VENDOR LISTING OVERVIEW

The following pages list CES Procurement Partners who have responded to and received an award for a public solicitation for goods and services to meet our Members and Participating Entities needs. Procurement Partners may have been awarded one or more solicitations and, therefore, may have more than one contract listed. Awarded Procurement Partners are listed in alphabetical order and the following information is provided for each:

- Company Name
- Primary Company Address
- Contact information for the individual identified as the sales representative, including telephone and toll free numbers, fax number, email address and company web site, if available.
- Contract listing, which includes the contract number and description of solicitation. The following make up the contract number:
  - Solicitation Number – Number CES assigns to each of its solicitations that is utilized to establish a contract with individual Procurement Partners (2012-001). The first four digits represent the fiscal year the solicitation was issued and awarded (2012). The last three digits represent the sequence during the year in which the solicitation was issued; (001 = the first solicitation issued and/or adopted from an outside source).
  - Category Number – The next six numbers represent the category assigned by CES.
  - Procurement Partner Short Name – Abbreviation assigned to each vendor (i.e. JDC for John Deere Company).
  - Solicitation Type – Indicates the type of solicitation utilized to acquire the products and services (RFP = Request for Proposal) or (RFB = Request for Bid).
  - Solicitation Originator – Indicates if the solicitation was issued by the Association of Educational Purchasing Agencies (AEPA), a multi-state association [A]; Cooperative Educational Services (CES) [C]; or the New Mexico State Purchasing Division (NM SPD) [N].
  - Procurement Partners who have been awarded contracts to only provide their products and services in an identified CES Procurement Region will be indicated in the contract description, i.e. (Region 4). If no notation is made, they have been awarded all regions.
  - General Procurement Partner overview providing a brief summary of the Procurement Partners’ areas of expertise.

For updated Procurement Partner and awarded contract information please call your designated Member Service Representative. (MSR contact information can be located on the back cover of the Bluebook)

---

ADDITIONAL SERVICES PROVIDED BY CES

In addition to procurement, Cooperative Educational Services provides a full range of services to support its Members and Participating Entities. These include:

- Ancillary Services (SLP, OT, PT, RT, SW, Psychologist, Diagnostician)
- Supplemental Employee Benefits
- Online Teacher Placement (NMREAP)
- Professional Services
- In-Service Training
- Annual Facility Managers’ Training Workshop
- Annual Educational Symposium
- Medicaid Third-Party Billing for School-Based Health Services
- Needs Assessments
New Mexico is a large state geographically. For this reason, CES has divided the state into eight (8) procurement regions. CES asks respondents to solicitations to indicate in their response to which of these procurement regions of the State they wish to provide services. The eight procurement regions are described below:

Region One (1) – Aztec, Bloomfield, Central, Dulce, Farmington, Gallup-McKinley and Zuni School Districts; Navajo Preparatory School, Pine Hill Schools, San Juan College, Shiprock Associated Schools, and University of New Mexico - Gallup Branch

Region Two (2) – Chama Valley, Cuba, Española, Jemez Mountain School, Los Alamos, Mesa Vista, Pecos, Peñasco, Pojoaque Valley, Questa, Santa Fe and Taos School Districts; New Mexico School for the Deaf, Northern New Mexico College, Santa Fe Community College, Santa Fe Indian School, University of New Mexico - Los Alamos Branch and University of New Mexico – Taos Branch

Region Three (3) – Cimarron, Clayton, Des Moines, Las Vegas City, Maxwell, Mora, Mosquero, Raton, Roy, Santa Rosa, Springer, Wagon Mound and West Las Vegas School Districts; Luna Community College and New Mexico Highlands University

Region Four (4) – Albuquerque, Belen, Bernalillo, Estancia, Grants-Cibola, Jemez Valley, Los Lunas, Magdalena, Moriarty-Edgewood, Mountainair, Quemado, Rio Rancho, Socorro and Vaughn School Districts; Alamo Navajo School, New Mexico CYFD, New Mexico Institute of Mining and Technology, New Mexico State University at Grants, University of New Mexico and University of New Mexico - Valencia Campus

Region Five (5) – Clovis, Dora, Elida, Floyd, Fort Sumner, Grady, House, Logan, Melrose, Portales, San Jon, Texico and Tucumcari School Districts; Clovis Community College, Eastern New Mexico University and Mesalands Community College

Region Six (6) – Artesia, Carlsbad, Dexter, Eunice, Hagerman, Hobbs, Jal, Lake Arthur, Loving, Lovington, Roswell and Tatum School Districts; Eastern New Mexico University-Roswell, New Mexico Junior College, New Mexico Military Institute and New Mexico State University at Carlsbad

Region Seven (7) – Alamogordo, Capitan, Carrizozo, Cloudcroft, Corona, Hondo Valley, Ruidoso and Tularosa School Districts; Mescalero Apache School, New Mexico School for the Blind and Visually Impaired and New Mexico State University at Alamogordo

Region Eight (8) – Animas, Cobre, Deming, Gadsden, Hatch Valley, Las Cruces, Lordsburg, Reserve, Silver and Truth or Consequences School Districts; New Mexico State University and Western New Mexico University

Note: CES utilizes the public school district service areas to identify each of its procurement regions. Other public educational institutions such as charter schools, community colleges, colleges and universities, BIE schools and Participating Entities are considered to be in the region of the public school district where their institution is physically located. A listing of CES Members and Participating Entities may be viewed by going to www.ces.org.
What is the process for ordering through CES?

Select Procurement Partner (Vendor) from CES Blue Book;

Contact Procurement Partner and request quote;

Create Purchase Order (PO) to CES, referencing selected Procurement Partner; and

Send PO and quote to CES.

CES will check pricing against our contract, verify all required paperwork has been received from Procurement Partner and issue PO to Procurement Partner from CES.

Procurement Partner will provide services to Entity and will invoice CES.

CES will invoice Entity.

Entity will pay CES.

CES will pay Procurement Partner.

For any other questions regarding doing business with CES, please contact our Business Office (505) 344-5470 or your Member Service Representative.
Additional Purchasing Information

There are three ways to use CES’ Cooperative Procurement. 1) Select an appropriate Procurement Partners/Vendors listed in our Blue Book alphabetically by Vendor name, or the products, services, or construction listed in the Index as needed. 2) Order online directly with available Vendors that are listed in the ‘Online Ordering’ section below. These Vendors display a computer icon by their name in the Blue Book. 3) Food items can be purchased from our selected companies by issuing a blanket purchase order to CES and then ordering directly from the food vendor.

Blue Book Orders

If you are not sure of the price or item number, call the vendor’s contact person listed in the Blue Book to receive assistance. If you do not know the vendor, you may try searching online at www.ces.org. If you need other assistance in procurement, please call your CES Member Service Representative (MSR).

Once you know what you want to order, have selected a vendor and have received accurate prices and item numbers, submit your purchase order and the vendor’s quote to CES for the products and/or services needed. Within your purchase order list the CES vendor’s name and contract number to clearly identify who you are placing the order with. The PO needs to be made out to CES.

When CES receives your purchase order, prices will be verified with the vendor’s CES contract. A CES purchase order will then be sent to the vendor.

The vendor will ship your order directly to you. Your purchase order number will appear on the shipping label to facilitate verification of the order. At the time of shipment, the vendor will invoice CES.

When CES receives the vendor’s invoice, prices will be verified against CES’ purchase order. Upon this verification, CES will generate an invoice. It should be noted that the CES one percent (1%) administrative fee is included in the vendor’s prices for most of the products and services offered.

After you receive CES’ invoice, prepare a voucher and send your payment to CES. CES will then remit payment to the vendor. CES does not pay vendors until the Member/Participating Entity has paid CES.

Online Ordering

CES’ online procurement option allows its Members/Participating Entities to place orders with selected vendors for school, office, art, science, janitorial, industrial, maintenance and computer supplies, computer equipment, printers, accessories, software, A/V equipment, etc., in a faster and easier way than through the traditional procurement method! CES Members/Participating Entities can go online and order directly from designated online vendors. If you want to use this option you will need to contact the vendor to get set up on their system under the CES contract.

Orders are processed and shipped through their regular channels. The vendor will invoice your organization directly. (Note: The CES administrative fee is included in the invoice price.) The following are the current CES authorized online vendors. Please contact the vendor’s sales representative for details.

- Officewise Furniture and Supply
- BSN Sports/Sports Supply Group
- CDWG LLC
- Childcraft Education Corp – School Specialty
- Frey Scientific – School Specialty
- Quill Corporation
- Sax Arts & Crafts – School Specialty
- School Outfitters
- Sportime, LLC – School Specialty
- Staples
- Sysco
- Troxell Communications
Food Purchasing

Utilization of the food contract from CES eliminates the administrative functions and time required for bid preparation, solicitation, advertisement, evaluation and award process. It reduces the time required by a food service director or manager to perform these functions, thus creating time and labor savings. The ultimate goal of CES Food Procurement is to provide to its Members and Participating Entities the opportunity to acquire quality food at the best possible cost.

Food contracts are for a an initial one-year period with 90-day price adjustments, contract expiration and any extensions are specified in the applicable RFP; additionally, milk prices are adjusted monthly and produce prices are adjusted weekly. Bid items reflect the needs and wants of the end user – the Members’ food service department. Nutritional data is supplied by the vendor to CES and is available for any of the Members in preparation of the nutritional data books required by the USDA Student Nutrition Meal Programs.

Participating Entities

In accordance with the terms and conditions of its JPA, CES Board Policies and the New Mexico Procurement Code, CES has established another group of user agencies called “Participating Entities,” utilizing a cooperative purchasing agreement. This agreement allows local public bodies and public agencies to take advantage of CES’ cooperative purchasing program. There is no application fee for the entity; no annual membership fee for the entity; and there is a 1% administrative fee embedded in the vendor’s contract price.

The CES JPA provides for cooperative procurement in accordance with the New Mexico State Procurement Code. 13-1-135 NMSA 1978 of the procurement code also allows local public bodies and state agencies to take advantage of cooperative procurement through the CES JPA. While membership in the JPA is limited to public educational institutions, the Board Policy provides for non-member Participating Entities to use CES’ programs. The following entities are allowed to enter into a Participating Entity agreement with CES.

A. Federal Agency [25 USC 3001 (4)] is defined as any department, agency, or instrument of the United States, any executive department, military department, government corporation, government-controlled corporation, or other establishment in the executive branch of government, including the Executive Office of the President or any independent regulatory agency established through legislative
and/or administrative action.

B. State Agency [13-1-90 NMSA 1978] is defined as any department, commission, council, board, committee, institution, legislative
body, agency, government corporation, educational institution or office of the executive, legislative or judicial branch of the
government of this state. "State Agency" includes the purchasing division of the General Services Department (GSD) and the state
purchasing agent, but does not include local public bodies.

C. Local Public Body [13-1-67 NMSA 1978] is defined as a political subdivision of the state and its agencies, instruments and institutions
thereof, including: two-year post-secondary educational institutions, school districts and local school boards and municipalities, except
as exempted pursuant to the Procurement Code [13-1-28 NMSA 1978]

D. Non-Profit, Non-Public Educational institutions and other Non-Profit Organizations (Section 501(c)(3) of the Internal Revenue Code,
Federal Tax Code) is defined as charitable, religious, educational, public service, support and scientific organizations, entities,
corporations that qualify as exempt organizations under Section 501(c)(3) of the Internal Revenue Code, or corresponding section of
the Federal Tax Code.
LEGAL AUTHORITY

The Procurement Code (Sections 13-1-98.A and 13-1-135) states that Cooperative Procurement is authorized and exempt from the Procurement Code as stated below:

Any state agency or local public body may either participate in, sponsor or administer a cooperative procurement agreement for the procurement of any services, construction or items of tangible personal property with any other state agency, local public body or external procurement unit in accordance with an agreement entered into and approved by the governing authority of each of the state agencies, local public bodies or external procurement units involved (11-1-1 to 11-1-7 NMSA 1978).

CES is formed by the Revised and Amended Joint Powers Agreement to Establish an Educational Cooperative (JPA), which specifically authorizes cooperative procurement. Every public school district in the State, as well as many universities, two-year colleges, charter schools, BIE schools and state educational institutions, are parties to the JPA as entered into by the governing body of each party. Membership is open to all public educational institutions in New Mexico. Each Member receives a copy of the JPA, CES Board Policy and CES Procurement Guidelines.

WAIT!

YOUR INPUT COUNTS! CES issues several multi-category RFBs and RFPs each year in an attempt to make procurement easier and more cost-effective for its Members and Participating Entities. The categories CES specifies in its solicitations are, in part, a product of comments received from our Members and Participating Entities. If something you are looking for is not listed in the CES Blue Book, please call us. CES will make an effort to include your requested products and services in its RFP/RFB cycle. Remember that purchasing from CES contracts streamlines your procurement process and provides you with lower prices. The more our Members/Participating Entities use CES contracts, the more power CES gains in obtaining better future discounts from vendors.

EVALUATION COMMITTEE

CES invites and encourages its Members and Participating Entities to participate and get involved with the CES solicitation process. For each solicitation issued, CES facilitates, coordinates and invites end users (staff members of various agencies) to assist CES in the solicitation process. This allows the end users to have a say in the types, kinds, levels and quality of products, services and vendors that are offered through CES’ procurement program. If you are interested in volunteering to serve on an evaluation committee, or would like more information, please let us know by contacting CES’ procurement office.

OTHER SOURCES OF VENDORS

**TexBuy External Procurement Agreement:** Cooperative Educational Services (CES) has an External Procurement Agreement with Region 16 Education Service Center (TexBuy), located in Amarillo, Texas. The New Mexico Procurement Code allows for an agency in New Mexico (CES) to purchase from agencies outside New Mexico (IEC) without the New Mexico (CES) agency receiving RFPs or RFBs if certain conditions are met. CES and IEC have met the conditions and an External Procurement Agreement has been completed. This allows vendors under IEC contracts to supply products/services to schools in both states at the same cost. Through this Agreement, CES Members get the quantity discount afforded by combining all Member institutions in both states.

**AEPA:** Twenty-six educational service agencies across the United States have joined together to form the Association of Educational Purchasing Agencies (AEPA) to produce one collective Invitation for Bid (IFB) each year. From this IFB, a potential vendor prepares one response for approval by AEPA and award by members throughout the country. Through this single IFB, selected vendors are then able to provide their products and services to agencies serving more than 22 million students.
## CES CONTRACT SUMMARY

The chart below shows when existing contracts will next be considered for renewal and their expiration dates. Contracts are renewed according to specific criteria. This chart is for informational purposes only, and CES may re-bid contracts or cancel vendors in its best judgment. Contact the CES procurement office for up-to-date information on solicitations.

### Award Extension Criteria

The CES/AEPA awards are for one year with the opportunity of extending contracts up to a total of four (4) years. It is CES’ policy not to renew a contract if:

- After each year, the vendor has a dollar volume of less than One Thousand Dollars ($1,000) or less than four (4) purchase orders,
- The vendor’s products do not meet standards expected by CES Members and Participating Entities,
- The vendor’s service is not up to the standards expected by CES Members and Participating Entities,
- The vendor’s products and/or services are the subject of two (2) unresolved written complaints from CES Members or Participating Entities,
- The vendor has violated one or more Terms and Conditions of the award,
- CES has decided to re-bid this category and no contracts are being extended.

RFP C - Heavy Equipment, Parts, Accessories, Supplies and Related Services  
John Deere Shared Services, Inc. doing business as John Deere Construction Retail Sales is a wholly owned subsidiary of Deere & Co. Deere & Co. is the world's largest makers of farm equipment and is a major producer of construction, forestry and commercial equipment. Deere Construction Retail Sales (JDCRS) corporate office works hand-in-hand with the local independent John Deere Dealership. After the dealership sends your equipment specifications to the JDCRS, our Account Manager sends the dealership the quote reflecting applicable discounts to present to the customer. The customer's purchase order must be made out to John Deere Construction Retail Sales. JDCRS will order the unit and have the machine shipped to the dealership. The dealership delivers the machine and provides operation and maintenance familiarity training. Upon receipt of the delivery acknowledgement JDCRS will invoice the customer.
Contact your local John Deere Dealership to discuss your construction equipment needs.
