     Next track (audio source)
   - Triple click:
     Previous track (audio source)
7. Volume down
8. Ear cushion retaining rib
9. Microphone
Setup

1

Choose ear cushion size for comfortable fit and good sound. Go to www.logitech.com/support/ue900 for more information about choosing ear cushions.

2

Attach ear cushions to earphones. Push cushion past rib for secure fit.

3

Connect earphones to a device with 3.5 mm headphone jack.
For air travel, use Airline adapter to reduce volume spikes caused by in-flight announcements.
For devices with a ¼-inch (6.35 mm) input jack, use the ¼-inch (6.35 mm) adapter.
Wear the earphones
1. Wrap cable around ear.
2. Insert right earphone (marked “R”) in right ear and left earphone (marked “L”) in left ear.
3. Gently pull cable tight to remove slack.
Note: Do not remove earphone from ear by pulling on cable.

Changing cables

1. Hold earphone. Hold cable where it attaches to earphone.
2. Gently pull cable from earphone.
3. Attach new cable. Cable snaps into place.
Note: Make sure to connect the “R” (right) cable to the “R” earphone and the “L” (left) cable to the “L” earphone.
Cleaning the earphones

Remove cushion and wipe with clean cloth.

Storing the earphones

1. Wrap cable around three fingers.
2. Place earphones in case.

Troubleshooting

- **No sound or faint sound**  Fully insert cable connector into headphone jack on your device. Check cable attachment to earphone. Try increasing earphone volume, and check the volume in your media application.

- **Diminished sound quality or weak bass**  Check ear cushion seal. Try another ear cushion size. Check for blockage where ear cushion connects to earphone. Remove blockage with clean cloth.

- **Earphones not working with a computer**  Specify audio settings for your operating system:

  Windows® (Control Panel)
  - Voice playback and recording: Computer’s soundcard
  - Sound playback: Computer’s speakers
Mac® OS (Preferences)
• Sound input: Internal microphone
• Sound output: Internal speakers
For more information, go to www.logitech.com/support/ue900. Also refer to your operating system documentation.
• Detached ear cushion  Make sure to press ear cushion past rib on earphone.
