Supervisor Fafinski stated there were a few minor changes to the budget. He stated that the total budget went up $100 after a few minor changes in the Canandaigua-Farmington Water Fund. The Water & Sewer Superintendent increased the “principal” appropriations in the Andrews Road Water District from $8,500 to $8,600, and on the revenue side he decreased the fund balance by $2,000 upon learning the funding wasn’t available due to in part of lowered interest rates. To make up the difference the real property tax lines in the Risser and Andrews districts were raised from $8,562 to $9,362 and from $13,681 to $14,981, respectively. Supervisor Fafinski added that the figures provided for the total assessed values in a few of the water districts were updated. He stated that his secretary inputted the new figures in the state’s website for calculating our tax cap and found that they are still well below our allowed limit, with an excess of about $112,000.

Supervisor Fafinski noted some of the following changes from last year’s budget:

- Workers Compensation- will no longer show on tax bill therefore line increased to cover payment to County.
- Audit line increased to perform full audit.
- Street Lighting – some up some down.

Supervisor Fafinski stated that the tax rate itself stayed flat at $1.06 per thousand and that this is affected on whether the assessments went up or down.

Ms. Allen expressed her concern over the number of fire calls and asked if the taxpayers were charged per call. Supervisor Fafinski replied that the Fire Department receives a flat budget from the town. Ms. Allen asked if there are fines issued for false alarms, Supervisor Fafinski replied there could be. Ms. Allen stated that there are numerous false alarms sometimes more than three a day. Supervisor Fafinski stated that they were aware of that. Code Enforcement Officer Kofahl stated that they are working with the owners and they are switching out some of the systems and heat detectors are being installed versus smoke detectors. He added that not all calls are false alarms, some are from people smoking in their rooms to burning food. He added there is a problem with the system being too sensitive and they are upgrading the system and changing some of them out. Supervisor Fafinski added that the size of the apartment also comes into play when it comes to sensitivity.

Ms. Allen asked if there were ever fines collected over the last three years. Code Enforcement Officer Kofahl replied no fines have been collected, they have been working with the owners and started an education awareness program there and are working with them in changing out some of the systems. He added that as long as the owners are moving forward fines will be issued.
