Purpose
The purpose of the Academic Enrichment Camp is to provide each child with a relaxed and exciting learning environment in which the basic skills of each of the subject areas will be taught.

Program of Activities
Work will be assigned according to grade (and ability level). Students will be assigned to groups according to THE GRADE THEY WILL BE ENTERING IN FALL 2014.

Instructors will evaluate the campers the first two days of camp. After an initial evaluation, campers will be taught using modified learning games, challenging activities, day-to-day learning experiences and worksheets. The children will review materials taught during the previous academic year and will also be introduced to new materials. Multiplication tables and division facts will be reviewed for grade appropriate campers. Common core standards will be introduced at all grade levels.

Age appropriate art projects will be taught to the campers as well.
Daily Activity Schedule
Each student will be assigned to a group based on the grade they will be entering in Fall 2014. Students in Kindergarten-Fifth grade will be assigned to one classroom and one instructor who will cover a variety of subjects pertinent to their grade level. Students in sixth through eighth grades will have a different instructor for each subject: math, language arts, art and computers. There will be three subjects taught each day. The campers will be escorted from room to room by a teacher’s aide.

Sample Schedule
K - 5th Grade
Campers will receive instruction in Art, Language Arts, Math, Science, and Computers throughout the 4 weeks of camp.

6th - 8th Grade
Campers will receive daily instruction in Language Arts and Math. Also for two weeks, each camper will receive daily instruction in Art and Computers.
