Massachusetts is home to so many historic buildings, landscapes and structures that speak to a history going back hundreds, if not thousands, of years. Through these historic resources we maintain a link to our collective past that creates and enhances the character of the places we call home. Taking care of our buildings and landscapes is an important part of preserving our past with an eye toward the future.

From architects and engineers, to stained glass and window restoration, our preservation directory is aimed at providing you with a variety of options to help plan for and preserve your historic resource. Whether it is an old barn, an historic burial ground or an entire commercial block, the Preservation Directory is a valuable way to find the expert advice and assistance your preservation project needs.

Preservation Massachusetts is the statewide non-profit organization that actively promotes the preservation of historic buildings and landscapes as a positive force for economic development and the retention of community character. Since 1985, we have worked with local, state and national partners and organizations to promote, enhance and educate about preservation through a variety of programs and initiatives.

We hope you enjoy this newly designed Preservation Directory and find it helpful and informative. If you found it useful, we encourage you to join us as a member in supporting preservation efforts across Massachusetts!

Regards,

Jim Igoe, President
About the Directory

This directory is provided by Preservation Massachusetts as a service and benefit to all individuals, organizations, municipalities, property owners, etc. seeking professional assistance of those with an expertise in preservation. This directory does not assume to be all inclusive; however all consultants who request inclusion will be listed if they meet the Secretary of the Interiors’ Professional Qualifications Standards, if applicable.

Preservation Massachusetts does not assume any responsibility for the accuracy of the listings or the performance of those listed. All professionals listed must submit applications to Preservation Massachusetts and pay an annual fee. The inclusion of a professional in this not a demonstration of professional competence. Preservation Massachusetts does not accept responsibility for the performance of any consultant as this is not an “approved” list. Anyone using this directory assumes full responsibility for checking the professionals’ credentials. Listing does not imply endorsement or recommendation by Preservation Massachusetts.

About Professional Qualifications

For professional disciplines - architectural history, historic architecture, historians (historic research), and architectural history, there are National Park Service (NPS) Professional Qualification Standards as part of the larger Secretary of the Interior’s Standards and Guidelines for Archaeology and Historic Preservation (36CFR Part 61, Appendix A). The Professional Qualifications Standards represent only a minimum threshold for training and professional experience that practitioners should demonstrate to be considered specialists in their field(s). The NPS guidelines can be viewed at www.cr.nps.gov/local-law/arch_stnds_9.htm

For archaeological assistance, contact the State Archaeologist at the Massachusetts Historical Commission, 617-727-8470.

Preservation Massachusetts encourages anyone seeking assistance to request resumes, work samples and references sufficient to determine the level of experience and quality of services offered by any professional under consideration prior to engaging them in a project.

About Categories

The Preservation Directory is divided into two sections:

Category Index - All professionals are shown under their particular area(s) of expertise in historic preservation. Please note that due to the addition of new categories, not all have categories will have professionals listed.

Directory Listings - Alphabetical listing of all professionals with contact information. Business listings (by company name) have a link to the company's website.
