Butterflies Alive!

EXHIBITION MARCH 5TH - JUNE 12TH 2016

THE BUTTERFLIES ARE BACK! Take flight with Butterflies Alive!, returning Spring 2016. This special exhibition brings the magical experience of a wild butterfly encounter up close and personal, providing you and your students with the thrilling experience of being surrounded by not just a single butterfly, but hundreds of butterflies and moths flying freely.

Take a stroll in the “Flight House,” the greenhouse-like structure that contains the butterflies, moths, and flowering plants, or peek into the “Pupae Emergence Cabinet” where you can see new butterflies and moths emerge safely from their chrysalis before being released into the Flight House right in front of your eyes! Outside of the greenhouse, enjoy a hands-on interactive education station with activities and crafts.

Butterfly Teacher’s Open House

THURSDAY, MARCH 3RD 4:30PM-6:00PM

Get a FREE sneak peak of Butterflies Alive!, the exhibition and the OMNI film, Flight of the Butterflies. It’s all FREE for teachers! See Flight of the Butterflies in the OMNI Theater at 6:00pm with free popcorn and drink provided by the Science Spectrum. Tour the new spring exhibit, Butterflies Alive!, find out about Traveling Outreach Science Programs that can come to your school, and speak with a customer service representative about a field trip for your class. A guest is allowed to join in on this all-inclusive free preview night. RSVP to andrea@sciencespectrum.org

Look inside for more information on the OMNI film, Flight of the Butterflies

SPONSORED IN PART BY THE HELEN JONES FOUNDATION

RESERVATIONS - (806) 745 -2525
FLIGHT OF THE BUTTERFLIES • OPENS MARCH 4th
Based on a remarkable true story, the film immerses audiences in a triumphant journey of perseverance that spans thousands of miles and several generations – tracking real monarch butterflies to their mysterious Mexican winter haven where audiences will discover a spectacular sight: hundreds of millions of REAL live butterflies in one of the most amazing places on Earth: www.flightofthebutterflies.com

WONDERS of the ARCTIC • SHOWING THROUGH SPRING 2016
The Inuit and their ancestors adapted and thrived for thousands of years in what is arguably the harshest environment on earth. Today, the Arctic is the focus of intense research. Instead of seeking to conquer the north, scientist pioneers are searching for answers to some troubling questions about the impacts of human activities around the world on this fragile and largely uninhabited frontier. www.wondersofthearctic.com

MYSTERIES of the UNSEEN WORLD • SHOWING THROUGH SPRING 2016
Mysteries of the Unseen World reveals phenomena that can’t be seen with the naked eye, taking audiences to a world of different dimensions of time and scale. Experience events too slow for human perception; see the beauty, drama, and even humor of phenomena that occur in a microscopic realm and understand that what we see is only a fraction of what you can discover. www.mysteriesunseenworld.com

ROBOTS • AVAILABLE FOR SCHOOL GROUPS THROUGH SPRING 2016
Today’s robots are nothing short of astonishing. What does it take to make a humanoid robot—a robot that can do almost anything? How can we do it without the benefit of a human brain? How close are scientists to replicating human characteristics? ROBOTS is a look at what makes us human, how far machines can go to look and act like us, and how humanists are changing our world. www.robotsfilm.com

EDUCATIONAL RESOURCES
For more info call (806) 745 - 1216 EXT. 224

FOSS KITS
Hands-on science on YOUR school’s schedule! A ready-to-go, hands-on science experiment kit for your classroom that meets TBSD standards. (Available for Grades K-2, 3-4, 5-6)
Visit www.fossweb.com to learn more about the FOSS Kit system. To reserve a kit contact Anna Jolley at anna.jolley@houstonisd.org.

VIRTUAL FIELD TRIPS / ITV
Visit the museum without ever leaving your classroom! See exciting science demonstrations and tours through this Region 17 ESC and Science Spectrum partnership. All programs are FREE to participated. For additional information or to see a complete listing of programs offered, visit science4us.net/default.aspx?h=virtual-tours
To schedule a virtual field trip, visit the website above or contact Matt Davis at madavis@esc17.net for more info.

TUESDAY, MARCH 29th 10:00AM-2:00PM
TODAY’S ROBOTS: EXPLORE TECHNOLOGY AND INNOVATION
In this program your students will: A. Build and race robots to learn about engineering; B. Build robots that make music to learn about computers and programming; At the end of the program, students will take home a robot they made themselves!

FRIDAY, MAY 6th 10:00AM-2:00PM
SPACE DAY
Join us for our Astronauts in Space program where we will look at the real astronauts and their experiences in space! Students will learn about the process of 우주브레인 and the three different ways we can fly to space. They will get their chance to role-play their own astronaut "missions" in one of our space simulators.

NEW! CREATURE FEATURES
NEW! Creepy Crawlers (Spiders, Insects, On My)
Looking for that great learning experience that will excite and motivate your students? The Science Spectrum provides teachers and students with unique experiences and hands-on learning only possible outside the classroom. Discover well over 250 interactive hands-on science exhibits, the breath-taking OMNI Theater, and daily live science demonstrations. The Science Spectrum is the perfect place to begin your students’ life-long learning experiences!

Before you make reservations:
- Have multiple days available that your group could attend if there is a conflict with your first choice, especially for field trips in April and May.
- Please make reservations with us a minimum of two (2) weeks in the Fall and four (4) weeks in the Spring prior to your visit.
- If you would like to use our free lunch room facility during your visit, please make your reservation in advance, as space is limited. (Lunches are not provided)
- Groups with students who have special needs may want to consider scheduling a trip on less busy days during the Spring. Earlier in the week is typically less crowded.

Day of your trip:
- When attending an OMNI Theater film, please make plans to arrive thirty (30) minutes before your scheduled film. Groups from out of state will need to consider that all show times are given in Central Standard Time (CST).
- Have accurate separate head counts of your students, teachers, and additional adults for your entire group.
- Please be prepared to make one single payment for the entire group, rather than by class or person.
- Teachers or Aides that must personally accompany special needs students will be exempt from museum admission. OMNI Theater and Butterflies Alive! rates still apply. Call for more information.

Please inform parents & chaperones that Membership benefits are not valid with group or school visits.

For more Field Trip information call: (806) 745 - 2525 ext. 234
