PROGRAM COORDINATOR TOOLBOX

PURPOSE

This document has been developed as a guide for Program Coordinators and Instructors to provide information relevant to the operation of a Basic Nursing Assistant Training Program (BNATP). This tool includes information on developing a new BNATP and maintaining compliance once a program is established. You will be directed to various websites for information, forms and documents. Information located on these other sites may not be repeated in this document due to space limitations.

It is advisable to review this guide on a regular basis as updates will be added when available.

Basic Nurse Aide Training Programs

Basic Nurse Aide Training Programs in Illinois are responsible to comply with both State and Federal regulations.

Federal Regulations are located at: www.cms.hhs.gov. Regulations and Guidance → Guidance, Manuals → Internet-Only Manuals → 100-07 State Operations Manual → Chapter 4 Program Administration and Fiscal Management → 4132 NATCEPs and CEPs.

Federal Regulations for Long Term Care Facilities:
http://cms.hhs.gov/manuals/Downloads/som107ap_pp_guidelines_ltcf.pdf. This is the State Operations Manual Appendix PP – Guidance to Surveyors for Long Term Care Facilities. It is important for Instructors and Evaluators to be aware of the services LTC facilities are required to provide in order to supply the most up-to-date information to their students.
PROGRAM COORDINATOR TOOLBOX

IDPH State Regulations:  [www.idph.state.il.us](http://www.idph.state.il.us). Click on the following to access the State Regulations that govern the NATCEPs in Illinois: Laws and Rules → Current Laws and Rules → Health Care Facilities → Nursing Home Licensure (including nurse aide training). Depending on what rule you are seeking you can click → Long-Term Care Assistants and Aides Training Programs Code (77 Illinois Administrative Code 395). BNAT program operation, including BNATP curriculum requirements, can be found in this section. Other sections that may be helpful are → Skilled Nursing and Intermediate Care Facilities Code (77 Illinois Administrative Code 300) and → Health Care Worker Background Check Code (77 Illinois Administrative Code 955). Links to these sections of 77 Illinois Administrative Code can also be found on [www.nurseaidtesting.com](http://www.nurseaidtesting.com).

TB Skin Test Requirements:
Since the students’ clinical experiences may place them into “direct contact” with high risk individuals, Program Coordinators must have knowledge pertaining to TB screening and prevention. Reference the following rules in the IL Admin. Code regarding TB testing:

1.  77 Illinois Administrative Code, Section 300.1025 Tuberculin Skin Test Procedures
Tuberculin skin tests for employees and residents shall be conducted in accordance with the Control of Tuberculosis Code (77 Ill. Adm. Code 696).
(Source: Amended at 36 Ill. Reg. 15267, effective October 2, 2012)

2.  77 Illinois Administrative Code, Section 696.140 Screening for Tuberculosis Infection and Disease

TB surveillance is conducted by county/local Health Departments.

SOCIAL SECURITY NUMBER INFORMATION

It is IDPH policy that an individual must have a valid Social Security Number in order to take the state written competency exam. There are no exceptions.

For Social Security Number questions, Program Coordinators should review the Social Security Administration web site at [http://www.ssa.gov/employer/ssnvhighgroup.htm](http://www.ssa.gov/employer/ssnvhighgroup.htm)
BNAT PROGRAM TYPE DEFINITIONS

Use the following as a guide to determine the program type of your BNATP. These BNAT Program Type Definitions were developed by IDPH and SIUC in order to define programs consistently, to increase validity of comparisons based on program type and to clarify which rules and regulations pertain to specific BNATPs. A BNATP is classified as one of the following:

- **COLLEGE**
  - Sponsored by a community college
  - Adult students, secondary students

- **SECONDARY**
  - Sponsored by a high school, area vocational/career center or community college
  - To high school students at their high schools or area career centers
  - High school students attending during regular high school hours

- **VOCATIONAL**
  - Sponsored by a vocational career center/school or private entity
    - Educational institution privately owned and operated which holds a valid certificate of approval or certificate of exemption issued by the Illinois Board of Higher Education. Reference: Private Business and Vocational Schools Act [105 ILCS 425] and Private Business and Vocational Schools (23 Ill. Adm. Code 451).
    - Enrolled students are not considered traditional secondary school student.
  - Adult students, post-secondary students

- **FACILITY**
  - Sponsored by a facility licensed by the Department under the Nursing Home Care Act [210 ILCS 45]
  - IBHE approval of the BNATP is also required if admission to the program is open to anyone other than employees of the facility who meet the admission requirements of the BNATP.
  - IBHE approval is not required if program is only offered to the facility employees at no cost to the employee.
• **HOME HEALTH**
  o Sponsored by a Home Health Agency licensed by the Department under the Home Health Agency Licensing Act [210 ILCS 55].
  o IBHE approval of the BNATP is also required if admission to the program is open to anyone other than employees of the facility who meets the admission requirements of the BNATP and is charged a fee to attend the class.
  o IBHE approval is not required if program is only offered to the facility employees at no cost to the employee.

• **HOSPITAL**
  o Sponsored by a hospital licensed by the Department under the Hospital Licensing Act [210 ILCS 85].
  o IBHE approval of the BNATP is also required if admission to the program is open to anyone other than employees of the facility who meets the admission requirements of the BNATP and is charged a fee to take the course.
  o IBHE approval is not required if program is only offered to the facility employees at no cost to the employee.

• **OTHER** (only to be used by the Department)
  o 9992 – Grandfathered
  o 9993 – Nursing Students
  o 9994 – Foreign LPN/RN
  o 9995 – Military
  o 9996 – Recertification

**NOTE:** Vocational programs with secondary students will be typed as Secondary. Private programs will now be typed as Vocational because of required IBHE approval as private business and vocational schools.

**NEW BNATP APPROVAL** – 77 Illinois Administrative Code, Sec 395.110

Written approval from the Department is required prior to the start date of a class offering of a new BNATP. A program code will be assigned by the Department once approval has been granted. A Program Sponsor may have several program codes. Examples of when a separate program code is required:

• Sponsor is establishing an **additional** program Theory site at a new location.

• Program sponsor offering classes to high school/secondary students during regular high school hours and also offering classes to adult students.

• Difference in total of Theory and Clinical hours between class offerings of same program sponsor such as day and evening classes.
The Program Sponsor requesting REACTIVATION of a BNATP is required to complete the same process as new BNATP approval (77 IL Admin Code, Section 395.140 (b-d)).

The NATCEP New Program Submission Checklist and BNATP Facility & Equipment/Supplies Form, both located on www.nurseaidtesting.com, are the forms to complete and submit to the Department. The checklist has a detailed listing of additional forms and documents. Questions and requests for additional information can be directed to Jennifer Kempiners, Education and Training Section, IDPH either in writing or via email. Following are some thoughts that may be helpful when completing this process:

1. Incomplete submissions will be returned to the Program Sponsor.

2. Allow 90 days from the date that the complete submission is received by the Department for new program approval, denial or request for additional information.

3. Organizing the documents of your submission in the same order as on the checklist, separating the sections with a colored sheet of paper and using a binder clip will help with the review by the Department. It is not necessary to submit documents in a binder or in sleeve protectors.

4. Obtain required certificates of approval from other agencies (such as ISBE or IBHE) to be included in the program application document. Facility-based programs (Nursing Home, Home Health Agency and Hospital) are required to have approval from IBHE if they will be admitting students other than their employees and are charging a fee to take the course. IBHE approves Private Business/Vocational Schools and ISBE approves Secondary school programs. This document is renewed according to IBHE policy, a copy of which should be forwarded to the Department when received. Additional information is found at http://www.ibhe.org/ with a click on Private Businesses and Vocational Schools.

5. Objectives and Content

- Ensure that your syllabus is complete. There are websites with guidelines for preparing a syllabus if your educational entity does not have a standard form for you to use. All sections/classes with the same BNATP code number should use the same basic syllabus.

- Textbook choices are abundant. The Department and SIUC NAT do not recommend or endorse any specific textbook; some of the textbooks currently being used are listed on www.nurseaidtesting.com. A detailed review and comparison of several different textbooks by the Program Coordinator and Instructors using pre-determined criteria will help narrow the choices. Consider your students’ abilities and capabilities.

Having sound program policies and procedures stated in your syllabus will lead to a stronger and more solid program. The attendance policy, including make-up guidelines, will be reviewed closely. When developing your policies and procedures, consider all aspects of program operation and instruction in both theory and clinical environments. Some of these may include admission requirements, classroom and homework assignments, attendance and tardiness, student behaviors and
expectations, dress code, cell phone and computer usage, grading system, cheating, etc.

6. Allocation of BNAT Program Hours worksheet, found on www.nurseaidetesting.com lists the minimum number of Theory hours which must be dedicated to each module. Indicate the number of hours your BNATP will dedicate to each module in the blank column; do not use a range of hours. Lab time/practice is to be included in the Theory hours. Time on the Allocation of Hours form must equal Theory hours indicated on Page 1 of Master Schedule.

7. The Methodology section may seem to be a repeat. It is actually an expansion of what is found in your syllabus since you are being asked to provide a detailed listing of any/all audiovisual and multi-media materials being used. The BNATP Facility & Equipment/Supplies Form is to be completed and attached to the New Program Submission Checklist. Access to medical equipment and supplies for student practice and demonstration of the required skills outlined in the model program must be provided to the students by the BNATP; reference 77 IL Administrative Code, Sections 395.050 Lab Environment & 395.170 (f).

8. Each individual Instructor must be approved in each BNATP in which they teach. See the Instructor Approval section for additional information.

   - Facility-based programs must identify the Approved Outside Evaluator. This individual shall not be an instructor approved for this BNATP or have any fiduciary relationship with the Clinical site.

   - Instructors approved in BNATPs which are also approved by ISBE or IBHE must also be approved by the Department before teaching in a BNATP. Reference the respective agency’s guidelines.

9. A copy of each Evaluation Tool to be used in the BNATP is to be submitted. These should include, but are not limited to:

   - Instructor and Program Evaluation forms for the student to evaluate the instructor(s) and the BNATP. This may be a combined form, or two different forms.

   - Clinical Skills Checklist which should include more skills than just the required 21 Performance Skills that must be evaluated by an Approved Evaluator. Provide a list/check-off sheet for additional skills of which students will be evaluated. The nursing assistant will learn approximately 200 skills in a BNATP so there are many choices.

   - Written Final Examination must be comprehensive and a balance of questions covering all modules/units; it must include questions pertaining to Resident Rights. Questions about tasks not included in the Model BNATP curriculum are to be excluded. Using the Allocation of BNAT Program Hours as a worksheet can help you assess this balance. Remember to submit the answer key! More than one version of a Final Examination can be used by a BNATP. All final exam questions must be Multiple Choice.
**Clinical Performance Evaluation Form** is the document the clinical instructor will use to evaluate your student in the clinical setting. Will clinical be a pass/fail or will your student earn a clinical grade? How objective is your form? The form should include a signature line for your student to acknowledge receipt of the evaluation and a space for comment by the student. Remember, students have **three (3)** opportunities to successfully demonstrate the 21 required skills.

10. Submit a Clinical Site Agreement for each facility which will be used as a clinical site. This agreement is a contract that is signed and dated by the program sponsor representative and the facility representative which grants written permission for the use of the facility and/or equipment not owned or operated by the program sponsor. The agreement should include a statement that the Program Coordinator will provide a copy of the master schedule for each clinical group.

11. Notes about the proposed Master Schedule:

- Reference: *IDPH Guidelines for Completing BNATP – Master Schedule* found on [www.nurseaidtesting.com](http://www.nurseaidtesting.com). It is advisable to review these guidelines when preparing the Master Schedule.

- The current Schedule template is dated 03/2014. Outdated versions will not be Approved. Choose the Master Schedule most appropriate to the length of your class offering.

- Please refrain from listing all approved instructors on every Master Schedule: the Department only needs to see the names of instructors for that particular schedule.

- Write “pending” for the Program Code Number.

- Write “pending” for the Instructor Code for each of the listed Instructors.

- This is a proposed Master Schedule; a revision may/will need to be submitted once the BNATP is approved if the dates change from this proposed submission. If this first class offering is cancelled, notify the Department of the cancellation.

- Both theory and clinical hours must be calculated to allow for break time. Be realistic in setting up your class schedule. The hours listed in the theory and clinical hour columns exclude orientation, break and meal times, pre- & post-conferences, travel time and in-services.

- There must be an instructor who is approved to teach CPR content designated on the Master Schedule. This cannot be a ‘group’ such as the fire department; approval is based on the individual instructor’s qualifications.

- The Approved Outside Evaluator must be identified for a facility-based BNATP. This individual cannot be an approved instructor with this BNATP.

A letter of program approval will be sent to the Program Sponsor by the Department. Note your BNATP Code Number. **Include the BNATP name and program code number in all correspondence to the Department and SIUC NAT.** You will also receive packets containing information and forms about Instructor Codes and state written competency testing.
NOTE: CHANGES MADE TO CURRENT BNATP.

This information and documents submitted for new program approval is also a list for Program Coordinators to use when CHANGES are made to existing BNATPs. The basic rule of thumb is: if it (form, document or information) was required for initial program approval, then Department approval is required prior to implementation of the change(s). Using the appropriate form is recommended, such as using the BNATP Facility & Equipment/Supplies Form for proposed change in Theory Site and using the Allocation of BNAT Program Hours worksheet for proposed changes in program hours.

Any changes made to BNATP’s, including Master Schedule changes, must be sent to the Department. This notification may be submitted via fax or electronic mail.

INACTIVE STATUS & REACTIVATION of BNATP – 77 Illinois Administrative Code, Section 395.140

A BNATP can submit a written request by email or letter to the Department in order to be placed on inactive status. The Department can place a BNATP on inactive status if there has been no program activity for 24 consecutive months.

The Program Sponsor requesting REACTIVATION of a BNATP which has been inactive is required to complete the same process as for new BNATP approval (77 IL Admin Code, Section 395.140 (b-d)).

INSTRUCTOR APPROVAL – 77 Illinois Administrative Code, Sec 395.160

Any instructor presenting BNATP curriculum content must have approval from the Department prior to instructing any portion of a BNATP class. Instructors should ONLY teach a content area in which they are approved. If a non-approved individual presents BNATP curriculum content, the content must be repeated to the students by a Department-approved instructor. An instructor may be approved to instruct in one or more content areas depending upon the instructor’s qualifications and the BNAT Program Coordinator’s written request. BNATPs are required to have a Department Approved Evaluator to competency test the required 21 Performance Skills of each student prior to completion of the course.

Instructor requirements are outlined in the 77 IL Admin Code, Section 395.160; these are also found in the Nursing Assistant Training Performance Skill Evaluation manual (aka IDPH Performance Skill Manual on www.nurseaiderstesting.com). The Department has 60 business days from date of request receipt to approve, deny approval or request additional information regarding the instructor approval request. Program Coordinators are advised to plan accordingly.
Each instructor in a BNATP must be approved to teach theory, clinical, Alzheimer’s content and shall be an Approved Evaluator. An instructor shall be a registered nurse who has completed a Department-approved Train the Trainer Program and an Approved Evaluator Workshop prior to initial approval. Train the Trainer Programs and Approved Evaluator Workshop course offerings are posted at www.cnaeducators.org by the program sponsors. Instructors must have one year of experience as a registered nurse by teaching theory in an accredited RN or LPN training program, or by providing nursing care (personal care and ADLs) to older adults or for chronically ill adults is also required.

NOTE: Even if an individual is already approved to teach in a BNATP, instructor approval must be requested from and granted by the Department prior to this person teaching in another BNATP.

Procedure to Request Instructor Approval (IDPH)
This procedure shall be followed by the Program Coordinator to request approval for each Theory, Clinical, Alzheimer’s, Special Content and CPR Instructor prior to the instructor teaching for each BNATP. This procedure is the same for new instructor approval with an existing BNATP as well as with a new program application.

1. Letter or email requesting the instructor be approved for Clinical, Theory and Alzheimer’s. These content areas are required for all Theory instructors. Instructors may also be approved to teach CPR or a Special Content subject.

2. Copy of the Instructor’s resume including nursing license number; it is helpful to specify which floor/units/area worked, full or part time, type of patient/resident, and month/year employed,

   Or,

   Copy of instructor approval letter from Department for another BNATP; if the instructional areas are different than your request, include additional documentation as needed,

3. Copy of Special Content Instructor license or credentials, if applicable,

4. Copy of Train the Trainer Program Certificate of Completion, if applicable,

5. Copy of the Instructor’s CPR Card, if applicable. Minimum requirement for CPR Instructor approval shall be the equivalent to the health care provider level or health care provider instructor level from a nationally recognized program. Online CPR certification is considered valid only with verification that both the cognitive skills and manual skills demonstration portions have been successfully completed.
Obtaining an Instructor Code

Once an instructor has been approved by the Department, IDPH staff will mail an instructor approval letter to the Program Coordinator. Coordinators will submit a copy of letter, copy of CPR card, if app., and a completed, signed scantron (bubble form) to SIUC NAT in order to obtain an instructor code. **Instructor Codes are issued by SIUC NAT.** Please refer to the *Illinois Nurse Assistant/Aide Training Program Instructor and Evaluator Information Submission Form Guidelines* manual on www.nurseaidtesting.com.

Approved Evaluators may obtain their Instructor Code independent of a BNATP. Approved Outside Evaluators for facility-based programs or those evaluators who are recertifying nursing assistants who are no longer active on the HCWR must also meet Clinical, Theory and Alzheimer’s instructor requirements, be approved by the Department and have a four-digit Instructor Code. The BNAT Program Code #7999 will be used to identify these outside/independent evaluators. Refer to *Illinois Nurse Assistant/Aide Training Program Instructor and Evaluator Information Submission Form Guidelines* manual for additional information and the forms.

The Program Coordinator will receive an updated Instructor Code List from SIUC NAT via fax when changes in instructor status and/or codes have been made. What to do if:

- Instructor Code column is blank. Required forms/documents need to be submitted by Program Coordinator to SIUC NAT in order for the Instructor Code to be issued or added.

- Instructor Code column is blank after initial submission by Program Coordinator. Incomplete submission of forms/documents has occurred; SIUC NAT is waiting to receive missing information/forms/documents; Program Coordinator will receive message via phone or email.

- Instructor Code is present; but a “NO” is in the Approved Evaluator column and the Program Coordinator believes this instructor to be an Approved Evaluator. The Program Coordinator should contact SIUC NAT.
**PROGRAM COORDINATOR TOOLBOX**

**Requesting a Change in Instructor Status**

A Program Coordinator can email a request to change instructor status to the Education Coordinator at SIUC NAT or to the Department. To ensure that the appropriate action is taken, please review the following options.

1. **Removal from instructor list.** If the instructor has never taught any portion of BNATP content for designated program number, the instructor can be removed by emailing this statement: I am requesting that (Instructor’s Name & Instructor Code, if applicable) who has never taught in (BNATP name & program code) be removed from the instructor list.

   Once the instructor’s information is removed, there will be no record of this instructor’s approval for this program on the database. For the individual to teach or substitute in this BNATP at a later date, re-approval will be necessary unless a copy of the Department approval letter has been kept by the BNATP. To re-add/reactivate this instructor, the Program Coordinator will need to submit a copy of the approval letter along with required documents/forms to obtain an instructor code; the approval information will then be re-entered.

2. **Active to Inactive Status.** If an instructor has taught any portion of the BNATP and is no longer teaching, a change to inactive status can be requested by emailing this statement: I am requesting that (Instructor’s Name & Instructor Code) Instructor’s status be changed from Active to Inactive for (BNATP name & program code).

   This instructor will remain on the BNATP’s instructor list since students are linked to this instructor’s code. To return to ACTIVE status, a written change in status request can be submitted via email.

3. If the instructor does not have an Instructor Code issued for this BNATP, an instructor status change from ACTIVE to INACTIVE can still be requested. However, the Program Coordinator is encouraged to complete the process to obtain an Instructor Code for this instructor. See Option #2. This facilitates the return to ACTIVE status at a later date.

**NOTE:** Any INACTIVE instructor is not considered approved to teach until the reactivation is complete as indicated on an updated Instructor Code List faxed to the Program Coordinator.

**INSTRUCTOR REFRESHER COURSE INFORMATION**

Reminder: Train the Trainer Refresher courses are **ONLINE** courses offered by three Community Colleges. Registration information for courses is located at [www.cnaeducators.org](http://www.cnaeducators.org). Prepare to spend 8 – 15 hours completing the course.

Instructors who completed an “original” Train the Trainer course five or more years ago, must complete a Train the Trainer Refresher course by **May 30, 2015** and every five years thereafter.

Approved instructors who met the requirements based on teaching experience and have not completed a Train the Trainer course must do so.
OFFICIAL FORMS for PROGRAM OPERATION

Using the current version of these official documents and following the instructions are solid steps toward maintaining compliance with the rules and regulations, both federal and state. The required information is requested on the forms and this is the main reason for not altering any of these documents. Submission of these forms and documents according to the timeframes established in the IL Admin Code is also important in maintaining program compliance. All handwritten forms must be legible; illegible forms can be returned to the BNATP resulting in a delay in a class offering or testing.

It is highly advisable when preparing the Master Schedule (version 03/2014) to review the guidelines which contain much more than just the ‘how-to complete the form’. Some helpful tips:

1. The Master Schedule must be submitted at least 15 business days prior to the Start Date of the class; reference 77 IL Administrative Code, Section 395.170 (a).

2. Notifying the Department promptly of any changes, scheduled or unscheduled, in the Master Schedule is required. This can be done via email to Jennifer Kempiners. A revised Master Schedule must then be sent to the Department. Reference 77 IL Administrative Code, Section 395.170 (c).

3. Time used for orientation, meals, breaks, travel, in-services and conference is to be excluded when calculating theory and clinical hours. These hours are to be calculated based on a 60 minute clock hour, not a 50 minute academic hour; reference 77 IL Administrative Code, Section 395.150 (a)(1).

4. Programs must submit Page 1 of the final Master Schedule, one per clinical group, along with the Official Class Roster when the class is completed. Please note, this is a change in procedure as of 03/2014.

The current Roster version is dated 03/2014. Submit Page 1 of the final Master Schedule with the, corresponding Official Class Roster for submission to the Department within 30 days after the class End Date. It is imperative that the Department receive a copy of the final Roster(s) for every class conducted. Double checking all information, including signature lines, is recommended. Unsigned Official Class Rosters will be returned for completion.

Do not place student information on an Official Class Roster if the person is / was recertified.
**PROGRAM COORDINATOR TOOLBOX**

**Late Completion Form and Instructions.** The Late Completion Roster Form, version dated 03/2014 and Instructions are located on [www.nurseaidtesting.com](http://www.nurseaidtesting.com). This form must be used if a student is completing the course after the End Date of the original class as stated on the Master Schedule. Read the instructions carefully. Contact the Department if you have questions about this procedure. This student’s information is NOT to be listed on the Official Class Roster; this Late Completion Form serves as the official class roster for this student.

**Waiver Application for Health Care Workers.** The waiver application form and informational documents pertaining to the waiver application procedure can be found on [http://www.idph.state.il.us/nar/home.htm](http://www.idph.state.il.us/nar/home.htm). This information should be presented to potential students prior to enrollment in a BNATP; reference 77 IL Administrative Code, Section 395.171. Questions about the waiver application should be directed to HCWR staff at 217-785-5133.

Program Coordinators and Instructors should inform students at the beginning of class that certain convictions, referred to as “disqualifying offenses” will require a waiver being granted by the Department. Disqualifying convictions are listed in the IL Administrative Code, Part 955. The waiver process usually takes 4 to 5 weeks, starting with Department receipt of the waiver application.

Informing prospective students of disqualifying convictions is not meant to discourage individuals from entering the health care field as a nursing assistant. The more informed the students, the smoother program operation will be for all.

**CLINICAL SITE SELECTION**

There are approximately 950 nursing facilities in Illinois. Program Coordinators should consider these facilities first when choosing a clinical site. There must be ample opportunities for the students to actively provide direct personal care during the scheduled clinical hours. Many of the competency evaluations of the mandated 21 Performance Skills must be demonstrated in the clinical setting on a resident.

Long Term Care Skilled and Intermediate Care Facilities which are not restricted are appropriate. Designated skilled care or "extended care" units of hospitals are also appropriate as clinical sites. Assisted Living facilities, group homes and Home Health Agencies cannot be used for the clinical experience. A medical unit of a hospital may be a clinical site but should only be considered after area nursing homes have been contacted and visited by program staff. Contact the Department with specific questions.

The facility administrator whose signature is required on page 1 of each Master Schedule can provide the Provider number (starts with #14…) and verification that the facility is not restricted from having nursing assistant students. Restriction status can also be checked by contacting the Department. Communication with the facility administrator by the Program Coordinator is important to ensure notification if a restriction notice is received during a scheduled clinical experience. Restrictions are in effect for a 2 year period.

If a facility becomes restricted:

- After the start date noted on the Master Schedule, the clinical group scheduled at that
PROGRAM COORDINATOR TOOLBOX

facility will be allowed to attend/complete the clinical experience. This is at the discretion of the Program Coordinator who may consider the reason for the restriction.

- For a facility-based program, the Program Coordinator will need to contact the Department regarding the continuation of any class-in-progress and the status of the BNATP.
- The facility Administrator can submit a waiver request to the Department.

Note: The facility restriction also applies to re-certifications of lapsed CNA’s.

BNATP PASSING GRADE/SCORE

The IL Administrative Code does not state what the passing score and/or grading scale for a BNATP should be. This is to be determined by the BNATP as a program policy.

Consider the following when determining either the passing score and/or grading scale for your BNATP:

1. How are the requirements for passing your program stated in your syllabus?
2. Are the passing score and grading scale objective?
3. Are these clear to both students and instructors?
4. Is it ‘in writing’ and are the students required to sign a document that they have read and understand the grading policy?
5. Is this policy verbally explained to them? When?
6. Does it clearly state:
   a. the average score that must be maintained throughout the course on each assignment?, and/or
   b. the overall (running) average that must be maintained?, and/or
   c. the average that must be obtained to successfully complete the course?
7. How and when are grades and progress reviewed and discussed with individual students?
8. If you are considering a revision to your passing score or grading scale, what are the reasons cited for the proposed revision?
9. What are the Program Cluster Scores for the BNATP?
10. What effect do extra credit assignments have on your passing score and grading scale?
11. What is the pass/fail rate of your BNATP?
12. If the Overall Mean Program Cluster Score was below 80%, how does this relate to the current passing score and the grading scale for the BNATP?
13. What is the relationship between your passing score, your Overall Mean Program Cluster Score and the pass/fail rate of your BNATP?
14. How consistent are each of the instructors with the grading/scoring practices?
15. In what ways are academic freedom practiced in your program?

**COMPETENCY TESTING** – 77 Illinois Administrative Code, Section 395.400; 42 CFR § 483.154

An individual who has successfully completed an approved BNATP in Illinois is eligible to be competency tested. There are two components to the competency examination: a performance skills evaluation and a state written examination.

All program instructors are responsible for assuring that their BNATP students are competent to demonstrate the performance skills listed on the clinical skills checklist of each respective BNATP. This clinical skills list shall include, but not be limited to, the required 21 Performance Skills.

**Performance Skills Evaluation.** The *Nursing Assistant Training Performance Skill Evaluation* manual (aka *IDPH Performance Skills Manual*) includes instructions for administering the performance skills portion of the NATCEP. The 21 Performance Skills that the CNA student must demonstrate are identified and outlined in the manual.

**Purpose of Performance Skills DVD.** The purpose of the Performance Skills DVD is to prepare registered nurses who meet the minimum BNATP instructor requirements to be approved as an Approved Evaluator. The standards and the steps of each manual skill are detailed in the Performance Skills Manual; the DVD is designed to portray the steps as written in the manual. The DVD is not intended as an instructional tool for nursing assistant students because the skills are not demonstrated in their entirety. It’s intended viewing audience is RN’s wanting to be Approved Evaluators.

**State Written Competency Examination.** It is very important that the postmark deadlines are observed when mailing the completed applications. When SIUC receives test documents (applications, money orders, etc.) after the postmark date, test applicants will be delayed an additional month in taking the competency exam. Reference *IL NA/HHA Competency Exam Application Guidelines for IL NA Program Coordinators/Instructors* located at [www.nurseaidtesting.com](http://www.nurseaidtesting.com). Other related documents may be found at site above.

Additional key points are:

- Do not send test applications, fees, etc. to IDPH. Test applications must be submitted with required documentation by the BNATP for the first time test applicant whose training was completed within the previous 12 months.

- Test applicants are required to have a Social Security Number to take the written portion of the competency exam.
PROGRAM COORDINATOR TOOLBOX

- Application packets must be submitted with correct, unaltered fees and complete supporting documents – cover letter, typed roster and completed application forms. Incomplete/inaccurate application packets will be returned to the BNATP which may delay testing for your students.

- Students shall be allowed to choose the site where they will test. When students from the same class choose different test sites, the Program Coordinator must submit separate cover letters and rosters to SIUC NAT. Having the choice of test sites is beneficial to the students.

- Information about requesting special needs testing conditions can be found in the manual. Special accommodations are based on the Individualized Education Plan (IEP) that an individual must provide in order to identify the specific learning disability and the accommodations that are requested and/or provided at the training level. Accommodations most often provided are extended time (either time and a half or double time), a reader, and separate testing area. The request is to be made by a qualified professional, usually from the disability support services area of your institution. Specific questions can be directed to SIUC NAT.

- Informing your students of the examination center’s admission requirements, which are stated in the guidelines will make testing less stressful.

Written state test examination results (pass, fail or no show) will be mailed to the Program Coordinator along with the Program Cluster Scores Report for each testing group. Checking the names and results of those listed can be beneficial to a BNATP. Students have been known to miscode BNAT Program Numbers on testing material.

- Notify SIUC NAT immediately
  - if there are names of students appearing on the results list who were not your students; and/or
  - if some of your students’ names are missing from your list.

- Identify students who fail the exam. This allows you to contact them promptly, especially, if an opportunity for review before they retake the exam is provided by your BNATP.

Reference 77 IL Administrative Code, Section 395.400.

PROGRAM CLUSTER SCORES REPORT

The Program Coordinator will receive Program Cluster Scores Reports containing different types of testing information throughout the year. Some will provide overall program testing statistics and others will be specific as identified by the lead theory instructor code.
A Program Cluster Scores Report will be received by the Program Coordinator:

- every month that a test applicant(s) has identified the BNATP as the training program on a test application. An overall summary of scores is provided for the Program Code number and reports are provided for each lead theory instructor code identified.

- in January; this is the Annual Program Cluster Scores Report comprised of the results of initial testers from January to December of the previous year. The annual report with the overall program scores is used to determine if a CAP is required to be submitted to the Department. This report reflects the overall program scores, not individual instructor scores.

_Program Cluster Score Report Information Sheet_ which is a guide to understanding the Program Cluster Scores Report is available on [www.nurseaidtesting.com](http://www.nurseaidtesting.com).

**CORRECTIVE ACTION PLAN**

A Corrective Action Plan template is located on [www.nurseaidtesting.com](http://www.nurseaidtesting.com). The Department may request that a BNATP develop a plan of correction to address a finding of non-compliance (IL Administrative Code 77, Section 395.190 (b)).

A BNATP may also be required to develop, submit and implement a Corrective Action Plan based on the ANNUAL Program Cluster Scores Report of the BNATP as identified by the Program Code. The Annual Program Cluster Scores Report is the report from January to December of a given year and is comprised of first-time testers’ scores. The need to prepare a CAP is not based on individual instructor’s annual scores. The breakdown of the program’s overall scores by instructor can also be used for program improvement if used as part of the program’s own evaluation process.

To determine if your BNATP will be required to submit a CAP, compare your BNATP’s overall annual program score, with the following parameters:

1. Mean Score of less than 80%,
   
   AND/OR
   
2. Any Test Content Cluster score less than 75%, regardless of mean score.

Low cluster scores and non-implementation of the CAP may result in a monitoring visit by the Department or SIUC NAT staff and may have an adverse effect on the continued approval of your BNATP. Questions can be directed to the Department.

**MONITORING VISIT**

An unannounced Monitoring Visit of your BNATP may be conducted by Department staff and/or SIUC NAT Education Coordinator.

The on-site visit may include, but not be limited to:

1. Observation of the theory/lab and clinical instructional areas;
2. Evaluation of instructional methods in the theory, lab and/or clinical areas;
3. Interviews with students, instructors and Program Coordinators;
4. Evaluation of Performance Skills as demonstrated by students and/or instructors;
5. Review and discussion of the Program’s Cluster Scores Reports;
6. Discussion of Program Operation and Corrective Action Plan(s); and
7. Assessment of the Program’s documentation and documentation procedures.

OPPORTUNITY for IMPROVEMENT ASSESSMENT PLAN

If you would like to schedule a follow-up Opportunity for Improvement Assessment Plan (OIAp) visit to discuss your current program and determine what can be done to further improve your training program and exam scores, please contact Carrie Smith at clsmith7@siu.edu or (618) 453-1986.

CNA RECERTIFICATION PROCEDURE

Information regarding the recertification of the CNA is located in the Nursing Assistant Training Performance Skill Evaluation manual found on www.nurseaidtesting.com. Nursing assistants requesting recertification must first contact the Health Care Worker Registry at 217-785-5133.

HEALTH CARE WORKER BACKGROUND CHECK. 77 IL Admin Code, Section 395.171 and Section 955

Programs must provide information to their students on the Health Care Worker Background Check Act and the Health Care Worker Background Check Code in accordance with 77 Illinois Administrative Code, Section 395.171 and Part 955. All programs are required to initiate a fingerprint-based criminal history records check (FEE_APP) prior to entry of an individual into the training program. Section 955.110 provides the following definition:

“INITIATE” – obtaining from a student, applicant, or employee his or her social security number, demographics, a disclosure statement, and an authorization for the Department of Public Health or its designee to request a fingerprint-based criminal history records check; transmitting this information electronically to the Department of Public Health or its designee; conducting Internet searches on certain web sites from links provided through the Health Care Worker Registry, and having the student’s, applicant’s, or employee’s fingerprints collected directly by a livescan vendor and transmitted electronically to the Department of State Police. (Section 15 of the Act)
Contact the Health Care Worker Registry staff with questions concerning the Health Care Worker Background Check process and procedures. New Program Coordinators should make this contact at your earliest convenience.

DOCUMENTS & FORMS LOCATION LIST

The location of documents and forms pertinent to BNATP operation and referenced in the Program Coordinator Toolbox are listed below.

SIUC NAT – [www.nurseaidetesting.com](http://www.nurseaidetesting.com)
- Performance Skills Videos
- Exam Schedule Status
- Competency Exam Application Submission Forms & Documents (click on Forms)
- IDPH NA Training Program Curriculum/2006 IL Nurse Aide Task List Matrix

IDPH forms and other resources pertinent to BNATP program operation can be found on [www.nurseaidetesting.com](http://www.nurseaidetesting.com), Program Coordinators & Instructors, Forms.
- Program Coordinator Toolbox – includes NATCEP Contact Information (04/2015)
- New Program Submission Checklist 02.2014
- BNATP Facility & Equipment/Supplies Form 03.2014
- BNATP Model Program 2013
- Allocation of BNATP Program Hours 2013
- Instructor Training/Refresher Requirements
- NATCEP Resources for BNATP Instructors
- IDPH Guidelines for Completing BNATP – Master Schedule and Official Class Roster
- Master Schedule form(s) and Official Class Roster form
- Instructor and Evaluator Information Submission Form Guidelines (instructor code)
- Approved Outside Evaluator Not Affiliated with a BNATP Instructor Code Request Form
- Program Cluster Score Report Information Sheet
- Corrective Action Plan template includes instructions
- Late Completion Roster Form & Instructions
- IDPH 2010 Illinois Nurse Aide Task List Survey

IDPH Health Care Worker Registry – [http://www.idph.state.il.us/nar/home.htm](http://www.idph.state.il.us/nar/home.htm).
