</tbody>
</table>

Please note: When installing a new Cox drive cone please insure the drive plate surfaces are in good condition with no grooves. It is necessary to deglaze the drive plate surface so the new cone will not slip generating excessive heat & damaging the drive cone. As the new cones can no longer contain asbestos over heating will cause premature failure. A quick way to deglaze the drive plates is to use a 4” disc sander with medium grit paper. This can also be done quickly at each service to reduce drive failure. It is only necessary to take the shine off the surface to give the cone a surface to grip to. Any grooves will need to be machined in a lathe.

### TOL5796

**Mityvac MV8500 Vacuum and pressure gauge kit.**
Ideal for servicing modern small engine carburettors where both vacuum & pressure testing is required. Also suitable for pressure testing chainsaw crankcases when used with correct blocking off plates (not supplied with this kit, refer to relevent chainsaw manufacturer)

**Other features & benefits**
- Provides either vacuum or pressure with equal precision and convenience.
- Features modern, ergonomic design for comfortable, long term use.
- Performs engine performance diagnostics, brake bleeding, fluid transfer, evacuation, sampling etc.
- Includes components needed to perform numerous diagnostic and mechanical tests.

**Kit Includes:**
- Silverline elite hand vacuum / pressure pump with 2" (50mm) diameter compound gauge and rubber boot
- 4.5 oz (135ml) fluid reservoir bottle with fluid transfer & storage lids
- 4 tapered adapters for connecting to tubing from .09" (2.3mm) to .50" (13mm) I.D
- 2 tapered manifold plugs
- 2 Tapered bleed screw adapters
- 2 Universal bleed screw adapters
- 12 Vacuum cap plugs
- Vacuum line T- adapter
- 5/32" (4mm) I.D x 1/4" (6.4mm) I.D Tubing adapter
- Rubber cupped adapter
- (2) 1/4" (6.4mm) I.D x 24" (610mm) long connection tubes
- 1/4" (6.4mm) I.D x 1 1/2" (40mm) long connection tube
- 1/4" (6.4mm) I.D x 3 5/8" (90mm) long fluid pick up tubes
- 5/32" (4mm) I.D x 3" (75mm) long vacuum test tube
- Master Cylinder Refill Kit
- Custom Moulded Case
- Users Manual

**Specifications:**
- Packed weight: 5.5 lbs (2.5kg)
- Packaged Size: 12.9" x 9.8" x 4.5" (330mm x 250mm x 115mm)

Standard Pack 1

FUEL STABILIZER

New and Improved Formula
- Highly concentrated additive for the treatment of diesel and fuel
- Dissolves, disperses and controls biological contamination in diesel
- Stabilises and removes Fuel Varnish from Unleaded Fuel
- Does not affect seals, hoses and fittings
- Regular use eliminates further problems and regrowth of bacteria and:
  - Improved Fuel Economy
  - More Power
