Applying the right processes

Vikan solutions comprise of over 1,000 products which are based on a simple and easily understandable colour-coding system that fits seamlessly with HACCP protocol.

Vikan Hygiene System

Vikan as a system

Vikan representatives are able to offer the following services:

- Assessment of the entire factory to establish the brushware needs.
- Allocation by numbering system of wall brackets throughout the factory.
- A diagram of the layout of the factory depicting the colour zoning.
- Drop down list of each brush to be found in a particular zone.

Vikan colour coding

Vikan representatives are able to offer the following services:

- Important for any Food Safety System.
- Assists in controlling (reducing) cross contamination.
- Enables responsibility and hence accountability.
- Brushes are easily found when needed.
- Minimises theft as brushes are allocated to an area.
- Visually divides a factory into colour zones.
- Can be used to differentiate between food contact and non-food contact surfaces.
