Dear Customer,

We would like to take this opportunity to thank you for purchasing this Panasonic High Definition Video Camera. Please read these Operating Instructions carefully and keep them handy for future reference. Please note that the actual controls and components, menu items, etc. of your High Definition Video Camera may look somewhat different from those shown in the illustrations in these Operating Instructions.

Information for Your Safety

WARNING:
To reduce the risk of fire, electric shock or product damage,
• Do not expose this unit to rain, moisture, dripping or splashing.
• Do not place objects filled with liquids, such as vases, on this unit.
• Use only the recommended accessories.
• Do not remove covers.
• Do not repair this unit by yourself. Refer servicing to qualified service personnel.

CAUTION!
To reduce the risk of fire, electric shock or product damage,
• Do not install or place this unit in a bookcase, built-in cabinet or in another confined space. Ensure this unit is well ventilated.
• Do not obstruct this unit’s ventilation openings with newspapers, tablecloths, curtains, and similar items.
• Do not place sources of naked flames, such as lighted candles, on this unit.

The mains plug is the disconnecting device. Install this unit so that the mains plug can be unplugged from the socket outlet immediately.

This unit is intended for use in moderate climates.

Concerning the battery

Warning
Risk of fire, explosion and burns. Do not disassemble, heat above 60 °C or incinerate.

CAUTION
• Danger of explosion if battery is incorrectly replaced. Replace only with the type recommended by the manufacturer.
• When disposing of the batteries, please contact your local authorities or dealer and ask for the correct method of disposal.

EMC Electric and magnetic compatibility
This symbol (CE) is located on the rating plate.

Disposal of Old Equipment and Batteries

Only for European Union and countries with recycling systems

These symbols on the products, packaging, and/or accompanying documents mean that used electrical and electronic products and batteries must not be mixed with general household waste. For proper treatment, recovery and recycling of old products and used batteries, please take them to applicable collection points in accordance with your national legislation.

By disposing of them correctly, you will help to save valuable resources and prevent any potential negative effects on human health and the environment.

For more information about collection and recycling, please contact your local municipality.

Penalties may be applicable for incorrect disposal of this waste, in accordance with national legislation.

Note for the battery symbol (bottom symbol):

This symbol might be used in combination with a chemical symbol. In this case it complies with the requirement set by the Directive for the chemical involved.

Declaration of Conformity (DoC)

Hereby, "Panasonic Corporation" declares that this product is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

Customers can download a copy of the original DoC to our R&TTE products from our DoC server:

http://www.doc.panasonic.de

Contact to Authorized Representative:

Panasonic Marketing Europe GmbH,
Panasonic Testing Centre, Winsbergerring 15, 22525 Hamburg, Germany

This product is intended for general consumer. (Category 3)

This product on purpose to connect to access point of 2.4 GHz WLAN.
Cautions for use

Keep this unit as far away as possible from electromagnetic equipment (such as microwave ovens, TVs, video games etc.).

- If you use this unit on top of or near a TV, the pictures and/or sound on this unit may be disrupted by electromagnetic wave radiation.
- Do not use this unit near cell phones because doing so may result in noise adversely affecting the pictures and/or sound.
- Recorded data may be damaged, or pictures may be distorted, by strong magnetic fields created by speakers or large motors.
- Electromagnetic wave radiation generated by microprocessors may adversely affect this unit, disturbing the pictures and/or sound.
- If this unit is adversely affected by electromagnetic equipment and stops functioning properly, turn this unit off and remove the battery or disconnect AC adaptor. Then reinsert the battery or reconnect AC adaptor and turn this unit on.

Do not use this unit near radio transmitters or high-voltage lines.

- If you record near radio transmitters or high-voltage lines, the recorded pictures and/ or sound may be adversely affected.

About connecting to a PC

- Do not use any other USB cables except the supplied one.

About connecting to a TV

- Always use the supplied HDMI mini cable or a genuine Panasonic HDMI mini cable (RP-CDHM15, RP-CDHM30: optional).

Make sure to use the supplied cords and cables. If you use optional accessories, use the cords and the cables supplied with them.

Do not extend the cords and the cables.

Do not spray insecticides or volatile chemicals onto the unit.

- If the unit is sprayed with such chemicals, its body may be marred and the surface finish may peel off.
- Do not leave rubber or plastic products in contact with the unit for a long time.

Cleaning

- Before cleaning, detach the battery or pull the AC adaptor from the AC outlet, and then wipe the unit with a soft, dry cloth.
- If the unit is very dirty, dip a cloth in water and squeeze firmly, and then wipe the unit with the damp cloth. Next, dry the unit with a dry cloth.
- Use of benzine, paint thinner, alcohol, or dishwashing liquid may alter the camera body or peel the surface finish. Do not use these solvents.
- When using a chemical dust cloth, follow the instructions that came with the cloth.

When you are not going to use the unit for an extended time

- When storing the unit in a cupboard or cabinet, it is recommended that you place a desiccant (silica gel) in with it.

Be sure to detach the battery after use.

- If the battery is left attached, a minute amount of current continues to flow even if the unit is off. Keeping the unit in this state may result in over discharge of the battery. This may result in you not being able to use the battery even after it is charged.
- The battery should be stored in a cool place free from humidity, with as constant temperature as possible. (Recommended temperature: 15°C to 25°C, Recommended humidity: 40%RH to 60%RH)
- To store the battery for a long period of time, we recommend you charge it once every year and store it again after you have completely used up the charged capacity.

The unit and the SD card become warm during use. This is not a malfunction.

If the operating time is very short even after the battery has been recharged, the battery has worn out. Please purchase a new battery.

**About the SD card**

- When the card access lamp is lit, do not:
  - Remove the SD card
  - Turn the unit off
  - Insert and remove the USB cable
  - Expose the unit to vibrations or shock

**About the recording format for recording motion pictures**

- Motion pictures recorded with other devices are not supported by this unit.

You can select from AVCHD\(^1\), MP4 or iFrame recording formats to record motion pictures using this unit.

**AVCHD:**

It is suitable for viewing on a high-definition TV or for saving to disc\(^2\).

\(^1\) It is compatible with the AVCHD Progressive (1080/50p).

\(^2\) The following methods are available for saving an image recorded in 1080/50p:

- Copy the image to a disc using the HD Writer LE 3.0.
- Copy the image to a Panasonic Blu-ray disc recorder that supports AVCHD Progressive.

**MP4:**

This is a recording format suitable for playing back or editing on a PC.

- It is not compatible with motion pictures recorded in AVCHD format.

**iFrame:**

This is a recording format suitable for playing back or editing on a Mac (iMovie etc.).

- It is not compatible with motion pictures recorded in AVCHD format.

**Indemnity about recorded content**

Panasonic does not accept any responsibility for damages directly or indirectly due to any type of problems that result in loss of recording or edited content, and does not guarantee any content if recording or editing does not work properly. Likewise, the above also applies in a case where any type of repair is made to the unit.

**About Condensation (When the lens or the LCD monitor is fogged up)**

Condensation occurs when there is a change in temperature or humidity, such as when the unit is taken from outside or a cold room to a warm room. Please be careful, as it may cause the lens or LCD monitor to become soiled, moldy, or damaged. When taking the unit to a place which has a different temperature, if the unit is accustomed to the room temperature of the destination for about one hour, condensation can be prevented. (When the difference in temperature is severe, place the unit in a plastic bag or the like, remove air from the bag, and seal the bag.) When condensation has occurred, remove the battery and/or the AC adapter and leave the unit like that for about one hour. When the unit becomes accustomed to the surrounding temperature, fogginess will disappear naturally.

**Cards that you can use with this unit**

**SD Memory Card, SDHC Memory Card and SDXC Memory Card**

- 4 GB or more Memory Cards that do not have the SDHC logo or 48 GB or more Memory Cards that do not have the SDXC logo are not based on SD Memory Card Specifications.
- Refer to page 13 for more details on SD cards.

**For the purposes of these operating instructions**

- SD Memory Card, SDHC Memory Card and SDXC Memory Card are referred to as the "SD card".
- The smartphone and tablet are indicated as "smartphone".

About batteries that you can use with this unit

The battery that can be used with this unit is VW-VBT190/VW-VBT380.

The unit has a function for distinguishing batteries which can be used safely. The dedicated battery (VW-VBT190/VW-VBT380) supports this function. The only batteries suitable for use with this unit are genuine Panasonic products and batteries manufactured by other companies and certified by Panasonic. Panasonic cannot in any way guarantee the quality, performance or safety of batteries which have been manufactured by other companies and are not genuine Panasonic products.

It has been found that counterfeit battery packs which look very similar to the genuine product are made available to purchase in some markets. Some of these battery packs are not adequately protected with internal protection to meet the requirements of appropriate safety standards. There is a possibility that these battery packs may lead to fire or explosion. Please be advised that we are not liable for any accident or failure occurring as a result of use of a counterfeit battery pack. To ensure that safe products are used we would recommend that a genuine Panasonic battery pack is used.

Inserting/removing the battery

- Press the power button to turn off the unit. (☞ 14)
- Install the battery by inserting it in the direction shown in the figure.

Removing the battery

Be sure to hold down the power button until the status indicator goes off. Then remove the battery while supporting the unit to prevent it from dropping.

Move the battery release lever in the direction indicated by the arrow and remove the battery when unlocked.

Battery holder

Insert the battery until it clicks and locks.
Charging the battery

When this unit is purchased, the battery is not charged. Charge the battery fully before using this unit for the first time.

The unit is in the standby condition when the AC adaptor is connected. The primary circuit is always “live” as long as the AC adaptor is connected to an electrical outlet.

Important:
- Do not use the AC adaptor/DC cable with any other equipment as it is designed only for this unit. Also, do not use the AC adaptor/DC cable from other equipment with this unit.
- The battery will not be charged if the unit is turned on.
- It is recommended to charge the battery in a temperature between 10 °C and 30 °C. (The battery temperature should also be the same.)

1 DC input terminal

1 Connect the DC cable to the AC adaptor and to the DC input terminal of this unit.
   - Insert the plugs as far as they will go.

2 Insert the AC adaptor into an AC outlet.
   - The status indicator will flash red at an interval of approximately 2 seconds (approximately 1 second on, approximately 1 second off), indicating that charging has begun.
   - It will turn off when the charging is completed.

Connecting to the AC outlet

It is possible to use this unit with power supplied from the AC outlet by turning on the unit with the AC adaptor connected.

Even when you use the AC adaptor for recording images, keep the battery connected.

This allows you to continue the recording even if a power failure occurs or the AC adaptor is unplugged from the AC outlet by accident.

To charge by connecting to other device

It is possible to charge by connecting to other device with the USB cable (supplied).

- Do not use any other DC cables except the supplied one.
- Do not use any other AC adaptors except the supplied one.
- We recommend using Panasonic batteries (→ 10).
- If you use other batteries, we cannot guarantee the quality of this product.
- Do not heat or expose to flame.
Do not leave the battery(ies) in a car exposed to direct sunlight for a long period of time with doors and windows closed.

Charging and recording time

- **Charging/Recording time**
- Temperature: 25 °C/humidity: 60%RH
- Charging times in parentheses are when charging from the USB terminal.

<table>
<thead>

</tbody>
</table>

- "h" is an abbreviation for hour, "min" for minute and "s" for second.
- These times are approximations.
- The indicated charging time is for when the battery has been discharged completely. Charging time and recordable time vary depending on the usage conditions such as high/low temperature.
- The actual recordable time refers to the recordable time when repeatedly starting/stopping recording, turning the unit on/off, moving the zoom lever etc.

**Battery capacity indication**

The battery capacity indication is displayed on the LCD monitor.

- The display changes as the battery capacity reduces. If the battery discharges, then will flash red.
The unit can record still pictures or motion pictures to an SD card. To record to an SD card, read the following.

**Cards that you can use with this unit**

Use SD cards conforming to Class 4 or higher of the SD Speed Class Rating for motion picture recording.

Please confirm the latest information about SD Memory Cards/SDHC Memory Cards/SDXC Memory Cards that can be used for motion picture recording on the following website.

http://panasonic.jp/support/global/cs/e_cam

(This website is in English only.)

- Keep the Memory Card out of reach of children to prevent swallowing.

**Inserting/removing an SD card**

When using an SD card not from Panasonic, or one previously used on other equipment, for the first time on this unit, format the SD card. (22) When the SD card is formatted, all of the recorded data is deleted. Once the data is deleted, it cannot be restored.

**Caution:**

Check that the access lamp has gone off.

1. Open the SD card cover and insert (remove) the SD card into (from) the card slot A.
   - Face the terminal side C in the direction shown in the illustration and press it straight in as far as it will go.
   - Press the centre of the SD card and then pull it straight out.

2. Securely close the SD card cover.
   - Securely close it until it clicks.
Preparation

Turning the unit on/off

You can turn the unit on and off using the power button or by opening and closing the LCD monitor.

Turning the unit on and off with the power button

Open the LCD monitor and press the power button to turn on the unit.

To turn off the unit
Hold down the power button until the status indicator goes off.

The status indicator lights on.
The unit is turned on when the LCD monitor is opened, and unit is turned off when it is closed.

Preparation

Selecting a mode

You can switch this unit between Recording Mode (Motion Picture Recording Mode/Still Picture Recording Mode) and Playback Mode by pressing the recording/playback button.

If you touch the recording mode switching icon in Recording Mode, this unit can be switched between Motion Picture Recording Mode and Still Picture Recording Mode.

<table>

2 Touch the play mode select icon A (→ 16).
  - You can also set by touching MENU, selecting [VIDEO SETUP] or [PHOTO SETUP] → [MEDIA, VIDEO/PICTURE]. (→ 22)

3 Select the still picture C or the recording format of the motion picture D you wish to play back.
  - Touch [Enter].

4 (When [AVCHD] or [MP4/iFrame] is touched)
  - Touch the desired recording format for playback.
  - When [AVCHD] is selected
    - [ALL AVCHD]/[1080/50p]/[1080/50i]
  - When [MP4/iFrame] is selected
    - [ALL MP4/iFrame]/[1080/50p]/[720/25p]/[360/25p]/[iFrame]
  - The recording mode icon B is displayed in the thumbnail display when the item is touched.
The following icons are displayed on thumbnails when [ALL AVCHD] or [1080/50i] is touched:
- AVCHD [1080/50p] scene: 108p
- AVCHD [PH] scene: PH
- AVCHD [HA] scene: HA
- AVCHD [HG] scene: HG
- AVCHD [HE] scene: HE

The following icons are displayed on thumbnails when [ALL MP4/iFrame] is touched:
- MP4 [1080/50p] scene: 108p
- MP4 [720/25p] scene: 72p
- MP4 [360/25p] scene: 36p
- iFrame scene: iF

5 Touch the scene or the still picture to be played back.

6 Select the playback operation by touching the operation icon.

Touch the scene or the still picture to be played back. To display the next (previous) page:
- Slide the thumbnail display upward (downward) while touching it.
- Switch the Touch Menu, and then touch ▲ (up) / ▼ (down) on the thumbnail scroll lever.

Select the playback operation by touching the operation icon.
• Operation icons and screen display will disappear when no touch operation is performed for a specific period of time. To display them again, touch the screen.
• Touch ►/II to start/pause playback of motion pictures.

Watching Video/Pictures on your TV

Connect this unit to a TV using an HDMI mini cable (supplied) or an AV cable (commercially-available).
Basic

Using the menu screen

1 Touch the menu.

2 Touch the top menu A.

3 Touch the submenu B.

- Next (previous) page is displayed by touching A/.

4 Touch the desired item to enter the setting.

5 Touch [EXIT] to exit the menu setting.

About guide display

- After touching , touching the submenus and items will cause function descriptions and settings confirmation messages to appear.
- After the messages have been displayed, the guide display is cancelled.

Language selection

You can select the language on the screen display and the menu screen.

Formatting

Please be aware that if a medium is formatted, then all the data recorded on the medium will be erased and cannot be restored. Back up important data on a PC, DVD disc etc.

* Displayed when connecting a USB HDD.
(Refer to the Operating Instructions (PDF format))

- Media selection screen is not displayed when the USB HDD is not connected. Touch [YES].
- Do not format an SD card using any other equipment such as a PC. The card may not be used on this unit.
This unit offers the following Wi-Fi functions when used in combination with another Wi-Fi compatible device.

<table>
<thead>
<tr>
<th>Wi-Fi [V270]</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>What you can do with the Wi-Fi® function</strong></td>
</tr>
<tr>
<td>This unit offers the following Wi-Fi functions when used in combination with another Wi-Fi compatible device.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Function</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>[Remote Ctrl]</td>
<td>Using a smartphone, you can perform record/playback operations from a remote location or upload motion pictures and still pictures recorded in this unit on SNS (Social Networking Service).</td>
</tr>
<tr>
<td>[Baby Monitor]</td>
<td>You can use your smartphone to check on your baby being monitored by this unit when you are in another room. The smartphone and this unit can be used like radio transceivers, allowing the users to have a conversation by taking turns. This unit can also send a notification to the smartphone whenever the baby cries.</td>
</tr>
<tr>
<td>[Hom.Monitor]</td>
<td>You can confirm the recording screen of this unit from outside using a smartphone.</td>
</tr>
<tr>
<td>[DLNA Play]</td>
<td>Connecting this unit to a DLNA-compatible TV via Wi-Fi, you can play back scenes and still pictures on the TV.</td>
</tr>
<tr>
<td>[Copy]</td>
<td>By setting up a Wi-Fi communication between this unit and a PC, you can copy scenes and still pictures recorded with this unit to the PC.</td>
</tr>
<tr>
<td>[Live Cast]</td>
<td>You can broadcast motion pictures of this unit live by setting up a link between the “LUMIX CLUB” and USTREAM.</td>
</tr>
<tr>
<td>[History]</td>
<td>Each use of a Wi-Fi function is stored in the Wi-Fi connection history. Connecting from the history allows you to easily set up a connection using the previous connection settings.</td>
</tr>
</tbody>
</table>

Before using any of these Wi-Fi functions, check the settings of your device and get it ready for use. This Basic Operating Instructions describes the procedure for using [Remote Ctrl] to provide a Wi-Fi connection example.

- For details on how to use those Wi-Fi functions and set up a connection, refer to the Operating Instructions (PDF format).

**This unit is NFC-compatible**

Using the NFC (Near Field Communication) function, you can easily transfer data necessary for a Wi-Fi connection between this unit and the smartphone. This function can be used with the NFC compatible device with Android™ (OS version 2.3.3 or later). (Except for some models)

**This unit is WPS-compatible**

WPS (Wi-Fi Protected Setup™) is a function that allows you to easily set up a connection with a wireless LAN device and make security-related settings.
Before using [Remote Ctrl]

- You need to turn on the Wi-Fi function of your smartphone.
- Do not remove the SD card during remote operations.

Caution:
Be sure to pay special attention to the privacy, the likeness rights, etc. of the subject when you use this function. Use at your own risk.

Install the “Image App”

About the “Image App”
The “Image App” is an application provided by Panasonic.

<td>• The icon will be added to the menu.</td>
</tr>
</tbody>
</table>

* The supported OS version are current as of November 2014 and subject to change.
- Use the latest version.
- Refer to [Help] in the “Image App” menu about how to operate.
- The service may not be able to be used properly depending on the type of smartphone being used. For information on the “Image App”, check the support website below.
http://panasonic.jp/support/global/cs/e_cam
(This Site is English only.)
- When downloading the app on a mobile network, high packet communication fees may be incurred depending on the details of your contract.
Preparations before using [Remote Ctrl]

Check if the smartphone is an Android (NFC-compatible), Android (non-NFC-compatible), or iOS device.
- If the smartphone is NFC-compatible, the NFC mark is displayed when you start up “Image App”.

Setting up a direct Wi-Fi connection between this unit and a smartphone

Using NFC, you can easily set up a direct connection between this unit and the smartphone.

- If the device is Android (NFC-compatible)
Use NFC to set up a direct connection between this unit and the smartphone. (⇒ 26)

- If the device is Android (non-NFC-compatible) or iOS
Scan a QR code to set up a direct connection between this unit and the smartphone. (⇒ 28)

Setting up a Wi-Fi connection via a wireless access point

1. Check if the wireless access point is compatible with IEEE802.11b/g/n.
2. Set up a Wi-Fi connection between this unit and the wireless access point.
   - [Easy Connection (WPS)] (⇒ 27)
   - Searching for wireless access points to set up a connection (⇒ 28)

If your wireless access point is compatible with WPS, proceed to [Easy Connection (WPS)] (⇒ 27)
Using [Remote Ctrl] with a direct connection

Use NFC to set up a direct connection between this unit and the smartphone.

- Set the NFC function of the smartphone to on.
- **Start up the smartphone application “Image App”**.
- **Touch the smartphone on 📲 of this unit**.
  - Touch the NFC touch area when the NFC mark is displayed on the smartphone screen.
  - If this is the first time the smartphone is connecting to this unit, touch [YES] on the screen of this unit, and then touch the smartphone on 📲 of this unit again.
  - If the unit is not recognised even when touching the smartphone, change positions and try again.
  - The connection cannot be established while this unit is recording.
  - When the connection is complete, images of this unit are displayed on the smartphone screen.
  - This unit is turned on even if it touches the smartphone on 📲 of this unit, where this unit is turned off with a LCD monitor.

**Scan a QR code to set up a direct connection between this unit and the smartphone.**

1. Press Wi-Fi button on this unit and touch [Wi-Fi Setup]. 📲 Wi-Fi
2. Touch [Direct Connection].
3. Touch [Change connection type] and select [QR code]
   - QR code is displayed on the screen of this unit.
4. **Start up the smartphone application “Image App”**.
5. On the smartphone, select [QR code] to scan the QR code displayed on the screen of this unit.
   (If the device is Android)
   - The connection will be completed. The image from this unit will be displayed on the smartphone screen.
   (If the device is iOS)
   - Follow the steps below:
     1. Select the option that allows you to install the app on the profile screen of the “Image App”, and follow the on-screen instructions to complete the installation.
     2. Press the home button to close the displayed screen.
     3. Select the network name (SSID) of this unit from the Wi-Fi setup of the smartphone.
        - The connection will be completed. The image from this unit will be displayed on the smartphone screen.

- When you cannot scan the QR code, refer to “Connecting by entering an SSID and Password” in the Operating Instructions (PDF format).
- Transmission speed may decrease, or may not be usable depending on the environment it is used in.
Using [Remote Ctrl] with a wireless access point connection

Check if the wireless access point you are using is compatible with WPS

- If the wireless access point is compatible with WPS:
  Proceed to the following [Easy Connection (WPS)]
- If the wireless access point is not compatible with WPS:
  “Searching for wireless access points to set up a connection” (→ 28)

[Easy Connection (WPS)]

1 Press Wi-Fi button on this unit. Wi-Fi
   • When the Wi-Fi button is pressed for the first time, a message is displayed. Touch [YES], and proceed to step 4.

2 Touch [Wi-Fi Setup] and select [Set Wireless Access Point].

3 Touch the part with no display of a wireless access point.

4 Touch [Easy Connection (WPS)].

5 Set the wireless access point to waiting for WPS.
   • For further details, please read the operating instructions for the wireless access point. (When using a tethering connection, please read the operating instructions for the smartphone.)
   • A message is displayed when the connection is complete. Touch [EXIT], and set the connection again.

6 Connect the smartphone to a wireless access point.

7 Touch [Remote Ctrl] and start up the smartphone application “Image App”.
   • When the connection is complete, images of this unit are displayed on the smartphone screen.

   • For information on how to set a PIN code, refer to the Operating Instructions (PDF format).
   • When this unit is connected to a wireless access point, you can also use NFC to remotely operate this unit with the smartphone via the wireless access point. For details, refer to “Using [Remote Ctrl] with a wireless access point connection” in the Operating Instructions (PDF format).
Searching for wireless access points to set up a connection

1 Press Wi-Fi button on this unit. When the Wi-Fi button is pressed for the first time, a message is displayed. Touch [YES], and proceed to step 4.

2 Touch [Wi-Fi Setup] and select [Set Wireless Access Point].

3 Touch the part with no display of a wireless access point.

4 Touch [Search].

5 Touch the wireless access point to connect.

6 (When there is an Encryption key (Password))

   Enter the Password.

   For information on how to enter characters, refer to the Operating Instructions (PDF format).

   When the entry is complete, touch [Enter].

   The connection will be completed and a message will be displayed. Touch [EXIT], and exit [Set Wireless Access Point]

7 Connect the smartphone to a wireless access point.

8 Touch [Remote Ctrl] and start up the smartphone application “Image App”.

   When the connection is complete, images of this unit is displayed on the smartphone screen.

   When this unit is connected to a wireless access point, you can also use NFC to remotely operate this unit with the smartphone via the wireless access point. For details, refer to “Using [Remote Ctrl] with a wireless access point connection” in the Operating Instructions (PDF format).
If the Wi-Fi connection cannot be established

Please refer to the operating instruction of the device in use for details about the setting of the wireless access point or smartphone.

<table>

</tr>
</thead>
<tbody>
<tr>
<td>It cannot connect to the wireless access point. The wireless access point is not detected.</td>
<td>(General)</td>
</tr>
<tr>
<td>• Turn on the wireless access point.</td>
<td>• Approach the wireless access point and reconnect.</td>
</tr>
<tr>
<td>• If it takes time to complete the connection, the Wi-Fi connection will be aborted. Reset the connection settings.</td>
<td>• Check how to connect to the wireless access point and how to set the security settings.</td>
</tr>
<tr>
<td>• If the wireless access point supports both the 2.4 GHz band and the 5 GHz band, check if the setting for the 2.4 GHz band is enabled.</td>
<td>• Make sure the wireless access point is registered in this unit.</td>
</tr>
<tr>
<td>• The device may be unable to locate the wireless access point due to problems with the signal. Refer to “Connecting by entering an SSID and Password” in the Operating Instructions (PDF format).</td>
<td></td>
</tr>
<tr>
<td>([Easy Connection (WPS)])</td>
<td>• Make sure the wireless access point is in the correct WPS standby mode.</td>
</tr>
<tr>
<td>([Search])</td>
<td>• Make sure the Password have been correctly input.</td>
</tr>
<tr>
<td>Radio waves of the wireless access point get disconnected.</td>
<td>• The condition may improved by moving the location or changing the angle of the wireless access point.</td>
</tr>
<tr>
<td></td>
<td>• If you use another 2.4 GHz band device such as a microwave oven or cordless telephone nearby, you may interrupt the signal. Keep a sufficient distance from these types of devices.</td>
</tr>
<tr>
<td>The Wi-Fi connection is not possible between this unit and a smartphone.</td>
<td>(Wireless Access Point Connection)</td>
</tr>
<tr>
<td>• Make sure the smartphone is properly connected to the wireless access point by checking the Wi-Fi settings of the smartphone.</td>
<td>• Make sure this unit and the smartphone are connected to the same wireless access point.</td>
</tr>
<tr>
<td>• Make sure the wireless access point is registered in this unit.</td>
<td>• Make sure the smartphone is not connected to the wireless access point. If it is connected to the wireless access point, change the Wi-Fi access point using the smartphone’s Wi-Fi set up.</td>
</tr>
<tr>
<td>(Direct Connection)</td>
<td>• Make sure the smartphone is properly connected to this unit by checking the Wi-Fi settings of the smartphone.</td>
</tr>
<tr>
<td>The Wi-Fi connection is disconnected immediately.</td>
<td>• If there is a setting for avoiding poor connections in the Wi-Fi setting menu of the Android™ device 4.0 or later version, turn it off.</td>
</tr>
</tbody>
</table>
**Troubleshooting**

- **It is not a malfunction in following cases**

<table>
<thead>
<tr>
<th>Situation</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A clicking sound is heard when the unit is shaken.</td>
<td>• This is the sound of the lens moving and is not a defect. This sound will no longer be heard when the unit is turned on and set this unit to the Motion Picture Recording Mode or Still Picture Recording Mode.</td>
</tr>
<tr>
<td>Object seems to be warped.</td>
<td>• Object seems to be warped slightly when the object moves across the image very fast, but this is because the unit is using MOS for the image sensor. This is not a malfunction.</td>
</tr>
<tr>
<td>The lens or LCD monitor fog up.</td>
<td>• This is due to condensation. It is not a malfunction. Please refer to page 5.</td>
</tr>
</tbody>
</table>

**Power**

<table>
<thead>
<tr>
<th>Problem</th>
<th>Check points</th>
</tr>
</thead>
<tbody>
<tr>
<td>This unit cannot be turned on. This unit does not stay on long enough. Battery runs down quickly.</td>
<td>• Charge the battery again to ensure it is sufficiently charged. (⇒ 11) • In cold places, the battery using time becomes shorter. • The battery has a limited life. If the operating time is still too short even after the battery is fully charged, the battery has worn out and needs to be replaced.</td>
</tr>
<tr>
<td>This unit cannot be operated though it is turned on. This unit does not operate normally.</td>
<td>• Remove the battery or AC adaptor, wait about 1 minute and then reconnect the battery or AC adaptor. Then about 1 minute later, turn on the unit again. (Conducting the above operation while the media is being accessed may damage the data on the media.) • If normal operation is still not restored, detach the power connected, and consult the dealer who you purchased this unit from.</td>
</tr>
<tr>
<td>“ERROR OCCURRED. PLEASE TURN UNIT OFF, THEN TURN ON AGAIN.” is displayed.</td>
<td>• The unit has automatically detected an error. Restart the unit by turning the unit off and on. • The unit will be turned off in about 1 minute if the unit is not turned off and on. • Repair is needed if it is repeatedly displayed even if it is restarted. Detach the power connected, and consult the dealer who you purchased this unit from. Do not attempt to repair the unit by yourself.</td>
</tr>
</tbody>
</table>
### Recording

<table>
<thead>
<tr>
<th>Problem</th>
<th>Check points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Colour or brightness of the image changes, or you may see horizontal bars in the image.</td>
<td>• Colour or brightness of the image may change, or you may see horizontal bars in the image when the object is recorded under fluorescent light, mercury light or sodium light, etc., but this is not a malfunction.</td>
</tr>
<tr>
<td>The LCD monitor flickers indoors.</td>
<td>• In Motion Picture Recording Mode, record in Intelligent Auto Mode/Intelligent Auto Plus Mode or set the shutter speed to 1/100 in areas where the power supply frequency is 50 Hz, or 1/125 in areas of 60 Hz.</td>
</tr>
<tr>
<td></td>
<td>• In Still Picture Recording Mode, this will not affect the recorded image.</td>
</tr>
</tbody>
