1 Overview

1.1 Introduction

The *Youth Opportunities* program provides one-off, time-limited grants to non-government organisations and local government to fund projects that enable young people to initiate, lead, manage and/or participate in community development activities.

2 NSW Government Priorities

2.1 NSW 2021: A Plan to Make NSW Number One

*NSW 2021* is the Government’s 10 year plan to rebuild the economy, deliver quality services, renovate infrastructure, restore accountability to government, and strengthen our local environment and communities.

The *Youth Opportunities* program is designed to address three Goals in the Plan:

- To make it easier for people to be involved in their communities (Goal 24). Priority Actions to achieve this goal include:
  - increase opportunities for children and young people to contribute and connect with other groups in their communities;
  - build supportive connections between community members using sport, recreation and cultural activities, events, facilities and venues; and
  - increase opportunities for people to participate in local community events, activities and decision making.

- To involve the community in decision making on Government policy, services and projects (Goal 32). A Priority Action to achieve this goal is:
  - increase opportunities for people to participate in local decision making.

- To strengthen the NSW skill base (Goal 6) by supporting young people to make a successful transition from school to further education, training and employment.

Further information on *NSW 2021* can be found online at [http://2021.nsw.gov.au](http://2021.nsw.gov.au)
3 Program Description

3.1 About the Youth Opportunities program

The Youth Opportunities program is based on a range of evidence which shows that with the proper support and opportunity all young people can address and overcome a range of risk factors in their lives.

Projects funded under the Youth Opportunities program are to involve young people in all aspects of the project.

Formal and informal participation processes can be used by projects. The NSW Government supports organisations using a range of participation mechanisms, including International Association for Public Participation (IAP2) methods. IAP2 principles acknowledge that those who are affected by a decision should be involved in the decision-making process. More information on IAP2 can be found at http://www.iap2.org.au/.

Strategies which focus on young people’s participation, engagement, and inclusion in the community will be a key component of funded projects meeting the program objectives.

3.2 Key Principles

Youth Opportunities is based on the principles of:

- inclusiveness for all young people;
- community participation;
- community service (including volunteering); and
- partnering with young people in the development of community based networks.

3.3 Program Aim and Objectives

Aim:
To provide time-limited grants for new projects that enable young people to lead and participate in community development activities.

Objectives:
The objectives of the program are to:

1. increase the number of youth-led and youth-driven community activities throughout NSW;
2. engage young people in projects which overcome barriers to participation in the community;
3. enable young people to develop and strengthen teamwork, communication, leadership and decision-making skills;
4. improve young people’s access to community-based activities that promote community involvement including sport and recreation, cultural and other activities;
5. recognise the contribution that young people make to their local communities; and
6. provide young people with the knowledge and skills to link them with further training and employment opportunities, or improve their educational outcomes.

Program measures that align with the Youth Opportunities program objectives are at Schedule A. Successful grant applicants will be required to report on each of these measures.
