Welcome to Saginaw Valley State University!

As Dean of Students, I am proud to welcome all SVSU Cardinals to the 2011-2012 academic year! RED PRIDE at SVSU starts with our strong student-centered philosophy, which includes a student life rich with opportunities for involvement. I urge you to explore the choices, from registered student organizations, cultural, theatrical, musical and artistic events, to fitness, intramural, athletic, and academic and social programs. Engagement in your University provides the opportunity to grow personally, as well as develop leadership and social skills that will serve you well in your chosen career. The choices are yours, but choose wisely and find that balance between your studies and extra-curricular life at SVSU.

We have created this Student Handbook to inform you about the many services and programs that are available to you to achieve your educational goals, to grow and develop as an individual and to simply enjoy your university experience. It is also designed to inform you of your rights and responsibilities as a student.

The first half of the Handbook contains information about our campus services and resources. If you have a question or require assistance, you will be able to find the right office to resolve your concern. The second half of the Handbook contains various policies and procedures that affect you as a student. I encourage you to review them; they are important.

I hope your SVSU collegiate experience becomes everything you want it to be, and may every day be a GREAT DAY TO BE A ... CARDINAL!

Merry Jo Brandimore
Dean of Students/Vice President for Student Affairs

The RMS Center houses numerous resources which will help pre-service teachers through the difficult early stages of activity identification and lesson plan development.

The RMS Center provides a limited loan-out program which entitles students to the use of equipment and materials in specifically identified content areas. On file you will find many content area resource books, the latest curricular guidelines from the Michigan Department of Education, hands-on tools which support inquiry-based instruction, and available coordinator support in the mathematical and natural sciences. Located on the first floor of the Regional Education Center, this office is a wonderful introduction to the world of hands-on, minds-on instruction as it applies to the K-12 environment. The RMS Center is open Monday-Friday, 1p.m. - 4:00 p.m., or by appointment.

www.svsu.edu/aba/aba-information/weather-policy
While adverse weather conditions may affect the normal operations of the university, SVSU will be kept open if possible. When adverse conditions necessitate cancellation or closing, announcements will be made on local radio and television stations beginning at 6:30 a.m. for day classes (those beginning before 4 p.m.) and by 2:30 p.m. for evening classes. Members of the university community, at their option, may subscribe to Campus Alert at www.svsu.edu/universitypolice/campus-alert-sign-up. Campus Alert provides e-mail, telephone and text message notification in the event of a critical incident, severe weather or campus closure. Information will also be available online at www.svsu.edu when classes are cancelled. No announcement is made when the university is open.

The Dean of the College of Education, with officials in Macomb County, St. Clair, Oakland and on-site at Saginaw Valley State University, will determine whether classes are to be cancelled at the off-campus sites. When the Office of the Dean of the College of Education is aware of circumstances preventing the holding of classes at the Macomb site, the Oakland site and/or the St. Clair sites, students will be notified immediately by faculty and staff in the College of Education.

Because commuting students come from a broad geographic area, it is extremely difficult to arrive at a decision that is appropriate for each vicinity. SVSU does not ask students to assume undue risk in traveling to class. Students who are prevented by weather from reaching their classes when the campus is open should report the nature of their absence to their instructors as soon as possible.

Information about weather-related closings and cancellations may be obtained by calling the Weather Information Line at (989) 964-4477. Taped messages report the status of campus activities.

Policies and Procedures

During their course of study at SVSU, students will likely encounter some situations that are puzzling or troublesome to them. The university wants to be sure that students can find answers to their questions and the help they need to resolve their problems and/or complaints. For that reason, it is important that these concerns be brought to the attention of the right people.

Student Problem Resolution Procedures

After reading the following sections, if you are uncertain where to address your question, concern or problem, contact the University Ombudsman’s office for assistance in Wickes 160 or by calling 964-4294.

Academic Issues and Questions
If you have a concern with a class-related matter, you should make an appointment and discuss it with the professor. If that discussion does not resolve the matter, you should contact the Department Chairperson. If that discussion still does not resolve the matter, you should contact the Dean of the College. Finally, if that discussion still does not resolve the matter, you may submit a written statement of the matter to the Provost/Vice President for Academic Affairs. The Provost/Vice President, or his designee, will meet with you regarding the matter.

Address other academic problems, such as transfer credit evaluation, class scheduling, course requirements etc., with the office originating the information. If this fails to bring about a satisfactory answer or resolution, present your statement of the problem, preferably in writing, to the appropriate dean of the academic college. The dean, or someone designated by the dean, will meet with you and review the question or problem for you.

If this procedure does not resolve the issue, you may submit a written statement of the problem to the Provost/Vice President for Academic Affairs. The Provost/Vice President, or his designee, will meet with you and look further into the matter, and you may anticipate a written answer within 30 days. It may be important to review The Grade Grievance process, which follows in its entirety in this publication.

Administrative Problems and Questions
If you have a problem or question about a nonacademic policy, procedure or issue, the first step is to discuss the issue with a staff member from that department. The first section of this handbook lists most nonacademic departments with descriptions of the services they provide and contact information. If this fails to bring about a satisfactory answer or resolution, contact the department’s Director. The Director will meet with you to review the question or problem and attempt to reach an acceptable resolution.

Present your question or statement of the problem to the Vice President to whom the department reports if this procedure does not resolve the issue. The Vice President, or someone designated by the Vice President, will meet with you and look into the question or problem for you.

Campus and Student Life Matters
You should address questions or problems with campus or student life to the relevant office (e.g., Student Life Center, Residential Life, Athletics, etc). If this fails to bring about a satisfactory answer or resolution, present your question or statement of the problem to the Vice President for Student Affairs. The Vice President, or someone designated by the Vice President, will meet with you and look into the question or problem for you.

Disability Services and Accommodations Concerns
The Disability Services office is responsible for arranging and approving services for students with disabilities. Students should first discuss their concerns with the Director of Disability Services. If this fails to bring about a satisfactory answer or resolution, then you may file an appeal in writing to the Vice President for Student Affairs. The entire appeals procedure is printed in the section on Policy and Procedures or available on-line, www.svsu.edu/disabilityservices.
Resident Student Disciplinary Process
Students residing in University Housing are subject to the Code of Student Conduct, the University Housing Contract, policies described on the www.svsu.edu/livingoncampus website and contained in the Resident Student Handbook and/or other standards of behavior otherwise published by the Offices of Housing and Residential Life. Address questions or concerns about the resident student disciplinary process to the Student Conduct Programs office.

Discrimination and Sexual or Racial Harassment
Address discrimination concerns, including sexual and racial harassment, to the Special Assistant to the President for Diversity Programs for consultation and assistance in resolving the complaint. The university has adopted a formal policy and complaint procedure on unlawful discrimination that is printed in this handbook or www.svsu.edu/diversity/policy-on-discrimination-sexual-harassment-racial-harassment.html.

Student Conduct Process
Admission to Saginaw Valley State University obligates each student to abide by regulations for acceptable student behavior. The Code of Student Conduct can be found in its entirety in this publication and on the university web page at www.svsu.edu/student-conduct/policies/code-of-student-conduct. Students, faculty and staff who feel that violations of the provisions of the Code have occurred may contact the Coordinator of Student Conduct Programs (Curtiss 113, 964-2220) for assistance in resolving complaints.

Student Grade Grievance Procedure
The following procedure shall be used by any student who has a complaint relating to the grade received in a class.

1. A student must first contact the faculty member and discuss the complaint concerning the grade received. This will serve as an informal review.
2. If the review of the complaint by the student and faculty member does not lead to a satisfactory resolution, the student, if he/she wishes to do so, must file within thirty (30) days of the date that the student has knowledge of, or reasonably should have had knowledge of the problem, a formal grievance with the faculty member with copies to the appropriate chairperson, dean, and Student Association Grievance Committee Representative. The formal grievance shall include:
   - Statement of Grievance: This should be brief and specific.
   - Justification: Reasons for lodging the grievance should be presented.
   - Remedy: A specific remedy should be cited.

   The faculty member must respond in writing to the student within four (4) weekdays of receipt of the grievance, indicating whether the grievance is accepted or rejected, or offering an alternative suggestion for resolving the complaint. (Copies must be sent to the appropriate chairperson, dean, and Student Association Grievance Committee Representative.)

3. If the decision or the proposed resolution is not acceptable to the student, he/she may pursue the matter by presenting the grievance within three (3) weekdays to the chairperson of the faculty member's department. (If the faculty member is the chairperson, the procedure moves to Step 4.) The chairperson then should judge the case and make a recommendation agreeing with the student or the faculty member or proposing an alternative resolution. The chairperson must make the recommendation known in writing to the student and instructor within six (6) weekdays of receipt of the grievance. Copies must be sent to the appropriate dean and the Student Association Grievance Committee Representative.

4. If the recommendation of the chairperson is unsatisfactory to the student, he/she must ask that the grievance be considered by the Faculty/Student Grievance Committee, which will be set up by the appropriate academic dean. This request must be made to the appropriate academic dean within three (3) weekdays of the receipt of the chairperson's decision. If the recommendation of the chair is different from the grade assigned by the instructor, the case will automatically go to the Grade Grievance Committee, unless the faculty member informs the dean that he/she agrees to the grade change. The Grievance Committee will be a standing committee consisting of three (3) students from the Student Representative Grievance Committee (selected by the Representative chairperson); and three (3) faculty members selected by the Faculty Association President from a pool of six (6) faculty members designated by the Faculty Executive Board [the three (3) faculty members not selected shall serve as alternates], and will be chaired by the appropriate dean. The Faculty/Student Grievance Committee shall meet to review the case, providing the student and faculty member involved have had an opportunity to present arguments at separate times. The committee shall reach a decision by a recorded roll call vote. In case of a tie, the dean will cast the deciding vote. The decision of the Committee will be presented in writing by the dean to the student, faculty member and chairperson within ten (10) weekdays of receipt of the grievance.
5. If the decision of the Committee is unsatisfactory to the student or the faculty member, either may request that the grievance be reviewed by the Provost/Vice President for Academic Affairs. This request must be made within three (3) weekdays of the receipt of the Committee's decision. The decision of the Provost/Vice President for Academic Affairs must be presented to the faculty member, student, dean, chairperson and Faculty/Student Grievance Committee within six (6) weekdays of the appeal. The decision of the Provost/Vice President for Academic Affairs is final.

6. If any of the above deadlines are not met by the student, the grievance will be considered invalid and dropped, unless, due to extenuating circumstances, the Provost/Vice President for Academic Affairs grants an extension of time. In the event that any of the above deadlines of Steps 1 through 4 are not met by the faculty or the dean, the matter will automatically be referred to the next step of the process. If the deadlines of step five (5) are not met by the Provost/Vice President for Academic Affairs, the resolution of the grievance will stand as determined by the committee.

7. All days mentioned in the above procedure refer to those days when the university is in regular, official session.

8. Receipt, in all cases, refers to the time (day) at which the appropriate document(s) are officially initialed and/or stamped by the person(s) designated or by his/her official representative.

9. If the student and/or faculty member involved in the grievance is not available due to the former not being enrolled in a current term or the latter not assigned teaching duties in a current term, the Provost/Vice President for Academic Affairs will establish appropriate and reasonable extensions of time.

As a university student you will have a great deal of independence and freedom. At the same time, as members of society, as well as the university community, we are all held accountable for our actions. The policies of the university are set forth below, as well as your student rights and responsibilities. Please take the time to familiarize yourself with this section of the SVSU Student Handbook.

Student Rights and Responsibilities

Article 1
Academic Rights and Responsibilities

Appropriate conditions and opportunities for learning are important measures of the quality of an educational institution. The university assumes a number of essential responsibilities in order to achieve academic excellence and to preserve the ideals of academic freedom for students. As members of the academic community, students similarly accept certain responsibilities.

1.1 Academic Integrity Policy
Statement of Philosophy
The primary purposes of a university are to produce new knowledge and to share knowledge acquired from others. These purposes can be achieved only when intellectual property rights are recognized by everyone within the university. Thus academic integrity is essential; university citizens must take responsibility for their own work and give credit when using the work of others.

Student Honor Code
One effective way for an individual to maintain academic integrity is to accept and follow a code of honorable conduct. The Honor Code authored by the Academic and Leadership Development Committee of the Student Association is one such code:

As a student at Saginaw Valley State University:
I am committed to upholding a high standard of academic integrity in all of my work, inside and outside of the classroom. Out of respect for my peers, professors, institution, and self, I will complete all tasks honestly and to the best of my ability.

I am guided by my conscience as I work toward my educational and professional goals, and I expect my fellow students to practice that same moral judgment.

I take pride in my academic accomplishments and therefore will not give or receive unauthorized assistance on any assignment, project, exam, or other university requirement.

I seek to maintain the honor of a Saginaw Valley State University degree, and I will preserve its value throughout my professional career.

Definitions
Academic integrity is undermined whenever one is dishonest in the pursuit of knowledge. Dishonesty takes many forms, including cheating, plagiarism, and other activities for undermining the educational process:
Cheating occurs whenever one attempts to gain an advantage through violation of rules regarding the relevant behavior. It should be assumed that collaboration is cheating unless explicitly authorized. Plagiarism involves intentionally or unintentionally presenting another person’s expressions –ideas, opinions, illustrations, data, style–as one’s own expression. Undermining the Educational Process occurs whenever one attempts to prevent another’s learning or subverts the recognized means by which learning occurs.

Procedures for Dealing with Instances of Academic Dishonesty
The first step to be taken by a faculty member should be a review of the evidence to ensure that there is sufficient reason to warrant a charge of academic dishonesty. This should be accomplished prior to imposing any academic sanction (e.g., failing a student for an assignment or a course) and/or referring the matter to the Office of Student Conduct Programs for adjudication.

To determine the course of action to be taken, faculty may elect to consult with a department chair, academic dean or the Coordinator of Student Conduct Programs. When the violation involves plagiarism faculty members are encouraged to employ all available resources (e.g., Turnitin.com, Google searches) in developing a set of evidence.

Disciplinary Process for Incidents of Academic Dishonesty
If the faculty member elects to impose an academic sanction (whether or not the faculty member also refers the matter to the Office of Student Conduct Programs), the faculty member is to advise the student of the sanction. If the student elects to appeal the academic sanction, the student is to initiate the Student Grade Grievance Procedure which appears in the Policies and Procedures section of the Student Handbook. If the faculty member elects not to impose an academic sanction but refers the matter to the Office of Student Conduct Programs, the disciplinary process outlined in the Code of Student Conduct will be followed.

Sanctions
The Hearing Panel may impose sanctions upon any student determined to be accountable for violations of the Academic Integrity Policy. Sanctions are cumulative and may be increased based on a past disciplinary record, the severity of the violation, and the impact upon the academic community. There may be circumstances that are cause for exception as determined by the Hearing Panel.

Appeals
Students have the right to appeal outcomes of hearings and/or sanctions imposed. Written appeals must be submitted within three days following the written notification of the decisions reached by the Hearing Panel. Appeals will be reviewed jointly by the Provost/Vice President for Academic Affairs and the Vice President for Student Affairs.

Records
All cases concerning academic dishonesty must be recorded in the Office of Student Conduct Programs. Additionally, student grade grievance proceedings that occur due to academic dishonesty must be recorded in the Office of Student Conduct Programs. This means that faculty, academic chairs or deans must notify the Office of Student Conduct Programs when a student’s grade is changed for reasons of academic dishonesty.

1.2 Instruction and Academic Evaluation
1.2.1 Institutional Responsibility: The university shall provide a variety of degree programs. Courses and programs should be offered which are relevant not only to the varied interests and abilities of the student body, but also to the changing needs of society. Courses should be offered on a timely basis. Qualified faculty and adequate facilities, equipment, and materials should be provided to support instructional programs. The university also has the responsibility to provide instruction which correlates closely with approved course descriptions as published in the current SVSU catalog, to be provided for each incoming student.

Students have a right to be informed of the aims of each course at the beginning of the semester; instruction will be directed toward fulfillment of those aims. They have a right to be informed of the course requirements, methods and criteria for determination of the course grade at the beginning of the semester. Reasonable notice will be given for fulfillment of said requirements. Classes will meet at regularly scheduled times unless notice is given or emergency circumstances arise. Students should have, upon request, appraisal of their progress in each course and opportunities to review and discuss their academic work with their instructors. Course grades shall be based entirely upon students’ performances in meeting course requirements. A grievance is an alleged violation of this agreement and students have the right to pursue resolution of grievances through the student grievance procedure. Course work neither returned nor offered to be returned by a faculty member to a student shall be retained by the faculty member for at least thirty (30) days from the time the student had knowledge, or reasonably should have knowledge, of the occurrence of a possible cause of a grievance and, if a grievance is filed, shall be retained by the faculty member throughout the time limits of the student grievance procedure.

1.2.2 Student Responsibility: Students, as members of the academic community, also share responsibility for promoting a healthy academic environment. Students should be aware of the programs of study which are available and their particular requirements.
Students should strive to attain their highest possible level of academic achievement. They have an obligation to abide by standards of academic honesty which dictate that all their scholastic work shall be original. Violations of academic honesty are governed by the Code of Student Conduct.

Once enrolled in a course, students are expected to become familiar with instructional objectives, course requirements, and methods employed in determining the course grade. Students should make every effort to attend class, to be prepared, and to participate in the activities of the course. Students shall accept responsibility for completing the requirements of the course. Students should participate in the evaluation of instruction, courses, and academic programs. Students shall be responsible for their course work returned to them by the faculty.

1.3 Academic Freedom for Students

1.3.1 Institutional Responsibility: Students should be encouraged to engage in open discussion, inquiry and expression, to take reasoned exception to the views and interpretations offered, and to reserve judgment about matters of opinion throughout the academic community.

1.3.2 Student Responsibility: Students share with the entire academic community the responsibility for preserving the ideals of academic freedom. Any action which stifles free expression or which disrupts efforts to present a wide variety of opinion is contrary to academic freedom and is, therefore, unacceptable within the university.

1.4 Academic Advising

1.4.1 Institutional Responsibility: The university shall provide accurate, complete and readily available information sought by the students, or should direct students to the proper sources. Faculty and staff are expected to be readily available to students for advising and other conferences during scheduled office hours, or at arranged appointments.

1.4.2 Student Responsibility: Students are responsible for informing themselves of university, college and departmental requirements as stated in the university catalog. In planning to meet such requirements, students are responsible for consulting with faculty and/or staff for academic advice.

1.5. Academic Records

1.5.1 Institutional Responsibility: Students have a right to protection against improper disclosure of information concerning academic performance and personal characteristics such as values, beliefs, organizational affiliations and health.

1.5.2 Student Responsibility: Students have the responsibility to provide full and accurate information necessary for the maintenance of valid academic records. Students are encouraged to keep copies of their course work.

Article 2

2.1 Student Participation in Institutional Governance

2.1.1 Institutional Responsibility: As constituents of the academic community, students are free, individually and collectively, to express their views on issues of institutional policy, and on matters of general interest to the student body. Through membership on various standing and ad hoc committees with members of the faculty and administration, students may participate in the formulation and application of institutional policy affecting academic and student affairs.

2.1.2 Student Responsibility: Student members of committees should fulfill all responsibilities of that membership, including regular attendance and follow-through on all assignments and commitments.

2.2 Student Publications

2.2.1 Institutional Responsibility: The university shall provide sufficient editorial freedom and financial autonomy for student publications to maintain their integrity of purpose as vehicles for free inquiry and free expression in the academic community. As safeguards for editorial freedom, all forms of student publications shall be free of censorship and advance approval of material, and their editors shall be free to develop their own editorial policies and news coverage.

2.3 Student Records

2.3.1 Institutional Responsibility: The university shall be responsible for keeping accurate and up-to-date student records. Students are entitled to obtain access, with legal limitations, to official non-academic records and transcripts.

2.3.2 Student Responsibility: Students shall provide honest and complete information as requested for any university matter, and comply with all reasonable expectations concerning format and completion of that information. Students are encouraged to keep copies of documents pertaining to non-academic matters.

2.4 Rights of Citizenship

2.4.1 Institutional Responsibility: Students, as members of the academic community, enjoy the same freedom of speech, peaceful assembly, and right of petition that other citizens enjoy. Faculty members and administrative officials will ensure that institutional powers do not inhibit students’ exercise of rights of citizenship both on and off campus.
2.4.2 Student Responsibility: Students are subject to the obligations which accrue to them by virtue of their membership in the academic community and as citizens.

2.5 Freedom of Association

2.5.1 Institutional Responsibility: In order to express current interests and to develop new ones, students have the right to organize, and to join associations which promote these interests.

2.6 Information Regarding Policies and Procedures

2.6.1 Institutional Responsibility: The university will make available to students, upon request, written information of policies and procedures which could affect the students' welfare, and full explanation of questions about these policies.

2.6.2 Student Responsibility: Students should acquaint themselves with the policies and procedures pertaining to their circumstances. They should adhere to these policies and procedures.

2.7 Fair and Equitable Treatment

2.7.1 Institutional Responsibility: In contacts with university personnel, students should receive fair, equitable and respectful treatment.

2.7.2 Student Responsibility: Students should afford to all university personnel due respect in the conduct of their business.

2.8 Affirmative Action

2.8.1 Institutional Responsibility: All faculty, administrative and staff personnel share the responsibility for adherence to the following policy:

2.8.1.1 Non-discrimination: Saginaw Valley State University is committed to a policy of equal employment opportunity, equal education opportunity and nondiscrimination in the provision of educational and other services to the public. These opportunities are to be provided regardless of race, religion, color, gender, sexual orientation, national origin, age, physical impairment, disability or Vietnam-era veteran status.

2.8.1.2 Sexual Harassment: Discrimination because of sex includes sexual harassment which means unwelcome advances, request for sexual favors, and other verbal or physical conduct or communication of a sexual nature when:

2.8.1.2.1 Submission to such conduct of communication is made a term or condition, either explicitly or implicitly, to obtain employment, public accommodations or public services, education or housing.

2.8.1.2.2 Submission to or rejection of such conduct or communication by an individual is used as a factor in decisions affecting such individual's employment, public accommodations or public services, education or housing.

2.8.2 Student Responsibility: Students who feel that they are subjected to discrimination and/or sexual harassment should report the incident(s) to the Special Assistant to the President for Diversity Programs and/or Michigan Civil Rights Commission to receive assistance.

2.8.3 Rights of Due Process: The establishment and maintenance of the proper relationship among members of the university's community are fundamental to the university's function. This relationship requires that faculty, staff and students respect the rights and responsibilities which derive from it. Whenever problems arise among members of the university community, attempts should be made to resolve them through informal and direct discussions. If such discussions fail to resolve a given problem satisfactorily, the appeals procedure shall apply.

2.8.4 Provisions for Amendment: Any amendments to this document must be approved by the Student Association Representatives, the Faculty Association Executive Board and the Faculty Association General Membership, it being recognized that final approval is also required by the Board of Control.

2. Any employee or student who is found to have engaged in conduct prohibited by this policy will be subject to appropriate disciplinary action, up to and including termination of employment or enrollment. In addition, appropriate corrective measures will be taken when a contractor, customer, consultant, visitor, vendor or other person is found to have engaged in conduct prohibited by this policy.

A breach of confidentiality may result in disciplinary action up to and including termination of employment.

Sexual Assault as a form of Sexual Harassment Resource Information
Sexual Violence can consist of several acts such as; sexual assault, rape, sexual battery and sexual coercion. What this means is physical sexual acts are perpetrated against a person’s will or where a person is incapable of giving consent. Consent by definition is giving permission, approval or agreeing to. Once you have stated “no” in any way then the other person should respect your wishes and stop. If this does not happen then the act of sexual violence has occurred.

If you have been the victim of sexual violence please follow the steps below.

1. Get to a safe place.
2. Call a friend, family member or the police for transportation to your local hospital for a medical exam if the sexual assault has occurred within 72 hours.
3. Your local hospital will contact a forensically trained nurse to come to the hospital. This nurse is known as a SANE nurse (Sexual Assault Nurse Examiner). The SANE nurse will collect evidence and test for sexually transmitted diseases.
4. A rape crisis counselor will also be contacted to assist you with support, information, and continuing counseling if needed.

If the assault occurred on SVSU campus the following procedures will take place:

1. You will meet with an officer privately, at a place of your choice, to take a complaint report.
2. Your name will not be released to the public or the media.
3. Police officers will not prejudice you or the charges you make and you will be treated with courtesy, sensitivity, dignity, understanding and professionalism.
4. If you indicate a preference for talking with a female or male officer, we will do our best to accommodate your request.
5. You will be assisted for a medical exam and other medical needs, if required.
6. You will be assisted by a rape crisis counselor with special expertise in working with sexual assault survivors.
7. Your case will be fully investigated to achieve a just outcome. This may involve the arrest and full prosecution of the suspect responsible. You will be kept up-to-date on the progress of the investigation and/or prosecution.
8. The officer investigating will continue to be available for you, to answer your questions, to explain the criminal justice system, and to be a listening ear if you wish.
9. Your case will be considered serious regardless of your gender or the gender of your assailant.
10. You will be assisted in utilizing standard university disciplinary procedures.
11. You will be assisted in an attempt to relocate to other housing and to transfer classes, if you should request.

Reporting the Incident: You should contact the Title IX Coordinator, Dr. Mamie Thorns, Wickes 314, (989) 964-4068.

Policy Concerning the Use of Alcohol and Other Drugs
Policy Rationale
Saginaw Valley State University strives to offer members of the university community the same rights as those afforded to members of the larger community. All members of the university community are responsible for making decisions about their behavior in accordance with federal, state and local laws, and university regulations.

The Drug-Free Workplace Act of 1988, Subtitle D, Section 5152 and the Drug Free Schools and Communities Act Amendments of 1989, PL No. 101-226, require that Saginaw Valley State University maintain an environment free from the unlawful manufacture, distribution, dispensation, possession or use of controlled substance and/or alcohol. This Policy Concerning the Use of Alcohol and
Other Drugs (this “Policy”) applies to all activities on university property, and may extend to off-campus activities and behaviors. Any violation of this Policy constitutes a violation of the SVSU Code of Student Conduct. Such violations may result in disciplinary action by both the university and civil authorities.

This Policy is written as evidence of Saginaw Valley State University’s commitment to its students by:

- Encouraging a campus environment where healthful choices are made;
- Working to prevent alcohol and other drug abuse;
- Expecting responsibility for one’s own choices and behavior;
- Encouraging alcohol-free programs;
- Supporting and empowering those who choose responsibly not to use alcohol; and
- Enforcing university rules and regulations, and federal, state, and local laws that govern alcohol and other drug use.

Alcohol & Drug Related Incidents Requiring Medical Assistance
In the case of alcohol intoxication, alcohol poisoning, drug overdose or other alcohol or drug-related medical emergency, the primary concern is the health and safety of the individual(s) involved. Students are strongly encouraged to seek immediate medical assistance for themselves or their peers in the case of an alcohol or other drug-related medical emergency. Students for whom medical assistance is sought, or those who seek medical assistance for themselves or for others, for alcohol or other drug-related medical emergencies will not be subject to university discipline for the sole violation of using or possessing alcohol or drugs. Such students may, however, be referred to university education and support programs or community referrals, and may be subject to disciplinary action when other university rules or policies have been violated. Further, students remain subject to local, state, and/or federal laws concerning the use of alcohol and/or drugs, and may be subject to penalties as prescribed by law.

An individual, for whom emergency medical assistance is sought due to an alcohol or drug-related condition, is financially responsible for all costs of his or her medical care, including ambulance and/or hospitalization costs.

Disciplinary Process
Students accused of behavior in violation of this Policy are subject to the disciplinary process and procedures set forth in the SVSU Code of Student Conduct and this Policy. In the event a student is notified of a violation of this Policy, the student must contact the designated student conduct officer within two (business) days of notification. A screening appointment will then be scheduled within the next five (business) days and a determination of the appropriate sanction(s) will be completed within the following two weeks, when school is in session.

Parental Notification
In October of 1998, Congress passed an amendment to the Family Education Rights and Privacy Act (FERPA) which allows an institution of higher education to disclose to parents or legal guardians of a student, information involving a violation of federal, state, local law or a rule or policy of the institution governing the use or possession of alcohol and/or other drugs, if the student is under the age of 21 and the institution has determined that a disciplinary violation occurred. In response to alcohol-related tragedies in the State of Michigan and across the country, SVSU’s policy is to inform parents or guardians of a student under the age of 21 when the student is found responsible for a violation(s) of this Policy.

Provisions Specifically Relating to Alcohol
University Alcohol-Related Regulations

Violations of any of the above-listed regulations will constitute a violation of this Policy and the SVSU Code of Student Conduct.

Alcoholic Beverage Policy for Approved University Functions
The consumption of alcohol by those 21 years of age and older is permitted during an approved university function; provided, however, that all applicable provisions of this Policy concerning the use of alcohol remain in effect. Applications and guidelines are available from University Conference & Events Center (964-4348).

Additional Resident Student Alcohol Policy Provisions
First Year Suites and Living Center North are designated as alcohol-free (zero tolerance) living areas. The possession or consumption of alcohol, being under the influence of alcohol, and/or the possession of alcohol containers, regardless of whether the containers hold alcohol, is not permitted under any circumstances. Assigned residents of Living Center South, Living Center Southwest, University Village East, University Village West, and Pine Grove who are 21 years of age or older, and who have obtained a valid alcohol permit initiated through the Resident Director are permitted to possess and consume alcohol in accordance with this Policy, including, the following behavioral rules and regulations:

• Alcohol permits granted to students 21 years or older are only valid in the student’s assigned residence. Alcohol permits are not transferable to use in other units.

- 755 ml of wine (the equivalent of one average-size bottle of wine) and 755 ml of liquor (the equivalent of one fifth).

All other alcoholic beverages are prohibited.

Substance-free living areas (free of alcohol, drugs, and tobacco products) are also available to residents. Students residing in these areas must understand and agree to abide by the substance-free agreement. The resident’s guests must also abide by these conditions. Student’s present in any university substance-free area under the influence of alcohol, drugs, and/or tobacco products may result in the removal from the substance-free area, space permitting. If space is not available in another suitable residential facility, the student may be removed from university housing and bear the financial consequences under the conditions described in the publication, “Resident Student Handbook,” under the “Termination” section.

Off-campus Activities

Although the university accepts no responsibility for the use or distribution of alcoholic beverages at off-campus social functions sponsored or attended by students or university-related organizations or individuals, the university’s expectations and standards for its students may extend to activities and behavior off-campus.

All persons planning or attending such an off-campus activity should be aware of the applicable alcoholic beverage and other laws in that situation. Each person participating in the activity assumes responsibility for his or her own actions. Students attending off-campus social functions sponsored or hosted by students or university-related organizations or individuals are subject to all applicable federal, state and local laws, as well as university rules and regulations, and violations may result in disciplinary action by the university and/or civil authorities.

Alcohol Disciplinary Sanctions

A student who is determined to have violated this Policy for an alcohol-related infraction is subject to the sanctions set forth in SVSU’s Code of Student Conduct, as well as the sanctions described below. In addition, such student is subject to prosecution and punishment under federal, state and local laws.

The following table is a general summary of the range of possible university alcohol-related sanctions. Civil (Dram Shop) Liability
Students should also be aware that civil liability may be incurred when their sale or furnishing of, or assistance procuring, alcoholic beverages to an intoxicated person is found to have caused or contributed to property damage or personal injury or death of a person. Such liability may arise independently of any university sanctions or prosecution under local, state or federal laws.

**Provisions Specifically Relating to Other Drugs**

**University Drug-Related Regulations**
The following university regulations govern the possession, use, manufacture, sale or distribution of controlled substances (as defined in the Michigan Public Health Code):

- Any student unlawfully using controlled substances, possessing controlled substances or drug paraphernalia, selling or otherwise distributing controlled substances is subject to discipline under the SVSU Code of Student Conduct.
- The use of prescription drugs or over-the-counter substances, such as inhalants or herbals, in any way other than the intended or appropriate use, may be interpreted as a violation of this Policy.
- The odor of a controlled substance may constitute a violation of this Policy.
- Evidence of a drug-related violation of this Policy will be reported promptly to the Department of University Police.
- Criminal penalties imposed under federal, state and local laws for controlled substance violations can be severe, and can include imprisonment.
- Drug violations for which a student is convicted may affect his or her eligibility for financial aid.
- Violations of drug regulations may result in disciplinary action by both the university and civil/criminal justice systems.
- The university will pursue prosecution of students utilizing drugs in the execution of a crime.
- Residents are responsible for their guests’ behavior and may be charged through the disciplinary process for the actions of guests who violate this Policy.

Violations of any of the above-listed regulations will constitute a violation of this Policy and the SVSU Code of Student Conduct.

**Medical Marijuana**
The use, possession, storage or cultivation of marijuana in any form and for any purpose is prohibited at Saginaw Valley State University. Although the Michigan Medical Marijuana Act of 2008 (the “MMMA”) permits qualified patients with specific medical conditions and their primary caregivers to use and possess marijuana, the MMMA conflicts with federal laws. Because the university receives federal funding and is subject to the Drug-Free Workplace Act of 1988 and the Drug Free Schools and Communities Act
Amendments of 1989, the use, possession, storage or cultivation of marijuana by anyone while on SVSU property, regardless of whether he or she is a licensed/registered patient or caregiver under the MMMA, is a violation of this Policy and, therefore, a violation of SVSU’s Code of Student Conduct.

**Drug Disciplinary Sanctions**

A student who is determined to have violated this Policy for a drug-related infraction is subject to the sanctions set forth in SVSU’s Code of Student Conduct, as well as the sanctions described below. In addition, such student is subject to prosecution and punishment under federal, state and local laws.

The following table is a general summary of the range of possible university drug-related sanctions. Sanctions are cumulative and may be enhanced based on past disciplinary record, the severity of behavior and/or the impact of the violation upon the community. There may be circumstances that are cause for exception. Penalties will reflect the degree of the drug-related violation and may include appropriate developmental sanctions or disciplinary restrictions and, in certain situations, a student may be expelled upon the first occurrence of a drug-related violation of this Policy.

Smoke-Free Environment Policy

Purpose
Saginaw Valley State University recognizes free choice in the matter of smoking. However, it recognizes a more fundamental right of the majority population of non-smokers to breathe clean air. This policy is intended to protect and enhance the indoor and outdoor air quality and to contribute to the health and well-being of all.

Saginaw Valley State University is committed to providing a campus environment that promotes productivity and well-being and minimizes the harmful effects and discomfort which using tobacco products can produce.

Policy
This policy is established to promote public health and provide compliance with the Michigan Indoor Clean Air Act (P.A. 1986, No.84, MCLA 333.12601 et. Seq.); P.A. 368 of 1978 as amended, MCLA 333.12905; and sec. 20 of P.A. 227 or 1967, MCLA 408.820 and the university’s Clean Indoor Air Policy adopted 3/13/78 with revisions made 2/9/89 and 8/11/97:

- All university facilities, including university vehicles, are designated as smoke-free, including all smoking materials or chewing tobacco products.
- This smoke-free policy applies to all students, faculty, staff members and visitors.
- Smoking is prohibited on campus except in residential parking lots and lettered parking lots. However, in no case can smoking in residential parking lots and lettered parking lots take place within 25 feet of any building.
- Smokers are expected to keep smoking areas clean and to use appropriate receptacles to dispose of smoking materials.

Procedure
To lodge a formal complaint against a person who does not comply with this policy, persons must follow this procedure:

1. Inform the individual that smoking is prohibited on campus except in residential parking lots and lettered parking lots; in no case can smoking in residential parking lots and lettered parking lots take place within 25 feet of any building. It is the responsibility of each member of the campus community to educate others on Saginaw Valley State University’s Smoke-Free Environment Policy.
2. Should the problem persist, ask the person for his/her name and whether he/she is a student, faculty, staff member or visitor. To adjudicate the alleged violations, initiate a referral to the Coordinator of the Office of Student Conduct for students, to the Director of Human Resources for employees and to University Police for visitors.
3. If the person refuses to identify himself/herself, contact the University Police, 989-964-4141, for assistance.
4. Persons violating this policy will be subject to discipline as with other violations of university policies, regulations and rules. State law also provides for a civil fine of not more than $100 for a first violation and a fine of not more than $500 for a second or subsequent violation of the Michigan Indoor Clean Air Act (MCLA 333.12601 et. seq.).
Policy on Student Self-Destructive Behavior

Self-destructive behavior shall be understood to mean and include: attempts or threats on the part of the individual to end his/her life or to inflict serious bodily harm on himself or herself by any means capable of producing such result. Attempted or threatened suicide or self-inflicted physical harm is an occasional form of student behavior with which the university is unsuited to cope with on any but the most temporary basis. While the institution aims to provide students with a great deal of individual freedom to think, speak and act, physically destructive behavior cannot be ignored. Therefore, it may be necessary to withdraw students who manifest such behaviors from the university, subject only to the possibility of conditional reinstatement to include compliance with terms outlined in a behavioral contract between the university and the student.

Where student withdrawal occurs under this policy, every effort will be made to minimize adverse academic and financial consequences from withdrawal, consistent with existing university policies applicable to grades and refunds.

All cases/complaints involving self-destructive behavior must be reported to a coordinator of the Student Conduct program. Due to the responsibility for the welfare of the entire university community, it may be necessary to consider emergency suspension in these cases.

A temporary suspension may be imposed if, after notification of alleged self-destructive behavior, the Vice President for Student Affairs, or his/her designee, believes there is or will be a danger to the student involved.

Information for Students with Disabilities

Policy Statement
Saginaw Valley State University does not discriminate on the basis of disability in the recruitment and admission of students, the recruitment and employment of faculty or staff and the operation of any of its programs, services or activities.

Saginaw Valley State University will make reasonable accommodations to individuals with disabilities within a reasonable period of time, normally within three weeks from the request for a specific accommodation. Eligibility for reasonable accommodations is based on disability documentation and assessment of individual needs. Requests for accommodations should be made at the Office of Disability Services, Curtiss 112. SVSU does not provide personal assistance.

Student Accommodation Appeals Procedure
Saginaw Valley State University’s office of Disability Services has the responsibility to recommend and arrange accommodations for students with disabilities. A formal appeal process is available to students who believe accommodations have been denied or that the recommended accommodation is not appropriate. Although there is no time limit for filing a complaint, mediation and resolutions will be for current or on-going situations.

1. Student should first discuss the problem with the Director of Disability Services.

2. If the situation cannot be resolved informally or if the student is not satisfied with the outcome of the meeting, an appeal may be filed, in writing, to the Vice President for Student Affairs or his/her designee. The appeal can be brief but must be specific, identifying the problematic situation, parties involved and possible solutions.

3. A review of the situation will typically commence within three (3) working days. The Vice President for Student Affairs or his/her designee will appoint (an) investigator(s) to review the complaint. A full report will be filed by the investigator(s) with the appropriate Vice President or Dean, who will render a decision within three working days of receipt of the report and notify the student in writing.

c. Sanctions: The range of sanctions that may be imposed by the Hearing Panel for violations of the Academic Integrity Policy include:

Section 2.

10. Disciplinary Process

Complaints of student behavior that may be in violation of the Code of Student Conduct are first reviewed by the Coordinator of Student Conduct Programs. There are four courses of action available to the coordinator:

1. Handle the complaint as a Mediation Conference -- a meeting convened to provide conciliation between parties; the resolution is agreed upon by all involved. If this process does not satisfy both parties, a referral will be made as follows.
2. Formally charge the accused student with a violation of the Code of Student Conduct, following the Disciplinary Procedures outlined below.
3. Refer the charge through the University Residential Life Disciplinary Process.
4. Determine that no formal action should be taken.

11. Disciplinary Procedures

a. Emergency Suspension/Restriction

Because of the responsibility of the university for the welfare of the entire university community, it may be necessary to impose emergency suspension/restrictions in some serious situations. After a report of a violation, if the Vice President for Student Affairs or his/her designee has cause to believe that danger will be present if a student is allowed to remain on campus, a limited action for a temporary suspension/restriction of campus residency, use of facilities and/or attendance/participation at specified university functions can be imposed. When reasonably possible, the Vice President for Student Affairs or designee will meet with the student prior to imposing the restriction.

A hearing will be scheduled before a hearing officer(s) as soon as practicable. A hearing officer(s) will have the power to lift, extend or impose additional sanctions following the hearing.

b. Disciplinary Procedures

1. The student charged shall be notified by the coordinator that he/she is accused of violating university regulation(s) by means of a formal Notice of Charge, which will include the following information:
   1. The charges with sufficient detail of the reported action to enable him/her to prepare a response to the charge
   2. A forewarning of possible consequences.
   3. The name of complainant and witnesses, if then known.
   4. The Waiver/Hearing Request Form by which the student may either accept responsibility for the charge or deny responsibility and request a hearing.

b. Within a stated period of time, the student may select one of two courses of action:
   1. He/she may accept responsibility for the reported action and waive, in writing, his/her right to a hearing. In such cases, a hearing officer(s) will impose a sanction(s) deemed appropriate after meeting with the student.
   2. He/she may deny responsibility for the reported action in writing. If this option is selected, the student will be afforded a hearing before a hearing officer(s) not less than three (3) days but no more than seven (7) days following this request. When an extension of time appears necessary to avoid undue hardship, the Coordinator of Student Conduct Programs may extend the time.

Failure to respond by choosing either of the above will be considered the same as an admission of responsibility. In this case, a hearing officer(s) will attempt to meet with the student and then make a ruling based on the information available.

12. Procedural Guidelines

Follow-up will take place, as soon as practical, as prescribed in the following section. The essential safeguards for fair treatment will be provided for students charged with violating university regulations. The following shall serve as procedural guidelines:

a. The student shall be notified by the coordinator that he/she is accused of violating university regulation(s) by means of a formal Notice of Charge, which will include the following information:
   1. The charges with sufficient detail of the reported action to enable him/her to prepare a response to the charge
   2. A forewarning of possible consequences.
   3. The name of complainant and witnesses, if then known.
   4. The Waiver/Hearing Request Form by which the student may either accept responsibility for the charge or deny responsibility and request a hearing.

b. Within a stated period of time, the student may select one of two courses of action:
   1. He/she may accept responsibility for the reported action and waive, in writing, his/her right to a hearing. In such cases, a hearing officer(s) will impose a sanction(s) deemed appropriate after meeting with the student.
   2. He/she may deny responsibility for the reported action in writing. If this option is selected, the student will be afforded a hearing before a hearing officer(s) not less than three (3) days but no more than seven (7) days following this request. When an extension of time appears necessary to avoid undue hardship, the Coordinator of Student Conduct Programs may extend the time.

Failure to respond by choosing either of the above will be considered the same as an admission of responsibility. In this case, a hearing officer(s) will attempt to meet with the student and then make a ruling based on the information available.

13. Hearing Procedures

a. After sufficient notice of the date, time and location of the hearing, the charged student may elect to appear. Should the student fail to appear after sufficient notice, the hearing will take place in the student's absence.

b. The student charged shall be permitted to view any material evidence that will be submitted and considered at the hearing.

c. The student charged shall be entitled to hear, see and examine all evidence presented, to present all relevant evidence in his/her behalf in the form of witnesses or documents, and to respond to questions, but only if the student so elects.

d. The accused student may be advised and accompanied by a member of the university community, who may, if requested by the student, present a statement to a hearing officer(s) on behalf of the student. Any other presentations and questioning of witnesses shall be conducted solely by the student.

e. A hearing officer(s) shall attempt to establish the facts relevant to the reported violation based solely on the evidence presented at the hearing. Any findings must be based on substantial evidence.

f. Each hearing will be recorded on audio tape, which will remain in the Office of Student Conduct Programs throughout the appeal period.

g. All proceedings shall be private, unless otherwise requested by the student.

h. After due deliberation and within three (3) class days of the hearing, a hearing officer(s) will announce findings. Sanctions, when appropriate, will be delivered in the form of a letter to the charged including the reasons for any decision rendered against him/her.
14. Sanctions
The following sanctions are authorized as appropriate penalties that may be imposed by a hearing officer(s) when a student admits responsibility for, or is found to have violated university regulations. These sanctions may be used in combination.

a. Completion of Rehabilitation Program: At the discretion of the Student Counseling Center, a student may be required to attend and complete a community rehabilitation program.

b. Developmental/Educational Assignments: Examples include, but are not limited to, community service assignments, written topical reports, presentation of programs, interviewing appropriate persons and attending appropriate lectures or seminars.

c. Expulsion: This sanction is one of involuntary departure from the university with loss of all student rights and privileges. Separation is permanent and makes no provision for the student to re-enroll at SVSU. The expelled student is prohibited from the university and may be subject to arrest if this restriction is violated.

d. Fines: Students may be assessed a fine in conjunction with other sanctions which will further the educational mission of the university. A fee for mandatory short-term counseling may also be assessed. Fines will be posted on a student’s subsequent billing statement.

e. Referral for Counseling: Students may be required to schedule an appointment(s) with the Student Counseling Center for purposes of assessment and short-term counseling. The student may be required to submit a written signed statement of attendance.

f. Restitution: Payment equal to replacement or repair costs, including labor, for damaged or stolen property, or for the reimbursement of other losses, such as medical bills.

g. Restrictions: Restrictions include, but are not limited to, termination or denial of residence in university housing, denial of use of specific university facilities, and/or restrictions from participation in extracurricular activities.

h. Temporary University Suspension: A student may be temporarily suspended from the university by the Vice President for Student Affairs or his/her designee pending the outcome of final charges. The Vice President for Student Affairs or his/her designee may invoke a temporary suspension if there is a strong indication that the student’s continued presence on campus would constitute a potential for serious harm to him/herself or to the safety of any member of the university community or property.

i. University Housing Probation: Probation is a definite period of observation and review. If a student is again found responsible for violating a university rule or regulation, particularly within a residence hall, or violating an order of a judicial body, then suspension from remaining in a particular residence hall, suspension from all university housing and/or restriction from entering any university residence hall may take effect immediately. Additional or alternate sanctions may be imposed.

j. University Housing Suspension:
   1. This form of suspension precludes a student from remaining in a particular university facility. Or, it may preclude a student from living in any University Housing. The specific period of the suspension will be for a minimum of two semesters. The suspended student is prohibited from visiting any university housing facilities during this suspension and may be subject to arrest if this condition is violated.
   2. A student whose University Housing Agreement is terminated by judicial or proprietary action is responsible for payment of a minimum pro-rated charge of the room and board rate for the actual days in residence and forfeiture of the remainder of the contractual obligation. Housing deposits for the following academic year will also be forfeited according to established cancellation deadlines.

k. University Probation: A more severe sanction than a warning, to include a period of review and observation during which the student must demonstrate the ability to comply with university rules, regulations, and other requirements stipulated for the probation period. Probation will not exceed two consecutive semesters of enrollment. Violations occurring during the time of probation will result in suspension or expulsion from the university. A copy of the letter of probation will be filed in the Office of Student Conduct Programs.

l. University Suspension: A suspended student will be withdrawn from all courses and will be separated from the university for a period not to exceed six academic semesters. Readmission will be at the discretion of the university and may include completion of required conditions. The suspended student is prohibited from the university and may be subject to arrest if this restriction is violated.

m. Warning: A verbal and/or written notice to a student indicating his/her conduct is in violation of university rules or regulations. A copy of the written notice will be filed in the Office of Student Conduct Programs.

15. Interpretation
Any questions related to the Code of Student Conduct, including disciplinary procedures, can be referred to the Office of Student Conduct Programs, 113 Curtiss, 964-2220. Hearings are designed to afford fair and just treatment to those participating. A format is employed which preserves order and gives each participant an opportunity to speak and ask questions in turn.

16. Appeals
In some instances, the decision of a hearing officer(s) may be appealed by the accused student. Appeals must be made in writing within three (3) class days following the announcement of a hearing officer(s) and should be delivered to the Coordinator of Student Conduct Programs. Appeals will be heard by a hearing officer(s) and handled within three (3) class days of its receipt by the Coordinator. When an extension of time appears necessary to avoid undue hardship, the Coordinator of Student Conduct Programs may extend the time.
The following constitute grounds for appeals:

If the appeal is subsequent to a charge that was admitted by the student, the appeal must be based solely on the contention that the sanction was excessive. Minimum published sanctions are not subject to appeal.

If the appeal is subsequent to a charge that was denied by the student and a hearing officer(s) ruled that the student was responsible for the action, the appeal may be based on the following:
1. New evidence that was not available during the hearing;
2. The contention that due process was denied the student;
3. Proof of arbitrary or capricious treatment by a hearing officer or panel; or,
4. Contention that the sanction was excessive. Minimum published sanctions are not subject to appeal.

The Coordinator of Student Conduct Programs will determine if the grounds for appeal are sufficient to warrant such; that decision will be final.

Section 3
17. Resident Student Disciplinary Process
Students residing in University Housing are subject to the Code of Student Conduct, various policies described in the University Housing Agreement, information contained in the Resident Student Handbook and/or other standards of behavior otherwise published by the Offices of Housing Operation and Residential Life. Reports of violations can be submitted by students, staff or faculty to the Office of Residential Life. The reported incident will be evaluated and referred to an appropriate university conduct process.
