On behalf of the Council of State of the Canton of Geneva and the Association of Geneva Communes (ACG), we extend you a hearty welcome. Geneva has been a place of asylum and refuge for victims of religious persecution since the 16th century, with over a third of its population made up of foreigners.

Diversity remains one of the major strengths of Geneva society, in which 194 nationalities are represented today, and solidarity and respect for cultural differences are among the priorities of the political and administrative authorities of both the Canton and the communes of Geneva.

To do this, a large number of tools – including this brochure – are used to encourage integration, inter-cultural dialogue and respect for minorities – in short, to place human rights at the heart of our region. Intended primarily for new arrivals in Geneva, this brochure will soon also be available in German, Italian, Spanish, Portuguese, Albanian, Turkish, Arabic and Chinese.

This document is not intended to be exhaustive, but contains practical information on a range of subjects - timetables, mobility, social assistance, culture, etc. – as well as the most useful addresses during your first year in Geneva.

We hope this brochure will help you settle down and find your bearings in Geneva, and again bid you a warm welcome to our canton.

Isabel Rochat, State Councillor

Jean-Marc Mermoud, President of the ACG

In addition to the clichés about the Swiss – who are reputed to be polite, discreet, punctual, and precise – here are some tips that you might find useful during your first few days in Geneva.

**PUNCTUALITY**
Arriving on time for an interview is essential. Call if you are going to be more than 10 minutes late (especially if you have a professional appointment or with the administration). A doctor will require payment for the consultation if you do not show up (unless you give at least 24 hours notice).

**NOISE - TRANQUILITY**
It is forbidden and not well looked upon to make too much noise in your apartment between 21:00 and 07:00. Also avoid talking too loudly, and shouting to call someone in public places. More details in the brochure bruits de voisinage/Neighbourhood Noise available in English on 022 546 76 00.

**POLITENESS - DISCRETION**
It is usual to say « Bonjour (Good Day) » to passers-by if you live in a small village. In town one says « bonjour », « au revoir (goodbye) » or « bonne journée (have a good day) » in shops or when meeting a person from your building. And you can never say « thank you » enough!

**CLEANLINESS, RESPECT FOR PUBLIC PLACES AND EQUIPMENT**
By respect for public places, don’t throw anything on the ground. During major events (music festivals, etc.), separate rubbish bins make it possible to sort waste (also the case at home, see p.34).
In the parks there are even plastic bags to pick up and dispose of dog mess in the waste bins.

It is compulsory to take out civil responsibility insurance (RC) in order to cover personal injury (death, injury or other damage to health) or the material damage (loss, deterioration or destruction of objects, and loss, injury, or death of animals) that you may cause to third parties or in your home. In general, a civil responsibility insurance policy is relatively inexpensive (100 to 150 francs per year for a family). Other insurances are also necessary for driving a car, riding a bicycle or for moving into accommodation (see following chapters).

To take out insurance, pay the rent for your accommodation, receive your salary or money transfers, it is necessary to have a postal or bank account. As conditions vary depending on the establishment, obtain information directly from the post office or bank of your choice.

10 CONTACTING YOUR COMMUNE

The communes – the political structure closest to the resident population – provide facilities in numerous areas: child care, culture, sport, rebates on certain services or season tickets, etc.

Your commune of residence will be able to inform you of the possibilities or to answer some of your questions, and even to help you in the things you have to do (see address list on pages 52-53). The following paragraphs provide addresses of organisations that can also assist you in the steps you need to take.

USEFUL INFORMATION
THE FIRST YEAR AND BEYOND
32 BASIC RIGHTS

The Swiss Constitution protects each person from discrimination related to the following characteristics: origin, race, sex, age, language, social situation, way of life – including sexual orientation –, religious, philosophical or political convictions, and physical, mental or psychological disabilities.

Other basic rights: equality between men and women, rights of the disabled, the right to marriage and family, freedom of conscience, free choice of media, religion (or not to have one), freedom of opinion, information and freedom to meet and associate, economic and trade union freedom, guarantee of ownership, protection against expulsion, extradition and turning back (for Swiss citizens), political rights, rights to vote and elect (only on the communal level for foreigners, see p. 46), right of petition, etc. These rights imply the interdiction of forced marriages, female genital mutilation, trafficking of persons, as well as the legal recognition of same-sex couples, etc.

In addition, the fact of belonging to a political community (commune, canton or Confederation) also implies duties (respect of the Swiss and Geneva Constitutions and laws) and solidarity as expressed through respect for other members of society, paying taxes, contributing to social insurances (unemployment, health, invalidity, old age) and military service (for Swiss men), etc.

In Geneva, the promotion of gender equality, the fight against domestic violence and the integration of foreigners are all state tasks entrusted, within the Office of Human Rights, to the Department for the Promotion of Gender Equality Service (SPPE), the Office of the Delegate for Domestic Violence (BVD) and the Office for Integration of Foreigners (BIE, see address p. 2), responsible in Geneva for promoting social cohesion between the Swiss and foreigners as well as for combating discrimination based on ethnic or national affiliation.

THE CONFEDERATION
The Confederation legislates on matters of: road networks and traffic, foreign policy, old-age and disability pensions, radio and television, telecommunications, protection of consumers, monetary policy, federal taxation, agriculture, higher education and universities, army and defence, protection of animals, etc.

THE CANTONS
The cantons legislate in areas as diverse as education (except for federal universities and institutes of technology), hospitals (except communal or private organisations), the police, cantonal taxation, town and country planning, etc. The cantons are also responsible for applying the federal laws.

THE COMMUNES
The autonomy of the communes, guaranteed within the limits set by cantonal law, can vary considerably depending on the canton. In general the communes are responsible for local services, such as culture, sports, waste disposal, childcare facilities, road signs, police, fire brigade etc.
