Overview

This 6th grade language arts curriculum has been crafted to be a work in progress. The intent of this document is that it will constantly be evolving. This mirrors concepts students will see again at the high school level if they continue their education within the Lakewood City School District. Please consult the companion document (Grade 6 ELA COS Scope and Sequence) for the overview to the year with the listing of the Common Core Standard statements.

Essential Question

The “Essential Question” highlights the usefulness, the relevance, and the greater benefit of a unit. It is often the “So what?” question about material covered. It should be answerable, at least to some degree, by the end of the unit, but it should also have more than one possible answer. It should prompt intellectual exploration by generating other questions.

Content Focus (Mini Lessons)

These are the specific student outcomes for the unit. They describe the transferable ELA content and skills that students should possess when the unit is completed. The objectives are often components of more broadly-worded standards and sometimes address content and skills necessarily related to the standards. The lists are not exhaustive, and the objectives should not supplant the standards themselves. Rather, they are designed to help teachers “drill down” from the standards and augment as necessary, providing added focus and clarity for lesson planning purposes.

Focus Standards

These standards are taken directly from the CCSS and have been identified as especially important for the unit. Other standards are covered in each unit as well, but the focus standards are the ones that the unit has been designed to address specifically.

Suggested Resources

Included with this document is a long list of potential reading (literature and informational), art, and film. This is also not intended to be set in stone and is meant to be used as resource options that a teacher can use to explore the theme of any given unit. It is hoped that as teachers use this document, they will add to it any resources that are found to be suitable to the themes and lessons.
