PM assures more transparent governance
SAAJID KHAN, Sept 27:
Prime Minister Narendra Modi today promised to make India a vibrant manufacturing hub while ensuring that the country has a genuine and independent foreign policy and security.

Speaking before a gathering of Silicon Valley CEOs, Modi said that India has a great potential for industry and the world is keen on investing in India.

"We invite everyone to leverage this opportunity," the prime minister said, addressing the gathering.

India is on the move and is ready to take on the world, he said.

"We are a modern country with a ancient culture," he said, adding that India is a great country with a great history.

Money laundering is a serious problem, he said, adding that the country is taking steps to tackle it.

"We are committed to the fight against money laundering," he said, adding that the government is taking steps to tackle it.

From the USA, government and private sector officials were present to witness the event.

States will have to work together to combat money laundering, he said, adding that the government is taking steps to tackle it.

"We are committed to the fight against money laundering," he said, adding that the government is taking steps to tackle it.

PM assured that the government would continue to take steps to make India a vibrant manufacturing hub.
