WESTWARD EXPANSION

By

Gail Turner
Westward Expansion is a 5th grade unit that I have taught only once. The complete unit, as presented, has never been taught. In this unit, students will be engaged from the very beginning with a hook that many will be able to make a connection to and an authentic connection that gives them a purposes for learning. Throughout the unit, students will learn about how and why our country expanded westward. Learning activities in the unit will help the students remain focused on completing their final team project – a scrapbook/photo journal. Students will assume the roles of different cultural groups that traveled west in their entries for the scrapbook, and they will share why they decided to travel west, what route they took, and the dangers and hardships that they faced along the way. They will practice vocabulary activities and use the reading strategies that they were taught as part of the unit lessons. Technology is also incorporated through the use of a cyber quest, web quest, power point presentation, and digital program. This inquiry-based unit will make learning fun, and students will be engaged in many meaningful activities.

America's Westward Movement
Integrated Curriculum and Instruction Design: Inquiry-Based Learning
Authors: Gail Turner
Title: Westward Expansion
Grade Level: 5

Goals/Standards: (#’s)

State Goal 16: Understand events, trends, individuals, and movements shaping the history of Illinois, the United States, and other nations.

Learning Standard E: Understand Illinois, United States, and world environmental history.
- Analyze and describe social, economic, and political factors that drew settlers to the state and region.
- Describe ways in which participation in the westward movement affected families in all cultures and communities.

Learning Standard D: Understand Illinois, United States, and world social history.
- Determine ways people, goods, and ideas moved from East to West in our nation.

State Goal 1: Read with understanding and fluency.

Learning Standard A: Apply word analysis skills to comprehend selections.

CONTEXT Engaging the Learner
Imagine that your parents have just announced that your family will be taking a vacation. Your family of four will be traveling in the family van through a remote wilderness with no place to stop for food or supplies. What would you take along? You will be allowed to take two of your most prized possessions in addition to the necessities that you might need. Make a list. Then think about how your list is similar or different to what the pioneers might have taken. Read an excerpt from a pioneer story.

Class receives letter from Mrs. Martin asking students to create scrapbooks. Mrs. Martin is a member of the local historical society. She plans to display the scrapbooks.

CONTENT Teaching and Learning Events*
Note: The QAR is taught earlier in the year by introducing the first two types of questions.

- Hook: Students complete their lists and discuss why they included the items that they did. Using a Venn diagram, students could then compare and contrast their lists with what they think the pioneers might have taken. Following opening activity, teacher reads letter from historical society. (LP)
  - Read letter – Authentic Connection
  - Venn Diagram

- Task analysis: Student questions are posted regarding project. Essential and coaching questions will then be posted and discussed. (LP)

- Inquiry begins with students reading from an internet website about the Donner Party and using the Donner Party research sheet. The class will be divided into groups of five with each student in the group reading a different part of the story of the Donner Party. New information will be shared and there will be a time for questioning. (LP)

- Connect Two vocabulary activity – Class will work in teams to determine relationships between vocabulary words. (LP)

- Research on assigned cultural groups begins with students.

Individual Student Assessments
- Diorama depicting some form of transportation used during the Westward Movement. Include details regarding the people who used this mode of transportation, the goods carried, and the trail taken.
- Map of trails
- PowerPoint presentation on historical figure

### CONTENT

**Final Team Performance**

In the journal/scrapbook, each student in the group will assume the identity of a pioneer. Journal entries will state the reasons for going west, tell the mode of transportation they will be using, the trail they will be traveling on and the problems encountered. Pictures should also accompany journal entries.

Authentic Connection:

Dear 5th Graders,

My name is Jane Martin, and I am writing on behalf of the members of our local historical society. It is my understanding that your class studies a unit on westward expansion and that you create many interesting projects through your study. I was wondering if you could put together several scrapbooks portraying the lives of families who traveled west. We would like to display these books in our museum.

I look forward to hearing from you!

Sincerely,

Mrs. Jane Martin

Lesson Plan

State Goal 16: Understand events, trends, individuals, and movements shaping the history of Illinois, the United States, and other nations

Standard D: Understand Illinois, United States, and world social history
- Determine ways people, goods, and ideas moved from East to West in our nation

Teaching and Learning Event: Hook and Authentic Connection

Description and Detailed Sequence of Activities:
- Students will plan a family vacation in which they will be traveling through a remote area
- List five to ten necessities that will be taken. Only two things that are not considered necessities may be taken
- Share lists with the class
- Read an article called “We Came Here in a Covered Wagon – Children as Pioneers”
- Compare the necessities that they took with what the students chose using a Venn Diagram
- Emphasize text to self connections (http://www.stvrain.k12.co.us/ecel/read_for_meaning.html#Making%20Connections) that can be made in discovering what similarities existed between student lists and pioneer lists
- Read letter from member of local historical society

State Goal 16: Understand events, trends, individuals, and movements shaping the history of Illinois, the United States, and other nations
Standard D: Understand Illinois, United States, and world social history

Teaching and Learning Event: Task Analysis

Description and Detailed Sequence of Activities:
- Review the content of the letter from the historical society
- Define the task to be completed at the end of the unit
- Record questions that students have regarding the unit
- Post essential and coaching questions AFTER the students’ questions are generated

Time Line: One class period

Complete Task Analysis

Read Mrs. Martin’s letter and ask, “What are we expected to do”? Record responses on chart paper.

Then ask, “If this is what we need to do, what questions do we have now? What do we need to learn?”

**Define the Task**

Create a scrapbook/photo journal
- Identify the identity of each member of the family
- State reasons for going west
- Tell mode of transportation and trail they will be taking
- Problems/conflicts encountered
- Relate the impact these people had on the growth of our country

**Ask Questions**

What questions do we have now?

- 
- 
- 
- 
- 

Then post your essential and coaching questions for the unit.

Teaching and Learning Event: Connect Two Vocabulary Activity

Description and Detailed Sequence of Activities:

- Divide class into small groups
- Each group will select two words from the Connect Two list and explore the connection in meaning. (NOTE: since this is the beginning of the unit, many of the words will be difficult to determine relationships. Therefore, many will have to guess. This activity will be used again at the end of the unit as a later assessment.)
- Group members will share their results
- To take this a step further, ask if any other connections exist between other pairs of words. Complete other examples together and record.

Teaching and Learning Event: Research

Description and Detailed Sequence of Activities:
• Students will read nonfiction books on assigned cultural group or family
• Review “Making Connections”. See website. While reading students should use sticky notes to bookmark text to self, text to text, and text to world connections
• Allow 10 minutes at the end of the class period to write 2-3 entries in individual journals
• Journal entries should begin telling what caused this person to go west

Time Line: 3-5 days

Teaching and Learning Event: Word Expert Vocabulary Activity

Description and Detailed Sequence of Activities:
- Use the master list of words given in the Connect Two activity
- Assign 2 or 3 words to each student
- Give page numbers/text where words can be located
- Each student makes expert cards for the assigned words (See [word expert cards directions](#))
- Students teach words to each other
- Allow 10 minutes at the end of the period for students to write in their individual journals. Entries should reflect problems issues that drew the people to the west.

Teaching and Learning Event: QAR

Description and Detailed Sequence of Activities:

- Allow time at the beginning of the class period to practice word expert activity
- Review QAR strategy
- Model each part of the strategy by using the first picture from the “Why did westward expansion occur?” article
- Show each group the picture of the pioneers traveling west in covered wagons
- Using the QAR organizer, each group should come up with a right there question, think and search question, on my own question, and author and me question
- Share with the entire class
- Allow for time at the end of the class period for students to write in individual journals

Teaching and Learning Event: Anticipation Guide

Description and Detailed Sequence of Activities:

- Allow time to complete word expert activity
- Give each student a copy of an anticipation guide regarding pioneers decisions and westward expansion
- Give them about 10 minutes to complete it
- Discuss class responses
- Read article called “Why did westward expansion occur?” to check responses
- Begin CYBERQUEST
- Allow time for each student to share one fact that they have learned. Discuss any facts that would clarify statements on the anticipation guide
- Begin journal entries for final team project

Reading Strategy: Asking Questions

**State Goal 1: Read with understanding and fluency.**

- **Standard B:** Apply reading strategies to improve understanding and fluency.
- **Standard C:** Comprehend a broad range of reading materials.

**Activity Name:** Question/Answer Relationships

**Description:** Questions propel inquiry forward and assist the learner to acquire information and construct meaning. As answers are found new, and perhaps, higher level questions may emerge that clarifies confusion and deepens understanding. QAR is a strategy that assists students classify questions and information and understand the relationship that exists between the question, the text, and their background and experience.

There are two categories of questions: In the Book and In My Head.

<table>
<thead>
<tr>
<th>In The Book</th>
<th>In My Head</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Right There:</strong> answer is found in the text, it is easy to find; may be stated in one or two words or short sentences; the words used in the question and answer may be found in the same sentence</td>
<td><strong>Author and You:</strong> the answer will not be stated explicitly in text; after considering what the text is saying and what is known, inferences must be made; the pieces of the puzzle must be assembled before understanding can be achieved</td>
</tr>
<tr>
<td><strong>Think and Search:</strong> the answer will take lots of words to answer; it takes a longer time to answer because different text (or books) must be used</td>
<td><strong>On My Own:</strong> answers can be given using experiences and background knowledge without reference to specific passages in the text.</td>
</tr>
</tbody>
</table>

**Directions:**

1. Begin with the category, In the Book. Introduce the strategy outside the context of reading.
2. Create a T-chart labeled with “thin/simple” (Right There) on the left hand side. Ask participants several “thin” questions. What color is
Use the big book, *Busy as a Bee*, by Melvin Berger to introduce the four types of questions. Assign each team a question and give them a pad of colored post it notes. You will need seven different colors to accommodate seven teams of teachers (if there are fewer teams then do not assign all of the questions). ONE question is a Think and Search; the others are Right There. The questions are listed at the end of this lesson.

When a team hears the answer to their question one person comes forward and places their colored post it note on the edge of the page where their answer is found. The only Think and Search question is, “What do worker bees do for the colony”? It is considered so because it has multiple answers found on many pages. The post it notes of the same color will be placed on multiple pages while the Right There responses will be only posted on one page.

After reading the book, use chart paper to debrief the responses. Ask students to describe the answers or responses to the questions that have only one post it note:
- one or two words
- found on one page
- words in question are often the words used in the answer

Then have them describe the responses to the question, “What do worker bees do for the colony”?
- uses many words
- found on many pages

Both forms are In the Book questions (answers are found in the book); the first is called Right There and the second is called Think and Search (label on chart paper).

| 1. How many types of honeybees are there? | 3. Where do honeybees live? | 5. How many eggs can a queen bee lay in a day? |

Think and Search
Agree    Disagree

_____    ________   1. Settlers traveled west because of opportunities to own land which were provided through the Homestead Act of 1862.

_____    ________   2. The development of the transcontinental railroad also provided opportunities for settlers to go west. The amount of track increased by 30 times in the mid-1800’s.

_____    ________   3. Prospectors swarmed to the western mines with the discovery of gold and silver between 1857 and 1890.

_____    ________   4. Adventure was another reason many people went west. Young men were drawn to the cowboy life.

_____    ________   5. Black families were not given opportunities to become homesteaders. Therefore, they did not seek a new beginning in the west.
In Connect Two, teams choose any two words and explore the connections in meanings. Words can be selected from the same column.
CYBER QUEST

Our country began to experience growing pains during the early 1800’s. Go to [http://www.solpass.org/7ss/standards/StudyUSII.3.htm](http://www.solpass.org/7ss/standards/StudyUSII.3.htm) and find important reasons for westward expansion. If you lived at this period of time, which reason would appeal to you? Explain.

* 

The Oregon Trail was one overland route that pioneers traveled on before the transcontinental railroad was built. Check out [http://www.answers.com/topic/oregon-trail](http://www.answers.com/topic/oregon-trail) and name the states that settlers traveled through to get to the west coast. How long would it take them to travel? Are you still willing to go?

* 

Meriwether Lewis and William Clark began a journey through the newly acquired Louisiana Territory and the Pacific Northwest. They had to make many difficult decisions along the way. Go to [http://www.nationalgeographic.com/west/main.html](http://www.nationalgeographic.com/west/main.html) and try your luck at completing a successful journey.

Settlers were offered a deal too good to refuse. The Homestead Act of 1862 offered land to those who met certain requirements. Link onto the following site and read about the conditions stated to receive ownership of this land, and then tell what they are. [http://www.pbs.org/weta/thewest/resources/archives/five/homestd.htm](http://www.pbs.org/weta/thewest/resources/archives/five/homestd.htm)

* 

Wow! Can you believe how easy it was to gain ownership of a piece of land? But the journey to get to that land was a different story. Look into the following site and discover some of the problems that the early pioneers faced. Tell about some of those problems and how they affected their travel. [http://www.enoreo.on.ca/socialstudies/pioneer-virtual/frontier.html](http://www.enoreo.on.ca/socialstudies/pioneer-virtual/frontier.html)

*
Have you ever been forced to leave someplace without being asked first if you wanted to? How did you react? Native Americans were driven off the land that they had lived on for years by the settlers who wanted to move west. They were forced to live on reservations. Some went willingly while others fought to keep their land. Big Foot, a Sioux chief, was one who died fighting. Read the eyewitness account from the following site [http://www.eyewitnesshistory.com/knee.htm](http://www.eyewitnesshistory.com/knee.htm) and explain what happened. Do you think we were right to force the Indians to live in reservations? Explain.

* How good would you be at building a house on your new land? Remember, in the 1800’s they couldn’t go to Lowes or Menards to pick up building supplies. Check out the following site and try building a sod house.

DIORAMA

Make a diorama depicting some form of transportation used during the westward movement. Include details regarding dates, how the land looked, and the location depicted in the diorama.

• Students draw a line down the middle of a piece of paper
• Label left side Give One / label the right side Get One
• Each student brainstorms on a topic – writing information on Give One side
• Put students in small groups to discuss the lists
• Students write new information under the Get One column – including the initials of the student who gave the new info
• Teacher leads a whole class discussion allowing each group to share one piece of information at a time. Keep circling to the groups until all information has been shared.
• Give articles to students and allow time to read. Each student in the group will read a different article. Each student adds 5 – 10 new ideas to their give one list.
• Students now share their new information and add to their get one sections.
• Lead another class discussion
• Students now brainstorm topic headings. For example, if the give one / get one research has been on a specific country, the topic headings might be culture, economics, history, geography.
• Each team will take one of the topic headings and select information to be placed under the headings.
State Goal 16: Understand events, trends, individuals, and movements shaping the history of Illinois, the United States, and other nations.

Standard E: Understand Illinois, United States, and world environmental history

Standard D: Understand Illinois, United States, and world social history

State Goal 1: Read with understanding and fluency

Standard A: Apply word analysis skills to comprehend selections

Standard B: Apply reading strategies to improve understanding and fluency

Standard C: Comprehend a broad range of reading materials

State Goal 3: Write to communicate for a variety of purposes

Standard B: Compose well-organized and coherent writing for specific purposes and audiences

Standard C: Communicate ideas in writing to accomplish a variety of purposes

Teaching and Learning Event: Individual Journaling Activities

Description and Detailed Sequence of Activities:
- At the end of each class period, students will be given time to record information in their journal
- In this journal, they have assumed the role of a pioneer, miner, explorer, trapper, or railroad worker
- Daily entries will reflect knowledge that they have gained from the daily activity and should be historically accurate

Time Line: Each class period

Books: Nonfiction books

Equipment Name: Access to internet

Materials:

Resources - Web Sites: Daily websites used

Resources – Software:

TRADEBOOKS ARE INTRODUCED AT THE BEGINNING OF THE UNIT. THESE BOOKS ARE AVAILABLE AND ACCESSIBLE TO STUDENTS THROUGHOUT THE UNIT.
Map Activity Directions: Using an unlabeled map of the United States, complete the following:

- Label the states
- Draw the trail taken by the group you have been reading about
- Include geographic features
- Include important details and events with arrows, dates, and labels

POWERPOINT GUIDELINES

Your powerpoint presentation should consist of the following:

- 6 or more slides
- Slide #1 will be your title slide with the title of your presentation and the names of the team members
- Slides #2-? will present the content of your report
- Include pictures, word art, or anything else that will add to your presentation

Remember:

- The presentation should be visually appealing
- Pictures and words should be coordinated
- The presentation should show organization
- It should incorporate technological options that are available
- The technology should work appropriately

DIRECTIONS FOR POSTING QUESTIONS: After student questions have been posted, share the essential and telling questions.

ESSENTIAL QUESTIONS:

- Why do people migrate?
- Why is the need for self-advancement so important to people?

TELLING QUESTIONS:

- What religious, economic, social, and political reasons caused people to go west?
- How did the growth of the 13 colonies affect Westward expansion?
- What was the most important thing for the settlers to consider as they planned for their journeys west?
- Why were there so many different trails, and how were they used?
- How were people, goods, and ideas moved from one place to another?
- How did the mode of transportation affect the settlers in their journey west?
- What difficulties did the settlers face in their westward journey?
- What was the biggest change in the lives of the settlers as they moved west?

Complete Task Analysis

Read Mrs. Martin’s letter and ask, “What are we expected to do”? Record responses on chart paper.

Then ask, “If this is what we need to do, what questions do we have now? What do we need to learn?”

Define the Task

Create a scrapbook/photo journal
- Identify the identity of each member of the family
- State reasons for going west
- Tell mode of transportation and trail they will be taking
- Problems/conflicts encountered
- Relate the impact these people had on the growth of our country

Ask Questions

What questions do we have now?
- 
- 
- 
- 
- 

Then post your essential and coaching questions for the unit.

  - How were people, goods, and ideas moved from one place to another?  
  - How did the mode of transportation affect the settlers in their journey west? |

**What are students supposed to do?**
- The teams will create maps of the different trails with locations and geographic features labeled and include this information in their journal entries for the scrapbook

<table>
<thead>
<tr>
<th>Team Work 3</th>
<th>Benchmark: Describe ways in which participation in the westward movement affected families in all cultures</th>
</tr>
</thead>
</table>
| **Questions to be answered:** | - What difficulties did the settlers face in their westward journey?  
  - What was the biggest change in the lives of the settlers as they moved west? |

**What are students supposed to do?**
- The students will create power point presentations sharing information about the life of the people they researched and will also incorporate this information into their journal entries

**Final Team Task:** Working in groups, students will create a scrapbook/photo journal telling about their journey west. This product should be historically accurate and written
in the first person. In the journal/scrapbook, each student in the group will assume the
identity of someone in a cultural group who traveled west. Journal entries will state the
reasons for going west, tell the mode of transportation they will be using, the trail they
will be traveling on, and the problems encountered. Pictures should also accompany
journal entries.

Team Evaluation: Use rubric to judge the product and refine as needed
