Celebrating 30 years of NPR News and Classical Music!
FAMILY BOATBUILDING

Come watch families build their very first boat at the Show! Families will be building the following boats under expert instruction of the boat’s designers. Check out the 2015 Family BoatBuilding event in the Henry B. duPont Preservation Shipyard.

- MANDY, JESSY, & AMANDA — from B&B Yacht Designs
- Chuckanut Kayaks— from Gentry Custom Boats

I BUILT IT MYSELF

SPONSORED BY INTERLUX

Admire a collection of owner-built and restored boats on The Village Green. This year we have over 25 boats on display, and Interlux will present the I Built It Myself “Best in Show” award on Sunday.

CONCOURS d’ELEGANCE

SPONSORED BY HERITAGE MARINE INSURANCE

All boats exhibiting at the Show are eligible to participate in the 2015 Concours d’Elegance. Heritage Marine Insurance has assembled a panel of experienced judges to determine this year’s award recipients. Everyone who attends the Show is encouraged to participate by picking up a ballot at the gate and voting for their favorite boat! Please be sure to return your ballot at the gate or the Woodenboat Subscription booth on your way out. Winners, including the People’s Choice award, will be announced in the Sept/Oct issue of Woodenboat.

WOODENBOAT’S LIFETIME ACHIEVEMENT AWARD

Richard S. Pulsifer, designer and builder of the Pulsifer Hampton, is the recipient of the 2015 Woodenboat Lifetime Achievement Award. Pulsifer started building these boats in 1973, and today has built over 111. While not only making a traditional design popular again, Dick Pulsifer has done a standup job getting the next generation interested and skilled in boatbuilding, by annually taking apprentices from Bowdoin College and introducing them to wooden boatbuilding.

A BRIEF HISTORY OF MYSTIC SEAPORT

Settlers in the Mystic area found good wood, sheltered water, and flat land - ideal for shipbuilding. By mid-19th century, ship and boat yards lined the six-mile Mystic River.

Two yards operated on the present Museum site: George Greenman & Co., beginning in 1837, and Charles Mallory & Sons, in 1851. As shipbuilding waned in the 1880s, textile mills and other manufacturing developed. The 19 acres that are now Mystic Seaport had only a row of houses along Greenmanville Avenue and a few shipyard and mill buildings.

Mystic Seaport, founded in 1929, actively pursues the collection, preservation, and exhibition of artifacts and skills related to maritime history and its influence on American life. It is a privately operated, non-profit institution.

Maritime collections, watercraft, and buildings have been brought here to provide you with a view of life in New England’s small coastal communities as they developed in a rapidly industrializing 19th century.

Small Boats MONTHLY
FROM THE EDITORS OF Wooden Boat

- An online-only magazine about small trailerable boats you can store and maintain at home.
- Features a range of designs for oar, paddle, power, and sail.
- Each issue features two in-depth boat profiles, as well as techniques, adventure, travel, and reader built boats.
- Works on your PC, Mac, tablet, and smartphone.

Running treacherous rivers in a handcrafted open-hulled drift boat is a test of ability, nerve and equipment. **WEST SYSTEM Epoxy** holds my boat together so at least I don't have to worry about my equipment...just those "other" two!

Greg Hatten, builder and rower of *Obsession*
