HOW FEES ARE COLLECTED AND HOW TO AVOID THE INVOICE FEE

Fees are automatically deducted from your account at the time they are charged. If you do not have sufficient funds to pay these fees an invoice may be included with your next quarterly statement. If an invoice is issued, there will be a charge applied to that invoice, as noted above. You can avoid this invoice fee by maintaining the minimum cash balance in your account (see below). This cash balance is part of your account and must originate from a contribution, rollover or transfer from another qualified plan or earnings or liquidations from within your account.

REQUIRED MINIMUM CASH BALANCE OF $300

At all times, a minimum cash balance of $300 must be maintained in the custodial cash account. This cash balance is part of your account and must originate from a contribution, rollover or transfer from another qualified plan or earnings or liquidations from within your account. Failure to maintain this balance may result in the distribution of the account to the participant.

FINANCIAL DISCLOSURE

The financial performance of your account is not guaranteed and cannot reasonably be projected over a period of years. Additionally, IRA Services Trust Company cannot supply any financial data projecting the financial performance of your investments. The value of your account will depend on the investment results of the account’s assets, less fees and expenses charged to your account and custodial fees that are charged to your account, if not paid directly by you.

CUSTODIAL CASH DISCLOSURE

All cash for which the account holder has not provided investment instructions will be deposited into a pooled custodial deposit account or accounts with one or more third party FDIC-insured financial institutions selected by IRA Services Trust Company or its affiliates. Interest will be paid on the custodial cash account based on the rate paid on similar accounts by one or more financial institutions selected by IRA Services Trust Company. IRA Services Trust Company or its affiliates may enter into a sub-accounting agreement with the selected financial organizations, in which IRA Services Trust Company or its affiliates will maintain all records pertaining to the account holder’s share of the pooled custodial accounts, post deposits and interest earned to and prepare withdrawals from the account holder’s funds in such pooled custodial accounts for distributions, investments, fees and other disbursements as directed or agreed to by the account holder. The account holder hereby indemnifies and agrees to hold such financial organization(s) harmless from following the directions received from IRA Services Trust Company or its affiliates on the account holder’s behalf.

ASSET VALUATIONS

For assets held in your account, the amounts indicated as “value” or “valuation” on your statement reflects, where possible, the latest prices provided to us by outside quotation services. Some assets, such as real estate, deeds of trust, direct participation programs, promissory notes and other investments, may be listed at original cost, an estimated or accrued value or designated as “not available” where there is no readily available market information. These values may be general approximations and are only for guidance and reporting purposes.

Prices listed may be based on the last reported transaction or quotes available from an outside services, assessed values, values provided to us by asset issuers or program sponsors, IRA owners or other estimates of value. Estimates of value may be based upon an appraisal, book value, prices paid, industry standards or other valuation methods and may not necessarily be current. Values of property based on assessed value may not reflect the actual value of property due to limitations or legal restrictions on assessments in the state/county of the property.

IRA Services Trust Company does not guarantee the accuracy of the prices obtained from any of these sources, the values calculated on the basis of such prices, accrued values, or the estimates of value. Any estimates of value listed with respect to an asset should not be relied upon as being representative of the ultimate financial value of that asset.
