PRODUCT CATALOG
The Leader in Automotive & Diesel Performance Products
AMSOIL Signature Series Synthetic Motor Oil represents the pinnacle of lubrication science. It is the result of over 40 years of synthetic lubricant engineering. Signature Series provides 75 percent more engine protection against horsepower loss and wear than required by a leading industry standard.** It protects so well, you can drive up to 25,000 miles, 700 hours of operation or one year between oil changes, whichever comes first.

- **Engineered** to outperform conventional petroleum oils.
- **Reduces** friction, heat and wear for maximum power, performance and fuel efficiency.
- **Resists** high-temperature burn-off, chemical breakdown and sludging – keeps engines clean.
- **Outstanding** low-temperature fluidity for fast, dependable winter starts and immediate startup protection.
- **Exceeds** the most demanding worldwide performance standards and meets warranty requirements for all domestic and imported passenger car engines, both turbocharged and non-turbocharged.

* Based on independent testing of AMSOIL Signature Series 5W-30, in ASTM D7300 as required by API SN specification.

** Use in vehicles that require API SN (Resource Conserving), SM…

- **10W-30 (ATM)** Use in vehicles that require API SN (Resource Conserving), SM…
  - ILSAC GF-5, 4… • GM dexos™

- **0W-40 (AZF)** Use in vehicles that require API SN, SM… • Chrysler MS-12633, MS-10725, MS-10850; Nissan GT-R®

- **5W-30 (ASL)** Use in vehicles that require API SN (Resource Conserving), SM…
  - ILSAC GF-5, 4… • GM dexos™

- **5W-30 (AMR)** Use in vehicles that require API SN, SM… • Ford WSS-M2C931-C (Mustang)
  - Fortified with detergents that exceed dexos™ sulfated ash specifications
XL Synthetic Motor Oil
Protection-boost technology maintains maximum wear protection for up to 10,000-mile/six-month drain intervals, or longer when recommended in owners’ manuals or indicated by oil life monitoring systems. Excellent for high-mileage vehicles. Save time, money and effort.

- **0W-20 (XLZ)**

  * Fortified with detergents that exceed dexos™ sulfated ash specifications

OE Synthetic Motor Oil
AMSOIL-engineered for today’s sophisticated engines. Advanced synthetic technology resists chemical breakdown for maximum wear protection (and peace of mind) well beyond the traditional 3,000-mile oil change interval.

- **0W-20 (OEZ)**
  Use in vehicles that require API SN (Resource Conserving), SM... • ILSAC GF-5, 4... • GM dexos™

  Use in vehicles that require API SN (Resource Conserving), SM... • ILSAC GF-5, 4...

**Tough-to-reach fill hole?**
Order a flexible pour spout with your oil to make the job easier. Fits quarts and gallons.
DOMINATOR® Synthetic Racing Oil
Provides superior protection and performance for high-rpm, high-temperature racing and high-performance applications. Shear-stable formulation to protect critical engine components for the duration of the race. Effectively reduces friction for maximum power and cooler engine temperatures, resulting in improved lap times and longer-lasting equipment.

- **5W-20 (RD20)**
- **10W-30 (RD30)**
- **15W-50 (RD50)**
- **SAE 60 (RD60)**

● **Assembly Lube (EAL)**
Formulated to cling to engine parts and provide exceptional wear protection while inhibiting rust and corrosion in newly built or rebuilt four-stroke engines. Designed to dissolve in oil, helping eliminate oil port clogging and deposit formation.

- **Break-In Oil (BRK)**
Formulated without friction modifiers to allow for quick and efficient piston ring seating in new and rebuilt high-performance and racing engines. Contains anti-wear additives to protect cam lobes, lifters and rockers during the critical break-in period when wear rates are highest, while increased film strength protects rod and main bearings from damage.

Z-ROD® Synthetic Motor Oil
High-zinc, high-phosphorus formulation engineered specifically for classic cars and performance vehicles. Provides extra protection for flat-tappet cams, lifters, rockers and other areas susceptible to wear. Unique blend of rust and corrosion inhibitors ensures maximum protection during long-term storage.

- **10W-30 (ZRT)**
  Use in vehicles that require API SL, SJ...
- **20W-50 (ZRF)**
  Use in vehicles that require API SL, SJ...

PRODUCTS THE PROS USE

“It’s not uncommon for us to see engine temps over 300°. There’s no other oil I’d trust on race day.”

Scott Douglas
11 World Championships

PRODUCTS THE PROS USE

“[Image]"
**European Car Formula Synthetic Motor Oil**

Formulated for use in gasoline engines and on- and off-road diesel engines not equipped with diesel particulate filters (DPFs). Offers excellent wear protection. Ideal for applications where the extra protection of a high-zinc formula is desired, including classic cars and motor homes. Excellent for flat-tappet, high-performance, heavy-duty and high-mileage applications.

- **10W-40 (AMO)**

- **20W-50 (ARO)**

---

**PREMIUM PROTECTION FOR EUROPEAN VEHICLES**

**Emissions System Protection**

AMSOIL European Car Formula features precisely balanced formulations that consider the needs of modern exhaust treatment devices. Protecting sensitive emissions systems depends on using the optimal blend of SAPS (sulfated ash, phosphorus and sulfur) to keep these systems functioning properly. It is important to use an oil that meets the proper specification to ensure optimum engine protection and performance.

**European Car Formula Synthetic Motor Oil**

Specially formulated for the lubrication needs of European gasoline and diesel cars and light trucks. Blended with advanced AMSOIL synthetic base stocks, premium additives and broad viscosity ratings, allowing motorists to take advantage of the maximum extended drain intervals recommended by European automakers while providing outstanding protection and performance.

- **5W-30 (AEL)** – IMPROVED EMISSIONS SYSTEM PROTECTION
  - Use in vehicles that require API SN/ACEA C3/GM dexos2™ • Chrysler MS-11106 • VW 504.00/507.00 • MB 229.51 • BMW LL-04 • Porsche C30.

- **5W-40 (AFL)** – IMPROVED EMISSIONS SYSTEM PROTECTION
  - Manufacturer Approvals: BMW Longlife-04 • MB-Approval 229.51 • Porsche A40
  - Use in vehicles that require ACEA C3 • API SN/SM/CF • Chrysler MS-10850 (Supercedes MS-10889) • Ford WSS-M2C917-A • GM dexos2™ (Supercedes LL-A003 and LL-B003) • Renault RN0710 / RN0720 / Volkswagen 505.00/506.01

- **0W-40 (EFO)** – CLASSIC EMISSIONS SYSTEM PROTECTION
  - Use in vehicles that require ACEA A3/B3, A3/B4 • API SN/SM... • BMW LL-01 • MB 229.3/229.3 • Porsche A40 • Renault 0710, 0700 • VW 502.00/505.00

- **5W-40 (EFM)** – CLASSIC EMISSIONS SYSTEM PROTECTION
  - Manufacturer Approvals: MB-Approval 229.5 • Porsche A40
  - Use in vehicles that require ACEA A3/B3, A3/B4 • API SN/SM... • BMW LL-01 • Renault 0710, 0700 • VW 502.00/505.00

**DESIGNED FOR THE SPECIFIC DEMANDS OF EUROPEAN GAS AND DIESEL ENGINES.**

- Outstanding All-Season Performance
- Engineered for Maximum Fuel Economy
- Enhanced Turbocharger Protection
Synthetic V-Twin Motorcycle Oil
Superior synthetic formulation provides maximum wear protection, long service life and excellent shear stability. Wet-clutch compatible.

- **20W-50 (MCV)**
  Use in motorcycles that require API SG, SL/CF, GC-4 • JASO MA/MA2 • ISO-L-EMA2
  Use in motorcycle engines, transmissions and primary chaincases that require 20W-50 motorcycle oil, including those made by Harley-Davidson®, Buell®, Ducati®, Aprilia®, BMW® and Triumph®. No friction modifiers.

- **SAE 60 (MCI)**
  Use in motorcycles that require API SG, SL/CF, GC-4 • JASO MA/MA2 • ISO-L-EMA2
  Use in big-bore motorcycles that require a 60-weight oil, including those made by Harley-Davidson. No friction modifiers.

- **20W-40 (MVI)**
  Use in motorcycles that require API SM • JASO MA
  Use in motorcycle engines and transmissions that require 20W-40 motorcycle oil, including those made by Victory® and Indian®.

- **V-Twin Transmission Fluid (MVT)**
  Purpose-built for bikers who prefer a dedicated transmission fluid over a multi-purpose lubricant. Durable formulation and extreme-pressure additives protect against gear and bearing wear. Finely tuned viscometrics and frictional properties provide smooth shifts, helping riders avoid missed shifts. Helps eliminate loud clunks and gear noise.

- **V-Twin Primary Fluid (MVP)**
  Purpose-built for bikers who prefer a dedicated primary chaincase lubricant over a multi-purpose lubricant. Balanced additive system provides consistent clutch performance and feel. Helps riders easily find neutral and promotes smooth acceleration. Superior load-holding capacity helps prevent clutch slip for confident takeoffs, helping riders avoid killing their engines. Heavy dose of anti-wear additives protects the gears, chain and compensator bearing from wear. Resists thermal breakdown and reduces drag at low temperatures.

WE’RE INTO Metric Bikes

Synthetic Metric Motorcycle Oil

- **10W-40 (MCF)**
  Use in bikes that require API SG, SL/CF • JASO MA/MA2 • ISO-L-EMA2
  Use in motorcycles that require 10W-40 motorcycle oil, including those made by Honda*, Yamaha*, Kawasaki*, Triumph* and BMW*.

- **10W-30 (MCT)**
  Use in bikes that require API SG, SL/CF, CG-4 • JASO MA/MA2 • ISO-L-EMA2
  Use in motorcycles that require 10W-30 motorcycle oil, including those made by Honda, Yamaha, Suzuki* and Kawasaki.

OUT-FRONT PERFORMANCE

OFFICIAL OIL

10W-40 (DB40)
Use in bikes that require JASO MA · API SG, SJ, SH, SL
Use in dirt bikes that require 10W-40 motorcycle oil, including those made by Honda*, Yamaha*, Kawasaki*, Suzuki* and Husqvarna*. Recommended for separate-sump applications, including the Honda CRF and many two-stroke dirt bikes.

10W-50 (DB50)
Use in bikes that require JASO MA · API SG, SJ, SH, SL
Use in dirt bikes that require 10W-50 motorcycle oil, including those made by KTM*, Kawasaki, Yamaha, Suzuki and Husqvarna.

10W-60 (DB60)
Use in bikes that require JASO MA · API SG, SJ, SH, SL
Use in dirt bikes that require 10W-60 motorcycle oil, including those made by KTM and Husqvarna.

Dirt Bike Transmission Fluid (DBTF)
Use in two-stroke dirt bike transmissions and the Honda CRF
Features a wet-clutch-compatible formulation designed to prevent clutch slippage and deliver consistent clutch feel. Guards against clutch and transmission wear, promoting long clutch plate and gear life.

Synthetic Dirt Bike Oil
Friction-modifier-free formulation delivers confidence in clutch feel. Wet-clutch compatible. Advanced synthetic technology for maximum horsepower and wear protection. Superior film strength to protect high-torque transmissions.

AMSOIL products are formulated to meet or exceed the performance requirements set forth by the manufacturers of all applications shown/listed here.
We’re into UTVs

10W-40 (AUV40)
Use in ATVs and UTVs that require 10W-40 motor oil, including those made by Kawasaki*, Suzuki*, Can-Am*, Honda*, Yamaha*, Kubota* and John Deere*. Protects hot, high-revving engines against wear for worry-free operation.

5W-50 (AUV50)
Use in UTVs and ATVs that require 5W-50 motor oil, including the Polaris Ranger*, RZR* and Sportsman*. Protects hot, high-revving engines against wear for worry-free operation.

Synthetic ATV/UTV Transmission and Differential Fluid (AUDT)
Use in ATV and UTV transmissions and front and rear differentials. Boasts outstanding shear stability and resists extreme pressures. Protects heavily loaded, high-torque gears and bearings against wear for worry-free operation.

Synthetic ATV/UTV Front Drive Fluid (AUFD)
Use in ATV and UTV front differentials and hubs, including those made by Polaris and Hilliard*. High-quality alternative to Polaris Demand Drive Fluid*. Boasts outstanding shear stability and resists extreme pressures. Protects heavily loaded, high-torque gears and bearings against wear for worry-free operation.

Synthetic ATV/UTV Motor Oil
Formulated to deliver upgraded performance for hard-working, hard-ridden ATVs and UTVs. Outstanding severe-service performance allows riders to confidently and safely push their machines to the limit.

AMSOIL products are formulated to meet or exceed the performance requirements set forth by the manufacturers of all applications shown/listed here.
Formula 4-Stroke® Marine Synthetic Motor Oil
Formulated specifically for maximum wear protection in four-stroke gasoline-fueled engines used in marine applications. Certified to meet NMMA FC-W Catalyst Compatible performance specifications. Meets “Warranty Certified” status of engine manufacturers.

- **10W-30 (WCT)**
  Use in boat motors that require API SM • NMMA FC-W Catalyst Compatible (Registration #FC-00358P) • JASO MA

- **10W-40 (WCF)**
  Use in boat motors that require API SM • NMMA FC-W Catalyst Compatible (Registration #FC-00357P) • JASO MA

HP Marine™ Synthetic 2-Stroke Oil (HPM)
Use in two-stroke outboards, personal watercraft and other applications that require TC-W3 or API-TC oils. Excellent for use in Evinrude® E-TEC® engines using factory lean setting. Engineered with custom-designed synthetic base oils to reduce friction and wear. Fortified with MAXDOSE™ system of advanced additives for “super-clean” operation. Low smoke, low odor, low aquatic toxicity. Injector use or 50:1 pre-mix.

- **LOW TOXICITY TESTED**
- **WARRANTY SECURE**

AMSOIL products are formulated to meet or exceed the performance requirements set forth by the manufacturers of all applications shown/listed here.*
Outboard 100:1 Pre-Mix Synthetic 2-Stroke Oil (ATO)
Contains lower-temperature dispersants for water-cooled outboard motors. Recommended for 100:1 mix ratios in normal service (1.3 oz. per gallon).

Use in boat motors that require TC-W3.

Universal Synthetic Marine Gear Lube (AGM)
Provides true marine gear performance, resists foaming and retains extreme-pressure qualities even when subjected to 10 percent water contamination. For use in outboard lower units, sterndrives, V-drives, bow and tunnel thrusters and marine transmissions requiring an SAE 75W-90 or 80W-90 meeting either GL-4 or GL-5 performance standards.

Use in applications that require GL-5, GL-4.

AMSOIL products are formulated to meet or exceed the performance requirements set forth by the manufacturers of all applications shown/listed here.*
INTERCEPTOR® Synthetic 2-Stroke Oil was installed in a 2012 Ski-Doo Renegade X® snowmobile equipped with a Rotax® E-TEC 800R engine. Following a 50-hour severe-duty dyno session designed to simulate a full season of real-world conditions, the engine was disassembled and rated for wear and deposits by a calibrated ASTM rater. Results prove INTERCEPTOR virtually eliminated wear and deposits throughout the entire engine.

The piston rings earned perfect MERITRATING, demonstrating no ring sticking and excellent performance.

The piston skirts exhibited 0.00% scuffing, proving INTERCEPTOR’s outstanding friction-reduction capabilities.

Briggs & Stratton Synthetic 4T Racing Oil (GBS2960)

Formulated by AMSOIL specifically for stock and modified small-displacement air-cooled racing engines used in kart, junior drag, quarter midget and other racing applications and recommended for any four-stroke air-cooled competition engine. Tested and validated by Briggs & Stratton* and AMSOIL.

- Designed to help racers elicit the most horsepower and longest life from their engines.
- Resists the elevated heat common to high-performance racing engines.
- Reduces energy loss due to friction.
- Provides strong anti-wear properties.
- Resists foaming.
- Protects against the formation of corrosion between races and during longer storage periods.

Formula 4-Stroke® Synthetic Small Engine Oil (ASE)

Provides superior protection in the hot-temperature, severe-service operating conditions of both gasoline- and diesel-fueled small engines. Exceeds both 10W-30 multi-grade and SAE 30 straight-grade viscosity requirements. Provides excellent all-season protection and performance. Meets the demands of homeowner, commercial and industrial applications, improving productivity and reducing maintenance costs through superior engine protection.

Riding and Push Lawnmowers • Snowblowers • Generators • Pumps • Welders • Skid-Steers • Compressors • and more

Use in equipment that requires API SL, SJ, SH, SG • API CF, CD • JASO MA/MA2 • ISO-L-EMA2

Formula 4-Stroke® Power Sports Synthetic Motor Oil (AFF)

Specially formulated to provide serious protection and performance in recreational four-stroke motors, including ATVs and snowmobiles. Broad 0W-40 viscosity rating provides superior protection in both hot and cold temperature extremes.

Use in ATVs and snowmobiles that require API SG, SJ, SL/CF • JASO MA/MA2 • ISO-L-EMA2

Formula 4-Stroke® Synthetic Scooter Oil (ASO)

Formulated to meet the special needs of today’s high-tech air- and water-cooled four-stroke motorized scooters, offering advanced wear protection and friction reduction for longer equipment life and cooler operating temperatures. Friction modifier-free formulation ensures wet-clutch compatibility and smooth clutch operation. Special anti-corrosion additive package provides long-term protection during periods of inactivity and storage.

Use in scooters that requires API SG, SL/CF • JASO MA/MA2 • ISO-L-EMA2

*All trademarked names are the property of their respective owners and may be registered marks in some countries. There is no affiliation or endorsement claim, express or implied, made by their use.
Shock Therapy® Suspension Fluid
Formulated for maximum stability and performance in high-performance fork and shock applications. Effectively controls friction and heat and significantly reduces wear and scuffing. Viscosity remains constant and foam and aeration are kept to a minimum, limiting shock fade and inconsistent dampening. Offers superior performance in temperature extremes.

- **Lightweight #5 (STL)**
  Use in applications that demand quick rebounds under extreme temperatures.

- **Medium #10 (STM)**
  Use in applications that require more dampening and slower rebounds.

**Premium Synthetic Diesel Oil**
The premium choice for model-year 2007 and newer diesel engines equipped with advanced emissions systems. Also recommended for pre-2007 diesel engines. Incredibly shear-stable to withstand the stress of heat, soot and acids and help prevent deposits, wear and corrosion. Broad viscosity range offers superior protection over a wide temperature range. Resists oil consumption. Protects for up to three times the original equipment manufacturer’s drain interval recommendation in diesel applications, not to exceed MILESHOURSORONEYEAR

14
OE Synthetic Diesel Oil
Provides excellent protection and performance in both on- and off-road diesel engines for the original equipment manufacturer’s recommended drain interval. Suitable for both modern and older diesel applications. Exceeds the higher performance demands of modern engines and withstands the stress of heat, soot and acids to help prevent deposits, wear and corrosion.

- **15W-40 (OED)**
  Use in vehicles that require API licensed CJ-4/CI-4/CF-3/CF-2/SM/SL/SL-D • ACEA A3/B3, E2, E3, E5, E7 • JASO DH-1 • Mack EO-M, EO-N • DDC 938121 • CAT ECF-1-a, ECF-2 • Cummins CES 20076, 20077, 20078 • Volvo VDS-2, VDS-3 • MB 228.1, 228.3, 229.1 • MAN 3271, 3275 • MTU Type I, II, 2.1

- **10W-30 (OEC)**
  Use in vehicles that require API licensed CJ-4/CI-4/CF-3/CF-2/SM/SL-D • ACEA A3/B3, E2, E3, E5, E7 • JASO DH-1 • Mack EO-M, EO-N • DDC 938121 • MAN 3271, 3275 • MTU Type I, II, 2.1

**Series 3000 5W-30 Synthetic Heavy Duty Diesel Oil (HDD)**
Engineered for on- and off-road diesel engines not equipped with diesel particulate filters (DPF). Also for all gasoline engines recommending API SL specifications, including turbocharged vehicles. Delivers outstanding wear protection. Ideal for exhaust gas recirculating (EGR) engines. Note: For 2007 and newer on-road diesel vehicles, see Premium Synthetic Diesel Oil on pg. 14 and OE Synthetic Diesel Oil on pg. 15.

- **15W-40 Synthetic Heavy Duty Diesel and Marine Oil (AME)**
  Engineered for on- and off-road diesel engines not equipped with diesel particulate filters (DPF). High 12 TBN controls acids from combustion blow-by and exhaust gas recirculation (EGR). High levels of detergent and dispersancy additives control soot thickening, oxidation and wear. Provides up to three times the original equipment manufacturer’s drain interval recommendation in diesel applications, not to exceed 50,000 miles/600 hours or one year, whichever comes first. Note: For 2007 and newer on-road diesel vehicles, see Premium Synthetic Diesel Oil on pg. 14 and OE Synthetic Diesel Oil on pg. 15.

- **10W-30/SAE 30 Synthetic Heavy Duty Diesel Oil (ACD)**
  Exceeds both 10W-30 multi-grade and SAE 30 straight-grade viscosity requirements. Engineered for on- and off-road diesel engines not equipped with diesel particulate filters (DPF). Also recommended for gasoline engines requiring API SL or previous specifications. Excellent for heavy equipment and personal vehicles. Extends drain intervals. Note: For 2007 and newer on-road diesel vehicles, see Premium Synthetic Diesels Oil on pg. 14 and OE Synthetic Diesel Oil on pg. 15.

**Oil Analysis**
AMSOIL and its subsidiary OIL ANALYZERS INC.® provide state-of-the-art oil analysis service, allowing customers to monitor engine condition and maximize oil drain intervals. Customers receive detailed analysis reports via fax, email and online reporting. Expert consultation of oil condition is easily accessible by phone (877-458-3315) or email (info@oaitesting.com). Coolant and diesel fuel analysis is also available. For more information, see www.oaitesting.com.

Signature Series Synthetic Automatic Transmission Fluid

Provides reserve protection in fleet vehicles, heavy-duty pickups, work trucks and other severe-service applications that quickly break down other lubricants. Promotes maximum transmission performance and life by protecting against formation of harmful sludge in hot-running automatic transmissions. Retains viscosity in severe service to guard against wear to gears, clutch plates and other critical components. Outstanding cold-flow and frictional properties. Follow the vehicle manufacturer’s normal-service drain interval in normal service or double the vehicle manufacturer’s severe-service drain interval in severe service. Fuel-Efficient Synthetic Automatic Transmission Fluid is engineered to exceed the requirements of GM®, Ford®, Toyota* and other manufacturers where low-viscosity oil is required.

- **Multi-Vehicle (ATF)**
  Use in applications that require Ford MERCON®, MERCON V, ESP-MIC166-H, FNR5, MCV284-A • GM DEXRON® III, DEXRON II, Auto Track 4 • Chrysler ATF+4*, MOPAR® A589RC, 6809195AA • Allison C-4, TES-289 • BMW 704E2, 822BT, LA 2634, LT 7114

OE Synthetic Automatic Transmission Fluid

Provides outstanding protection for passenger-car/light-truck transmissions throughout original equipment manufacturer (OEM)-recommended drain intervals. Resists wear to the transmission’s valve body, gears, clutch plates and other vital parts. Guards against the harmful effects of thermal breakdown, resisting varnish formation that can stick valves and threaten transmission performance and life. Resists thickening and flows quickly for fast, reliable shifts during cold starts and maximum fuel efficiency. OE Fuel-Efficient Synthetic Automatic Transmission Fluid is engineered to exceed the requirements of GM, Ford, Toyota and other OEMs where low-viscosity oil is required.

- **Multi-Vehicle (OTF)**
  Use in applications that require Ford MERCON®, MERCON V, ESP-MIC166-H, FNR5, MCV284-A • GM DEXRON® III, DEXRON II, Auto Track 4 • Chrysler ATF+4*, MOPAR® H30C, 6809195AA • Allison C-4, TES-289 • BMW 704E2, 822BT, LA 2634, LT 7114
  - Honda ATF-Z1 • Hyundai/Kia SP-IV and SP-III, Red • Isuzu K17 • JASO 1A • AWS 3209, 3314, 3317 • MAN 339F, 339 V1, 339 V2, 399 Z1, ZZ & Z3 • Mazda ATF-M III, ATF-MV, ATF-F1 • Mitsubishi SPF-I, SPF-IV, SPF-V, SPF-V1 • Nissan 4 • Saab 93 165 147 • Shell M 137-6, M 137-5, M 137-6L, M 121-5 • Toyota W5 • Volvo 31266774 • Volkswagen/Audi G 052 162, G 052 990, G 055 025
  
  **Note:** AMSOIL warrants the use of this product for Chrysler ATF+4* applications above -38°F. Product does not meet the cold temperature requirement of ATF+4 at -40°F. For warranty information, visit www.amsoil.com/warranty.aspx.

- **Fuel-Efficient (OTL)**
  Use in applications that require Ford MERCON® LV • GM DEXRON® VI • Klein-Warner AW1 • BMW 83 22 0 142 516, 83 22 2 152 426 • ISDN (ATF) • Honda DW1 • Hyundai/Kia SP-IV and SP-III, Red • Isuzu K17 • JASO 1A • AWS 3209, 3314, 3317 • MAN 339F, 339 V1, 339 V2, 399 Z1, ZZ & Z3 • Mazda ATF-M III, ATF-MV, ATF-F1 • Mitsubishi SPF-I, SPF-IV, SPF-V, SPF-V1 • Nissan 4 • Saab 93 165 147 • Shell M 137-6, M 137-5, M 137-6L, M 121-5 • Toyota W5 • Volvo 31266774 • Volkswagen/Audi G 052 162, G 052 990, G 055 025

- **Synthetic CVT Fluid**
  Provides outstanding protection and performance for belt- and chain-type continuously variable transmissions (CVT) throughout vehicle manufacturer-recommended drain intervals. Exceptional metal-to-metal frictional properties help prevent belt and chain slippage. Resists wear and oxidation that threaten transmission performance and life. Superior wet-clutch performance for outstanding anti-shudder durability and reduced noise and vibration.

  Use in belt- and chain-type CVTs that require Audi/VW TL 52180, G 052 162, G 052 990 • BMW 822B 0 138 376, 822B 0 429 Z4, 122, 399A • Daihatsu ArmA CVT-F, CVT-DE, Dodge/Jeep NS-2, CVT-F, MOPIPF CVT-F • Ford CVT32, CVT30, WSS-M6OC93-A, Motorcraft® XT7-QCT, MERCON® CV • GM Saturn DEX-CVT, CVTF J1-Green • Honda HIMF, HCF-2 • Hyundai/ Kia SP-IV, SP-IV, SP-IV, SPF-I, SPF-IV, SPF-V, SPF-V1 • Mazda CVT-3320, CVT-236.20 Mini- Cooper EML, 799A, ZF CVT V1, Mitsubishi DiaQueen CVT-J1, CVTF-J4 • Nissan NS-1, NS-2, NS-3 • Punch EZL, 799A • Shell Green 1V • Subaru e-CVT, CVTF1 • Lineartronic® CVT, K042510710, CVT30, CVT32, NS-2, CVTF Green1, CVTF Green2 • Toyota/Lexus TC, FE

*All trademarked names are the property of their respective owners and may be registered marks in some countries. There is no affiliation or endorsement claim, express or implied, made by their use.*
- **Synthetic Manual Transmission and Transaxle Gear Lube (MTG)**
  Provides improved internal component protection. Formulated with extreme-pressure additives and advanced frictional qualities that provide smooth shifts while protecting gears, bearings and seals. Non-corrosive to yellow metals.
  
  Use in applications that require API GL-4 • ZF TE-ML 03B, 17A, MB 235.5 & MAN 341-22 (formerly MAN 341.11), • Synchronized manual transmissions and transaxles that require 75W-85, 75W-90 or 80W-90 API GL-4 Gear Lube • NV 4500 Transmissions • GM Part #12346190 • Chrysler Part #4874459 • Dodge Chrysler Infiniti, Kia, Lexus, Mazda, Mitsubishi, Nissan, Suzuki, Toyota & Volkswagen models requiring GL-4

- **Synthetic Synchronesh Transmission Fluid (MTF)**
  Specifically designed for manual transmissions and transaxles with synchromesh systems that require light viscosity, non-extreme-pressure fortified oil. Advanced additive technology provides smooth shifting without grinding or bump shifting while providing excellent gear and bearing protection. Outstanding anti-wear and anti-foam properties and non-corrosive to yellow metals. Not for use in engines or wet clutches.
  
  Use in applications that require New Venture NV T360, NV1500, NV2500, NV3500, NV4500 & NV5600 • Tremeq T4, T5, T18, T76, TK5000, TK6000, TR3550 (GM Vehicles) & TR3550 • Honda Genuine MTF • GM Part #12345349, #12345577, #12347916 & #1052931 • Chrysler Part #4874464 & #4874465 • GM Spacs #9985648, #9986105 & #9985556 • Chrysler Spacs MS-9224 & MS-9417 • MTF-94 & Texaco MTR Fluids

- **Super Shift® Racing Transmission Fluid (ART)**
  Specially formulated for high-horsepower, high-torque conditions. Designed to provide quick, solid shifts and prevent automatic transmissions from slipping, helping racers improve on elapsed times. Delivers exceptional friction reduction and reduced wear so clutch plates and transmissions last longer. Provides maximum torque transfer and brake power while resisting oxidation and thermal breakdown.
  
  Use in transmissions that require Allison C-4 • Ford Type F

- **Torque-Drive® Synthetic Heavy-Duty Automatic Transmission Fluid (ATD)**
  Engineered to eliminate the deficiencies common to conventional petroleum ATFs, AMSOIL Torque-Drive provides superior performance and protection against thermal and oxidative degradation, sludge and varnish formation and viscosity shear down. Ideal for heavy equipment transmissions.
  
  Use in transmissions that require Allison C-4, TES-295, TES-389; Ford MERCON® V; GM DEXRON® II; MAN 339 Type V-1, 339 Type V-2, 339 Type V-2, 339 Type V, 339 Type V-2, 339F, MB 236.91, 236.10; Voith 55.6335, 55.6336; Volvo 97340, 97341; ZF TE-ML 03D, TE-ML 04D, TE-ML 14A, TE-ML 14B, TE-ML 14C, TE-ML 17C, TE-ML 20B, TE-ML 20C

- **Synthetic Tractor/Hydraulic Transmission Oil (ATH)**
  Formulated for combinations of transmissions, hydraulic systems, final drives, power take-off systems and wet brakes, including hydrostatic lawn mower transmissions. Exceeds the most demanding all-weather specifications of both Ford New Holland® FNHA-2-C-200 & 2-C-201 and John Deere® J20C & J20D, as well as most other tractor hydraulic/ transmissions, eliminating the need for seasonal oil changes.
  
  Use in hydraulic systems that require SAE SW-30

*All trademarked names are the property of their respective owners and may be registered marks in some countries. There is no affiliation or endorsement claim, express or implied, made by their use.*
SAE 50 Long-Life Synthetic Transmission Oil (FTF)
Specially formulated to meet the demanding requirements of manual transmissions found in high-torque, heavy-duty line-haul trucks and other commercial applications. Its synthetic base stock and premium additives help reduce gear and bearing wear, improve shifting and extend transmission life throughout drain intervals of up to 500,000 miles/five years.

Use in transmissions that require Eaton PS-164 Rev. 7 • API GL-1 and MT -1 • Navistar/International TMS 6816 • Mack TO-A Plus • ZF Freedomline • Mentor 0-81 • Rockwell/Eaton/Fuller CD-50 (PS-081)

Synthetic Powershift Transmission Fluid
Specifically formulated for heavy-duty powershift transmissions. Provides outstanding friction performance for enhanced clutch engagement. Formulated to prevent slippage and glazing. Shear-stable and anti-wear fortified. Protects gears and bearings. Resists high-temperature oxidation, varnish and sludge formation. Superb cold-flow properties. Extended drain interval capable. Recommended for heavy-duty service found in commercial and earth-moving applications as well as lighter-duty transmissions requiring the listed specifications. SAE 30 & 50 are also excellent for manual transmissions.

SAE 10W (CTG)
Use in transmissions that require CAT TO-4 • Allison C-4 • Komatsu KES 07.868.1

SAE 30 (CTJ)
Use in transmissions that require CAT TO-4 • Allison C-4 • Komatsu KES 07.868.1

SAE 50 (CTL)
Use in transmissions that require CAT TO-4 • CD-50 • Komatsu KES 07.868.1

Severe Gear® Synthetic EP Gear Lube
Specifically engineered for high-demand applications, including trailer towing, heavy hauling, 4x4 off-road driving, commercial use and racing. Superior lube film strength combined with extra additives protects gears and bearings from scoring and wear. Resists high heat and possesses excellent cold-flow properties. Outperforms all conventional gear oils. Recommended for all types of vehicles such as turbo-diesel pickups, SUVs, autos, trucks, heavy equipment and motor homes. Compatible with most limited-slip differentials.

75W-90 (SVG)
Top fuel efficiency and cold-temperature performance
Use in differentials that require API GL-5/MT-1 • MIL-PRF-2105E • MACK GO-J • Dana SHAES 234 (Eaton PS-037)

75W-110 (SVT)
Extra viscosity protection without sacrificing fuel efficiency
Use in differentials that require API GL-5/MT-1 • MIL-PRF-2105E • MACK GO-J • Dana SHAES 234 (Eaton PS-037)

75W-140 (SVO)
Maximum viscosity protection for severe-duty applications
Use in differentials that require API GL-5/MT-1 • MIL-PRF-2105E • MACK GO-J • Dana SHAES 234 (Eaton PS-037)
Severe Gear® EP Synthetic Racing Gear Lube
High-viscosity, extreme-pressure gear lube engineered for the demands of severe racing conditions, including off-road truck racing, rock racing, rock crawling, tractor pulling, funny car racing and dragster racing. Protects gears from shock-loading and tire shake. Resists sling-off from G-forces and high speeds. Effectively clings to gears, promoting cooler operating temperatures and extending gear and bearing life.

- **SAE 190 (SRN)**
  Use in differentials that require API GL-5/MT-1
- **SAE 250 (SRT)**
  Use in differentials that require API GL-5/MT-1

Long Life Synthetic Gear Lube
Specifically engineered for extended drain intervals up to 500,000 miles as set by equipment manufacturers for over-the-road trucks. Protects against wear and improves equipment life. Excellent all-season summer and winter performance. Outperforms all conventional gear oils. Also excellent for passenger cars and trucks. Compatible with most limited-slip differentials.

- **75W-90 (FGR)**
  Use in differentials that require API GL-5/MT-1 • MIL-PRF-2105E • MACK GO-J+ • Dana SHAES 256 (Eaton PS-163)
- **80W-140 (FGO)**
  Use in differentials that require API GL-5/MT-1 • MIL-PRF-2105E • MACK GO-J+ • Dana SHAES 256 (Eaton PS-163)

- **80W-90 Synthetic Gear Lube (AGL)**
  High-quality replacement for applications specifying SAE 80W-90 conventional gear lube. Synthetic construction provides improved cold-flow properties, high viscosity index, superior heat resistance and excellent wear protection.
  Use in differentials that require API GL-5/MT-1 • MIL-PRF-2105E • MACK GO-J+ • Dana SHAES 234 (Eaton PS-037)

- **Slip Lock® Differential Additive (ADA)**
  Formulated to eliminate gear-housing chatter in cars, trucks and SUVs equipped with limited-slip differentials. Formulated for use with both synthetic and petroleum gear lubricants and safely replaces manufacturer-recommended friction modifiers. One tube treats differential capacities of two to four quarts.
  **Note:** AMSOIL synthetic gear lubes do not require the use of this additive. However, not all differentials respond the same and if chatter is noticed, the addition of AMSOIL Slip Lock will eliminate it.
**Ea® Oil Filters (EaO/Ea15K)**

AMSOIL Ea Oil Filters rank among the highest efficiency filters available to the auto/light-truck market, providing a filtering efficiency of 98.7 percent at 20 microns. Featuring advanced full-synthetic technology, Ea Oil Filters provide greater efficiency, capacity and durability than cellulose filters, extending engine and filter life and reducing engine wear. When used in conjunction with AMSOIL synthetic motor oil, AMSOIL Ea Oil Filters are guaranteed for extended service life:

- Ea Filters designated with product code Ea15K are recommended for 15,000 miles/one year, whichever comes first, in normal or severe service.
- Ea Filters designated with product code EaO are recommended for 25,000 miles/one year, whichever comes first, in normal service or 15,000 miles/one year, whichever comes first, in severe service.

**Which filter do I need?**

Call 1-800-956-5695 (Monday-Friday, 7 a.m. - 5 p.m. Central Time) or contact the AMSOIL Dealer listed on the back of your catalog (if one is listed) to determine the appropriate filter for each application. When AMSOIL Ea Oil Filters are used with a motor oil other than AMSOIL motor oil the filter should be changed according to the vehicle manufacturer recommendation.

**More Premium Ea® Filters**

AMSOIL offers a variety of specialty Ea oil and air filters constructed with premium synthetic technology. Call (715) 399-TECH (Monday-Friday, 8 a.m. - 5 p.m. Central Time) for application information.

---

**Ea Heavy-Duty Extended-Life Oil Filters (EaHD)**

Provide excellent filtering efficiency and high contaminant capacity for heavy-duty on- and off-road diesel and gasoline applications. Provide extended service intervals that coincide with the maximum drain intervals of AMSOIL synthetic motor oils.

**Ea Bypass Filters (EaBP)**

High-efficiency bypass filters effectively remove minute dirt particles and soot. Provides an efficiency rating of 98.7 percent at two microns.

**Universal Single-Remote Bypass System (BMK21)**

Working in conjunction with the engine’s full-flow oil filter, the AMSOIL Ea Bypass Filter operates by filtering oil on a “partial-flow” basis. For use with EaBP90, EaBP100 or EaBP110 Bypass Filters.

**DUAL-GARD® Bypass System (BMK22)**

Links two AMSOIL Bypass Filter elements together for engines with sump capacities over 20 quarts. Allows fast and simple servicing with spin-on elements.

**Dual Remote Bypass Systems (BMK23, BMK26, BMK27, BMK28, BMK18)**

Versatile system combines full-flow and bypass oil filtration on a single, easy-to-install mount. All installation parts are included.

**Heavy-Duty Bypass System (BMK30)**

Maximum filtration performance for virtually all heavy-duty diesel applications, including Class 6, 7 and 8 heavy-duty trucks, off-road equipment, buses, generators, marine engines, logging and agricultural equipment.

**Ea Universal Air Induction Filters (EaAU)**

Fit most popular aftermarket air intake systems on the market, providing improved cold air intake and excellent efficiency for superior engine protection and performance. Cleanable and remain serviceable for long filter life.

**Ea Racing Air Filters (EaAR)**

Specially designed for carbureted racing and street rod applications, providing higher dirt-holding capacity, lower pressure drop and greater airflow and efficiency. Cleanable and remain serviceable for long filter life.

**Ea Pre-Filters (EaPF)**

Constructed of woven mesh and designed to fit over the top of Ea Racing and Air Induction Filters, preventing large particles from sticking to them and blocking airflow. Easily removed and shaken free of debris in seconds. Cleanable and remain serviceable for up to one year.

**Ea Motorcycle Oil Filters (EaOM)**

Designed for motorcycles, ATVs and four-stroke personal watercraft, snowmobiles and outboard motors, stopping smaller dirt particles, offering less restriction, extending equipment and filter life and improving performance. Fluted for easy removal. Available in black or chrome (as available).
DOMINATOR® Synthetic Racing Grease (GRG)
Ultimate protection for high-speed, high-temperature, extreme-pressure applications. Maximizes power, bearing efficiency and fuel efficiency, while delivering superior wear protection and friction reduction for wheel bearings and chassis components in racing vehicles operated on snow, dirt, water or pavement.
Use in applications that require NLGI No. 2, GC/LB

Synthetic Polymeric Off-Road Grease
Formulated to resist impact/pound-out and provide outstanding protection and performance in the extreme environments faced in heavy-duty off-road equipment. Provides exceptional adhesion and cohesion properties, resists water washout and stays in place longer, providing outstanding lubrication over extended service intervals, reducing maintenance costs and extending equipment life.
NLGI No. 1 (GPOR1)
NLGI No. 2 (GPOR2)

Synthetic Polymeric Truck, Chassis and Equipment Grease
Delivers excellent wear protection and performance in the severe-service, extreme-pressure environments faced in medium- and heavy-duty over-the-road trucks and equipment. Clings tenaciously to metal surfaces, staying in place to seal out water and contaminants and provide a protective barrier between metal components. Extended service life reduces the need for frequent re-application (or requires less grease at each servicing), reducing maintenance costs and increasing equipment life.
NLGI No. 1 (GPTR1)
NLGI No. 2 (GPTR2)

Synthetic Multi-Purpose Grease (GLC)
Reduces friction and wear in high-speed/high-temperature components such as automotive wheel bearings and electric motors. Keeps components running clean and trouble-free for outstanding performance and long life.
Use in applications that require NLGI No. 2, GC/LB

Synthetic Water-Resistant Grease (GWR)
Resists water washout and corrosion. Maximum protection for boat trailer wheel bearings, outboard motors, ATVs, UTVs and other components frequently exposed to water.
Use in applications that require NLGI No. 2, GC/LB

X-Treme Synthetic Food Grade Grease (GXC)
An ultra-premium lubricant designed for high levels of protection in food and pharmaceutical industry equipment. NSF-approved (formerly USDA H-1) for incidental contact with food. Excellent high-temperature and extreme-pressure protection.
Use in applications that require NLGI No. 2

Synthetic Fifth-Wheel Grease (FWG)
Delivers long service life and outstanding protection against wear and corrosion in the heavily-loaded, harsh operating environments specific to fifth-wheel hitches used in trucking and trailer applications.
Use in applications that require NLGI No. 2

Arctic Synthetic Grease (GEC)
Provides extreme low-temperature pumpability and superior protection for equipment operating in harsh climates where temperatures drop well below freezing, ensuring superior load and wear protection where conventional greases are ineffective.
Use in applications that require NLGI No. 1
Spray Grease (GSP)
Effectively reduces friction and wear, keeping components running clean and trouble-free for outstanding performance and long life. Applies quickly and evenly and is ideal for greasing hard-to-reach equipment, including hinges, springs and other common applications.

Semi-Fluid Synthetic EP Grease (GSF)
Formulated with high-viscosity ISO-460 synthetic base oil and a sophisticated additive package, providing unparalleled protection against wear. Ideal for leaky gear boxes in industrial and fleet applications, centralized lubrication systems and for use in applications that are difficult to service. Primarily used in grease-filled cases where conventional semifluid greases do not provide adequate lubricant life or protection.
*Use in applications that require NLGI #00*

Synthetic High Viscosity Lithium Complex Grease (GVC)
Lithium complex thickened grease blended with premium ISO-320 synthetic base oil. Fully compounded with additives providing EP protection, oxidation resistance and corrosion protection. Excellent for use in heavy-duty industrial and off-road applications where equipment is working under adverse conditions such as exposure to environmental elements, slow, heavily-loaded applications and shock-loading conditions.
*Use in applications that require NLGI #2*

Semi-Synthetic Bar and Chain Oil (ABC)
Clings to metal surfaces better than other oils. Delivers outstanding lubrication and protection.

Synthetic Compressor Oil
Provides outstanding protection and performance in rotary screw, rotary vane, reciprocating and other compressor applications. Compatible with PAO-, ester- and petroleum-based compressor oils. Not compatible with glycol- or silicone-based compressor oils.

ISO 32, SAE 10W (PCH)  ISO 68, SAE 30 (PCJ)
ISO 46, SAE 20 (PCI)  ISO 100, SAE 30/40 (PCK)

Sirocco® Synthetic Compressor Oil (SEI)
Provides superior protection and performance in rotary screw compressors. Increases operating efficiency, reducing money spent on energy, repair and maintenance costs. Recommended as a direct replacement for PAG compressor oils such as Sullair Sullube 32 and Ingersol Rand SSR Ultra Coolant. Compatible with PAG-, PAO-, ester- and petroleum-based compressor oils. Not recommended for use with silicone base fluids.
*Use in applications that require ISO 32/46*

Synthetic Anti-Wear Hydraulic Oil
Protects hard-working hydraulic systems from the stress of high-pressure, high-load and heavy-duty operations. Remains fluid in cold temperatures for immediate cold-weather flow. Special anti-wear additives and rust inhibitors provide optimum protection to expensive equipment. Provides maximum efficiency for reduced fuel usage and increased production.

ISO 22 (AWG)  ISO 32 (AWH)  ISO 46 (AWI)

Synthetic Multi-Viscosity Hydraulic Oil
Blend of high viscosity index base oils and performance additives provides all-season protection and reliable operation in most types of hydraulic systems. Proven wear resistance and varnish control deliver maximum hydraulic system performance and life. Additionally tailored to promote energy efficiency and foam suppression.

ISO 22 (HVG)  ISO 32 (HVH)  ISO 46 (HVI)  ISO 68 (HVJ)
P.i.® (API)
P.i. ranks among the most potent gasoline additives available today. As a concentrated detergent, it is outstanding in cleaning combustion chamber deposits, intake valve deposits and fuel injector deposits, eliminating the need for expensive fuel injector cleaning procedures. It is ideal for use prior to emissions inspections, and it helps maintain peak engine efficiency, fuel economy, power and drivability in newer low-mileage engines. In engines with accumulated deposits, P.i. provides improved fuel mileage up to 5.7%, reduced emissions, restored power and performance, reduced need for higher octane fuel, reduced carbon rap and preignition, better drivability and smoother operation after only one tank of gasoline. Excellent for both gasoline direct injected (GDI) and port fuel injected engines. Treat one full tank of gas every 4,000 miles (100 hours of service for marine, stationary and off-road gas-powered engines). One bottle treats one full tank of gas up to 20 gallons.

Quickshot® (AQS)
Formulated to thoroughly clean varnish, gums and insoluble debris in two- and four-stroke gasoline-powered small engines and powersports equipment fuel systems, restoring peak performance. Effectively addresses performance issues related to ethanol, water and dirty pump gas. Stabilizes fuel between uses and during short-term storage periods.

Motorcycles • Snowmobiles • Boats • ATVs • Edgers • Mowers • Snowblowers • Chainsaws • Generators • Farm & Construction Equipment • and more

Phase separation is when ethanol/water mixtures fall to the bottom of fuel tanks and containers, leading to lean-burn conditions.

Quickshot helps keep water molecules dispersed to prevent phase separation.

Degraded fuel can present a major maintenance issue in motorcycle engines, forming varnish, gum and insoluble debris that clog carburetors, fuel injectors and fuel filters. Carbon buildup can form on the tops of pistons resulting in pre-ignition, rough idling and poor throttle response. Fuel-related problems are only expected to intensify in the coming years as the ethanol content in pump gasoline continues to increase.

AMSOIL Quickshot® (AQS) is a premium fuel additive formulated to thoroughly clean and restore peak performance in motorcycle and powersports equipment fuel systems. It also stabilizes fuel between uses and during short-term storage periods.
Gasoline Stabilizer (AST)
Formulated to keep fuel from deteriorating during storage. Reduces the oxidation process to help prevent varnish and gum buildup in gasoline, which can clog injectors, stick floats and cause poor engine performance. Treat rate is 1 ounce with every 2.5 gallons of fuel. One bottle treats 40 gallons.

Engine Fogging Oil (FOG)
Superior film retention provides stored equipment with long-term protection against corrosion and dry starts, extending engine life and reducing operating expenses.

DOMINATOR® Octane Boost (AOB)
Improves the performance of all two- and four-stroke gasoline-fueled engines. Increases octane up to four numbers. Maximizes power, reduces engine knock and improves ignition and engine response. Helps fuel burn cleaner and removes carbon deposits. Excellent as a lead substitute at same treat rates in collector automobiles, older off-road equipment, 4x4 off-road vehicles and gasoline racing vehicles. One bottle treats 15 gallons.

Motorcycle Octane Boost (MOB)
Increases octane up to three numbers for maximum power and efficiency in motorcycles. Designed to improve startup performance and eliminate engine ping or knock for increased power at low-rpm operation. Treat rate is 1.3 oz. per gallon of fuel. One bottle treats 4 to 6 gallons.

Diesel Injector Clean (ADF)
Total system cleaner and lubricity improver for all types of heavy- and light-duty diesel engines, including high-pressure common-rail (HPCR) designs. Outstanding formula cleans all deposits, including carbon deposits on the nozzle and internal diesel injector deposits (IDID) on the pintle. Formulated with ultra-low-sulfur diesel fuel (ULSD) in mind, it effectively cleans fuel injectors and combustion chamber for improved efficiency and better sealing. Minimizes soot-loading. Improves the oxidation and thermal stability of diesel fuel, improves fuel economy by up to 4.5 percent, restores horsepower and protects against water contamination. Compatible with all types of exhaust emission systems, including diesel particulate filters (DPF). Also recommended in heating-oil furnace applications.

Diesel Cool Flow (ACF)
Recommended for low-temperature applications below 40°F. Effectively modifies wax crystal formation at low temperatures to depress diesel fuel pour point and improve cold-flow filtration properties. Lowers the cold filter plugging point (CFPP) by up to 20°F (15°C) in ultra-low-sulfur diesel fuel (ULSD). Contains jet-fuel-type deicer to help prevent ice formation in fuels contaminated with water. Compatible with diesel particulate filters (DPF). Two ounces treat 5 gallons of fuel. One bottle treats 40 gallons.

Diesel Injector Clean + Cold Flow (DFC)
Outstanding formula cleans all deposits, including carbon deposits on the nozzle and internal diesel injector deposits (IDID) on the pintle. Combines the superior detergency and lubricity of AMSOIL Diesel Injector Clean with the excellent anti-gelling properties of AMSOIL Diesel Cool Flow in one convenient package without sacrificing performance. Two ounces treat five gallons of fuel. One bottle treats 40 gallons.

Diesel Cetane Boost (ACB)
Raises the cetane number of diesel fuel up to seven points for maximum horsepower, increased fuel economy and easier starts in all diesel engines. One ounce treats up to 10 gallons of fuel. One bottle treats up to 160 gallons.

Five-gallon pails and 55-gallon drums are filled to 98 percent of packaging capacity to allow for product expansion in warm temperatures.
Diesel Recovery (DRC)
Quickly and effectively dissolves the wax crystals that form when diesel fuel surpasses its cloud point. Quickly liquefies gelled diesel fuel, thaws frozen fuel filters and reduces the need for a new filter, saving money and allowing the operator to continue driving with minimal downtime. Performs well in all diesel fuels, including ULSD, off-road and biodiesel. Alcohol-free and non-corrosive. One bottle treats 30 gallons.

Power Foam® (APF)
Removes stubborn carbon deposits, varnish and gum in combustion intake systems. Helps restore startability and engine smoothness, while maximizing fuel economy and horsepower for improved overall engine performance. Especially effective in powersports, small-engine and carbureted-vehicle applications.

Heavy-Duty Degreaser (ADG)
Formulated with powerful and fast-acting solvents, attacking petroleum-based grime on a molecular level to loosen its hold on metal, concrete, engines and other surfaces. Active d’limonene (citrus) formula makes cleaning easy and leaves a clean scent.

Silicone Spray (ALS)
Effectively lubricates and protects rubber, nylon, plastics, upholstery, vinyl, wood, cardboard, fiberglass and other nonmetal surfaces with a dry lubricating film. Helps prevent the cracking and drying of rubber, locks-out moisture and will not attract dust or dirt. Special nonstaining formula is excellent for waterproofing and protecting leather boots, shoes, jackets, suede and more.

Metal Protector (AMP)
Disperses water and protects metal surfaces from rust and corrosion. Penetrates existing rust build-up and loosens bolts. Also dries wet electrical systems. A must for any home or shop. Keep a can in your vehicle too.

Heavy Duty Metal Protector (AMH)
Heavy-duty spray lubricant fortified with special rust and corrosion inhibitors. Penetrates and adheres to metal surfaces, leaving a dry, long lasting wax-like protective coating. Dries completely and doesn’t attract dust. Works well as an undercoat, preventing rust and eliminating squeaks.

Synthetic Air Tool Oil (AIR)
Effectively lubricates rotary and piston-type air-tool bearings and motors, while managing moisture and conditioning rubber and plastic seals and O-rings. Ensures air tools run smooth, reduces wear and helps tools last for years, even generations.

Chain Lube (ACL)
Engine and Transmission Flush (FLSH)
Helps restore operating efficiency, increase fuel economy and reduce emissions in gasoline and diesel engines and automatic transmissions. Its potent, detergent-based formula dissolves and disperses sludge, varnish and deposits, promoting lower operating temperatures and reduced oil consumption. More environmentally friendly than solvent-based products, providing safer cleaning action and easy disposal with waste oil.

DOMINATOR® Coolant Boost (RDCB)
Provides quick and effective heat transfer inside radiator and cylinder heads, resulting in reduced operating temperatures, more efficient operation, increased horsepower and quicker engine warm-up times. Robust mixture of corrosion inhibitors effectively protect the radiator, heater core, water pump, cylinder heads, engine block and intake manifold from the damaging effects of corrosion. Recommended with both racing applications using straight water coolant and automotive applications using coolant/water mixtures.

● Propylene Glycol Antifreeze & Coolant (ANT)
For use in heavy-duty applications and all passenger cars and light trucks. Combines the benefits of biodegradability, low toxicity and all-climate protection. Offers protection up to 600,000 miles, 12,000 hours or six years, whichever comes first, in heavy-duty applications and 150,000 miles or five years, whichever comes first, in passenger cars and light trucks. Fully formulated: DOES NOT require the use of supplemental antifreeze/coolant additives (SCAs) or extenders. 100 percent concentrate; must be mixed with water. Compatible with all other major antifreeze/coolant products.

Passenger Car/Light Truck Antifreeze & Coolant (ANTPC)
For use in all passenger cars and light trucks. Provides maximum cooling-system protection in extreme temperatures and operating conditions. Offers protection up to 150,000 miles or five years, whichever comes first. Engineered to exceed original equipment manufacturer (OEM) requirements. Pre-mixed 50/50 with high-purity water. Compatible with all other major antifreeze/coolant products.

● Heavy-Duty Antifreeze & Coolant (ANTHD)
Provides maximum cooling-system protection in extreme temperatures and operating conditions. Offers protection up to 600,000 miles, 12,000 hours or six years, whichever comes first, in heavy-duty applications. Fully formulated: DOES NOT require the use of supplemental coolant additives (SCAs) or extenders. Pre-mixed 50/50 with high-purity water. Compatible with all other major antifreeze/coolant products.

Use in radiators that require ASTM D4985, D6210 • Case IH • Caterpillar EC-1 • Cummins CES14603 • Detroit Diesel 7SE298, 93K217 • Fiat Professional: Fiat Truck • Ford WSS-M97B51-A1 • Freightliner 48-22980 • John Deere 9660-5 • Mack Truck OHV • MTE MTL5046, 5049 • New Holland • PACCAR: Kenworth, Peterbilt • TMC of ATA RP329, 330, 338 • US Military CID A-A-52624A
High Performance Brake Fluid
Provides superior performance in auto/light truck, high-performance, racing and powersports applications. Maintains stable viscosity over a wide temperature range. Superior additive package raises boiling point. Water is kept in suspension, slowing its effects on braking systems. High boiling temperature ensures maximum life and reliable braking power in extreme conditions.

**Series 500 High Performance DOT 3 Brake Fluid (BF3)**
Use in applications that require FMVSS 116 • SAE J1703 • ISO 4925 • Federal Specification V-VB-680

**Series 600 High Performance DOT 4 Brake Fluid (BF4)**
Use in applications that require FMVSS 116 • SAE J1704 • ISO 4925 • Federal Specification V-VB-680

Multi-Vehicle Synthetic Power Steering Fluid (PSF)
Effectively reduces friction and delivers excellent wear protection and lubricity, resulting in cooler operating temperatures, longer component life and quieter operation. Low pour point ensures immediate lubrication at startup and in cold temperatures, while high viscosity index resists thermal breakdown and maintains maximum protection in high temperatures.

Use in applications that require American Motor Corporation C 4124 • BMW 82 11 0 148 132; 83 29 0 429 576; 81 22 1 468 879 & 82 11 1 468 041; • Chrysler MS-1872; MS-5931, MS-9632 & MS-11655; • Ford M2C138-CJ; ESW-M2C129-C6D; M2C195-A; M2C204-A & M2C233-F; • GM/Saginaw PSF 9965010; 9956835 & 89021184; • Hyundai/Kia PSF-3; PSF-4 & PSF-00232; • 19017; • Mercedes Benz 236.3, 345.0; 001 989 24 03 10; 001 989 24 03 12 & G 1 32 0001; • Mitsubishi Diamond SP III & PS Fluid; • Navistar TMS 6810; • Nissan PSF-III; • Porsche 000 043 206 56; • Saab 93165548; (45) 20 09 800 & 30 32 380; • Subaru K0209A0080; • Toyota PSF Type EH; P/N 008886-01; • Volvo 1161529 & 30741424; • VW/Audi TL-52146; G002000; G 004 000 M2; G 004 000 M7 & G 004 000 M8

Fluid Extraction Pump (G2576)
Aids in the removal of power steering fluid, motor oil, drivetrain lubricants and engine coolant. Can also be used to install fresh lubricants in hard-to-reach areas.

Miracle Wash® Waterless Wash & Wax (AMW)
A unique dry car wash and polish delivers outstanding performance and quick, easy and economical application. No water required. Specially formulated surfactants lift dirt and other particles from the surface and hold them in suspension. Miracle Wash then acts as a shield, protecting the surface from abrasion while you wipe the dirt away. Repels dust and light dirt particles and protects against the sun’s ultraviolet rays.
Aftermarket Partners
AMSOIL also offers premium filtration products from its aftermarket partners, including Donaldson, WIX and MANN FILTER.
For product and pricing information, call 1-800-956-5695 (Monday - Friday, 7 a.m. - 7 p.m. Central Time) or contact the AMSOIL Dealer listed on the back of your catalog (if one is listed).
