehicle is a separately identifiable financial structure, including separate legal entities or entities recognised by statute, regardless of whether those entities have a legal personality. A joint arrangement in which the assets and liabilities relating to the arrangement are held in a separate vehicle can be either a joint venture or a joint operation. Whether a party is a joint operator or a joint venturer depends on the party’s rights to the assets, and obligations for the liabilities, relating to the arrangement that are held in the separate vehicle. When the parties have structured a joint arrangement in a separate vehicle, the parties need to assess whether the legal form of the separate vehicle, the terms of the contractual arrangement and, when relevant, any other facts and circumstances give them:

(a) Rights to the assets, and obligations for the liabilities, relating to the arrangement (i.e., the arrangement is a joint operation)

Or

(b) Rights to the net assets of the arrangement (i.e., the arrangement is a joint venture)

A joint operator must recognise in relation to its interest in a joint operation:

- Its assets, including its share of any assets held jointly
- Its liabilities, including its share of any liabilities incurred jointly
- Its revenue from the sale of its share of the output arising from the joint operation
- Its share of the revenue from the sale of the output by the joint operation

And

- Its expenses, including its share of any expenses incurred jointly

A joint operator must account for the assets, liabilities, revenues and expenses relating to its interest in a joint operation in accordance with the IFRSs applicable to the particular assets, liabilities, revenues and expenses.

IFRS 12 provides guidance for disclosures relating to Joint Ventures. Disclosures relating to Joint Operations are the disclosures related to the assets and liabilities of the joint operation. Consideration needs to be given to each of the corresponding assets and liabilities captions of this checklist.

Does the entity include under significant judgements and assumptions mentioned in IFRS 12.7 above, those made by the entity when changes in facts and circumstances are such that the conclusion about whether it has joint control changes during the reporting period?

Does the entity disclose for each joint arrangement that is material to the reporting entity:

a. The name of the joint arrangement
b. The nature of the entity’s relationship with the joint arrangement (by, for example, describing the nature of the activities of the joint arrangement and whether they are strategic to the entity’s activities)

c. The principal place of business (and country of incorporation, if applicable and different from the principal place of business) of the joint arrangement

d. The proportion of ownership interest or participating share held by the entity and, if different, the proportion of voting rights held (if applicable)

New 599 IFRS 12 B17

When an entity’s interest in a joint venture (or a portion of its interest in a joint venture) is classified as held for sale in accordance with IFRS 5 Non-current Assets Held for Sale and Discontinued Operations, the entity is not required to disclose summarised financial information for it.
**Commitments for Joint Ventures**

Does the entity disclose the following unrecognised commitments that may give rise to a future outflow of cash or other resources:

a. Unrecognised commitments to contribute funding or resources as a result of, for example:
   - The constitution or acquisition agreements of a joint venture (that, for example, require an entity to contribute funds over a specific period)
   - Capital-intensive projects undertaken by a joint venture
   - Unconditional purchase obligations, comprising procurement of equipment, inventory or services that an entity is committed to purchasing from, or on behalf of, a joint venture
   - Unrecognised commitments to provide loans or other financial support to a joint venture
   - Unrecognised commitments to contribute resources to a joint venture, such as assets or services
   - Other non-cancellable unrecognised commitments relating to a joint venture

b. Unrecognised commitments to acquire another party’s ownership interest (or a portion of that ownership interest) in a joint venture if a particular event occurs or does not occur in the future

**Other disclosures for Joint Ventures**

Does the entity disclose:

a. The nature and extent of any significant restrictions (e.g., resulting from borrowing arrangements, regulatory requirements or contractual arrangements between investors with joint control of a joint venture) on the ability of joint ventures to transfer funds to the entity in the form of cash dividends, or to repay loans or advances made by the entity

b. When the financial statements of a joint venture used in applying the equity method are as of a date or for a period that is different from that of the entity:
   - The date of the end of the reporting period of the financial statements of that joint venture
   - The reason for using a different date or period

**Associates**

Does the entity disclose information about significant judgements and assumptions it has made (and changes to those judgements and assumptions) in determining if it has significant influence over another entity

Does the entity include under significant judgements and assumptions mentioned in IFRS 12.7 above, those made by the entity when changes in facts and circumstances are such that the conclusion about whether it has significant influence changes during the reporting period

Does the entity disclose significant judgements and assumptions made in determining that:

a. It does not have significant influence even though it holds 20 per cent or more of the voting rights of another entity

b. It has significant influence even though it holds less than 20 per cent of the voting rights of another entity

Does the entity disclose for each associate that is material to the reporting entity:

a. The name of the associate

b. The nature of the entity’s relationship with the associate (by, for example, describing the nature of the activities of the associate and whether they are strategic to the entity’s activities)

c. The principal place of business (and country of incorporation, if applicable and different from the principal place of business) of the associate

d. The proportion of ownership interest or participating share held by the entity and, if different, the proportion of voting rights held (if applicable)

Does the entity disclose for each associate that is material to the reporting entity:

a. Whether the investment in the associate is measured using the equity method or at fair value
b. The following financial information (as a minimum):
   ▶ Dividends received from the associate.
   ▶ Current assets
   ▶ Non-current assets
   ▶ Current liabilities
   ▶ Non-current liabilities
   ▶ Revenue
   ▶ Profit or loss from continuing operations
   ▶ Post-tax profit or loss from discontinued operations
   ▶ Other comprehensive income
   ▶ Total comprehensive income

c. If the associate is accounted for using the equity method, the fair value of its investment in the associate, if there is a quoted market price for the investment

## Structured Entities (former Special Purpose Entities)

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements.

A structured entity often has some or all of the following features or attributes:

1. **Restricted activities**
2. **A narrow and well-defined objective**, such as to effect a tax-efficient lease, carry out research and development activities, provide a source of capital or funding to an entity or provide investment opportunities for investors by passing on risks and rewards associated with the assets of the structured entity to investors
3. **Insufficient equity to permit the structured entity to finance its activities without subordinated financial support**
4. **Financing in the form of multiple contractually linked instruments to investors that create concentrations of credit or other risks (tranches)**

If structured entities are consolidated because they are controlled, they are subject to the same disclosure requirements as subsidiaries. In addition there are certain further disclosure requirements detailed below.

### New 615 IFRS 12.14

Does the entity disclose the terms of any contractual arrangements that could require the parent or its subsidiaries to provide financial support to a consolidated structured entity, including events or circumstances that could expose the reporting entity to a loss (e.g., liquidity arrangements or credit rating triggers associated with obligations to purchase assets of the structured entity or provide financial support)?

### New 616 IFRS 12.15

If during the reporting period a parent or any of its subsidiaries has, without having a contractual obligation to do so, provided financial or other support to a consolidated structured entity (e.g., purchasing assets of or instruments issued by the structured entity), does the entity disclose:

- a. The type and amount of support provided, including situations in which the parent or its subsidiaries assisted the structured entity in obtaining financial support
- b. The reasons for providing the support

### New 617 IFRS 12.16

If, during the reporting period, a parent or any of its subsidiaries has, without having a contractual obligation to do so, provided financial or other support to a previously unconsolidated structured entity and that provision of support resulted in the entity controlling the structured entity, does the entity disclose an explanation of the relevant factors in reaching that decision?

### New 618 IFRS 12.17

Does the entity disclose any current intentions to provide financial or other support to a consolidated structured entity, including intentions to assist the structured entity in obtaining financial support?

### Unconsolidated Structured Entities

### New 619 IFRS 12.26

Does the entity disclose qualitative and quantitative information about its interests in unconsolidated structured entities, including, but not limited to, the nature, purpose, size and activities of the structured entity and how the structured entity is financed?

### New 620 IFRS 12.27

If an entity has sponsored an unconsolidated structured entity for which it does not provide information (e.g., because it does not have an interest in the entity at the reporting date), does the entity disclose:

- a. How it has determined which structured entities it has sponsored
- b. Income from those structured entities during the reporting period, including a description of the types of income presented
- c. The carrying amount (at the time of transfer) of all assets transferred to those structured entities during the reporting period

### New 621 IFRS 12.29

Does the entity (in tabular format unless another format is more appropriate) disclose a summary of:

- a. The carrying amounts of the assets and liabilities recognised in its financial statements relating to its interests in unconsolidated structured entities
- b. The line items in the statement of financial position in which those assets and liabilities are recognised
- c. The amount that best represents the entity's maximum exposure to loss from its interests in unconsolidated structured entities, including how the maximum exposure to loss is determined, unless the entity cannot quantify its maximum exposure to loss from its interests in unconsolidated structured entities, then that fact and the reasons
- d. A comparison of the carrying amounts of the assets and liabilities of the entity that relate to its interests in unconsolidated structured entities and the entity's maximum exposure to loss from those entities
Does the entity disclose the following additional information that, depending on the circumstances, might be relevant to an assessment of the risks to which an entity is exposed when it has an interest in an unconsolidated structured entity:

a. The terms of an arrangement that could require the entity to provide financial support to an unconsolidated structured entity (e.g., liquidity arrangements or credit rating triggers associated with obligations to purchase assets of the structured entity or provide financial support), including:
   - A description of events or circumstances that could expose the reporting entity to a loss
   - Whether there are any terms that would limit the obligation
   - Whether there are any other parties that provide financial support and, if so, how the reporting entity’s obligation ranks with those of other parties

b. Losses incurred by the entity during the reporting period relating to its interests in unconsolidated structured entities

c. The types of income the entity received during the reporting period from its interests in unconsolidated structured entities

d. Whether the entity is required to absorb losses of an unconsolidated structured entity before other parties, the maximum limit of such losses for the entity, and (if relevant) the ranking and amounts of potential losses borne by parties whose interests rank lower than the entity’s interest in the unconsolidated structured entity

e. Information about any liquidity arrangements, guarantees or other commitments with third parties that may affect the fair value or risk of the entity’s interests in unconsolidated structured entities

f. Any difficulties an unconsolidated structured entity has experienced in financing its activities during the reporting period

g. Information about any liquidity arrangements, guarantees or other commitments with third parties that may affect the fair value or risk of the entity’s interests in unconsolidated structured entities

If, during the reporting period, the entity has, without having a contractual obligation to do so, provided financial or other support to an unconsolidated structured entity in which it previously had or currently has an interest (for example, purchasing assets of or instruments issued by the structured entity), does the entity disclose:

a. The type and amount of support provided, including situations in which the entity assisted another entity in obtaining financial support

And

b. The reasons for providing the support

Does the entity disclose any current intentions to provide financial or other support to an unconsolidated structured entity, including intentions to assist the structured entity in obtaining financial support

If an entity early adopts IFRS 12, it must also adopt the amendments relating to IFRS 10, IFRS 12, and IAS 27, Investment Entities

Investment entity status

A parent shall determine whether it is an investment entity. An investment entity is an entity that:

(a) obtains funds from one or more investors for the purpose of providing those investors with investment management services

(b) commits to its investor(s) that its business purpose is to invest funds solely for returns from capital appreciation, investment income, or both

(c) measures and evaluates the performance of substantially all of its investments on a fair value basis

Investment Entities (Amendments to IFRS 10, IFRS 12 and IAS 27), issued in October 2012, was issued in October 2012. An entity shall apply those amendments for annual periods beginning on or after 1 January 2014. Early application is permitted. If an entity applies those amendments earlier, it shall disclose that fact and apply all amendments included in Investment Entities at the same time

When a parent determines that it is an investment entity in accordance with IFRS 10.27, does the investment entity disclose information about significant judgements and assumptions it has made in determining that it is an investment entity

If the investment entity does not have one or more of the typical characteristics of an investment entity (see IFRS 10.28), does the entity disclose its reasons for concluding that it is nevertheless an investment entity

When an entity becomes, or ceases to be, an investment entity, does the entity...
disclose the change of investment entity status and the reasons for the change

When, an entity becomes an investment entity, does the entity disclose the effect of the change of status on the financial statements for the period presented, including:

a. The total fair value, as of the date of change of status, of the subsidiaries that cease to be consolidated

b. The total gain or loss, if any, calculated in accordance with IFRS 10.B101

c. The line item(s) in profit or loss in which the gain or loss is recognised (if not presented separately)

### Interests in unconsolidated subsidiaries (investment entities)

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
</table>

**New 627** IFRS 12.19A

Does an investment entity that, in accordance with IFRS 10, is required to apply the exception to consolidation and instead account for its investment in a subsidiary at fair value through profit or loss disclose that fact

**New 628** IFRS 12.19B

For each unconsolidated subsidiary, does an investment entity disclose:

a. The subsidiary's name

b. The principal place of business (and country of incorporation if different from the principal place of business) of the subsidiary

c. The proportion of ownership interest held by the investment entity and, if different, the proportion of voting rights held

**New 629** IFRS 12.19C

If an investment entity is the parent of another investment entity, does the parent provide the disclosures in IFRS 12.19B(a)–(c) above for investments that are controlled by its investment entity subsidiary

**New 630** IFRS 12.19D

Does an investment entity disclose:

a. The nature and extent of any significant restrictions (e.g., resulting from borrowing arrangements, regulatory requirements or contractual arrangements) on the ability of an unconsolidated subsidiary to transfer funds to the investment entity in the form of cash dividends or to repay loans or advances made to the unconsolidated subsidiary by the investment entity

b. Any current commitments or intentions to provide financial or other support to an unconsolidated subsidiary, including commitments or intentions to assist the subsidiary in obtaining financial support

If, during the reporting period, an investment entity or any of its subsidiaries has, without having a contractual obligation to do so, provided financial or other support to an unconsolidated subsidiary (e.g., purchasing assets of, or instruments issued by, the subsidiary or assisting the subsidiary in obtaining financial support), does the entity disclose:

a. The type and amount of support provided to each unconsolidated subsidiary

b. The reasons for providing the support

**New 631** IFRS 12.19E

Does an investment entity disclose the terms of any contractual arrangements that could require the entity or its unconsolidated subsidiaries to provide financial support to an unconsolidated, controlled, structured entity, including events or circumstances that could expose the reporting entity to a loss (e.g., liquidity arrangements or credit rating triggers associated with obligations to purchase assets of the structured entity or to provide financial support)

If during the reporting period an investment entity or any of its unconsolidated subsidiaries has, without having a contractual obligation to do so, provided financial or other support to an unconsolidated, structured entity that the investment entity did not control, and if that provision of support resulted in the investment entity controlling the structured entity, does the investment entity disclose an explanation of the relevant factors in reaching the decision to provide that support

**New 632** IAS27 16A

When an investment entity that is a parent (other than a parent covered by IAS 27.16) prepares, in accordance with IAS 27.8A, separate financial statements as its only financial statements, the parent or investor shall identify the financial statements prepared in accordance with IFRS 10, IFRS 11 or IAS 28 (as amended in 2011) to which they relate. Does the parent or investor also disclose in its separate financial statements:

a. The fact that the statements are separate financial statements and the reasons why those statements are prepared if not required by law

**New 633** IFRS 12.17

When a parent (other than a parent covered by IAS 27.16-16A) or an investor with joint control of, or significant influence over, an investee prepares separate financial statements, the parent or investor shall identify the financial statements prepared in accordance with IFRS 10, IFRS 11 or IAS 28 (as amended in 2011) to which they relate. Does the parent or investor also disclose in its separate financial statements:

a. The fact that the statements are separate financial statements and the reasons why those statements are prepared if not required by law

**New 634** IAS27 18A

Separate Financial Statements
b. A list of significant investments in subsidiaries, joint ventures and associates, including:

- The name of those investees
- The principal place of business (and country of incorporation, if different) of those investees
- Its proportion of the ownership interest (and its proportion of the voting rights, if different) held in those investees

c. A description of the method used to account for the investments listed under b.

 Adoption of IFRS 13 Fair Value Measurement

IFRS 13 is applicable for annual periods beginning on, or after, 1 January 2013, with early adoption permitted, provided that fact is disclosed.

IFRS 13 specifies how to measure fair value, when fair value (and measures based on fair value, such as fair value less costs to sell) is required or permitted by another IFRS. Such fair value measurements may be recognised in the statement of financial position or disclosed in the notes to the financial statements (for example, the comparison of carrying value and fair value required by IFRS 7).

IFRS 13 applies when another IFRS requires or permits measurement(s) or disclosure(s) of fair value, except for:

(a) Share-based payment transactions within the scope of IFRS 2
(b) Leasing transactions within the scope of IAS 17
(c) Measurements that have some similarities to fair value but are not fair value, such as net realisable value in IAS 2 or value in use in IAS 36

IFRS 13 also requires disclosure of value measurements. If fair value is measured in accordance with IFRS 13 after initial recognition (whether recognised or only disclosed), the disclosure requirements in IFRS 13 will apply, unless IFRS 13 provides a specific exemption. The disclosures required by IFRS 13 are not required for the following:

(a) Plan assets measured at fair value in accordance with IAS 19
(b) Retirement benefit plan investments measured at fair value in accordance with IAS 26
(c) Assets for which the recoverable amount is fair value less costs of disposal in accordance with IAS 36

If an entity applies this IFRS for annual periods beginning before 1 January 2013, does it disclose that fact?

The disclosure requirements of IFRS 13 need not be applied in comparative information provided for periods before initial application of IFRS 13.

Disclosure objectives

Does the entity disclose information that helps users of its financial statements assess both of the following:

a. For assets and liabilities that are measured at fair value on a recurring or non-recurring basis in the statement of financial position after initial recognition, the valuation techniques and inputs used to develop those measurements
b. For recurring fair value measurements using significant unobservable inputs (Level 3), the effect of the measurements on profit or loss or other comprehensive income for the period

If the disclosures provided in accordance with IFRS 13 and other IFRSs are insufficient to meet the objectives in IFRS 13.91, does the entity disclose additional information in order to meet those objectives?

To meet the objectives in IFRS 13.91, an entity is required to consider all of the following:

- The level of detail necessary to satisfy the disclosure requirements
- How much emphasis to place on each of the various requirements
- How much aggregation or disaggregation to undertake
- Whether users of financial statements need additional information to evaluate the quantitative information disclosed.

In addition, IFRS 13.93 establishes the minimum disclosure requirements for fair value measurements (and those based on fair value) that are recognised in the statement of financial position after initial recognition. The requirements vary depending on whether the fair value measurements are recurring or non-recurring and their categorisation within the fair value hierarchy (i.e., Level 1, 2, or 3).

In order to determine the appropriate categorisation of a fair value measurement (as a whole) within the hierarchy, an entity determines the categorisation of the inputs used to measure fair value and categorisation of the fair value measurement (as a whole) (i) categorisation of the inputs in the fair value hierarchy:

IFRS 13’s fair value hierarchy categorises inputs to valuation techniques into the following levels, based on their observability:

- Level 1 inputs: Quoted prices (that are unadjusted) in active markets for identical
### Accounting Policies

Does the entity disclose its policy for determining when transfers between levels of the fair value hierarchy are deemed to have occurred?

<table>
<thead>
<tr>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

 IFRS 13.95 requires that an entity establish (and consistently follow) its policy for determining when transfers between levels in the fair value hierarchy are deemed to have occurred. The policy for the timing of reclassifying transfers is required to be the same for transfers into and out of levels. Examples of policies include:

(a) The date of the event or change in circumstances that caused the transfer
(b) The beginning of the reporting period
(c) The end of the reporting period

### Class of assets and liabilities

Does the entity classify assets and liabilities under the scope of IFRS 13 based on both:

a. The nature, characteristics and risks of the asset or liability
b. The level of the fair value hierarchy within which the fair value measurement is categorised

The number of classes of assets and liabilities may need to be greater for fair value measurements categorised within Level 3 because those measurements have a greater degree of uncertainty and subjectivity. Determining the appropriate classes of assets and liabilities requires judgement and often may require more disaggregation than the line items presented in the statement of financial position.

### Fair value disclosures

**General**

Does the entity provide sufficient information to permit reconciliation between the classes of assets and liabilities and the line items presented in the statement of financial position?

<table>
<thead>
<tr>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Assets and liabilities not measured at fair value, but for which fair value is disclosed**

For each class of assets and liabilities not measured at fair value in the statement of financial position, but for which fair value is disclosed, does the entity disclose:

a. The level of fair value hierarchy within which the fair value measurement(s) are categorised in their entirety

<table>
<thead>
<tr>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

---

**New 639**

<table>
<thead>
<tr>

<table>
<thead>
<tr>
<th>IFRS 13.98</th>
</tr>
</thead>
</table>

**New 645**

<table>
<thead>
<tr>
<th>IFRS 13.97</th>
</tr>
</thead>
</table>
For each class of assets and liabilities that are measured at fair value on a recurring basis in the statement of financial position after initial recognition, does the entity disclose:

a. The fair value measurement at the end of the reporting period
b. The level of the fair value hierarchy within which the fair value measurements are categorised in their entirety (Levels 1, 2 or 3)
c. For assets and liabilities held at the end of the reporting period, The amount of any transfers between Level 1 and Level 2, separately disclosing transfers into each level from transfers out of each level, and the reasons for those transfers
d. For fair value measurements categorised within Level 2 and Level 3 of the hierarchy:
   » A description of the valuation technique(s) and the inputs used in the measurement
   » If there has been a change in valuation technique, that change and the reason(s) for making it
   » For fair value measurements categorised within Level 3 of the fair value hierarchy, quantitative information about the significant unobservable inputs used in the fair value measurement

An entity is not required to created quantitative information to comply with this disclosure requirement if significant unobservable inputs are not developed by the entity when measuring fair value (e.g., when an entity uses prices from prior transactions or third-party pricing information without adjustment). However, an entity cannot ignore quantitative unobservable inputs that are significant to the fair value measurement and are reasonably available to the entity

e. For fair value measurements categorised within Level 3 of the fair value hierarchy, a reconciliation from the opening balances to the closing balances disclosing separately:
   » Total gains and losses recognised during the period in profit or loss, and the line item(s) in profit or loss in which those gains or losses are recognised
   » Total gains and losses recognised during the period in other comprehensive income, and the line item(s) in other comprehensive income in which those gains or losses are recognised
   » Purchases, sales, issues and settlements (each separately)
   » The amounts of any transfers into and out of Level 3 of the fair value hierarchy, separately disclosing transfers into Level 3 from transfers out of Level 3, and the reasons for those transfers

f. For total gains and losses recognised during the period in profit or loss in accordance with IFRS 13.93(e)(X) (see e. above), the amount that is attributable to the change in unrealised gains or losses relating to those assets and liabilities held at the end of the period, and the line item(s) in profit or loss in which those unrealised gains or losses are recognised

g. For fair value measurements categorised within Level 3 of the fair value hierarchy, a description of the valuation processes used by the entity (including, for example, how an entity decides its valuation policies and procedures and analyses changes in fair value measurements from period to period)

h. For fair value measurements categorised within Level 3 of the fair value hierarchy:
   » A narrative description of the sensitivity if a change in an unobservable input (including at a minimum those unobservable inputs disclosed in accordance with IFRS 13.93(d), see d. above) to a different amount might result in a significantly higher or lower fair value measurement
   » If there are interrelationships between significant unobservable inputs and other unobservable inputs used in the fair value measurement, a narrative description of those interrelationships and of how they might magnify or mitigate the effect of changes in the unobservable inputs on the fair value measurement
   » For financial assets and financial liabilities, if changing one or more of the unobservable inputs to reflect reasonably possible alternative assumptions would change fair value significantly, that fact, the effect of those changes and how the effect of a change was calculated (for this disclosure, significance is judged with respect to profit or loss, and total assets or total liabilities, or, when changes in fair value are recognised in other comprehensive income, total equity)
Non-recurring fair value measurements assets and liabilities

Does the entity disclose for assets and liabilities that are measured at fair value on a non-recurring basis in the statement of financial position after initial recognition:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. The fair value measurement at the end of the reporting period</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>b. The reasons for the fair value measurement</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>c. The level of the fair value hierarchy within which the fair value measurements are categorised in their entirety (Level 1, 2 or 3)</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
| d. For fair value measurements categorised within Level 2 and Level 3 of the hierarchy;  
  - A description of the valuation technique(s) and the inputs used in the measurement  
  - If there has been a change in valuation technique, that change and the reason(s) for making it  
  - For fair value measurements categorised within Level 3 of the fair value hierarchy, quantitative information about the significant unobservable inputs used in the fair value measurement |     |    |     |
| e. For fair value measurements categorised within Level 3 of the fair value hierarchy, a description of the valuation processes used by the entity (including for example, how an entity decides its valuation policies and procedures and analyses changes in fair value measurements from period to period) |     |    |     |
| f. If the highest and best use of a non-financial asset differs from its current use, that fact and why the non-financial asset is being used in a manner that differs from its highest and best use |     |    |     |

Adoption of IAS 19 (Revised in 2011)

Employee Benefits

Class of assets and liabilities

IAS 19 (Revised in 2011) is applicable for annual periods beginning on or after 1 January 2013, early application is permitted. IAS 19 (Revised in 2011) includes some accounting changes in respect of existing IAS 19, the main changes are:

- Modifications to defined benefit plan accounting:
  - Reporting options removed, remeasurements of the net defined benefit liability or asset (which includes actuarial gains and losses) are recognised through other comprehensive income (OCI) when they occur
  - All past service costs will be recognised at the earlier of when the related plan amendment or curtailment occurs or when the entity recognises related restructuring costs under IAS 37
  - Employment benefits classified as short-term based on expected timing of settlement rather than employee entitlement
  - Termination benefits recognised at the earlier of the following dates:
    - when the entity can no longer withdraw the offer of those benefits
    - when the entity recognises costs for a restructuring that is within the scope of IAS 37 and involves the payment of termination benefits.

IAS 19 (Revised in 2011) also includes additional disclosure requirements for post-employment benefits. These new disclosures are focused on defined benefit plans and would require disclosures of sensitivity analysis and assets-liabilities matching strategies, amongst other changes. If an entity early applies IAS 19 (Revised in 2011), then it must include the disclosures detailed below and not those included in the previous 'Employee Benefits' section above. All references below refer to IAS 19 (Revised in 2011).

If an entity has early adopted this standard, does the entity disclose that fact?

Short-term employee benefits

Although IAS 19 does not require specific disclosure of short-term employee benefits, other IFRS may require disclosure. For example, IAS 1 requires that the entity disclose employee benefits expense and IAS 24 requires disclosures about employee benefits for key management personnel.

Other long-term employee benefits

Although IAS 19 does not require specific disclosure of other long-term employee benefits, other IFRS may require disclosure. For example, IAS 1 requires that the entity disclose employee benefits expense and IAS 24 requires disclosures about employee benefits for key management personnel.
### Multi-employer plans

If a multi-employer plan is a defined benefit plan and the entity accounts for the plan as a defined benefit plan, does the entity make the disclosures in 'Defined benefit plans' section below and IAS 19.148(a)(c) below

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
</table>

If sufficient information is not available to use defined benefit accounting for a multi-employer plan that is a defined benefit plan, does the entity disclose:

a. A description of the funding arrangements, including the method used to determine the entity’s rate of contributions and any minimum funding requirements
b. A description of the extent to which the entity can be liable to the plan for other entities’ obligations under the terms and conditions of the multi-employer plan
c. A description of any agreed allocation of a deficit or surplus on:
   - Wind-up of the plan
   - The entity’s withdrawal from the plan

If sufficient information is not available to account for the plan as a defined benefit plan:

d. The fact that the plan is a defined benefit plan
e. The reason why sufficient information is not available to enable the entity to account for the plan as a defined benefit plan
f. The expected contributions to the plan for the next annual reporting period

g. Information about any deficit or surplus in the plan that may affect the amount of future contributions, including the basis used to determine that deficit or surplus and the implications, if any, for the entity

h. An indication of the level of participation of the entity in the plan compared with other participating entities

Examples of measures that might provide such an indication include the entity’s proportion of the total contributions to the plan or the entity’s proportion of the total number of active members, retired members, and former members entitled to benefits, if that information is available.

### Defined benefit plans that share risks between various entities under common control

Defined benefit plans that share risks between various entities under common control (for example, a parent and its subsidiaries) are not multi-employer plans. Participation in such a plan is a related party transaction for each entity. The disclosure requirements in IAS 19.149 below only relate to the entity’s separate financial statements

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
</table>

If the entity participates in a defined benefit plan that shares risks between various entities under common control, does the entity disclose the following:

a. The contractual agreement or stated policy for charging the net defined benefit cost or the fact that there is no such policy
b. The policy for determining the contribution to be paid by the entity
c. If the entity accounts for an allocation of the net defined benefit cost under IAS 41 (that is, if the entity shares the risk from the defined benefit plan among entities under common control, measures the plan as a whole, but recognises the net defined benefit cost that relates to the reporting entity only), all the information about the plan as a whole under items in 'Defined benefit plans' section below
d. If the entity accounts for the contribution payable for the period as noted in IAS 19.41, the information about the plan as a whole required by IAS 135-137, 139, 142-144 and 147(a) and (b)

The information required by items (c). and (d). above can be disclosed by cross-reference to disclosures in another group entity’s financial statements if:

a. That group entity’s financial statements separately identify and disclose the information required about the plan
b. That group entity’s financial statements are available to users of the financial statements on the same terms as the financial statements of the entity and at the same time as, or earlier than, the financial statements of the entity

### Defined contribution plans

Does the entity disclose the amount recognised as an expense for defined contribution plans

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
</table>

Does the entity disclose contributions to defined contribution plans for key management personnel

<table>
<thead>
<tr>
<th>Disclosure made</th>
<th>Yes</th>
<th>No</th>
<th>N/A</th>
</tr>
</thead>
</table>

### Defined benefit plans

IAS 19 requires disclosure of information that:

a. Explains the characteristics of its defined benefit plans and risks associated with them
b. Identifies and explains the amounts in its financial statements arising from its defined benefit plans
c. Describes how its defined benefit plans may affect the amount, timing and uncertainty of the entity’s future cash flows

To meet the objectives in IAS 19.135 above, an entity shall consider all the following:

- The level of detail necessary to satisfy the disclosure requirements
- How much emphasis to place on each of the various requirements
- How much aggregation or disaggregation to undertake
**Characteristics and risks associated with them**

**Does the entity disclose:**

- The nature of the benefits provided by the plan (e.g., final salary defined benefit plan or contribution-based plan with guarantee)
- A description of the regulatory framework in which the plan operates, for example the level of any minimum funding requirements, and any effect of the regulatory framework on the plan, such as the asset ceiling
- A description of any other entity's responsibilities for the governance of the plan, for example, responsibilities of trustees or of board members of the plan

**Explanations of the amounts in the financial statements**

**Does the entity provide a reconciliation from the opening balance to the closing balance for each of the following, if applicable:**

- The net defined benefit liability (asset), showing separate reconciliations for:
  - Plan assets
  - The present value of the defined benefit obligation
  - The effect of the asset ceiling
- Any reimbursement rights, and a description of the relationship between any reimbursement right and the related obligation

**Demographic assumptions deal with matters such as:**

- Mortality
- Rates of employee turnover, disability and early retirement
- The proportion of plan members with dependants who will be eligible for benefits
- The proportion of plan members who will select each form of payment option available under the plan terms
- Claim rates under medical plans

**Financial assumptions deal with items such as:**

- The discount rate
- Benefit levels, excluding any cost of the benefits to be met by employees, and future salary
Disclosure made

Yes
No
N/A

In the case of medical benefits, future medical costs, including claim handling costs (i.e., the costs that will be incurred in processing and resolving claims, including legal and adjuster’s fees)

Yes
No
N/A

Taxes payable by the plan on contributions relating to service before the reporting date or on benefits resulting from that service

Yes
No
N/A

Changes in the effect of limiting a net defined benefit asset to the asset ceiling, excluding amounts included in interest in b. and how it determined the maximum economic benefit available, i.e., whether those benefits would be in the form of refunds, reductions in future contributions or a combination of both

Yes
No
N/A

Past service cost and gains and losses arising from settlements

Yes
No
N/A

e. The effect of changes in foreign exchange rates

Yes
No
N/A

f. Contributions to the plan, showing separately those by the employer and by plan participants

Yes
No
N/A

g. Payments from the plan, showing separately the amount paid in respect of any settlements

Yes
No
N/A

h. The effects of business combinations and disposals

Yes
No
N/A

Does the entity disaggregate the fair value of the plan assets into classes that distinguish the nature and risks of those assets, subdividing each class of plan asset into those that have a quoted market price in an active market as defined in IFRS 13 Fair Value Measurement and those that do not, including, for example:

a. Cash and cash equivalents

Yes
No
N/A

b. Equity instruments (segregated by industry type, company size, geography, etc.)

Yes
No
N/A

c. Debt instruments (segregated by type of issuer, credit quality, geography, etc.)

Yes
No
N/A

d. Real estate (segregated by geography, etc.)

Yes
No
N/A

e. Derivatives (segregated by type of underlying risk in the contract, for example, interest rate contracts, foreign exchange contracts, equity contracts, credit contracts, longevity swaps, etc.)

Yes
No
N/A

f. Investment funds (segregated by type of fund)

Yes
No
N/A

g. Asset-backed securities

Yes
No
N/A

And

Yes
No
N/A

h. Structured debt

Yes
No
N/A

Disclosures above are stated by IAS 19.142 as a suggestion. Considering that information to be provided under this paragraph wants to offer to third parties all required information to understand risks associated with defined benefit plan assets considering the level of detail of disclosure, aggregation and emphasis discussed in IAS 19.136 above.

Yes
No
N/A

Does the entity disclose the fair value of the entity’s own transferable financial instruments held as plan assets, and the fair value of plan assets that are property occupied by, or other assets used by, the entity

Yes
No
N/A

Does the entity disclose, in total for a grouping of plans, the significant actuarial assumptions used to determine the present value of the defined benefit obligation (see examples of actuarial assumptions in IFRS 19.76 above), which must be in absolute terms and in the form of weighted averages or relatively narrow ranges

Yes
No
N/A

Does the entity disclose:

a. A sensitivity analysis for each significant actuarial assumption disclosed in terms of IAS 19.144 above (see examples of actuarial assumptions in IFRS 19.76 above) as of the end of the reporting period, showing how the defined benefit obligation would have been affected by changes in the relevant actuarial assumption that were reasonably possible at that date

Yes
No
N/A

b. The methods and assumptions used in preparing the sensitivity analyses required by item a. and the limitations of those methods

Yes
No
N/A

c. Changes from the previous period in the methods and assumptions used in preparing the sensitivity analyses, and the reasons for such changes

Yes
No
N/A

Does the entity disclose a description of any asset-liability matching strategies used by the plan or the entity, including the use of annuities and other techniques, such as longevity swaps, to manage risk

Yes
No
N/A

Does the entity disclose the following related to future cash flows plan effects:

a. A description of any funding arrangements and funding policy that affect future contributions

Yes
No
N/A

b. The expected contributions to the plan for the next annual reporting period

Yes
No
N/A

c. Information about the maturity profile of the defined benefit obligation, including the weighted average duration of the defined benefit obligation and other information about the distribution of the timing of benefit payments, such as a maturity analysis of the benefit payments

Yes
No
N/A

Although IAS 19 does not require specific disclosure of termination benefits, other IFRS may require such disclosure. For example, IAS 1 requires disclosure of employee benefits expense and IAS 24 requires disclosure of employee benefits for key

Yes
No
N/A

Assurance | Tax | Transactions | Advisory

About Ernst & Young
Ernst & Young is a global leader in assurance, tax, transaction and advisory services. Worldwide, our 167,000 people are united by our shared values and an unwavering commitment to quality. We make a difference by helping our people, our clients and our wider communities achieve their potential.

Ernst & Young refers to the global organization of member firms of Ernst & Young Global Limited, each of which is a separate legal entity, Ernst & Young Global Limited, a UK company limited by guarantee, does not provide services to clients. For more information about our organization, please visit www.ey.com

About Ernst & Young’s International Financial Reporting Standards Group
The move to International Financial Reporting Standards (IFRS) is the single most important initiative in the financial reporting world, the impact of which stretches far beyond accounting to affect every key decision you make, not just how you report it. We have developed the global resources – people and knowledge – to support our client teams. And we work to give you the benefit of our broad sector experience, our deep subject matter knowledge and the latest insights from our work worldwide. It’s how Ernst & Young makes a difference.
