Introduction

This is the 14th edition of the RESIDENTIAL RESOURCE GUIDE FOR JUVENILES. We are committed to provide Assistant Public Defenders with updated information regarding residential programs both in Maryland and out of state. This is a daunting task because facilities come and go and change contracts with the Department of Juvenile Services.

This edition includes a section for DJS Approved Out-of-State Programs designed to help Assistant Public Defenders and social workers to better advocate for their clients. Hyperlinks to website for the different facilities are also available. This feature allows you to click on a web address and be linked directly to the program's web site. Please refer to the individual program's website to get further information about the programs. E-mail addresses are included when available.

This edition is available on Adobe Reader. This will enable the manual to be sent via e-mail for more people to have access to the material. The manual is also available on the Office’s website http://www.opd.state.Maryland.us/, as well as the OPD Home Page.

Thanks to everyone who worked so hard at revising this edition of the manual making sure all the information is accurate.

We hope this manual helps you in your representation of juvenile clients in addressing disposition planning and pending placement issues.
