BUTTERFLY VALVES

HP Series High Performance Butterfly

Double offset valve designed to MSS SP-68, ASME B16.34, and API 609, Category B. Available in lug or wafer body, ANSI Class 150 and 300 in sizes 2 - 1/2” – 36”

Body: A216 WCB carbon steel or ASTM A351 CF8M stainless steel
Disc: ASTM A351 CF8M stainless steel
Stem: 17-4PH stainless steel or 316
Seats: RTFE standard, Virgin PTFE, UHMWPE and others optional

These valves feature a double offset seat and disc design for superior sealing with no leakage and minimal seat contact and wear. The valves are available with on-board actuation direct from the factory, 10 position locking lever handles (up to 8 inch), gear operators on all valves, for other actuation options or accessories, consult the factory.

M Series – Industrial Butterfly*

Concentric valve to MSS SP-67, Available in lug or wafer body, 2” – 48” 2”-12” rated at 200 WOG, 14”-48” rated at 150 WOG

Body: Cast iron ASTM A126 Class B or Ductile iron ASTM A536 65-45-12
Disc: Ni plated DI, AlBr, or stainless steel, nylon and epoxy coated optional
Stem: 416 or 316 stainless steel
Liner: EPDM, Buna, FDA Neoprene, PTFE, Hypalon, and many others optional

These valves feature a phenolic backed rubber seat with optimized disc and stem design for reliable sealing, low torque, and long life. Milwaukee’s M Series Valves from 2” through 12” are approved by the U.S. Coast Guard for Category A service. Lug butterfly valves 2” through 12” are bi-directional dead end service to 200 psi max. BUNA and EPDM only. All others 150 psi. uni-directional field repairable. Valves 14” through 24” rated for uni-directional dead end service to 100 psig. The valves are available with on-board actuation direct from the factory, 10 position locking lever handles (up to 12 inch), gear operators, or other options – consult the factory.

• Available in Low Lead ML133E/233E/333E.
**C Series – Commercial Butterfly**

Concentric valve to MSS SP-67, Available in lug or wafer body, 2”-24”. 2”-12” rated at 200 WOG, 14”-24” rated at 150 WOG, CL Series WQA tested and certified against NSF/ANSI 372 for “lead free” compliance.

- **Body:** Cast iron ASTM A126 Class B
- **Disc:** AlBr
- **Stem:** 416 stainless steel
- **Liner:** EPDM

These valves are based on our M Series, but intended for commercial application in HVAC and similar systems. The valves feature a phenolic backed rubber seat with optimized disc and stem design for reliable sealing, low torque, and long life. Milwaukee’s C Series Valves from 2” through 12” are approved by the U.S. Coast Guard for Category A service. Lug butterfly valves 2” through 12” are bi-directional dead end service to 200 psi max. Valves 14” through 24” rated for uni-directional dead end service to 100 psig. The valves are available with on-board actuation direct from the factory, 10 position locking lever handles (up to 12 inch), gear operators, or other options – consult the factory.

**H Series – High-Pressure Industrial Butterfly**

Concentric valve to MSS SP-67, Available in lug or wafer body, 2” - 24” 2"-12” rated at 250 WOG, 14”-24” rated at 200 WOG

- **Body:** Ductile iron ASTM A536 65-45-12
- **Disc:** Ni Plated DI, AlBr, or stainless steel, nylon and epoxy coated optional
- **Stem:** 416 or 316 Stainless steel
- **Liner:** EPDM, Buna, Viton, FDA Neoprene, PTFE, Hypalon, and many others optional

The H Series is tested and rated for higher-pressure services. These valves feature a phenolic backed rubber seat with optimized disc and stem design for reliable sealing, low torque, and long life. Milwaukee’s M Series Valves from 2” through 12” are approved by the U.S. Coast Guard for Category A service. Lug butterfly valves 2” through 12” are bi-directional dead end service to 200 psi max. BUNA and EPDM only. All others 150 psi, uni-directional field repairable. Valves 14” through 24” rated for uni-directional dead end service to 100 psig. The valves are available with on-board actuation direct from the factory, 10 position locking lever handles (up to 12 inch), gear operators, or other options – consult the factory.

**U Series – Low-Pressure Butterfly**

Concentric Valve to MSS SP-67, Available in lug or wafer body, 2” – 12” rated at 50 WOG

The U Series is a low pressure version of our M Series valve, with a reduced interference seat to reduce torque. These valves are available with a special low friction coating on the liner as an option to further reduce torque and wear in dry bulk services. The valves are available with on-board actuation direct from the factory, 10 position locking lever handles (up to 12 inch), gear operators, or other options – consult the factory.

Specialty Valves

Our product offering and our reach into the market place is wide-ranging. You lead us to new places every day. Whether you stock, specify, or install our products, we thank you. But we know no matter how extensive the line we offer you today, you may still need something that we currently don’t do. We produce hundreds of thousands of valves every year for specific OEM’s or demanding service conditions. It is truly a day-to-day activity. Some are minor modifications that may require only a simple change. Others are complete product development projects designed to meet the demanding safety needs or harsh applications of the user.

If you know of business that you are not getting because it appears to be too specialized, let us take a look and see if we can conquer that project with you. If you have a service that is constantly causing you concern, give us a call. Our application engineering and technical service teams stand ready to help you grow that side of your business, as well as meeting your every day needs. Our background in the Commercial, Industrial, and very specialized Marine business should give you confidence to entrust your most difficult applications to our experienced staff, helping you grow your business and providing you with the great service you deserve.
