Working Together Makes Us Better

154th Iowa Dental Association
ANNUAL SESSION

May 5 - 7, 2016
Des Moines, Iowa

PREVIEW
Dentists
Dental Hygienists
Dental Assistants

Advance Registration Deadline April 14, 2016
Discover why over **30,000** dentists entrust their coverage with the PPP

- Providing coverage for dentists since 1969
- The PPP was the first insurance program designed specifically for dentists
- Claims-made and Occurrence forms available
- Eliminate possible gaps in coverage with Professional Liability, General Liability, Property, EPLI, and Cyber written on one policy by one carrier
- Underwritten by an “A” (Excellent) carrier by AM Best
- Dedicated claims team with experience handling dental related claims
- Various Risk Management Services and Resources
Dear IDA Member:

The 154th Annual Session will be held Thursday, May 5, through Saturday, May 7, 2016, in Des Moines. This year’s theme is “Working Together Makes Us Better”.

Please note the days of the Annual Session will continue the same as last year – the Annual Session meeting days are Thursday, Friday, and Saturday.

There will be lectures led by exceptionally qualified and nationally-recognized speakers. All are outstanding speakers who will present current topics in dentistry. A new feature this year is the “Lunch and Learn” Sessions on Thursday.

The exhibit hall will feature displays of the newest dental products and equipment by nationally-recognized manufacturers. Exhibits will be open for 1½ days (all day Friday and Saturday morning). Table Clinics will also be presented in the exhibit hall on Saturday morning.

Please join us at the President’s Dinner on Friday evening at the Marriott Hotel. You may purchase tickets for the President’s Dinner through online registration. Prior to the dinner, the IDPAC/IDF Reception will be held at the Iowa Hall of Pride. If you have donated $250 to IDPAC or $300 to the Foundation, you and a guest will receive an invitation to attend.

The Exhibitors’ Reception will be held on Thursday evening. A new event this year is the New Dentists’ Reception which will also be held on Thursday evening – you will need to RSVP – see more information about the event in this brochure.

You are encouraged to pre-register early to avoid the rush on-site and, more importantly, to save the additional on-site registration fees. Please encourage your staff to take advantage of online registration. By registering online, staff members can avoid general registration fees. Course registration fees for some courses will still apply – look for details in this brochure. Also, remember that staff members must print their badges and course passes for paid courses. Please note the registration materials for dentists and staff will be in a new location this year – the Exhibit Hall – so stop and visit with the exhibitors when you pick up your materials!

All housing reservations must be made online through the Des Moines Convention and Visitors Bureau. The link to online housing is on the IDA website.

Take time today to plan ahead and secure your registration and tickets for the courses and events. We hope you will join us in Des Moines at the 2016 Annual Session!

Sincerely,

Dr. Thomas Ludwig
President of the Iowa Dental Association
Dr. Thomas and Nancy Ludwig Invite you to join them for The President’s Dinner & Awards Presentation
Friday, May 6, 2016 • Marriott Downtown
Cocktails 7:30 p.m. • Dinner 8:00 p.m.

The following individuals will receive awards:
Martin Averill, DDS, Distinguished Service Award
Lola Galiher, President’s Award
Dennis Higginbotham, DDS, Outstanding Service Award
Ryan Hajek, DDS, New Dentist Award
Cary Jackson, DDS, New Dentist Award

Tickets: $60.00 per person

Sign up on the Annual Session Registration Form. Reservations due by April 14, 2016.
Dentists and staff are encouraged to take advantage of online registration. Staff will not pay a registration fee if they register online and print & bring their badge (limited attendance course fees still apply).

**REGISTRATION FEES-DENTISTS**

- Dentists pre-registered online or by mail or fax: $125
- Dentists registered on-site: $200
- Retired Life Dentists: $0
- Spouse and family: $0
- Dental students/Graduate students: $0

Dentists must be members of the ADA. 2016 dues must be paid at time of advance registration or ADA members may register on-site upon presentation of a 2016 ADA membership card. Dentists may not register under any other category.

The following dentists will be exempt from paying the registration fee: Table Clinicians, Speakers, Graduate Students, Active Life Members (only for the year in which they are inducted into life membership), and Retired Life Members.

**REGISTRATION FEES-STAFF**

- Staff pre-registered online-prints & brings badge: $0
- Staff pre-registered by mail or fax: $25
- Staff pre-registered online-does not bring badge: $25
- Staff registered on-site: $75

*Staff includes dental hygienists, dental assistants, office personnel, and dental lab technicians.

Dental Lab Technicians will be admitted to exhibits; however, those not registered with an exhibit booth are prohibited from promoting their services on the exhibit floor. A Dental Lab Technician who is working at an exhibit booth should register as an exhibitor.

Dentists who are exhibiting must also be registered under the dentist category.

**Cancellations**

A $25 administrative processing fee will be charged on all cancellations per paid registrant. The cancellation fee applies to registration fees and course fees. The cancellation fee will be deducted from all refunds.

**Registration Hours**

Registration is located in Memorial Hall, Level 3, Veterans Memorial Community Choice Credit Union Convention Center.

- Thursday, May 5: 6:30 a.m. – 5:00 p.m.
- Friday, May 6: 6:30 a.m. – 5:00 p.m.
- Saturday, May 7: 6:30 a.m. – 1:00 p.m.

**Dentists:** Bring your confirmation with you. Show your confirmation to pick up your packet of materials in the Exhibit Hall. Dentist, spouse and family badges will be in your packet. Course passes and event tickets will be included in the dentist packet.

**Staff:** Bring your confirmation with you. Staff registering online must print and bring their badge. Badge holders will be available to pick up in the Exhibit Hall. Staff registering by mail or fax may pick up their badge in the registration area.
Staff Must Print Course Passes When Registering Online.  
(Paid Courses Only)

Register Online at www.iowadental.org  
Advance registration deadline  
April 14, 2016 @ 5:00 p.m. (online, mail and fax)

Continuing Education & Course Admittance  
Continuing Education Credits for Dentists, Dental Hygienists and Dental Assistants

General Attendance
The Iowa Dental Board will award three (3) CEUs for general attendance.  DANB will award one (1) CEU for attending exhibits. The verification code for general attendance will be posted in the registration area.

Table Clinics
The Iowa Dental Board will award two (2) CEUs for attending table clinics.  DANB will award one (1) CEU for attending table clinics. The verification code for attending table clinics will be provided in the exhibit hall.

Courses
The courses sponsored by the Iowa Dental Association are open to dentists, dental hygienists, and dental assistants. All courses sponsored by the Iowa Dental Association have been submitted for approval to the Iowa Dental Board for CEU credit for dentists, dental hygienists, and dental assistants. The number of approved CEU credits is listed with the course description.

Continuing Education Recording Form
All attendees will receive a Continuing Education Credit Recording Form. To receive credits, record the verification code announced at the end of each course. Completed forms should be deposited in the boxes in the registration area or in the foyer at the end of the lecture room hallway.

AGD Members:  Sign course roster at each lecture you attend to receive AGD credit.

Approved PACE Program Provider  
FAGD/MAGD Credit  
Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. 1/1/2013 to 12/31/2016

Dental Assistant Registration Renewal Requirements
All dental assistants must renew their registration every two years. Renewal will require completion of 20 hours of continuing education every two years to include:

- Two hours in the subject area of infection control
- Evidence of current certification in CPR (up to three hours may be claimed)
- Two hours in the subject area of dental radiography (required only if certified to take x-rays)

CEU Requirements for Dental Hygienists and Dental Assistants Courses - Staff Courses
You must complete a separate CEU card to receive credit for courses. You will receive the card when you enter the lecture room. You must be on time for the lecture or you will not receive the card and, therefore, will not receive credit. Record the verification code announced at the end of the lecture on the card and return the card to the course monitor at the end of the lecture to receive credit. In exchange for the completed CEU card, you will receive a proof of attendance card.  

You must print your course pass when registering online.  You will need the course pass to be admitted to the lectures.

Limited Attendance Courses
See program schedule for the listing of limited attendance courses and course fees for dentists, dental hygienists and dental assistants.

Course Handouts Online
Handouts will be available online before the meeting. You may print the handouts for the courses you plan to attend and bring them with you to the Annual Session. Handouts will not be distributed on-site. Download handouts from the IDA website (www.iowadental.org) after April 15.

Course Passes
Course passes for limited attendance courses will be placed in dentist registration packets. Dentists must show course pass to be admitted to the lecture.  

Staff must print course passes when registering online.  
(Paid courses only.)  
Staff must show their course pass before being admitted to the lecture.

General Information
Important Deadline Dates
Advance registration .................. April 14 – 5:00 p.m.  
After this date, attendees must register on-site.  
Hotel reservations ......................... April 12  
Cancellations/refunds ...................... April 21
Requests for refunds must be in writing and received two weeks prior to the Annual Session. No refunds after April 21. A $25 processing fee per registrant will be charged for cancellations.

**Morning Coffee and Lunch**
For quick service, eat at the concession stand located in the exhibit hall. The concession stand will be open during regular exhibit hall hours and will offer continental breakfast items and a variety of deli items.

**Parking**
Available north of Veterans Memorial with entrances off Third and Fifth. Parking also available on streets and in city garages. Parking fees may apply.

**Transportation to Lectures and Exhibit Hall**
Shuttle bus transportation will be provided from all designated overflow hotels to the Iowa Events Center.

### 2016 Annual Session Features
- Exhibits, table clinics and lectures held at the Veterans Memorial Community Choice Credit Union Convention Center.
- 100+ exhibit booths on Friday and Saturday (built-in course breaks allow time to visit the exhibitors)
- Table Clinics presented Saturday in the exhibit hall
- Online registration available. Register online at www.iowadental.org
- One registration fee covers 3 days of quality continuing education (some limited attendance courses fees apply)
- Online housing available
- Pre-registered Dentists and Staff will pick up registration materials in the Exhibit Hall allowing you extra time to visit with the exhibitors.
- Free Exhibit Hall pass available on Saturday

**Questions?** For additional information about the 2016 Annual Session, call the convention coordinator at 800-828-2181, ext. 104, or e-mail suzanne.lamendoza@iowadental.org

### FREE EXHIBIT HALL PASS
**SATURDAY, MAY 7**
8:30 a.m. to Noon
Available for dentists and staff
No CEU credits will be allowed for general attendance, table clinics, or courses.

**Table Clinics**
Saturday, May 7 ......................... 9:00 to 11:00 a.m.
Table clinics will be presented in the Exhibit Hall.

### Dentists Needed To Present Table Clinics
The Iowa Dental Association needs support from dentists to make our table clinics program a success. As a table clinics presenter, the $125 registration fee will be waived and you will receive 4 CEU credits. Remember that one of the easiest ways to present the information to your colleagues is by doing a Powerpoint presentation. An application to present a table clinic is included in this brochure. If you have questions or need ideas for a presentation, call Standing Committee Table Clinics Chairs, Dr. Cynthia Phillips at 641-682-2617 or Dr. Rodney Snavely at 515-279-0926.

### 2016 HOUSING – Des Moines
**Housing reservation deadline:** April 12
**ALL RESERVATIONS MUST BE MADE ONLINE through the Des Moines Visitors and Convention Bureau.**

To book your room online, click on the housing link on the IDA website.

Hotel blocks have been reserved at the following hotels; no telephone requests will be accepted; do not call individual hotels for reservations.
- Des Moines Marriott Downtown
- Holiday Inn Downtown at Mercy Campus
- Renaissance Des Moines Savery Hotel

Contact the Iowa Dental Association Housing Bureau at 800-451-2625 with questions.

**Register Online at** www.iowadental.org

**Advance registration deadline April 14, 2016 @ 5:00 p.m. (online, mail and fax)**

**Exhibit Hall Hours**
Friday, May 6 ......................... 8:30 a.m. – 5:00 p.m.
Saturday, May 7 ....................... 8:30 a.m. – Noon

**Support our Exhibitors**
Save your orders for the Annual Session. The exhibitors will offer show specials only available during the meeting. Visiting the exhibit hall is a valuable educational component of the meeting for the dentist and staff. Meet with the exhibitors, see new products, and obtain information about upcoming products.

The exhibitors are our industry partners so show your support. They are here to assist you; take advantage of this opportunity.

Built-in morning and afternoon breaks have been scheduled during the courses to allow time to visit the exhibit hall. Longer lunch breaks between courses have also been scheduled.

Free Exhibit Hall Pass available on Saturday.
IDF/IDPAC Donor Appreciation Reception
Friday, May 6, 2016 · 5:00 p.m. to 7:30 p.m.
Iowa Hall of Pride
330 Park Street (next to Iowa Events Center)

Enjoy a wide variety of hors d’oeuvres, great cocktails and the Iowa Hall of Pride Museum!

Want to be a part of the fun? Become a part of the IDPAC Inner Circle with a minimum donation of $250.00 and/or join the Iowa Dental Foundation’s Circle of Giving with a minimum tax deductible donation of $300.00. Call 800-828-2181 for more information.

Course Descriptions
2016 ANNUAL SESSION

The fee for this course is not included in the registration fee; it is a separate fee.

Speaker ....................... Dr. James Swift
Title ......................... AM Session – Medical Emergencies in the Dental Office
Title ......................... PM Session – The Third Molar Dilemma-
When to Extract, When to Observe

Day ......................... Thursday, May 5
Time 1st Session ............ 9:00 a.m. to Noon
Time 2nd Session .......... 2:00 to 5:00 p.m.
Fee ................................ $85 dentist; $45 staff

Pre-Registration Required
COURSE PASS REQUIRED FOR ADMITTANCE
CEU .................................................. 3.0 per session
Course content primarily designed for:
Dentists/Dental Hygienists/Dental Assistants

9:00 to 12:00 One More Time-Medical Emergencies in the Dental Office
Lifesaving for the Dental Professional

Managing medical emergencies in the dental office mandates continuous updates. As patients age and disease progresses, medical histories change. In addition, new medical treatment modalities and pharmaceuticals are utilized to optimize health. These changes have an impact on managing medical emergencies.

This course will include:
• Update on CPR
• Update on medications necessary for the contemporary emergency kit
• Automatic External Defibrillator update
• Most common medical emergencies
• New anticoagulants and effect on bleeding as a complication associated with dental surgery

2:00 to 5:00 The Third Molar Dilemma-when to extract, when to observe

There has been significant debate and discussion on the appropriate management of maxillary and mandibular third molars. Some associations have established policies or statements that warn patients to not undergo removal. Other associations or groups have published statements regarding the benefit of the procedures. This course will include:
• Review of scientific data regarding recommendations for the management of third molars
• Review of complications associated with surgical procedure
• Discuss decision-making strategies to assist the oral health care provider to make recommendations to their patients

The Case for Careful Observation (and avoidance of allegations of failure to diagnose)

It is important that oral health care providers perform clinical and imaging examinations of patients to detect pathology and need for treatment. In some situations, some clinical findings are difficult to delineate or manage and may warrant further evaluation or observation.

This course will include:
• An explanation of clinical findings that would warrant further evaluation
• Observation intervals for positive findings
• Determination as to when to biopsy and when to observe

Speaker ....................... Dr. Juan Yepes
Title ......................... Oral Diagnosis in the Pediatric Patient:
Radiology and Oral Pathology

Day ......................... Thursday, May 5
Time 1st Session ............ 9:00 a.m. to Noon
Time 2nd Session .......... 2:00 to 5:00 p.m.

Each session will contain different content.

Fee .................................................. $0
CEU .................................................. 3.0 per session
Course content primarily designed for:
Dentists/Dental Hygienists/Dental Assistants

Sponsor ......................... Sponsored by a grant from the Delta Dental of Iowa Foundation – Annual Conference Guest Lecture Series.

This seminar will provide the attendee with the most up-to-date information regarding the fascinating field of oral diagnosis in the pediatric patient. The seminar will use case-presentation as the learning and discussion format and will cover the entire spectrum of radiology and pathology in pediatric dentistry. Topics such as radiation safety, imaging of the most common pathological conditions in children, and cone beam CT will be discussed in detail. Also risk factors for dental caries in vulnerable populations will be discussed.
Objectives
After attending this seminar, the participant will be able to:

• Understand the importance of “building” a differential diagnosis and differential interpretation

• Describe the effects of radiation in children and the measures to minimize the exposure to radiation

• Learn the most updated knowledge of cone beam computed tomography and the applications in pediatric dentistry

The fee for this course is not included in the registration fee; it is a separate fee.

Pre-Registration Required

COURSE PASS REQUIRED FOR ADMITTANCE

CEU ........................ 3.0 per session (pending approval)
You must complete a separate CEU card to receive credit. You will receive the card when you enter the lecture room.

Course content primarily designed for:
Dental Hygienists/Dental Assistants

Course Code .......................... TB
Sponsor .............................. Dentsply

Course Description:
Those in search of riches know that one must move a lot of dirt in order to find a little bit of gold. This course is designed to sift through the “dirt”, providing informational “gold” on a variety of dental topics essential to day-to-day clinical practice. This course is designed to give a practical “soup-to-nuts” approach to the latest research and materials and the tools and tips for longer lasting dentistry.

Course Objectives:
1) Learn current trends in today’s general practice
2) Technique tips for effective assisting
3) Improve knowledge in adhesive materials and techniques
4) Understanding choices in restorative materials and what is best indicated in a given situation
5) Discuss key concepts in light curing and matrixing systems
6) Learn the keys to flawless shade taking

Dr. Cochrane
Simplified Extractions and Socket Grafting Techniques for Ridge Preservation
Socket grafting without a doubt is a value added service. It obviously facilitates good implant placement but it can also be used for ridge augmentation for fixed or removable prosthetics. Socket grafting is an intricate procedure. It requires a lot of little steps, each one is quite simple but the compilation of getting every little step right is complicated. There are also unintended surprises along the way and one must have the experience and knowledge to deal with these. Dr. Cochrane will discuss socket grafting with a step-by-step illustration of procedures and provide the attendees with a complete list of all the materials needed for this procedure.

Dr. Moffitt
The Versatility of Locators in Your Practice
“The Versatility of Locators in your Practice” is a one hour program that gives an overview of Zest Locators, components, the rationale for Locator use, and a number of case photos of the different way Locators can be used to restore lost dentition.

Limited Attendance – Pre-Registration Required

COURSE PASS REQUIRED FOR ADMITTANCE

Speaker Table Assignments: When your course registration is paid, email your first three speaker preferences to Suzanne.Lamendola@iowadental.org

Dr. Keith V. Krell
What do we know about cracked teeth?
This presentation will answer the following questions:

• What is a “cracked tooth” versus a root fracture?
• How do we diagnose a cracked tooth?
• What are predisposing features resulting in a cracked tooth?
• How should cracked teeth be treated?
• What is the prognosis for a cracked tooth with a reversible pulpitis?
• What is the prognosis for a cracked tooth with a irreversible pulpitis?
• What is the prognosis for a cracked tooth with a pulpal necrosis?

Tanya Dunlap, PhD
Periodontal Solutions for Everyday Practice: Change the Microenvironment and Address the Biofilm Cause

Description:
Biofilm infections that cause periodontal disease present significant treatment challenges. Not only do biofilms have defensive capabilities that make treatment less effective, but they are also difficult to address between office visits. Toothbrush, rinse, and floss just don’t get deep enough. One approach that offers better biofilm management is the prescription tray delivery of oxidizing and oxygenating agents deep into periodontal pockets. Research shows statistically significant reductions in bleeding and pocketing when prescription tray delivery is combined with scaling. Case studies explain how doctors incorporate the special delivery into treatment plans. You’ll walk away from this course with practical solutions that you can implement tomorrow.

Learning Objectives:
At the conclusion of this course, attendees will be able to:
1. Identify the benefits and limitations of peroxide usage for patients with periodontal disease.
2. Understand how and when to incorporate adjunctive prescription tray delivery into treatment protocols.
3. Identify good patient candidates for prescription tray delivery.

Ebon Turner, B.S.
Oral Cancer Screening with VELscope Vx
The traditional clinician’s head and neck examination is best at detecting visible changes on the tissues surface. Unfortunately, the tissue changes that lead to oral cancer start below the surface of the epithelium at the basement membrane. These changes are not normally visible to the unaided eye until the disease progresses to the epithelial surface.

Enhanced screening is at the core of the new approach of prevention. Technology now exists that allows the dental clinician to easily detect pre-malignant conditions and much more at the earliest stages. Now with frequent exposure in the media, increased legal claims, and links to the HPV virus, patients are beginning to understand, differentiate, and expect adjunctive technologies to be used for enhanced screening and prevention.

Course Outline
1. Oral Cancer and understanding the new risks
2. VELscope Vx: Understanding the technology, application and effectiveness.
3. Enhancing communications: Obtaining high patient acceptance regardless of insurance coverage, plus process of referral if required
4. Implementing into practice
   a. Pricing strategies
   b. Practice growth

Upon completion, participants will possess a better understanding of Fluorescence technology, including the interpretation of findings and proper treatment protocols. Clinicians will also be provided with information regarding documentation, patient interaction, and billing options.

The fee for this course is not included in the registration fee; it is a separate fee.

Speaker ...................... Dr. Hal Crossley
Title ...................... Know Your Patients’ Medications and Their Impact on Dental Treatment
Day ...................... Friday, May 6
Time  ...................... 1st Session ....... 7:30 to 9:30 a.m.
                      ...................... 2nd Session ....... 10:30 a.m. to Noon
                      ...................... 3rd Session ....... 1:30 to 3:00 p.m.
                      ...................... 4th Session ....... 3:30 to 4:30 p.m.

Each session will contain different content.

This schedule allows time for Exhibit Hall Breaks.

Fee ...................... $85 dentist; $45 staff
Pre-Registration Required
COURSE PASS REQUIRED FOR ADMITTANCE
CEU ...................... 2.0, 1.5, 1.5, 1.0

Course content primarily designed for:
Dentists/Dental Hygienists/
Dental Assistants

Course Code ...................... HCD-dentist / HCST-staff
Know Your Patients’ Medications and Their Impact on Dental Treatment!
Your patients are living longer thanks to their medications but many of the physician-prescribed medications used by your patients have dental implications and side effects affecting your treatment plan. When is it safe to have the patient stop taking their anticoagulants for dental treatment? Some of these medications are the drugs of choice of “doctor shoppers”. Some medications are more likely to cause violent behavior and others can cause a “burning mouth syndrome” and, in fact, others may cause sexual dysfunction. Should I use caution when prescribing NSAIDs with antihypertensives? Is antibiotic prophylaxis required for patients with orthopedic prostheses?

This presentation includes the indications, contraindications, and side effects of the most commonly prescribed medications. Many of these medications represent 30% of all prescriptions taken by your dental patients and familiarity with these drugs will provide the dental practitioner with a better appreciation for the health profile of your dental patient.

At the conclusion of this course, the attendees will know:
- Prescription, OTC medications, and foods that could adversely interact with dental drugs.
- Why your patient is taking their medications.
- What oral side effects may be caused by these medications.
- Maximum doses for commonly prescribed pain medications.
- When not to prescribe NSAIDs.
- How to manage patients taking some of the newer anticoagulant medications.
- How to combine analgesics to maximize their effects.
- Indications and contraindications for opiate analgesics.
- Current recommendations for SBE and orthopedic prosthesis prophylaxis.

Exhibit Hall Breaks.
Fee .................................................. $0
CEU .............................................. 2.0; 1.5; 1.5; 1.0
Course content primarily designed for:
Dentists/Dental Hygienists/Dental Assistants
Sponsor ........................................... Dentsply

Course Description:
In today’s general dental practice, 40% of revenues come from crown and bridge procedures. Eighty percent of those procedures are single unit crowns. In addition, a staggering 45% of all billed direct restorative procedures are Class II’s! This course begins with describing the principles of preparation design and stresses the importance of thoughtful tooth preparation. A review of current concepts in tissues management and impressioning will be discussed. The focus then shifts to Class II restorative solutions and procedures. By course end, the audience will be able to select appropriate indirect materials and the glues we choose to use to hold them. Furthermore, attendees will be able utilize knowledge of the newest direct restorative materials to perform and restore more competently and efficiently. Clinical tips and brand suggestions will be included.

Course Objectives:
1. Review principles of tooth preparation
2. Learn current methods for tissue management and impressioning for crowns and bridge
3. Review the latest array of indirect material choices
4. Learn proper cement selection
5. Define adhesion and compare/contrast 7 generations of dental adhesives
6. Review criteria for properly placed matrix band and wedge and review matrix systems
7. Discuss choices of materials and suggested technique for placing, finishing and polishing
8. Shortcuts and pearls for composites success

The fee for this course is not included in the registration fee; it is a separate fee.

Speaker .............................. Dr. Brent Larson
Title ................................. Interceptive Orthodontics – The What, When, How & Why
Day ................................... Saturday, May 7
Time .............................. 1st Session 8:00 to 9:30 a.m.
                          2nd Session 10:30 a.m. to Noon
Each session will contain different content.

This schedule allows time for Exhibit Hall Breaks.

Fee ........................................... $35
Pre-Registration Required
COURSE PASS REQUIRED FOR ADMITTANCE
Course content primarily designed for: Dentists

**Course Code**: BL

**Course Description:**
This course is designed to help the dentist make good decisions regarding interceptive orthodontic treatment for their patients. The program will include information about:

- Understanding the normal and recognizing the abnormal in mixed dentition development
- Determining whether a recognized orthodontic problem is stable or progressive
- Types of appliances that are predictable for correction of mixed dentition problems
- When orthodontic intervention is recommended for different types of problems
- Why early orthodontic treatment may be recommended in some situations and not in others

The fee for this course is not included in the registration fee; it is a separate fee.

**Speaker**: Dr. Donnie Luper

**Title**: Current Scientific Evidence in Endodontic Therapy/Lecture

**Efficient & Effective Orthodontics/Hands-on Session**

**Day**: Saturday, May 7

**Time**

- Lecture (Each session will contain different content.)
  - 1st Session: 8:00 to 10:00 a.m.
  - 2nd Session: 11:00 a.m. to 1:00 p.m.
- Hands-on Session: 2:00 to 5:00 p.m.

This schedule allows time for Exhibit Hall Breaks.

**Fee**

- $0 – Lecture
- $85 – Hands-on Session

**Pre-Registration Required**

**COURSE PASS REQUIRED FOR ADMITTANCE TO HANDS-ON SESSION**

**CEU**

- 2.0 per session/Lecture
- 3.0/Hands-on Session

**Course content primarily designed for: Dentists**

**Course Code**: DLHW

**Sponsor**: Sponsored by a grant from the Delta Dental of Iowa Foundation – Annual Conference Guest Lecture Series

**Course Description:**
This course will introduce you to the necessary knowledge and tools to treat difficult or otherwise unmanageable patients. We will discuss cases covering autistic, medically compromised, and mentally challenged patients, from the apprehensive to the combative, from infancy to old age, in the office, in the OR, and elsewhere off site. This course will illustrate criteria for case selection, protocols for pre- and postoperative care, and practical clinical tips for greater intra-operative efficiency. After taking this course, you will have the tools to de-
cide if you wish to implement or augment special-needs dentistry within your practice. The course will conclude with a live demo of some of the tools, equipment and supplies discussed in the presentation.

The fee for this course is not included in the registration fee; it is a separate fee.

Speaker: Dr. Sherry Timmons  
Title: Infection Control Update  
How To Provide A Safe Dental Visit and What the Public Expects  
Day: Saturday, May 7  
Time: 8:00 to 10:00 a.m.  
Fee: $35

Pre-Registration Required  
COURSE PASS REQUIRED FOR ADMITTANCE  
CEU: 2.0

You must complete a separate CEU card to receive credit. You will receive the card when you enter the lecture room.

Course content primarily designed for: Dentists/Dental Assistants/Dental Hygienists  
Course content will meet dental assistant registration renewal requirement.  
Course Code: IC

The objectives of this course are to explain the CDC’s guidelines and recommendations and discuss how dental practices in Iowa can maintain compliance with the law to provide a safe environment for patients and employees. Specific topics that will be covered include standard precautions, use of personal protective equipment, hand hygiene, latex sensitivities and allergy, operatory preparation, instrument processing and sterilization, and management of sharps. You will also understand the OSHA regulations and how they apply to the dental practice.

After this course, participants will be able to
  • discuss ranking of the CDC Guidelines and OSHA Regulations.
  • implement an effective infection control program for their dental office.
  • understand how to prevent transmission of bloodborne pathogens.
  • practice safe and effective hand hygiene in the dental practice.
  • understand the purpose and limitations of personal protective equipment.
  • identify the signs, symptoms, diagnosis, and management of contact dermatitis and latex hypersensitivity.
  • safely and effectively disinfect environmental surfaces
  • safely and effectively reprocess contaminated dental instruments
  • explain issues involved with dental water quality, including dental unit waterline biofilms and delivery of water of acceptable biological quality
  • identify the infectious diseases that may be transmitted during dental care and take the appropriate precautions to decrease the risk of transmission.
  • understand the OSHA Hazard Communication Standard

The fee for this course is not included in the registration fee; it is a separate fee.

Speaker: Dr. Veeratrishul Allareddy  
Title: Radiography Renewal: Current Guidelines in Radiation Protection in Dentistry  
Day: Saturday, May 7  
Time: 11:00 a.m. to 1:00 p.m.  
Fee: $35

Pre-Registration Required  
COURSE PASS REQUIRED FOR ADMITTANCE  
CEU: 2.0

You must complete a separate CEU card to receive credit. You will receive the card when you enter the lecture room.

Course content primarily designed for: Dentists/Dental Assistants/Dental Hygienists  
Course content will meet dental assistant registration renewal requirement.  
Course Code: RR

The course will cover broadly the Current Guidelines in Radiation Protection in Dentistry.

The content will include:
  a. Recommendations of shall and shall nots in radiation usage in dentistry.
  b. Dose limits to the operator, patient and public
  c. Radiation dose from different modalities of Imaging in dentistry
  d. Selection Criteria and best practices for use of radiation in dentistry for different modalities including
     a. Film imaging
     b. Digital Imaging
     c. Hand held Imaging
     d. Cone Beam Computed Tomography
Speaker Biographies
2016 ANNUAL SESSION

Dr. Trishul Allareddy, is an Associate Professor at The University of Iowa. He joined The University of Iowa, College of Dentistry and Dental Clinics in 2008 as a faculty member after completing his residency there and having spent a little more than a year as a consultant to a private imaging company. He is currently the Program Director for the Advanced Education Program in Oral and Maxillofacial Radiology (AAOMR) and the Director of Radiology at the College of Dentistry. He serves on several collegiate, university, national, and international committees. He is currently the American Dental Association and American Academy of Oral and Maxillofacial Radiology representative to DICOM. He is the co-chair for Working Group 22 (Dentistry) of the Digital Imaging and Communication in Medicine (DICOM) Standards Committee, where he also serves on the Leadership, Outreach, and Educations Committee and is the co-chair of the Standards and Codes Committee for the AAOMR. He is a reviewer for eleven peer-reviewed Journals in dentistry and radiology. His main expertise and interest is in the use of technology in dentistry. His research areas are related to reduction of the radiation dose to the patient, healthcare outcomes, dental education, big data share, and the role of advanced imaging in the oral and maxillofacial regions as it applies to dentistry.

Dr. Timothy M. Bizga, is a general dentist practicing in Cleveland, Ohio. His practice focuses on comprehensive care with Dr. Bizga’s special interests in implants, cosmetics and facial aesthetics. His background in dentistry is lengthy and diverse. Once a former chairside assistant, he also worked as a dental lab-technician making his perspective unique among others in the field of dentistry. He graduated from Saint Louis University with a BA in Biology before receiving his DDS from the University of Michigan School of Dentistry, at which time he was the recipient of the Francis B. Vedder award for excellence in prosthodontics. He is currently a member of the American Dental Association and a Pre-fellow in the Academy of General Dentistry. He is a graduating member of the Whitecap Institute where he received advanced implant training. Dr. Bizga is a Certified John Maxwell Speaker/Trainer/Coach, a certified DISC profile trainer, clinical consultant for The Dental Advisor and member of Catapult Elite. Dr. Bizga gives back to the community via dental missions around the world.

Dr. Bruce Cochrane, has been practicing periodontics in Northwest Iowa for forty years. He is a veteran of blade, periosteal and osseo integrated implants. He has a wealth of experience with osseo integrated implants. Dr. Cochrane is a graduate of the University of Nebraska. He has specialty degrees in Fixed Prosthodontics and Periodontics from the University of Missouri in Kansas City.

Dr. Harold L. Crossley, is Professor Emeritus at the University of Maryland Dental School. A native of Rhode Island, Dr. Crossley received a Bachelor of Science degree in Pharmacy from the University of Rhode Island in 1964. He later was awarded the Master of Science (1970) and Doctorate degrees (1972) in Pharmacology. The University of Maryland Dental School in Baltimore awarded Dr. Crossley the D.D.S. degree in 1980. The liaison between the classroom and his part-time dental practice produced a practical approach to understanding the pharmacology of drugs used in the dental office. Dr. Crossley has co-authored a number of articles and four books dealing with a variety of topics within the field of pharmacology. Other areas of expertise include the pharmacology of street drugs and chemical dependency. He serves on the Maryland State Dental Association’s Well-Being Committee, is an active member of Phi Kappa Phi, Omicron Kappa Upsilon Honorary Dental Society, the American College of Dentists, International College of Dentists, and an honorary member of the Thomas B. Hinman Dental Society. He was the recipient of the 2008 Gordon Christensen Lecturer Recognition award presented by the Chicago Dental Society and the recipient of the 2012 Award of Distinction presented by the Academy of Dentistry International for his efforts in Continuing Dental Education. He has been a consultant for the
United States Drug Enforcement Administration and other law enforcement agencies since 1974. Drawing on this unique background, Dr. Crossley has become nationally and internationally recognized as an expert on street drugs and chemical dependency as well as the clinical pharmacology of dental drugs.

Tanya Dunlap, PhD, is the Managing Director for Perio Protect, LLC. She coordinates clinical research involving prescription tray delivery and offers educational content on the important implications of research results to dental professionals and patients.

Dr. Keith V. Krell, has been in full-time private practice with Endodontics PC in West Des Moines, Iowa, for 27 years. He is an adjunct professor in the Department of Endodontics at the University of Iowa College of Dentistry where he also served as graduate program director. In 1993, he retired from the United States Army National Guard as a lieutenant colonel after 22 years of service.

He received his D.D.S. and M.S. degrees from the University of Iowa in 1981 and 1983, respectively. He earned his M.A. degree in sociology-anthropology in 1975 from the United States International University in San Diego, Calif.

Dr. Krell is a Diplomate of the American Board of Endodontics as well as a past president and past director of the ABE. He also served as a director on the AAE Board of Directors and is the Past President for the AAE Foundation.

Dr. Krell is a member of the Scientific Advisory Board of the Journal of Endodontics and is a reviewer for both the JOE and JADA.

Disclosure: Dr. Krell has no proprietary, financial and/or personal interest pertaining to his presentations to disclose.

Dr. Brent Larson, received his dental degree from the University of Minnesota in 1981, completed a GPR in the Air Force in 1982 and practiced general dentistry until 1985. He received his Certificate and Master’s degree in Orthodontics from the University of North Carolina in 1987. He spent 3 years as an orthodontist in the U.S. Air Force before joining the staff and faculty at the Mayo Clinic where he served as Program Director in Orthodontics and received several “Teacher of the Year” awards. In 1996, Dr. Larson left Mayo for full-time private practice in Rochester, MN, where he continues to practice 1 day a week. In 2004 he returned to full-time academics as Associate Professor and Director of Orthodontics at the University of Minnesota. He has written many scientific articles, contributed book chapters, and given many lectures in the US and abroad. He recently received the Distinguished Dental Alumnus Award from the University of Minnesota.

Dr. Larson is active in organized dentistry both locally and nationally. He is a Past-President of the Minnesota Association of Orthodontists, the Midwestern Society of Orthodontists (MSO) and currently represents the MSO on the AAO Board of Trustees which will lead to becoming AAO President in 2018.

Dr. Harvey Levy, practices general and hospital dentistry in Frederick, Maryland. He emphasizes comprehensive dental care for individuals with anxiety or special needs. He graduated from Tufts University Dental School in 1974, Residency at Eastman Dental Center in 1976, and was a clinical residency director at University of Penn Hospital.

Dr. Levy has earned Mastership plus four Lifelong Learning Service Recognitions by the Academy of General Dentistry along with eight fellowships, five diplomate certificates, and board certification in Integrative Medicine.

His work with patients with anxiety or special-needs has earned him the AGD Humanitarian Award, the American Dental Association Access to Care Award, the Maryland Governor’s Doctor of the Year Award, Morgan State University’s Public Oral Health Care Award, the Maryland State Dental Association’s First Humanitarian Award, Special Care Dentistry’s Saul Kamen Award, and the honor of running the 2002 Olympic Torch.

Dr. Levy also holds nine black belts and was inducted into the US Martial Arts Hall of Fame.

Dr. Donnie Luper, has lectured on dentistry and endodontics internationally in countries including the
USA, Philippines, Malaysia, Thailand and Kenya. He is a member of the ADA, AAE, Tar Heel Endo Society, Southern Endo, and the North Carolina Dental Society.

Dr. Luper received his certificate in Endodontics from the National Naval Dental Center, Bethesda, MD, in 1990 and his dental degree from the University of North Carolina School of Dentistry in 1982. He earned his undergraduate degree from North Carolina State University in 1979.

Dr. Luper practiced general dentistry in the US Navy for 16 years and found his interest in endodontics while completing a three month rotation in the Endodontics Department at the US Navel Air Station in Jacksonville, FL. He is presently in a group private practice with offices in New Bern, Kinston and Greenville, NC.

Dr. Michael Moffitt, received his DDS from Baylor University and, after Naval service, completed his certificate in Prosthodontics from UMKC where he taught briefly. His practice is geared toward creating esthetic solutions and solving complex dental problems. He has been an author and speaker but his true love is completing exquisite dentistry. Dr. Moffitt restored his first implant working with Dr. Don Callan in 1975 and has since restored thousands. He has always enjoyed removable prosthetics and began using locators when they first were introduced.

Dr. Moffitt is a member of the American College of Prosthodontists, The Academy of Osseointegration, The American Academy of Implant Dentistry and is the prosthetic advisor for the North Iowa Dental Seminars. He also enjoys mentoring dentists in the art of comprehensive dentistry and in restoring complex cases.

Dr. James Q. Swift, A native of Manchester, a graduate of Cornell College and the University of Iowa College of Dentistry, Jim Swift has strong Iowa ties.

Dr. Swift has been on the OMS faculty at the University of Minnesota for 27 years. During that time, over 60 OMS have graduated from the residency program. He is the 2011 recipient of the Gies Award for Oral and Maxillofacial Surgery. He was Century Club Professor of the Year in 2001 at the University of Minnesota and received the American Dental Education Association’s Distinguished Service Award in 2009. He is a former President of the American Board of Oral and Maxillofacial Surgery. He is currently Chair of the Board of OMSNIC. He research has been sponsored by the NIDCR at the R01 level. He had authored many scientific articles an chapters. In September 2015, Dr. Swift was given the RV Walker Distinguished Service Award from the American Association of Oral and Maxillofacial Surgeons.

Dr. Sherry R. Timmons
Education:
B.A., Augustana College (1991)
D.D.S., University of Iowa (1995)
Certificate in Oral and Maxillofacial Pathology and Ph.D. in Oral Science, University of Iowa (2001)
Fellow, American Academy of Oral and Maxillofacial Pathology; Diplomate, American Board of Oral and Maxillofacial Pathology

Dr. Timmons became a faculty member in the Department of Oral Pathology, Radiology and Medicine (OPRM) in 2002. Dr. Timmons teaches pre-doctoral and post-doctoral students; treats general dentistry and oral medicine/head and neck pain patients within the faculty practice; and is the Program Director of the Advanced Education Program in Oral and Maxillofacial Pathology. Dr. Timmons is also the director of the Sterilization Monitoring Program and the Health and Safety Officer at The University of Iowa College of Dentistry.

Ebon Turner, B.S. Neuroscience, has spent the last sixteen years working for several major players in the medical and dental industry covering a spectrum of sales management assignments. As a former principle at Med Tech Systems (a medical consultant firm), Ebon gained experience bringing new and innovative technologies to the market place. In 2006, Mr. Turner joined LED Medical Inc. as the Eastern Regional Manager. The company goal is to bring the brilliance of tissue fluorescence to dentistry, as developed by the British Columbia Cancer Agency. The intention is to enhance the detection of oral abnormalities and promote and advocate for early detection
of oral SCC. After several years spent establishing a reputation as a go-to professional for information on oral cancer detection technologies, Ebon now lectures throughout North America on the topic of oral cancer, the importance of early detection, and the role of VELscope within the dental health landscape.

Dr. Juan F. Yepes is an associate professor in the department of pediatric dentistry at Indiana University School of Dentistry and an attending at Riley Children Hospital in Indianapolis, Indiana. Juan F. is a dentist (DDS) and a physician (MD) from Javeriana University at Bogotá, Colombia. In 1999, Juan F. moved to the USA and attended the University of Iowa and the University of Pennsylvania where he completed a fellowship and residency in Radiology and Oral Medicine respectively in 2002 and 2004. In 2006, Juan F. completed a Master in Public Health (MPH), and in 2011 a Doctoral Degree in Public Health (DrPH) both with emphasis in Epidemiology at the University of Kentucky College of Public Health. In 2008, Juan F. completed a residency program in Dental Public Health at University of Texas, Baylor College of Dentistry. Finally, Juan F. completed a residency program and a masters in pediatric dentistry at the University of Kentucky in 2012.

Juan F. is board-certified by the American Boards of Pediatric Dentistry, Oral Medicine, and Dental Public Health. He is an active member of the American Academy of Pediatric Dentistry, American Academy of Oral Medicine, American Medical Association, Hispanic Dental Association, American Academy of Oral and Maxillofacial Radiology, American Association of Public Health Dentistry, International Association of Dental Research, International Association of Dento-Maxillo-Facial Radiology, and American Dental Association. Juan F. is a fellow in dental surgery from the Royal College of Surgeons at Edinburgh. He is a member of the editorial board of the journals Pediatric Dentistry and Oral Surgery, Oral Medicine, Oral Pathology, and Oral Radiology. He has many years of experience in medicine, medically compromised children and dental protocols, diagnosis and radiology in children and shares these experiences in outstanding lectures.

Approved PACE Program Provider
FAGD/MAGD Credit
Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. 1/1/2013 to 12/31/2016

CEU Requirements for Dental Hygienists and Dental Assistants Courses - Staff Courses
You must complete a separate CEU card to receive credit for courses. You will receive the card when you enter the lecture room. You must be on time for the lecture or you will not receive the card and, therefore, will not receive credit. Record the verification code announced at the end of the lecture on the card and return the card to the course monitor at the end of the lecture to receive credit. In exchange for the completed CEU card, you will receive a proof of attendance card.

Staff must print course passes when registering online. (Paid courses only)
Staff must show their course pass before being admitted to the lecture.

Course passes for limited attendance courses will be placed in dentist registration packets. Dentist must show course pass to be admitted to the lecture.

Register Online at www.iowadental.org
Advance registration deadline
April 14, 2016 @ 5:00 p.m. (online, mail and fax)
VISIT THE IOWA DENTAL FOUNDATION BOOTH!!

Stop by and pick up a bottle of wine! For only $25 each, choose a bottle of white or a Bottle of Red!

All tickets also go into a drawing for an Apple I-Watch!!!

THINGS YOU NEED TO KNOW

ONLINE REGISTRATION DEADLINE:
April 14, 2016 @ 5:00 P.M.
(Advance registration deadline by mail or fax is also April 14)

Registering online is a convenient and time-saving process. Following these steps will ensure that your online registration will be efficient and easy.

PLEASE! Read this information before registering online:

1. Do not register online if you do not have a working printer immediately available. You will need to print confirmations, staff badges, and staff course passes.
2. If unsolicited e-mails are set up to go directly to your junk e-mail, set up info@iowadental.org as an accepted e-mail address. You will not receive a confirmation if the e-mail address is not accepted. (You must bring confirmation with you to pick up annual session materials.)
3. Register using your full name. Do not use nicknames. This will ensure that your CEU credits will be processed accurately.
4. If you do not have an ADA #, enter your license # or another 9-digit number.
5. At the end of the registration process, you will receive a message on the screen that reads “You have successfully registered”. Click to continue.
6. Wait for the screen to appear with a box that reads “Click here to print badges and course passes”. The staff badges and course passes will show on the screen and you must print them. Do not close out this page without printing the badges and course passes as the badges and course passes will not be saved in the system. The badges and course passes are not sent to you by e-mail.
7. You will receive a confirmation by e-mail. This is generated automatically by the system. You should receive this within a few minutes of your successful registration. Print the confirmation and copy for each person listed.
8. If you have any problems with registering online, such as not receiving a confirmation or not being able to print badges, call the IDA immediately for assistance (800-828-2181). (A minimal fee may be charged for administrative services provided after online registration closes on April 14.)

Please remember - you must print your staff badges before you close out the registration screen. If you do not bring your staff badges, there will be a $25 processing fee on-site to print the badges.

Course passes and event tickets for dentists will be included in the registration packet.

Staff must print course passes when registering online.
(Paid courses only)

Attention: Dental Assistants/Dental Hygienists

All dental assistants and dental hygienists must register with the Iowa Dental Association to attend exhibits, table clinics, or courses sponsored by the IDA. These events will be held at the Iowa Events Center. Being registered with the IDAA or IDHA will not admit you to these events.

If you register online, there is no fee if you print your badge and bring it with you. If you do not bring the badge with you, there is a $25 fee. You must pick up a pink badge holder at the Iowa Event Center.

$25 registration fee by mail or fax. If you register by mail or fax, badges may be picked up at the Iowa Events Center.

$75 on-site registration fee.

Advance registration deadline is April 14, 2016 at 5:00 p.m.
(this includes online, mail and fax).

Questions? Contact the Iowa Dental Association at 800-828-2181 or info@iowadental.org

Register online at www.iowadental.org

Staff who register online and print out their badge may pick up a pink badge holder in the Exhibit Hall.

General registration questions may be directed to info@iowadental.org.

Dentists:

When registering online, please note there are two separate categories for ADA Member Dentists.

ADA Member Dentist (11+ years in practice)
ADA New Member Dentist (10 years or less in practice)

Please be sure to register under the correct category.

APPLICATION FOR PRESENTATION OF A TABLE CLINIC
IOWA DENTAL ASSOCIATION ANNUAL SESSION

SATURDAY, MAY 7, 2016 / 9:00 – 11:00 AM
VETERANS MEMORIAL COMMUNITY CHOICE CREDIT UNION CONVENTION CENTER
DES MOINES, IOWA

DEADLINE TO SUBMIT APPLICATIONS: APRIL 14, 2016

Table Clinics are an important aspect of our state dental meeting. This is your opportunity to share knowledge at a one-on-one level. Your registration fee for the Annual Session will be waived. Table clinics will be assigned on a first come, first served basis, with priority given to dentists. Table clinic applications will be accepted on availability of space capacity. To qualify to present a table clinic, dentists must be members in good standing with the American Dental Association.

Clinic set-up time: 7:30 – 8:30 a.m., Judging starts at 8:30 a.m.
Clinicians should limit presentations to 3-5 minutes for judges.

Clinic Chair Signature of Approval ____________________________ Date ____________

Iowa Dental Association, P.O. Box 31088, Johnston, IA 50131 / FAX 515-334-8007
Table Clinics Procedures and Regulations for Clinicians

1.) Table Clinic applications must be submitted to the IDA by April 14. Applications will be accepted on availability of space capacity.

2.) Table clinics present basic clinical and research information related to the practice of dentistry using photographs, charts, diagrams, narrative materials, Powerpoint presentations, and poster boards.

3.) All table clinic applications are reviewed by the Table Clinic Chairperson for content, quality of work and relevancy to the general membership. The chairperson accepts those applications which, in his/her judgment, best relate to the improvement of the health of the public and the science and art of dentistry. The IDA Table Clinics chairperson reserves the right to reject or cancel the appearance of any person or to reject the material submitted for exhibition.

4.) Clinicians must be at their table during the assigned times. Set up for the table clinics will be one hour prior to judging start time on assigned date.

5.) The IDA will provide a 30” wide x 6’ or 8’ long x 42” high table, stools, electrical outlet, and small screen at no cost. A sign with the clinic number, title of presentation, and names of clinicians will also be provided. All A-V equipment must be brought by the clinician.

6.) While commercial organizations may sponsor table clinics, these must be purely scientific and devoid of commercialism. Advertising, sales or solicitation are not permitted in the table clinic presentations. Violation of this policy will result in immediate closure and removal of the table clinic from the area.

7.) Trade Names: Promotion of any product or service by trade name is absolutely prohibited. Drugs and products mentioned in the presentation generally should be identified by chemical formula or by generic name. Trade names may be used for identification and classification purposes only. Should the use of trade names be advantageous to the attendees’ understanding of the presentation, the rationale should be submitted in writing to the table clinics chair (30) days in advance of the clinic requesting approval.

8.) Film/Video Production: Daylight projection of filmed materials is permissible, but sound devices may not be used unless accompanied by individual earphones.

9.) Patient Demonstration: Demonstrations involving procedures on patients or live models generally will not be permitted unless given prior written approval by the Table Clinics chair. Only if, in the opinion of the chair after consultation with representatives of the appropriate scientific and legal agencies of the Iowa Dental Association, such demonstrations do not violate local law and would contribute significantly to the advancement of the art and science of dentistry will such demonstrations be allowed.

10.) Handouts are the responsibility of the clinician. The IDA will not pay to duplicate handouts.

11.) The IDA is not responsible for any loss or damage to the clinician’s material or equipment.

12.) Table clinics will be judged by a panel of two judges selected by the Table Clinics Chair. Standard evaluation forms provided by the IDA will be used to judge the clinics. Judging will start one-half hour prior to clinics start time. Clinicians are requested to limit their presentations to 3-5 minutes for the judges.

13.) Certificates and Awards: Each clinician will receive a participating certificate. Certificates of recognition will be presented to the clinicians chosen as honor clinicians. Returning Honor clinicians will receive plaques. Dentists, dental hygienists, and dental assistants will receive (4) CEU’s and a continuing education card.
Join Us for the 2016 Exhibitor’s Reception!
Thursday May 5, 2016 • 5:00 p.m. to 7:30 p.m.
Iowa Events Center Exhibitor Hall

Kick off this year’s IDA Annual Session with this year’s exhibitors!
