District employees are mandated to report any reasonable suspicion even if the suspected offender is a colleague.

Legal obligations

Under the law, Mandated Reporters must report all forms of suspected child abuse or neglect, which include:

• Sexual abuse
• Physical injury or death inflicted by other than accidental means upon a child by another person,
• Neglect
• The willful harming or injuring of a child or the endangering of the person or health of a child
• Unlawful corporal punishment or injury
• Serious emotional damage
Reasonable suspicion

For purposes of suspected child abuse/neglect reporting, "reasonable suspicion" means that it is objectively reasonable for a person to entertain a suspicion, based upon facts that could cause a reasonable person in a like position, drawing, when appropriate, on his or her training and experience, to suspect child abuse or neglect. "Reasonable suspicion" does not require certainty that child abuse or neglect has occurred nor does it require a specific medical indication of child abuse or neglect; any "reasonable suspicion" is sufficient.

Is there a pattern of behaviors that does not have a plausible explanation?

- Does the child have sexualized behavior or knowledge that is not age-appropriate? (see hand out)
- Do you suspect that there is sexually inappropriate behavior between a child and an adult?
- Reports may be from any source and may be spoken or written.
Reasonable suspicion

Mandated Reporters may ask clarifying questions as part of determining reasonable suspicion. For suspected sexual abuse, Mandated Reporters might consider the following:

• Is there a pattern of behaviors that does not have a plausible explanation?
• Does the child have sexualized behavior or knowledge that is not age-appropriate? (see hand out)
• Do you suspect that there is sexually inappropriate behavior between a child and an adult?
• Reports may be from any source and may be spoken or written.
Clarify not Investigate

You May Clarify to determine whether reportable abuse has occurred:

- *Tell me about your drawing.*
- *Tell me about these bruises.*
- *Tell me what happened.*
Do not Investigate

DO NOT corroborate the allegations with witnesses or the accused.

DO NOT ask children to remove or lift clothing to show you marks.

DO NOT ask leading questions

- Did your daddy do this to you?
- Where else did he touch you?
- Did anyone tell you to keep this a secret?
What if the accused perpetrator is a District employee?

- **Mandated Reporters must** file the suspected Child Abuse Report if they have reasonable suspicion of abuse, regardless of who the perpetrator is.
- The mandated reporter must always advise the employee’s supervisor of the suspected inappropriate conduct to ensure the safety of the children.
- The accused may be relocated during the investigation.
- The District will conduct its own investigation and cooperate with the investigation of Child Protective Services.
