Core Doctrines of Christianity
*Led by Christian Miller*
As Christians, we believe that God is a trinity, Jesus was both human and divine, we are fallen creatures, and Jesus atoned for our sins. We also believe we are saved by God’s grace, we will be bodily resurrected one day, and there is an eternal destination for all of us. But what do these beliefs really mean? What does it mean that God is three and one? Or that we live again though we have died? This class examines each of these central Christian beliefs with an aim to arrive at a deeper understanding of their impact on our lives.

Class meets in Room 110.
