CHEMTECH + EPC World Expo 2015

CHEMTECH will organise 27th edition of CHEMTECH World Expo from January 28-31, 2015, at Bombay Convention & Exhibition Centre, Goregaon (East), Mumbai. The event envisages bringing the entire ecosystem of the downstream chemical processing industry from key manufacturing sectors of Chemicals & Petrochemicals, Polymers & Plastics, Rubber & Elastomers, Mining, Metals & Metallurgy, Pulp & Paper, Paints & Coatings and the allied services providing sectors of EPC, Industry Automation & Control and Water to the world’s second largest platform for the chemical processing industry.

Mr B Narayan, Group President (Procurement & Projects), Reliance Industries Ltd has graciously accepted chairing the current edition of EPC World Expo which will be organised concurrently during CHEMTECH World Expo 2015.

EPC World Expo is India’s single largest forum which sees a convergence of users from Refining & Petrochemicals, Chemicals & Specialty Chemicals along with the services providers from the sectors of Engineering, Capital Goods & Process Equipment, Construction, Industry Automation, System Integration & IT solutions, Environment and Water & Waste Water treatment, etc.

12th PLAN PROPOSITION

<table>
<thead>
<tr>
<th>Oil Exploration &amp; Production</th>
<th>$ 51.05 bn</th>

Benefits for Exhibitors

✓ Business Interactions: Meet over 1100 exhibitors from across the entire value chain of the chemical process industry.
✓ Strategic alliances: Interact with the entire supply network across the Chemical, Pharma & Biotechnology and Oil & Gas sectors from a single location.
✓ Market analysis: Evaluate the Indian consumption market and get feedback with over 40,000 visitors walk-ins over 4 days.

Strong Indian EPC to Make Brand India Global

The rationale behind the theme ‘Strong Indian EPC to Make Brand India Global’ for the Chemtech EPC Conference was owing to the fact that the businesses in the Indian market were not so promising in the last couple of years. Moreover, it will take at least a year or two for the new government to eliminate the prevailing predicaments in the Indian EPC sector depending upon how quickly the new pragmatic policies are brought into effect. Until then, the EPC companies will be completely dependent on projects outside India.

The other prime focus of the event is to create awareness among the Chemical Industry in India about the pros and cons, as well as the effectiveness of the EPC/ EPCM mode of contracting, so as to enable the customers to take better advantage of the competence of the Engineering Companies & EPC Contractors in line with the international practices followed in other developed countries and regions. Furthermore, many fabricators and manufacturers are also part of the conference, so it is necessary to see how the Indian manufacturers can successfully be a part of supply chains of the global EPC projects. Besides, Chemtech 2015 has also incorporated a dedicated session for the Indian equipment manufacturers to share their experiences in the international market, since equipment manufacturers form a very important part of the EPC forum.

The EPC conference based on the theme ‘Strong Indian EPC to Make Brand India Global’ will enable the industry experts to engage in direct dialogue with their peers during two days of conference during six themed sessions viz.
✓ Health Safety & Environment
✓ Project & Risk Management
✓ Contribution of Indian Manufacturing Sector in Indian Market
✓ Development of Process Technology & Integration of Technology with Engineering
✓ Construction
✓ Investments in Chemical Process Industry

The principle of the entire event is to showcase Indian capabilities to the international project owners.

EXHIBITORS

- Plant Machinery & Industrial Consumables
- Engineering Consultants
- OEMs for Chemicals & Pharmaceutical Processing Equipment
- Metals & Metallurgy
- Bioprocessing Equipment
- Construction Services Providers
- Plant Maintenance Services Providers
- Logistics & Supply Chain Solutions Providers
- Instrumentation & Process Control
- Industry Automation (Process & Factory)
- Systems Integration & ERP Solutions Providers
- Water & Waste Water Treatment Consultants
- Environment Solutions Providers
- Waste Management Consultants
- Financial Institutions
- Fire & Safety Solutions Providers
- Material Handling Solutions
- Certification Bodies
- Welding Solutions
- Quality Health & Environment Solutions
- Analytical & Laboratory
- Packaging Materials, Machinery & Systems
- Business Consultants

VISITORS

- Petroleum Refineries
- Chemicals & Petrochemicals
- Fertilizers & Agrochemicals
- Specialty Chemicals
- Plastics & Polymers
- Rubber & Elastomers
- Pharma & Biotech
- Food Processing
- Paints & Coatings
- Dyes & Pigments
- Paper & Pulp
- Metals & Metallurgy
- Glass & Ceramics
- Cement
- Power
- Allied Services Providing Sectors
- Steel

Chemtech EPC + Pharma-Bio World Expo 2015 (Mumbai) Facts & Figures

Business opportunities in the Indian market are not so promising for a last couple of years & will take at least a year or two to stabilise after the formation of new Government, depending upon how quickly the new pragmatic policies are brought into effect. Until then, the EPC companies have to continue to depend upon projects outside India.

Mr P D Samudra
Managing Director & Member of the Board, Usha India Private Limited & Deputy CEO ThyssenKrupp Industrial Solutions Regional Cluster India

"On a world scale, India remains one of today’s key markets, and for sure Chemtech World Expo is the crossroads industry gateway to this market. So for any company interested in marketing their products in India attending is simply a must.”

Dr Thomas Schuhring
CEO, DECHEMA Exhibitions GmbH

"It is an honour to be a part of the CHEMTECH World Expo & Conference 2015. This proves as an excellent platform for the Indian chemical industry to converge and be exposed to the Global scenario and showcase its phenomenal potential for International growth. This is also an occasion for us to converse about common opportunities and challenges and hurdles faced by the industry in particular.”

Mr Carl Anders Lindgren
President and Technical Advisor - TAN Business Duesep Fertilisers & Petrochemicals Ltd

"With the announcement of new investment policy, a string of new large sized fertilizer plants, will see the light of day. Suddenly sport in project activity is likely to overburden the equipment manufacturers. European countries, because of their low order book are likely to pose a fierce competition to Indian industry.”

Mr C M Britto
Director - Technical, Rashtriya Chemicals and Fertilizers
