SwitchView® 1000 Series
Rack Mount KVM Switches

Benefits

- Single-user, rack-mounted SwitchView 1000 4-, 8- and 16-port switches are specifically designed for SMB server rooms.
- SwitchView 1000 bundles ship with the unit and KVM cables simplifying your order process.
- Uses a three-in-one KVM cable that supports USB or PS/2 target devices.
- Ability to connect multiple units together without a complicated configuration.
- The SwitchView 1000 can be cascaded to support up to 256 target devices.
- Ability to customize scanning times between attached systems with programmable autoscan.
- SwitchView 1000 switches are backed by Avocent’s 2-year warranty and technical support.

Compact KVM Switches Designed for SMB Server Rooms

Designed specifically for SMB server rooms, the rack-mounted SwitchView 1000 switching system provides PS/2 and/or USB connectivity for users and target devices. The single-user switch, available in 4-, 8- and 16-port models, provides simple control via its on-screen display (OSD) and it supports video resolutions up to 2048 x 1536, enabling it to handle the most demanding server-room applications.

With its 1U-high design, the SwitchView 1000 switch fits into standard racks and doesn’t compete for valuable rack space in SMB server rooms. The cost-efficient switch is flash upgradeable for fast and easy updates and its password protection feature gives you the benefit of added security access to your business-critical servers.
