The University of Kansas recognizes the importance for an institution of higher learning to develop and maintain a safe and secure environment in which the academic and social pursuits of its members can be fully realized. The university has the utmost concern for the success of each student and endeavors to allow each student maximum freedom to live his/her life free from interference. With this freedom, however, each student is responsible to be an active participant in the exercise of personal safety. While the University of Kansas strives to provide a safe environment, criminal incidents and other emergencies may occur despite reasonable efforts.
No community's security plan can attain maximum effectiveness unless everyone contributes to making it work. Safety and security are both personal and shared responsibilities. The university encourages all crimes to be reported to its Office of Public Safety. By accepting this responsibility members of the university community foster a safe and secure academic environment.

REPORTING CRIME

How to report crimes and other emergencies occurring on the Lawrence campus

Preventing campus crime is a shared responsibility between the university and the campus community. In case of a crime or other emergency, students, faculty, staff and visitors are expected to notify the KU Office of Public Safety. If you suspect that a crime is being committed, call the KU Office of Public Safety at 785-864-5900 or 911. Their offices are located just west of 15th Street and Iowa Street at the corner of Bob Billings Parkway and Crestline Road. Their website is www.publicsafety.ku.edu.

The Office of Public Safety responds to calls by dispatching an officer to meet with the caller. If assistance is required from the Lawrence Police Department or the Lawrence/Douglas County Fire and Medical Department, the Office of Public Safety will contact the appropriate unit. If a sexual assault or rape should occur, staff on the scene, including Public Safety Officer, will offer the victim a wide variety of services. More information is available in the Sexual Assault section.

KU Office of Public Safety

The Office of Public Safety is comprised of 28 commissioned University police officers, 9 communications operators, 14 uniformed security officers, and 18 student security monitors. University police officers receive their law enforcement authority from Kansas Statutes Annotated (K.S.A.) 76-726. Every University police officer is certified as a Law Enforcement Officer in the State of Kansas and receives basic law enforcement training from the Kansas Law Enforcement Training Academy. Officers receive a minimum of 40 hours of in-service training each year to maintain their state certification.

The Office of Public Safety operates a Community Support Section which provides educational programs, materials and services on an on-going basis and on demand for the entire campus community. These include KU Crime Stoppers, equipment engraving, and personal safety educational programs. Information on specific campus crimes and overall crime statistics are made available and published in campus and area media to make members of the campus community aware of the environment in which they work and study. Based upon this information, students, faculty, and staff are expected to make reasonable decisions about their own security.
The Office of Public Safety has both full time and part time security officers. Security personnel are responsible for monitoring entrances, unlocking and locking designated buildings, and performing routine laboratory and building inspections for fire and safety-related problems. Security personnel also patrol buildings and campus grounds to report suspicious activity and unsafe conditions.

The Communication Center provides emergency and non-emergency call taking and dispatching services for the University community, to include police, fire and medical, safety and security, maintenance, and parking services. In a support role, our Communications Center functions as a backup to the Douglas County Emergency Communication Center. The KU Communication Center can dispatch fire or emergency medical service and communicates with local and state police agencies as needed.

The Communications Center maintains radio and/or telephone contact with all Douglas County Emergency Services agencies: KU Police, Lawrence Police, Douglas County Sheriff's Office, Kansas Highway Patrol, and Lawrence/Douglas County Fire/Medical departments. Personnel working in the Communications Center also handle additional radio traffic for other University departments, including Facilities Services, Parking Services, and the University-wide Security Network.

The University has closed circuit security cameras located around all major residence halls and parking lots. There are more than eighty emergency (blue) phones on campus that upon being picked up, dial the 911 operators on campus.

The Office of Public Safety uses the Kansas Standard Offense Report:
- to record criminal activity
- to tabulate and report crimes to the Kansas Bureau of Investigation
- to compile the Annual Security Report.

The Office of Public Safety does make a provision for including confidential reports of crime in this Annual Security Report.

The Office of Public Safety does not routinely monitor off-campus activity. The Student Involvement and Leadership Center maintains contact with registered fraternity and sorority organizations. Public Safety members do not provide law enforcement service to off-campus residences or recognized fraternity and sorority organizations nor are activities off-campus recognized by university authority. Criminal activity at registered fraternity and sorority residences is monitored and record by the Lawrence Police Department. At the discretion of the Lawrence Police Department the University is notified of incidents.

Complete Campus Crime Statistics
The KU Office of Public Safety annually produces a comprehensive set of crime data for the
  campus. This list is in addition to those statistics provided in the Annual Safety Report. The Office
  of Public Safety crime statistics are found here: www.publicsafety.ku.edu/statistics.

Police Authority and Jurisdiction
The police officers employed by the Office of Public Safety are certified law enforcement officers in the State of Kansas, and have full power of arrest. Kansas law (K.S.A. 76-726 and 21-2401a) provides for jurisdictional authority of university police officers to include property owned or operated by the University, endowment association, alumni association, athletic association or recognized student organizations. It also allows for jurisdictional authority on streets, property and highways immediately adjacent to campus and within Lawrence when officers are following up on crimes committed on campus.

In addition, the City of Lawrence and the University of Kansas have a jurisdiction agreement that allows university police officers to exercise police authority in areas of the city off campus when the officer has probably cause to believe a violation of law is occurring. The agreement (pursuant to K.S.A. 22-2401a) authorizes the university police officer to exercise all power and authority as may lawfully be exercised by a Lawrence police officer, until such time as a Lawrence police officer is able to respond.

The Office of Public Safety is responsible for investigating criminal cases, enforcing traffic laws, and University rules and regulations. All reported crimes are investigated immediately. Follow-up investigation occurs to identify the criminal(s). Completed investigations are presented to either the City of Lawrence Municipal Court or Douglas County District Court for adjudication. Information concerning criminal activity occurring on campus is shared with campus administration when appropriate. Victims and witnesses are strongly encouraged to report criminal activity to the Office of Public Safety.

**KU Office of Public Safety and Local, State and Federal Law Enforcement**

The Office of Public Safety works closely with the Lawrence Police Department on a daily basis. In addition to sharing crime information, both departments have the ability to ask for immediate assistance through a shared radio communication system, as well as a direct phone line between the KU Emergency Communications Center and the Douglas County Emergency Communication Center. Cooperative investigations with and referrals to Lawrence Police are done as appropriate. The Lawrence Police Department monitors and records criminal activity on public property surrounding campus and at fraternities and sororities, and provides this information to the University for inclusion in its crime statistics, as required by the Clery Act.

The Office of Public Safety maintains a working relationship with other local, state and federal law enforcement agencies including the Douglas County Sheriff’s Office, Kansas Bureau of Investigation, Kansas Highway Patrol and Federal Bureau of Investigation (Kansas City and Topeka field offices). Administrators with the Office of Public Safety maintain periodic contact with administrators from other law enforcement agencies, and information is shared with these agents as needed.

**Confidential Reporting of Crime**

Confidential reporting is allowed at the University. If, for a personal reason, a person does not wish to report an on-campus crime or suspected crime to the police, that person may anonymously report it to the Crime Stoppers Program operated by the Office of Public Safety. Additionally, crime can be anonymously reported though the Crime Statistics Report Form found on the Vice Provost for Student Affairs web site: [www.vpss.ku.edu/cleryact/csrform.shtml](http://www.vpss.ku.edu/cleryact/csrform.shtml). Reports filed confidentially as described above are counted and disclosed in the University’s annual crime statistics.

A victim may also report information about a crime to the Office of Public Safety and may ask that a criminal report not be filed. University faculty and staff members are required to inform Human
Resources and Equal Opportunity when they have been told of an incident of possible sexual harassment (including sexual assault).

**Crimes Disclosed to Pastoral or Mental Health Counselor**

To be exempt from disclosing reported offenses, pastoral or professional counselors must be acting in their roles of pastoral or professional counselors. This exemption does not relieve counselors of the duty to exercise reasonable care to protect a foreseeable victim from danger posed by the person being counseled or to make reports mandated by law. When speaking to a victim or witness to a crime, counselors are encouraged, if and when they deem appropriate, to inform the individual of procedures to report crimes on a voluntary basis for inclusion into the annual crime statistics.

A pastoral counselor is a person who is associated with a religious order or denomination, is recognized by that religious order or denomination as someone who provides confidential counseling, and is functioning within the scope of that recognition as a pastoral counselor.

A mental health counselor is a person whose official responsibilities include providing mental health counseling to members of the institution’s community and who is functioning within the scope of his or her license or certification. This definition applies even to professional counselors who are not employees of the institution, but are under contract to provide counseling at the institution.

**Timely Warning**

A timely report to members of the campus community is made of an occurrence of any crime (not only those specified by the Clery Act) considered to be a threat to students and employees that is reported to campus security or local law enforcement agencies. The issuing of a timely warning is decided on a case-by-case basis by the Office of Public Safety in light of all the facts surrounding a crime, including factors of the nature of the crime, the continuing danger to the campus community and the possible risk of compromising law enforcement efforts. Crimes specified by the Clery Act are found in the Definitions section of this report.

Timely warnings can be announced through written Crime Alerts and/or through the emergency notification system. Crime Alerts are produced by the Office of Public Safety, sent to administration offices on campus and Student Housing for its distribution within the housing facilities, and posted on University bulletin boards and the website of the Office of Public Safety. Crime Alerts are also sent to all local media outlets. Current Crime Alerts can be found at: [www.publicsafety.ku.edu/statistics/crimealerts.shtml](http://www.publicsafety.ku.edu/statistics/crimealerts.shtml).

**Emergency Management**

The University has adopted an Emergency Management Plan to guide emergency management and coordination of all phases of emergency management operations. Confirmation of a significant emergency or dangerous situation involving an immediate threat to health or safety is carried out in accordance with the Plan.

**Emergency Notification System**

To keep students, faculty, staff and visitors informed in the event of an emergency that could affect their health and safety, the University’s Crisis Communications Plan, included in the KU Emergency Management Plan, sets forth the process for initiating the notification system, determining the content of the notification, and determining the appropriate segment or segments of the campus community to receive the notification.
Upon confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees occurring on the campus, the University will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or contain, respond to, or otherwise mitigate the emergency.

In accordance with the Crisis Communication Plan, supervisors in the Office of Public Safety have the authority to activate the emergency notification system by alerting police dispatch and University Communications when the supervisor determines there is an immediate threat to health or safety before and until the Emergency Operations Center manager is notified and/or an Emergency Operations Center has been established on campus. Depending on the situation, the broadcaster of the notification may be the Office of Public Safety Dispatch, University Relations or Information Services.

To reach the most people in a timely manner, KU has invested in a multi-tiered emergency notification system designed to reach students, employees, campus visitors and the larger community:

- Text messaging: Cell phone text messages alerting recipients to emergency situations and campus closures.
- Public address system: The system allows emergency dispatchers in the 911 center to provide real-time voice messages to an individual building, a group of buildings or to all equipped buildings. The public address system includes most classroom and gathering spaces on campus.
- E-mail alerts: The University has established an emergency broadcast e-mail system to reach KU e-mail accounts.
- Voice mail: Faculty and staff with voice mail-equipped phones can receive a broadcast voice mail message.
- KU web site: www.alert.ku.edu provides emergency preparedness information and is the central location for updates during a crisis.
- Local media: The University will utilize local media to inform the university community.

The KU Emergency Management Plan is found at: https://documents.ku.edu/Emergency_Management_Plan/EMERGENCY_MANAGEMENT_PLAN_PUBLIC.pdf.

The University’s emergency response and evacuation procedures will be tested at least annually as outlined in the University’s Emergency Management Plan, and the procedures will be publicized in conjunction with at least one test per calendar year. Annual testing may be either announced or unannounced and will be publicized on the Office of Public Safety website. Documentation of the testing, to include a description of the exercise, the date, time and whether it was announced or unannounced, will be maintained in accordance with the Emergency Management Plan and retained by the University’s Emergency Management Coordinator.

**Daily Crime Log**

Federal law requires every university that maintains a police or security department of any kind “shall make, keep, and maintain a daily log, written in a form that can be easily understood, recording all crimes reported to such police or security department” to include the nature, date, time and general location of each crime and the disposition of the complaint, if known. The law requires that this initial information be open for public inspection within two business days of the report of
the crime unless the release of the information would jeopardize an ongoing investigation, cause a suspect to flee or result in the destruction of evidence. New information about entries must be made available within two business days.

Criminal offenses reported to the KU Public Safety Office are written using the Kansas Standard Offense Report form. All completed reports are reviewed by police supervisors, who input data from the Kansas Standard Offense Report form into the Crime Log database. Extraction of that data and uploading of it to the Daily Crime Log is done every business day. If a specific day is not listed, then no crimes were reported on that day. The Daily Crime Log does not include non-criminal reports, accidents or traffic law violations. The disposition of the crime is “case open, investigation continuing, with available information” unless indicated otherwise in the entry.

The Daily Crime Log is posted at: www.crimereports.com/map?search=jayhawk+blvd+lawrence+ks

Fire Log

Federal law requires that every university that operates on-campus student housing facilities maintain a written and easily understood log of all fires that occur in such facilities, including records of the nature, date, time and general location of each fire. The law requires that the log be available for public inspection for the most recent 60-day period and that additions or changes to the log be made within two business days of the receipt of the information. It also requires that any portion of the log older than 60 days be made available within two business days of a request for inspection.

All fires reported to the KU Public Safety Office are included in this log, and those fires reported as occurring in an on-campus student housing facility are so designated. For purposes of this fire log a “fire” is defined as “any instance of open flame or other burning in a place not intended to contain the burning or in an uncontrolled manner”. If a specific day is not listed, then no fires were reported on that day.

The Fire Log is posted at: www.publicsafety.ku.edu/docs/firelog.pdf.

The annual fire safety report pertaining to on-campus student housing is available online at http://housing.ku.edu/media/2012/08/fire-safety-report-2011_web.pdf

Registered Sex Offenders

A federal law, the Campus Sex Crimes Prevention Act amendment to the Jacob Wetterling Crimes Against Children and Sexually Violent Offender Registration Act, requires registered sex offenders to indicate when they are enrolled or employed at institutions of higher learning. The law further requires the state law enforcement authority the Kansas Bureau of Investigation to provide the University of Kansas Public Safety Office with a list of registered sex offenders who have indicated that they are either enrolled or employed at the University of Kansas-Lawrence campus.

The University of Kansas informs the campus community of the list of registered sex offenders for review at: www.publicsafety.ku.edu/docs/CSCPAlist.html.

A list of all registered offenders is available from the Kansas Bureau of Investigation at: www.kansas.gov/kbi/ro.shtml.

For additional information on the Jacob Wetterling Crimes Against Children and Sexually Violent Offender Registration Act visit http://www.fbi.gov/about-us/investigate/vc_majorthefts/cac/crimes_against_children.

Alcohol and Drug Use Policy

The drinking age in Kansas is 21. State law deals strongly with underage drinking, and makes it a crime to furnish alcohol to underage individuals. University policy and enforcement procedures are in full compliance with the law.

The University of Kansas prohibits the unlawful possession, use, manufacture, or distribution of alcohol or drugs by students or by employees on its property or as part of its activities. The University is committed to a program to prevent the illegal or irresponsible use of drugs, alcohol and cereal malt beverage by students and employees. Any student or employee found to be using, possessing, manufacturing, or distributing controlled substances or alcohol in violation of the law or University policy on University property or at University events shall be subject to disciplinary action in accordance with policies of the State of Kansas, the Board of Regents, and the University of Kansas. They may also be subject to criminal prosecution, fine, and imprisonment. For employees, the University will take appropriate personnel action for such infractions up to and including termination. Security personnel also patrol buildings and campus grounds to report suspicious activity and unsafe conditions.

The University staffs an Office of Design and Construction Management which is charged with the responsibility of designing and constructing campus facilities in compliance with applicable codes. It also oversees the campus lighting plan as well as the design and construction standards for all KU buildings. The Department of Facilities Services is responsible for maintaining buildings and grounds. The Student Senate has a Campus Safety Advisory Board that works with the University administration to maintain a safety environment. The Campus Safety Advisory Board advises the University on student safety concerns and provides some funding for improvements.

The campus is regularly inspected by the Kansas Fire Marshal’s Office. Additionally, KU has its own Fire Marshall. KU’s Department of Environment, Health and Safety is committed to aiding the campus in the protection of human health, safety and the environment in a manner that enhances the quality of education, research and public service on campus.

CRIME STATISTICS and RELATED INFORMATION

Preparing the Annual Safety Report

Crime statistics that are provided in this annual report are based upon incidents reported to the KU Public Safety Office (KUPSO), Office of the Vice Provost for Student Affairs, and the Department of Student Housing. Each year a variety of offices are asked to provide information on the educational and prevention programs conducted during that calendar year. Campus Security Authority Training video is available at: http://www.vpss.ku.edu/cleryact/index.shtml#csavideo.

The Department of Student Housing and the Office of the Vice Provost for Student Affairs keep count of disciplinary referrals made from across the university. The KUPSO provides crime statistics for criminal offenses occurring on the Lawrence campus. The Lawrence Police provides crime statistics for crimes reported at fraternities and sororities, as well as crimes reported on public property surrounding campus.

Each year an e-mail notification is sent to all faculty, staff, and enrolled students to inform them of the University's Annual Security Report. It provides the website to access this report. Annual notice is also in the electronic news, KU Today. Prospective students are provided the Annual Security Report website address within the View Book and on Admissions website. Human Resources provides notification to prospective employees in the online application process. All facilities operated by the Department of Student Housing are code compliant with regard to fire doors and fire walls. All group living facilities meet code requirements with regard to number and placement of smoke detectors, heat sensors, fire extinguishers, and enunciator panels. All fire alarm panels in group living facilities are tied to the KU Public Safety Office. Sprinkler systems will continue to be added to residence halls as they are renovated and sooner as funding allows.

**Policy Information**

The Department of Student Housing Handbook lists policies that prohibit the following:

- smoking
- candles and incense
- fireworks and explosive materials
- extension cords and multiple socket plugs
- appliances with exposed heating elements
- gasoline-operated machines
- tampering with fire safety equipment

**Fire Safety Education and Training**

Residence Life staff receive annual training conducted by the Lawrence Fire and Medical staff. This training includes prevention, response procedures, and fire extinguisher use.

Each living area hosts an annual fire safety education program conducted by the Lawrence Fire and Medical staff. These sessions include prevention and alarm response procedures.

The following fire evacuation drills were conducted in 2011.

**FIRE ALARM PROCEDURES**

Fires should always be reported with a “911” call.

After the fact, information about extinguished fires should be reported to the residence life staff-on-duty, the complex director, the Student Housing office, and/or the KU Public Safety Office. When calling, please provide as much information as possible about the location, date, time, and cause of the fire.

Department of Student Housing (785) 864-4560
KU Public Safety Office (785) 864-5900

The residence life Staff Manual contains the following information that forms the basis for fire emergency response training. This includes information that is shared with students, and the reporting structure in a fire emergency situation.

**Purpose:** To prevent or reduce loss of life, injury to residents and staff, and damage to property.

**Order of Command:**
- KUPSO officer in charge
- Fire Department Commander (hereafter referred to as FDC).
• Assistant Complex Director/Complex Director/Scholarship Hall Director (hereafter referred to as ACD/CD/SHD) or person in charge of the hall at that time: If the ACD/CD/SHD is not in the building, a Resident Assistant or Proctor takes charge.

The residence life staff person in charge will report to the front desk immediately and remain there to direct operations until the incident is declared over.

During the incident, staff should follow explicitly the instructions of the fire department commander and KUPSO in charge. If you have concerns or suggestions for modifications, notify your ACD/SHD or CD.

Fire

**Remember:**

- Fire is FAST.
- Smoke from a fire is a major threat. Even if there are no flames and heat, smoke can be lethal.
- Every time a fire alarm sounds in student housing facilities, the **alarm will be treated as a real fire** until a trained professional [Lawrence/Douglas County Fire/Medical (LDCFM), Public Safety, etc.] determines otherwise. The actions taken by student and professional staff during EVERY fire alarm should be the same whether there is an actual fire or not.
- During the emergency, staff members should follow the instructions of emergency personnel.
- If residents have information regarding residents needing assistance, notify emergency personnel and/or hall staff at the front desk.
- Residents should not re-enter the building until LDCFM/Public Safety has given the ALL CLEAR.
- Do not enter a stairwell if there is smoke.
- Check any closed door to see if it is hot using the back of your hand; DO NOT open a door that feels hot.

**Were residents relocated to another building?**

*If yes, for how long?*

**Was the fire alarm sufficiently audible?**

*If no, please explain.*

**Did most residents cooperate during evacuation?**

*If no, please explain.*

**List any problems encountered.**

**Suggestions for future evacuations.**

---

**Basic Principles**

Each time the alarm sounds, it is imperative that the staff considers it a real fire. It is imperative that the staff members report often and accurately to the CD/SHD at the front desk. Await further instructions from the person in charge, complete these tasks, and report what you have done. When the person in charge tells you to leave the building, DO SO. Remember to follow orders NOW and ask questions later, if you wish.

RAs/Proctors should go over the fire alarm procedures from the residents’ point of view at a floor meeting before an alarm. They should close windows, lock doors, take only a towel. Before leaving the room, feel the door; if it is hot, they
should remain inside, placing towels (wet, if possible) around the door and hang a sheet out the window to alert the fire department that they need rescuing. They should also call the front desk from inside the room, if possible. If the door is not hot, they should lock their door behind them, taking the key, and proceed down the stairwell and move outside to 100 feet from the building.

Impress upon your residents the serious nature of pulling false alarms.
