2015 CPT CODES FOR OCCUPATIONAL THERAPY

The following CPT® codes are frequently used by occupational therapists to report services in various settings. Additional codes, such as Case Management, and Psychiatry codes, are sometimes accepted by private insurers for classifying and billing OT services. Not all codes are accepted by all payers, including Medicare. Limitations on use of one or more of these codes may be established by state regulation and/or payer policy. Always review state rules, the official CPT® book, and request information from specific insurers concerning codes, time frames, and payment policy. **NOTE: Medicare requires the use of CPT® 2015 codes effective January 1, 2015.**

The work of the qualified healthcare professional consists of face-to-face time with the patient (and caregiver, if applicable) delivering skilled services. For the purpose of determining the total time of a service, incremental intervals of treatment at the same visit may be accumulated.
