GENERAL GOALS

1. To provide our customers with high quality employees who will complete each job assignment to the customer’s satisfaction.

2. To provide our employees with a clean, safe workplace, and proper orientation to each workplace.

3. To have an injury-free workforce.

4. To provide year-round employment to our most responsible employees.

5. To have clear lines of communication between ourselves, our customers and our employees. (3-WAY)
EMPLOYMENT AT WILL

It is the goal of the company to provide a positive work environment and a solid economic foundation upon which all employees may build a future. However, Personnel Source, Inc. (PSI) also recognizes that employees and management alike must sometimes initiate change. In this regard it is expressly understood that your employment is “at will.” Thus, you retain the right to terminate your employment with the company at any time for any reason and the company retains a corresponding right to end the employment relationship at any time for any reason.

This handbook is not intended as a formal or exhaustive statement of employee rights and responsibilities, nor is it a contract of employment. Nothing contained in this handbook is intended to be part of the employment relationship. This handbook is composed of general statements of the company’s current policies, rules, procedures and benefits. We feel strongly that we must retain flexibility to meet future economic challenges. Accordingly, the company reserves the right to amend, modify and/or eliminate any of these policies, rules, procedures and benefits at any time at the company’s sole discretion, with or without prior notice. On termination for any reason, you are only entitled to those benefits that are offered at the time your separation takes place. Any benefits offered in this manual apply only so long as the manual is current. They do not provide vested rights.

This handbook supersedes any previous oral or written provisions, descriptions or understandings of the company’s policies, rules, procedures and benefits. Any variation from these policies will only be made upon written approval from the General Manager of Personnel Source, Inc.
SAFETY POLICY STATEMENT

It is the policy of PSI that safety is a primary concern, never subordinate to production or quality.

It is the responsibility of the company to provide a safe workplace and to provide proper job orientation by training employees in safe work procedures.

It is the responsibility of each employee to follow safety rules and procedures, report hazardous conditions and report all accidents immediately.

It is the responsibility of each employee to be alert on the job and to use common sense at the job site.

The focus of our safety program is on accident prevention and our goal is zero accidents. To achieve this goal, each employee must:

1. Believe that accidents are preventable;
2. Realize that accidents are caused by unsafe conditions and unsafe acts;
3. Recognize and avoid hazardous situations;
4. Take time to be safe.

Success in achieving this goal will pay dividends to employees by relieving personal pain, family anxiety and loss of income.
PROPER LIFTING

1. If the object is too heavy or awkward, GET HELP!

2. Know where you are going to put the load BEFORE you lift it up.

3. Have firm footing.

4. Bend your knees.

5. Tighten your stomach muscles.

6. Keep your back straight.

7. Keep load close to your body.

8. Lift with your knees.

9. Turn with your whole body; DO NOT TWIST.
CONFINED SPACES

Personnel Source employees are prohibited from working in what are called “Confined Spaces”. We have notified our clients that we will not allow our employees to work in confined spaces.

A confined space means a space that is large enough that an employee can enter and work, but that the entrance or exit is limited or restricted.

Examples of confined spaces are tanks, vessels, silos, storage bins, hoppers, vaults, pits, and bag houses. They are spaces not designed for continuous employment.

If you are asked to work in a confined space, notify your supervisor that you are a Personnel Source employee and are under instructions not to perform this type of work. You may call Personnel Source at any time for more information.
Lockout/Tagout is the way energy from a power source is blocked out from a piece of equipment. Tagout is a warning sign for others to not operate the piece of equipment. It is the way equipment can be made safe for service, maintenance, or cleaning jams.

If your job requires that you work near machinery, such as saws, presses, rollers, chains, etc., you are considered an affected employee and must be informed of lockout/tagout procedures.

This means that before you perform any service or maintenance on equipment, including jammed wood, you must contact someone at the job-site who is authorized to lock out the piece of equipment.

Failure to properly lockout equipment is a violation of law, and can lead to a very serious injury, including amputation or death. Do not assume you can perform even the smallest repair or adjustment on a machine without following the proper lockout/tagout procedure.

Locking out the equipment means controlling all possible sources of energy – including electrical, hydraulic, pneumatic, gas power, and also gravity.

If you are an affected employee, you will receive specific training from your supervisor at the job-site. Each job-site will have its own procedure for proper lockout/tagout. Do not hesitate to ask if you have questions. Your safety is our most important concern.

Remember to always lockout and tagout power sources and switches when maintaining or servicing a machine. Never remove someone else’s lock or tag, and know your role in the process as an affected employee.

If you are asked to service, maintain or unjam a machine and are not trained on the specific lockout/tagout procedure, refuse and contact Personnel Source immediately.
BLOODBORNE PATHOGENS

In order to protect you from infections, all employees who may become exposed to human blood or other bodily fluids need to undergo training on safe work practices, personal protection and other control mechanisms.

Safe work practices include proper use and disposal of tools and instruments, sanitation procedures, and use of protective equipment.

If you are potentially exposed to blood and bodily fluids, or you are a designated first aid provider, you need to know about:

1. Your work-site’s written exposure control plan.
2. The training to be provided.
3. Safe work practices and controls to minimize the risk of exposure.
4. Personal protective equipment.
5. Clean-up techniques.

Contact your supervisor or Personnel Source for more information.
PERSONNEL SOURCE, INC.
NEW EMPLOYEE ORIENTATION

DRUG POLICY

Personnel Source, Inc. is committed to providing a safe, drug free work place for our employees. Using or being under the influence of illegal drugs or alcohol at any job-site by a Personnel Source, Inc. (PSI) employee will not be tolerated.

Personnel Source, Inc. employees found to be using or under the influence of illegal drugs or alcohol will be terminated.

Applicants may be required to pass a pre-employment drug screen in order to be considered for employment at certain drug free job-sites.

Personnel Source, Inc. employees who sustain an on-the-job injury which requires attention of a physician will be given a urinalysis drug screen at the time of treatment for the injury. The results of this drug screen will be a part of the accident investigation. A positive result may result in termination.

Any accident involving property damage, physical injury or near miss may be cause for all parties involved to be asked to submit to a blood and/or urine test.

Observable changes in employee performance, appearance, behavior, speech, etc., can provide suspicion of the presence of drugs or alcohol. These changes can be grounds for requiring a fitness for duty evaluation involving blood, breathalyzer and/or urine sample testing. Such basis for reasonable suspicion may include, but is not limited to;

1. Unexcused or excessive absenteeism or repeated tardiness
2. Declining work performance
3. Suspect behavior including, but not limited to stumbling, slurred or incoherent speech, apparent confusion in orientation, emotional outbursts, unexplained behavior, inability to do normal job tasks, the unsafe handling of equipment or tools of the actual observation of behavior such as drinking alcohol or using another drug.

Personnel Source, Inc. employees will be subject to a RANDOM DRUG TESTING program administered by Personnel Source Management or the company at which Personnel Source employees are assigned.

All Personnel Source employees will be subject to periodic drug and alcohol testing while on assignment with Personnel Source.
When there is any reason for an alcohol and/or drug screen to be performed, the employee is NOT to return to work until fitness for duty is established. This time will be treated as a suspension pending the outcome of the testing. Absent any other concurrent disciplinary action, the employee will be paid for the time lost from work if the test is negative.

Compliance with the drug policies of our clients is also required. Refusal to drug test, a positive test for drugs or alcohol, failure to pass a drug or alcohol test and/or the admission of illegal drug use or use of alcohol in violation of PSI or our client’s policies at any time while employed by PSI is considered misconduct and reason for immediate dismissal, potentially affecting your unemployment benefits. This includes failure to take and pass a client’s direct-hire drug screen when a client is considering hiring you onto their payroll from PSI’s payroll. Applicants and employees who refuse to take a mandatory drug and/or alcohol test will be disqualified from employment and/or terminated from PSI. Positive tests for illegal drugs or alcohol or any violation of our or our client’s drug policy is considered misconduct in relation to your employment and will result in termination from PSI.
TIMESHEET & PAYCHECK INFORMATION

1. TIMESHEET PROCEDURE
   If you are responsible for your own timesheet please make sure it is turned into the PSI office on time. Turning in your time card late may prevent PSI from being able to pay you on time.

2. DIRECT DEPOSIT
   You agree to be paid by PSI though use of ACH direct deposit. You should provide Personnel Source with a completed direct deposit enrollment form including a voided check or authorization letter from your bank 3 days before your first pay day.

   If Personnel Source does not receive direct deposit information 3 days before your first payday then you agree that PSI can issue you a Rapid! PayCard and deposit your pay in to that account.

3. PICK UP OF PAYCARD
   If someone other than yourself is picking up your PayCard, they must have written permission signed by you and present their photo ID to us.

4. HOLIDAYS
   If your payday falls on a holiday or weekend direct deposit will be made to your account on the banking day prior to the holiday or weekend.

5. TAX WITHHOLDING CHANGES
   Any changes to your tax withholdings must be made by turning in a completed W-4 form to PSI 3 business days prior to your payday.

6. FINAL PAYCHECKS
   If you are separated from a job, your direct deposit will be made on the next regularly scheduled payday. Discharge from a job assignment does not necessarily mean discharge from PSI.

7. SAFETY EQUIPMENT DEDUCTIONS
   As a service to our employees, we provide payroll deductions for safety supplies.
PROBLEM SOLVING

It is our sincere intention to maintain honesty and fairness in dealing with our employees. Consistent with the concepts of honesty and fairness, PSI maintains an open-door policy.

An open-door policy simply means that, should a problem arise, you are invited and encouraged to discuss the problem with the PSI manager. An important part of every supervisor’s job is to listen to employees’ concerns, answer questions and resolve problems.
ATTENDANCE & REPORTING POLICY

A PSI employee who is between assignments, on temporary layoff, or on a modified release due to an on-the-job injury, is required to report by telephone or in person daily between 8:00am and 5:00pm that he/she is available for work. When reporting, leave your name, telephone number where you can be reached and until what time you can be reached. Failure to report as stated above will be interpreted to mean that you are not seeking an assignment and will be recorded as a voluntary quit. If you are on a modified work release and fail to report as stated above, it will be interpreted as a refusal of available and suitable employment.

You are expected to report to work each day that you are scheduled. We are aware that from time to time you may be absent because of illness or some legitimate reason, but since our business depends on you being on the job, these rules must be followed.

1. If you know you will be absent from work, you must personally notify your job-site supervisor and PSI ten (10) days prior to the day you will be absent. If you must be absent due to unforeseen circumstances, you must personally call both the PSI office AND your job-site supervisor at least two hours before the start of your shift EACH day that the circumstances keeps you from work. This will be recorded in your employment file. Notice of the employee’s absence from a spouse, parent or other person is not acceptable, unless an emergency prevents the employee from personally calling. You must state why you are unable to attend work and must leave a phone number where you can be reached. Notifying the company of an absence or tardiness does not excuse the absence or tardiness. If you are missing work and intend on using accrued sick time as compensation you must specify that you are utilizing the sick leave policy outlined here in the Oregon Sick Leave Policy.

2. PSI has a 24-hour telephone number. Failure to notify PSI and your job-site of absence before the beginning of the shift will be considered a voluntary quit.

3. Incarceration for any alleged criminal or civil law violation is not a valid excuse for not following this call-in policy.

4. After you have been absent, report to your supervisor before returning to your job.
5. A doctor’s release may be required after any illness. A doctor’s release may be required verifying that you are able to return to work following an injury or illness resulting in three (3) or more consecutive days’ absence.

6. You are required to work your entire shift. If it is necessary for you to leave before the end of your shift, you must notify your supervisor and receive his or her permission before leaving the job-site for any reason.

7. Not having a home phone is NOT considered valid reason for failing to call due to illness, quitting or any other reason.

8. PSI is a temporary personnel service, and absenteeism with or without good cause may result in loss of your job assignment.

9. If your job assignment ends, it is your responsibility to notify PSI within 8 hours following your last shift or PSI will assume that you have voluntarily quit and are not seeking another assignment.

10. You are required to report for work on time. If you will be late, you must notify your supervisor as soon as possible (prior to the start of your shift).

11. Your attendance on the job is essential to our business. We understand that illness or pressing personal problems can affect your attendance, but the job must still be done.
Oregon Sick Leave Policy:

Personnel Source provides its employees with paid sick leave pursuant to Oregon law. In the event of any conflict between this policy and applicable law, the law will be followed.

Employees are entitled to accrue and use up to 40 hours of paid sick leave each year. The employee will accrue eligible hours in accordance with current statute (one hour for every 30 hours worked). Accrued sick leave hours will not be allowable until the employee has been employed at least 90 days.

Each employee will be provided a written accounting at least quarterly of the amount of unused leave time available.

Under Oregon’s paid sick leave law:

Paid time off may be used for the following reasons:

(a) An employee's mental or physical illness, injury or health condition; need for medical diagnosis, care or treatment of a mental or physical illness, injury or health condition; or need for preventative medical care.

(b) Care of a family member with mental or physical illness, injury or health condition; care for a family member who needs medical diagnosis, care or treatment of a mental or physical illness, injury or health condition; or care of a family member who needs for preventative medical care.

(c) Leave pursuant Oregon’s statutorily protected domestic violence leave.

(d) Any purpose permitted under the Oregon Family Leave Act.

(e) When the Company or an employee's child's school (or place of care), closes for a public health emergency.

(f) When an employee or family member is determined to be a risk to the health of others, and requires assistance.

(g) When law requires an employer to exclude an employee from work for health reasons.

For purposes of sick leave, “family member” is defined to include any of the following persons in relation to the employee: (a) spouse or domestic partner; (b) biological, adoptive, or foster parent; (c) biological, adoptive, step child, foster child or child of domestic partner; (c) grandparent or
grandchild; (d) parent-in-law; or (e) person with whom the employee was or is in a relationship of in loco parentis.

**Use of Paid Sick Time**

Paid sick time may be taken in increments of no less than one hour.

When using sick time, employees will be paid at the rate the employee would have earned had they not been absent.

Unused paid sick time will carry over from one year to the next as minimally required by current statute. The maximum amount of accrued sick time will be limited to the minimum allowed by current statute. Unused sick time is NOT paid to the employee upon termination, resignation, retirement, or other separation of employment. If an employee separates from employment with the Company (whether voluntarily or involuntarily), and is re-hired by the Company within 180 days, any previously accrued and unused sick leave will be reinstated and be made available for use as soon as the employee's combined total of days of employment with the employer exceeds 90 calendar days.

**Employee Notice**

Employees must make reasonable efforts to schedule planned sick leave in a manner that does not unduly disrupt operations and should attempt not to schedule leave during peak work hours, when work is time-sensitive, or when mandatory meetings are scheduled. If the need to use sick time is foreseeable, the employee must give 10 days advance notice of employee’s intention to use sick time.

When the need to use sick time is unforeseeable, the employee shall provide notice as soon as practicable and must comply generally with the employers procedural requirements for requesting or reporting other time off.
All injuries and other incidents must be reported to your job-site supervisor AND to PSI immediately.

1. Reporting provides proof of occurrence and protects the individual in case treatment becomes necessary.
2. Reporting indicates where safety awareness training should be focused.
3. If an injury causes an employee to miss three or more days of work, a current address and telephone number must be provided to PSI. This must be done in person and in writing within 72 hours of the injury.
4. In the event of an injury, a written release from the treating physician must be provided to the PSI Risk Manager stating the status of your release (modified or regular) and identifying any and all restrictions placed upon you as a result of the injury, if applicable. This must be provided before you can return to work.
5. If released for modified duty by the treating physician, you must report to the PSI Risk Manager immediately, in person, for an available and suitable assignment until you are released without restriction. The modified work assignment will be at the discretion of the PSI Risk Manager.
6. 100% cooperation and participation are necessary for an effective safety program.
7. Failure to report all accidents, injuries, near misses or property damage will result in disciplinary action.
8. Failure to comply with these reporting policies will constitute a voluntary separation from PSI and/or refusal of available and suitable employment.
Objectives:
Personnel Source has developed a return-to-work policy. Its purpose is to return workers to employment at the earliest date following any injury or illness. We desire to speed recovery from injury or illness and reduce insurance costs. This policy applies to all workers and will be followed whenever appropriate.

Personnel Source defines “transitional” work as temporary modified work assignments within the worker’s physical abilities, knowledge, and skills.

Where feasible, transitional positions will be made available to injured employees in order to minimize or eliminate time loss.

For any business reason, at any time, we may elect to change the working shift of any employee based on the business needs of this company.

The physical requirements of transitional/temporary work will be provided to the attending physician. Transitional/temporary positions are then developed with consideration of the worker’s physical abilities, the business needs of Personnel Source, and the availability of the transitional work.

In case of an on-the-job accident
If you have a work-related injury and are missing time from work, contact your Human Resources or Personnel Department.

Transitional temporary work assignment
Personnel Source will determine appropriate work hours, shifts, duration, and locations of all work assignments. Personnel Source reserves the right to determine the availability, appropriateness, and continuation of all transitional assignments and job offers.

Communication
It is the responsibility of the worker and/or supervisor to immediately notify Personnel Source of any changes concerning a transitional/temporary work assignment. Personnel Source will then communicate with the insurance carrier and attending physician as applicable.

Employee responsibilities
Accident reporting
- An accident is any unplanned event that disrupts normal work activity and may or may not result in injury or property damage. All work-related accidents, injuries, and near misses must be reported immediately to Personnel Source and your supervisor.

- If an accident occurs, but does not require professional medical treatment, the supervisor should immediately be informed so that an accident analysis can be completed. If first-aid treatment is needed, it should be sought on-site.
- If an accident occurs which **requires professional medical treatment**, the worker should follow the emergency response plan. The worker must fill out a workers’ compensation 801 form as soon as possible.

**Worker’s physical condition**

If professional medical treatment is sought, the worker should inform the attending physician that Personnel Source has a return-to-work program with light duty/modified assignments available.

- The worker should obtain a **Release to Return-to-Work** form and completed **Job Description form** (if available) from Personnel Source. This should be provided to the treating physician and should be returned to Personnel Source following the initial medical treatment.

**Worker able to return to work**

- If the attending physician releases the worker to return to work, as evidenced by completion of a **Release to Return-to-Work** form and **Job Description Form**, the form(s) must be returned to Personnel Source within 24 hours for assignment of light duty/modified work. The worker must report for work at the designated time.

- The **worker cannot return to work without a release** from attending physician.

- If the worker returns to a transitional/temporary job, the worker must make sure that he or she does not go beyond either the duties of the job or the physician’s restrictions. If the worker’s restrictions change at any time, he or she must notify his or her supervisor at once and give the supervisor a copy of the new medical release.

**Worker unable to return to work**

- If the worker is unable to report for any kind of work, the worker must call in at least weekly to report medical status.

- While off work, it is the responsibility of the worker to supply Personnel Source with a current telephone number (listed or unlisted) and an address where the worker can be reached.

- The worker will notify Personnel Source within 24 hours of all changes in medical condition.

**Employer Responsibilities**

**Accident Reporting**

- The supervisor will conduct an accident analysis on all accidents, regardless of whether an injury occurs.

- When an accident occurs that results in injury requiring **professional medical treatment**, Personnel Source will forward a completed workers’ compensation **801** form to the insurance carrier within five (5) calendar days of knowledge of the injury or illness.

- Other information will be forwarded as soon as developed, including:
- Name of worker’s attending physician

- Completed **Release to Return-to-Work Form** from attending physician and medical documentation, if appropriate

- Completed transitional/ modified or regular **Job Description**

- **Job Offer** letter and responses

  - The supervisor will notify the insurance carrier of any change in the worker’s medical or work status as soon as possible.

**Medical treatment and temporary/transitional duty physical condition**

- A **Release to Return-to-Work** form and a completed **Job Description** form (if available) will be provided to the worker to take to the attending physician for completion and/or approval.

- At the time of first medical treatment the **Release to Return-to-Work** form must be completed and returned to Personnel Source. If one is not, Personnel Source will request one from the attending physician.

- The completed **Release to Return-to-Work** form will be reviewed by Personnel Source. A temporary/transitional **Job Description** form will be prepared from information obtained from the attending physician for review and approval.

**Job Offer letter**

- Upon receipt of a signed temporary/transitional **Job Description** form from the attending physician, a written **Job Offer** letter will be prepared by the employer. It will be mailed by both regular and certified mail to the worker’s last known address or presented to the worker.

  - The letter will note the doctor’s approval and will explain the job duties, report date, wage, hours, report time, the duration of the transitional work assignment, phone number, and location of the transitional assignment.

- The worker will be asked to sign the bottom of the **Job Offer** letter indicating acceptance or refusal of the offered work assignment.

  - Copies of the **Job Description, Work Releases, and Job Offer** letters will be forwarded to the insurance carrier.

**Supervisor**

- The supervisor will monitor the worker’s performance to ensure the worker does not exceed the worker’s physician release.

  - The supervisor will monitor the worker’s recovery progress through regular contact to assess when and how often duties may be changed. The supervisor will assess the company’s ability to adjust work assignments upon receipt of changes in physical capacities.
PERSONNEL SOURCE, INC.
NEW EMPLOYEE ORIENTATION

WRITTEN HAZARD COMMUNICATION TRAINING PROGRAM

Personnel Source has developed a Hazard Communication Program to ensure our employees’ health and safety.

As a company, we intend to provide information about chemical hazards and the control of hazards through our Hazard Communication Program, which includes container labeling, material safety data sheets (MSDS), and employee training. Due to the nature of our business some of client companies you may be assigned to will conduct the Hazard Communication Training for Personnel Source. Please read the following carefully:

This program will be accomplished as follows:

1. CONTAINER LABELING

   It is the policy of this company that containers of hazardous chemicals of our client’s will have the following labeling information:
   
   A) Containers are clearly labeled as to the contents.
   B) Appropriate hazard warnings are listed.
   C) The name and address of the Manufacturer are listed.

   This responsibility has been assigned to the Safety Director, Personnel Manager, or a designated person of our client’s management.

   To further ensure that employees are aware of the chemical hazards used in their work area, it is our policy that all secondary containers are labeled.

   The Safety Director of Personnel Source will ensure that all secondary containers are properly labeled with emphasis on the contents and the appropriate hazard warnings. Any time you should have any questions concerning container labeling, contact your immediate supervisor.

2. MATERIAL SAFETY DATA SHEETS (MSDS)

   Copies of MSDS for all hazardous chemicals to which employees of the company may be exposed will be kept in the office of your department supervisor. MSDS are available to all employees at your work area for review during each work shift. If MSDS are not or new chemicals in use do not have MSDS please contact the Safety Director at Personnel Source immediately.
3. EMPLOYEE TRAINING AND INFORMATION

This packet of information serves as your Health and Safety orientation. You will find further information at your work site regarding the following:

A) An overview of the requirements contained in the Hazard Communication Rule, Division 155.
B) Chemicals present in your workplace operations.
C) Location and availability or our written Hazard program.
D) Precautions, such as personal protection protective equipment, safe work practices, and first aid to prevent or lessen harmful exposure.
E) Safety emergency procedures to follow if you are exposed to these chemicals.
F) Steps the company has taken to lessen or prevent exposure to these chemicals.
G) How to read labels and review MSDS to obtain appropriate hazard information.

4. HAZARDOUS NON-ROUTINE TASKS

Periodically, employees are required to perform hazardous non-routine tasks. Prior to starting work on such projects, each affected employee will be given information by their supervisor about hazards to which they may be exposed during such activity.

This information will include:

A) Specific chemical hazards.
B) Protective/safety measures which must be utilized.
C) Measures the company has taken to lessen the hazards, including ventilation, respirators, presence of another employee and emergency procedures.

Examples of non-routine tasks that may be performed by employees of this company:

<table>
<thead>
<tr>
<th>TASK</th>
<th>HAZARDOUS CHEMICAL</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cleaning Dryer</td>
<td>Liquid Caustic Soda</td>
</tr>
<tr>
<td>Cleaning Spreaders</td>
<td>Petroleum Wax</td>
</tr>
<tr>
<td>Cleaning Presses</td>
<td>Press Releasant</td>
</tr>
<tr>
<td>Cleaning Glue Tanks</td>
<td>Resin and Glue Residue</td>
</tr>
<tr>
<td>Cleaning Boilers</td>
<td></td>
</tr>
<tr>
<td>Cleaning Polly and Putty Guns</td>
<td></td>
</tr>
</tbody>
</table>
5. CHEMICALS IN UNLABELED PIPES

To ensure that our employees who work on unlabeled pipes have been informed as to the hazardous materials contained within, the following policy has been established:

Prior to starting work on unlabeled pipes you are to contact your immediate supervisor or the Safety Director at Personnel Source for the following information:

   A) The chemical in the pipe.
   B) Potential hazards.
   C) Safety precautions which should be taken.

6. LIST OF HAZARDOUS CHEMICALS

You may obtain a complete list of all known chemicals that may be used by employees of Personnel Source at each work site. Further information on each noted chemical can be obtained by reviewing the Material Safety Data Sheets located at your work site.
SLIPS AND FALLS

Slips and falls are among the most severe of all injuries, but they are preventable. Falling from a high spot can cause life-threatening injuries.

For that reason, it is our policy to prohibit our employees from working more than 6 feet from the ground on scaffolds, ladders and areas without guardrails. If you are asked to work in such areas, call Personnel Source immediately.

Slips and trips are usually caused by wet floor, obstacles or when you are hurrying. Clean up spills, keep your work area neat, and move carefully through the plant.

Don’t jump up and down stairs or platforms. Always carry loads so that you can see clearly.

Don’t build makeshift ladders out of boxes, or use buckets as stepladders. Use the proper tools for the job.
EMERGENCY PLANS

In the event that there is a fire, large chemical spill, or other catastrophe, you need to be aware of the emergency evacuation plan of the job-site. You must learn the procedure before an accident occurs.

As soon as you see a fire or accident, follow the alert procedures of the company. Avoid a panic, but get out of the area as quickly as possible. Move quickly but carefully. Follow the evacuation routes and check with the plant’s emergency response leader or your supervisor. If a fire or spill occurs, assume the vapors are toxic and leave the area. Don’t try to be a hero.

Know where fire extinguishers are located. In most cases of fire, leave the area immediately. But if you are backed into a corner, use the extinguisher.

Know where the exit is and make sure there are no chairs, carts or other obstacles in the pathway to the exit door.

Know where first aid help is located.

The goal is to work carefully. Let your supervisor know if you see an accident. Follow the company procedure on emergency plans.
POWERED INDUSTRIAL TRUCKS (FORKLIFT) SAFETY:

Forklift accidents have been on the increase recently. Most of these occur when the driver hits a co-worker. Working in an industrial area means that you must be constantly aware of trucks carts and forklifts.

Always walk along the designated path or walkway, whether or not you see a forklift coming. Do not assume the forklift driver sees you, and whether or not the forklift is supposed to yield to pedestrians, you should act as if the forklift has the right of way.

Do not drive forklift unless you are a trained and authorized operator. That means you have been fully trained and tested before driving.

As a pedestrian, maintain a cushion of space between you and the vehicle. Loads can fall from forklifts and scatter hundreds of feet in any direction. Forks can break or fall – never stand underneath a load.
PERSONNEL SOURCE, INC.
NEW EMPLOYEE ORIENTATION

JOBSITE RULES

We can accomplish our work effectively only with the cooperation and respect of our fellow employees. Every employee is expected to exercise common sense and show cooperation and courtesy to other employees, customers and the public. In order to accomplish these objectives and avoid misunderstandings, certain rules are necessary.

1. Obey all safety rules, signs and procedures. Report all accidents and incidents immediately.

2. Prescribed clothing and safety equipment must be maintained in good condition and worn at all times for work being performed.

3. Lockout procedures must be understood and followed. If there is any uncertainty, ask your supervisor.

4. All employees will wear shirts and long pants while at work. No shorts or cut offs will be allowed.

5. All shoulder length and longer hair must be contained behind your head and kept from falling in front of your shoulders while working.

6. Smoking is allowed in designated areas only – no exceptions.

7. Theft of, or damage to, company property or the property of others is prohibited.

8. Refusal to follow instructions, failure to maintain acceptable production standards and insubordination are prohibited.

9. Do not walk on belts, chains or rolls at any time. Always use appropriate walkways.

10. Possession or use of firearms on company property is prohibited.

11. Fighting, horseplay, running and intoxication (being under the influence of drugs or alcohol) are prohibited.

12. Use good judgement in performing your work in a safe manner to avoid injury to yourself and your fellow workers.
13. No Personnel Source employees are permitted to enter a confined space under any circumstances. Confined space is defined as a space that:

- Is not large enough and so configured that an employee cannot bodily enter and perform assigned work; and
- Has limited or restricted means for entry or exit (Example: tanks, vessels, silos, storage bins, hoppers, vaults, and pits); and
- Is not designated for continuous employee occupancy.

***If you are not sure if you are being asked to perform work in a confined space –STOP- and immediately contact Personnel Source for further direction.***
EQUAL EMPLOYMENT OPPORTUNITY POLICY

We are an equal opportunity employer. It is our policy to provide equal employment opportunities to all qualified individuals regardless of race, color, creed, religion, national origin, sex, age, disability, veteran status or other status protected by law. We will provide reasonable accommodation to qualified employees with a known protected disability or for an employee’s religious beliefs providing the accommodation does not cause undue hardship to Personnel Source, Inc. or cause a direct threat to health and safety as defined by the Americans with Disabilities Act or applicable state law.
PERSONNEL SOURCE, INC.
NEW EMPLOYEE ORIENTATION

POLICY AGAINST HARASSMENT

Personnel Source, Inc. prohibits harassment or offensive conduct in any form, including harassment or offensive conduct directed toward the protected status of an employee, customer, vendor, contractor or their relatives, friends or associates. “Protected status” includes race, color, religion, gender, national origin, veteran’s status, age, disability and any other status protected by law.

PSI will actively enforce its policy against harassment. The policy applies to all conduct on company property or company time and to all conduct off the job that affects an individual’s work environment. This policy also prohibits harassment or offensive conduct directed toward any employee by customers, vendors or contractors or their relatives, friends or associates.

PSI considers violation of this policy a serious offense that will lead to discipline, up to and including discharge.

Harassment is any offensive action directed at a person’s protected status. Some examples of prohibited conduct, if directed at a person’s protected status, include foul language, jokes, slurs, derogatory comments, negative stereotyping, threatening or intimidating acts or posting or circulating offensive written or visual material. Additional examples of harassment include unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct of a sexual nature. Personnel Source, Inc. prohibits such conduct if:

❑ The conduct has the purpose or effect of creating an intimidating, hostile or offensive working environment or of unreasonably interfering with an employee’s work performance; or
❑ Submitting to such conduct is made a term or condition of employment; or
❑ Submitting to or rejecting such conduct is used as the basis for employment decisions affecting that individual; or
❑ The conduct otherwise adversely affects an individual’s employment opportunities.

If an employee feels that someone’s conduct is harassing or improperly offensive, the employee should promptly and firmly tell the offender that the behavior is unwelcome. Although not required, doing so places the offender on notice that someone considers his or her conduct inappropriate. The company encourages any employee who believes he or she has been subject to harassment or offensive conduct or any employee who witnesses a
violation of this policy, to report the offense immediately to your PSI branch manager.

PSI will keep complaints confidential to the extent possible, while allowing the investigation to proceed (meaning information may be revealed on a “need to know” basis). PSI will investigate all complaints promptly.

Any employee whom the company finds after investigation to have violated this policy will be subject to appropriate sanctions, depending on the circumstances, up to and including termination. If the harasser is a non-employee, the company will take reasonable steps to address the situation. The company will design its action to provide redress, to eliminate the harassment or offensive conduct, to prevent retaliation against the person who made the complaint and to prevent retaliation against any employee for providing information as a witness or participating in the investigation.

Any form of retaliation, including derogatory comments, against people who make harassment complaints, against witnesses or any other employees who are involved in complaints, is against the company’s policy. Personnel Source, Inc. will strictly enforce this policy and will treat retaliatory action as a violation that is subject to the same disciplinary measures, up to and including termination.

The question of whether a particular action is prohibited or merely the result of a personality conflict that produces no discriminatory effect on someone’s employment requires a determination based on all the facts. Given the serious nature of harassment and discriminatory offensive conduct, we trust that all employees of PSI will continue to act responsibly in order to establish and maintain a pleasant working environment. PSI encourages every employee to raise any question that he or she may have about this policy against harassment or any other matter that relates to equal employment opportunity. For answers to such questions, employees should contact the branch manager of Personnel Source.
SHIFT CHANGE POLICY

For any business reason, at any time, Personnel Source, Inc. may elect to change the working shift of any employee based on the business needs of this company.
