INSPIRATION IS A LARGE PART OF A HOME

Whether you are dreaming about living in a pure style or you prefer a bohemian design, inspiration is a good place to start when decorating your home. Little things can make a world of a difference, and large furniture can be used in a number of ways that will change the expression of a room completely.

Our goal with this catalogue is therefore to inspire you. To explore new trends, to see things from a different angle – to find exactly those details that make a beautiful room YOUR beautiful room.

The decoration tips you will see are carefully selected by our skilled stylists with a unique eye for forms, colours and significant details.

We have focused on guiding you through the trends that unfold in colours, material and textures. Our carefully composed style groups Deluxe, Global, Upnordic and Urban are all an expression of the ways in which interior trends can manifest themselves in different ways just now.

Finding your own style can be surprisingly easy, if you only follow a number of simple decoration guidelines. Take, as a starting point, the prominent piece of furniture in the room – as in this room, where the sofa is very striking. Choose a secondary colour and keep the styling tone-in-tone to achieve a feeling of elegance and class. If the colour of the furniture is dominant as here, it is a good idea to choose bright, beige shades and avoid contrasting colours in order to maintain a calm and exclusive expression. The floating feeling in the colours provides peace and coherency.

Style tip: Choosing exquisite accessories will make all the difference in your home.
Velvet, metallic colours, prisms, embroideries, pearls and paliettes... Deluxe is a style that does not hide for anyone. In a voluminous, dominant and feminine manner, it decorates the home that welcomes extravagance and plenty of details. Deluxe pays tribute to the romantic and decadent aspects with its shining, smooth and/or velvety surfaces supplemented by soft pastels that bring images of roses and mint into your mind.

DELUXE

Choose a style

Deluxe is leaning towards a more classic style, but can easily be added a twinkle and an edge. This could be in the shape of extraordinary lamps or other spectacular and over-the-top accessories that appear throughout in the entire room. Carpets give an edge in their own fashion, but also contribute to bringing the sofa set and the somewhat bristly accessories together.

Deluxe manifests itself in its many details, which makes it easy to welcome the style in your home. Vases in golden colours or earthy shades, preferably in groups, are a good start. Go for an elegant feeling and a certain volume. Have an eye for the detail and do not be afraid to choose metallic materials – however only in small doses. All in all, do not hold back with the accessories, based on the same motto. The details are decisive. Keep the colours tone-in-tone to achieve maximum elegance, and avoid wild contrasts in the colours – instead, stick to contrasts in textures, and let softness in the shape of e.g. velvet meet hardness as glass and metal.

WARM AND COSY WITH AN ETHNIC EDGE
A room quickly becomes more exciting when shelves appear in a more untraditional manner. Place them in the middle of the room and use them as room dividers or as mere decoration. Choose wide shelves with room for books to stand on both sides facing each other, so they look beautiful no matter which side of the shelf you look at. Choose accessories with a volume as a contrast to the books.

FUNCTIONAL – DAY AND NIGHT
Most homes have rooms with multiple functions. Here multifunctional furniture
is a great asset, regardless of whether it is shelves for books and the possessions
of guests or if it is desks, which also function as decorative shelves. Sofa beds are
popular in the daytime for teen-agers and excellent as spare beds at night.

How to catch the style

Global begins with your own history – in the shape of souvenirs and heirlooms, and the trick is then to find things to supplement them. Let every single piece of accessory stand out from the rest and ooze of being unique. Create a mosaic of colours and patterns, which ensures a better coherence in terms of energy and warmth. So there is plenty of space to create personal rooms, not least with accessories of handmade details.

Strong bonds with nature and a powerful Scandinavian design tradition characterize Upnordic, which is light yet solid at the same time. The numerous salutes to nature are seen in the organic forms, soft edges and symmetry. Natural materials are preferred, which gives room for exceptional crafts in the solid furniture as well as the soft and often knitted textiles. Simplicity is a recurrent theme, as well as for the choice of colours, which particularly consists of delicate green and simple, soft sandy colours.

How to catch the style

There is plenty of room for experimenting, but start with natural materials and natural colours. Flax, wood, glass, wool, cotton, rush and similar materials provide colours, forms as well as textures, which inevitably make you think of Scandinavia. Woven, plaited, knitted or other surfaces, that appear handmade, are a must. It is also an advantage, if the colours are natural and thus supplement the underplayed Scandinavian look.

URBAN COLOURS

Taut, funny and extremely modern – urban is a celebration of geometry, clear colours and graphic prints. The style can be made wild, but with a base of black and white in clear lines, there is room for experimenting and finding out, how far you wish to take it. The straight lines add an edge in the shape of a futuristic and iconic design, graphical details, 3D-effect and a playing with patterns and angles. The surfaces are dominated by high gloss and mat lacquer.

SMALL COLOUR EXPLOSIONS
When two rooms such as a bathroom and a bedroom are adjoining, it is important to create coherence. Both rooms require peace and overview, so using colours in that process is an obvious choice. Choose neutral ground colours such as black and white, and create coherence with just one other colour – preferably one with an edge and visibility.
How to catch the style

Urban style is to a large extent created via the accessories. The large lines are kept tight, so the style finds expression with colours, forms, patterns and personality in boxes, vases, pillows, bowls and not least the pictures on the wall. You can turn it up – or down – depending on your courage, but choose colours with a little edge, which will give a genuine urban feeling.
