MONTANA TECH
EMPLOYEE BENEFITS

The following is a summary explanation of the payroll deductions and fringe benefits provided to eligible employees of Montana Tech.

A. REQUIRED DEDUCTIONS

1. F.I.C.A. (SOCIAL SECURITY/ MEDICARE)

The Federal Insurance Contributions Act and the related “Medicare” provisions cover all employees except full-time students. The Act provides that the employer and employee each contribute an equal percent of the Employee’s gross earnings during the calendar year. The current rates are 6.20% FICA on earnings up to the maximum earnings limit and 1.45% Medicare on all earnings.

2. FEDERAL INCOME TAX WITHHOLDING

With few exceptions, Montana Tech is required by law to withhold federal income tax from the earnings of all employees. The amount withheld is based on salary and variables such as marital status, number of dependents, and other items allowed by law. Each employee is responsible for filing a Form W-4 (withholding exemption certificate) with the Payroll Office. A new form must be filed whenever the information becomes outdated and, in some instances, a new Form W-4 must be filed annually.

3. STATE INCOME TAX WITHHOLDING

State law requires Montana Tech to withhold state income tax from the earnings of all employees. The amount withheld is based on salary, marital status, number of dependents and other items required or allowed by law. Withholding are based on the W-4 submitted unless otherwise stated by the employee.

4. RETIREMENT CONTRIBUTIONS FOR FACULTY & CONTRACT PROFESSIONAL STAFF

A new faculty or contract professional employee hired into a retirement eligible position must participate in the Optional Retirement Plan (TIAA-CREF) unless such employee has a fund balance with either PERS or TRS. In those instances, the employee elect to stay with PERS or TRS instead of joining the Optional Retirement Plan (contact Personnel Office for eligibility requirements).

Montana Teachers’ Retirement System

TRS is a defined benefit retirement plan. A defined benefit plan guarantees a specific benefit based on a percentage of the member’s final average compensation and years of credited service. Several optional forms of monthly benefit are available upon retirement. Individual account balances are used solely for the purpose of refunding a member’s contributions. Benefits are funded through a combination of employee and employer contributions along with earnings on
those contributions.

Members become vested after completion of 5 years of service. Vesting entitles a member to monthly benefits upon retirement or disability. A vested member who is not eligible for retirement may leave accumulated contributions with TRS after termination and apply for a retirement benefit as early as age 50.

The current employee contribution rate is 7.15% of wages and the employer contribution rate is 9.85% of wages.

Further information is provided in the Montana Teachers Retirement System Handbook available online at http://www.trs.mt.gov.

**Optional Retirement Program (TIAA-CREF)**

The Optional Retirement Program (ORP) was created by an act of the Legislature in 1987. The law grants the Board of Regents the authority to administer the ORP. The Board of Regents selected TIAA-CREF as the organization to provide annuities under the ORP.

TIAA-CREF is a defined contribution plan in which employee and employer contributions represent a percent of the member’s salary. The benefits actually received at retirement will depend on the amount of contributions, the amount of investment gains and losses, the member’s life expectancy at retirement, and the retirement option selected.

The current employee contribution rate is 7.044% of wages and the employer contribution rate is 5.956% of wages. In addition, the employer is required to pay 4.72% to TRS to cover an unfunded liability created when the university system was allowed to offer an alternative retirement plan.

Members are fully and immediately vested in all retirement and death benefits in their TIAA and CREF annuities based on contributions and investment earnings.

5. **RETIREMENT CONTRIBUTIONS FOR STAFF**

Employees, other than faculty or professional staff, are covered by either the Public Employees’ Retirement System (PERS) or TIAA-CREF. Individuals employed in covered positions who work at least 960 hours in any fiscal year must become members.

**Public Employees’ Retirement System**

PERS offers either a defined benefit retirement plan or a defined contribution retirement plan.

- **Defined Benefit**: A defined benefit plan guarantees a specific benefit based on a percentage of the member’s final average compensation and years of credited service. Several optional forms of monthly benefit are available upon retirement. Individual account balances are used solely for the purpose of refunding a member’s contributions. Benefits are funded through a combination of employee and employer contributions along with earnings on those contributions. The current employee contribution rate 6.9% and the employer contribution rate is 7.17% of wages.
 Defined Contribution: In a defined contribution plan the employee and employer contributions are a percent of the member’s salary. The benefits actually received at retirement will depend on the amount of contributions, the amount of investment gains and losses, the member’s life expectancy at retirement, and the retirement option selected. The current employee contribution rate is 6.9% and employer contribution rate is 4.19% of wages. The employer must also contribute an additional amount to PERS to cover an unfunded liability associated with offering employees this optional retirement program.

A member terminating with less than 5 years of membership service is not vested and may be required to withdraw accumulated employee contributions plus accrued interest. A member, who terminates, with at least 5 years of membership service may elect to leave the accumulated contributions on deposit with PERS and be eligible for retirement benefits as early as age 50.

Optional Retirement Program (TIAA-CREF)

The 1999 Legislature passed laws establishing an optional retirement plan for staff. TIAA-CREF is the organization, other than PERS, selected to provide benefits under the optional retirement plan.

TIAA-CREF is a defined contribution plan in which employee and employer contributions are a percent of the member’s salary. The benefits actually received at retirement will depend on the amount of contributions, the amount of investment gains and losses, the member’s life expectancy at retirement, and the retirement option selected.

The current employee contribution rate is 6.9% of wages and the employer contribution rate is 4.49% of wages. The employer must also contribute an additional amount to PERS to cover an unfunded liability associated with offering employees this optional retirement program.

Members are fully and immediately vested in all retirement and death benefits in their TIAA and CREF annuities based on contributions and investment earnings.
