Thank you for purchasing this Panasonic product. Please read these instructions before operating your set and retain them for future reference. The images shown in this manual are for illustrative purposes only.

Gracias por su decisión de comprar este producto marca Panasonic. Lea estas instrucciones antes de utilizar su televisor y guárdelas para consultarlas en el futuro. Las imágenes mostradas en este manual tienen solamente fines ilustrativos.
Experience an amazing level of multimedia excitement

Enjoy rich multimedia

- Do not display a still picture for a long time
  This causes the image to remain on the plasma screen ("Image retention"). This is not considered a malfunction and is not covered by the warranty.

  - Typical still images
    - Channel number and other logos
    - Image displayed in 4:3 mode
    - SD Card photo
    - Video game
    - Computer image

  To prevent the "Image retention", the screen saver is automatically activated after a few minutes if no signals are sent or no operations are performed.

- Set up
  - Do not place the unit where it's exposed to sunlight or other bright light (including reflections).
  - Use of some types of fluorescent lighting may reduce the remote control's transmission range.

CONEQ™ equalizes acoustic power frequency response and corrects time and phase alignment errors of a speaker system. Speakers with CONEQ perform as near-perfect electro-acoustic transducers providing true to the original sound with the highest musicality and intelligibility.

Safety Precautions

WARNING: To reduce the risk of electric shock, do not remove cover or back.
No user-serviceable parts inside. Refer servicing to qualified service personnel.

WARNING: To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.
Do not place liquid containers (flower vase, cups, cosmetics, etc.) above the set
(including on shelves above, etc.).

Important Safety Instructions

1) Read these instructions.
2) Keep these instructions.
3) Heed all warnings.
4) Follow all instructions.
5) Do not use this apparatus near water.
6) Clean only with dry cloth.
7) Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions.
8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11) Only use attachments / accessories specified by the manufacturer.
12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart / apparatus combination to avoid injury from tip-over.
13) Unplug this apparatus during lightning storms or when unused for long periods of time.
14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
15) To prevent electric shock, ensure the grounding pin on the AC cord power plug is securely connected.

WARNING/CAUTION (TV set)

Be sure to ask a qualified technician to carry out the installation and set-up.
Two or more people are required to install or remove the television.

Some wall mounts (wall-hanging brackets) are not designed to be mounted to walls with steel studs or old cinder block constructions.
Ask your dealer or licensed contractor to properly secure the wall-hanging bracket.

Do not route the TV’s power cord inside the wall.
The power cord was not designed for in-wall mounting. Doing so can lead to fire hazard.

Do not place the Plasma TV or its stand on a sloped or unstable surface.
The Plasma TV may fall or tip over.

Do not support the Plasma TV on a non-specified pedestal.

Do not place the Plasma TV on furniture that can easily be used as steps, such as a chest of drawers.

Do not climb or allow children to climb on the Plasma TV

Place or install the Plasma TV where it cannot be pushed, pulled over or knocked down.

Route all cords and cables such that they cannot be tripped over or pulled by curious children.

Small parts can present choking hazard if accidentally swallowed.
Keep small parts away from young children.
Discard unneeded small parts and other objects, including packaging materials and plastic bags/sheets to prevent them from being played with by young children, creating the potential risk of suffocation.

Set up
This Plasma TV may fall and can cause personal injury or even death if not installed correctly. To prevent personal injury or death, follow these warnings:

Install the Plasma TV in accordance with the manufacturer’s recommended pedestal or stand, corresponding hardware and installation instructions.
This Plasma TV is for use only with the following optional accessories. Use with any other type of optional accessories may cause instability. The following accessories are manufactured by Panasonic Corporation.
• Wall-hanging bracket (Angled)
  TY-WK5P1RW (TC-P55VT30)
  TY-WK6P1RW (TC-P65VT30)
● Do not place any objects on top of the Plasma TV. If water spills onto the Plasma TV or foreign objects get inside it, a short-circuit may occur which could result in fire or electric shock. If any foreign objects get inside the Plasma TV, please consult an Authorized Service Center. In the unlikely event that you receive a shock from this product it is possible that your household outlet may be wired improperly. Have an electrician verify that the TV’s outlet is properly wired. If the symptom persists, have the TV serviced by a qualified authorized technician.

● To prevent the spread of fire, keep candles or other open flames away from this product at all times

■ AC Power Supply Cord
To prevent fire or electric shock:
● The Plasma TV is designed to operate on a 120 V AC, 60 Hz service. Insert the power cord plug as far as it will go into the wall socket. If the plug is not fully inserted, heat may generate, which could cause a fire.
● The included power cord is for use with this unit only.
● Do not use any power cord other than that provided with this TV.
● Do not handle the power cord plug with wet hands.
● Do not do anything that might damage the power supply cord.
● When disconnecting the power supply cord, hold the plug, not the cord.
● Do not use the power supply cord if the plug or cord is damaged. Replace the cord or contact your Authorized Service Center.
● Do not use a 3-prong to 2-prong AC plug adapters to connect your TV’s plug to the wall outlet. Doing so will defeat the TV plug’s safety feature, which can lead to a shock hazard. If the wall outlet does not accommodate a 3-prong plug, have a qualified electrician replace your outlet and check the associated wiring.

■ Handling the power supply cord
● Insert the power plug fully into the socket outlet. (If the power plug is loose, it could generate heat and cause fire.)
● Ensure that the power plug is easily accessible.
● Ensure the earth pin on the power plug is securely connected to prevent electrical shock.
    • An apparatus with CLASS I construction shall be connected to a power socket outlet with a protective earthing connection.
● Do not touch the power plug with a wet hand. (This may cause electrical shock.)
● Do not use any power cord other than that provided with this TV. (This may cause fire or electrical shock.)
● Do not damage the power cord. (A damaged cord may cause fire or electrical shock.)
    • Do not move the TV with the cord plugged in the socket outlet.
    • Do not place a heavy object on the cord or place the cord near a high-temperature object.
    • Do not twist the cord, bend it excessively, or stretch it.
    • Do not pull on the cord. Hold onto the power plug body when disconnecting cord.
    • Do not use a damaged power plug or socket outlet.
● If a problem occurs (such as no picture or no sound), or if smoke or an abnormal odor is detected from the Plasma TV, unplug the power supply cord immediately. Continued use of the TV under these conditions might cause a fire or permanent damage to the TV. Have the TV evaluated by an Authorized Service Center. Servicing of the TV by unauthorized personnel is strongly discouraged due to its high voltage.

● If water or an object gets inside the Plasma TV, if the Plasma TV is dropped, or if the enclosure becomes damaged, unplug the power supply cord immediately. A short-circuit may occur, which could cause a fire. Contact an Authorized Service Center for an evaluation.

CAUTION

● Do not cover the ventilation holes. Doing so may cause the Plasma TV to overheat, which can cause a fire or damage to the Plasma TV.
● Leave a space of 3 15/16” (10 cm) or more at the top, left and right, and 2 3/4” (7 cm) or more at the rear.
● When using the pedestal, keep the space between the bottom of the TV and the pedestal or stand surface clear from objects that may obstruct ventilation.

■ When Moving the Plasma TV
● Be sure to disconnect all cables before moving the Plasma TV. Moving the TV with its cables attached might damage the cables which, in turn, can cause fire or electric shock.
● To prevent an electric shock, disconnect the power plug from the wall outlet as a safety precaution before carrying out any cleaning.
● Transport only in upright position. Transporting the unit with its display panel facing upright or downward may cause damage to the internal circuitry.
● Using a dry cloth, clean any dust from the power supply cord and plug regularly. Build-up of dust on the power cord plug can increase humidity, which might damage the insulation and cause a fire.

This Plasma TV radiates infrared rays; therefore, it may affect other infrared communication equipment. Install your infrared sensor in a place away from direct or reflected light from your Plasma TV.

The TV will still consume some power as long as the power supply cord is connected to the wall outlet.

● Display panel is made of glass. Do not apply strong force or impact to the display panel. This may cause damage resulting in injury.
● The TV is heavy. TV should be handled by 2 or more people. Support as shown to avoid injury by the TV tipping or falling.
DANGER/WARNING/CAUTION (3D Eyewear)

⚠️ DANGER

About Prohibition of Heating
- Do not put 3D Eyewear in fire, heat it or leave it in places that can get hot.
  3D Eyewear contains a lithium-ion polymer rechargeable battery, so heating may result in combustion or rupture that may cause burns or fire.

⚠️ WARNING

About Prevention of Accidental Ingestion
- Do not store any 3D Eyewear parts in places where small children can reach.
  There is a danger small children could swallow such parts by mistake.
  - If a child accidentally swallows such parts, seek immediate medical attention.

About Prohibition of Disassembly
- Do not disassemble or modify the 3D Eyewear.
  When disposing this product, refer “Disposal” (p. 62) and disassemble properly for removing the rechargeable battery.

About Charging
- Charge by connecting the included charging cable to the USB terminal of a Panasonic TV supporting 3D.
  Charging with other devices may result in battery leakage, heating or rupture.
- Do not use the included charging cable for uses other than charging 3D Eyewear.
  Doing so may result in heating, combustion or damage.

⚠️ CAUTION

About 3D Eyewear
- Do not drop, exert pressure on, or step on the 3D Eyewear.
  Doing so may damage the glass section, which may result in injury.
  - Always store the 3D Eyewear in the case provided when not in use.

- Be careful of the tips of the frame when putting on the 3D Eyewear.
  Accidentally inserting the tip of the frame into the eye may cause injury.
- Always keep the 3D Eyewear in a cool, dry place.
  Failure to do so may cause fire or electric shock.
- Be careful not to trap a finger in the hinge section of the 3D Eyewear.
  Doing so may result in injury.
  - Pay special attention when children are using this product.

About Use of 3D Eyewear
- Parents/guardians should monitor children’s viewing habits to avoid their prolonged use without rest periods.
- Use only the 3D Eyewear recommended for this TV.
- Only use the 3D Eyewear for the specified purpose.
- Do not move around while wearing the 3D Eyewear.
  The surrounding area appears dark, which may result in falling or other accidents that may cause injury.

About Viewing of 3D Images
- In the event that you experience dizziness, nausea, or other discomfort while viewing 3D images, discontinue use and rest your eyes.
  - When you set the effect by using “3D adjustment”, take into account that the vision of 3D images varies among different individuals.
- Do not use if the 3D Eyewear is cracked or broken.

CEA CHILD SAFETY NOTICES

⚠️ WARNING

Flat panel displays are not always supported on the proper stands or installed according to the manufacturer’s recommendations. Flat panel displays that are inappropriately situated on dressers, bookcases, shelves, desks, speakers, chests or carts may fall over and may cause personal injury or even death.

The consumer electronics industry (of which Panasonic is a member) is committed to making home entertainment enjoyable and safe. To prevent personal injury or death, be sure to follow the following safety guidelines:

TUNE INTO SAFETY:
- One size does NOT fit all. Follow the manufacturer’s recommendations for the safe installation and use of your flat panel display.
- Carefully read and understand all enclosed instructions for proper use of this product.
- Don’t allow children to climb on or play with furniture and television sets.
- Don’t place flat panel displays on furniture that can easily be used as steps, such as a chest of drawers.
- Remember that children can become excited while watching a program, especially on “larger than life” flat panel displays. Care should be taken to install the display where it cannot be pushed, pulled over, or knocked down.
- Care should be taken to route all cords and cables connected to the flat panel display so that they cannot be pulled or grabbed by curious children.

WALL MOUNTING: IF YOU DECIDE TO WALL MOUNT YOUR FLAT PANEL DISPLAY, ALWAYS:
- Use a mount that has been recommended by the display manufacturer and/or listed by an independent laboratory (such as UL, CSA, ETL).
- Follow all instructions supplied by the display and wall mount manufacturers.
- If you have any doubts about your ability to safely install your flat panel display, contact your retailer about professional installation.
- Make sure the wall where you are mounting the display is appropriate. Some wall mounts are not designed to be mounted to walls with steel studs or old cinder block construction. If you are unsure, contact a professional installer.
- A minimum of two people are required for installation. Flat panel displays can be heavy.

Panasonic recommends that a qualified installer perform the wall-mount installation. See page 4.

The American Academy of Pediatrics discourages television viewing for children younger than two years of age.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the Panasonic Service Center or an experienced radio/TV technician for help.

FCC Caution:
To assure continued compliance, follow the attached installation instructions and use only shielded interface cables when connecting to peripheral devices. Any changes or modifications not expressly approved by Panasonic Corp. of North America could void the user’s authority to operate this device.

FCC Radiation Exposure Statement:
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

FCC Declaration of Conformity
Model No. TC-P55VT30, TC-P65VT30

Responsible Party: Panasonic Corporation of North America
One Panasonic Way, Secaucus, NJ 07094

Contact Source: Panasonic Consumer Electronics Company
1-877-95-VIERA (958-4372)
email: consumerproducts@panasonic.com

This device complies with Part 15 of FCC Rules and RSS-Gen of IC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation of this device.

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

This product is restricted to indoor use due to its operation in the 5.15 to 5.25 GHz frequency range.

FCC and IC require this product to be used indoors for the frequency range 5.15 to 5.25 GHz to reduce the potential for harmful interference to co-channel Mobile Satellite systems. High power radars are allocated as primary users of the 5.25 to 5.35 GHz and 5.65 to 5.85 GHz bands. These radar stations can cause interference with and/or damage this product.

The available scientific evidence does not show that any health problems are associated with using low power wireless devices. There is no proof, however, that these low power wireless devices are absolutely safe.

Low power Wireless devices emit low levels of radio frequency energy (RF) in the microwave range while being used.

Whereas high levels of RF can produce health effects (by heating tissue), exposure to low-level RF that does not produce heating effects causes no known adverse health effects.

Many studies of low-level RF exposures have not found any biological effects. Some studies have suggested that some biological effects might occur, but such findings have not been confirmed by additional research.

Product Identification Marking is located on the bottom of the Wireless LAN Adapter.

CANADIAN NOTICE:
For Model TC-P55VT30, TC-P65VT30
This Class B digital apparatus complies with Canadian ICES-003.

• This camera can be used on VIERA Connect.
• For details, read the manual of the Communication Camera.

Warning

- In order to maintain the TV's performance and safety, be absolutely sure to ask your dealer or a licensed contractor to secure the wall-hanging brackets.
- Carefully read the instructions accompanying optional accessories, and be absolutely sure to take steps to prevent the TV from tipping over.
- Handle the TV carefully during installation since subjecting it to impact or other forces may cause product damage.
- Take care when fixing wall brackets to the wall. Always ensure that there are no electrical cables or pipes in the wall before hanging the bracket.
- When using the angled-type wall hanging bracket, please ensure that there is sufficient space for the connecting cables not to press against the wall when the TV is tilted forward.
- For safety reasons, remove units no longer being used from their wall-mounted locations.

Attaching the pedestal to TV

Assembling the pedestal

[TC-P55VT30]
- Fix securely with assembly screws A (Total 4 screws).
- Tighten screws firmly.

[TC-P65VT30]
- Fix securely with assembly screws A (Total 6 screws).
- Tighten screws firmly using Allen wrench C.

Set-up
- Carry out work on a horizontal and level surface.
- Tighten assembly screws B (total 4 screws) loosely at first, then tighten them firmly to fix securely.

Removing the pedestal from the TV
Be sure to remove the pedestal in the following way when using the wall hanging bracket or repacking the TV.
1. Remove the assembly screws B from the TV.
2. Pull out the TV from the pedestal.
3. Remove the assembly screws A from the pole.

Warning
Do not disassemble or modify the pedestal.
● Otherwise the TV may fall over and become damaged, and personal injury may result.

Caution
Do not use any pedestal other than that provided with this TV.
● Otherwise the TV may fall over and become damaged, and personal injury may result.
Do not use the pedestal if it becomes warped or physically damaged.
● If you use the pedestal when it is physically damaged, personal injury may result. Contact your nearest Panasonic Dealer immediately.
During set-up, make sure that all screws are securely tightened.
● If sufficient care is not taken to ensure screws are properly tightened during assembly, the pedestal will not be strong enough to support the TV, and it might fall over and become damaged, and personal injury may result.
When removing the pedestal, do not remove the pedestal by any methods other than the specified procedure. (p. 9)
● Otherwise the TV and/or pedestal may fall over and become damaged, and personal injury may result.

Installing the remote’s batteries

1 Pull open
2 Close

Caution
Incorrect installation may cause battery leakage and corrosion, resulting in damage to the remote control.
● Do not mix old and new batteries.
● Do not mix different battery types (such as alkaline and manganese batteries).
● Do not use rechargeable (Ni-Cd) batteries.
● Do not burn or break batteries.

Note the correct polarity (+ or -).

Cable Binding Instructions

Do not bundle the Antenna cable and AC cord together (could cause distorted image).

Fasten the cables with the Cable clamper as necessary.

When using the options, follow the option's assembly manual to fix cables.
Identifying Controls

TV controls/indicators

Front of the TV

- Remote control sensor
- POWER button
- Power indicator (on: red, off: no light)
- C.A.T.S. sensor
- Plasma C.A.T.S. (Contrast Automatic Tracking System) (p. 51)

Back of the TV

- 3D Eyewear transmitter
- Selects channels in sequence
- Volume up/down
- Displays the Main Menu
- Changes the input mode
- Chooses Menu and Submenu entries

Note

- The TV consumes a small amount of electric energy even when turned off.
- Do not place any objects between the TV remote control sensor and remote control.

Remote control

- Switches TV On or Off (Standby)
- Displays 3D settings. (p. 27)
- Lights the buttons for 5 seconds
- Press again to turn off the button lights
- Select source to watch (p. 23)
- Switches to input terminal that has “GAME” label (p. 23)
- Displays Main Menu (p. 50)
- Displays Sub Menu for special functions (when available) (p. 20)
- Colored buttons (used for various functions)
- Volume up/down
- Sound Mute On/Off
- Changes aspect ratio and zoom (p. 20, 57)
- Switches to previously viewed channel or input
- External equipment operations (p. 39)
- Channels up/down, when viewing from ANT/Cable source
- Displays or removes the channel banner (p. 19)
- Operates the Favorite channel list function (p. 20)
- Numeric keypad to select any channel or press to enter alphanumeric input in menus
- Use for digital channels (p. 19)
First Time Setup

The first time setup screen is displayed only when the TV is turned on for the first time after the power cord is inserted into a wall outlet and when “Auto power on” (p. 55) is set to “No”.

1. **Turn the TV On with the POWER button**
   (TV)
   (Remote)
   
   **Configure your viewing mode**

2. **Select your language**
   
   **Select your country**
   
   **Select your viewing mode** (Be sure to select “Home use”)

   ● Please confirm your selection (Home Use) before pressing OK button.

   ■ If you select “Store Demonstration” by mistake in ③, confirmation screen will be displayed.

   ● Select “No” and return to previous screen ③
   ● If you select “Yes”, Screen enters the store demonstration mode.

   To display the “Set viewing mode” screen again as shown above and select “Home Use”, do one of the following:
   • Press and hold down the front POWER button for at least five seconds.
   • Unplug power cord for 30 seconds and plug it again.

**Note**

● If you use any other step other than ② then turn the TV off, or if you used the EXIT button to quit before completing the settings, the next time you turn the TV on, “First time setup” will not be automatically displayed.
   • The settings up to that point are saved.
   • You can start “First time setup”. (p. 55)

● Language, ANT/Cable setup, Input labels, and Clock can also be changed in the Settings Menu. (p. 55)
**ANT/Cable setup**

1. Do you use a Cable, Satellite or Fiber Optic box with this TV?

2. **a** Select signal type (Cable/Antenna)

3. Select scan type

4. Start scanning

5. Complete scanning

---

**Label the inputs for easy identification (Label inputs)**

To name each input, follow the instructions on screen. When done, select NEXT and press OK to go to the next step.

---

**Note**

- About broadcasting systems

**Analog (NTSC):** Conventional broadcasting

**Digital (ATSC):** New programming that allows you to view more channels featuring high-quality video and sound

---

Follow the instructions on screen to complete the following operations.

- Select "Not used" for any back-panel input that has no device connected to it. Afterward, the input will be skipped when pressing INPUT, for your convenience.
- The input labels can be changed at any time from the TV’s setup menu

Downloaded From TV-Manual.com Manuals
Configure Network settings

1. Select the Network type
   - Set later: Go to 3. You can set in “Setup” menu later.
   - Wireless (WiFi): Start “Wireless network” (p. 18)

2. Select the setting mode
   - Automatic: Press OK to start setup automatically.
   - Error screen is displayed when Network connection has failed.

3. Complete “Network settings”
   - Helpful information is displayed when you successfully complete “Network settings”.

Adjust the Clock (Set clock)

When done, select NEXT and press OK to go to the next step.

- Manual setting
  - Press to exit from a menu screen
  - Press to go back to the previous screen

- Auto setting
  - Manual: Adjust the clock manually (Year/Month/Day/Hour/Minute)
  - Auto: The clock is adjusted automatically via Internet service. Only available when the TV is on a network. -->Set “Network settings” first.
  - Select your time zone. (EST/CST/MST/PST/AKST/HST/NST/AST)

- DST
  - Set DST (Daylight Saving Time) setting. (On/Off)
  - On: Advances the clock one hour from the time it is set according to the time zone.
Complete First time setup

Congratulations! You are done.

The First time setup can be repeated at any time.
Press MENU and select SETUP; then “First time setup”.

To watch TV via a Cable box, Satellite receiver, or any other source (DVD, DVR, gaming device, etc.), press the INPUT button and select the appropriate input.

About wireless LAN

- To use the Wireless LAN Adapter, an access point needs to be obtained.
- For the additional information for Wireless LAN Adapters, check the following website: http://Panasonic.com/NetConnect
- It is recommended to use the Wireless LAN Adapter with the supplied extension cable.
- Do not use the Wireless LAN Adapter to connect to any wireless network (SSID*) for which you do not have usage rights. Such networks may be listed as a result of searches. However, using them may be regarded as illegal access.
  * SSID is a name for identifying a particular wireless network for transmission.
- Do not subject the Wireless LAN Adapter to high temperatures, direct sunlight or moisture.
- Do not bend, or subject the Wireless LAN Adapter to strong impacts.
- Do not disassemble or alter the Wireless LAN Adapter in any way.
- Do not attempt to install the Wireless LAN Adapter in any incompatible device.
- When VIERA Connect, Network camera, DLNA, or other device is using the network, do not disconnect the Wireless LAN Adapter.
- Check that the Access point supports WPS*.
  (If it does not support WPS, the encryption key of the Access point is required when configuring settings.)
- Follow the instructions on the Access point setup screen and configure the appropriate security settings.
  For more details on setting of Access point, please refer to operating manual for the Access point.
- We recommend using 11n (5 GHz) for the wireless system between the Wireless LAN Adapter and Access point.
  Communication is also possible with 11a, 11b, and 11g (2.4 GHz), but the communication speed may be slower.
- If the wireless system of the Access point is changed, devices that could connect by wireless LAN may no longer be able to connect.
- Data transmitted and received over radio waves may be intercepted and monitored.
- Keep the TV away from the following devices as much as possible: Wireless LAN, microwaves, and other devices that use 2.4 GHz and 5 GHz signals.
  Otherwise, the TV failures such as malfunction may occur due to the radio wave interference.
- When noises occur due to the static electricity, etc., the TV might stop operating for the protection of the devices. In this case, turn the TV Off with power On / Off switch, then turn it On again.
  * WPS: Wi-Fi Protected Setup

Wireless network (First time setup) in 5

1. Display “Wireless network”
2. Select the connection method

- Follow the directions on screen to complete the setting.
- See page 43 for more information.
Watching TV

Turn power on

(TV)

(Remote)

Note

Please select correct input --> INPUT (p. 23)

■ VIERA Connect Banner appears

Press OK/INTERNET (or VIERA CAST) button to enter VIERA Connect. (p. 45)

● To hide the banner: Press any button except OK/INTERNET (or VIERA CAST) button. (Time-out period of this banner is 5 sec.)

● You can also set the banner display status (on/off) in the Setup menu. (p. 55)

Menu > Setup > Advanced setup > VIERA Connect Banner

Select a channel number

Press up or down

Also available side CH button on the unit.

[For Cable/Satellite box connection]

- Use your connected box’s remote control.

To directly enter the digital channel number

When tuning to a digital channel, press the button to enter the minor number in a compound channel number.

example: CH15-1: 15 5 0 1

Note

- Reselect “Cable” or “Antenna” in “ANT in” of “ANT/Cable setup” to switch the signal reception between cable TV and antenna. (p. 16, 48)
- The channel number and volume level remain the same even after the TV is turned off.

Other Useful Functions

Listen with SAP (Secondary Audio Programming)

Select the Audio mode for watching TV

Digital mode

Press SAP to select next Audio track (if available) when receiving a digital channel.

Audio track 1 of 2

(English)

Analog mode

Press SAP to select the desired Audio mode.

- Each press of SAP will change the Audio mode. (Stereo/SAP/Mono)

- SAP is not available when watching TV with a Cable or Satellite box connected via HDMI.

- Contact your Cable or Satellite operator for instructions on enabling SAP with their box.

Closed Caption

Switches the Closed Caption mode On or Off

Closed caption Off

Closed caption On

Closed caption On mute

Closed Caption is not available when watching TV with a Cable or Satellite box connected via HDMI.

Contact your Cable or Satellite operator for instructions on enabling CC with their box.

Displaying Information

Displays and removes information. When watching programming via the Antenna/Cable input, shows the channel banner.

INFO

Channel

THE NEWS

TV-G

Standard

4:3

Clock

12:30 PM

Station identifier

SAP indication

Signal resolution

Sleep timer remaining time

Aspect ratio

Downloaded From TV-Manual.com Manuals
Change aspect ratio and Zoom the picture

Press FORMAT to cycle through the aspect modes (p. 57)

- 480i, 480p: FULL/JUST/4:3/ZOOM
- 1080p, 1080i, 720p: FULL/H-FILL/JUST/4:3/ZOOM

Use when the picture does not fill the whole screen (bars appears on either side of the image) or portions of the picture is trimmed.

**Note**

1. Some content, such as film-based movies, are available in extra-wide format. Top and bottom bars are unavailable.
2. Connected devices, such as Cable/Satellite box, DVD/Blu-ray players and game consoles have their own aspect (format) settings. Adjust the device’s aspect settings.

Display the SUB MENU

Press SUB MENU to show the Sub Menu screen

This menu consists of shortcuts to convenient functions. Sub menu is only available when the TV is using the Antenna/Cable input, not when using Cable or Satellite box.

### Setup SUB MENU

- Specify favorites or type of channels to view when pressing the channel up/down button.
- Set favorite channel (below)
- Edit the channel identifier (p. 49)
- Check the signal strength (p. 49)

Call up a favorite channel

**FAVORITE**

Channel numbers registered in Favorite are displayed on the favorite tune screen. Select the desired broadcast station with the cursor or use the number buttons. (p. 19)

Set the Favorite channel

Set favorite 1/3

1. select the list number
2. save the displayed channel
3. select the list number (to save the channel without pressing OK)

Delete a favorite channel

Set favorite 1/3

1. select
2. delete (while holding down)

To change the page

Press repeatedly to change between pages (1/3, 2/3, 3/3 or exit)

Changes the page forward/backward

Favorite channels cannot be set when using Cable or Satellite box.
Other Useful operations

Entering characters

You can use the remote control keys to enter the alphanumeric characters.

Switches input mode

![Switches input mode](image)

- ABC → abc → 123

Press each number key to cycle through the alphanumeric character

- You can also use a USB keyboard (not supplied) to enter the alphanumeric characters.
- Keyboard type (p. 55)

Password setting/entering

You need to enter the password when you access locked channel or inputs.

Input your 4-digit password

- If it is your first time entering the password, enter the password twice in order to register it.
- Make a note of your password. Do not forget it. (If you have forgotten your password, consult your local dealer.)
- When you select a locked channel, a message will be displayed that allows you to view the channel after you input your password.
- Change password (p. 54)

Operate USB keyboard

You can operate non-character keys as remote control keys.

2 HDMI 1 GAME
3 HDMI 2
4 HDMI 3
5 HDMI 4
6 Component AUX
7 Video
8 PC

(shortcut) Press the corresponding NUMBER button on the remote control to select the input of your choice. Or, press the INPUT button repeatedly, to cycle through the available inputs.

* set unused input to “Not used” (below) for quick skipping.

Select the input of your choice, then press OK.

Note
- The input label will be displayed on the “Input select” screen if the Input label was customized.

Press Game to switch to the game screen
Switches to input terminal that has “GAME” label.

- Cycle through the input terminals if there are multiple input terminals that have “GAME” label.

- If there is no input terminal with “GAME” label, you cannot switch the input terminal to any other input terminal than the one currently selected.

Operate the connected equipment directly or using the remote control supplied with the equipment

Note
- For details, see the manual for the connected equipment.
- PC adjustments (p. 52)
You can enjoy 3D images by wearing the 3D Eyewear supplied with this TV and to view 3D broadcasts and 3D image software.

Optional Accessories (p.8)

### Basic features of 3D Eyewear

This product cannot be used as sunglasses.
This product can be worn over vision correction glasses.

#### Part names and functions

**Infra-red receiver**
Receives infra-red signals from the television. The liquid crystal shutter open/close timing is controlled by receiving infra-red signals from the television, which provide 3D expression of the images. If the eyewear stops receiving infra-red signal from the television, the power automatically switches off after 5 minutes.

**Liquid Crystal Shutter**
(lens)
Controls the images for 3D viewing. The left and right liquid crystal shutters are alternately opened and closed in time with the left side and right side images that are alternately displayed on the television to achieve the 3D effect.

**Power switch (bottom side of 3D Eyewear)**
Switches on the 3D Eyewear power. The 3D Eyewear is turned on by setting the power switch to "ON". Set the power switch to "OFF" to turn off the 3D Eyewear.

**Charging port**
Connect the charging cable. (p. 25)

**Indicator lamp**
Lights or flashes during use or charging to show the status of the rechargeable battery.

### Battery status shown by indicator lamp

Basic

Viewing 3D images on TV

Accessories

3D Eyewear (1)  3D Eyewear case (1)  Charging cable (1)  Ferrite core (1)

Attaching Ferrite Core

Be sure to attach the provided ferrite core to the charging cable to reduce interference or electrical noise.

1. Attach the ferrite core as close to USB connector of the charging cable as shown.
2. Close the ferrite core until it clicks.

Charging the 3D Eyewear

1. Turn off the television power, and set the 3D Eyewear power switch to “OFF”.
2. Connect as shown in the diagram, and turn on the television power.
   - The indicator lamp lights red, and charging starts.
   - When the indicator lamp turns off, charging is complete.
   (Approximately 2 hours required)
3. Turn off the television power, and remove the charging cable.

Note

- Be sure to turn the television power on when charging. The battery will not be charged when the television power is off.
Using Precautions

**Liquid Crystal Shutter**
- Do not apply pressure to the liquid crystal shutter. Also, do not drop or bend the 3D Eyewear.
- Do not scratch the surface of the liquid crystal shutter with a pointed instrument etc.
  Doing so may cause damage to the 3D Eyewear, and reduce the quality of the 3D image.

**Infra-red receiver section**
- Do not soil the infra-red receiver section or attach stickers etc. to it.
  - Doing so may prevent the receiver from receiving signals from the television, which may prevent the 3D Eyewear from operating normally.
- If the 3D Eyewear is affected by other infra-red data communication equipment, the 3D images may not be displayed correctly.

**Cautions During Viewing**
- Do not expose the infra-red receiver section to strong light such as direct sunlight and fluorescent light. The 3D image may not be displayed correctly.
- Do not use devices that emit strong electromagnetic waves (such as cellular phones or personal transceivers) near the 3D Eyewear. Doing so may cause the 3D Eyewear to malfunction.
- The 3D Eyewear cannot operate fully at high or low temperatures. Please use within the specified usage temperature range (p. 67).
- If the 3D Eyewear is used in a room in which fluorescent lights (50 Hz) are used, the light within the room may appear to be flickering. In this case, either darken or switch off the fluorescent lights when using the 3D Eyewear.
- Wear the 3D Eyewear properly. The 3D Eyewear may not operate correctly if worn upside down or back-to-front.
- Other kinds of displays (such as computer screens, digital clocks, or calculators etc.) may be difficult to see while wearing the 3D Eyewear. (The polarizing axis does not match, causing the displays to appear black.)
- Do not wear the 3D Eyewear when watching anything other than 3D images.
  - Individual differences may occur in which the 3D images are difficult to see, or cannot be seen, especially in users that have a different level of eyesight between the left and right eyes. Take the necessary steps (wearing glasses etc.) to correct your eyesight before use.

**For comfortable viewing**
- View the screen at a distance at least 3 times further than the effective height of the screen.
  - Recommended distance:
    - For a 55-inch television, 6'8" (2.1 m) or more.
    - For a 65-inch television, 7'10" (2.4 m) or more.
  - Using the 3D Eyewear at a distance closer than the recommended distance may cause eyesight fatigue.
  - When the top and bottom area of the screen is blackened, such as during some movies, view the screen at a distance 3 times further than the height of the actual image. (That makes the distance closer than above recommended distance.)

**Viewing 3D images**
- When watching 3D movies, take an appropriate length break after watching a movie.
- When watching 3D content on interactive devices such as 3D games or computers, take an appropriate length break after using for 30 - 60 minutes. Prolonged use may cause eyesight fatigue.

Using the television menu controls, set so that 3D images are shown.
- You can watch 3D images in the following cases:
  - When a 3D image supporting Blu-ray Disc is played on a 3D image supporting player/recorder connected using a HDMI cable to a 3D image supporting television.
  - 3D image supported broadcast (program)
  - 3D Photo, 3D Movie taken by LUMIX/Camcorder.
  - 2D→3D (Simulated 3D) ➔ p. 58

**Wearing the 3D Eyewear**

1. Set the power switch to "ON". (The indicator lamp will light for approximately 2 seconds, then flash once approximately every 2 seconds.)
2. Put on the 3D Eyewear

**View**

- When the HDMI receives information in which 3D mode is detected, 3D images are automatically displayed according to the signal.
  - If the 3D images are not displayed correctly or the images cause discomfort, the images can be adjusted by “3D format select” or “3D settings”.
  - Change the view 3D⇔2D, 3D settings (p. 27)

**After Use**

1. Set the 3D Eyewear power switch to “OFF”. (The 3D Eyewear indicator lamp turns off, and the power turns off.)
2. After using the 3D Eyewear, store it in the case provided.
**Change the view 3D⇔2D**

- Simply switches 3D⇔2D images (Auto mode)
  
  ![3D format select](example)

  - 3D format select
    - 3D
    - 2D
  
  (example)

  - 3D⇔2D images (Auto mode)
  - VIERA TOOLS → p. 22
  - “3D” icon also available.

- Change 3D format (Manual mode)
  During above operation press red button and switch to Manual mode.

  1. Display “3D format select (Manual)"
  2. Press 3D to cycle through the 3D format

  ![3D format select (Manual)](example)

**3D settings (Adjust 3D images)**

1. Select “3D settings” in “Setup”
   - How to Use Menu Functions (p. 50)
   - Using “Setup” menu (p. 55)
2. Select the item and set

<table>
<thead>
<tr>
<th>Settings</th>
<th>Item Description</th>
</tr>
</thead>
</table>
| Auto detect 3D            | Auto 1: Switches to 3D display when 3D indication is available (HDMI (3D), AVCHD etc.)
|                           | Auto 2: Same as Auto 1, plus detects 3D signal by identifying similar image in side by side or top-and-bottom 3D formats.
|                           | Note: choose 3D mode manually, when auto detection is not available. (Off/Auto 1/Auto 2) |
| 3D signal notification    | On: Displays a message according to the signal received by the “Auto detect 3D”. (On/Off) |
| 2D→3D depth               | Adjusts 3D depth. Available only when “2D→3D” is selected in “3D format select”. (Minimum/Medium/Maximum) |
| 3D adjustment             | See above. (3D adjustment (On/Off), Effect (-3 to +3)) |
| Left / Right swap         | Change this to On when the phases are reversed. (when there is an unusual sense of depth). (Normal/Swapped) |
| Diagonal line filter      | On: Resolves discomfort caused by receiving a quincunx matrix signal. (On/Off) |
| Safety precautions        | Displays message for viewing 3D images. |

* The perceived three dimensional effects of the 3D Eyewear differ from person-to-person.
* If a signal received from an external device is different from the 3D setting of the TV, such as 2D signal when the TV is set to 3D mode, the images may not be displayed correctly.
Using Media player

You can view still and motion images and play music saved on a USB flash memory and an SD card.

TV
Back to TV
VIERA Link menu (p. 38)
Simultaneously control all Panasonic “HDAVI Control” equipped components using one button on the TV remote.
Enjoy additional HDMI Inter-Operability with compatible Panasonic products.
This TV supports “HDAVI Control 5” function.
Connections to equipment (DVD recorder DIGA, HD Camcorder, Home theater system, Amplifier, etc.) with HDMI cables enables VIERA Link controls.

Equipment with the “HDAVI Control” function enables the following operations:

<table>
<thead>
<tr>
<th>Version</th>
<th>Operations (See p. 36-39, for more information)</th>
</tr>
</thead>
</table>
| HDAVI Control or later| • Automatic Input Switching
|                       | • Power on link
|                       | • Power off link
|                       | • Default speakers
|                       | • Speaker control                                                        |
| HDAVI Control 2 or later| • VIERA Link control only with the TV’s remote control
|                       | • Unselected device energy save (for available equipment only)            |
| HDAVI Control 3 or later| • Provides setting information (Language, time. etc.)
|                       | • Automatic lip-sync function                                            |
| HDAVI Control 4 or later| • Energy saving mode (with Quick Start mode)                            |
| HDAVI Control 5        | • Audio Return Channel
                        | Audio Return Channel (ARC) is a function that enables digital sound signals to be sent via an HDMI cable back from the TV to a connected audio device.

When adding new equipment, reconnecting equipment or changing the setup after the connection, turn the equipment on and then switch the TV on. Set the input mode to HDMI1, HDMI 2, HDMI 3, HDMI 4 (p. 23), and make sure that the image is displayed correctly.

VIERA Link “HDAVI Control”, is based on the control functions provided by HDMI and industry standard known as HDMI CEC (Consumer Electronics Control), with unique function that we have developed and added. As such, its operation with other manufacturers’ equipment that supports HDMI CEC cannot be guaranteed.
Please refer to the individual manuals for other manufacturers’ equipment supporting the VIERA Link function.

HDMI cable

This function needs an HDMI compliant (fully wired) cable. Non-HDMI-compliant cables cannot be utilized.
It is recommended that you use Panasonic’s HDMI cable. Recommended part number:
RP-CDHS15 (4.9 ft/1.5 m), RP-CDHS30 (9.8 ft/3.0 m), RP-CDHS50 (16.4 ft/5.0 m)
* For more details on the external equipment’s connections, please refer to the operating manual for the equipment.
**VIERA Link™ Connections (with VIERA Link function)**

### Terminal overview

![Back of the TV](image)

### Connecting DVD Recorder (DIGA)

![DVD recorder (DIGA) with VIERA Link function](image)

### Connecting Home theater system/AV amp

HDMI 1 is recommended.

![Home theater systems with VIERA Link function](image)

No optical cable is necessary when connecting a Home Theater supporting "HDAVI control 5" with an HDMI cable. Audio will be supported via ARC (Audio Return Channel) (p. 34)

- One AV amp and one DVD recorder (DIGA) can be operated with this unit.

### Connecting HD Camcorder/Digital camera

Press INPUT and select an available HDMI terminal, then connect the camcorder to this input. After connection, confirm the HDAVI control functions. (p. 36-39)

![HD Camcorder with VIERA Link function](image)

![LUMIX with VIERA Link function](image)

If connection (or setting) of equipment compatible with HDAVI control is changed, switch the power of this unit Off and On again while the power of all equipment is On (so that the unit can correctly recognize the connected equipment) and check that the connected equipment playback operates.

**Note**

- Individual HDMI equipment may require additional menu settings specific to each model. Please refer to their respective manuals.
- When audio from other equipment connected to this unit via HDMI is output using "DIGITAL AUDIO OUT" of this unit, the system switches to 2CH audio.
- When connecting to an AV amp via HDMI, you can enjoy higher sound quality.
- Some devices use Mini-HDMI terminal. HDMI (type A) to Mini-HDMI (type C) cable or adapter should be used.
To use all VIERA Link functions: After everything is connected, in VIERA Link settings menu, set “VIERA Link” to “On”. Some features are disabled depending on the “HDAVI Control” version of the equipment. Please check the list (p. 34).

1. Display the menu

2. Select “VIERA Link settings” in “Setup”

3. Select “VIERA Link”

4. Select “On” (default is On)

5. Select and make other settings
**Automatic Input Switching**

When using a Blu-ray Disc player, DVD player/recorder or Home theater system, the TV will automatically change to the appropriate input, when playback begins on one of those devices.
- For a Home theater system the speakers automatically switch to the theater system.

**Power on link**

Yes: The TV is turned on automatically and switches to the appropriate HDMI input whenever VIERA Link compatible equipment is initially turned on and the Play mode is selected.

**Power off link**

When “Yes” is selected and the TV is turned off, all connected VIERA Link compatible equipment is also automatically turned off.
- A Panasonic DVD Recorder will not turn off if it is still in Rec mode.
- The TV remains on even if the VIERA Link compatible equipment is turned off.

**Energy saving mode**

Quick Start: When TV is turned off, all connected VIERA Link compatible equipment is moved to ECO Standby mode* automatically under these conditions.
- Power off link:(Yes), The connected equipment has “HDAVI Control 4 or later (with Quick Start mode)”
* Minimum power consumption of Standby condition for the equipment.

**Unselected device energy save**

Yes: The connected VIERA Link compatible equipment will be turned off automatically when not in use under these conditions.
- The connected equipment has “HDAVI Control 2 or later” (for available equipment only)
  [ Example of timing for operation ]
  - When the input is switched from the HDMI.

**Default speakers**

“TV” is the default setting. To set the Home theater system as Default speakers, change the Default speakers setting from “TV” to “Theater”. Sound will be output from the Home theater whenever the TV is powered on.

**Automatic lip-sync function**

Minimizes lip-sync delays between the picture and audio when you connect to a Panasonic theater system or Amplifier.

**TV provided setting information**

The following information about the TV settings can be transmitted to each piece of equipment (Recorder/Home theater/Player) that has “HDAVI Control 3 or later” function connected to a TV with an HDMI cable.

<table>
<thead>
<tr>
<th>Transmittable data</th>
<th>Recorder</th>
<th>Home theater</th>
<th>Player</th>
</tr>
</thead>
<tbody>
<tr>
<td>① On Screen Display Language setting</td>
<td>○</td>
<td>○</td>
<td>○</td>
</tr>
<tr>
<td>(English/Español/Français)</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>② Panel Aspect Ratio</td>
<td>○</td>

<td>○</td>
</tr>
<tr>
<td>(16:9 fixed)</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>③ Closed caption information</td>
<td>○</td>
<td>---</td>
<td>---</td>
</tr>
<tr>
<td>(Mode/CC type/Digital setting)</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Note**

- There is a possibility that all the GUI language information might be set from equipment that has an HDMI CEC function connected to the TV with an HDMI cable. Depending on the operating conditions or the specification for each piece of equipment the setting may or may not be applied.
- For more details on the external equipment’s operation, please refer to the operating manual for the equipment.
Some features are disabled depending on the “HDAVI Control” version of the equipment. Please check the list (p. 34)

1. Display the VIERA Link menu

2. Select the item

3. Select

4. Set

- Items in the VIERA Link menu may be grayed out if no compatible equipment is connected (must be HDAVI Control 2 or later) or if the equipment has not initiated a connection with the TV. In that case, switch the equipment’s power Off and On while the TV is On. For further details, see “VIERA Link” on page 36.
Speaker control

You can select the Home theater or TV speakers for audio output.
Control the theater speakers with the TV remote control.
This function is available only when a Panasonic Amplifier
or Player theater is connected.

1. Select “Speaker output”
2. Select “Home theater” or “TV”

**Home theater:** Adjustment for the equipment

- Volume up / down ➔
- Mute ➔

- The sound of the TV is muted.
- When the equipment is turned off, the TV speakers take over.
- Selecting “Home theater” turns the equipment on automatically if it is in Standby mode.

**TV:** The TV speakers are on.

VIERA Link control only with the TV’s remote control

In the VIERA Link menu, you can select HDMI connected equipment and access it quickly. Continue using your TV remote control to operate the equipment, pointing it at the TV.

1. Select “VIERA Link control”
2. Select the equipment you want to access
   (Recorder/Home theater/Player/Camcorder/LUMIX/Digital camera/Network camera)
   ● Using VIERA TOOLS (p. 22)

**Note**

- If there is more than one equipment item, a number after the name indicates the number of items. (e.g. Recorder 1/Recorder 2/Recorder 3...)
- The number of equipment items that can be connected is three for recorders, and a total of three for Home theater/Player/Camcorder/LUMIX/Digital camera/Network camera.

3. Operate the equipment with the TV remote control, pointing it at the TV
   ● To operate the equipment, read the manual for the equipment.

Available TV remote control buttons

Whether an operation is available differs depending on the connected equipment.

<table>
<thead>
<tr>
<th>Button</th>

Back to TV

Returns the input selection of the device selected with the VIERA Link Control to the TV input.

Select “Back to TV”
Using Network services

Available Network service and features

■ VIERA Connect ➔ p. 45
Easily expandable cloud-based services and carefully selected apps.

■ Using DLNA feature (Home network) ➔ p. 46
This TV is a DLNA Certified™ product.
DLNA (Digital Living Network Alliance) is a standard that makes DLNA Certified digital electronics easier and more convenient to use on a home network. To learn more, visit www.dlna.org.
It allows you to share photos, videos and music stored in the DMS (for example, PC with windows 7 installed, etc.) connected to your home network, and enjoy watching them on the TV screen as DMP or DMR.

DMS (Digital Media Server)
Ensure the connected equipment has a DLNA Certified media server.
Store photos, videos or music in the media server, and then you can watch them on the TV.
“Windows 7” is the server software that has been tested for the performance with this TV (current as of January, 2011).
For installing, read the manual for the server software.
● The DLNA control function of Windows 7 is not supported with this TV.
● When a server software for the media server is installed on the PC, the data may be at risk of being accessed by other people. Please be aware of the settings and connections under network circumstances at the office, at a hotel or even at home when not using a router.

DMP (Digital Media Player)
Finds the content on DMS and provides playback.

DMR (Digital Media Renderer)
Plays content received from the DMC, which will find content from DMS.

DMC (Digital Media Controller)
Finds the content on DMS and plays it on the DMR (This TV). (e.g. PDA, Internet tablets etc.)

■ DLNA remote control
This TV supports the DLNA control function.
To use this function, set the “Network link” (p. 44)

■ Using Network camera ➔ p. 47
1. **Contact your Broadband service provider**

   NOTICE: If you don’t have Internet service by your local provider, please order a high-speed Internet service at no less than the following connection speed. If you already have such service, make sure that the connection speed exceeds the following.
   - Required speed (effective): at least 1.5 Mbps for SD and 6 Mbps for HD picture quality, respectively.
   - Dial-up Internet service cannot be used for VIERA Connect.

2. **Select wired or wireless connection**

   If the Cable/DSL modem is close to the TV and you have only one TV set, you may choose a wired connection. If the Cable/DSL modem is far from the TV and/or you have more TVs in the house, you may want to use a wireless network.

3. **Connecting to the Internet**

   **A Wired connection (Directly connected)**
   If you are not using the network for connecting anything else but the TV, you could just connect the TV directly to the Cable/DSL Ethernet connection.

   **B Wired connection (Using Router)**
   If you are using the network for connecting various equipment and want to connect the TV, you should use a router to connect the TV to the Internet.

   **C Wireless connection**
   If you are using the network for connecting various equipment and want to connect the TV, you could also use a Wireless LAN Adapter and Access point to connect the TV to the Internet.

   Ensure to use a LAN straight cable for this connection.

   Ensure to use a LAN cross cable for this connection.

   To use only DLNA features or Network camera, you can operate the features without Broadband network environment.

---

**Network Connections**

**Using Network services**

**Advanced**
Network settings

This is a setting for connecting to a broadband environment.

1. Display the menu

2. Select “Network settings”

3. Select the settings and set

Connection test

Check that the Network settings are as shown below, and then start “Connection test”.

1. Select “Connection test” and press OK
   (It takes a while to cancel the test.)
2. Displayed Connection test screen

3. Complete Connection test
   Success--->Completion screen is displayed.
   Error--->Follow the directions on screen to complete the setting.
   If you perform the Proxy settings, check the Proxy address and the Proxy port number.

Network connection

Select Network type (Ethernet cable/Wireless (WiFi))

Wireless network (Confirm Current settings and status)

This setting is performed only when “Wireless (WiFi)” is selected in “Network connection” above.

1. Displayed “Current settings and status” screen (If connected with Wireless LAN Adapter)

   You can confirm the AP connection status.
   (SSID/Wireless type/Security type/Encryption type/Connection status /Signal strength)

2. When you change “Wireless network”--->Press “No”
   See “Sets / Changes wireless network setting” on p. 43 and follow the directions on screen to complete the setting.

   You need to be “Connected” to use network devices.
   Please set Access point settings to “Connected”.

Downloaded From TV-Manual.com Manuals
Wireless network (Wireless network setting)

Sets / Changes wireless network setting

① Press “Wireless network” and display setting screen
② Follow the directions on screen to complete the setting

Wireless network
Please choose connection method:

- Search for wireless networks
- WPS (Wi-Fi Protected Setup using push button)
- WPS (Wi-Fi Protected Setup using PIN number)
- Manual settings

* Wi-Fi Protected Setup is an easy setting of the Wi-Fi Alliance’s certification
  ● For more details on setting of an Access point, please refer to operating manual for the Access point.

Search for Wireless networks:
Select an access point from the ones searched for automatically, and configure the settings as instructed on the screen.

WPS (Wi-Fi Protected Setup* using push button):
You can connect the Access point to press the buttons.

WPS (Wi-Fi Protected Setup using PIN number):
Set the PIN code that is displayed on the TV on the Access point.

Manual settings:
Manually set SSID, Security type, and Encryption type to match the settings of the Access point to which to connect.

● When connecting by 11n (5 GHz), select “AES” as the Encryption type for the wireless LAN.

IP address/DNS settings

① Select “IP/DNS setting mode” and set to “Automatic”
(When IP/DNS automatic acquisition in DHCP can be used)

<table>
<thead>
<tr>
<th>Menu</th>
<th>IP address/DNS settings</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>IP address/DNS setting mode</td>
</tr>
<tr>
<td></td>
<td>IP address</td>
</tr>
<tr>
<td></td>
<td>Subnet mask</td>
</tr>
<tr>
<td></td>
<td>Default gateway</td>
</tr>
<tr>
<td></td>
<td>DNS setting mode</td>
</tr>
<tr>
<td></td>
<td>Manual settings</td>
</tr>
</tbody>
</table>

The acquired address is displayed.

② Each IP address is acquired automatically
If you are using a broadband router, IP automatic acquisition in DHCP can be used under normal circumstances. If you are not sure, check with the person who installed the equipment, or check the instructions for each device.

Proxy setting

Set only if specified by the provider. It is not required for normal household use.

① Select “Proxy setting”

<table>
<thead>
<tr>
<th>Menu</th>
<th>Proxy setting</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Proxy address</td>
</tr>
<tr>
<td></td>
<td>Proxy port</td>
</tr>
</tbody>
</table>

② Select item and press OK

③ Enter address or port number and press OK
  ● Entering characters (p. 21)
Edit the name of this TV
Sets your favorite name for this TV. This name will be used to display the name of this TV on the screen of the other Network compatible equipment.

1. Select “VIERA network name”
2. Edit the name and press OK
   Entering characters (p. 21)

Switches DLNA remote control (Disable/Enable)
Switches DLNA remote control “Disable” or “Enable”

Volume setting in DMR operation (Disable/Enable)
Sets volume setting in DMR operation
• Available only when “Enable” is selected in “DLNA remote control”

Switches Network remote control (Disable/Enable)
Switches remote control of network device such as a smartphone to “Disable” or “Enable”.

Network cameras list
Before using a Network camera, you need to register the camera as shown below. You can also set Default camera or Disconnect/Delete the registered cameras.

1. Press “Network cameras list” and display screen
2. Set Network camera setting

For this operation, please refer to the operating manual for the Network camera.

Software update
1. Select “Software update”
2. Press OK to start the Software update screen
3. Follow directions on the screen
   • Set “Clock” first. (p. 17)
VIERA Connect (Enjoy Internet Service)

You can access Internet services from the VIERA Connect Home screen.
- You need a broadband environment to use this service.

**Preparations**
- Network connections (p. 41)
- Network settings (p. 42-44)

**Display the Home screen**

1. Press to exit from a menu screen
2. Press to go back to the Home screen

**Select the item and press OK**

- Example: Picture menu
- Audio menu (p. 51-53)
- 3D settings (p. 27)

**Using USB keyboard**
- Keyboard type (p. 55)
- Operate USB keyboard/Entering characters (p. 21)
  (Also available Game pad)

**Other settings**

**Adjust the Picture, Audio or 3D settings**

**View/Play**
Network Camera

You can operate the Network camera from the TV remote and also check the images from the Network camera on your TV.

- VIERA Link control only with the TV’s remote control (p. 39)

Preparations

- Network connections (p. 41)
- Network settings (p. 42-44)

Before connecting the Network camera to the TV, please complete “IP setting” and run “Connection test”

With all connected equipment turned on

Display “VIERA Link” menu

- If there is no registered camera displayed, please set it in Network Camera settings. (p. 44)
- There is also an option to start with sensor detection.

Select “Network camera”

- Default camera setting (p. 44)

View

4 split screen

- Default camera setting (p. 44)

9 split screen

Note

- A number of VIERA-compatible network cameras can be found at the following sites:
  http://www.panasonic.com/
  http://panasonic.net/pcc/products/netwkcam/
- For more details on setting and operation of the Network camera, please also read the operating manual for the Network camera.
Editing and Setting Channels

The current channel settings can be changed according to your needs and reception conditions.

### ANT/Cable setup and operation

1. **Display the menu**

2. **Select “Setup”**

3. **Select “ANT/Cable setup”**

#### Auto program (Set automatically)

Automatically searches and adds available channels to the memory.

1. **Select “ANT in”**
   - Select “Cable” or “Antenna”
   - Or select “Not used”.

2. **Select “Auto program”**

3. **Select a scanning mode** (p. 16)

   - After the scanning is completed, select “Apply”.
   - (see p. 49 (5)).

   - All previously saved channels are erased.

Press to exit from a menu screen
Manual program (Set manually)

Use this procedure when changing the channel setup or changing the channel display. Also, use this to add or skip channels from the channel list manually.
You can select a channel tuning mode (Digital only/Analog only) in “Channel surf mode” (p. 55)

1. Select “Edit”

2. Select the item to edit

3. Edit
   - Caption
     * Caption: Changes the station identifier
     * Favorite: Registers channels to the Favorite List
     * Add: Adds or skips channels

4. Move the cursor to a channel number

5. Select “Apply”

To cancel the Edit

Signal meter (Check signal strength)

Check the signal strength if interference is found or freezing occurs on a digital image.

Note
- If the signal is weak, check the antenna.
- If no problem is found, consult your local dealer.
- Not available if “Cable” is selected in “ANT in” (see p. 48).
- Available only for digital antenna channels.
How to Use Menu Functions

Various menus allow you to set the picture, sound, and other functions so that you can enjoy watching TV best suited for you.

1. Display the menu
   - Shows the functions that can be adjusted.
   - Some functions will be disabled depending on the type of input signal.

2. Select the menu
   - Picture settings
   - Audio settings
   - Timer (Sleep, On/Off timer)
   - Lock (Channel, Game, Program etc.)
   - Closed Caption setting
   - Setup (other settings)

3. Select the item and adjust
   - Example: Picture menu

Press to exit from a menu screen
Press to go back to the previous screen
● "Reset to default" will be grayed out if no changes are made in the following menus: "Picture", "Pro settings", "PC adjustments", "Audio" and "Closed caption".

### Picture settings

Caution

● The V-Chip system that is used in this set is capable of blocking “NR” programs (non rated, not applicable and none) as per FCC Rules Section15.120(e)(2). If the option of blocking “NR” programs is chosen “unexpected and possibly confusing results may occur, and you may not receive emergency bulletins or any of the following types of programming:”
  • Emergency Bulletins (Such as EAS messages, weather warnings and others)
  • Locally originated programming • News • Political • Public Service Announcements • Religious • Sports • Weather
Technical Information

Aspect Ratio (FORMAT)

Press the FORMAT button to cycle through the aspect modes. This lets you choose the aspect depending on the format of the received signal and your preference. (p. 20) (e.g.: in case of 4:3 image)

- **FULL**
  - Enlarges the 4:3 image horizontally to the screen's side edges. (Recommended for anamorphic picture)

- **JUST**
  - Stretches to justify the 4:3 image to the four corners of the screen. (Recommended for normal TV broadcast)

- **H-FILL**
  - Enlarges the 4:3 image horizontally to the screen's side edges. The side edges of the image are cut off.

- **ZOOM**
  - Enlarges the 4:3 image to the entire screen. (Recommended for Letter Box)

  **Note**
  
  - 480i (4:3), 480i (16:9), 480p (4:3), 480p (16:9): FULL, JUST, 4:3 or ZOOM
  - 1080p / 1080i / 720p: FULL, H-FILL, JUST, 4:3 or ZOOM

Zoom adjustments
Vertical image position and size can be adjusted in “ZOOM”.
- Select “Zoom adjustments” on the “Picture” menu. (p. 52)
- V-position: Vertical position adjustment
- V-size: Vertical size adjustment

- To reset the aspect ratio ➔ (OK)

H size

- **Aspect Ratio: 4:3**
  - The width will be decreased on both sides to reduce noise.

- **Aspect Ratio: FULL/JUST(H-FILL/ZOOM)**
  - The width will be increased on both sides to reduce noise.

See page 52 for more information.
Data format information

- Compatible Data format for Media player (SD card/USB flash memory)/DLNA (p. 32)
- DCF (Design rule for camera file system): A Japan Electronics and Information Technology Industries Association’s standard
- EXIF: Exchangeable Image File Format

**Note**

- Format the card with the recording equipment.
- The picture may not appear correctly on this TV depending on the recording equipment used.
- Display may take some time when there are many files and folders.
- The function (3D IMAGE VIEWER/Media player) cannot display still image not DCF formatted (i.e. TIFF, BMP).
- Data modified with a PC may not be displayed.
- Images imported from a PC must be compatible with EXIF 2.0, 2.1 and 2.2.
- Partly degraded files might be displayed at a reduced resolution.
- All “.JPG” extension data in the card and USB flash memory will be read in Photo viewer mode.
- The folder and file names may be different depending on the digital camera used.
- Do not use two-byte characters or other special codes.
- The card may become unusable with this TV if file or folder names are changed.
- For the suitable SD Memory Cards, please confirm the latest information on the following website.
  http://panasonic.jp/support/global/cs (This site is in English only)

Cautions when handling SD Cards

- Use an SD Card which meets SD standards. If not, it may cause the TV to malfunction.
- Do not remove the card while the unit is accessing data (this can damage card or unit).
- Do not touch the terminals on the back of the card.
- Do not subject the card to high pressure or impact.
- Insert the card in the correct direction (otherwise, card or unit may be damaged).
- Electrical interference, static electricity or erroneous operation may damage the data or card.
- Back up the recorded data at regular intervals in case of deteriorated or damaged data or erratic operation of the unit. (Panasonic is not liable for any deterioration or damage of recorded data.)

2D→3D (Simulated 3D)

- You can watch content in simulated 3D from photo and all video sources except the PC input.
- This function converts standard 2D images and displays them in 3D. For this reason, the 3D images appear slightly different from the originals. Please bear this in mind when using this function.
- Using this function for profit-making purposes, or publically showing images converted from 2D to 3D in places such as coffee shops or hotels etc. may infringe on the rights of the copyright holder protected under the Copyright Act.
VIERA Link™ “HDAVI Control™”

HDMI connections to some Panasonic equipment allow you to interface automatically. (p. 35)
- This function may not work normally depending on the equipment condition.
- The equipment can be operated by other remote controls with this function on even if the TV is in Standby mode.
- Image or sound may not be available for the first few seconds when playback starts.
- Image or sound may not be available for the first few seconds when input mode is switched.
- Volume function will be displayed when adjusting the volume of the equipment.
- If you connect equipment that has “HDAVI Control 2 or later” function to the TV with an HDMI cable, the sound from the DIGITAL AUDIO OUT terminal can be output as multi-channel surround.
- “HDAVI Control 5” is the newest standard (current as of December, 2010) for the HDAVI Control compatible equipment. This standard is compatible with the conventional HDAVI equipment.

HDMI connection

HDMI (high-definition multimedia interface) allows you to enjoy high-definition digital images and high-quality sound by connecting the TV unit and HD devices.

HDMI-compatible equipment (*1) with an HDMI or DVI output terminal, such as a Cable or Satellite box or a DVD player, can be connected to the HDMI connector using an HDMI compliant (fully wired) cable.
- HDMI is the world’s first complete digital consumer AV interface complying with a non-compression standard.
- If the external equipment has only a DVI output, connect to the HDMI terminal via a DVI to HDMI adapter cable (*2).
- When the DVI to HDMI adapter cable is used, connect the audio cable to the audio input terminal.
- Audio settings can be made on the “HDMI 1 in”, “HDMI 2 in”, “HDMI 3 in” or “HDMI 4 in” menu screen. (p. 53)

Applicable audio signal sampling frequencies (L.PCM): 48 kHz, 44.1 kHz, 32 kHz

(*)1: The HDMI logo is displayed on an HDMI-compliant device.
(*)2: Enquire at your local digital equipment retailer shop.

DIGITAL AUDIO OUT terminal

You can enjoy your Home theater by connecting a Dolby Digital (5.1 channel) decoder and “Multi Channel” amplifier to the DIGITAL AUDIO OUT terminals.

Caution
- Depending on your DVD player and DVD-Audio software the copyright protection function may operate and disable optical output.
- When an ATSC channel is selected, the output from the DIGITAL AUDIO OUT jack will be Dolby Digital. When an NTSC channel is selected, the output will be PCM.
- When playing a movie on SD Card Movie player, when the sound has been recorded in Dolby Digital, the output from the DIGITAL AUDIO OUT terminal will be Dolby Digital. When the sound is recorded in other formats, the output will be PCM.

Closed Caption (CC)

- For viewing the CC of digital broadcasting, set the aspect to FULL (If viewing with H-FILL, JUST, ZOOM or 4:3; characters might be cut off).
- The CC can be displayed on the TV only when the receiver (such as a Cable box or satellite receiver) has the CC set to ON within the device itself. Check with your Cable or Satellite provider for instructions. The TV’s CC button does not operate the Satellite or Cable box’s CC function.
- If the CC is set to On on both the receiver and TV when the signal is 480i (except for the HDMI connection), the CC may overlap on the TV.
- If a digital program is being output in analog format, the CC data will also be output in analog format.
- If the recorder or output monitor is connected to the TV, the CC needs to be set up on the recorder or output monitor.
**4:3 side bars**

Do not display a picture in 4:3 mode for an extended period, as this can cause “Image retention” to remain on either or both sides of the display field. To reduce the risk of such “Image retention”, change the brightness of the side bars. See page 51 for more information.

- The side bar may flash (alternate black/white) depending on the picture.

**Note**

- Signals other than above may not be displayed properly.
- The above signals are reformatted for optimal viewing on your display.
- Computer signals which can be input are those with a horizontal scanning frequency of 15 to 110 kHz and vertical scanning frequency of 48 to 120 Hz. (However, the image will not be displayed properly if the signals exceed 1,200 lines.)

Panasonic does not guarantee operation and performance of peripheral devices made by other manufacturers; and we disclaim any liability or damage arising from operation and/or performance from usage of such other maker’s peripheral devices.
Care and Cleaning

First, unplug the Power cord plug from the wall outlet.

Display panel

The front of the display panel has been specially treated. Wipe the panel surface gently using only a cleaning cloth or a soft, lint-free cloth.

- If the surface is particularly dirty, soak a soft, lint-free cloth in diluted mild liquid dish soap (1 part mild liquid dish soap diluted by 100 times the amount of water) and then wring the cloth to remove excess liquid. Use this cloth to wipe the surface of the display panel, then wipe it evenly with a dry cloth of the same type until the surface is dry.
- Do not scratch or hit the surface of the panel with fingernails or other hard objects. Furthermore, avoid contact with volatile substances such as insect sprays, solvents, and thinner; otherwise, the quality of the surface may be adversely affected.

Cabinet

If the cabinet becomes dirty, wipe it with a soft, dry cloth.

- If the cabinet is particularly dirty, soak the cloth in a weak mild liquid dish soap and then wring the cloth dry.
- Do not allow any mild liquid dish soap to come into direct contact with the surface of the Plasma TV.
- Avoid contact with volatile substances such as insect sprays, solvents, and thinner; otherwise, the quality of the cabinet surface may be adversely affected or the coating may peel off.
- Do not let articles made from rubber or PVC be in contact with the TV for long periods of time.

Pedestal

- Cleaning
  Wipe the surfaces with a soft, dry cloth. If the unit is particularly dirty, clean it using a cloth soaked with water to which a small amount of mild liquid dish soap has been added and then wipe with a dry cloth.
  Do not use products such as solvents, thinner, or household wax for cleaning, as they can damage the surface coating. (If using a chemically-treated cloth, follow the instructions supplied with the cloth.)
  Do not attach sticky tape or labels, as they can make the surface of the pedestal dirty. Do not allow long-term contact with rubber, vinyl products, or the like. (Doing so will cause deterioration.)

3D Eyewear

- Clean using a soft, dry cloth.
- Wiping the 3D Eyewear with a soft cloth that is covered in dust or dirt may scratch the eyewear. Shake off any dust from the cloth before use.
- Do not use benzene, thinner, or wax on the 3D Eyewear, as doing so may cause the paint to peel off.
- Do not submerge the 3D Eyewear in liquid such as water when cleaning.
- Avoid storing the 3D Eyewear in hot or highly humid locations.
- During the long period of disuse, full charge the 3D Eyewear once every 6 months to keep the battery performance.

Note

- As the liquid crystal shutters (lens) are fragile and easily broken, be very careful when cleaning them.
Disposal

3D Eyewear

A lithium-ion polymer rechargeable battery is built in to the 3D Eyewear. Please discard according to local regulations. When disposing this product, disassemble properly by following the procedure below, and remove the internal rechargeable battery.

Do not disassemble this product except when disposing of it.

Danger

- As the rechargeable battery is specifically for this product, do not use it for any other device.
  - Do not charge the removed battery.
  - Do not throw the battery in a fire, or apply heat to it.
  - Do not pierce the battery with a nail, subject it to an impact, or dismantle or modify it.
  - Do not let the wires touch any other metal or each other.
  - Do not carry or store the battery with a necklace, hair pin, or the like.
  - Do not charge, use, or leave the battery in a hot location such as near a fire or under the hot sun.
Doing so may cause the battery to generate heat, ignite, or rupture.

Warning

- Do not place the removed battery, screws, and other items within reach of infants.
  Accidental swallowing of such an item may have an adverse effect on the body.
  - In the event that you think such an item has been swallowed, consult a doctor immediately.
- In the event of fluid leaking from the battery, take the following measure, and do not touch the fluid with bare hands.
  Fluid entering into an eye may cause loss of eyesight.
  - Wash the eye with water immediately without rubbing it, and then consult a doctor.
  Fluid getting on your body or clothes may cause inflammation of the skin or injury.
  - Sufficiently rinse with clean water, and then consult a doctor.

How to remove the battery

Disassemble this product after the battery has run out of power.

The following figures are intended to explain how to dispose of the product, not for describing how to repair. The product cannot be repaired once it has been disassembled.

1. Fold the part of the frame without the power switch, and then remove the two screws on the inside of the hinge with a precision Phillips (plus +) screwdriver.

2. Bend the frame inwards and pull it off from the side cover.
  - If it is difficult to remove, insert a flat-blade (minus -) screwdriver and force it off.

3. Remove the battery from inside the side cover, and cut the two wires one by one with scissors.
  - Insulate the wire parts of the removed battery with cellophane tape.

Note

- Take sufficient care when performing this work so as not to injure yourself.
- Do not damage or dismantle the battery.
# Frequently Asked Questions (FAQ)

If there is a problem with your TV, please refer to the table below to determine the symptoms, then carry out the suggested check. If this does not solve the problem, visit the Panasonic website for further assistance. (see cover)

<table>
<thead>
<tr>
<th>Questions</th>
<th>Answers</th>
</tr>
</thead>
</table>
| How do I view the picture from devices such as a: Cable/Satellite box, game console, Blu-ray or DVD player? | - Press the INPUT button on the remote to select the correct input source.  
- Check that the device is turned on and functioning correctly.                                                   |
| Why is there no picture or just a blue, black or snowy screen being displayed?       | - Check if the power cord is plugged in and the TV is turned on (front red LED light should be on; not blinking).  
- Press the INPUT button on the remote to select the correct input source.  
- Ensure all connections are correct and secure.  
- When using external video source, such as a Cable/Satellite box or DVD player, check that the device is on and functioning correctly.  
- Press MENU on the TV’s remote control. If the menu is displayed, then the TV is working; recheck above steps. |
| Why doesn’t the picture look like it is in High Definition?             | - Press the INFO button on the remote to confirm the type of signal being received (p. 19). HD signal should be 720P, 1080i or 1080p.  
- Select a High Definition channel from your HD source (Cable, Satellite or fiber optic service). HD channels sometimes broadcast non-HD content.  
- Ensure that your HD source (HD box, Blu-ray player, etc.) is connected to the TV with an HDMI or Component cable and set to output an HD video signal. |
| Why do black bars appear on the top and bottom and/or sides of the screen? | - Change the format (aspect ratio) of the picture by pressing the FORMAT button on the remote control. (p. 20)  
- Check the aspect settings on your external video source, such as Cable/Satellite box, DVD/Blu-ray Disc player, etc.  
Note: Some content, such as film-based movies, are available in extra-wide format. Top and bottom bars are unavoidable. |
| Why is the picture snowy when “ANT/Cable in” is selected?               | - When using a cable service (without a box), check that all connections are secure.  
- When using a cable or satellite box, change the connection (wiring) to Composite, Component or HDMI. (p. 12)  
- If you’re using an antenna, then check that connections are secure. Change the position or direction of the antenna and check the “Signal meter”. (p. 49) |
| Why is the picture chaotic and/or torn and/or with a buzz in the speakers? | - Check if electrical products such as kitchen appliances, fluorescent lights or light dimmers are nearby. They may interfere with the TV’s picture.  
- Try viewing a picture from another device, such as a DVD player or a game console, to narrow down the source of the problem. |
| Why is there a black box on the screen?                                | - Change settings of Closed Caption (CC). (p. 19, 54)                                                                                                                                                  |
| Why is the screen blank and the power indicator blinking?             | - The TV has gone into shutdown mode to protect itself. Try unplugging it for a few minutes and connecting it again. If there was a temporary power surge on the AC line it may now be OK. If the blinking returns, call 1-877-95VIERA (U.S.A.) or 1-866-330-0014 (Canada). |
| Why do some small spots on the screen remain bright or dark?           | - The Plasma panel is made up of a few million pixels and is produced with advanced technology through an intricate process. Sometimes a few pixels may be bright or dark. These pixels do not indicate a defective panel and will have no impact on the performance of the TV. |
Questions | Answers
---|---
Why is there no sound coming from the TV? | Make sure the volume is up and MUTE is off. Confirm the TV speakers are set to ON by pressing MENU and selecting “Audio” –> “Advanced audio”. (p. 53) Check that the correct SAP (Secondary Audio Program) is selected by pressing the SAP button on the remote control. (p. 19) If the TV is connected to a Panasonic Home Theater via HDMI cable, then check VIERA Link controls. (p. 39) If the TV is connected to a Home Theater via optical cable, then: Check the connection, the audio system is on, the correct input is selected. Check “HDMI 1 in”, “HDMI 2 in”, “HDMI 3 in” or “HDMI 4 in” analog/digital audio settings. (p. 53)

Why is the sound unusual, distorted, low volume or in another language? | Check that the correct SAP (Secondary Audio Program) is selected by pressing the SAP button on the remote control. Check that all connections of external equipment connected to the TV are secure. When using Cable or Satellite box, check the device’s audio settings. (example: try changing the box’s Audio Range to ‘narrow’)

Why is there a clicking, ticking or buzzing sound coming from the TV unit? | When TV power is turned on or shut off there are electrical components that make a click sound. This is normal operation. Changes in the temperature and humidity of the room may cause thermal expansion and contraction that can produce sounds. This is not a sign of faulty operation or a malfunction.

What is the easiest and best way to connect a High-Definition Cable or Satellite box to the TV? | Use an HDMI cable. It carries both digital video and audio signal in HD. HDMI cable is the only cable needed to connect an HD device to the TV.

Why does the CC button not display Closed Caption? | When viewing TV via an HDMI connected device, such as a Cable or Satellite box, CC must be enabled at the device. Closed Caption is available only at supported TV programming.

Why does the screen and back cover of the TV get warm? | The main unit radiates heat and some of the parts may become hot. This is normal operation and does not affect the performance of the set. Ensure good ventilation. Do not block the ventilation holes of the TV and do not place the TV on top of other equipment.

Why doesn’t the Remote Control work? | Check that the batteries are fresh, are of the same type and are installed with the correct polarity (+ & -). To operate other devices, such as changing channels when using Cable or Satellite boxes or operating non-Panasonic Blu-ray players, use the remote supplied with the device.

Why is the “ANT/Cable” option at the top of the “Input select” menu gray-out and cannot be selected? | During “First time setup”, you indicated in step ③-① that you are using Cable or Satellite box and in step ③-②b that the box is connected to one of the TV’s AV inputs. In this case, the Antenna/Cable input is deactivated to prevent unintentional switching into unused tuner. To re-activate, press MENU, select SETUP and repeat “First time setup”.

Some menu items are grayed-out and cannot be selected. Why? | Depending on certain modes or the selected input, some options are not available. For example, Zoom adjustments are only available when the FORMAT is changed to zoom mode.

How do I get VIERA Connect to work on my TV? | 1. You need a broadband (high speed) Internet service with a speed of no less than 1.5 Mbps (p. 41). 2. Connect the TV to the Internet through your router by an Ethernet cable or a Panasonic Wireless LAN Adapter (included). 3. Run the “Connections Test”, under the Network Settings menu. If Connection test fails, then check with your Internet service provider or router/modem manufacturer if there are firewall, content filter or proxy settings that may block the TV from accessing the Internet.
**Support Information**

**Frequently Asked Questions (FAQ)**

- **Networking**
  - **How do I check for the latest software (firmware) version for my TV?**
    - In the main menu, select “Setup”. Highlight “Network Settings” and press OK. Select “Software Update”. The current version and latest version software will be shown. If software update is “grayed out”, the TV is not connected to the Internet. If newer version is available, update your TV. Follow the on-screen instructions, do not power off the TV until the update is complete. Be patient; firmware update may take a while.
  - **Can I use any USB WiFi adapter to connect the TV to my wireless network?**
    - The TV’s internal software was designed to work with Panasonic’s Wireless LAN Adapter (included).
  - **How do I reset my TV to all factory defaults and settings?**
    - In the main menu, select “Setup”. Highlight “Reset to Defaults” and press OK. Enter your password (if created earlier) or create a temporary new password. Select Yes to reset the TV.
  - **Can I download new apps (content & services) into my VIERA Connect TV?**
    - Yes. Select the “VIERA Connect Market” item in the middle bottom of the VIERA Connect home screen. “VIERA Connect Market” allows you to find and install the applications to “VIERA Connect” home screen. (p. 45)

- **3D**
  - **Why doesn’t my 3D video source looks 3D?**
    - 1. Begin playing the 3D video source.
    - 2. Ensure that the Panasonic 3D Eyewear (glasses) are on (check the glasses battery)
    - 3. Press “3D” button directly or press the VIERA TOOLS button on the TV’s remote control and select “3D”.
    - 4. In the “3D format select” menu, select “3D”.
    - Notes:
      1. 3D Blu-ray discs must be played with a 3D capable Blu-ray player.
      2. Check with your Cable or Satellite provider if their supplied box is 3D capable.
      3. 3D signal must be connected to the TV via an HDMI cable.
  - **When selecting some 3D video content, why are there two pictures next to each other?**
    - There are a few different 3D formats and the current setting may not match the incoming 3D signal. The format should change automatically, but depending on the source/connection it may not signal the TV properly. To manually select other 3D formats:
      1. Press “3D” button directly or press VIERA TOOLS button on the TV’s remote control and select “3D”.
      2. In the “3D format select” menu, choose another 3D format such as “side by side” or “top and bottom”.
      3. Remember to switch the 3D format setting back to “AUTO” when you go back to viewing a standard 2D signal.
  - **Why does the power on the 3D Eyewear (glasses) turn off by itself?**
    - The 3D Eyewear receives special synchronizing infrared signals from the TV. If no signal is received within 5 minutes, the 3D Eyewear automatically turns itself off to save power. Ensure that no objects are blocking the path between the 3D Eyewear and the TV.
  - **Why does the left and right sides of the image seem reversed?**
    - The 3D format has two different “phases”. Try the other phase:
      1. In the main menu, select “Setup”. Highlight “3D setting” and press OK.
      2. In the “3D Settings” menu, select “Left/Right Swap”.
  - **Can I use 3D glasses similar to the kind given at a 3D movie theater to watch 3D content on my 3D TV?**
    - No. Movie theater’s 3D glasses are passive. They use a simple filter ‘lens’. Panasonic 3D Eyewear are actively synchronizing the left/right eye viewing with the display, providing a superior 3D viewing experience.
  - **The battery of 3D Eyewear does not charge, or operation time is short when charged.**
    - Is the charging cable connected properly? Check the connection.
    - Is the television power off? Turn the television power on, and charge the battery.
    - The battery has reached the end of its lifespan. If operation time is very short even when the battery is charged, the battery has reached the end of its lifespan. Please consult with the place of purchase.

Limited Warranty (for U.S.A. and Puerto Rico only)

PANASONIC CONSUMER ELECTRONICS COMPANY,
DIVISION OF
PANASONIC CORPORATION OF NORTH AMERICA
One Panasonic Way
Secaucus, New Jersey 07094

Panasonic Plasma Television
Limited Warranty

Limited Warranty Coverage
If your product does not work properly because of a defect in materials or workmanship, Panasonic Consumer Electronics Company (referred to as “the warrantor”) will, for the length of the period indicated on the chart below, which starts with the date of original purchase (“Limited Warranty period”), at its option either (a) repair your product with new or refurbished parts, (b) replace it with a new or a refurbished equivalent value product, or (c) refund your purchase price. The decision to repair, replace or refund will be made by the warrantor.

</tr>
</tbody>
</table>

During the “Labor” Limited Warranty period there will be no charge for labor. During the “Parts” Limited Warranty period, there will be no charge for parts.

You must carry-in your product or arrange for on-site service during the Limited Warranty period. If non-rechargeable batteries are included, they are not warranted. This Limited Warranty only applies to products purchased and serviced in the United States or Puerto Rico. This Limited Warranty is extended only to the original purchaser of a new product which was not sold “as is”. A purchase receipt or other proof of the original purchase date is required for Limited Warranty service.

On-Site or Carry-In Service
For On-Site or Carry-In Service in the United States and Puerto Rico call 1-877-95-VIERA (1-877-958-4372).

On-site service where applicable requires clear, complete and easy access to the product by the authorized servicer and does not include removal or re-installation of an installed product. It is possible that certain on-site repairs will not be completed on-site, but will require that the product or parts of the product, at the servicer’s discretion be removed for shop diagnosis and/or repair and then returned.

Mail-In Service
For assistance in the U.S.A. and Puerto Rico in obtaining replacement, please ship the product prepaid to:

Panasonic Exchange Center
4900 George McVay Drive
Suite B
McAllen, TX 78503
panacare@us.panasonic.com

When shipping the unit, carefully pack, include all accessories, and send it prepaid, adequately insured and preferably in the original carton. When shipping Lithium Ion batteries please visit our Web Site at www.panasonic.com/BatteryHandling as Panasonic is committed to providing the most up to date information. Include a letter detailing the complaint, a return address and provide a daytime phone number where you can be reached. A valid registered receipt is required under the Limited Warranty.

Limited Warranty Limits And Exclusions
This Limited Warranty ONLY COVERS failures due to defects in materials or workmanship, and DOES NOT COVER normal wear and tear or cosmetic damage, nor does it cover markings or retained images on the glass panel resulting from viewing fixed images (including, among other things, non-expanded standard 4:3 pictures on wide screen TVs, or onscreen data in a stationary and fixed location). The Limited Warranty ALSO DOES NOT COVER damages which occurred in shipment, or failures which are caused by products not supplied by the warrantor, or failures which result from accidents, misuse, abuse, neglect, bug infestation, mishandling, misapplication, alteration, faulty installation, set-up adjustments, misadjustment of consumer controls, improper maintenance, power line surge, lightning damage, modification, or commercial use (such as in a hotel, office, restaurant, or other business), rental use of the product, service by anyone other than a Factory Service Center or other Authorized Servicer, or damage that is attributable to acts of God.

THERE ARE NO EXPRESS WARRANTIES EXCEPT AS LISTED UNDER “LIMITED WARRANTY COVERAGE”. THE WARRANTOR IS NOT LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THIS PRODUCT, OR ARISING OUT OF ANY BREACH OF THIS LIMITED WARRANTY. (As examples, this excludes damages for lost time, cost of having someone remove or re-install an installed unit if applicable, or travel to and from the servicer. The items listed are not exclusive, but are for illustration only.) ALL EXPRESS AND IMPLIED WARRANTIES, INCLUDING THE LIMITED WARRANTY OF MERCHANTABILITY, ARE LIMITED TO THE PERIOD OF THE LIMITED WARRANTY.

Some states do not allow the exclusion or limitation of incidental or consequential damages, or limitations on how long an implied Limited Warranty lasts, so the exclusions may not apply to you.

This Limited Warranty gives you specific legal rights and you may also have others rights which vary from state to state. If a problem with this product develops during or after the Limited Warranty period, you may contact your dealer or Service Center. If the problem is not handled to your satisfaction, then write to the warrantor’s Consumer Affairs Department at the addresses listed for the warrantor.

PARTS AND SERVICE (INCLUDING COST OF AN ON-SITE SERVICE CALL, WHERE APPLICABLE) WHICH ARE NOT COVERED BY THIS LIMITED WARRANTY ARE YOUR RESPONSIBILITY.
Customer Services Directory (for U.S.A. and Puerto Rico)

Obtain Product Information and Operating Assistance; locate your nearest Dealer or Service Center; purchase Parts and Accessories; or make Customer Service and Literature requests by visiting our Web Site at:

http://www.panasonic.com/help

or, contact us via the web at:

http://www.panasonic.com/contactinfo

You may also contact us directly at:
1-877-95-VIERA (958-4372)
Monday-Friday 9 am-9 pm; Saturday-Sunday 10 am-7 pm, EST.

■ For hearing or speech impaired TTY users, TTY: 1-877-833-8855

Accessory Purchases (United States and Puerto Rico)

Purchase Parts, Accessories and Instruction Books on line for all Panasonic Products by visiting our Web Site at:

http://www.pstc.panasonic.com

or, send your request by E-mail to:

npcparts@us.panasonic.com

You may also contact us directly at:

Panasonic Service and Technology Company
20421 84th Avenue South,
Kent, WA 98032
(We Accept Visa, MasterCard, Discover Card, American Express, and Personal Checks)

■ For hearing or speech impaired TTY users, TTY: 1-866-605-1277
Limited Warranty (for Canada)

Panasonic Canada Inc.
5770 Ambler Drive, Mississauga, Ontario L4W 2T3

PANASONIC PRODUCT – LIMITED WARRANTY

Panasonic Canada Inc. warrants this product to be free from defects in material and workmanship under normal use and for a period as stated below from the date of original purchase agrees to, at its option either (a) repair your product with new or refurbished parts, (b) replace it with a new or a refurbished equivalent value product, or (c) refund your purchase price. The decision to repair, replace or refund will be made by Panasonic Canada Inc.

In-home Service will be carried out only to locations accessible by roads and within 50 km of an authorized Panasonic service facility.

In-home service requires clear, complete and easy access to the product by the Authorized Servicer and does not include removal or re-installation of an installed product. If removal is required to service the product, it will be at the discretion of the Servicer and in no event will Panasonic Canada Inc. or the Servicer be liable for any special, indirect or consequential damages.

This warranty is given only to the original purchaser, or the person for whom it was purchased as a gift, of a Panasonic brand product mentioned above sold by an authorized Panasonic dealer in Canada and purchased and used in Canada, which product was not sold “as is”, and which product was delivered to you in new condition in the original packaging.

IN ORDER TO BE ELIGIBLE TO RECEIVE WARRANTY SERVICE HEREUNDER, A PURCHASE RECEIPT OR OTHER PROOF OF DATE OF ORIGINAL PURCHASE, SHOWING AMOUNT PAID AND PLACE OF PURCHASE IS REQUIRED

LIMITATIONS AND EXCLUSIONS

This warranty ONLY COVERS failures due to defects in materials or workmanship, and DOES NOT COVER normal wear and tear or cosmetic damage. The warranty ALSO DOES NOT COVER damages which occurred in shipment, or failures which are caused by products not supplied by Panasonic Canada Inc., or failures which result from accidents, misuse, abuse, neglect, mishandling, misapplication, alteration, faulty installation, set-up adjustments, misadjustment of consumer controls, improper maintenance, power line surge, lightning damage, modification, introduction of sand, humidity or liquids, commercial use such as hotel, office, restaurant, or other business or rental use of the product, or service by anyone other than a Authorized Servicer, or damage that is attributable to acts of God. Dry cell batteries are also excluded from coverage under this warranty.

THIS EXPRESS, LIMITED WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT WILL PANASONIC CANADA INC. BE LIABLE FOR ANY SPECIAL, INDIRECT OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THIS PRODUCT OR ARISING OUT OF ANY BREACH OF ANY EXPRESS OR IMPLIED WARRANTY. (As examples, this warranty excludes damages for lost time, travel to and from the Authorized Servicer, loss of or damage to media or images, data or other memory or recorded content. This list of items is not exhaustive, but for illustration only.)

In certain instances, some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, or the exclusion of implied warranties, so the above limitations and exclusions may not be applicable. This warranty gives you specific legal rights and you may have other rights which vary depending on your province or territory.

WARRANTY SERVICE

For product operation and information assistance, please contact:

Our Customer Care Centre: 1-800 #: 1-866-330-0014
Email link: “Contact us → email” on www.vieraconcierge.ca

For product repairs, please contact Viera Customer Care Agent using the above contact info.

IF YOU SHIP THE PRODUCT TO A SERVICENTRE

Carefully pack and send prepaid, adequately insured and preferably in the original carton. Include details of the defect claimed, and proof of date of original purchase.
Customer's Record
The model number and serial number of this product can be found on its back cover. You should note this serial number in the space provided below and retain this book, plus your purchase receipt, as a permanent record of your purchase to aid in identification in the event of theft or loss, and for Warranty Service purposes.
