PREAMBLE

CONTEXT

For India to become a major player in world trade, an all encompassing, comprehensive view needs to be taken for the overall development of the country’s foreign trade. While increase in exports is of vital importance, we have also to facilitate those imports which are required to stimulate our economy. Coherence and consistency among trade and other economic policies is important for maximizing the contribution of such policies to development. Thus, while incorporating the existing practice of enunciating an annual Exim Policy, it is necessary to go much beyond and take an integrated approach to the developmental requirements of India’s foreign trade. This is the context of the new Foreign Trade Policy.

OBJECTIVES

Trade is not an end in itself, but a means to economic growth and national development. The primary purpose is not the mere earning of foreign exchange, but the stimulation of greater economic activity. The Foreign Trade Policy is rooted in this belief and built around two major objectives. These are:

(i) To double our percentage share of global merchandise trade within the next five years; and
(ii) To act as an effective instrument of economic growth by giving a thrust to employment generation.

STRATEGY

These objectives are proposed to be achieved by adopting, among others, the following strategies:

i. Unshackling of controls and creating an atmosphere of trust and transparency to unleash the innate entrepreneurship of our businessmen, industrialists and traders.
   ii. Simplifying procedures and bringing down transaction costs.
   iii. Neutralizing incidence of all levies and duties on inputs used in export products, based on the fundamental principle that duties and levies should not be exported.
   iv. Facilitating development of India as a global hub for manufacturing, trading and services.
   v. Identifying and nurturing special focus areas which would generate additional employment opportunities, particularly in semi-urban and rural areas, and developing a series of ‘Initiatives’ for each of these.
   vi. Facilitating technological and infrastructural upgradation of all the sectors of the Indian economy, especially through import of capital goods and equipment, thereby increasing value addition and productivity, while attaining internationally accepted standards of quality.
   vii. Avoiding inverted duty structures and ensuring that our domestic sectors are not disadvantaged in the Free Trade Agreements/Regional Trade Agreements/Preferential Trade Agreements that we enter into in order to enhance our exports.
   viii. Upgrading our infrastructural network, both physical and virtual, related to the entire Foreign Trade chain, to international standards.
ix. Revitalising the Board of Trade by redefining its role, giving it due recognition and inducting experts on Trade Policy.

x. Activating our Embassies as key players in our export strategy and linking our Commercial Wings abroad through an electronic platform for real time trade intelligence and enquiry dissemination.

PARTNERSHIP:

The new Policy envisages merchant exporters and manufacturer exporters, business and industry as partners of Government in the achievement of its stated objectives and goals. Prolonged and unnecessary litigation vitiates the premise of partnership. In order to obviate the need for litigation and nurture a constructive and conducive atmosphere, a suitable Grievance Redressal Mechanism will be established which, it is hoped, would substantially reduce litigation and further a relationship of partnership.

The dynamics of a liberalized trading system sometimes results in injury caused to domestic industry on account of dumping. When this happens, effective measures to redress such injury will be taken.

ROADMAP:

This Policy is essentially a roadmap for the development of India’s foreign trade. It contains the basic principles and points the direction in which we propose to go. By virtue of its very dynamics, a trade policy cannot be fully comprehensive in all its details. It would naturally require modification from time to time. We propose to do this through continuous updation, based on the inevitable changing dynamics of international trade. It is in partnership with business and industry that we propose to erect milestones on this roadmap.

PROMOTIONAL MEASURES

Assistant to States for Infrastructure Development of Exports (ASIDE)

The State Governments shall be encouraged to participate in promoting exports from their respective States. For this purpose, Department of Commerce has formulated a scheme called ASIDE.

Suitable provision has been made in the Annual Plan of the Department of Commerce for allocation of funds to the states on the twin criteria of gross exports and the rate of growth of exports.

The States shall utilise this amount for developing infrastructure such as roads connecting production centres with the ports, setting up of Inland Container Depots and Container Freight Stations, creation of new State level export promotion industrial parks/zones, augmenting common facilities in the existing zones, equity participation in infrastructure projects, development of minor ports and jetties, assistance in setting up of common effluent treatment facilities, stabilizing power supply and any other activity as may be notified by Department of Commerce from time to time.

Market Access Initiative (MAI)

The Market Access Initiative (MAI) scheme is intended to provide financial assistance for medium term export promotion efforts with a sharp focus on a country and product.

The financial assistance is available for Export Promotion Councils, Industry and Trade associations, Agencies of State Governments, Indian Commercial Missions abroad and other eligible entities as may be notified from time to time.

A whole range of activities can be funded under the MAI scheme. These include market studies, setting up of showroom/warehouse, sales promotion campaigns, international departmental stores, publicity campaigns, participation in international trade fairs, brand promotion, registration charges for pharmaceuticals and testing charges for engineering products etc. Each of these export promotion activities can receive financial assistance from the Government ranging from 25% to 100% of the total cost.
Marketing Development Assistance (MDA)  

3.2.1 The Marketing Development Assistance (MDA) Scheme is intended to provide financial assistance for a range of export promotion activities implemented by export promotion councils, industry and trade associations on a regular basis every year.

As per the revised MDA guidelines with effect from 1st April, 2004 assistance under MDA is available for exporters with annual export turnover upto Rs 5 crores.

These include participation in Trade Fairs and Buyer Seller meets abroad or in India, export promotion seminars, etc.

Further, assistance for participation in Trade Fairs abroad and travel grant is available to such exporters if they travel to countries in one of the four Focus Areas, such as Latin America, Africa, CIS Region, ASEAN countries, Australia and New Zealand.

For participation in trade fairs, etc, in other areas financial assistance without travel grant is available.

Meeting Legal expenses for Trade related matters  

3.2.1.1 Financial assistance would be provided to deserving exporters on the recommendation of Export Promotion Councils for meeting the cost of legal expenses relating to trade related matters.

Towns of Export Excellence  

3.3 A number of towns in specific geographical locations have emerged as dynamic industrial clusters contributing handsomely to India’s exports. It is necessary to grant recognition to these industrial clusters with a view to maximizing their potential and enabling them to move higher in the value chain and tap new markets.
Selected towns producing goods of Rs 1000 crore or more will be notified as Towns of Exports Excellence on the basis of potential for growth in exports. However for the Towns of Export Excellence in the Handloom, Handicraft, Agriculture and Fisheries sector, the threshold limit would be Rs 250 crores.

Common service providers in these areas shall be entitled for the facility of the EPCG scheme.

The recognised associations of units will be able to access the funds under the Market Access Initiative scheme for creating focused technological services.

Objective 3.7.1 The objective of the scheme is to accelerate growth in exports by rewarding Star Export Houses who have achieved a quantum growth in exports. High performing Star Export Houses shall be entitled for a duty credit based on incremental exports substantially higher than the general annual export target fixed (Since the target fixed for 2004-05 is 16 %, the lower limit of performance for qualifying for rewards is pegged at 20% for the current year.).

</tr>
</thead>

<td>10%</td>
</tr>
<tr>
<td>100% and above</td>

</tr>
</tbody>
</table>

(4) All exports including exports under free shipping bill verified and authenticated by Customs and Gems& Jewellery shipping bills but excluding exports specified under para 3.7.5, shall be eligible for benefits under the Target Plus Scheme.

(For the purpose of this scheme the definition of Group Company’ as given in Chapter 9 will be applicable. Furthermore, only such companies of the Group as are Star Export Houses will be considered).

If a Group company chooses to apply based on the export of one or more of its individual Star Export House companies, the entitlement would be calculated.
considering the export performance of the applicant company during the previous licencing year and current licencing year. It shall be necessary that the adjusted export performance of all the Star Export House companies of the Group during the current licencing year does not fall below the combined performance of all Star Export House companies of the Group in the previous licencing year.

In case the Group chooses to apply based on the overall growth in Group’s turnover (i.e. the turnover of all the Star Export House companies), any one of the Star Export House companies of the Group may file an application on behalf of all the Star Export House companies of the Group.

3.7.5 The following exports shall not be taken into account for calculation of export performance or for computation of entitlement under the scheme:

### DUTY EXEMPTION & REMISSION SCHEMES

**Duty Exemption and Remission Schemes**

4.1 Duty exemption schemes enable duty free import of inputs required for export production. An Advance Licence is issued as a duty exemption scheme. A Duty Remission Scheme enables post export replenishment/remission of duty on inputs used in the export product. Duty remission schemes consist of (a) DFRC (Duty Free Replenishment Certificate) and (b) DEPB (Duty Entitlement Passbook Scheme).

DFRC permits duty free replenishment of inputs used in the export product. DEPB allows drawback of import charges on inputs used in the export product.

**Re-import of exported goods under Duty Exemption/Remission Scheme**

\[
V.A = \frac{A - B}{B} \times 100,
\]

where

- **V.A** = Value Addition
- **A** = FOB value of the export realised/FOR value of supply received.
- **B** = CIF value of the imported inputs covered by the licence, plus any other imported materials used on which the benefit of duty drawback is being claimed.

**Advance Licence**

4.1.3 An Advance Licence is issued to allow duty free import of inputs, which are physically incorporated in the export product (making normal allowance for wastage). In addition, fuel, oil, energy, catalysts etc. which are consumed in the course of their use to obtain the export product, may also be allowed under the scheme.
Duty free import of mandatory spares upto 10% of the CIF value of the licence which are required to be exported/supplied with the resultant product may also be allowed under Advance Licence.

Advance Licences are issued on the basis of the inputs and export items given under SION. However, they can also be issued on the basis of Adhoc norms or self declared norms as per para 4.7 of Handbook.

Duty free import of mandatory spares upto 10% of the CIF value of the licence which are required to be exported/supplied with the resultant product may also be allowed under Advance Licence.

Advance Licence can be issued for:-

a) Physical exports:- Advance Licence may be issued for physical exports including exports to SEZ to a manufacturer exporter or merchant exporter tied to supporting manufacturer(s) for import of inputs required for the export product.

b) Intermediate supplies:- Advance Licence may be issued for intermediate supply to a manufacturer-exporter for the import of inputs required in the manufacture of goods to be supplied to the ultimate exporter/deemed exporter holding another Advance Licence.

c) Deemed exports:- Advance Licence can be issued for deemed export to the main contractor for import of inputs required in the manufacture of goods to be supplied to the categories mentioned in paragraph 8.2 (b), (c), (d) (e) (f), (g) (i) and (j) of the Policy.

In addition, in respect of supply of goods to specified projects mentioned in paragraph 8.2 (d) (e) (f), (g) and (j) of the Policy, an Advance Licence for deemed export can also be availed by the sub-contractor of the main contractor to such project provided the name of the sub-contractor(s) appears in the main contract.

Such licence for deemed export can also be issued for supplies made to United Nations Organisations or under the Aid Programme of the United Nations or other multilateral agencies and paid for in foreign exchange.
4.1.4 Advance Licence is issued for duty free import of inputs, as defined in paragraph 4.1.1 subject to actual user condition. Such licences (other than Advance Licence for deemed exports) are exemted from payment of basic customs duty, additional customs duty, education cess, anti dumping duty and safeguard duty, if any.

Advance Licence for deemed export shall be exemted from basic customs duty, additional customs duty and education cess only. However in case of supplies to EOU/SEZ/EHTP/STP/BTP under such licences, anti-dumping duty and safeguard duty shall also be exemted.

4.1.5 Advance Licence and/or materials imported there under shall not be transferable even after completion of export obligation.

4.1.6 Advance Licences (including Advance Licence for deemed exports and intermediate supply) shall be issued with a positive value addition.

In such cases, for calculation of value addition, the notional value of free of cost inputs along with value of other duty-free inputs shall be taken into consideration. However, if all the inputs are supplied free of cost, it shall be covered under paragraph 4.2.7 of the Policy.

**Export Obligation**

4.1.9 The period for fulfilment of the export obligation under Advance Licence shall be as prescribed in the Handbook (Vol.1). Supplies to SEZ would also be counted for fulfillment of export obligation under the Advance Licence for physical exports.

Back-to-Back Inland Letter of Credit

4.1.12 An Advance Licence holder, holder of advance licence for annual requirement and holder of DFRC may, instead of applying for an Advance Release Order, avail of the facility of Back-to-Back Inland Letter of Credit in accordance with the procedure specified in Handbook (Vol.1).
