Yale University School of Medicine - P.A. Surgical Residency Program

Urgent Care Clinic

Our Urgent Care Clinic is staffed by experienced physician assistants and nurse practitioners who treat acute illnesses and injuries. They are available to residents who get sick and can’t get in to see their primary care physicians or if their illnesses or injuries don’t warrant a visit to the emergency room. If you have a primary care physician outside of this facility, we will need to get a referral prior to your visit.

Linda Beadle, FNP, RNC  
Northeastern University

Scot Sallaway, PA-C, MHP  
Northeastern University

Welcome to Mansfield Health Center

Our goal is to provide the highest quality health care to our patients. We are providing the following information to you so that we can work together to meet your health care needs.

Office Hours
Mon - Thursday, 8am – 8pm, Friday, 8am – 6pm.

Urgent Care Hours
Monday - Thursday, 8am – 6pm, Friday, 8am – 5pm.

Phone Information
Monday - Friday, 8am – 2pm and Saturday, 8am - 2pm.

Scheduling Appointments
We do our best to schedule your follow-up and complete physical exam appointments at times that are convenient for you. We save a limited number of same-day appointments for patients who have urgent issues. We ask that when you are deciding to make an appointment, keep in mind that open slots fill up quickly.

Canceling Appointments
We understand that unexpected issues come up that require patients to cancel and reschedule their appointments. We ask for at least 24 hours notice when canceling or rescheduling your appointment. This will allow us time to schedule another patient who may be in need of urgent care.

What To Bring To Your Appointment
You should arrive for your appointment at least 10 minutes early for registration. We will ask for your insurance card and photo ID at each visit to ensure we have your current insurance information. We will also verify your home address and contact information at this time.

If you are being seen for a work-related injury or have been in an automobile accident, please bring all related insurance information to your appointment, including claim number. If we do not receive the required information, you will be financially responsible for the bill.

Billing Procedures
In order for us to properly bill your health insurance, we will request your insurance ID card at each visit to ensure we have the most current insurance information on file. Once the insurance company has processed your claim, you will be billed for any non-covered charges, deductibles and/or coinsurance balances.

We understand that health expenses can be unexpected. If you cannot pay your balance in full, please contact our credit office to set up a payment plan.

We also recognize that health insurance can be confusing and our credit office staff is available to help with any questions.

Referrals
Many health insurance companies require you to obtain a referral from your primary care physician before seeing a specialist. If your insurance requires a referral, you must obtain it prior to your scheduled appointment. Due to the increased number of insurances requiring referrals, we kindly ask that you request your referral at least one to two weeks prior to your appointment. This way we can assure your referral is in place at the time of your appointment.

For our Rheumatology and Urgent Care patients, if you do not have a referral at the time of your visit, you will be asked to sign a waiver stating that you will assume financial responsibility for your bill.

Release of Medical Information
Federal laws require all health providers to maintain patient privacy. For patients 18 years of age and older, no health information can be released to another party without the consent of the patient, even to a spouse or other relative. We cannot release medical information without the patient (or parent) signing an authorization to do so. If you have any questions, please see our Privacy Policy for further information.

Let Us Know How We Can Do Better!
We strive to continually improve the service to our patients. We welcome your feedback through our patient satisfaction surveys that we mail to our patients. We encourage you to fill them out when you receive them. You can also contact our Practice Manager to discuss any issues or concerns you may have.

We appreciate that you have chosen us to provide your health care. Thank you!
