Class checklists have been created for each of the Baseline and Quarterly Checkups. When appropriate, replacement pages were created to the Checkups to more closely align with the Common Core State Standards. Consider using the Shopping Problems 5-7 on pages 82-84 in the Number Corner Student Book for additional problem solving with multi-digit computation.
August & September Assessment

Baseline Assessment

Overview
Sometime during the first week or two of school, students spend three Number Corner periods completing a five-page baseline assessment in place of regular workouts. Students complete the first page one day during Number Corner, pages 2–4 the next day during Number Corner, and page 5 the next.

Timing
Within the first 2–3 weeks of school

Skills
• counting by ones forward and backward from 1 to 100
• counting by twos, fives, and tens to 100
• writing, comparing, and ordering numbers to 100
• quickly recalling addition facts and related subtraction facts for sums equal to 10
• solving and creating word problems
• recognizing coins by name and value

You’ll need
• Baseline Assessment, pages 1-5 (Blacklines NC 0.A – 0.E, run 1 copy of each sheet on a transparency; run a class set)
• Baseline Assessment Class Checklist (Blackline NC 0.F, run as needed)

We recommend that you administer this assessment within the first two or three weeks of school to get a sense of students’ comfort level with key concepts and skills taught in first grade. This assessment may also prove useful if you don’t already have your own school or district instrument to use in gauging the skill level of your incoming second graders.

Baseline Assessment, Part 1: page 1
The first page is a set of 20 addition facts and a set of 20 subtraction facts. We recommend that you conduct this part of the assessment as a timed test to get a sense of children’s fluency with basic facts to 10. After you have distributed a copy of the sheet to each student, look it over with the class. Explain that you are going to give them 2 minutes to complete as many of the addition facts as they can. Then you will take a break and give them 2 minutes to complete as many of the subtraction facts as they can. After that, you will give them more time to finish any of the addition and subtraction combinations they didn’t get to the first time around.

When the students understand what is going to happen, start the 2-minute timing for the addition section. At the end of 2 minutes, give students a calm and quiet signal to stop, and ask them to draw a vertical line on their paper directly after the last addition problem they completed, so you can see how many they finished in the given time. Model this at
the board, if necessary. Remind them that they will have time to complete any problems they didn’t finish in a few minutes.

Before you have the class start the subtraction section, take a minute or two to be certain children understand these are subtraction, not addition combinations. Do a couple of simple subtraction problems on the board with the class as a warm-up before you begin the 2-minute timing.

<table>
<thead>
<tr>
<th>Baseline Assessment</th>
<th>page 1 of 5</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Add</strong></td>
<td></td>
</tr>
<tr>
<td>2 + 2 = ____</td>
<td>1 + 9 = ____</td>

</tr>
<tr>
<td>6 - 3 = ____</td>
<td>8 - 6 = ____</td>
</tr>
<tr>
<td>7 - 5 = ____</td>
<td>9 - 8 = ____</td>
</tr>
</tbody>
</table>

When you have finished the 2-minute timing for the subtraction section, ask students to draw a vertical line on their paper directly after the last subtraction problem they completed, so you can see how many they finished in the given time. Next, give students another 10 minutes or so to complete any remaining addition and/or subtraction combinations. Then collect the papers, and reassure students that if they didn’t finish all the combinations, or found some of them difficult, they’ll have many opportunities this year to develop more speed and proficiency.

**Baseline Assessment, Part 2: pages 2–4**

At the start Number Corner the second day of testing, distribute copies of pages 2–4 to students. Give them a minute to look through the pages and examine the tasks. Then place page 2 on display at the overhead, and direct students’ attention to the problem at the top of the page, marked with a light bulb. Explain that this is a practice problem, and you will all work together to solve it. Then work with input from the class to count forward by 1’s and fill in the numbers that are missing from the sequence.
When students understand what to do, direct them through the tasks on pages 2 and 3, one by one. Use the small picture at the beginning of each task to help children navigate.

**Teacher** Please find the row that starts with a spider and the row that starts with a present. Put your fingertip on the spider. Put your fingertip on the present. In these two rows, you’ll need to count forward by ones to fill in the missing numbers. This is a task for you to do on your own. Put your pencil down when you have finished both rows.

Give students adequate time to finish each task before you move on to the next, and keep the group together; there is no need to time any of these tasks.

When you reach page 4, read the two problems with the class and have them go to work independently. Ask students to raise their hands if they need help as they’re working. Let them know that you can help them read either of the problems again if they’re not sure what the words say.
Baseline Assessment, Part 3: page 5

Look over page 5 of the Baseline Assessment with the students. Explain that they need to fill in the bubble to show the name and value of each of the coins at the top of the sheet. When they are finished with that, they need to write the numerals 1–31 in the boxes on the lower part of the sheet as neatly as they can.

You can use the checklist shown on the next page (Blackline NC 0.E) to compile assessment results and get an overview of students’ strengths, as well as areas in which they will need more work. The column labeled “CCSS” (Common Core State Standards) indicates which of the Common Core requirements for Grade 2 are addressed by each item.

Although you will provide additional instruction in basic facts, counting, and word problems in the coming months, most of the skills on this assessment are typical of year-end expectations for first graders. If some of your students score less than half the points possible, you may want to refer to the support suggestions on the checklist to provide them with extra help in skills with which they may be struggling. Too, students who score less than a quarter of the possible points may be candidates for special services.

7 - 1 &= \_\_\_ \quad 9 - 4 &= \_\_\_ \quad 7 - 4 &= \_\_\_
\end{align*}
\]
3. Counting Patterns

Practice 5, 6, 7, _____, _____, 10, _____, _____

a. Count forward to fill in the missing numbers.

15, 16, _____, 18, _____, _____, _____

88, 89, _____, _____, 92, _____, 94

b. Count backward to fill in the missing numbers.

25, 24, 23, 22, _____, _____, _____

100, _____, 98, _____, 96, 95, _____

c. Count by 2’s to fill in the missing numbers.

2, 4, _____, 8, _____, 12, _____

80, 82, 84, _____, _____, 90, _____
Baseline Assessment  page 3 of 5

3. Counting Patterns, continued

d  Count by 5’s to fill in the missing numbers.

5, 10, ____, 20, ____, ____, 35

65, 70, ____ , ____ , 85, ____, 95, ____

4. Circle the number in each pair that is more.

a. b. c.

48  36  51  15  27  72

5. Circle the number in each pair that is less.

a. b. c.

24  73  63  36  81  18

6. These numbers are mixed up! Write them from least to most on the lines below.

Practice  34  19  43  6

least  ____  ____  ____  most

65  18  79  81  36  25

least  ____  ____  ____  most
7. Draw a picture and write a word problem to match the equation.

$$9 - 4 = 5$$

8. Solve the problem. Show your work with numbers, pictures, and/or words. Write the answer on the line.

Maria had 3 flowers. Her mom gave her some more flowers. Now Maria has 11 flowers. How many flowers did Maria’s mom give her?

Maria's mom gave her _______ flowers.
Baseline Assessment  page 5 of 5

9. Fill in the bubble to show the name and value of each of the coins below.

<table>
<thead>

Grade 2, Number Corner Checkup 1 Class Checklist (1 sheet)  
4/11
Number Corner Check-Up 2 sheet 1

Add

\[
\begin{array}{cccccccc}
9 & 9 & 13 & 7 & 7 & 10 & 3 \\
+1 & +9 & +0 & +7 & +8 & +4 & +10 \\
\hline
\end{array}
\]

\[
\begin{array}{cccccccc}
3 & 6 & 6 & 9 & 9 & 8 & 8 \\
+2 & +6 & +7 & +5 & +6 & +8 & +7 \\
\hline
\end{array}
\]

Subtract

\[
\begin{array}{cccccccc}
4 & 15 & 9 & 17 & 10 & 10 & 16 \\
– 1 & -5 & -0 & -10 & -5 & -2 & -8 \\
\hline
\end{array}
\]

\[
\begin{array}{cccccccc}
16 & 2 & 6 & 14 & 18 & 6 & 8 \\
– 10 & -1 & -3 & -7 & -8 & -5 & -8 \\
\hline
\end{array}
\]

Count by 100's, 10's, and 1's to find the total in each section below.
Use a centimeter ruler to measure each of these lines.

Write the times.

Draw the hands to show the times.

6:15 9:25 1:50
Circle the coins you'd need to pay for each item below.

<table>

**Total Score/Level of Proficiency**

| 27 pts |

* Meeting Standard: 21 – 27 points (75–100% correct)  
Strategic: 7 – 13 points (25–49% correct)  
Approaching Standard: 14 – 20 points (50–74% correct)  
Intensive: 6 points or fewer (24% or less correct)
1 Use the calendar pattern to answer these questions:

a What shape would you see on the 20th?

________________________
________________________

b What shape would you see on the 23rd?

________________________
________________________

c What shape would you see on the 4th Thursday?

________________________

d What shape would you see on the 5th Monday?

________________________

2 Write the numbers in the box in order on the lines from least to greatest.

342  314  293  308  423  392

________________________ least   ________________________ greatest
3a What does this part of the number 672 mean? Draw or write.

3b What does this part of the number 672 mean? Draw or write.

3c What does this part of the number 672 mean? Draw or write.

4 Fill in the bubble to show the correct expanded notation for each number.

<table>
<thead>
<tr>
<th></th>
<th>362</th>
<th>418</th>
<th>108</th>
<th>450</th>
</tr>
</thead>
<tbody>
<tr>
<td>a</td>
<td>30 + 60 + 2</td>
<td>400 + 1 + 8</td>
<td>100 + 8</td>
<td>400 + 5</td>
</tr>
<tr>
<td></td>
<td>300 + 6 + 2</td>
<td>400 + 10 + 8</td>
<td>10 + 8</td>
<td>400 + 50</td>
</tr>
<tr>
<td></td>
<td>300 + 60 + 2</td>
<td>40 + 10 + 80</td>
<td>1 + 0 + 8</td>
<td>45 + 0</td>
</tr>
</tbody>
</table>
5 Add. Show your work.

\[
\begin{array}{ccc}
54 & + & 29 \\
62 & + & 34 \\
57 & + & 57 \\
\end{array}
\]

6 Subtract. Show your work.

\[
\begin{array}{ccc}
65 & - & 34 \\
82 & - & 39 \\
58 & - & 19 \\
\end{array}
\]

7 Write the times.

\[
\begin{array}{ccc}
\_\_ : \_\_ & & \_\_ : \_\_ & & \_\_ : \_\_
\end{array}
\]
8 Fill in the bubble to show the name and value of each coin.

<table>
<thead>
<tr>
<th></th>
<th>penny</th>
<th>nickel</th>
<th>dime</th>
<th>quarter</th>

</tbody>
</table>

9 Circle the correct amount of money.

89¢
Circle enough money to pay for 1 duck.

15¢ each
Circle enough money to pay for 3 pencils.
10 Solve the story problems below. Use numbers, pictures, and/or words to show how you got the answer.

a The pet store has 2 fish tanks. There are 49 fish in one of the tanks and 28 fish in the other tank. How many fish are there in all? Show your work.

b The pet store had 71 cans of cat food. They sold 48 cans of cat food. How many cans of cat food do they have left? Show your work.
Grade 2 Number Corner Checkup 4 Class Checklist

**Note:** Let students know that in order to get full points for problems 5 and 6, they need to use strategies more efficient than counting by 1’s, counting on, or counting backwards. Such strategies include base 10 sketches, use of the open number line, front-ending, etc.
