CONQUER
RESIDUAL INSECTICIDE CONCENTRATE

KEEP OUT OF REACH OF CHILDREN
CAUTION
STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center. Do not induce vomiting.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention if irritation persists.

IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

NOTE TO PHYSICIAN:
Probable mucosal damage and danger of aspiration pneumonia may contraindicate the use of gastric lavage.

ACTIVE INGREDIENTS:
- esfenvalerate

INERT INGREDIENTS:
- Contains petroleum distillate

KEEP OUT OF REACH OF CHILDREN
CAUTION
STATEMENT OF PRACTICAL TREATMENT

If swallowed, inhaled or absorbed through skin. Avoid contact with skin, eyes or clothing. Avoid breathing vapors or spray mist. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.

Do not allow children or pets to contact treated surfaces until spray is dried.

Do not apply directly to food. Cover or remove all food and food processing equipment during application. After spraying in meat packing plant, bakeries and other food processing plants, wash with an effective cleaning compound and then rinse with potable water all equipment, benches, shelving, etc., where exposed food will be handled. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Cover exposed food. Do not spray plants used for food or feed.

Do not apply this product in or on electrical equipment due to the possibility of shock hazard.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION

Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with skin, eyes or clothing. Avoid breathing vapors or spray mist. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.

Do not apply to classrooms while in use. Do not apply in institutions (including libraries, sports facilities, etc.) in the immediate area where occupants are present.

For INDOOR PESTS:
GENERAL: Use CONQUER Residual Insecticide Concentrate to control the pests indicated in the listed areas as a contact spray by mixing either one (1) or two (2) fluid ounces of concentrate in one (1) gallon of water or oil and mix thoroughly before use. One (1) ounce of concentrate per gallon of water or oil will make a spray containing .027% active ingredient, two (2) ounces per gallon will make a spray containing .05% active ingredient. For initial clean out of heavy infestations use two (2) ounces of concentrate per gallon of spray; for maintenance control or light infestations use one (1) ounce concentrate per gallon. When using oil as the diluent, an odorless light petroleum hydrocarbon as defined by CFR Title 21, sec. 172.884 should be used for all food area and food related applications. For all applications of contact sprays use at the rate of one (1) gallon (diluted spray) per 1,000 square feet of surface area.

APPLICATION ONLY WITHIN FOOD AND NON-FOOD AREAS OF FOOD SERVICE AND HANDLING ESTABLISHMENTS (Places Other Than Private Residences) including, But Not Limited To: Restaurants, Grocery Stores, Bakeries, Food Manufacturing and Processing Establishments, and Food Warehousing Establishments. Do not treat establishments where livestock feed is present.

Food areas include areas for receiving storage, packing, canning, bottling, wrapping, boxing, preparing, edible waste storage and enclosed processing systems, mills and dairies. Serving areas are places where prepared foods are served, such as dining rooms, but excluding areas where foods may be prepared or held. Non-food areas include garbage rooms, lobbies, floor drains to sewers, entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage after canning or bottling.

Shake Well Before Use

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

CONQUER Residual Insecticide Concentrate can be mixed with an EPA registered insect growth regulator or permethrin-containing product in the areas where these products are allowed to be sprayed. Please check specific label directions of these products before using. Do not mix this product with dichlorvos (DDVP)- containing product.

Do not apply directly to food. Cover or remove all food and food processing equipment during application. After spraying in meat packing plant, bakeries and other food processing plants, wash with an effective cleaning compound and then rinse with potable water all equipment, benches, shelving, etc., where exposed food will be handled. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Cover exposed food. Do not spray plants used for food or feed.

Do not allow children or pets to contact treated surfaces until spray is dried. Do not apply this product in patient rooms or in any rooms while occupied by the elderly or infirm. Do not apply to classrooms while in use. Do not apply in institutions (including libraries, sports facilities, etc.) in the immediate area where occupants are present.

Do not use or store near heat or open flame.

Do not apply directly to food. Cover or remove all food and food processing equipment during application. After spraying in meat packing plant, bakeries and other food processing plants, wash with an effective cleaning compound and then rinse with potable water all equipment, benches, shelving, etc., where exposed food will be handled. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Cover exposed food. Do not spray plants used for food or feed.

Do not allow children or pets to contact treated surfaces until spray is dried.
To kill the accessible stages of Granary Insects: Rice Weevils, Confused Flour Beetles, Rust Red Flour Beetles, Saw-Tooth Grain Beetles, Cadelles, Meal Moth Larvae and Adults, Tobacco Beetles, Drugstore Beetles, and Granary Weevils: Apply a coarse wet spray to surfaces where these pests are normally found, such as floors, baseboards, around walls, benches, and pieces of equipment. Use at a dosage of one (1) gallon of spray per 1,000 square feet. Pay particular attention to cracks, crevices, and similar protected locations in floors and walls. Spray thoroughly and avoid into and around floor drains, non-food conveyors, and other areas where other granary insects may be found. Do not apply when food processing facility is in operation or foods are exposed.

To kill Ants, Centipedes, Cockroaches, Crickets, Earwigs, Millipedes, Psocids, Scorpions, Silverfish, Sowbugs, Spiders, and Waterbugs: Apply this spray with a sprayer that produces coarse, wetting droplets into all cracks and crevices in woodwork, food, underRedux, sinks, areas behind pipes, and in all places where these insects shelter. Use at a dosage of one (1) gallon of spray per 1,000 square feet. Contact as many insects as possible with direct spray. Repeat application as needed, but do not exceed more than one application every seven (7) days and similar food service establishments or more than one application in every fourteen (14) days in all types of food handling establishments.

As a Space Spray.

To Kill Houseflies, Mosquitoes, Gnats and Small Flying Moths: Close room and shut off all air conditioning or ventilating equipment. For space spray applications use a maximum of ten (10) ounces of concentrate diluted in one (1) gallon of oil only to make a 0.25% spray. Use diluted spray in a mechanical aerosol fogger or generator which produces particles of 20 microns or less diameter. Direct spray into all cracks and crevices behind all equipment and appliances, cupboards or any dark harborage areas. Prior to treatment, close and lock doors and windows where these pests may hide. Repeat as necessary.

To Kill Brown Dog Ticks and Fleas: For control of Brown Dog Ticks thoroughly apply as a spot treatment to infested areas such as a pet beds and resting quarter, cracks and behind baseboards, window and door frames and localized areas of the floor and floor coverings where these pests may be present.

To Kill Carpenter Ants:

GENERAL: Use CONQUER Residual Insecticide Concentrate at the rate of two (2) fluid ounces per one (1) gallon of water to control on contact cockroaches, ants, crickets, sowbugs, spiders, and ticks. Use at the rate of one (1) gallon per 1,000 square feet to outside surfaces of buildings, porches, patios, garages and other areas where these pests have been seen or found. Do not spray near fish ponds or other bodies of water. Avoid soaking young or flowering plants.

BUILDING PERIMETER TREATMENT: To help prevent infestation of buildings by ants, crickets, spiders, centipedes, and sowbugs (pillbugs), treat a 12-18 inch band of soil or other substrate adjacent to building foundation to a height of 2 to 3 feet where these pests are active and may find entrance. Use two (2) fluid ounces of concentrate per gallon of water and apply as a coarse wet spray at the rate of one (1) gallon per 1,000 square feet.

TO KILL EXPOSED/SWARMING TERMITES: OUTDOOR USE ONLY. Use two (2) fluid ounces of concentrate per gallon of water and apply as a coarse, wetting spray when swarming termites are seen emerging from wood piles, wooden fences, wooden structures, and from the ground. Swarming usually occurs during the spring or at other times when a termite colony becomes overcrowded and new reproductive termites with wings emerge and fly away to mate and establish new colonies. This treatment will control the swarmed termites and will not protect the structure from which the swarm is coming. Use only a contact spray to kill emerging reproductive (winged) and worker termites emerging from infested wood.

To Kill WOOD DESTROYING PESTS: OUTDOORS ONLY: Carpenter Beetles, Carpenter Ants, Old House Borers, Powder Post Beetles, Furniture Beetles, Round-Headed House Borers, Deathwatch Beetles. Use two (2) fluid ounces of concentrate per gallon of water and apply as a coarse, wetting spray to exposed pests, and to damaged areas of wood, spraying into galleries or tunnels in the exposed wood. Also spray around doors, door frames, windows and other areas where these pests may enter the house or hide. Spray into cracks and crevices and, if necessary, drill small holes and spray into inaccessible wooden structural void where these pests are suspected.

LAWN FLEA AND TICK CONTROL:

To Kill Fleas and Ticks: For power sprayers dilute and apply as shown in the table below. For best results, lawn should be mowed a day or two before spraying. Spray using a slow, even sweeping motion, being sure to cover the entire lawn surface where the pests will normally frequent. Spray under ornamentals and trees, but avoid soaking young or flowering plants. Repeat treatments may be necessary at 7 to 14 day intervals. Kills on contact the *Ixodes dammini* tick (deer tick), which transmits lyme disease. Also kills foraging fleas upon direct contact. A registered fire ant mound treatment should also be used in conjunction with this product. Keep pets and children out of the treatment area until after spray has dried. Do not spray animals. Dogs, cats, their kennels or bedding area should be treated with a registered flea control product.

OUTDOOR CONTROL OF ASIAN COCKROACHES

To control outdoor Infestations of Asian cockroaches: Dilute 10 teaspoons of CONQUER Residual Insecticide Concentrate in 30 gallons of water to treat 5,000 sq. ft. Repeat as needed. Keep children and pets off treated areas for 24 hours or until the grass has completely dried.

STORAGE AND DISPOSAL

Do Not Contaminate water, food, or feed by storage or disposal.

STORAGE:

Store in a warm, dry place. Keep container closed.

PESTICIDE DISPOSAL:

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. In case of spill or leak, soak up with sand, earth or synthetic absorbents. Do not use alkaline absorbents or clean area of spill with alkaline detergents.

Do not reuse empty container. Wrap container in several layers of newspaper and discard in trash.
