Corporate Overview
Security, Government & Infrastructure (SG&I)
Intergraph helps the world work smarter.

Our software and solutions improve the lives of millions of people through better facilities, safer communities, and more reliable operations.

Intergraph is part of Hexagon.
**EXPERIENCED**  More than 40 years of service

**GLOBAL**  4,500 employees in 40 countries

**INNOVATIVE**  12% of revenue invested in R&D annually (SG&I)

**PROVEN**  Leader in industries we serve

**RELIABLE**  Global support 24/7
Smart solutions

Intergraph Security, Government & Infrastructure (SG&I) is the leader in smart solutions for emergency response, utilities, transportation, and other global challenges.

Our smart solutions are built upon:

- **Asset and incident management** for industry-specific challenges
- **Geospatial** data creation, visualization, processing, and management
- Data and system integration and interoperability
- **Analytics** for improving current and future operations

Smart solutions lead to smarter decisions and better results.
Smart Response

Safety, Security & Emergency Management

The global leader in computer-aided dispatch, Intergraph provides integrated solutions for public safety, security, and emergency planning and response.

**Computer-Aided Dispatch**
- Manage incidents and response

**Mapping & Analysis**
- Map and analyze incidents and emergencies

**Records Management**
- Create, update, and share public safety records

**Business Intelligence**
- Report and analyze enterprise data

**Monitoring & Security**
- Detect and assess threats
“Intergraph...enabled us to respond quickly and effectively to one of New Zealand’s biggest natural disasters.”

Ian Pickard
Assistant National Commander
New Zealand Fire Service
With Intergraph, São Paulo reduced ambulance response times by 72 percent.
With Intergraph, German Federal Police secure the country’s airports, railways, and borders, protecting millions of people each day.
Intergraph helped City of Virginia Beach share critical information during a natural disaster in **seconds instead of hours.**
Smart Utilities

Electric, Gas, Water & Communications

A leader in infrastructure management, Intergraph provides integrated solutions for designing and operating utility networks.

**Asset Management**
Design and maintain utility networks

**Operations**
Plan, manage, and deliver utility services

**Outage Management**
Detect and restore electricity outages
“The strength of Intergraph technology and its more than 40 years of experience in the utilities sector...were key factors in our decision to partner with the company on this project.”

Sergio Casati
Project Manager
ABB
Smarter Decisions for Power

Intergraph helped Oncor Electric Delivery detect and correct 20 percent of outages before customers knew they occurred.
Intergraph helped AQUASIS improve productivity across its network of water and wastewater companies, saving one business €900,000 in a year.
Intergraph helped EPB become the **first company** in the U.S. to offer 1 GB-per-second Internet speed to all its customers.
Smart Transportation
Roads, Rail & Ports

A leader in infrastructure management, Intergraph provides integrated solutions for designing and operating transportation networks.

**Asset Management**
Design and maintain transportation networks

**Operations**
Plan, manage, and deliver transportation services
“I believe a company’s biggest asset is its reputation, and Intergraph has that proven reputation of dependability and unwavering partnership.”

Jay Adams
Project Manager
Oklahoma Department of Transportation, United States
With Intergraph, City of Edmonton reduced collisions by nearly 40 percent, saving the city $781 million (CD).
Intergraph helps improve asset management on three of the busiest routes in London’s Underground.
Smarter Decisions for Ports

Intergraph helps Fraport improve planning and operations at Frankfurt Airport, the third busiest airport in Europe.
Smart Urbanization

Land, Infrastructure & Services

A partner to cities and local governments, Intergraph provides integrated solutions for managing land, infrastructure, and services.

**Land Administration**
Survey, register, and regulate land and property

**Asset Management**
Plan, manage, and maintain assets and infrastructure

**Public Services**
Plan, manage, and deliver public services
“Without local and constant support from Intergraph and its experience with such huge projects, a lot of things could have gone wrong.”

Adrian Gabor
Vice Mayor
Brasov City Hall, Romania
Intergraph helps Zurich share 600 layers of information across departments, improving urban planning and services.
With Intergraph, Christchurch City Council can manage asset information, aiding $4 billion (NZD) worth of infrastructure investments.
Smarter Decisions for Public Services

With Intergraph, City of Bilbao created a map-based portal that provides real-time information to citizens regarding traffic, parking, WiFi, and more.
Smart Resources
Land, Water & Resources

A partner to mapping and resource organizations, Intergraph provides integrated solutions for managing land, water, and resources.

**Land Administration**
Survey, register, and regulate land and property

**Agriculture and Natural Resources**
Monitor and manage exploration, production, and conservation

**Education and Research**
Map and analyze resource challenges
“Intergraph always follows the new technological trends, which ensures we get the most advanced systems that exist in the area.”

Dr. Maria João Seiça Neves
Head, Office of Geographic Information & Cadaster
Region of Madeira, Portugal
Intergraph helped Ordnance Survey create a new system to manage one million changes to the U.K. landscape each year.
With Intergraph, Adirondack Park Agency improves wetlands preservation, while saving **thousands of dollars** each year.
Intergraph helped the Department of Agriculture and Food control 70 percent of insect swarms, saving crops and vegetation in Western Australia.
Smart Defense
Security, Relief & Assistance

A pioneer in geospatial intelligence, Intergraph provides integrated solutions for national security, disaster relief, and humanitarian assistance.

Intelligence Exploitation
Fuse and analyze data from multiple sources

Intelligence Production
Produce instant and accurate maps
With Intergraph, “we are now well-equipped to provide...accurate and reliable geospatial information for operation development and decision-making support.”

Chief, Imagery and Geospatial Information Division
Mexican Navy
With Intergraph, the U.S. Missile and Space Intelligence Center can store, manage, and view vast amounts of intelligence data in seconds, saving analysts up to three hours per day.
Smarter Decisions for Disaster Relief

Intergraph helped the U.S. Army rapidly manage and share thousands of images and expand mapping capabilities for hurricane relief operations.
With Intergraph, the American Association for the Advancement of Science and Amnesty International pinpointed the location of human rights violations in conflict zones.
