Services: Third Party Logistics, Customs Broker, International Trade Consulting
The McAllen Foreign Trade Zone provides supply-side solutions for the manufacturing industry. Our Vendor Managed Inventory Mall services are tailored to each customer, reduce inventory and associated costs for fulfillment to its customers.

- Through our web-enabled visibility tools, vendors can better manage their own inventories through our automated replenishment processes.
- Deferring ownership reduces cash to cash cycle times and inventory carrying costs.
- Our VMI hubs will allow for more efficient management of raw materials as they flow into the manufacturing process.
- Utilize less floor space in your warehouse for improved capacity planning.
- Multi-Supplier distribution helps minimize supplier costs, and improve responsiveness to customer demand.

**E-Coat / Chemical Stripping Fact Sheet**

**Pretreatment:**
- Zinc Phosphate (per TT-C-490 E)  
- Alodine 5200 (per MIL-DTL-5541)

**Electrocoat:**
- Environmentally Acceptable  
- Provides High Material Utilization/Low Waste  
- Provides Uniform Coating Thickness Over Entire Part  
- Presents Outstanding Quality Control  
- Salt Spray Protection (in excess of 1000 hrs per ASTM B-117)  
- Able to Coat Wide Range of Shapes and Sizes  
- Allows Dense Line Loading  
- No Edge Build Up  
- Site Certified TACOM E-coat Applicator (per MIL-P-53084)  
- Also Utilizes SPC in Coating Process  
- Materials Offered: Epoxy

**Chemical Stripping:**
- Environmentally Acceptable  
- Does Not Degrade Parts Like Mechanical Stripping  
- User Friendly

**Industries/Customers Serviced:**
- Automotive (Delphi, TRW, Autoliv, Takata, et. al.)  
- General Industrial (Caterpillar, Flextronics, Black & Decker, Whirlpool, Maytag)  
- Military (BAE Systems, AM General, Raytheon)

**Supplemental Services**
- Custom packaging solutions  
- Custom masking  
- Custom rack design and fabrication  
- Phosphoric Acid pickling for oxidized steel  
- Testing per customer requirements  
- Parts washing

**Certifications**
- ISO 9001-2000  
- TACOM (Tank & Armament Command) site certified for any TACOM contract.  
- RoHS compliant facility  
- Delphi Approved Applicator  
- Black and Decker Approved Vendor

Established: 1938

Products: Custom Designed Ice Plants, Cooling and Freezing Systems, Ice Rake Bins, Self-Contained Portable “Ice Bank” Storage Bins, Mobile Ice Plants, Slush Ice Injection Systems, High Humidity Forced Air Cooling Systems, Hydrocoolers, Ice Crushers and/or Ice Blowers, Ice Batching Scales, Pneumatic Conveying Systems, Field Harvest Aids, Field Packing Systems, Sizers, Grading and Packing Lines, Hydraulic Box and Trailer Dumps, Produce Trailers, Grave Opening Machines, Hydraulic Dump Trailers, Stainless Steel and Aluminum Racks, Conveyors, Tanks, Flumes and Packing Tables, Wire Baskets, Shaker Screens and other products for the food processing and freezing industry. In addition, SEMCO personnel are experienced in commercial refrigeration systems for the red meat and fishing industry and design and construction of processing facilities for food & fiber products.

Facilities: Over 30,000 ft² of covered manufacturing space equipped with overhead bridge cranes.

Processes & Equipment Available: Engine Lathes (various sizes up to 11’ hollow spindle), milling machines (various sizes and types), small surface grinder, hydraulic press (30 tons), hydraulic iron worker, 3/8” x12’ shear, 1/3”x12’ press brake, vertical & horizontal band saws, 16” abrasive cutoff saw, (2) strippit model 30 fabricators w/tooling and hole punching, plate bending rolls, drilling, tapping, threading, shaft & roller manufacture.
Plant Manager: Cesario Pina

Plant Location: 101 W. Eldora Road
Pharr, TX 78577

Phone: 956-283-7200

www.universalmetalproducts.com

Plant Size: 60,000 square feet, located on 8 acres with frontage road access

Products: Metal Stampings

Production
Primary: Metal Stamping
Secondary: Robotic welding, spot welding, mig welding, assembly, riveting, tapping, part wash, tumbling, screw insertion, swedging
OBI Press: 30, 60, 110, & 200 Tons

Quality Control

Equipment: CMM

Capabilities: Universal Metal Products can help take your metal stamping requirement from concept, to design, tooling and production. Our Industry leading Engineering Department works closely with our own Tooling Designers to design a part that works for your application while maintaining repeatable manufacturability.

Product: Custom Fabrication & Machining of Steel Products
Established: January 2001
Distribution: International
Facility Size: 40,000 SF production area, 5,000 SF import-export warehouse in Pharr, Texas

Equipment:
- Overhead crane capacity to 10 ton
- Press Brakes
- Shear
- Pyramid Plate Roll
- Bar Roller
- 90 ton Iron Worker
- 50 ton Flattening Press
- Numerous welding machines covering all processes
- Weld positioners up to 18,000 capacity
- Full Complement of Micrometers, Calipers, Height Gages and Verniers
- Assorted Boring Mills, Lathes and Drill Presses
- Numerous Jib Cranes, Fork Trucks, Semi-Tractor Trailers
- Flat Bed Trucks

Capabilities:
- Fabrication, machining and assembly of low carbon steel, high strength low allow steel and stainless steel
- All welders are certified in accordance with AWS D1.1 and ASME Section IX
- SMAW, GMAW, and FCAW processes are available
- All raw materials imported to Mexico in kit form from the United States
- Bilingual staff allowing for an uninterrupted flow of information

Conner Industries – Alamo Production Facility

PLANT MANAGER: Jose Campos
ADDRESS: 700 N. Tower Road, Alamo, TX  78516
EMAIL: jcampos@connerindustries.com / gabram@connerindustries.com
TELEPHONE: (800) 641-0215 – Watts (956) 781-0215 – Phone
FAX: (956) 781-0219 – Fax

PRODUCT: Lumber (Pre-Cut & Cut-to-Size), Pallets & Crating, Panel Products (Cut OSB/Plywood), Custom wood solutions for industrial needs, All Grades & Species

ESTABLISHED: Conner Industries 1981 – Alamo Facility 1992
DISTRIBUTION: International
WEBSITE: www.connerindustries.com

FACILITY SIZE: Alamo facility includes five acres and serves the valley area of Texas and Mexico.

CERTIFICATIONS: Conner Industries is a participating member of the IPPC and is certified to apply the ISPM-15 and heat-treated stamps listed to the right on lumber and assembled products. Each facility is required to have it’s own individual license and certification to apply the IPPC stamps to wood products. All of Conner Industries' facilities are licensed and certified to apply ISPM-15 and heat-treated stamps to export lumber, dunnage, blocking, pallets, skids, boxes, crates and other assembled products.

EQUIPMENT: The plant is equipped to re-manufacture, process, and distribute softwood, hardwood, and panel products.

CAPABILITIES: Re-Manufacturing and distribution

CUSTOMERS: Conner Industries serves the industrial user, specializing in product development, product innovation, unmatched value, and quality execution.

PRODUCT: Color box, manual, Catalogue and Magazine for total printing solution

ESTABLISHED: March 17th 2009
DISTRIBUTION: International
FACILITY SIZE: Total floor space 80,000 Sq Ft
CERTIFICATIONS: ISO 9001 & 14001

EQUIPMENT:

Pre Press:
- CTP(Computer to Plate): Heidelberg Machine, Fully automatic High resolution.
- CTF(Computer to Film): Heidelberg Machine, Fully automatic High resolution.
- Film developer and Film Exposure

Press:
- 6 Color Printing Machine: Heidelberg Machine,
- 6 Color print with Aqua and UV coating
- 4 Color Printing Machine: Heidelberg Machine, 2color front and 2 back print

Folding Machine:
- 3 types of folding machines
- All machines are made by Heidelberg with high performance

Laminating, Thomson and Glue machine:
- Laminating through glue both of printed and corrugate
- Carton Master, Asahi Machine for Thomson die cutting,
- Sun’s Glue machine for flexible glue point

Stiching Machine:
- ST-300, Heidelberg Machine.
- 7 signatures High Speed and high Quality.

Perfect binding Machine:
- Full automatic, High quality perfect binding for manual, text book

CUSTOMERS: Samsung, Uno medical, Monstar cable, Plantronics

Other locations: Mexicali-Mexico; Asheboro, North Carolina, USA; Aachen, Germany; Suzhou-China

Reynosa Facility: 228,000 square feet total with 3 buildings including 2 molding facilities and a single point distribution center. All facilities operate 24/7 with distribution up to 6 days per week with JIT delivery capabilities.

Products: Plastic Injection Molded Parts, Blow Molded Parts, Assembly and Molds

Equipment: 79 total machines

Injection Machines:
- 72 total- Machines sizes 50 to 1,100 U.S. tons
- Horizontal and Vertical machines
- Most all machines above 230T include servo robotics for part removal/secondary staging
- Specific machines between 50 to 230T have either Servo or Spru picker robotics

Blow Molding:
- 7 machines
- Continuous extrusion, Dual Head extrusion, Single Head extrusion machinery
- Full secondary trimming capabilities
- Pressure testing, sub assembly and decorating available
- Assembly/ Secondary capabilities
- Assembly (Mechanical Snap/Fastners, Sonic Welding, Vibration Welding)
- Decorating (Heat Transfer, Pad Printing, Hot Stamp, IML)
- Component management, purchasing, control on site

Metrology:
- Self-Certified labs offering full PPAP development and submission documentation
- (2) CMM’s, VMM, Spectrophotometer, Balancing equipment, and other gauging equipment

Tool Room:
- 21 Tool Makers and apprentices (24/7 operation)
- Full offering of PM, EC’s, and corrective engineering
- Ability to manage 3d files and communication for changes
- EDM, Lathes, Grinders, Surface capabilities, and etc.

Facilities:
- 4 Silo’s for up to bulk material storage
- Central air, chillers, tower systems
- Rack Warehouse storage, High Bay ceilings
- Can accommodate up to 2,000T machinery
- 24/7 maintenance activities, full PM, full parts control for limited downtime

Design:
- IGES review capability on site
- Complete design services available in N.C. (Pro-E, Solid Works, several other software options)

For more information please contact MEDC at (956) 682-2875 and ask for a Business Development Specialist
Plating
AEF Plating LLC

Contact: Boyd Cockrell, Owner/President
Address: 4000 Ursula, McAllen, TX 78503
Email: boyd@vtxb.com; joelg06@vtxb.com
Phone: 956-994-1991
Fax: 956-994-1929
Certification: ISO 9001/2008 Approved

Plating Processes:
- Silver Plating (barrel and rack, mainly barrel of small electronic parts, copper and brass material).
- Gold Plating (hard gold 99.7%, barrel and rack plating of small electronic parts for both copper and brass material).
- Bright Acid Tin Plating (both rack and barrel process- two tin lines for increased capacity).
- All the above processes can be plated with a copper or nickel undercoat with your thickness requirements).
- Bright Nickel (barrel and rack plating, we do mostly barrel on copper, brass and steel material).
- Chem Film Mil-Std 5541E, Irridite, Rhos Compliance chemicals, Alodine 1000 on Aluminum with Gold, Yellow and Clear applications. Large Volumes, and Large Parts.
- Bright Acid Dip (Bright dip of both copper and brass products).
- Zinc Plating (Barrel and Rack, large capacity to handle large volumes of work. Both automatic and manual operation. We use Rhos Compliant Trivalent Clear and Black Chromates, Yellow Dye and or Hex Chromates.
- Anodize (Process to Anodize large and small parts-we specialize in Anodizing of A380 aluminum with a black finish application).
- Passivation of Stainless Steel Products.
- Electroless Nickel, plating on aluminum/other materials.
- Thickness of plating for outside customers, using an X-Ray fluorescence.
- Pick-up and delivery can be arranged.

New Process:
- Matt Tin
- Sulfamate Nickel
- Acid Copper
- Zinc Nickel
- Zinc Cobolt
- Black Oxide
- Gold, 99.9% soft

Products: Specializing in screw machine products and precision machines products.

Equipment:
- 12 Davenport Model B Screw Machines
- Wickman Automatic Screw Machine
- Hass SL-10 CNC Lathe
- Hass HNC Super Mini Mill

D&R Precision Manufacturing, Inc. specializes in the use of automatic screw machines. Automatic screw machines enable us to manufacture and provide high volume quality precision parts to meet your components needs. The versatility of our equipment allows for the production of parts ranging from 1/8” to 1-7’16” in diameter using ferrous and non-ferrous materials. We provide quality screw machine products by utilizing high technology measuring instruments, quality control and quality processes.

Industries Served: Appliances, Automotive, Bushings, Controls, Electrical, Fasteners, Fittings, Hardware, Hydraulics, Inserts, Marine, Pins, Plumbing, Pnuematics, Video & Cable Connectors

Certifications: ISO: 9001  
TS 16949: 2002  
ISO: 13485  
ITAR registered

Facility Size: 25,000 square feet

Equipment: FUJI SMT equipment, Universal radial and axial equipment, wave solder and hand assembly lines, and Agilent HP 3070 testing platforms.

Total Electronics is a turn-key electronics manufacturing service. Below are the highlights of our services and markets:

- Privately held corporation $70 +/- Million in sales  
- Three manufacturing facilities: Reynosa, Mexico; Logansport, Indiana; San Diego, California  
- Specialize in turn key production of all volumes of PCB Assemblies  
- Box and Module Assembly Integration  
- Prototype and short run production services  
- Engineering Services  
- Electrical Layout, schematic, gerbers, and artwork  
- Design for Manufacturing (DFM), Design for Test (DFT) and Engineering  
- Full test development both in-circuit and functional (HP/Agilent 3070 technology)  
- FUJI Surface Mount (SMT), Fully Automated Radial and Axial (Universal), Automatic pin insertion (Autosplice), Solder Wave technology, Manual assembly, and hand soldering  
- Capacity…Plenty  
- New Products Introduction (NPI)/ Prototype  
- Lean Manufacturing Philosophy

Quality Industrial Solutions

Contact: Arturo Cardenas
Operations Manager
Address: Av. Cerro de Padilla # 305
Col. Almaguer
Reynosa, Tam. 88780
Email: arturoc@qisreynosa.com
Telephone: 956-467-4811

Products: Refurbish, Subassemblies, Plastic parts, Metal Stamping
Date Established: 2002
Distribution: National and International
Website: www.qisreynosa.com

Facility Size: Mexico 11,000 sqft, USA 14,000 sqft
Certifications: ISO 9000 in process (May 2011)

Equipment:

Injection Molding:
- 300 T High precision molding machines

Assembly:
- Mobile Phones refurbish
- Winding Machine for bobbins up to 3”
- PCB Repair, SMT and thru hole
- 10x Microscopes for Quality Inspections

Painting:
- Manually Spray Painting Room for plastic and metallic parts as telephones, cable boxes, mobile phones, refrigerator parts, laptops
- Curing Process with Walking, UV & Convection Oven

Sand Blast:
- 2 sand blast boots, 1 single and 1 double for pieces no larger than 4ft long

Metal Stamping:
- 110 T Komatsu press with automatic feeder for progressive dies

Pad Printing:
- Single color machine for low volume printing, One or two color machine for slightly larger images. Up to five color printing of larger images with moderate production rates. High speed machine for single, large volume printing of smaller images.

Customers: Motorola, Fisher & Paykel, Emerson, Jabil, Celestica, Eaton, TI Automotive, Landys+Gyr, Kongsberg, Valeo, TRW
Tool/Die/Mold/Fixtures/Jigs

Website: www.windsormoldgroup.com

Product: Design & Build Plastic Injection Molds

Facility Size: 14,000 square feet

Capabilities:
- Comprehensive program management for complete tooling systems
- Complete engineering capabilities
- Solid modeling utilizing Unigraphics NX and Moldwizard software
- Conventional and hardened tooling
- Strategically located, providing responsive repair, maintenance, and engineering services
- Tooling weights up to 15 tons (12.5 metric tons)
- High speed and lights out machining

Duplicating Equipment:
- Sharnoa SVC 52D CNC Mill with 28”x 55” table
- Deckel KF2
- TOS CNC Boring Mill
- Matsuura FX5G C.N.C. High Speed (27,000 R.P.M.)

E.D.M. Equipment
- Mitsubishi EXP30 C.N.C. Powder E.D. M. 13”x 29” x 45”
- Mitsubishi FX30K C.N.C. Wire E.D.M. 13” x 31” 51”
- Xermac X20 E.D.M. complete with 3 axis readout and 120 AMP dual power supply
